*Lafayette, We Are Here!*

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., September 26, 1957 | A. C. P. Rating | No. 1

## Eight Coeds Chosen As Cheerleaders

Augmented by several coeds, the cheerleading squad will make its first appearance of the semester at the Lafayette football game tomorrow. Following tryouts during Freshman week, the cheerleaders have been practicing and arranging for the acquisition of new uniforms for the girls.

Eight girls have been chosen to cheer with the five men who remain from last year's group. The men will cheer at all games during the coming football season, and each girl will be assigned for five games.

**Tryouts**

At tryouts held on Tuesday, September 17, in the Science Auditorium, head cheerleader Ron Flaig and co-captain Jac Kramer selected the following girls to join the squad: Dolores Gemenden, Sonya Diamanti, Janet Heller, Norma Dias, Ida Diaz, Sara Jean Ruloff, Joelyn Borelli, and Betsy Ziegenfuss. Men on the squad include Joel Podell, Don Michaels, and Asher Krafchick.

Girls on the squad will provide their own uniforms, which will consist of Cardinal crew neck sweaters and grey kilts. The college will provide uniforms for the basketball season, the design of which is yet to be decided. Men will wear the same uniforms as in previous seasons.

## AMI Affiliates With Tau Kappa Epsilon

Alpha Mu Iota, Muhlenberg's only local social fraternity, became affiliated with Tau Kappa Epsilon in May of 1957 and plans to receive its charter from the national organization by the end of October.

Mr. Thomas Cherry contacted the president of the local fraternity, Don Snyder, in April. A member of the formulation committee of the national fraternity, and chapter adviser to the TKE house at the University of Virginia, Mr. Cherry instituted affiliation proceedings. The local chapter demanded a non-sectarian policy, which was agreed upon by the national organization. Tau Kappa Epsilon, the National Inter-fraternity council, and Muhlenberg college gave permission for Alpha Mu Iota to become affiliated in May.

**Petition Drafted**

A petition for admission was drafted by Alpha Mu Iota during the summer months, which will be sent to the national fraternity to be circulated among various chapters. A two-thirds vote of all TKE chapters, plus the vote of the Grand council of Tau Kappa Epsilon, is necessary for admission into the fraternity and the presentation of the charter. Alpha Mu Iota must also petition the Inter-Fraternity council at Muhlenberg for approval.

The local fraternity was formerly a chapter of Phi Sigma Kappa, whose charter was removed in August, 1955. The alumni of Phi Sigma Kappa helped establish AMI in September, 1955. When the current proceedings are completed, Alpha Mu Iota will become the 135th chapter of Tau Kappa Epsilon. There are presently 134 chapters of TKE as well as 32 colonies. National headquarters for the fraternity is located in Kansas City, Missouri.

## First Meeting Planned By Philosophy Group

Alpha Kappa Alpha, national honorary fraternity in philosophy, will hold its first meeting of the 1957-58 term, on October 3 at the home of Dr. Russell W. Stine, 2116 Allen St.

The topic of discussion for the entire year will be "The Approach to Truth." This shall be handled by a series of discussions chronologically, treating first, the ancient world, then the time of Christ, the Medieval period, the Renaissance, etc. Guest speakers will be invited to attend the meetings throughout the year in order that the discussions will have the broadest possible scope.

**Fraternity Purpose**

AKA, in its attempt to scientifically investigate the facts and principals of reality and of human nature and conduct, functions to stimulate thoughtful discussion among and between faculty and students, and to illustrate the advantages of such academic pursuits. Meetings are open to all Muhlenberg students.

## 'Leadership' Theme Of First Chapel

Developing of leadership through patience and courage was the theme of Reverend Paul W. Dieckman's address at the opening convocation ceremony held last Friday in the Egner Memorial chapel. This ceremony officially opened the 110th academic year at Muhlenberg and the first year of co-education. Reverend Dieckman, President of Midland college in Fremont, Nebraska, stressed the importance of persevering a goal of leadership in the college life. He went on to discuss our purpose in college by saying that our main business is to learn; from people, books, and events. Education is not a game; it is a preparation for leadership.

Reverend Dieckman concluded his address by offering a few suggestions as to how to attain leadership. We should first realize our purpose in life. We should then develop an ability to withstand public opinion, and we should follow God.

The convocation ceremony began with the traditional academic procession with Professor Luther Deck presiding as Marshall. This was followed by the Invocation, delivered by Chaplain Bremer, and the Scripture lesson read by Dean Richards. Reverend Dieckman followed with his address.

**Honorary Degrees**

After the address, Reverend Dieckman and the honorable Carlton T. Woodring were the recipients of honorary Doctor of Law degrees. The degrees were conferred upon these men by President J. Conrad Seegers. Reverend Dieckman graduated from Muhlenberg in 1929 and entered the Lutheran Theological seminary in Mt. Airy where he received a Doctor in Divinity degree and a master's degree is sacred theology. He served as vice-president of Wagner college until he became president of Midland college. He has also written a book entitled, "Preparation for What?" published in 1949.

The honorable Carlton T. Woodring is a leading lay church man and a civic leader. He was graduated from Penn State college in 1923 and has served one term in the Pennsylvania legislature and two terms in the state senate. He is also a member of the board of trustees of this institution.

Following the conferring of these, President Seegers officially opened the academic year after which the service was concluded by the singing of the Alma Mater.

## Additional Instructors Appointed To Faculty

Eight of the ten new faculty members are from left to right standing: Mr. Edwin R. Baldridge, Mr. Theodore Maiser, Mr. John A. Griffin, Mr. Robert R. Townsend, and Rev. Jesse B. Renninger. Seated are, from left to right: Miss Joanne H. Stafford and Miss Jean Hecht.

Ten new faculty members have been added to the Muhlenberg staff this fall. They are: Mr. Edwin R. Baldridge, Jr., instructor of history, Dr. John C. Hadder, assistant professor of Biology, Miss Jean Hecht, instructor of physical education, Mr. John A. Griffin, assistant professor of romance languages, Mr. Theodore Maiser, instructor in psychology, the Rev. Jesse B. Renninger, instructor in religion, Miss Joanne H. Safford, instructor in history, Mr. Melville F. Stark, lecturer in art, Mr. Robert R. Townsend, instructor in math, and Rev. Charles J. Bornman will replace Dr. Greth who is on sick leave in the sociology department.

**Mr. Edwin R. Baldridge, Jr.,** instructor of history, received his A.B. from Dartmouth college in 1952 and his M.A. from Lehigh university in 1954. Mr. Baldridge maintains membership in Phi Alpha Theta and Gamma Delta Chi fraternities. Prior to his present position here at Muhlenberg, Mr. Baldridge was a graduate assistant at Lehigh.

**Biology Professor**

**Dr. John C. Hadder,** assistant professor of biology, received his B.S. from the University of Maryland in 1947 and his M.Ed. in 1949. In 1957 he received his Ph.D. at Michigan State university. Dr. Hadder makes his home in Allentown where he enjoys woodworking and photography during his spare hours.

**Miss Jean Hecht,** the new girl's instructor in physical education, was a physical education instructor at Parkland High school for three years, prior to her appointment at Muhlenberg. Miss Hecht received her B.S. from East Stroudsburg State Teachers college in 1954. She is presently working toward her master's degree in education at Temple university.

**Language Professor**

**Mr. John A. Griffn,** assistant professor of romance languages, received his B.S. in education from the New York State college for teachers in 1941 and his M.A. from Middlebury college in 1947. Mr. Griffin is not a stranger at Muhlenberg since he taught here in 1948. Then in 1949 he went to Franklin and Marshall college.

**Mr. Theodore Maiser,** instructor in psychology, is a graduate of the Pennsylvania School of nursing for men; received his B.S. in education from Temple university in 1953; his M.Ed. in psychology in 1955 and is presently working toward his D.Ed. at Temple. In addition to teaching psychology courses here, he will inaugurate a reading improvement and study skills program which will be available to Muhlenberg students.

**Instructor in Religion**

**The Rev. Jesse B. Renninger,** instructor in religion, is an alumnus of Muhlenberg, class of '31.

(Continued on Page Five)

## Der Deutsche Verein Hears German Official

Herbert Weil, information secretary of the German embassy in Washington, spoke last night at the semester's first meeting of Der Deutsche Verein. Weil spoke on "The Problems Confronting the newly-elected West German Government."

Among the principal points covered were the return of German prisoners of war from Russia, possible reunification of East and West Germany, Eastern bloc countries' demands for trade with Germany, and the development of a world market for German trade.

**International Career**

Weil was born in Leipzig, Germany in 1922 and studied at both the London School of Economics and Cambridge university. He served with the British Broadcasting corporation both before and after the war. On returning to Germany in 1952, he entered the German foreign service as an adviser on press matters. He also served as personal interpreter to Chancellor Konrad Adenauer at many important international conferences.

Secretary Weil's visit was sponsored jointly by Der Deutsche Verein and the Lehigh Valley Saengerbund, a choral society which is now celebrating its hundredth year of existence. The men's and women's choruses of the Saengerbund opened the program with a musical greeting.

Besides the membership of the two sponsoring organizations, many Muhlenberg faculty members, students, not members of the Verein, and civic leaders from the Lehigh valley attended the meeting. Also in attendance were many members of the alumni of Der Deutsche Verein, as were several German and history teachers from the Allentown area.

**LAFAYETTE FOOTBALL GAME**

**Students may purchase a $2.50 Reserved Seat Ticket for $1.50 in the Athletic office, Memorial hall.**

**This reduction is available only for tickets purchased on the Muhlenberg campus. If purchased at Lafayette college the price will be $2.50.**

**No tickets will be sold at the reduced price after 4:00 p.m. Friday, September 27, 1957.**

## Education Department Offers Elementary Teaching Program

A new program in Elementary education has been announced by Dr. Wm. Marshall French, head of the education department. Though it is not offered as a major subject, the program will require additional courses and staff members in the education department.

No courses in the new field will be offered until the present freshmen are in their junior year. Students wishing to enter the program should notify the department and have a conference with Dr. French before May of their sophomore year. In the sophomore year they will take several education and psychology courses which are presently offered.

**New Courses**

New courses to be offered for elementary education students include art, methods and curriculum, reading and language, and principles of elementary education. Students are required to satisfy their major requirements in some other department.

All elementary education students must work with children in some activity approved by the adviser, such as in schools, camps, libraries, etc. Also, in the summer between the junior and senior years, each student must study assigned readings in children's literature, three credits not applicable for degree requirements.

**Open To All**

Though the principle interest in the program will lie with the coeds, Dr. French stated that the program is not limited to the girls, but rather is open to all students. He noted that there are many opportunities for men not only in teaching, but also in educational administration.

Students who plan to teach are urged to carry slightly accelerated academic programs in order that the greater part of the graduation requirements will have been met prior to the senior year. Student teaching may not be carried by students who have a heavy academic program at the college.

## WEEKLY Receives Journalism Awards

Late last Spring the Muhlenberg **WEEKLY** entered a national Pi Delta Epsilon editorial and news contest. Muhlenberg's chapter of Pi Delta Epsilon, national honorary journalism fraternity, selected three editorials and three new stories that had been published in the **WEEKLY** during the past year. Out of the six entries from Muhlenberg four received special notice.

An editorial entitled "The Last Road Block" concerning the proposed honor system at Muhlenberg in the editorial contest and an editorial written about the intercollegiate press conference held in Cleveland last November received honorable mention. These were both written by the former editor of the **WEEKLY** Calvin Colarusso.

**New Stories Chosen**

In the news division the Muhlenberg entries posted two honorable mentions. These two stories were, "Police Order Cancels Pajama Parade", which was published last fall concerning the discontinuing of the Pajama Parade tradition at Muhlenberg. The other story, which was also published last fall, concerned the annual float contest. Both these stories were also written by former editor Colarusso.

Muhlenberg tied with the Eastern State News of Eastern Illinois State college and the Technician of Newark college for the most stories to receive notice.

Pi Delta Epsilon is the oldest collegiate journalism fraternity in the country.

## Dr. Bremer Discusses Chapel Conduct Rules

Deviating from the normal service at the first chapel after opening convocation, Dr. David H. Bremer, college chaplain, delivered an informal talk on chapel conduct and regulations.

Speaking from below the chancel, Dr. Bremer discussed the attitudes of students in chapel during previous years and described the way he would like the chapel services to be this year. He stated that he would like the singing to be more spontaneous and louder, and as an example, had the congregation sing one song to show how well it could be done.

Several rules about conduct were enumerated during the talk. Students are to be quiet upon entering the chapel and shall remain quiet except for participation in the service. No reading of any kind of material except the hymnal will be allowed. Students shall leave quietly, after the postlude has begun.

The chaplain also announced that chapel programs would be distributed so that the students could plan which services they would like to attend. The program for the next week is as follows: Tomorrow, Friday, September 27, Bela Shetlock, D.D., pastor of Zion Lutheran Church, Philadelphia, Pa., will be the speaker. On Monday the chaplain will conduct the services. Dr. Rodney Ring of the Religion Department and Dean of Women Heimtraut Dietrich will address the students on Tuesday and Wednesday, respectively.

On Thursday of next week, Frederick Robinson, voice instructor for Muhlenberg college, will give a recital of sacred mu-

(Continued on Page Eight)

## Courses Open For Art Clinic

The possibility of having an art clinic established at Muhlenberg on a credit hour basis has, up to this time been improbable. However, with the emergence of co-education at Muhlenberg this Fall, there is a strong indication that an art clinic might be started in the near future.

At the present time the only credit course in art that is given, is History and Appreciation of Art. The proposed new clinic calls for the combining of the course History and the Appreciation of Art with Applied Art, which is at the present time a non-credit course.

This new art course, which would be opened to both men and women, would probably be taught in West hall by Mr. Melville Stark, the present instructor in History and Appreciation of Art.

## "Double Standards". . .

"Whatever Lola Wants, Lola Gets!"

That a woman should at present be almost driven from society, for an offense, which men commit nearly with impunity, seems to be undoubtedly a breach of natural justice.

Thomas Robert Malthus
Principle of Population

Undoubtedly the decree issued by the Dean of Women has not met with favorable reaction within the student body. At the present time only the Student council, Tribunal, and the transfer girls may challenge the freshman women, while the freshman male students must answer to the entire student body, with the exception of female upperclassmen. This limitation in regulations has many consequences that should be explored.

**By these new regulations a "double standard" has, in effect, been established.** Society is well aware that some double standards must exist. Curfew hours for women students is a perfect example.

A definite double standard can be recognized when the male freshmen are required to answer satisfactorily to the upper three classes whereas the female freshman must only answer to a group of approximately fourty-five upper classmen. That this is a double standard cannot, truthfully, be denied. **This regulation by the Dean of Women is seriously hampering the integration of the females into Muhlenberg life**—there are freshman girls and freshman boys, but no freshman class. The Class of '61 is not unified but diversified.

The girls, by not being allowed to be challenged by all upperclassmen are definitely missing a memorable part of their college experience. Students are once again feeling animosity towards the co-eds—an animosity which very definitely was rapidly diminishing. Female students will not be looked upon as "bonafide" members of the college, nor will they feel as such.

Barring all upperclassmen excepting the select few, from the challenging of the female freshmen may very definitely be construed as **unjustified lack of faith in the judgment and courtesy of Muhlenberg men.**

The Dean of Women is afraid the female freshmen would be treated in an ungentlemanly manner by the student body. This belief is definitely plausible. **A few men would probably go to an extreme, but these men could very easily be kept in control by an alert Student council and Tribunal. If they do not, changes would certainly be in order.** Should girls be denied the privilege of complete regulations because of a very few immature acts? Or rather, should the female students be permitted to become full fledged students of Muhlenberg college?

At the present time, the girls are definitely in a worse position than they would be in under the previous regulations. The real issue is this: Is the less desired position justified? **Can the Dean of Women officially remove the freshman girls from complete regulations prepared by the Student council and approved by the student body? This can not be done under the established rules of the College.**

Article Two of the Constitution of the Student Government of Muhlenberg college reads: Subject only to the statutory regulation of the Board of Trustees and of the Faculty, this organizatoion shall serve as the executive instrument for directing student life at Muhlenberg college, and for providing democratic student government in all phases of student activity. **The Dean of Women therefore, can not individually, and legally override the Student council's power.** No official statement has been issued that the Dean of Women has this privilege. Not having this power, her "regulation" therefore, becomes null and void.

The future of student government at Muhlenberg college is at stake. **Will the strong student government be allowed to perish?** This question must be answered immediately and answered in the best interests of Muhlenberg college.

# Muhlenberg Weekly

Serving Muhlenberg since 1883

Owned and published by the students of Muhlenberg College, Allentown, Pennsylvania. Subscription — $1.50 per semester in advance.

Published weekly during the academic year except Thanksgiving Recess, Christmas Vacation, Mid-year Recess and Easter Vacation.

Entered as Second Class Matter, October 31, 1927, at the Post Office at Allentown, Pa., under the Act of Congress of March 3, 1879.

# Campus Figures Attend Leadership Conference

### A Committee In Action

**The committee on social codes, under the chairmanship of Earl Knies, concentrates on a knotty problem.**

**by Earl Knies**

Sept. 11, 1957. The scene is the Pottstown Volunteer Service center, a pleasant, but isolated place near Pottstown. Twenty-one leaders from all areas of campus activity, the Personnel Deans, and the Chaplain have gathered here to hold a leadership conference. No one is quite sure what will be accomplished. An agenda has been set up, but its loose construction provides only a framework in which there is much room to move. Everyone decides they'll just have to wait and see what happens.

Once everybody has checked in, unpacked, and downed a Dr. Dierolf-opened-Coke, the conference is ready to begin. Luis Torres sits at his table for a few moments waiting for the talking to subside, and when it continues he raps the meeting to order with an ash-tray. He explains that the first session is to define problem areas on campus and asks for some. This really brings quiet to the room, as everyone tries to think of his pet problem.

**The Problems Cometh**

The silence is only momentary, however, and soon the problems begin to pour forth. Such things as student apathy, commuter integration, and parking troubles are brought to the floor. Then someone mentions Freshman Regs and finally the impact of co-education on fraternity week-ends. Not too many new areas are defined after that, and the groundwork for the conference is laid.

It's time to eat now and Muhlenberg men are introduced to a very imposing term, *K-O*. It stands for "kitchen opportunities" and includes such opportunities as washing dishes, clearing and wiping tables—that sort of thing. Everyone is given equal right to these unique opportunities, but some men are more enterprising than others and sign up for more than their share.

Dr. and Mrs. Seegers have arrived, and the evening session is ready to begin. It turns out to be a very interesting one, as Dr. Seegers gives some eye-opening information on Berg's recent building program and future expansion. He also gives some clear-cut answers to questions that have been on everyone's mind, clearing up the air at the conference and paving the way for the coming sessions. Before long Muhlenberg's first couple are on their way back to Allentown and it's time to "just relax."

able plan results.

A coffee break is a welcome rest from the discussions, and a good time to compare ideas and indulge in lighter types of conversation. Dean Richards has arrived to speak on the responsibilities of leadership. After some very good advice on this topic and some equally good methods to examine controversy, he answers questions from the floor, flushing his way merrily through the baited ones.

**Here Come The Girls**

After lunch it's time for recreation—swimming, basketball, sacking, etc. This done, the arrival of the girls (eight upperclass transfers) is near, and a better standard of dress among the group is noticeable. Everyone files to the conference room to await the new arrivals so that the afternoon session can begin. Dr. Dierolf and Dean Dietrich decide that putting the girls in the center of the room is not a particularly good idea, so the seating arrangement is returned to normal. The girls enter and the first stage of Muhlenberg co-education has come to pass. The girls must feel somewhat like goldfish as they take their seats, now strategically placed among the males. It's a rather awkward moment, but soon the novelty passes off and the morning's discussions are summarized.

The conference is moving smoothly now, and everyone can see that something is being accomplished. It's back to discussion groups again after dinner, this time with the added ideas of the co-eds. Loose ends are tied into the total picture of things, and the summarization shows real progress.

**The conference takes time out for a group picture.**

**The Morning After**

Breakfast time, and judging by the half-closed eyes and shuffling gait of the representatives, the "just relax" period has proved a great success. When the meal and K-O are done, it's time for morning devotions with Chaplain Bremer conducting. Then into session to summarize and group the problems of the day before. Four major areas result, and as many committees are chosen to explore them.

The committees move into session and begin to discuss their particular problem. All facets of the problem are examined and solutions are ventured, to be accepted or rejected by the committee as a whole. Suggestions are closely examined by the committee, torn apart, thrown back together in different form until a concrete, work-

**"Just Relax" Again**

The major work of the conference is done now, and it's time to "just relax" again. This time Karl Becker has provided some sounds and a roaring fire in the fireplace. Some marshmallows have been obtained to roast in this fire, and coat hangers serve as roasting sticks (one of the girls spent the summer working in a camp). Later in the evening, Herb Meily is herded to the piano to lead some group singing. It's something new to hear mixed voices among the Muhlenberg student body, but not unpleasant.

Much to everyone's delight, the co-eds take over K-O on Friday. There's a limit to how much "opportunity" one can take. It's a day to clean up, to look back over the past day-and-a-half to see what's been done. And it looks pretty good, everyone agrees. It's been a profitable two days for the students, for the faculty, and for the college in general. Let's get some comments.

**Comments**

Luis Torres thinks it was quite good. "It was a milestone," he says. "The important thing is that men from all areas of campus activity were brought together to discuss their problems and to solve them."

Jayne Kuntelzman, a sophomore transfer from Moravian, and Betty Ann Lebo, a sophomore thansfer from West Chester S. T. C., agree pretty much that the conference helped the girls to understand Muhlenberg and its problems, and to help them with their adjustment. The ideas for social life on campus should also prove beneficial in the coming year.

Bob Nuss feels that the closer relationships built up among the campus leaders was a very important result of the conference. "It also helped to give everyone a better understanding of problems in other areas than their own."

**"A Complete Success"**

"I feel that the leadership conference was a complete success," says Henry Williams "The college as a whole will profit from the discussions and decisions of the leaders, and those who participated in the conference will be better equipped to be leaders in the various campus organizations."

Time alone will tell just how successful the conference really was. But there is no doubt that its influence will be felt all over campus throughout the year.

# Letter To The Editor

To the editor:

In Chapel, Dr. Stine read a notice to the students stating that, by order of the Student council, there will be no more hazing near the Chapel. What good is it to say that the Student council said so if the notice concerning the hazing of the girls by-passed the Student council? If this is the case, I think that the future notices should be signed "by order of the Administration" instead of "by order of Student council."

(signed) Dick Kaufman

**BUSINESS AND ECONOMICS CLUB**

**A membership meeting of the Business and Economics club will be held Wednesday, October 2, 1957 at 3:15 in room 300 Ad. building. Everyone is invited.**

# Old Regime Ends; Campus Changes With The Times

**by Mary Hyett**

The old regime is gone! This new order of enrollment is symbolic of a great discovery unequaled in the history of the world—there are two sexes! The women have come to Muhlenberg. Let not the reader take this lightly, for it is the straw that broke the camel's proverbial back.

In the Student Union building, where life is quite expertly represented, the great change is most evident. A newly decorated snack bar, booths, higher prices (inflation, of course), and bewildered professors all add up to a highly explosive mixture.

**New Textbooks**

If our investigation is continued, the college book store is to be scrutinized. Last week, two freshmen were apprehended trying to purchase Marlboro cigarettes when they didn't even have tattoes on their arms. Replacing such textbooks which are generally found in the book store, we find such numbers as "Laughing through Lab," "Science Really Swings," "Let's Make the Chapel Scene," and "Cuttin' up the Cat." Fighting out of the store necessitates passing huge displays of chewing gum, lipstick, counterfeit chapel slips, pool cue chalk, and MM calendars.

WMUH has completely revised its schedule of programs to conform to co-education. Daily noon time dramas will be broadcast to provide students with rich entertainment. One of the most promising will be "Joe Trent"— the story of a boy who finds love and affection after six years at Berg.

So, with Narcissus, Arachne, and, perhaps the most metaphorical, Apuleus, Muhlenberg has made the great transformation.

*Bob Malkames*

# IN THE NEWS

**by Marjie Williams & Linda Patnoy**

Delving into his own background for much of the material to be used in his new position as Muhlenberg college field repreentative, 1954 Muhlenberg graduate Robert Malkames has a busy schedule ahead.

Under the direction of Dean Henry M. M. Richards, Bob is preparing to speak in behalf of Muhlenberg college at high schools in Pennsylvania and the surrounding area.

Unusual as it may seem, Bob's hobby of "circusana," has led the way to his discovery of many interesting facts concerning the management and ancestory of the circus. Collecting old posters and programs, and studying the general background of the circus is a project to which he devotes much of his spare time. The origin and development of the circus holds a greater interest for him than does the actual show. "I firmly believe that the circus is **not** on the way out," says Bob.

During his senior year at Muhlenberg, Mr. Malkames was editor of the **WEEKLY,** associate editor of the **Ciarla,** and president of Pi Delta Epsilon, national honorary journalism fraternity. As past vice-president of Omicron Delta Kappa, national honorary leadership fraternity, and a member of Who's Who in American Colleges and Universities, he is well qualified to represent the College.

*The President's Memo*

# A WORD OF WELCOME

Best wishes to all of you as we begin this new academic year. I hope the summer has been a pleasant one for you, and that for at least some of you it has been a profitable one.

Those of you who are returning will see some changes on the campus. The area south of Chew street has been graded, and a good stand of grass has been begun. When that grass has had a firm growth we will use that field for a play area, for girls' hockey and also for softball.

The tennis courts are complete. They are the best courts available, and if they are used with care will provide pleasure for many years. They must, however, be treated carefully. Only proper footwear may be used, or else very expensive damage will result, and the playing surface will be impaired to the extent that much of the pleasure of playing will be affected. Please treat these courts with respect and observe the rules governing their use.

The baseball bleachers have been moved to provide more playing space for intra-murals.

The Snack bar and Student center have been given a complete face-lifting.

Both in West hall and in Martin Luther hall are provided attractive and roomy lounge rooms, something our dormitories have long lacked.

All of these moves have been made for the sole purpose of providing better, more comfortable facilities for students. To keep them useful and attractive is in a major degree the responsibility of students. All of us hope students will accept the responsibility.

Progress on West Hall and the new medical center was interrupted by an eight-week carpenter strike. Incidentally, since we started work on Martin Luther Hall we have experienced four major strikes. Completion of this work will not, however, take very long.

One special word: I am personally glad to welcome our first class of girls. They have much to contribute to campus activities, and I hope that the necessary coordination will be smooth and rapid as they take their places in organizations as well as in classrooms.

I hope all of you will get down to business promptly, and wish for you a successful year.

# Women, Women Everywhere! Oh Well . . .

**by Marjie Williams**

What have we here?
A little lass
sitting in
on physics class?
Be off!
This is a man's school.

And what is this?
A bright pink room
shining from
a once gray tomb?
Can't be!
This is a man's school.

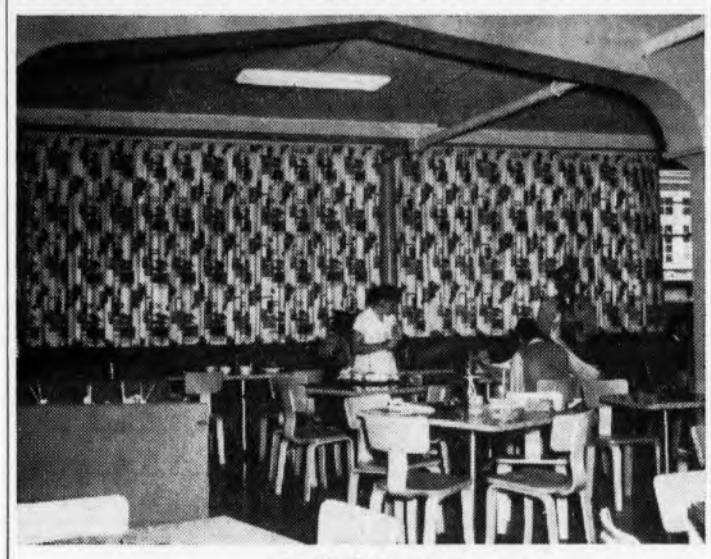
What see I now?
It can't be; yet
it looks just like
a kitchenette.
Not so!
This is a man's school

What's this I view
here from the mall?
Ruffled curtains
in West hall?
Never!
This is a man's school.

Poor Muhlenberg!
You've made the room.
Now prepare
to meet your doom.

OH WELL . . .
THIS WAS A MAN'S
SCHOOL.

# *Snack Bar Gets New Wardrobe*



**by Paul Horger**

Among the many changes on campus this year is the remarkable transformation that the Snack bar and Student center lounge have undergone. One is now greeted, when he enters the Snack bar, by a blend of colors designed to appeal to the masculine eye. The chartreuse walls rose-colored booths, gray and melon red tile, and the white drapes, which were selected and made by Mrs. Seegers, all serve to create an atmosphere of warmth and congeniality.

In addition, the ceiling has been lowered and new lighting devices installed. Mr. McAuley stated that the three-way lights also include a soft, rose tint especially designed for evening use to set off the female complexion to its best advantage.

The lounge has also undergone a face lifting over the summer months. With the drapes again chosen and made by Mrs. Seegers' agile hand, the walls and ceiling have been painted and green furniture added to supplement the color scheme of the Snack bar.

The new equipment includes fifteen modern tables and matching chairs.

There will no longer be any spilling of coffee or embarrassing moments from sliding plates of spaghetti due to slanting tables and rickety chairs, about which one irate customer complained last year.

The hours that the Snack bar will be open are: on weekdays from 7:00 a.m. to 4:30 p.m., on weekday nights from 7:00 to 10:30, and from 8:30 a.m. to 5:00 p.m. on Saturday and Sunday.

# Coeds Voice Impressions On M'Berg

**by Jayne Kuntzleman**

Co-education at Muhlenberg has aroused many comments and caused quite a bit of excitement. It has been termed an invasion, an encroachment, and even a transgression. Some have accepted it with disapproval, some with apprehension, and others with apathy.

When asked what he thought now of girls at Berg after they had been there one week, one fellow replied, "pretty good!" Another was heard to say, "I never thought I'd be walking a girl back to West hall," and a clerk in a downtown department store made a wry face and said, "Oh------ coeds?!" when she was told where the girls were attending school.

The most interesting remarks, however, are the ones made by the new coeds themselves.

**Jane Barnes '60**

"I was quite surprised how helpful the faculty are, but especially how friendly the fellows have been to us."

**Anne Romatowski '61**

"Muhlenberg is much more than I expected. The picnic was great fun and different. It was very definitely college and on the adult level."

**Jean Noxen '61**

'Berg is fabulous!"

**Phyllis Liptak '61**

Berg is as I always thought college would be."

**Lorrie Ward '61**

"I find every thing agreeable and I am glad we have the trans-

# Freshman Problem Studied At Leadership Conference

At the recent leadership conference held in Pottstown previous to the opening of the fall semester, a committee on freshman regulations drew up and resolved several resolutions of which every freshman student should be fully cognizant.

The purpose of freshman resolutions is perhaps the most important thing that the freshman should know. This purpose is to take freshmen into college life and help them develop the proper college spirit, and to unify the class and instill a class spirit through the learning of the college traditions.

The seven resolutions are as follows:

1. That the Tribunal shall elect a vice-president and a secretary from among its members. The secretary shall alone be responsible for the preparation of the offender list.

2. Separate Tribunal meetings shall be held for women and men. The Tribunal shall divide itself in half and each half shall meet with the women one week and the men on the alternate week. Each week three of the upperclass women shall be invited to act as advisers at the meeting with the women.

3. That a volleyball game be added to the list of freshman games. This game is to be played between the upperclass women and freshman women. If the upperclass women should lose they shall wear the dinks the next day and the freshman women shall be released from this requirement for that day. The date for this event this year shall be October 21.

4. That some arrangements be sought for a bon-fire and pep rally. If no such arrangements can be made a pep rally shall be held in Memorial hall preceding the Homecoming dance.

5. There shall be no hazing in the Chapel area prior to or following chapel services.

6. Hazing between classes and after dinner in the commons shall be kept to a reasonable minimum and shall be supervised by Student council and the Tribunal.

7. That some effort be made to revive the "Burial of the Tribunal" ceremonies.

Upperclassmen are reminded that there will be no hazing of freshmen inside any buildings and that freshmen are responsible **only** for information contained in the "M" book.

# Band Sports "New Look"

Freshened by several additions, the Muhlenberg marching band will start its season this Saturday at the Lafayette football game. New uniforms, majorettes, a new head drum major, and new instruments combine to improve the 48-piece marching band.

Though the marching band remains all male, three majorettes have been chosen to appear with it. These girls, Beverly Reichard, Louise Niebaum, and Marilyn Schier, have been practicing with the band. Girls will be invited to join the concert band.

**Drill Instructor**

Direction of the marching activities of the band has been taken over by a student who has spent the last several years training air force recruit bands. Edward Kline, a member of the freshman class, plans to turn the marchers into a precision drill team.

New uniforms purchased for the band consist of grey trousers with cardinal officer style hats. Tenor drums have been added to the percussion section, and the base, or sousaphone, section has been enlarged to seven men.

At present, the band plans to play at all football games, with the possible exception of the Hofstra game in New York. Officers of the band this year are president, Herb Meily; vice president, Dick Truchses; secretary, Phil Jurus; and treasurer, Dick Fisher.

## Alma Mater:

Con expressione
E.H.Kistler, '95
Re-arranged by H.K.Marks, '61
I love to sit and think and dream - and oft conspire; and yet
amid the swelling stream - of fond desire, my heart still ever
turns to thee. Al-ma Mater, Al-ma Ma-ter, thee will I
ever sing, to thee my heart shall cling of thee my praises ring,
O Muhlenberg! Al-ma Ma-ter! O - my - Muhlenberg!

## WEST HALL HOURS

**All freshman girls are required to be in West hall at 8:30 p.m. on Monday thru Thursday evenings, while sophomore and junior girls must be in by 10:00 and 11:00 p.m. respectively. All girls must be in the dormitory by 12:00 p.m. on Friday and Saturday nights, and by 10:30 p.m. on Sunday nights.**

**Visiting hours in the West hall lobby and lounge will begin at noon and extend to the curfew hour of the co-ed being visited.**

**The above hours are subject to change with the establishment of the Women's council, whose duties will include the defining of permanent hours.**

## Commuters Organize

Plans for the semester's activities and a change of meeting times were discussed at the first meeting of the Commuter's club last night in the club room, on the second floor of the Student Union building.

Club meetings for this year will be held in the clubroom, on the first and third week of each month, alternately on Friday and Wednesday. All commuting students are invited to attend these meetings, the time of which is 3:15 p.m.

The social committee is working on plans for a party to be held on October 12. Norm Wangman is in charge of arrangements for the affair. Richard Sterner was appointed head of the intramural sports committee.

Approximately thirty students attended last night's meeting, fourteen of which were coeds.

President of the club this year is David Smith, a junior from Allentown. Recording secretary is Jack Flemming; corresponding secretary Dick Wallitsch; and treasurer, Hans Toffer.

(Continued on Page Eight)

## Coeds Impressions

(Continued from Page Three)

fers to lean upon."

**Janice Merritt '60**

"Muhlenberg is a very fine school, and I'm very proud to be one of the first women students."

**Marilyn Schier '61**

"Muhlenberg is certainly more than I expected. Last April, when I happened to read an article in the **WEEKLY** concerning co-education, and noting that the student body was not in favor of it, I was horrified. How surprised I was when I arrived and found a changed attitude. I actually think the upperclassmen are melting."

**Diane White '61**

"I had no previous anticipation about 'Berg, and I am very satisfied with what I have encountered thus far."

**Sandra Hamer '61**

"After only three days on the campus, I already have a feeling of belonging. I do feel however, that Freshman Week is being dragged."

**Phyllis Spero '61**

"Surprisingly, I've found most of the fellows are in favor of coeducation. I think on the whole, the atmosphere is very friendly."

**Joelyn Borelli '61**

"Muhlenberg has the most beautiful campus I have ever seen."

## Graduate Tests Given During Coming Year

Admission Tests for Graduate Sutdy in Business, required for entrace by a number of graduate business schools or divisions throughout the country, will be offered on four dates during the coming year, according to Educational Testing Service, which prepares and administers the test. During 1956-57, many students took the test in partial satisfaction of admission requirements of graduate business schools which prescribed it. Among these institutions are the graduate business schools or divisions of the following universities:

Carnegie Institute of Technology, Columbia university, Harvard university, Massachusetts Institute of Technology, Northwestern university, Rutgers university, Seton Hall university, Syracuse university, University of Chicago, University of Michigan, University of Pennsylvania, University of Virginia, Washington university (St. Louis).

A candidate must make separate application for admission to each business school of his choice and should inquire of each whether it wishes him to take the Admission Test for Graduate Study in Business and when. Since many business schools select their entering classes in the spring preceding their entrance, candidates for admission to the 1958 classes are advised to take the test at as early a date as possible.

The Admission Test for Graduate Study in Business is not designed to test specific knowledge in specialized academic subjects. Normal undergraduate training should provide sufficient general knowledge to answer the test questions. Sample questions and information regarding registration for and administration of the test are given in a Bulletin of Information.

The tests will be administered on November 2, 1957, and February 6, April 19, and July 26 in 1958. Applications and fees must be filed with the Admission Test for Graduate Study in Business, Educational Testing Service, 20 Nassau Street, Princeton, New Jersey, at least two weks before the testing date desired in order to allow ETS time to complete the necessary testing arrangements.

## New Rules Made By Library Staff

Information has recently been released concerning the regulations governing the library and its use during the 1957-58 term.

The library stacks will be open on Tuesdays from 9 a.m. to 5 p.m. and on Fridays from 1 p.m. to 5 p.m. This is an extension over last year's rules concerning the use of the stacks.

The fine for an overdue Reserve Shelf Book is five cents an hour, each hour the library is open, until the book is returned. The fine for an overdue two-week book is five cents a day, each day the library is open, until the book is returned.

This is the first increase in the amount of fines at Muhlenberg in 20 years and is modest compared with the increase at other colleges. The increase is not designed to make money (collection costs absorb most of the payments) but to encourage the prompt return of books useful to others.

Reserve shelf books may not be checked out before 9 p.m. and are to be returned by 9 a.m. the following morning, Mondays through Thursdays. On Fridays they may be checked out after 3 p.m. and are to be returned by 9 a.m. the following Monday.

The library hours, Monday through Friday, are from 8 a.m. to 5:00 p.m. and from 6:30 p.m. to 10:00 p.m., Saturday from 8 a.m. to 12 noon and closed all day Sunday.

# T. Maiser To Teach New Reading Clinic

Mr. Theodore Maiser

Mr. Theodore Maiser will be the instructor in a special reading and study skills clinic which will be offered to both Muhlenberg students and to the Allentown communuity as a whole. Beginning on October 1, the non-credit course will run for 14 weeks with classes being held one night a week for two hours.

Mr. Maiser, who has recently been appointed instructor in psychology at Muhlenberg, claims that this class will not only help those who are deficient in their reading and study skills, but will also improve the study habits of good students. The aim of the clinic is to increase the speed of reading and improve the rate and degree of reading comprehension. The course is also designed to aid in building a student's vocabulary with special emphasis on study skills.

Students who wish to enroll in Mr. Maiser's class may do so at the treasurer's office. The cost is $25.00 for the fourteen week course and students may attend either the 2:30 to 4:30 p.m. class, or the 7 to 9 p.m. class.

There is no closing date for registration in this class. Students may register any time during the following semester.

## Letter To The Editor

To all upperclassmen:

You are asked to use better judgment during Freshman Regulations. Please remember that now you have ladies to deal with, and that they should be treated accordingly.

We are also asking you to be reasonable when hazing after meals or between classes. Any upperclassmen who cannot comply with these requests will be asked to appear before the Student Council.

Luis Torres
President, Student council

And then there is the story of the professor at Texas Christian university who sighted one of his more haughty associates crossing the campus and growled "There, but for the grace of God, goes God.

The same story, we might add, has been attributed to Winston Churchill, who made the remark in reference to political opponent.

# Evening School Enrollment Increases In Past Year

Enrollment in the evening session of Muhlenberg college is double the figure of a year ago and nearly ten times the size of four years ago, according to an announcement by Dr. William A. French, director.

A total of 237 persons had registered for 317 courses at the close of the Wednesday night session. Only one course in mathematics is scheduled on Thursday evenings.

Particularly noted is the increased enrollment of men and women employed in local industries and stores who have registered for college work.

Classes schheduled in the evening sessions for the fall semester follow: Monday, money and banking, Dean Henry M. M. Richards; audio visual education, Dr. William M. French; major British writers, Ralph S. Graber; American literature, Dr. Glaude E. Dierolf; history of civilization, Dr. James E. Swain; algebra and trigonometry, Prof. Luther J. Deck; logic, Dr. Russell W. Stine; child psychology, Mr. Theodore Maiser.

Tuesday—qualitative analysis, Dr. George H. Brandes; industrial management, Mr. Robert A. Battis; speech for the classroom teacher, Dr. Andrew H. Erskine, history of the United States and Pennsylvania, Dr. Victor L. Johnson; general college physics, Dr. Robert A. Boyer; psychology of human adjustment Dr. Thomas F. Lohr; educational psychology, Dr. Walter H. Brackin elementatry French and elementary Spanish, Romance language staff.

Wednesday—general chemistry, departmental staff; business finance, Mr. John G. Voyatzis; secondary education, Dr. French; freshman English, Minotte M. Chatfield; expository writing, Dr. J. Gysbert Bouma; first-year German, Dr. John Brunner; recent United States history, Dr. John J. Reed; general psychology, Mrs. Maiser.

Thursday — analytic geometry and calculus, Robert R. Townsend.

**SOCK DANCE, TALENT SHOW**

**A Sock dance will be held Friday evening between 8:00 and 11:00 p.m., in the Student center. Music for this affair will by supplied by radio station WMUH.**

**The talent show, originally scheduled for Saturday evening, has been postponed due to a lack of cooperation from the class of 1961.**

**Leon Skweir**
**Social Chm., Student council**

# Faculty Members Join Berg Family

(Continued from Page One)

He received his B.D. at the Lutheran theological seminary in Philadelphia in 1935 and his S.T.M. in 1949. Prior to his appointment at Muhlenberg, Rev. Renninger was pastor of Grace Lutheran church in Macungie and of Trinity Lutheran church in Steelton.

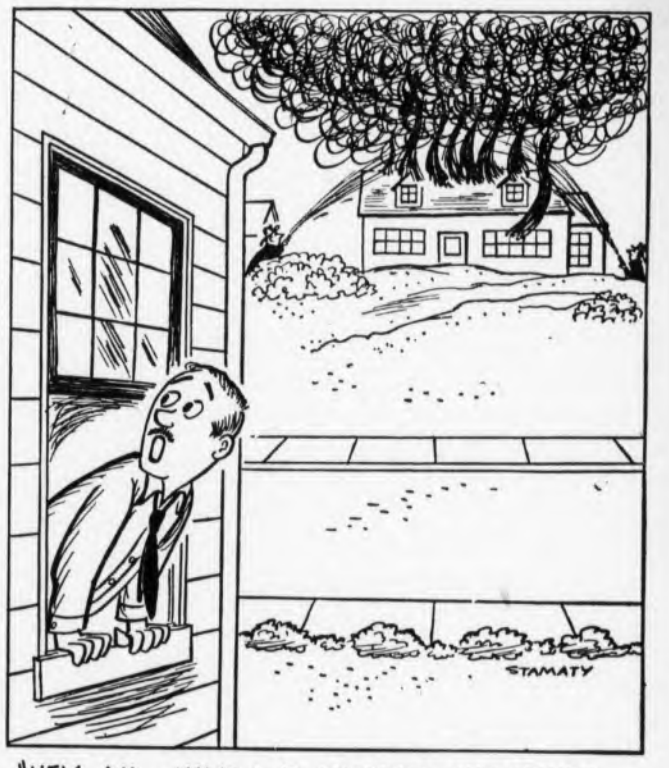
**Miss Joanne H. Stafford,** instructor in history, is originally from Easton, Maryland. She received her A.B. from Dickinson college in 1951 and her M.A. from the University of Pennsylvania in 1958.

**New Mathematics Instructor**

**Mr. Robert R. Townsend,** instructor in math, is a member of the Pennsylvania Society of Professional Engineers, the National Council of Teachers of Math, the Engineers club of the Lehigh valley and the Mathematical Association of America. Before coming to Muhlenberg, Mr. Townsend was assistant professor of mathematics at the Pennsylvania State university and a product engineer for the Western Electric companies.

The newly instituted art course at Muhlenberg will be taught by **Mr. Melville F. Stark,** lecturer in art. Mr. Stark, in addition to his activities at Muhlenberg, teaches at Cedar Crest college and at the Baum Art School.

# Our Fraternity Houses . . . Are They Fire Hazards?



"HEY, LIL, HAVE WE CHECKED OUR HOUSE FOR FIRE HAZARDS, LATELY?"

THE BMOC

# SPORTSCOPE

by Bob Nuss

During the preceding spring and summer months, Muhlenberg college has spent a total of approximately $38,000 to improve and enlarge the play areas on the Muhlenberg campus. Foremost of the expenditures was the construction of seven new all-weather tennis courts for the estimated cost of $27,000. Also next to the tennis courts, a large area was surfaced with macadam. This space will provide facilities for outdoor basketball courts and two handball courts. Another area of improvement was on the soccer field. The old tennis courts were removed, and this allowed the soccer field to be moved from its former positon to one where it now runs in a North-South direction.

**Bleachers Moved**

The baseball bleachers were also moved to a new position along the first base side of the diamond. These two changes, performed at a cost of $2,000, increased the play area by approximately one third the original area.

The other addition to the college play areas is the new girls athletic field which in the future will be referred to as Hagen field in honor of the donor. Hagen field will be used predominately for girls' physical education classes and girls' sports events, but other uses have been planned for it. In the spring, two intramural softball fields will be laid out in the east and west corners of the field. Facilities for archery will also be provided at a later date. The construction of this field cost approximately $9,000.

**Care and Treatment of Facilities**

Now that we realize how much the college has spent to improve and increase our play areas, it becomes imperative that we respect and take care of these facilties. If, like other things at Berg, these facilities are abused and mistreated, the years of use will be very short. However, with care and proper usage these play areas will last for many years.

Of prime importance is the proper usage of the tennis courts. The surface of the tennis courts is a new material, designed to play like clay, yet represent an all-weather type of surface. Nicks and crevices forced into this surface by heels of shoes or other cleats will leave a permanent scar line. These courts cannot be rolled to remove uneven spots. Therefore it becomes increasingly important that only **tennis shoes,** and no other type of athletic shoes are worn to play on the courts.

**Area Policed**

Student Council will police the area, and offenders will be dealt with by the proper authorities. Courts of this nature have been in use at Hood college for five years and have as yet not been repaired. This is an example of good usage. A full list of regulations has been published by the administration. These regulations are established to insure future Muhlenberg students proper facilities and not to place a handicap on the people who wish to use the courts. If we try to follow these rules and obey them, these courts will exist for many years. It is up to us as students to show our appreciation for the new play areas we have and nothing could be more expressive of our appreciation than to use the facilities properly.

# Berg Harriers Prepare For Season Opener

The Cross Country team under Dick Schmidt, who returns for his second year of coaching, will open its season this year at home, playing host to Lafayette on October fourth. Three additional meets have been added to the schedule. In addition to Lafayette, Juniata, Lehigh, Albright, and Franklin and Marshall, Elizabethtown, Moravian, and Haverford have been added.

In addition to the three new teams, another change has taken place. The Middle Atlantic championships which had been held on Muhlenberg's Cedar park for many years has been changed to St. Joseph's course in Philadelphia.

**Returning Lettermen**

Four lettermen are expected to return this season. These men, all juniors, are Pierce Knauss, Bob Sabol, Ed Theiler, and Ron Sussex.

Of the four, Knauss appears to be the steadiest performer. As first man on the team, Pierce led the team to a very impressive victory over Albright as he placed first. In the Middle Atlantic championship held at Muhlenberg last year he placed thirty-sixth.

Because of the experience that this team gained as sophomores last year they are expected to improve their record of one win and four losses.

Due to other obligations several members of the team are unable to compete this year, but expected to help the team will be Ron Dungan who looked very impressive in practice last year.

**CIARLA MEETING**

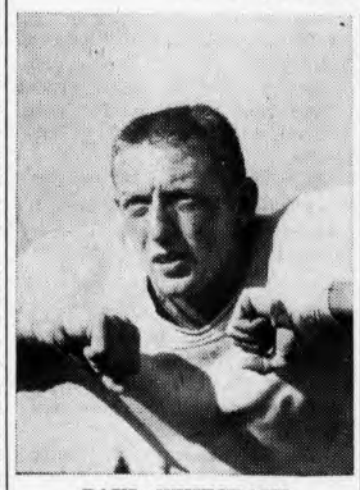
**A meeting of the 1958 Ciarla staff will be held on Oct. 2, 1957 at 3:15 in the Ciarla office.**

# Mules Prepare Forces For Initial Test With Lafayette At Easton

Muhlenberg opens its 1957 football campaign Saturday afternoon when it travels to Easton to face a potentially strong Lafayette eleven. The Mules will be seeking revenge for the 26-0 setback they suffered at the hands of the Easton collegians at the beginning of last season.

## *In the Sportlight . . .*

## Co-Captains Courageous

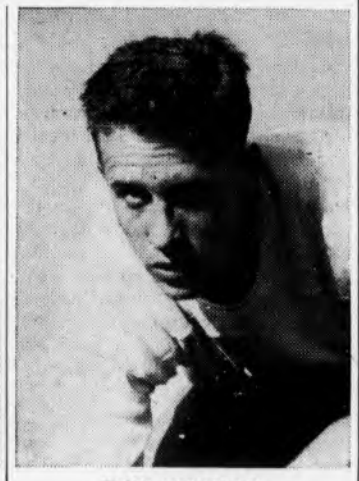


**PAUL WHITCRAFT**

Leading the team onto the field against Lafayette Saturday will be co-captain Paul Whitcraft, who is holding the center position for Berg this year. Paul was moved from end to center early last year and the move has proved to be a good one. He has held a varsity position for three years.

Paul comes from Haddonfield, New Jersey, and is a business administration major. He plans to go into real estate upon graduation from Muhlenberg. His activities on campus include the "M" club.

In talking about this year's squad, Paul feels that it is a good team and that it is better than it has been in previous years.



**DON HERMAN**

Sharing the co-captaincy with Paul Whitcraft is Don Herman from East Stroudsburg. Don has one of the end positions this year and has played halfback in the past. He is in his third year of varsity competition.

A business administration major in economic theory, Don hopes to enter the banking business after graduation. Don has been the treasurer of his class since his freshman year. He is also a member of the varsity "M" Club.

His opinion of this year's team is very good, and that it has good material. Don feels the Mules should have a good record, but it all depends on the attitude of the squad

Steve Hokuf's Leopard squad will be built around a nucleus of 17 returning lettermen headed by veterans Al Caesar and Bill Harrick.

However, the football picture at Lafayette is none too bright at the present time. The Leopards will be playing without the services of quarterbacks Joe Bozik and Karl Weingartner. Bozik, first-string signal caller for the past two years and rated as one of the best in the east, suffered a hairline fracture of his left leg above the angle. He will not see action for at least a month. Weingartner left school to join the Army. Another reserve, Dick Archdeacon, has given up football for the current season.

**New Quarterback**

It appears, therefore, that the quarterback spot will be occupied by either Merle Bainbridge, last year's freshman quarterback, Wayne Cipriani, or George Lendere.

The remainder of the Maroon and White backfield will be made up of Caesar, a converted fullback, and Jim Hourihan at halfbacks, and 200-pounder Don Nickles at fullback. Despite the fact that he is a sophomore, Nickles has shown exceptional speed and power.

**Starting Linemen**

Probable starters on the Lafayette forward wall include lettermen Don Dilley and Al Adelman at ends, Bill Covach and Dick Norton (each weighing 210 pounds) as tackles, Harrick and George Lloyd in the guard slots, and Bill Foreman at center.

Harrick has been outstanding in the past and has already been mentioned as a possible All-American candidate.

Sophomores up from last year's freshman team are halfbacks Don Westmas and Tom Moyer, ends Joel Gustafson, Bill Hunscher and Don Wooten, tackle Morris Mengel, center Steve Bartlett and guard Garry Schultz.

**Mules Lineup**

As for the Mules, coach Ray Whispell will probably start senior co-captain Don Herman and junior Jack Young at ends, senior Bill Carty and either junior Bob Hieter or Gerry Rehrig at tackles, junior Don Novek and sophomore Jim Orr as guards, and co-captain Paul Whitcraft at center.

In the backfield, sophomore Ralph Borneman seems to be getting the nod over Jim Nonnemaker and veteran Art Wright for the quarterback slot. At halfback there is a toss-up between letterman Pat Wilson, junior Roger Keehn, and sophomore Herb Owens. Either sophomore Leroy Spangler or junior letterman Roy Madsen will start at fullback.

Following their encounter with Muhlenberg, the Leopards will oppose Buffalo, Delaware, Temple, Bucknell, Gettysburg, Rutgers, Western Maryland, and Lehigh.

**CIARLA NOTICE**

**Due to a series of unforeseen incidents in the printing of the 1957 Ciarla, the book will not be distributed until the latter part of October.**

**Bob Spivak**
**'58 Ciarla Editor**

What's a 'top man?' He's usually at top form in key situations.

In bull sessions he knows what he's talking about. His views are backed by more fact and less bull.

On dates he's a master of lively conversation. His talk is spiced with behind-the-scenes tid-bits on current affairs and personalities. He has timely appeal.

In class he has perspective. He knows more about the world today, and how it relates to the past and future.

How come all this poise and know-how? He reads The New York Times every day. Do you? It's much more interesting, and he is, too. Are you?

You can be. Keep up with The Times. Read more about books, sports, theatre, TV, world and national affairs. See your Times campus representative today—for delivery to your door every day.

# Pre-Season Practice Sessions Sharpen Muhlenberg Grid Stars

This is the story of a Muhlenberg college football player; the approximate schedule a varsity player followed on any day of practice, prior to the opening day of classes. The day is begun as weary men climb out of bed amid groans and complaints of "charley horses" and bruises. Breakfast in the commons follows, where the player receives the same menu as the average college student. Following breakfast, with its usual amount of quips, gripes and complaints, the athletes march back to their rooms. Probably their only distinguishing trait at this time of day is the number of crutches, canes, and injured players among their groups. On this one particular day at least nine players were handicapped by an injury of one sort or another. Among the casualties were Ed Davis with a knee injury; Bob Rosenhem, leg injury; Al Stott, ankle injury; Don Herman, ankle injury; Art Wright, back injury; Jim Nonnemaker, shoulder injury; Ralph Borneman, shoulder injury; and Roy Madsen with elbow and leg injuries.

**Practice Begins**

From the time the players get back from breakfast until practice begins, much of the time is spent in the "sack." Morning practice begins at 10:00 a.m., and by 9:30 a.m. most of the men were reporting to Memorial hall to get dressed, while others were in Dr. Weaber's office sitting in the whirlpool, or having various other forms of medication administered. By 10:00 the players were on the field going through their various warm-up exercises. Head coach Whispell and his staff appeared and immediately the practice broke up into group specialties. In one area of the practice field coaches Kozlowski and Gutierrez were supervising the guards, tackles, and centers while they relentlessly attacked the seven man blocking sled. Men like Whitcraft, Carty, Hieter, Novak, Miller, and Rehrig were hitting the pads with experienced violence, while newcomers such as Orr, Pearsons, Ludwick, and Kerr were rapidly gaining the "know-how."

**Passing and Punting**

On another section of the field, sophomores Ralph Borneman and Jim Nonnemaker, along with seniors Art Wright and Roy Madsen, were practicing punting. Looking impressive were Madsen and Nonnemaker who got away several long punts. Impressive in returning the punts were backs Herb Owens, LeRoy Spangler, and Tony Caporale. In still another area, men were practicing place kicking. Men kept switching from one group to another and everyone seemed to be engaged in some activity. Following these maneuvers, coaches Whispell and Flamish took the backs and began drills to teach the fine art of pass defending. Throwing the passes were Borneman, Wright and Nonnemaker while the other backs alternated as receivers and defenders. On several occasions, Coach Whispell himself took the defending position to demonstrate a point. He proved to be quite effective.

While this exercise was taking place, coach Austin Short had the ends tackling and blocking the dummies, and also practicing defensive maneuvers. The linemen were still hitting the seven man blocking sled. During this practice session backs Keehn and Anderson were not suited up at all, while Wright, Nonnemaker, and Madsen were without pads. Lineman Orr, Miller, Herman, and Rehrig also were not dressed, while Carty, Moskowitz, and Hieter were without pads.

**Defensive Set-ups**

After the passing group had its share of work completed, the entire team grouped together and practiced defensive set-ups for the remainder of the practice. After approximately a half-hour of this type of work, coach Whispell ended practice with the reminder that practice began at 4:00 p.m. in the afternoon. There were no laps to take so practice ended at 11:15 a.m.

Following lunch the afternoon was free until 4:00 p.m. The afternoon practice was a repeat of

(Continued on Page Eight)

# Miss Hecht Prepares GirlsAthleticProgram

Red Bermudas and white blouses will soon appear on the campus fields to add new spice to the Muhlenberg Physical Educational program.

For the interest of the athletically inclined coeds at Berg, Miss Jean Hecht, an attractive graduate of East Stroudsburg State Teachers college, will be the gym instructor.

Miss Hecht, a native of Allentown, was graduated from Parkland High school where she later returned to teach her favorite subject, physical education, for three years. Among her interests is tennis, in which she excels and has won many championships. She won the Public Park and Open City tournaments in Allentown, the North Eastern Women's championship, and the Scranton championship.

At the present time things are a bit confused, but Miss Hecht plans to start an intramural sports program in hockey, basketball, tennis, softball, and archery. For the Sophomore-Freshmen scrap, the upperclass girls will play the freshmen in volleyball. The frosh girls will choose a team of their best players to face their upperclass opponents. Should they lose, the upperclassmen will wear the dinks the following day to commemorate the freshman victory.

# I-M Corner

**by Jack Coughlin**

With the beginning of the fall semester we also find the opening of another year of Intramural sports here at Muhlenberg. Once again this program will be directed by James Kozlowski of the Physical Education department.

Due to the improvements made on campus the facilities for intramurals have been increased a great deal. With these improvements a wider range of sports will be possible as well as better scheduling for all sports. New fields for intramural football will be available on the soccer field and the baseball diamond. The new tennis courts will provide definite possibilities for intramural tennis competition.

**King Football**

First on the sports program will be the intramural football championship. In past years this league has always been characterized by stiff competition and this year will prove to be no exception.

Last year in a race that went to the wire, Sigma Phi Epsilon won the championship and carried off the I-M Trophy. As defending champions, the men from Sig Ep will have quite a job to protect their crown against the onslaught of their competitors.

**FOOTBALL STUDENT GUEST TICKETS**

**Student sections for home football games will be "C" and "D" (North Stand) with the band occupying the front rows.**

**Each student is entitled to purchase one (1) Guest Ticket for the price of $1.25.**

**Tickets for parents will be available in either the reserved seat sections or general admission sections—NOT THE STUDENT SECTION.**

**Student guest tickets may be purchased the day of the game ONLY at the Student Entrance on the South Side of the football field.**

# Football Coaching Staff Again Led By Whispell

**Head Coach Ray Whispell discusses opening game tactics with assistants Flamish, Gutierrez, Sewards, Short, and Kozlowski. Whispell's gridmen open with Lafayette on September 28.**

**by Dick Hess**

The Muhlenberg college football team will again be headed by coach Ray Whispell and his five assistant coaches. These assistants include Bill Flamish, James Kozlowski, J. Milo Sewards, and two newcomers to the staff, Frank Gutierrez and Austin Short.

Mr. Whispell is beginning his second season as the Mules' head coach. Last year after taking over the reins, he directed Muhlenberg to a 4 and 4 record.

**Coach Whispell**

Coach Whispell received his first training at Allentown High school as a player. In 1942-43 he attended Temple university, but soon left the school to enter the armed forces. After receiving his discharge from military service in 1946, he began studies at St. Bonaventure. While studying at St. Bonnies he served as an assistant to Hugh Devore, the Bonnies' head coach.

Since graduating from St. Bonaventure in 1950, Mr. Whispell has coached at Northumberland High school (Pa.), and Sellersville-Perkasie High school (Pa.). His fine records in high school coaching won him a position on the Lehigh university coaching staff. He soon left the Engineers to become the top coach at Muhlenberg in February of 1956.

**Back Coach**

The Mules' backfield coach will be Bill Flamish. He is starting his second season as assistant football coach. Mr. Flamish is a graduate of North Carolina university, where he received a B.S. degree in 1949. After starring in the Tarheel backfield for three years, he gained a position as an assistant to coach Carl Snavely. Flamish coached at Colby college in Maine before accepting his position at Muhlenberg.

Line coach James Kozlowski is also starting his second season as an assistant to Ray Whispell. Coach Kozlowski graduated from Sellersville-Perkasie High school in 1946. He entered Bucknell university in 1951 after serving his required time in the U. S. Army. In 1956, he graduated from Bucknell and then accepted his present position at Muhlenberg.

**Freshmen Coach**

Serving as freshman coach will be J. Milo Sewards. Coach Sewards is a Muhlenberg graduate of the class of 1940. Immediately following his graduation, Milo became a basketball coach at Allentown High school. He coached 14 years as an assistant football coach at Allentown and three years as an assistant coach at Berg. In 1955 and 1956 he tutored the freshman football team at Muhlenberg. Mr. Sewards is also now serving as head basketball coach at Allentown High school.

This fall Frank Gutierrez and Austin Short have been added to the Berg coaching staff. Both men are well known in the Lehigh Valley for their outstanding football ability.

Gutierrez, a letter winner in three sports at Bethlehem High, entered Muhlenberg in 1953. He immediately broke into the starting line-up as a guard and starred for the next 4 seasons. Last year he was named to the Eastern Collegiate Athletic conference team of the week, for his contribution to the Mules' victory over Scranton."

Austin Short, a former star at Quakertown High, graduated from Lehigh university last June. He is a rangy 6' 1", 195-lb. end, who currently holds the record as the top pass-receiver in Lehigh's history. He caught 56 passes in three seasons of varsity play.

Short was selected to the Associated Press all-Pennsylvania-State first team in 1956, and also made the AP's all-East second team. This is his first coaching assignment. He will tutor the Mule ends.

# Coach Nevins Holds Fall Soccer Practice

With the coming of fall sports, Coach Samuel Nevins has ordered full practice daily on the Soccer field in an effort to groom his starting eleven for the initial scrap at Lehigh University on October 11.

Returning are six lettermen who should give the necessary spark and experience to the squad along with the transfer students and less experienced aspirants. With "M" winners James Balliet, senior, Ronald Ritter, senior, Robert Baker, junior, Frank Csaszar, junior, William Loewy, junior, and John Holcroft, junior, Coach Nevins, in his fifth season as Varsity soccer mentor, is hoping to better last season's record of 4 wins, 5 losses, and a single tie.

Speaking optimistically, Coach Nevins thinks the future "looks better than any other season since I've been at Muhlenberg."

**Intramural Rosters**

**All intramural football rosters must be handed to Jim Kozlowski in Memorial hall by Monday, September 30. Team rosters submitted after this date will not be accepted.**

# Administration Lists Tennis Court Rules

1. Use of the courts is restricted to Muhlenberg college students, faculty, and staff. Members of these groups may invite guests to play with them, but no guest may use the courts unless he is playing with a member or members of these groups.
2. The attendant is instructed to require any person desiring to play to show his identification card. Athletic Department cards are to be used for that purpose.

| Hours | |
|---|---|
| Monday through Friday | 9:00 A.M. to 7:00 P.M. |
| Saturday | 9:00 A.M. to 5:00 P.M. |
| Sunday | 2:00 P.M. to 7:00 P.M. |

There is no provision for reservations in advance.

3. At certain times courts will be reserved for Varsity Tennis teams and for Physical Education classes. The attendant will have such schedules and will see that such reservations are kept.
4. All players must wear **tennis shoes** with flat smooth soles. Note that shoes with heels, cleats, ridges or suction cups will not be permitted. This is necessary for preservation of the courts, and the attendant will strictly enforce this regulation.
   Players may wear shorts but men will be required to wear shirts. "T" shirts are permissible.
5. The tennis courts are not a "thru-way" or "short-cut". You will enter the courts only to play and when properly attired for that purpose. Mats have been provided to clean your tennis shoes, so please use them for that purpose.

# Girls Volleyball Game Added To Regulations

This year with the coming of co-education to the Muhlenberg campus, many changes are taking place and many new things are being innovated.

One of these new innovations is in the Frosh-Soph events. It has been decided by this year's tribunal that the tug-of-war, the football game, and the pushball game would be too rough and too messy for the girls. And, also, with the limited number of upperclass girls the freshmen would have a decided advantage, something that should never happen.

**Site Not Determined**

The volleyball game will take place on October 21st. Since the West hall gym is not yet completed, it has not been decided where the game will be held. The Freshman girls will compete against the Sophomore girls. If the Freshman girls win, the Sophomore girls will wear the Freshman regulations the following day.

## Chapel Regulations

(Continued from Page One)

sic. Friday will be the honors convocation, at which those who have attained the Dean's List for the spring semester will be publicly honored.

Dr. Bremer stated a new rule this year, namely, that students attending hour-long chapels will be given credit for attending two services. Those students who attended the opening convocation have received such credit. The services held during the Institute of Faith will be one hour this year, as will several programs held when guest speakers are invited to the campus.

## Football Life

(Continued from Page Seven)

the morning session. A scrimmage usually held in the afternoon was omitted due to the number of injuries that were plaguing key men. The afternoon practice ended with wind sprints, and again a reminder to attend a meeting at 8:00 p.m. that evening. These meetings consist of talks on morale, movies of last year's games, and new plays and formations. Following this session, all players reported to their rooms by 10:00 and were in bed by 10:30. Thus ended the day of a Muhlenberg football player.

## Commuters Club

(Continued from Page Four)

The Commuters' Club is an organization formed for the purpose of bringing the commuter students closer together. It is also hoped that the organization will be instrumental in developing campus interest by way of a strongly functioning club.

## Pre Medical Society

**Students interested in joining the Pre-Medical society may register with Dr. Shankweiler's secretary in the Science building. Only upperclassmen with a C average in their pre-med science courses are eligible.**

**Miss Anne Kuntz**
**Science building**

## Color Guard

**Anyone interested in joining the Color Guard should see Hal Zell in room 251, Martin Luther hall. Members of the Color Guard receive the same benefits as band members.**

## The Chowline

Once again it is time to welcome the student body back for another year of education —and Slater system offerings.

There is no need to elaborate on the improvements that have been made in the Student center. Many dollars and many hours have been given up to provide a better environment for your coffee break. All that is asked by the College personnel is that these new facilities be respected and properly used. Is this too much to ask of mature men and women?

This year the Snack bar will be open evenings, which should meet with student acclaim. The Snack bar will be open from 7 a.m. to 4:30 p.m. and from 7 p.m. to 10:30 p.m. on weekdays. The hours for Saturdays are from 8:30 till 5, while Sunday hours are from 9 till 5.

Weekend hours for the Commons should also be defined. On Saturdays breakfast will be served from 8:30 till 10, lunch from 12 till 1, and dinner hour will be from 4:30 till 5:30 p.m. Hours for Sundays will be 9 till 12 for brunch, and 4 till 5 for dinner.

These hours should be convenient for the needs of the student body. As in the past the Slater system will have the privilege of serving the student body.

Girls, for that coffee break or in-between-classes coke, we hope to see you in the Snack bar. Till then.

**Adv.**

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., October 3, 1957 A. C. P. Rating No. 2

## Kuntzleman Elected Dormitory President

"It is an honor to be the first president of the first Women's Dormitory council at Muhlenberg college," remarked Jayne Kuntzleman. The girls elected Jayne president on Sunday night at the third dormitory meeting. Jayne has been a great help to many of the girls and has taken the initiative in many of the co-eds' undertakings. She is a sophomore transfer student from Moravian college.

The girls elected Betty Ann Lebo to the office of vice-president. In this office she will also serve as social chairman. Betty Ann and Jayne, who both attended the leadership conference, have helped lessen the burden for Mrs. Brown and Miss Dietrich during the trying adjustment period for the coeds here at Berg.

Meredith Bottum was elected secretary and Joelyn Borelli was elected treasurer. Girls from each floor also chose their representative for the council. They are, from the first, second, and third floor respectively, Norma Diaz, Sara Jane Ruloff, Irmgard Engelhard.

**Purpose of Council**

The council will consist of eight members. One more member has yet to be elected to represent the commuters. The purpose of the council will be to work with the girls in any programs that they will want to sponsor. They will hold weekly meetings and conferences with Miss Dietrich and in general, will regulate all co-ed activities on the campus.

The duties of the council will be to check permissions, sponsor the "Big Sister" program, collect dues, assist in Open House or assign girls to help with some of the duties.

At the same meeting the girls also chose a college blazer. It is red with plain white buttons. The college emblem appears on the pocket. A representative will soon be around to measure students who are interested in purchasing a blazer of this type.

## Lutheran Association Holds Initial Meeting

Doughnuts, cider, and getting acquainted were the order of the day at the first meeting of the Lutheran Student association. Approximately 65 students from Allentown educational institutions attended.

After opening the meeting with get-acquainted games and a period of group singing, president Dick Truchses introduced Dick Reimet, president of the area L.S.A., which includes Lehigh, Lafayette, Moravian and Kutztown as well as the local chapter. Reimet gave a short talk on the area council.

Dr. David H. Bremer, Muhlenberg chaplain, then discussed the local chapter and the national organization, L.S.A.A.

Held at the YWCA cabin, the meeting was attended by 30 Muhlenberg men, 11 Muhlenberg girls, 15 Cedar Crest girls, and nine students from the Allentown Hospital Nurses' Training school.

Students interested in th L.S.A. program are invited to attend the meetings, which are publicized by posters on campus. Information is also available from Truchses and Reimet.

Officers of the local chapter are Truchses, president, Bob Schumacher, vice president, both from Muhlenberg, Norma Zettlemoyer, Allentown Nurses, secretary, and Judy Savits, Cedar Crest, treasurer.

The next meeting of the L.S.A. will be held at Muhlenberg on October 13.

## Berg Expects 1,250 Scouts In Pilgrimage

On Saturday, October 5, Muhlenberg college will be host to an estimated 1,250 boy scouts, explorers and their leaders. About 90 troops are expected to attend this affair, which is the 12th annual pilgrimage of boy scout troops from the Lutheran Ministerium of Pennsylvania.

The scouts will begin registering at the college at 8:30 a.m. Tours of the campus will then be conducted by the Cardinal Key society. At 11 a.m., Admiral Charles W. Moses, development director, will deliver an address of welcome in a chapel program. Dr. David H. Bremer will lead the service.

**Football Game**

After lunch in the college commons, the scouts will attend the Muhlenberg-Albright football game at 1:30 at Muhlenberg field.

William N. Weikel of Philadelphia, the ministerium's scouting director, is supervising the pilgrimage. The purpose of the program is to introduce Muhlenberg to the scouts in an attempt to advertise the college.

Alumni secretary Bruce Romig reports that no immediate plans have been made to include girl scouts in the pilgrimage, even though Muhlenberg is now a coeducational institution.

## Pi Delta Epsilon To Hold Term Paper Contest

Plans for a freshman term paper contest have been announced by Ron Moxey, president of Muhlenberg's chapter of Pi Delta Epsilon, national honorary journalism fraternity. The contest, which will be open to members of the class of 1961 only, will not commence until the second semester when the research papers for English 2 are due.

The contest will be sponsored by Pi Delta Epsilon in conjunction with the **WEEKLY**, the **Arcade** and the English department. There will be three cash prizes awarded, with the winner receiving $15, the runner-up receiving $10, and the third place winner receiving $5.

**Judging**

The judging of the contest will be carried out in the following manner. The instructor of each of the 15 sections of English 2, will submit at least one paper to a committee composed of members of Pi Delta Epsilon, the **WEEKLY** and the **Arcade.** From this group, the committee will select six papers, which will be, with the help of the English department, carefully scrutinized in order to pick the three winners.

The contest is being held to provide the members of the freshman

(Continued on Page Six)

## Muhlenberg And Albright Agree On Peace Terms

**A peace pact between Albright and Muhlenberg is signed by from left to right: George Tietjin, president of Albright's student council, Lou Torres, president of the Muhlenberg Student council and Frank York.**

In order to prevent repetition of acts of vandalism which have occurred in the name of school spirit in the past two years, the student councils of Muhlenberg and Albright colleges have joined in a peace pact resolution. Negotiated by the presidents of the two campus organizations, the pact defines the duties of the student councils in preventing incidents at both schools, and prescribes penalties for students disregarding the resolution.

The pact was signed on Tuesday morning by Frank York, Albright student council president ,and Luis Torres, Muhlenberg council president. York was accompanied to the Muhlenberg campus by George Tietjen, a member of the student council of the Reading school.

Due to the frequency of incidents of vandalism in the past few years, Torres contacted the Albright student government and arranged for the pact to be negotiated. Students of both colleges are to be notified in the campus newspapers concerning the resolution and its provisions.

The student councils of both schools agree to accept the responsibility both for a positive program to prevent vandalism and for the punishment of offenders. Punishment shall consist of payment of damages and severe disciplinary action.

## Philosophy Fraternity Plans Year's Program

In line with its theme for the year, "The Approach To Truth", Alpha Kappa Alpha, will have for its topic tonight "Approach to Truth in Ancient Times". Dr. Edward B. Stevens, professor of classics, will be the speaker.

All students and faculty are invited to attend these open meetings of the honorary philosophy fraternity, which are held at 8 p.m. at the home of Dr. Russell Stine, 2116 Allen Street.

**Topics Planned**

The schedule is arranged tentatively as follows: October 3, "Ancient Times", Dr. Stevens; October 17, "Time of Christ", Dr. Rodney Ring, of the religion department; November 7, "Medieval Period" Dr. Stine, professor of Philosophy; November 21, "Renaissance", Dr. Harold L. Stenger, Jr., professor of English; December 5, "Time of Enlightenment". Dr. Heinrich Meyer, professor of German; and January 9, "Esthetic Truth", John A. Griffin, assistant professor of Romance languages.

Alpha Kappa Alpha, in its attempt to scientifically investigate the facts and principles of reality and human nature and conduct, functions to stimulate thoughtful discussion among and between the faculty and students.

## Science Club Holds Meeting

"Rare Atmospheric Gas separation by low temperature liquification" will be the topic of the guest speaker at the first meeting of the year for the Muhlenberg Science club. Membership in the club is no longer restricted to science majors, and all students interested are urged to join.

The speaker for this first meeting will be an engineer representing Air Products Incorporated, a growing Lehigh valley industrial firm.

The meeting will be held on Monday, October 7, at 8 p.m. in room 105, Science building. Refreshments will be served after the talk and the discussion which follows.

The speaker for Monday's meeting was contacted by Marshall Reber, club president, and Ed Pulver, secretary.

The club welcomes all students and faculty at its metings, whether or not they are members. Members are reminded that dues are to be paid at this meeting.

## Movie Series Offers "Tales Of Hoffman"

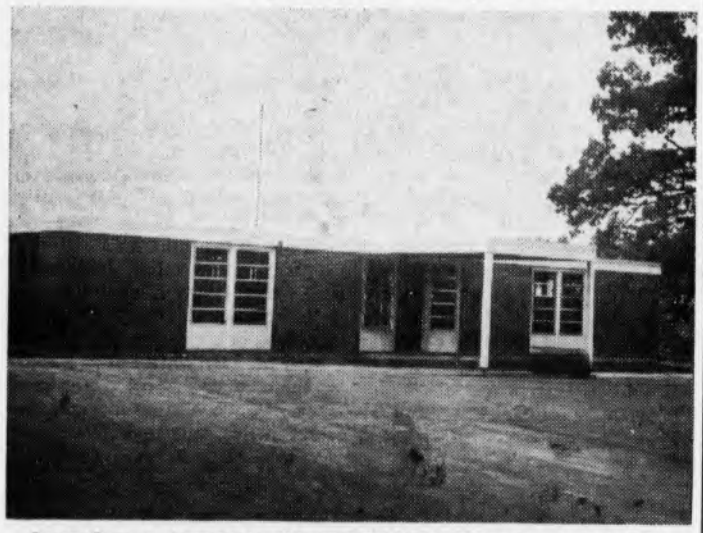
"Tales of Hoffman" will be the second presentation of the Muhlenberg college Cinema series and will be shown in the Science auditorium on Saturday evening, October 5 at 7:00 and 9:00 p.m.

Told without dialogue, in terms of opera, ballet and pantomime, this lavish spectacle of color and music is the story of the poet Hoffman and his loves, Olympia, Guiletta and Antonia.

The next presentation of the Cinema series will be "Little World of Don Camillo" to be shown on October 25.

Admission to all features of the Cinema series is free to Muhlenberg students.

## Completion Date For Medical Center Postponed By Strikes



**As modern as tomorrow, the new Medical center is scheduled for completion by Thanksgiving. It has the latest medical equipment to serve the Muhlenberg student body.**

Certainly one of the most-needed improvements on Muhlenberg's campus has been the construction of a new and modern medical center, complete with the most recent and finest facilties available for this level of medical therapy. In view of union and labor difficulties, the anticipated date of completion has been forwarded to Thanksgiving, according to Mr. MacCauley, Muhlenberg's superintendent of grounds and buildings.

Dr. Thomas Weaber, who directs and supervises all medical activity and therapy for Muhlenberg college, has expressed his complete satisfaction concerning the adequacy of the facilities. Dr. Weaber has supervised the complete furnishing of the medical center, which included the purchase of new equipment such as a complete inter-communication system within the building and the necessities of a full scale physiotherapy phase.

**No Overnighters**

The center will not be an infirmary; that is, there will be no overnight cases handled in the building itself. The schedule of treatment and hours will remain the same, with the addition to the personnel of one new nurse, who will be on duty full-time.

The building itself is very compact but will also be very inclusive. There are completely separate facilities for men and women, with the exception of a hydrotherapy room, which will be

(Continued on Page Six)

## Inter-Fraternity Council Passes Rules Regarding House Parties

Women's hours in fraternity houses, status of Alpha Mu Iota, and rushing rules were the topics of discussion at the Interfraternity council meeting on Monday night. Administration and I.F.C. suggestions for the women's hours were discussed, but were left as at present, pending announcements from the administration and from the committee on campus social codes.

I. F.C. has given its vote of approval for the Alpha Mu Iota to associate with Tau Kappa Epsilon. Rules concerning conduct of fraternity men with freshmen before the organized rushing period was clarified and liberalized.

**Administration Policy**

In answer to question from the floor, Dr. J. Conrad Seegers, college president, stated that he would publish a statement of rules concerning women in fraternity houses in this issue of the **WEEKLY.** His suggestions for a code at the meeting were as follows. Women will be permitted in fraternity houses afternoon hours and until 10 p.m. On houseparty weekends girls must be in the houses and dorms at 2:00 a.m. and dates of fraternity and dorm men will be accomodated in West hall for the fee of $1.00.

West hall women may stay in fraternity houses with the permission of parents and dormitory officials. Co-eds will not be allowed in fraternity houses at all except for approved, chaperoned occasions. Chaperones may be faculty members or faculty approved adults.

In an attempt to moderate the rules, I.F.C. offered two resolutions as a compromise. These are: that women will be allowed in fraternity houses up to the time of the Muhlenberg coed curfew, but not later than 10:00 p.m. on weekdays and 12:00 p.m. on weekends; and that there shall be a 3:00 a.m. curfew on houseparty weekends.

**Affiliation Approved**

Alpha Mu Iota has been given the necessary vote of confidence by the I.F.C. to become a member of the national social fraternity Tau Kappa Epsilon. A.M.I. is now wearing the pledge button of Teke. This does not mean that these men are pledges, but is an indica-

(Continued on Page Six)

## First Meeting Held By Catholic Group

The Newman club composed of members from Muhlenberg, Cedar Crest and the Allentown School of Nurses, held its first meeting Monday night, September 30, in the Muhlenberg Student center. The meeting was attended by approximately 80 students.

The items of business that were discussed included the planning of the semester's activities, and nominations for the office of president, which was vacated by Parry Desmond. Those nominated were: William Gallagher and Ed Schroeder from Muhlenberg and Barbara Mudrick from Cedar Crest.

Father Jung, the club's new chaplain was introduced after which he spoke on the important part religion plays in the catholic life. Mr. Kinter also replaced Mr. Stinson as the club advisor.

The Newman club, which is open to all students of the Roman Catholic faith, will hold its next meeting on Monday, October 14, at which time the election of the club president will take place.

**FOOTBALL STUDENT GUEST TICKETS**

**Student sections for home football games will be "C" and "D" (North Stand) with the band occupying the front rows.**

**Each student is entitled to purchase one (1) Guest Ticket for the price of $1.25.**

**Tickets for parents will be available in either the reserved seat sections or general admission sections—NOT THE STUDENT SECTION.**

**Student guest tickets may be purchased the day of the game ONLY at the Student Entrance on the South Side of the football field.**

## While Rome Burns . . .

Since the beginning of the school year the Freshman Tribunal has not operated efficiently nor has it operated in the best interests of Muhlenberg college. Since this year is a period of considerable tension, the Tribunal's spurning of responsibility must be revealed and concrete suggestions must be made.

It cannot be denied that the present Tribunal is completely disorganized. The chairman was completely unprepared when the freshmen first met the Tribunal in the Science auditorium. The chairman allowed the upperclassmen to remain in the balcony, completely disregarding the agreement made to the Personnel Deans at the Leadership conference. The Tribunal has never had an organizational meeting to elect a vice-president and secretary, nor have hazing limitations ever been officially discussed. Many members of Tribunal are incompetent and do not fully realize the responsibility that has been placed upon their shoulders. The chairman does not define or set standards of hazing and his poor leadership has turned the committee into a complete farce. Their incompetence has produced in the administration a serious lack of faith in student government.

Responsibilities of the Freshman Tribunal include the proper execution of the established regulations, and not only the incidental questioning of freshmen. Therefore, members must be carefully selected so as to include only those men willing to utilize their authority to maintain order. Most of the present members of Tribunal are not of this caliber.

Members of the present Tribunal were elected by last year's Student council. A similar situation should never occur. Better co-operation between Student council and Tribunal, and more effective supervision by Student council would be achieved if each Council could elect the group that would serve under its term of office.

Student council must act to bolster the administration's wilting faith in student government. Steps must be taken to rectify the present laxness of Tribunal members, either by Student council regulation or by the replacement of certain members of the Tribunal.

## With Due Respect . . .

Not only has the advent of co-education on the Muhlenberg campus been inaugurated this semester, but several new and improved facilities now grace our campus. The thousands of dollars that have been invested in the campus during this past summer require some explanation as to how the student body should respect our renovated campus.

The seven tennis courts that have been constructed in the center of the campus cost $27,000. It is obvious, therefore, that a project that cost such a price should receive the best of care. The courts will be under the supervision of an attendant, who will have the authority to make anyone wishing to play on the courts show his identification card. The **WEEKLY** urges complete cooperation on the part of the student body, faculty and staff in complying with the rules which have been published in last week's **WEEKLY.**

With the help of $5,500 dollars the Snack bar was thoroughly renovated this summer. Since this project was undertaken for the benefit of the Muhlenberg college student, it is up to each individual student to make it his business to see that the Snack bar remains in the condition in which it now is. Also the lounges in West hall and in Martin Luther hall have cost the College thousands of dollars. Again, a personal responsibility on the part of every student is necessary to preserve these lounges for future classes.

We are all in college now. For some it is only our first year and for some others it is our fourth. There is no reason, unless it be deliberate and gross negligence, why the money that our college invested for our own enjoyment should not be appreciated and respected.

# Muhlenberg Women Reveal Opinions Concerning Regs

**by Barbara Fretz**

It seems that the Student center and West hall weren't all that was destined to be remodeled as a result of coeduation at Berg. Now Freshman regulations have also been "made over" for the women —at the cost of creating a gap among the students on campus that may take quite some time to bridge. To say that nearly everyone has taken sides in the dispute would not be overemphasizing the seriousness of the matter. But what do the girls themselves think of the new idea?

Strangely enough, the general feeling among the female students is one of dissatisfaction with the recent steps taken to limit hazing, even though the rule was made for their protection.

**College Adjustment**

Adjusting to college life is not an easy thing to do for any girl; to be among the first girls in a previously all-male student body is still harder; but on top of all this, to be deliberately isolated from much campus tradition seems the final and hardest blow. The girls who chose Berg as their school were, for the most part, expecting things to be rough. On a whole, they were just as well as, if not better, prepared than the freshmen men to meet problems as they came along. They did **not** come, however, expecting to find things so easy—that isn't the Muhlenberg they chose.

A great percentage of the girls feel that they will be missing out on an experience as typical of college life as the all-night bull session or the final exam. Others feel that it will prevent women from ever being a real part of the Berg tradition. The strongest argument is that, after working so carefully to build the good male-female relationship (pointed out in last week's editorial) they have been forced against the will of the majority to begin their efforts all over again—and this time with a new and bitter resentment to overcome.

**West Hall Opinion**

"We don't want to be treated like babies and have the upperclassmen and freshmen men resent us. It isn't fair to either side." Opinions like this one, overheard in West hall, are common among the coeds, who would like nothing better than to be accepted naturally and without fuss into the Muhlenberg family. The curtailment of regulations is obviously not helping them toward their goal.

Of course the other side of the argument deserves much consideration. It is true that with an eight-to-one male-female ratio many regrettable incidents might occur. It is unfortunate that there would be those men who would not heed the warnings of the Student council and Tribunal and would forget that they were dealing with girls. This lack of consideration, evidenced even before regulations went into effect was, undoubtedly, largely responsible for the alterations.

**Point in Favor**

A big point in favor of the new regulations is that those who have decided to make the change have had previous experience in dealing with student problems, and have probably done wisely.

Whether or not the divided regulations will seriously hamper the progress of coeducation at Muhlenberg will only be answered in time to come. The reaction of both women and men may or may not change. But for the present, the feeling of the women is at best stated in these words voiced by a freshman girl: "What about regs? I guess the old way would be pretty rough and sure, I'd probably be the first one to cry over something that was done to me, but I've always heard how great it is to look back years later to laugh over things that happened to you and to realize the good it did in the long run. It's a shame that that's something we will never be able to do."

# West Hall Dormitory Sports Modernized Feminine Touch

**by Linda Patnoi**

Within a mere six months, a forty-year transformation has taken place in West hall, Muhlenberg college. Where dilapidated bed furniture once graced a four-man bedroom, two women students can enjoy the luxury of their pastel-colored paradise with its built-in beds, spot lighting system, and perhaps a fireplace. Where abandoned kitchens and storage laboratories stood only last June, classrooms and laundry space have been improvised. And where there was once a poorly-equipped gymnasium, West hall can now boast of acoustical paneling and ceiling, repainting, modernized lighting, and an improved heating system.

Perhaps the most impressive change in the redecoration of the women's dormitory was made in a dingy, dark room typical of forty years ago. Now there is another acoustical-tile ceiling covering the rose-colored lounge, with its luxurious furniture, carpeting, baby-grand piano, hi-fidelity phonograph, and television set.

**The present reception room which went unnoticed for many years is now outfitted with plush furnishings and carefully selected color arrangements.**

Other renovations made in West hall within the last six months include a commuters' room, two kitchenettes, individual floor lounges, and an art department.

To conclude the transformation a beautiful apartment has been added for Mrs. Brown. The old English faculty office is now two club rooms, and minor adjustments have been made in the auditorium.

**Here is the lounge in the lower floor of West hall, where men sat to watch television and sip sodas and eat tastykakes from Haps' candy kitchen.**

# President Clarifies Pertinent Issues

September 30, 1957

The purpose of this communication which I am presenting to the **WEEKLY**, by request, is to clarify certain regulations. I will attempt this by answering specific questions which have been presented to me.

1. **Question:** Will girls be allowed to stay in fraternity houses on house party weekends? And a subsidiary question: Will fraternities be permitted to turn the houses over to girls for such occasions?

**Answer:** Fraternity houses will be permitted this privilege provided the houses are properly chaperoned and provided boys leave the house by 2:00 a.m.

Muhlenberg girls will, of course, have to receive permission from the Dean of Women.

2. **Question:** Will dates be allowed to stay in West hall on both party weekends and other weekends if no other facilities are available? Will there be a fee?

**Answer:** In both cases dates will be welcomed at West hall provided arrangements are made in advance with the Dean of Women, who will have the responsibility of arranging accommodations. There will be a fee of $1.00 to cover laundry expenses. This kind of arrangement is encouraged and welcomed by the College.

3. **Question:** What is the curfew hour for house party weekends?

**Answer:** The hour is 2:00 a.m.

4. **Question:** What are the qualities to be considered if a chaperone is to be approved by the College?

**Answer:** Any faculty member or the wife of any faculty member would automatically be approved, and it is hoped that faculty members or their wives will be invited to chaperone whenever it is possible. Other chaperones must be approved in advance of the event by the Personnel Deans. This approval must be secured at least one week in advance of the event.

# "Spike Wallets" Interviews Berg Coed

**by Marv Hyett**

This is a Spike Wallets interview. Tonight, we shall be talking to that distinguished coed, Miss Ima Mover, and we will try to get her ideas on school, men, books, men, professors, men, and the administration.

And now, Miss Mover, on with the interview. First, I would like to know if you actually approve of boys at Berg.

**Miss Mover:** Well, Spike, I really do. It hasn't been so long since I've been out of Burg myself, and . . .

**Spike:** Just a minute, Miss Mover, what do you mean by "out of Berg yourself?"

**Miss Mover:** Why Jamesburg, of course. Isn't that what you're talking about?

**Spike:** Not exactly. I was referring to Muhlenberg.

**Miss Mover:** Oh, well! I approve of them anyway. They're so different—from other girls, I mean.

**Spike:** I see. Now, how about your professors?

**Miss Mover:** Yes, how about them?

**Spike:** I mean, do you like them?

**Miss Mover:** Only on a Platonic basis.

**Spike:** What I mean is, how are your classes?

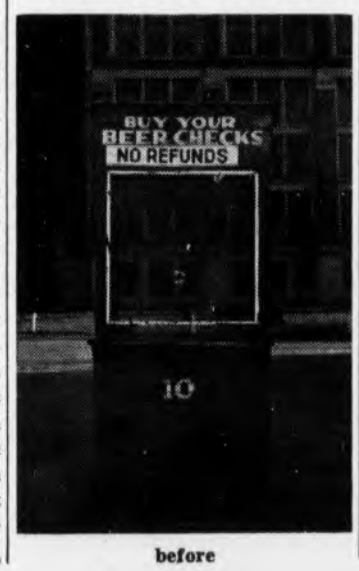
**Miss Mover:** Fine, except for one thing. With the boys writing all the time, how are we supposed to watch the professors?

**Spike:** Never mind, it's irrelevant. I've heard it said that the girls are out to change Berg. Is that true?

**Miss Mover:** Well, Spike, I really can't answer that. You see, when the revolution occurs, the secret police will take over.

(Continued on Page Six)

# Ticket Booth Takes Atlas Course



**before**

Last year's football ticket booth decided that it was out of style with its old-fashioned marquee crying "Get your beer checks here,' and, after leafing through a **Mad** magazine, discovered a unique dynamic tension course offered by Charles Atlas. During the summer months, it practiced its exercises faithfully and what we see here is the end result of its tedious labors in self-improvement.

**after**

# GREEK WAY . . .

by Burt Eisenbud

**ALPHA MU IOTA**

Congratulations to brother Fred Gardner on his recent marriage, and to Brother Don Snyder on his engagement. During the summer, work started on the physical renovation of the House. The basement became a beautiful recreation and chapter room, oil heat is being installed, and the living quarters are being painted by the brothers. We are proud of these advances and are looking forward to a good social and administrative year.

**PHI EPSILON PI**

Phi Ep extended their welcome to the co-eds by giving a tea in their honor Sunday, September 29, 1957. Among the guests were Dr. and Mrs. Shankweiler, Dr. and Mrs. Dierolf, Dr. and Mrs. Bremer, Dr. and Mrs. Stenger, Mr. Winter, Mr. and Mrs. Stecker, and Mrs. French. Congratulations are in order for Burt Eisenbud on his marriage, and to Marvin Roth and Bob Spivak on their engagements. Among the brothers who were accepted to graduate schools are Gabriel Spector, Sheldon Morris, and Fred Stutman. Congratulations to them. Spencer Tuchinsky was honored this summer by his appointment as the director of The Children's Theater of Allentown. The house is behind Bob Rosenheim and Frank Sivitz who are members of Berg's football team.

**PHI KAPPA TAU**

The house is once again alive, for not only have the brothers returned, but also the fraternity mascot, Rusty, a rust-colored cocker spaniel. Rusty spent the summer with his owners, Mr. and Mrs. Harry Eberhardt of the College commons. Also welcomed back to the house is long-lost brother Pete Sell, who has returned to college after service with the army in Germany.

**LAMBDA CHI ALPHA**

All is running well at Lambda Chi. The house is especially proud of its showing of members on the 1957 Muhlenberg football team. This year's squad incudes Brothers Bob Hieter, Jack Young, Clair Miller, Bob Miller, Ben Schiellkopf, Bob Bartholomew, Jim Orr, and Joe Federico, whose injuries limit him to managing duties this year. Lots of luck for a successful season this year to these men and the rest of the team.

**SIGMA PHI EPSILON**

Headed by chaper president Ed George, and members of the Alumni Board of Control, brothers from the Allentown area spent many hours this summer at the house doing repair work, refurbishing, and a variety of miscellaneous improvements. Frank Gutierrez, star football player for Berg last year returned to school this year as coach of the freshman line in football. Sig Ep welcomed the co-eds by sending them a bouquet of flowers and by serenading them on Monday night at West hall. Following th. serenade to the girls, our songsters entertained President and Mrs. Seegers with a few songs. Some of the brothers operated a parking lot during fair week under the supervision of Francis Vari, chapter vice president. The lot, located at the southeast corner of 17th and Liberty Streets has been given to the chapter for fair week for a number of years by the owner.

**ALPHA TAU OMEGA**

A few alert brothers spotted and successfully apprehended the four Lehigh students who attempted to steal the large stone "M" in front of the College.

Congratulations to Brother Marty Baker on his marriage and to Brother Rick Stephan on being pinned. Worthy Master Earl Knies and Worthy Keeper of Exchequer Karl Becker recently attended an ATO conference on leadership at Cornell. ATO's on Berg's football team are Mike Kurtz, Tuck Carpenter, Dick Anderson, and Al Stott.

# 'Round Campus

**Thursday, October 3rd**

**Alpha Kappa Alpha will hold its bi-weekly meeting at the home of Dr. Stine, 2116 Allen St., at 7:30 p.m. Dr. Stevens, the guest speaker, will discuss "The Approach to Truth in the Ancient World".**

**Friday, October 4th**

On this day the Fall Honors Convocation will take place in the chapel at 11 a.m. **The cross country match with Lafayette will be held at home and it will start at 3:30.** The Commuters' club will meet today in the commuters' room in the Student center.

**Saturday, October 5th**

**The Albright-Berg football** game, starting at 1:30 p.m., **will be the highlight of this Boy Scout Day.** The cinema in the Science auditorium scheduled for this evening at 7 p.m. will be "Tales of Hoffman". **Later, at 9 p.m. a Combo Hour will be held in the Student center.**

**Monday, October 7th**

The Science club will meet in the Science auditorium at 7:30 p.m. while the Der Deutsche Verein will meet at the same time in the Student center.

**The Mask and Dagger will hold its meeting at 8 p.m. today in the Science auditorium.**

## Arcade Meeting

**The Arcade staff will meet on Tuesday, October 8, at 11:00 a.m. in the office on the second floor of the Student center building. Any student interested in either creative writing or critical proof reading is welcome to attend. Nominations for new members of the staff will be taken.**

**William Holst, Editor**

# THE CAMPUS Whirlpool

by Dick Kennedy

**"Do you have a date for Chapel tomorrow?" "Yeah, I did, but she stood me up and went with Ray Ueberroth."** The latest rage on campus is **dates for Chapel, dates for the Library, dates for the Student center, dates for education movies, dates for chem class, etc. . . .**

Lehigh followed in the footsteps of last year's invaders from Lafayette. A couple of the boys tried to uproot the stone marker on the southeast corner of campus, but a wary ATO group captured the villains and turned them over to the dorm crowd who shaved them bald. **(By official order, West hall was quickly bolted in anticipation of further raids. All windows were closed and all doors were locked.)** The engineers were sent back to their campus to suffer the comments of their classmates. "Yo, Eightball," "Hey Yul," and "Say, Becker!"

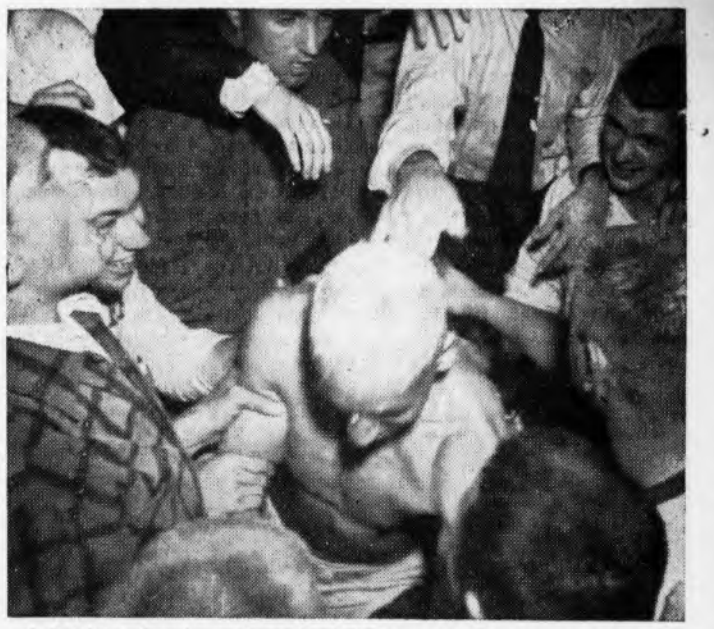
**Jack Magan set a Muhlenberg water-drinking record. On a one dollar bet, he downed thirty-seven three ounce cups of water, totalling approximately three and one-half quarts.** Phi Tau had to call in the plumbers.

The other day, I talked to the **Life** representatives who have recently been scouring the campus for information on the "newly-transformed" college. **There is a possibility,** they tell me, **that Muhlenberg will hit LIFE magazine.** They have been taking pictures of almost every phase of campus life, including the Tribunal meeting on Monday night. Who knows, maybe a few fortunate Berg students will make national acclaim!

The campus was pleasantly serenaded by the "West hall Ninety" on Monday night. **The girls traversed en masse to East hall, candles in hand, and sang some traditional old favorites** (e.g. "The Old Gray Bonnet" and "Friendly Persuasion.")

Last year ,the **WEEKLY** ran a picture of the ticket booth that stood in front of the South gate of the stadium. With a few of the leftover bricks from the new dorm, a new booth has been constructed—this time without the **"Get your beer checks here."**

# Lehigh Gets Trimming



**A Lehigh adventurer is mobbed by East hall barbers in a recent unsuccessful campus raid by the engineers.**

Sunday evening at approximately 11:30 p.m., a group of students from Lehigh university attempted to steal the block"M" from the Muhlenberg campus, at the corner of 23rd and Chew streets. The Lehigh students were foiled in their attempted theft when the brothers at Alpha Tau Omega fraternity noticed the suspicious group clustered around the cornerstone.

Following their capture, the Lehigh students were led into "B" hall, where their heads were shaved by the dorm residents.

**West Hall Pilgrimage**

A jubilant group of freshmen then paraded the Lehigh students over West hall to the tune of "Put On Your Old Gray Bonnet." In front of West hall and the Muhlenberg coeds, the shaven vandals were forced to praise Muhlenberg as the top school in the Lehigh valley.

This is not the first time that this punishment has been inflicted upon pranksters from our neighboring colleges. Last year just prior to the Muhlenberg-Lafayette football game, a group of students from Lafayette college invaded the Muhlenberg campus in an attempted paint raid. They were apprehended by the freshmen, who were then located in West hall, and were taken into "B" hall where their heads were shaved and decorated with red M's.

# Head Shaving, Serenades, And Life—Some Week!

by Earl Knies

Some week, wasn't it Sam? First those guys from Lehigh trying to steal a monument you couldn't lift with a crane, then that riot over at the Quad when the girls came, and all the time people from LIFE running around. Booking's going out of style.

Were you there for the serenade, Dick? I went to the flicks that night and missed it. It must have ben wild.

It was, fella. Not quite as wild as the shaving party, but the boys kicked up quite a storm.

Clue me in on it, will you? There'll probably be a story about it in the **WEEKLY** by some dribbler, but that won't tell me much. They usually try to make things look good.

Well, I was over at the Snack bar having a coke about 9 o'clock, and I heard this roar over at the dorm. I figured they caught some guys again, so I dashed over to get in on the act. When I got over to the dorm there was these guys hanging out of windows and running around the Quad. I didn't see any scissors or bald-headed guys, so I couldn't figure it out at first. I spotted my roomy and asked him what was going on. "The girls are going to serenade us," he says. Before he could say any more, the guys start chanting, "WE WANT HEIMTRAUT . . . WE WANT HEIMTRAUT!"

That's getting to be pretty popular around here, isn't it? When there's nothing else to say, you just holler "We Want Heimtraut."

I guess you could say that. It's good for laughs anyway. Well, pretty soon we see the girls coming across campus and a big roar goes up from the crowd. One guy blows "charge" on the trumpet. They start shouting a little louder, some guy flips Little Richard on his phonograph and blares it out at full volume, and everybody's ready to have a ball. But the coeds stop then, and just stand there on the other side of the tennis courts. Well, of course nobody wanted to have their fun ruined, so they shouted louder yet.

Why did the girls just stand there?

They were shook up, I guess. They might of been having a strategy conference, too, I don't know. After about 10 minutes they start to walk, toward the Quad again. The guys let out a big cheer to show their appreciation, and Haps starts pushing the ground observers back to let the co-eds through. They stop again, this time at "A" hall. A couple a girls broke loose from the flock, but Heimy rounded 'em up like a good sheep dog. They were all holding candles in their hands—looked like clubs at first.

So did they just stand there?

No, pretty soon Haps goes bustin' over and leads the pack like a proud father. He really sucks that stuff up, you know: They go right to Martin Luther hall and stand there holding these candles. All at once Heimy's arm holding a candle goes way up in the air and she gives some command. And there was light—yeh, in a couple a minutes all the candles were lit and the girls rip off their dinks and start waving them. Couldn't hear much with all the shouting and Little Richard, but they must have been singing "Put on Your Old Gray Bonnet." When they finished, some guys clapped, some booed, and Little Richard just kept on singing.

You mean they booed the girls?

Sure—everybody was out for a good time, and that LIFE photographer went wild with pictures. After awhile the noise quieted down a little, and the girls started to sing another song. I thought they'd leave after the response to the first one, but they kept on singing.

They got guts—you can't deny that.

They sang the Alma Mater after awhile, and everybody figured it was all over. Some genius starts singing "Here's to Heimy and the way she does the Hula-ha" and everybody joined in. And do you know, she actually laughed? Yeh, she laughed at it. The noise kept increasing all the time, 'cause everybody wanted to give them a good send-off as they left. But they didn't leave like we figured. They walked over to the East wing and started all over again.

Did they sing different songs this time?

I can't really say, since I was shouting along with the rest of the guys. You can't just stand there if everybody else is making noise. Some of the "wheels" were just pacing around looking mad though, and one of 'em said something about mass-men in action. Maybe I heard him wrong. Some of 'em were even telling guys to shut up—it's a good thing nobody said anything to me! Anyway, the girls kept singin' thru it all like nothing was happening. I bet they were twitched, though.

Did they quit after that?

Nope, they turned to the Arcade and started singing again. I looked up at the frosh 'cause they were making so much noise, and all at once I see this sign, GIRLS GO HOME! I did a double-take on that one and then I notice a skirt and blouse with HEIMTRAUT DIETRICH on it hangin' out the window, too. Those guys must have known they were coming.

Looks like they were ready for them.

Finally they turn to the west side of the dorm and go into their act again. Little Richard blasted out again, accompanied by the bugler. Lou Torres went over and shut that noise up, but the guys kept on hollerin' things like "Keep off the grass, Frosh," and cheering and booing.

I guess they went back to West hall, then.

No, they moved over to Sig Ep with a big crowd of fellows following.

Why did they go over there?

Sig Ep serenaded them, so I guess they wanted to return the compliment.

That makes sense.

They still weren't done singing, though. From there they went over to Connie's house to serenade him. And you know, when he and Hazel walked out, the crowd quieted down for the first time since the thing began. They seemed to really enjoy the singing and it did sound better without all the noise. They were thru after that and started back for the dorm. The guy on the bugle played taps, and a bunch of us tagged along down—it was great walkin' them back home after hours. I figured I might as well take advantage of it—we may never get another chance like that.

Boy, I sure do pick the nights to flick it. That must have really been something to see.

It was, Sam. In three years here I've never seen anything like it. You know, if co-education's gonna bring all this, it might not be so bad after all. It's really gonna liven up the place, and I suck up this cheap stuff. I mean to tell you, the reception we gave those co-eds was really something.

But don't you think the guys were kinda crude about the whole thing? I mean, they could have at least shut up for the Alma Mater.

Yeh, I guess maybe it was a little crude . . . but it sure was a ball . . .

## "Friendly Persuasion"

**West hall femmes made their crusade to East hall on Monday night, beaconed by candle-light and led by the Dean of Women, singing heartily for the enjoyment of 400 men.**

## Ye Olde Berg Barber Shoppe

**The arm of one of the Lehigh dome-heads is reluctantly raised in a gesture of welcome to 90 West hall girls. He displays the latest fad in Ivy cranium adornment—nothing but skin!**

## Studies! What, Me Worry!

**Eager males risk their lives by hanging out of windows, clinging to window sills, and clamoring over each other, just to get a glimpse of the serenading coeds.**

## Freshmen Notice!

**All freshmen who do not have regularly scheduled classes on Monday afternoon are to report to the Science auditorium at 3:15 on Monday afternoon, October 7.**

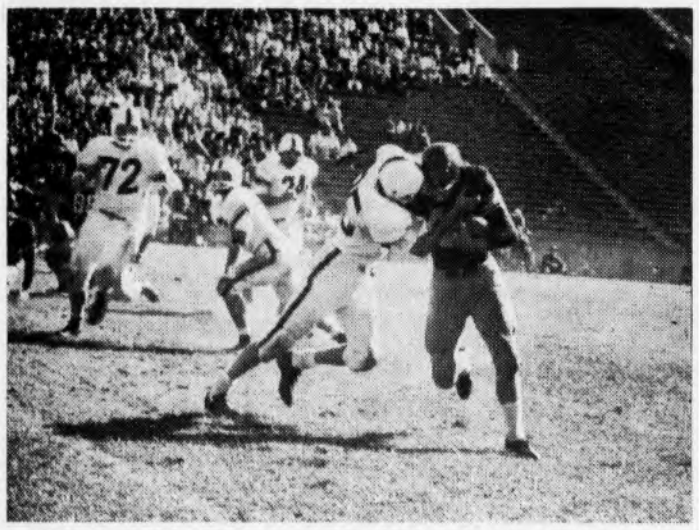
# Leopards Thwart Threat To Nudge Mules, 20-13

by Ben Livingood

A fast- starting Lafayette football team grabbed a 20-0 half-time lead and stamped out a late Muhlenberg threat to capture a 20-13 victory last Saturday at Fisher field, Easton. The hard fought battle, before some 6,000 fans, was the opener for both teams.

The Leopards scored their first touchdown in the closing minutes of the first quarter, and added two more within the final five minutes of the second to gain their overwhelming half time lead. While the fast-moving Lafayette offense dominated play in the opening half, the Leopards defense kept the Mules on their side of the 50-yard line.



END OF THE LINE—An unidentified Lafayette tackler stops Muhlenberg halfback Roger Keehn for no gain in Saturday's action at Fisher field, Easton.

**First Touchdown**

The first score of the game came with four minutes and 29 seconds remaining in the first quarter, when senior halfback Jim Hourihan plunged into the end zone from the three-yard line. The touchdown climaxed a 65-yard drive in eight plays. Quarterback Wayne Cipriani set up the scoring play with a 21-yard pass to his right halfback Al Caesar on the Muhlenberg eight. Sophomore end, Dan Wooten converted for the point-after-touchdown, making the score 7-0.

The Leopards scored again with the clock showing three minutes and 59 seconds left to play in the first half. This time it was Don Westmass who plunged over his right tackle from the one after his teammates had rolled 86 yards in twelve downs. Westmass was also instrumental in setting up the touchdown as he raced 40 yards to the Berg six-yard line before Pat Wilson bounced him out of bounds. Al Adlemann missed the try for the extra point, and the score read 13-0.

**Mules Fumble**

After Wooten kicked off, the Mules were unable to move the ball, and on fourth down, Art Wright went back to punt. He fumbled a bad pass from center, however, and Lafayette took over on the Muhlenberg 15.

With 45 seconds remaining in the half, sophomore halfback Dick Fritz ripped through the line from the two to score. Once again Wooten converted and the Leopards led 20-0.

The second half was the direct opposite of the first for both teams. While the Mule offense was rolling up considerable yardage both on the ground and through the air, Lafayette failed to advance further than the Berg 43-yard line.

**Outstanding Block**

After Bob Hieter kicked off for the Mules, Lafayette could not move and was forced to kick. Caesar punted to Roger Keehn on the Muhlenberg 15. At this point Hieter threw the most outstanding open field block in the contest, springing Keehn temporarily into the clear.

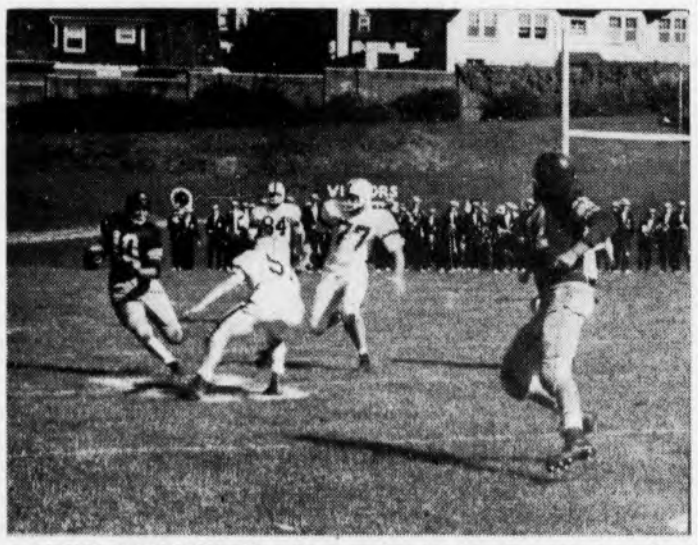
In twelve plays, the Bergmen moved from their own 26 to the Leopards' six-yard line. Then with first down and goal-to-go, Wright fumbled and Brad Jackson recovered, a break which proved to salvage the win for Lafayette.

**Berg Scores**

The bad breaks failed to dishearten the Mules, however, for with slightly more than six minutes remaining to be played, Wilson slashed over the left side of his line to paydirt for the first Muhlenberg tally. The Mules had driven 51 yards in 12 plays during their first scoring march. The touchdown marked the first Muhlenberg score against a Lafayette eleven since 1954. The score was 20-6 after the Mules failed to gain the point-after-touchdown.

Berg's final tally was credited to sophomore end Ken Hendricks, who recovered a fumble by Caesar in the end zone with 43 seconds left in the game. Jim Nonnemaker converted for the extra point and the score stood at 20-13.

The Muhlenberg eleven looked well even in defeat. Their sparkling play in the second half gave hint of a successful winning '57 season. Next week the Mules will play host to Albright college. To date the Lions have been unsuccessful in their first two outings, losing to Bucknell and Scranton.



FANCY STEPPING—Jim Nonnemaker, Muhlenberg quarterback, displays some tricky running in an effort to elude three Leopard defenders, while his teammate, Bob Hieter, moves in to offer his assistance.

# Muhlenberg Mules Host Lions In Annual Game

This Saturday afternoon Muhlenberg will open its 1957 home football season against Albright college of Reading, Pennsylvania. Berg, victorious last year by an 18-0 score, holds a 20-13 edge over the Red and White in a grid series dating back to 1903.

As for this year's squad, coach John Potsklan's eleven is expected to concentrate on the forward pass due to the return of quarterback Frank Sudock, a two year veteran. Last year the junior signal-caller from West Hazleton completed 72 out of 170 passes for a total of 993 yards gained and three touchdowns.

At the halfback slots, senior John Cunnigham (6', 180 lbs.) and sophomore Gerry Bricker (6' 175 lbs.) appear to be the starters, while freshman Claude Lynch (6' 195 lbs.) is the likely choice at full. Freshmen will be counted upon heavily as reserves.

**Forward Wall**

Albright's forward wall, which has lost only co-captain Charles Hoover through graduation, will be made up of senior ends. Frank Hoffman (6', 195 lbs.) and Don McCarthy (6', 205 lbs.), tackles Norm Ruppert (5' 8", 190 lbs.) and Tony Mazza (6' 2", 215 lbs.), guards Dick Napolitani (5' 8", 180 lbs.) and Harold Miller (5' 8", 180 lbs.) or Jim Doremus (5' 10½", 185 lbs.) and center Tony Lo Sapio (5' 10½", 185 lbs..). With the exception of freshmen Lynch and Mazza, all the above saw action against the Mules last year.

Thus far this year Albright, which had a 2-7 record last season, has lost to Bucknell 16-0 and to Scranton 20-0. Following the Berg encounter the Lions will face Lycoming in the Pretzel bowl, Gettysburg, Franklin and Marshall, Moravian, Lebanon valley, and Juniata.

# Booters Prepare For 1957 Season Opener

"Optimism" is the word which keynotes Coach Samuel (Bud) Nevins' opinion of this year's soccer team. Along with the daily practice sessions, which have shown some fine new talent, and the return of six lettermen, the soccer team has turned into a finely polished athletic unit.

Among those men mentioned by Coach Nevins as real standouts, were John Holcroft, Ronald Ritter, and Frank Csaszar, who are all lettermen.

With the fine progress the team has shown, and the hopeful attitude of Coach Nevins, this year's team may produce a better record than last year's 4-4-1. Coach Nevins will lead his charges in the season's opener against Lehigh on October 11.

# I-M Corner

by Jack Coughlin

Next week intra-mural football will make its appearance on the Muhlenberg scene. Nine team rosters have been turned in to the director, James Kozlowski. These teams will represent fraternities and independent teams that will vie for the I-M trophy.

This Friday, Kozlowski will hold a meeting of the officials. The purpose of this meeting will be to discuss rules and regulations and to get the league in shape to start next week. Helping out at this meeting will be Bill Flamish and Austin Short, assistant coaches of the football team.

**League Schedule**

Early in the week, schedules will be posted for the games. It is important that all team captains check the bulletin board in Memorial hall for any information.

The following are the teams who have registered for the league: Kernsters, Trojans, PKT, PEP, AMI, Giants, ATO, SPE, and LXA.

# Toughest Football Played In Midwest

"Where do they play the toughest football?" asks the current issue of Sports Magazine. And the magazine goes on to answer loud and clear, "the Midwest!"

Sport ranks the football sections of the country this way: Midwest, Southeast, Southwest, East, Pacific Coast, Missouri Valley, South, Rocky Mountain.

Sport defends its choice by listing the six items it feels are necessary for a rough football team. In each category, Sport is of the opinion the teams of the Midwest lead:

1. **Material:** The Midwest is populous, prosperous and bigger geographically. It is football-minded. High school ball is a big thing in all the little towns. The boys are well-coached and when they get to the college level they are ready. College coaches can watch prospects at Friday night games and make their own decisions. Each school tries to get the best 35 boys in its own state. The East, Southwest and Pacific Coast seem to grow plenty of native material, but the Midwest has a better choice of high-grade talent-on-the-hoof.

2. **Coaching:** Since the football business is biggest in the Midwest, and the turnover of coaches there reflects the high pressure, it would seem reasonable to assume that the quality of coaching is as good as money can buy.

3. **Tradition** (the spirit that calls upon the ghost of past heroes to produce superhuman efforts from those who are wearing the uniforms today): The Midwest points to Notre Dame's record of magical upsets; to the national championship eras of Michagan, Ohio State, Minnesota and Michigan State; to the glories of Grange at Illinos, etc.; to its Rose Bowl record when all the chips were down; to the number of teams it has in the annual national title race.

4. **Alumni and Citizen Support:** No crowds are as big as the Midwest crowds; and none more rabid. The players record to the voice of the crowd.

5. **Aggressiveness:** The willingness to hit, to give and take rough contact, is a very big part of football. The Midwest kids are products of mills, mines and farms, and are rough, hungry hard-noses who, when the going gets tough, get tougher.

6. **Policy:** Policy is the attitude of a college or a conference on (a) how much and in what coin an amateur athlete should be rewarded for his football skill which the school sells at the box-office; and (b) how to discipline those who violate the established code set up to govern such matters. It was policy which deflated Pitt 20 years ago, which de-emphasized the Ivy League, and which brought on the cold war that had dropped the Pacific Coast a notch below major levels during the last two seasons. Conversely, it is policy which helps keep Oklahoma at the top, which kept Notre Dame in contention

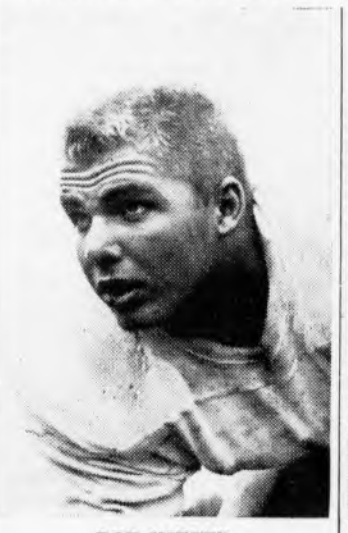
## Lineman and Back Spark Mule Offense



BOB HIETER

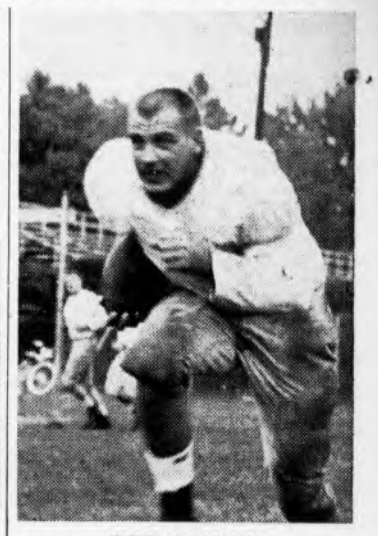
Beginning his second season of varsity football at Muhlenberg college, Bob Hieter has become one of the major cogs in the Berg forward wall. Bob, a 6'1", 220 lb. tackle, came to Berg in 1955 as a fullback, but since then has been converted into his present position.

A graduate of Garden City High school in New York, Bob participated in basketball, baseball, and football. He was also a member of Student council.

**Activities at Berg**

A junior at Berg, Bob is a member of Lambda Chi Alpha fraternity, the "M" club, and the Education club. He is presently a psychology major and plans to enter the field of teaching after graduating from Berg. He would also like to do some coaching.

A reserve last year, Bob won himself a starting position against Lafayette. He says that the Mules strength lies in the fact that the squad has two teams of equal strength, and in order to start, one must really fight for the position. He believes that if the team plays together like they did against Lafayette in the second half, they can win the remaining seven games.



ROY MADSEN

This six foot, one inch, 190 pound halfback and fullback, is playing his second year on the Berg varsity.

A junior from Irvington New Jersey, Roy has already proven his value to the starting eleven. He has had a great deal of previous experience with the pigskin, for he played two years of varsity ball for his high school in addition to playing for the Camp Lejeune ball club while serving in the armed forces. Basketball and baseball also drew Roy's interest while at Irvington and he earned letters in both sports.

**Business Major**

Here at Berg, Roy is a business major and hopes to go to law school upon graduation. In addition to football, Roy is also a member of the Business and Economics club.

Roy started at fullback against the Leopards of Lafayette, and performed very admirably. Against Albright this weekend, he could very well break into the scoring column.

# Lafayette, Elizabethtown Meet Berg Harriers In Cedar Park

Tomorrow the Lafayette cross-country team will invade Muhlenberg as both squads open their 1957 season at Cedar Park at 3:30 p.m. The Maroon and White under coach Art Winters boasts a practice squad of seventeen runners.

Leading the squad will be Joe Stefanowicz, a junior. Two seniors, John Piper and Tom Parks, who are returning from last year's squad are expected to bolster the squad along with three sophomores, Dick Haines, Nick Neighbor and Mike Alber.

**Mules Hopeful**

The Mules are expected to better their record of last year as they try to avenge the loss that was suffered at Easton.

Under the direction of Dick Schmidt the team has been practicing in several parks in Allentown in an effort to condition themselves for the four and one-half mile grind.

**Knauss Leads Mules**

Led by Pierce Knauss and Ed Theiler the "Big Red" could score their first victory of the season. Ron Dungan, who has been very impressive in practice heads a list of newcomers that will attempt to bolster Berg's chances. With him are Marty Ruoss, John Carty, Bob Droffner and Dick Lewis, a transfer from Virginia. All of these men are sophomores.

A severe loss became the team this week when it was learned that due to illness Bob Sabol will not be able to run.

A week from today, Thursday, October 10, a new team on the schedule will meet Muhlenberg at Cedar Park. The team, Elizabethtown from Annville, Pa., compiled a very good record last year.

# German Group To Show Films

This coming Monday, October 7, 1957, Der Deutsche Verein is presenting a film night for the second meeting of its fall program. A travelogue of the famous and picturesque Bavarian Alps and forest plus other film shorts of interest will be shown. The meeting will be held in the Student center and will start at 7:30 P.M. Deutsche Verein alumni and teachers and students of German in the Lehigh valley have been invited.

Der Deutsche Verein is trying to present a program in which all the meetings are geared to giving its members a fundamental knowledge of Germany — its language, people, culture, and current affairs. Materials on these topics are available on a loan basis to its members and to others interested in them. Also available to its members is information on travel and study facilities in Germany. For information contact Frederick Pillmeier, president.

# Pro Grid Teams' Title Chances

As the World Series is about to start and we make ready to bid our adieus to the baseball season, the current issue of SPORT Magazine welcomes in the football season with predictions as to how the teams will wind up.

In the Western Division, Sport picks the Chicago Bears. "They couldn't quite make it last year," says Sport, "but the Bears may run away with the National Football League's big prize in a 1957 season that figures to be the most bitterly competitive and lavishly attended in history."

The only possible competition Sport sees for the Chicago team is the Detroit Lions. Sport figures the strength of the other teams in this order: Green Bay Packers, Baltimore Colts, San Francisco 49ers, and the Los Angeles Rams.

In the East, the race looks tighter. The close choice to win is the Cleveland Browns. Hot on Cleveland's heels will be the New York Giants, followed in a too-close-for-comfort race by the Chicago Cardinals, Washington Redskins, Pittsburgh Steelers, and the Philadelphia Eagles.

# Paper Contest

(Continued from Page One)

class with some initiative in writing a research paper. It is hoped that with the introduction of a little monetary stimulation that a better quality of work will be produced by the freshman class.

**Dr. Beauregard F. Himpelfinger,**

# Dr. J. Huber To Speak To Pre-Medical Club

Dr. John F. Huber of the Temple Medical school, will address the first meeting of the Pre-Medical society, which will be held in room 305 of the Science building, on Wednesday, October 16. Dr. Huber, professor of anatomy at Temple, will discuss the entrance requirements and the general program of the medical school.

Requirements for membership in the Society state that the student be a pre-medical student, who has taken freshman chemistry and earned a grade of "C" or better. Freshman therefore, are ineligible for membership but are strongly urged to attend this meeting.

The officers of the Pre-Medical society are Marvin Roth, president; Dennis Gurski, vice-president Morrie Kricun, treasurer; and Michael Pitt, secretary.

# Medical Center

(Continued from Page One)

used in common by the men and women but not during the same time. A duplication of this room, which includes a Sitz bath, a whirlpool, and foot baths, would amount to an unnecessary and tremendous cost.

**Woman's Section**

Included in the women's section of the building will be a treatment room, recovery room, and rest room. The treatment room is divided into three cubicles, one of which will contain the latest equipment for physiotherapy. The examining room will contain completely new furnishings.

A nurses' station adjoins the waiting room, which will be furnished with asphalt tile flooring as will the rest of the building. The doctor's office is practically identical to that now in use in East hall. A separate and up-to-date drug room, as well as a records room, will greatly facilitate and ease the burden of the medical staff. A very nice first aid room, according to Dr. Weaber, is one of the improvements included in the new building.

The men's facilities in their section are quite similar to those of the women. These include a recovery room and solarium, in which the ultra-violet therapy will be applied. To be used in case of emergency only, there is a door leading from the foobtall field into the mens' section of the building.

# The Chowline

We of the Slater system would like to introduce to the student body the wonderful crew of girls serving you at the Snack bar. Of course, there are the old favorites of Myrtle, Alice, and Betty. The latest addition to the staff is Florence —a good worker with a smile for all. Anne Eberhart will serve as manager of the Snack bar until an assistant to Harry can be processed by the Slater system. William Bloss is in charge of the counter during the evening hours.

May we introduce to the freshman class the famous "Harry Eberhart Hoagie". Just listen to this line-up of ingredients: crispy lettuce and juicy tomatoes, onions, salami, pressed ham, and delicious cheese. All of this served in a large, Italian roll for the tremendously low price of thirty-five cents. It is truly a meal in itself. Why not have a tall coke with your hoagie?

Also included in the Snack bar "list of hits" is their hearty steak sandwich. This snack is priced at the low price of thirty-five cents—a price that just can't be bettered anywhere in the community. So why not give the steak sandwich a go at it—I'm sure you'll be glad you did.

I will be looking for you in the Snack bar.

**Adv.**

# President Clarifies Issues

(Continued from Page Two)

5. **Question:** May women visit in the fraternity houses?
**Answer:** Women are to be permitted in fraternity houses during the afternoon hours and up to 10:00 o'clock in the evening, or 12:00 on Fridays and Saturdays. They must, however, be entertained only in the reception areas.

6. **Question:** May women be entertained in the dormitories?
**Answer:** Women may visit the lounge room of the men's dormitories on Saturday and Sunday from 1:30 to 5:00 p.m. There is no precise restriction for the reception room. This is under Mr. Benfer's jurisdiction.

7. Women students of Muhlenberg College are under the jurisdiction of the Dean of Women.

Regulations governing women's activities in general are to be established by the Dean of Women in conference with the Women's council.

# Wallet's Interview

(Continued from Page Two)

**Spike:** I see . . . Miss Mover, what are your ideas on art, music, and science.

**Miss Mover:** Science is very interesting in a scientific sort of way, but even if it was good, I wouldn't like it. Music swings. I enjoy rock and roll as well as classical music.

**Spike:** Classical music?

**Miss Mover:** Yes, Crosby, Kenton, Brubeck, and so on.

**Spike:** Oh.

**Miss Mover:** And as for Art, he's one of the nicest guys I know.

**Spike:** Thank you Miss Mover for appearing with us tonight. I'm sure we all learned something from it.

**Miss Mover:** You're welcome Spike. May I say hello to a few folks before I go?

**Spike:** No. You see that isn't allowed here . . .

**Miss Mover:** Hi Mom, Judy, George, Marcus, Penelope, Amelia.

**Spike:** No, no.

# House Party Rules

(Continued from Page One)

tion of their affiliation. Teke is rated fourth largest of the national social fraternities. It maintains nationally the non-segregated policy demanded by the local fraternity.

Concerning rushing, the I.F.C. has resolved "that organized rushing of freshmen shall be considered any affair conducted by a fraternity, or any location obtained solely for the purpose of that fraternity" It is illegal to take a freshman into a fraternity house, but it is permissable to talk specifically to them concerning individual houses.

# Toughest Football

(Continued from Page Five)

through the years, and which has been back of the steady rise in the South. No school or conference can play championship football without a favorable policy. The Big Ten became big in football because it has always operated realistically.

# . . . Student Council Report . . .

September 26, 1957

The first meeting of the Fall Semester, 1957, for the Muhlenberg college Student council was called to order at 6:35 p.m. by President Luis Torres. All members were present.

On motion by Mr. Spector and Mr. Leighton, the normal order of business was suspended.

Dr. Seegers was then presented to the Council. After thanking the Council for inviting him, Dr. Seegers began to discuss the point in question, namely, the edict issued by a member of the Administration this past Tuesday concerning the conduct of Freshman regulations. He explained that according to the constitution of the Board of Trustees the President of the College is directly responsible and answerable to the Board as the supreme governing power of the College. In going over the background for this case, the President explained that he has never yet overruled any action of the Student council and that he doesn't expect to do so in the near future. It was also explained that it is the indisputable power of the Dean of Women to protect the well being of all female students at all times. **Dr. Seegers went on to explain that since some few upperclass males took it upon themselves to commit several base and intolerable actions even before regulations went into effect, that the decision to limit the hazing of Freshman girls was valid and would be upheld by his office.** Dr. Seegers went on to explain that since the Student council had made no rules concerning the hazing of Freshman women, **this action by the Dean of Women was not to be construed as an ursurption of the power of the Student Council.** The edict merely filled a void.

A question and answer period followed.

On motion by Mr. Markoe and Mr. Spector, the meeting was adjourned at 10:02 p.m.

*Editor's note:The entire content of the Student council report could not be included due to its length.*

Respectfully submitted,
RAY UEBERROTH,
Recording Secretary

**Any seniors who wish to take student teaching during the second semester are asked to check with the Education department.**

**Any seniors desiring to be recommended for teaching positions are asked to fill out a series of blanks in the Education office before October 15.**

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., October 10, 1957 A. C. P. Rating No. 3

## Mopsy Day Festivities To Highlight Weekend

Mopsy Day, an annual event on the Muhlenberg campus, will be held on Saturday October 12, at which time two thousand Luther leaguers from the Ministerium of Pennsylvania will visit the Muhlenberg campus to partake of the facilities and programs which have been arranged for them.

Muhlenberg has played host to the Luther leaguers for the past three years.

The day will begin with the Muhlenberg - Scranton football game. Following the game at 4:00 p.m., the leaguers will have a choice among four different activities: a tour of the campus will be conducted by the Cardinal Key society, a movie, "The Voyage of Discovery" will be shown in West hall auditorum, a talent show will be staged in the Science auditorium and an organ recital and devotional service will be conducted by Dr. Bremer in the college chapel.

**Activities Repeated**

At 4:45 p.m., the same pattern of activities will be repeated with the exception of the campus tour. At 5:30, the young people will gather for dinner in Memorial hall and at 6:30 the evening will continue with a songfest. At this time, Dr. Seegers, college president, will speak to the leaguers. Following his speach there will be an address by Mr. Malcolm Minnick, immediate past president of the Luther league of America.

Concluding the evening, a dance will be held in Memorial hall. Music will be furnished by Matt Gillespie and his orchestra from Bethlehem. The day's activities will conclude at 9:30 p.m.

The word "Mopsy" for which the annual event is named, is taken from the abbreviation of the Ministerium of Pennsylvania, M.O.P.

## Forty-three Honored At Fall Convocation

On October 4, in the College chapel, Fall Honors Convocation was held for those men who attained Dean's list last semester.

Those honored were men who had attained an average of ninety or better during the 1957 spring semester. Honored were, from the **Class of 1958:** Carl R. Adams, Roy M. Clayton, Ernest R. Helfrich, Carl S. Oplinger, John Marshall Reber, Robin R. Schlunk, Charles F. Schmerker, Kenneth Semmel, Frederick A. Stutman and Richard B. Tepper.

From the **Class of 1959:** Michael D. Beinner, Michael Derechin, Martin S. Fisher, Leon J. Grossman, John F. Haberern, Harvey C. Heckman, Paul D. Horger, Eugene B. Kern, Ronald E. Lam, Donald Rothfeld, Stanley A. Schabert, Ray K. Schultz, Leonard A. Swann, Joseph S. Thomas, Richard E. Truchses and David A. Walker.

From the **Class of 1960:** Robert F. Bartholomew, Alfred Beers, Mark J. Cerciello, John C. Flemming, Donald C. Hagey, Paul T. Herman, Michael B. Kurtz, Morris J. Linett, Thomas McCabe, Theodore Rindfleisch, Gary W. Seltzer, Frank H. Sivitz, Peter G. Skutches, C. DeForrest Trexler, David J. Wartluft, George A. Weckman and Barrie L. Weisman.

## German House Seen In Future Of Muhlenberg

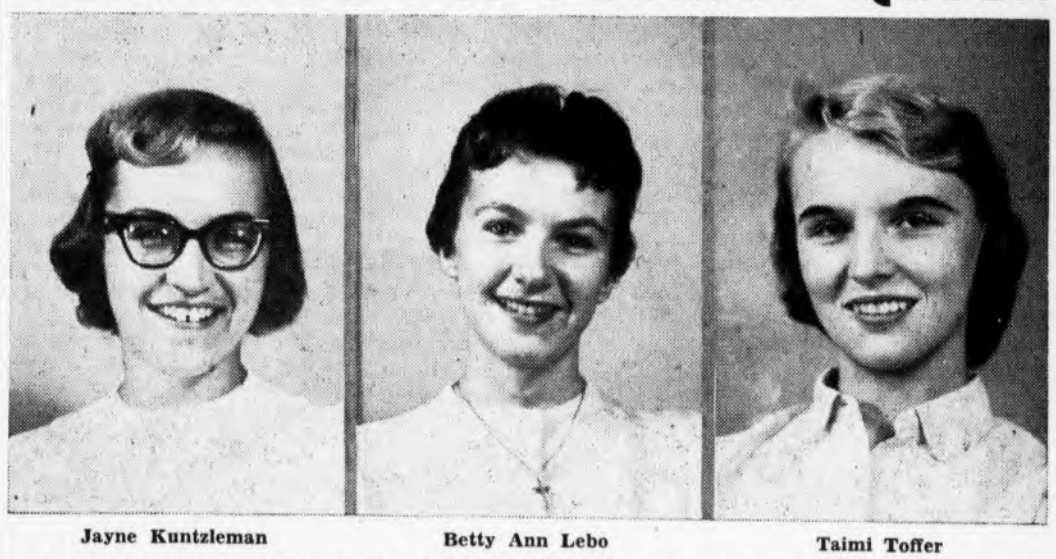
A German language house may be a reality in the near future of Muhlenberg college. Alumni of the Deutscher Verein are presently being petitioned by the organization in an effort to raise funds for the building of the house.

If completed, the Deutsches Haus will provide a campus home for the Deutscher Verein as well as a study hall for German studying students. It would also serve as a seminar for advanced students of German and a dining hall for German majors with conversation exclusively German. The house would be a distinctive place in the history and tradition of Muhlenberg college in its devoted study to German culture.

Deutsches Haus was first discussed by Muhlenberg's German department and the Deutscher Verein in the late 1920's; A Deutsche Haus fund was established, but languished; now interest has been renewed in the project and the college has given its endorsement.

Now with the study of the German language increasing and the need for more teachers of German in the high schools, there is an increasing need for a Deutsches Haus on the Muhlenberg campus, where reference materials, maps, art objects and other cultural aspects of the life of the Germans would be available for students, alumni and researchers.

## Kuntzleman, Lebo And Toffer Nominated For Football Queen



Jayne Kuntzleman | Betty Ann Lebo | Taimi Toffer

Muhlenberg's first Homecoming Queen will be elected by the male student body on Friday, October 11, when they will choose between three girls who have been nominated by the coeds to represent Muhlenberg college. They are Jayne Kuntzleman, Betty Ann Lebo and Taimi Toffer. These girls are all sophomore transfer students.

The queen's court will be composed of the two runners-up in the contest, plus two freshman girls who have already been chosen by the coeds. The two freshman members of the queen's court are Carol Coolidge and Marilyn Frere.

Jayne Kuntzleman, one of the candidates for queen, is a sophomore transfer student from Moravian college and hails from Bath, Pa. Jayne, who has recently been elected president of the West hall dormitory council, is an English and secondary education major.

Another nominee for Homecoming Queen is Betty Ann Lebo, a sophomore transfer from West Chester State Teachers college. Betty Ann has recently been elected vice-president and social chairman of the West hall dormitory council. She is enrolled as an elementary education and psychology major and makes her home in Tower City, Pa.

Taimi Toffer, a native of Allentown, is the third candidate for Homecoming Queen. Taimi is a sophomore transfer from Cedar Crest college. Here at Muhlenberg, Taimi is a chemistry major and an active member of the Commuter's club. While still a senior at Allentown high school, Taimi placed first in the chemistry division of the Lehigh Valley Science fair. This entitled her to represent the Lehigh valley at the national science fair in Oklahoma city where she placed first in the physical science division.

One of the freshman girls who will be a member of the queen's court is Carol Coolidge, a liberal arts student from Bethesda, Maryland. The other freshman girl, Marilyn Frere, is an elementary education major from Summit, N.J.

Election of the Homecoming Queen will take place in the student center on Friday, October 11, between 9 a.m. and 4 p.m. The election will be under the jurisdiction of the Student Council.

## Cast Chosen For Othello; Fall Production of M & D

Parts have been assigned by Dr. Erskine for Shakespeare's "Othello" which is the choice of the Mask and Dagger society for their fall production. Although definite dates have not been set for the staging of the play, tentative dates have been set for Thursday, Friday and Saturday, November 14, 15, and 16.

Jim McConnell, president of the organizaton, will play the leading role of Othello with Pat Shalter playing Desdemona and Dick Kennedy, Iago. McConnell will be remembered by M & D audiences for his part as Sheridan Whiteside in last spring's production of "The Man Who Came To Dinner." Dick Kennedy is also a veteran M & D player who will be best remembered for his part as Henry Higgins in "Pygmalion" which was produced by M & D last fall. Pat Shalter is a freshman and a newcomer to the M & D stage.

**Supporting Cast**

The supporting cast includes Barbara Reichenbach as Emilia; Bob Sabol, Cassio; Simon Gribben, Roderigo; Janis Horvath, Bianca; Don Michaels, Lodovico; Don Canfield, Gratiano; Mike Sanders, Duke and Bob Kehrli will play the part of Brabantio. There are still some minor, male parts that have not as yet been filled. Dr. Erskine, director of the play, urges that anyone interested in these parts should contact him as soon as possible.

The story of Othello is the age old tale of the mixed marriage. Othello is a distinguished Moor, a black man, a brave and competent soldier, whose conduct of the Venetian wars against the Turks has raised him to the rank of General. He is then held in high esteem in Venice, and Brabantio, a rich and powerful senator, often invites him to his house, where he meets the fair, much courted Desdemona, Brabantio's only child. The strange nobility of this man of simple, commanding action fires the gentle girls' imagination, while her discerning mind so keenly appericates his fine qualities that the natural barrier of race and color vanishes. With modest frankness, Desdemona shows Othello that she returns his love and they are secretly married.

Cassio, a young soldier, who has often been a go-between in Othello's courting, is promoted to be his chief lieutenant, a position coveted by his ensign, Iago, a crafty and villanous man who vows vengeance on both Othello and Cassio. Through a series of circumstances, Iago convinces Othello that his wife has been untrue to him. In a rage of anger, Othello kills Desdemona, only to find out that she had been loyal after all. Othello then, in true Shakespearean form, commits suicide by falling upon his sword.

## Mexican Government Offers Scholarships

American students will have a chance to study in Mexico during the academic year beginning March 1, 1958, on the Mexican Government Scholarship Program, it was announced by Kenneth Holland, President of the Institute of International Education. Competition for these awards will close November 1.

Preference in granting these awards is given to graduate students who will receive 1,250 pesos monthly and tuition at the National University. Junior and senior year college students are eligible for undergraduate scholarships covering 1,185 pesos a month for maintenance plus tuition. Travel to Mexico and funds for incidental expenses must be supplied by the grantee.

Eligibility requirements for these foreign study fellowships are U. S. citizenship, knowledge of Spanish, good academic record or professional record if the candidate is not a recent graduate, and good health. Preference is given to candidates under 35 who are single or who do not plan to take their families with them.

Special fields of interest for graduate students at the National University are architecture, including research combined with an assignment with a leading architect, Indian and physical anthropology, ethnology and archeology, Mexican history, painting, museography, biological sciences, tropical medicine and cardiology. Candidates for the M.D. degree may receive special training at the National Institute of Cardiology or the Institute of Tropical Medicine. Undergraduates will be particularly interested in classes in language, literature, philosophy, Mexican history, archeology, and physical anthropology.

Applications may be obtained from the Inter-American Departpartment, Institute of International Education, 1 East 6th street, New York city.

## L.S.A. Meeting

**7:30 p.m., Student Center**

## Arcade Editor Defines Policy; Contribution Limits Extended

**by William Holst**

Broadly defined, the **Arcade** is, that Muhlenberg publication which serves as the outlet for artistic and intellectual creativity on campus. In short, it is the college literary magazine, with the direct design of publishing the best of the Art produced on campus.

In the past this definition has seen re-interpretation with nearly each succeeding year. The view taken generally is in accord with what a particular editor or literary staff find as standard or important. One edition will emphasize, for example, poetry at perhaps the expense of photography. Of course, the quality of any publication is dependent upon the quality of its contributions and, if the best is to be published, one form might quite well overlap another.

**Student Cooperation**

In most recent years, the **Arcade** finds itself rather exclusive to two very significant facets of expression—the essay, and art itself. Is the cooperation of artists and essayists at Muhlenberg so thin? We think not. A dismissal of the situation with a vague "lack of interest," is incomplete; better perhaps, lack of stimulation. The question, "Why is it that the student body is not stimulated to contribute to the **Arcade**" may be a simple issue of mass apathy or, so we hope, a more complex one involving self-consciousness or lack of encouragement.

It is the implied role of the **Arcade** to search out Muhlenberg creative personalities. To stimulate intellectual and artistic thought is to arouse the general creative feeling on campus. In order to do this, the **Arcade** must impress every figure on campus with the idea that this is *his* outlet; it is not reserved for a small minority, nor is it exclusive to any creative attempts.

**Judging**

Returning to our definition, let it

(Continued on Page Six)

## Pi Delt To Hold Bienniel Meeting

At Cornell university, Ithaca, New York, on October 25, 26, and 27, the Biennial Grand convention of Pi Delta Epsilon will be held. Present at this convention will be official delegates representing approximately 75 colleges. Muhlenberg's chapter will be represented by two delegates, who have as yet not been decided.

In connection with the convention there will be three contests held. These contests will include yearbooks, newspapers, and college magazines. Muhlenberg has entered three issues of the **WEEKLY** in the newspaper contest, and two issues of the **Arcade** in the college contest.

Pi Delta Epsilon, national honorary journalism fraternity, is pledged to the promotion of student participation in undergraduate publications, and seeks to establish a code of ethics among the staffs of the individual college publications.

## Coeds' Dorm Council Holds First Meeting

Last Sunday night the first meeting of the Woman's council was held in West hall. With Jayne Kuntzleman presiding, the meeting was opened with a prayer by Miss Dietrich. Following the prayer, the normal order of business took place.

Among the many items of business that were raised were several regulations which were presented to the girls on Monday night. The first of these regulations concerns telephone calls. No calls may be transacted after 10:30 unless it is an emergency. Girls will be assigned to the phones by the floor representatives between the hours of 7:15 p.m. and 10:30 p.m.

Campusing of girls was then defined. The offender will be confined to the dormitory on either Friday or Saturday night depending on her choice. She may not receive any visitors nor may she answer any phone calls. She may not enter the lounges or the lobby but she may visit other rooms. A violation of quiet hours will result in a campus.

**Signing Out Regulations**

Signing out regulations were discussed. Miss Dietrich asked that the council stress that a girl **must** sign out if she is entertaining male visitors in the lounge or lobby. If a girl continually signs in late, she will get a campus if the minutes accumulate to 15. When a girl signs in the date must leave immediately.

Additional items of business included the organization of a Scrap Book committee, which will serve to collect all information published concerning the first year of women at Muhlenberg. The committe consists of Betty Lou Jones, chairman, Betsy Kenely and Diane White. Plans were also initiated for a demerit system which will operate in conjunction with the tidiness of West hall rooms.

The officers of the Women's council are Jayne Kuntzleman, president; Betty Ann Lebo, vice-president; Meredith Bottum, secretary; and Joelyn Borelli, treasurer.

## Next MCA Meeting Hears Local Rabbi

Rabbi Youngermanfi of Temple Keneseth Israel in Allentown, will be the guest of the Muhlenberg Christian association at a meeting scheduled for 4:15 p.m. on Tuesday, October 15.

Rabbi Youngerman will lead a group discussion dealing with the problems and viewpoints of modern Judaism. All students interested in this topic are urged to attend.

The meeting will be held in the MCA room, located on the second flor of the Student center. Because of the length of the meeting, those persons who plan to eat in the Commons at 5:30 are recommended to come dressed for the meal.

# Editorial Views——

## *Homecoming Queen . . .*

Tomorrow, with the election of the Homecoming queen, a new annual event will begin at Muhlenberg college—an event which will brighten the annual Homecoming festivities.

Several criteria are to be used in the selecting of the Homecoming Queen. The contest should not be misconstrued as a popularity poll, but rather as the selection of the representative Muhlenberg coed. Although appearance must be considered in the selection, this quality should remain equal with academic abilities, personality, and moral character. The preferences of the Student body will represent the College at the Homecoming and Gettysburg games.

Some individuals might disagree with the methods employed in electing the girls. Certain student leaders felt the girls were in a better position to choose than were the male members of the student body, but that the men should choose the Queen from the previously selected upperclass women. These men felt the Queen should be a transfer since these girls are older and consequently more mature. The feeling was that the freshmen girls should be represented but not eligible to be queen. Since only male students are eligible to vote on Friday, the greatest possible degree of democracy will be realized under the existing situation. It was agreed that these measures should only be used during the first year, and that more suitable arrangements would determine future elections.

Now Muhlenberg can offer the returning alumni a weekend comparable to most other colleges of our size and tradition.

Homecoming weekend will then have meaning, and will not be an insignificant date on the social calendar. This event will present the alumni with a well rounded view of the "New Muhlenberg."

## *Our Heritage . . . ?*

The recent racial uprisings in Little Rock are an example of the bigotry and baseness of the human race. In the September 24 issue of the **New York Times**, there appeared a picture of a Negro newspaper reporter being kicked and mauled by a crowd of irate whites. In the background of this photo stood several other whites, waiting, with clenched fists for the reporter (Alex Wilson) to strike back. These men's faces showed anger and contempt for this "ignoble specimen of degradation to the South."

The question is, how do these whites have the gall to look upon that reporter in such a way when they themselves lack the principles which supposedly are representative of the United States?

It is understandable that an on-the-spot decision of the Supreme court in 1954 can not sift out the prejudices that have been ingrained for centuries, but that it can only act as a catalyst in the bringing about of complete integration. However, men such as John Kasper, segregationist rabble-rouser and Orval Faubus, Arkansas governor defy this catalyst along with the constitution of the United States and the faith of the American people.

Because of the governor's indignation in this dispute, the steps toward integration will have to be made longer and more slowly. This melee will undoubtedly result in the extension of time it will take to satisfy the decision of the Supreme court.

How can Middle East countries accept Western doctrine when, internally, we suffer incidents such as these? What kind of propaganda will spread through Russia? This is a situation that may not be taken lightly, for on it, hinges the reputation of our country among other nations.

# MCA Purposes And Intellect

by W. Kinter

Dante with justice places in hell (that is, in genuine vacuity) all who have lost the good of the intellect. What does he mean? And what does such fiction have to do with us, or with the MCA?

These souls, having lived by a creed of irrational frivolity, are placed where they may forever attend to it. They have ignored the Law, and with it of course the Good News that within Law lies the gift, the **donum**, of being set free. They have chosen not to accept; they have chosen to hoard, or to hate, or to fear, and therefore to betray. Hence hell swallows them up. In the end, they and their illusions become one.

Now the primary function of MCA (it seems to to me) is to nurture the intellect of all the students, and to do it within the given framework of religion. It is not the propagation of the faith (the work of LSA, Canterbury, Hillel and Newman). For if we are made in the image of God (whatever that means), then our rational souls (whatever they are) are those images. To fill them with pious banalities or to leave them black may be safe, but is damnable. The silly virgins with the unfilled lamps were kept from the feast.

Why not fill the arena of the mind with Lucretius and Virgil? Why not set at each oher such athletes as Freud and Thomas, Russell and Nygren, Greunberg and Mather? We would be jousting too. At the very least boredom, the true stench of hell, would vanish in the heat of the struggle. Even if this were a mere match, the game itself is a good. But there is more; there is **donum.** The gift of such significant action is contemplation, the power to see things as they in themselves are.

Now if there is Law there is justice, and if justice, responsibility. If the Law has given us the Good News we are required to give it to all who are in want, to all who suffer, whether he be a helpless animal, a blinded Greek orphan, or a school-girl spat upon in Little Rock. All these may be found in Allentown. Here our masters should be the Quakers and the Catholic Workers, and our patrons Albert Schweitzer and Blessed Francis.

And lastly, Faith, that is, trust. We may if we choose deny the intelect, deny justice; we cannot, as Dr. Forrell demonstrated, banish faith in a god. For some he is Security, for some, Family, for some, Community. All these false gods are served with works and pious fancies, and they die when we do. Where is Social Service in the grave? The most difficult task MCA could undertake would be to lead us towards Faith, to attempt to teach us to pray, so that we, with Langland, could really pierce heaven with a paternoster. Once we could have begun with a child's trust and built upon it. Today we should perhaps begin with a child's doubt, and say, "O God (if there be a God . . .)." If it was as we are told, out of dust that the Holy One made us, then surely we can trust Him (if He is) to take this wretched beginning, a beginning in honest and mature doubt, and twist it into a living flame. Pax.

*Mrs. Brown*
## IN THE NEWS

by Peggy Stuhlmann

Mrs. Brown is a newcomer to Muhlenberg and has taken the position of housemother and overseer in charge of ninety girls in West hall. Her career as a housemother began two years ago as a result of an ad which she saw in the *Lutheran*, a magazine published by the ministerium. When she answered the ad, she was accepted as housemother at Wagner college in Staten Island.

Mrs. Brown is particularly impressed by the friendly atmosphere at Berg. Commenting on the school in general, she thinks that "the campus and buildings are beautiful, and after everything is completed, Berg will be one of the nicest schools around. I find the girls to be very helpful and cooperative in spite of the fact that the regulations are new, and in many cases, the whole experience of college life is new."

It is difficult to pinpoint any of Mrs. Brown's specific interests because she takes a liking to practically everything. She was an active member of the YWCA and the Women's club and she particularly enjoys a good game of bridge.

Mrs. Brown is a native of Kutztown, where she has lived all her life. She is naturally familiar with this area of Pennsylvania. Her family has owned a printing shop in Butler, Pa., for the past twenty-nine years.

She: "I don't know who I am. I was left on a doorstep."

"He: "Maybe you're a bottle of milk."

# Ape Makes Good

# Asiatic Flu, Satellite Keep Doctor Jumping

by Dick Kennedy

"Send the first one in, now, Katy."

"The first one? I have no idea who's first. There's a line outside with at least three hundred students banging on the door, just dying to get in here."

"What in heaven's name is wrong?"

"They think they have the Asiatic flu. It's terrible! Every one of them looks as pale as a ghost."

"Well, let's start the line moving. By the way—I have a few declarations to make. Let's see—send a notice to the students: 'There will be no tug of war due to the threat of flu.' And another: 'Gym classes will be called off until further notice.' I hate to have to do this. I know its going to break their hearts."

"Well, they'll have to learn to make **some** sacrifices."

"Send someone in here."

---

"Doctor, I'm dying. Please, I know mercy killings aren't condoned in our modern humanitarian society, but please, Doc, put me out of my misery."

"Now, young fella, don't clutch. I'm sure that under my care you'll survive this horrible thing. By the way, your name seems to have slipped my mind . . . "

"Woodward, sir. Woodward's the name. Please, Doc, I'm sick as a dog. Do something—confine me to bed for a week—quarantine me—anything!"

"Now, don't get upset, fella. Take a couple of these pills when you're down and out. They'll make you feel like a new man. Next!"

"But, Doc, you don't realize how much work I have to do this week. Can't you please put me to bed . ."

"Out!"

---

"Well, don't just stand there, son, come in. I won't hurt you."

"There it goes again . . . beep, beep, beep, beep, beep . . ."

"What seems to be your problem?"

"The earth satellite. It keeps circling over. Beep, beep, . . . come in, earth, come in earth."

"Sit right down here. I'd like to diagnose your case for you. Now, that's better. Please tell me about the satellite."

"Don't you hear it, Doc? Every hour and a half. I can't sleep at nights. I can't study. I can't eat. I can't go out on a date. It haunts me."

"Nonsense, boy. You can't possibly hear it without short wave . . . can you?"

. . . Beep . . . beep . . . beep . . . beep . . . beep . . .

"There it is again, Doc."

"By George, you're right. Katy! Some aspirin! Quick! Thanks! Glumpf! Good stuff, that aspirin, but I've heard of a new scientific discovery: Bufferin works twice as fast as aspirin. Now, you don't hear that naughty old satellite anymore, do you?"

"No, sir. I think I'm cured."

"By the way—what's your name—you know, just for my record."

"Breck Dierolf. So long, Doc. . . . beep, beep, beep."

"Next!"

---

"Yes, young lady, what can I do for you?"

"Oh, Doctor, sir, I can't get a date. I have high blood pressure, I'm overweight, I have aches, I'm a nothing, and I have a superiority complex."

"Anything, else?"

"I'm ugly, my hair is unmanageable, I can't find the right shade of lipstick, and I have no friends."

"We have just the right thing for you, my dear. These aspirins will do wonders for your date life. Now move along."

And so, through the day, the good doctor busily remedied the ailments of the student body, issued proclamations, and, on one occasion, fell headfirst into the whirlpool trying to recover an aspirin from beneath the stretching rack in the inner office.

Upon leaving the office, the good doctor downed two aspirin, pulled on his overcoat, and eagerly climbed into his car, anxious to get home to his laboratory where he would continue his search and experimentation for new and better diagnoses involving the utilization of aspirin.

# BROWSING

Making one of the fastest moves on record toward the top of the best-seller list, **By Love Possessed** by James Gould Cozzens is warming the hearts of people all over the nation. In his book, the author examines the rewards and burdens laid on people possessed by love in any of its aspects. Based on every day happenings, this novel makes good reading.

**"Where Did You Go" "Out" "What Did You Do?" "Nothing"** is the title of another current nonfiction best-seller by Robert Paul Smith. In this autobiographical sketch the author recalls the joys of living of his own boyhood days as more than superior to those of today's children. He says "In my block, the kids did nothing, kept out of the way of their natural enemies, the adults, and filled their days with activities unknown to today's current crop".

**Peyton Place**

Holding its own after a year on the best selling list, Grace Metalious' novel **Peyton Place** is currently in third place. Told with humor, heart, vigor, and a relentless flow of profanity the author relates the lurid story that lives behind the seemingly placid lives of a small town community. (Available in the Muhlenberg library)

Number seven on the list, **Compulsion** by Meyer Levin is a thrill-packed murder-mystery guaranteed to create suspense. Mr. Levin uses fictionalized names in this retelling of the notorious murder case of Leopold and Loeb from the 1920's. In his reconstruction he probes deeply into the psychological aspects of the crime which results in suspenseful reading. (Available in the Muhlenberg library)

Number one these days among best-selling non-fiction is **Baruch: My Own Story.** By use of humorous anecdotes Mr. Baruch details market operations which made him a millionaire before he was thirty.

In the event that any student should see a patch of grass—PLEASE STAY OFF!

# Naughty "Nana" To Be Presented At Nineteenth St.

Film makers often have been scolded for taking too many liberties when they do screen adaptations of novels, but it is highly doubtful that Christian Jaque, who directed the Eastman color hit, "Nana," coming to the Nineteenth st. Theatre, will be criticized for one change he made from Emile Zola's famed novel of the same name.

When Zola penned his immortal classic, he fashioned his protagonist after a girl named Blanche d'Antigny, who probably was the fattest femme fatale in history.

Mlle. d'Antigny was, in present-day parlance, "a hot number" when she starred in the French music halls and charmed the male socalites of her day. But Blanche made weight scales moan with her 300-odd pounds of beef Blanche's physical attributes were flaming red hair and torso measurements that all but defied calculation.

Little wonder, then, that Christian Jaque cast his own wife, Martine Carol, a svelte, vivacious and brushed-copper haired beauty, in the title role instead of trying to find someone who fit Blanche's dismal proportions.

Charles Boyer, so long a favorite in Hollywood, journeyed to Paris to play the role of Count Muffat in "Nana."

# Letters To the Editor

## *Word of Appreciation*

Dear Mrs. Seegers,

The Student council wishes to thank you in behalf of the Student body of Muhlenberg college for all your work and untiring efforts in connection with the decoration and beautification of the Martin Luther hall lounge, the Student center lounge, the Snack bar, and the lounge in the Women's dorm. All of this has gone toward making our campus more attractive and student life in general more enjoyable. We want you to know that we are sincerely proud to have you as a member of the Muhlenberg family.

Sincerely yours
Luis Torres
President
Ray Ueberroth
Secretary

## *A Refutation*

For the past two years, I have looked forward to entering the Student center for my copy of the **WEEKLY**. However, after reading the October 3 issue, I find certain doubts concerning the motives of special articles.

Whether Mr. Knies has a personal grudge against the administration, certain social organizations or the co-eds only he himself can determine. However, I feel that Mr. Knies should accept humility as an essential virtue. His taunts concerning Dean Dietrich and "Haps" show anything but humbleness. Each and everyone of us should have the common sense and courtesy of respecting our elders, a concept which our enlightened writer appeared to have so flagrantly abused.

We all take pride in our American heritage of freedom of the press, and this is as it should be. Personal injectures must appear as interpretations but these should be minimized. However, this article reeks with sarcasm. Reporting is just what it implies: a true and unbiased version of the facts accompanied by impersonal interpretations. If his attempts to present his article as a dialogue is to be construed as a general concensus of the male students, then I am ashamed to admit that I am a Muhlenberg man. If it is not a majority opinion of the men, it can only be a personal theory and as such has no right to appear in the **WEEKLY** as it has.

In regards to his comment of it being a good thing that no one told him to shut up, let me say that this is exactly what I would have told him to do. After reading this article, I find myself constructing one basic conclusion—It's too bad our "reporter" didn't stay in the movies permanently.

(Signed) Edward George

# 'Round Campus

**Friday, October 11**

The Lehigh-Berg soccer game will be held at Lehigh and will start at 3 p.m.

**Saturday, October 12**

This week's football game will be against Scranton, a home game, commencing at 1:30.

**Sunday, October 13**

The Lutheran Student association will meet in the Student center at 7:30 p.m.

**Monday, October 14**

The Pre-Theological club will have a meeting in the Pre-Theo room at 7:30 p.m.

**by Burt Eisenbud**

**ALPHA MU IOTA**

We would like to offer our congratulations and felicitations to Berg's football team on their victory over Albright on Saturday. Lots of luck to brother Barry Sirota who in addition to his activities at the house makes up an integral part of the team. We also wish the best to Sandy Dreskin who is a member of Berg's Soccer team. Mealtime at A.M.I. has become more flavorful due to the installation of a 725 pound capacity freezer which was recently purchased. Herb Seigel was elected captain, and practice has started for our intra-mural football team. We are anticipating a good season.

**ALPHA TAU OMEGA**

The brotherhood would like to thank Mr. and Mrs. Battis and Mr. and Mrs. Fraser for chaperoning our first social event, which was a party at the Willows. The music was supplied by Paul Sherr's combo. We are also grateful to alumni brother Roger Perose for giving us a pedigree boxer puppy for a mascot. Every room in the house has been painted and redecorated to suit the occupant's tastes. Congratulations to our two new pledges, Jim Mast and Bart Young.

**PHI EPSILON PI**

Congratulations to our new pledges, Steve Fisher and Pen Chabrow. We would also like to extend our welcome to Dick Reichard who has been accepted as a parlor brother. The theme of the up and coming Homecoming weekend has been announced as "Hallowe'en Spook Party". We all wish the best of everything to brother Stu Godin who was married this summer. Brothers Bens Caplan and Spens Tuchinsky report that everything is in order on the Penn State campus. They spent last weekend there.. Plans are under way for the North Eastern Conclave of the Phi Epsilon Pi fraternity which is to be held at Berg this year.

**PHI KAPPA TAU**

Last Saturday evening several brothers and their dates traveled to Emmaus where they had a spaghetti dinner at Henry's. Congratulations to Marty Coover, Marty Ruoss, Pritt Rebane, Joe Hager, Dave Hughes, and Phil Haines who were recently pledged by the fraternity. Two brothers are playing the lead roles in the fall production of "Othello". Jim McConnell will play the Moor, and Dick Kennedy will play the part of "Honest Iago". The social committee is making plans for homecoming, the Soph-Frosh hop weekend, and a party for the coeds near the end of October.

**LAMBDA CHI ALPHA**

Homecoming is shaping up to be a big event with the theme of the houseparty to be released soon. Music will be provided by the Continentals who really jived it up at last year's "Lil Abner" party. Our touch football team will put the scare into the other teams whether or not they win the championship. We have come up with a good passer in ex-varsity gridman Joe Federico. Brothers Schuman and Piston enjoyed a week of their summer vacation at Ball State Teachers college in Indiana. The purpose behind the trip was Lambda Chi's national convention. Muhlenberg's grid team will suffer the loss of star end Jack Young. Brother Young suffered a collar bone injury in Saturday's contest, and it is possible that he might not see action until next year.

**SIGMA PHI EPSILON**

Experimental type furniture was moved into the house this month to help complete the new decorations. The brotherhood was invited to a party weekend at the "Sig Ep" house of the University of Pennsylvania and all those who attended came back with favorable reports. Congratulations are in order to new pledges Andy MacNamara, Chuck Holder, Ralph Harmson, Jack Grey, George Solomon, and Bill Callisto. We would also like to congratulate Ken Fagerheim on his initiation into the brotherhood. Last week we held a successful reception at the house for the coeds, Faculty, and Dr. Seegers and his wife.

# Advice To Freshmen

The American colleges of this era need earnestly dedicated youth who are devoted to achieving the highest academic standards for themselves, their school, and their country. The flippancy of today's youth has produced a situation in which the serious-minded, academically-conscientious student is, to use brutally-frank terms, "a square."

There is, however, a correction for this situation. The student who wishes to attain recognition in our highly-competitive world must apply himself to the books, keep his mental processes alert to new horizons and discoveries, practice discipline of the mind, and sharpen his wits for the intake of brilliance. In other words, he must study like a mad fiend. It seems most fitting and appropriate to quote a noted philosopher, historian, and doctor, Francois Julienne Smith, Ph.D., Th.D., DD.S., LL.D., DDT. In approaching the noted scholar, we asked Smith for advice to the freshmen of 1957. After a moment of silent meditation he replied: "Yes, I think I have it—the student of today must study."

"However," continues Dr. Smith, "studying is not enough. The

## Just A Frosh!

**by Marjie Williams**

Frosh—that's me.
I just can't win,
For I have committed,
An unpardonable sin
Of being frosh.

Scared—that's me.
I know my stuff,
But knowing all
Is not enough.
I'm frosh.

Green—that's me.
With lots to learn
I must not smile
While sophomores burn
I'm frosh.

Dumb—that's me.
With just one fear:
I might not last
My freshman year.
I'm frosh.

# SPORTSCOPE

by Bob Nuss

On Monday, October 14th, the intramural season will again open on the Muhlenberg campus! As in past years, football will head the parade of sports, followed by basketball, and softball. However, intramurals at Berg leave much to be desired. There is a definite lack of administration in the intramural program. It is a program that is tended to be ignored, and be pawned from one individual to another.

Each year there is much delay in organizing the program. This year is no exception. All team rosters were in the proper hands by September 30, but the league was still not in operation the following week. Since there were only nine teams interested in the league, is it not conceivable that at least the first week's schedule could have been set up? A task that requires but a matter of hours has delayed the start of the season for at least two weeks, wasting valuable time that is necessary to complete the schedule on time. Last year this same thing occurred, and the final result was that fact that softball play-offs were held the Friday evening preceding second semester final examinations. A solution for this situation might be that, for example, rosters for basketball teams be submitted during the final weeks of football. This would allow more time to establish a schedule and also allow basketball to begin shortly after the termination of the football season, rather than following the Christmas vacation.

**Poor Officiating**

Secondly, once the season gets under way, there is poor officiating of the games. During last year's football season, there was one game that did not get underway until 5:15 p.m., and by the second half, darkness had fallen, making play next to impossible. The game, however, was completed. There are several instances like this that must be corrected to insure a sound program.

Another area that requires strengthening are the rules and regulations of the program. Again last year, numerous disputes over debated decisions arose, and each time there was a waiting period while decisions were reached; or in some cases team representatives were invited to attend a meeting to try to reach common agreement. Had there been strong administration and clarification of the rules this would never have happened.

Finally, there is room for expansion in the intramural program. Bowling has been a part of fraternity competition for a number of years, and has enjoyed quite a bit of success. Perhaps this could be added to the list of sports available to the student body. With new tennis courts available intramural tennis could become a reality, and should definitely be incorporated into the program. Wrestling also enjoys much popularity at other schools. Not only does the intramural program provide an outlet for tensions, it can also develop interest that may later provide candidates for intercollegiate competition. Intramurals have their place in college life, and in order to be successful must be operated on a firm basis. We hope that the intramural program at Berg will be improved and enjoy its rightful success.

# Mule Booters Practice For First Contest

The return of last year's two top scorers and five other lettermen has raised the optimism of Coach Samuel (Bud) Nevins and his Muhlenberg college soccer team.

Nevins is drilling a 22-man squad for the Mules opener against Lehigh on October 11.

Heading the squad is Frank Czascar, junior from Belleville, New Jersey, who scored eight of his team's 18 goals last year when the Mules had a 4-5-1 record. Another promising scorer is John Holcroft, Junior from Philadelphia. Holcroft joined the Mules after mid-season last year and scored in every game he played . . . His four goals helped Muhlenberg close with three victories in its last four games.

Other lettermen are: James Balliet, senior, Springtown; William Loewe, junior, New York; Robert Leighton, senior, New York; William Penkethman, junior, Belleville, New Jersey; and Ronald Ritter, senior, Chatham, New Jersey.

The Mules will be competing in the newly organized Middle Atlantic States Soccer Conference. They are a member of the Northern Division, which also includes Bucknell, Elizabethtown, Gettysburg, Hofstra, Lafayette, Lehigh, Rutgers, Stevens, Wagner, and Wilkes.

# Girls' Sports Program In Advanced Stages

The girls' phys ed program, under the direction of Miss Jean Hecht, is well under way. Girls meet regularly twice a week for their assigned sport.

Girls are participating in soccer, hockey, tennis, and archery. General instruction is given in tennis, soccer, and archery; while hockey is primarily reserved for those girls who played in high school. In addition to regular gym classes, each co-ed is required to

(Continued on Page Six)

# Muhlenberg Wins First Game; Defeat Lions By 18-14 Score

by Ben Livingood

Herb Owens, sophomore halfback, scored two touchdowns to pace Muhlenberg to its first 1957 football victory, 18-14, over a surprisingly scrappy Albright college eleven last Saturday at Muhlenberg field. The lightning-fast Owens displayed fine running skill as he raced through the Albright defense for touchdown jaunts of 36 and 40 yards.

The opening home game proved a much more rugged test for the Mules than they had probably anticipated. The somewhat heavily favored Bergmen found the going tough in the scoreless first quarter, and failed to score until they capitalized on a blocked punt early in the second period.

**Blocked Punt**

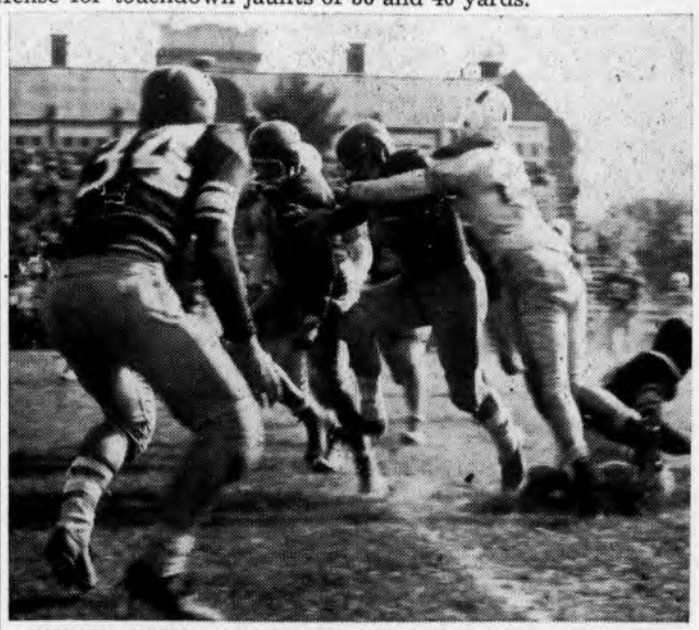
The Mules got their break with slightly more than five minutes gone in the second quarter, when sophomore end Ken Hendricks blocked Claude Lynch's punt on the Albright 20-yard line. Don Herman then scooped up the loose ball and sprinted across the goal line for the first tally. Jim Nonnemaker missed the try for the extra point and the score read 6-0.

Muhlenberg's lead was temporary, however, for with three minutes and 25 seconds remaining in the first half, Albright's passing ace Frank Sudock hit his left end Don McCarty with a 39-yd. touchdown pass. Gerry Bricker converted for the point-after-touchdown to put the Lions out in front, 7-6.

**Owens Scores**

It took only 20 seconds for the Mules to regain the lead. Albright's attempted on-side kick failed and Muhlenberg took over first and ten on the Lion 45. On first down, Owens raced around his left end for nine yards to the Albright 36. On the next play it was Owens again, this time going off right tackle. He eluded the Lion secondary defense, cut to the sideline and sped into the end zone for Muhlenberg's second score of the quarter. Again Nonnemaker missed his mark on the try for the point, and the half time score was 12-7.

Again in the second half both teams had trouble getting started, and it was Owens who finally broke the scoring ice with 25 seconds to go in the third quarter. With second down and 15 yards-to-go on the Albright 40, the speedy halfback took a lateral from his quarterback, Art Wright, and streaked down the left sidelines for the touchdown. Wright's conversion was blocked, making the score 18-7.



HIT 'EM HIGH — Muhlenberg's Pat Wilson charges for a first down as an unidentified Albright player tries to stop him with a high tackle. Standing by is Tony Caporale (34) and leading the play is Jerry Rehrig.

Jerry Rehrig, burly Muhlenberg fullback powers through the Albright defenders for extra yardage. Trying to halt the driving Berg star are two unidentified Albright players.

**Touchdown Drive**

In the final period, the Lion offense began to move, and with a little better than six minutes remaining to be played, halfback John Cunningham ripped through the right side of his line for ten yards and the final Albright tally. The touchdown climaxed a 72-yard drive in twelve plays. Jim Doremus converted for the extra point, and the score read Muhlenberg 18, Albright 14.

The Lions had one more opportunity to score when they took

# Berg Footballers To Play Host To Scranton University Gridmen

When Scranton university invades Muhlenberg on Saturday, the cardinal and gray will face a big rugged line that packs plenty of wallop. Coach Pete Carlissimo now in his fourteenth year of coaching, has six regulars back among eleven lettermen.

At the ends the Royals will have veteran Charles Cino and Ned Panfile. At the tackles, veteran Frank Dwornikowski, a converted end, and sophomore John Devitt appear to be starters, with veteran Joe Scaccia and sophomore Gus Graziano slated to see a great deal of action. The guard positions will be filled by George Datto and re-eligible Stan Vnuk, while the center will be sophomore Leo Broadhurts.

**Former Berg Star**

In Vnuk, the Royals have a former Muhlenberg star. Stan started for Berg in his freshman and sophomore years during the tenure of Tom Triplett. He transferred to Scranton, and after a year of inelligibility, he has now become a fixture in the Scranton front wall. Stan is an experienced ball player, having played four years of service ball.

In the backfield, letterman Vince Cesare will be at quarterback, with veterans Walt Perih and Joe Belluce at the halves, and chunky John Potkul at fullback.

**Senior Quarterback**

Cesare, one of five seniors on the squad, became the regular signal-caller last season despite his size (5" 7' and 145 pounds) and proceeded to connect on one out of every three passes he threw. Backing him up in reserve roles will be sophomores Mike Melnick and Ed Zelinski. Potkul, a hard driver who can run in the open and is able on defense, will carry a heavy load at full. The junior letterman from Taylor, Pa., who was outstanding against Berg last year, was selected as one of the Mules' first team all-opponent backs in 1956.

Thus far this year the Royals have defeated Albright by a 20-0 score, and have lost to St. Vincents college of Latrobe, Pa. After their contest with the Mules they will meet King's college, Temple, Hofstra, Gettysburg, and Wilkes.

The Muhlenberg-Scranton series began back in 1948 at which time the Mules won by an 18-14 score. Since then, the two teams have clashed five times and the series now stands at three wins apiece. Berg won last year by a 14-0 score.

# Schmidt Seeks Frosh Cross Country Men

Mr. Dick Schmidt, coach of Muhlenberg's cross-country team has expressed a desire to field a squad of freshmen distance runners this season.

To date the turnout of freshmen candidates has been a meager one, not sufficient enough to warrant the scheduling of meets. Coach Schmidt has pointed out the fact that should enough candidates turn out he would have no trouble in scheduling meets. Lehigh university has already contacted Schmidt concerning the possibility of a meet. Other schools would be quick to follow suit. All that remains to turn this into a reality is a turnout of freshmen to practice.

All interested freshmen are invited to report to Cedar Beach, the site of practice, any day at three-thirty in the afternoon

## Sport Views Chances Of Jackie Robinson

Will Jackie Robinson make the Hall of Fame at Cooperstown? Do his ten years with the Dodgers, in which he played in six World Series and six All-Star games, make him eligible? Or is he enitled to baseball immortality on the sole basis of being the pioneer, the trail-blazer for his race in organized ball?

The current issue of Sport gives the results of a poll the magazine has taken of baseball people themselves. A cross-section inquiry was conducted ranging from Commissioner Ford Frick down to the umpires. The answers are unanimous in their final conclusions. Jackie Robinson belongs in the Hall of Fame.

Joe Garagiola, a National League catcher for nine seasons who now assists Harry Caray with the broadcasts of St. Louis games, told Sport: "I don't see how he can be kept out — on his baseball talent alone. But he also is entitled to Hall of Fame selection because of the obstacles he had to overcome to become the star he eventually was."

Buzzy Bavasi, vice president of the Dodgers who was firing angry broadsides at Jackie when he announced his retirement, makes no attempt to hide his admiration. "Robinson belongs in the Hall of Fame. He was one of the greatest of the post-war ballplayers because he could beat you in so many ways, by his hitting, his skill on the bases and his fielding."

Commissioner Frick says, Robinson is "one of the most exciting ballplayers I have ever seen."

Frankie Frisch, himself a Hall of Famer and not known as an admirer of Robinson, says: "I thought Jackie always popped off a bit too much, but if popping off was going to bar guys from the Hall of Fame, I guess Cooperstown would be pretty empty. For ten years, Robinson was a pretty darn good ballplayer. When the time comes, he's entitled to a shot at the Hall of Fame."

While there is little chance of Robinson winning any popularity prizes among National League umpires, Larry Goetz told Sport he felt Jackie was definitely a Cooperstown candidate.

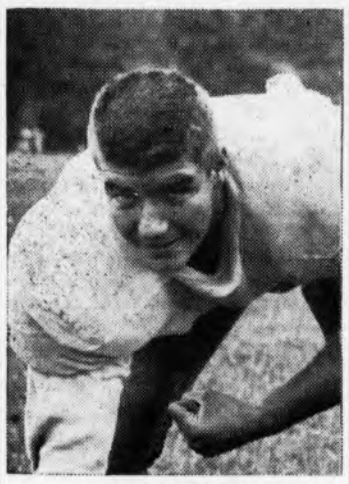
Asked by Sport to give his own reactions to a possible election to the Hall of Fame, Robinson said: "If I should get in I would want to make it on my merits. If I were picked because I was the first Negro to play in the major leagues, I wouldn't want it. I feel that I should be judged on merit alone, just the same as any other ballplayer."

**AT RANDOM**

(ACP)—The University of Delaware Review reprinted this observation from Cal Tinney: "There's so many 'how to live' books . . . How to be Healthy, How to be Happy though Human. I liked it better when people were so busy living they didn't have time to read on how to."

# *In the Sportlight . . .*

## Tackle, Distance Runner Pace Mule Squad

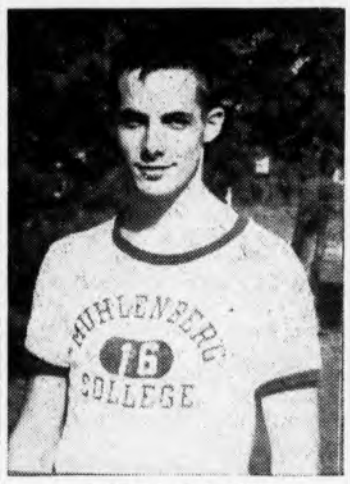


**BILL CARTY**

Bill Carty, a 220 pound tackle, is one of the twelve returning lettermen on this year's football squad. A senior from Runnemede, New Jersey, Bill attended Camden Catholic High school and participated in many activities. He played baseball, track, and football, and was selected to the All-Catholic League of South Jersey in the latter sport. He was also elected president of Student council in his senior year.

While at Berg, Bill has been active in the "M" club and also the Newman club . A science major in the Biology department, he hopes to get a job in the pharmaceutical salesfield after graduation.

Bill believes that this year's team "has great potential and will jell into a winning combination with a little experience."



**PIERCE KNAUSS**

Pierce Knauss, a versatile junior from nearby Bethlehem, had the unique distinction of being the only three letter winner at Berg last year. He achieved this by lettering in wrestling, track, and cross country. A 123 pound wrestler, Pierce won several important matches last year and also wrestled in the Middle Atlantics. He ran the one mile and two mile races in track.

Pierce participated in wrestling and track at Bethlehem high school and was district champ in the mile. He was elected president of the Student association and sang in the Glee club. Pierce also edited a student handbook in his senior year.

He is a member of the Mermaid Tavern society and the "M" club here at Berg. He is the historian of the Sigma Phi Epsilon social fraternity.

## Cross Country Team Loses First Contest

Last Friday at Cedar Park, the Mule Harriers went down to defeat to perennially strong Lafayette by a 16-39 count. This was the opening meet of the season for both teams.

The Leopards were led by Dick Haines who covered the 4.6 mile course in 23 minutes, 32 seconds. His teammates, Tom Carson, Joe Stefanowerz and John Piper, took the next three places for the Eastoners.

Ed Thieler was the first man to finish for Muhlenberg as he placed fifth. Pierce Knauss was close behind, finishing in seventh place.

Joe Jarden of Lafayette finished sixth and Dick Lewis, John Carty, and Bob Droffner followed Knauss in that order,

## Tennis Court Hours

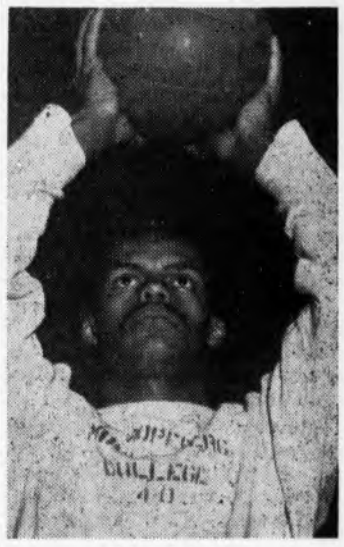
**The tennis courts will be open from 11:00 a.m. to 5:00 p.m. on Mondays thru Saturdays and from 2:00 to 5:00 p.m. on Sundays. The attendant will be on duty only during these hours.**

**These hours will only apply to the fall term.**

# Clint Jeffries Honored In Basketball Preview

Clint Jeffries, senior Muhlenberg basketball star, has been selected as one of the top ten basketball stars in the East according to a pre-season forecast conducted by the Dell Sports Magazine. Jeffries, a 6' 2" forward from New York city, has been a Mule starter for the past three years. Last year he collected a total of 302 rebounds and averaged 14.8 points per game while shooting at an average of 44.6%. Jeffries led the Mules to an upset win over St. Joseph's last year, and for his performance in this game was selected the outstanding visiting player appearing in the Palestra.

In being selected for this honor, Jeffries was cited for his outstanding rebounding, and driving, twisting right-handed layup shot.



**Clint Jeffries**

**Returning Starter**

Last year, Clint was largely responsible for the Mules 17-9 record. Although not especially effective from the foul line, his rebounding and floor play led the basketeers. This year he will be one of the few returning veterans, and will be called upon to supply the necessary punch. He is the only returning veteran who was a consistent starter.

In his freshman year at Berg, Clint, along with now departed Frank Neely, led the freshman team to a highly succesful year. Midway during his Sophomore year, he broke into the starting

(Continued on Page Six)

## Frosh Football Squad Prepares For Opener

Under the tutelage of coach Milo Sewards, Muhlenberg's freshman football team is working out in preparation for the coming season with a group that is disappointingly small in number, but high in potential.

With the opening game with Hofstra less than two weks away, Coach Sewards is putting the team through rigorous daily scrimmages in an effort to get the Frosh into shape. The main problem is one of adaptation for the players who have come from high schools which employed offensive systems different than Muhlenberg's.

**Position Changes**

Several of the players have been shifted from their normal positions in order that the team might attain greater balance. As a result the team is working hard to smooth out these kinks in their offensive armor.

The backfield is coming along well and seems to be headed up by Sal Messina of Muhlenberg Township at half, Ed Yost of Allentown at fullback, Tom Wargo from Palmerton at quarterback, and Jiff Hoffer of Quakertown at the other halfback slot.

In the line, Marty Renshaw, Ed Callahan, Paul Miller, Craig Miller, Fred Schwenk, Vince Russo, and Bob Patterson are some of the leading candidates. The Little Mules have managed to form a pretty tight knit defense and are progressing well in developing an effective offense.

**Freshman Football Schedule**

Oct. 18—Muhlenberg at Hofstra
Oct. 25—Muhlenberg at Lafayette
Oct. 1—Stevens Trade at Muhlenberg
Oct. 8—Temple at Muhlenberg

# *Claudia Co-ed Speaks . . .*

Dear Muhlenberg men . . .

I've been meaning to write to you for so long, but I've been so busy with various extra curricular activities. I just haven't had one spare moment.

I want to thank you all so very much for everything you've done for me. You know—Hands across the campus!

At moments such as this I try to consult my diary to show you just how much I've enjoyed myself. Now let me see—forgive me If I think out loud, but I always think in a stream of consciousness.

The first week was nice, but I only had five dates, so it really isn't worth mentioning. When classes began that fatal Friday, everything happened! First, I missed three of my classes because I reported to senior ethics, philosophy, and speech classes. Then, oh, then it happened! I saw HIM —**Bob Leighton**! The entire day was ruined. My mind just couldn't function on math, or history. I just lived for Monday, but I found out that he had a "chapel date" with another woman. That fortunately didn't prove to be entirely drastic. I met **Bob Nuss** and we chatted over coffee in the afternoon—but I chatted too long—right through my biology lab.

Tuesday was dull, but Wednesday was hectic. There I was acting like a little fool, bowing and katowing to the mightiest general of them all—Peter! **Mr. Hervey** was so sweet, he only forced me to say "Dawn and Desire" fifteen times after lunch.

I managed to live through the rest of the week because **Herbie Owens** promised to dedicate his first touchdown to **Me!** That was the same weekend that **Karl Becker** spent "hours" with me compiling information for the the **WEEKLY**.

Do you remember the Student body meeting? Let me tell you when **Lou Torres** banged that little hammer on that "itty-bitty" block, and whispered so-oo sensually, "All those in favor raise their right hands," my heart skiped a beat and a half!

Well, gentlemen—I'll have to end my little dissertation and retire. It's been **such** a hectic day.

Bye Boys,
(Signued) Claudia Co-ed

# Arcade Policy

(Continued from Page One)

be clear that the **Arcade** recognizes any campus personality as a potential contributor. All material is handled and judged as an individual piece of Art—any contribution is treated fairly.

In the past the precedent of encouraging student work only, has found root. The editors are quite willing to nourish this attitude. The editors are firm, however, in their desire to activate a stronger stimulating force on campus. Briefly, the **Arcade** will consider for publication *any* artistic or intellectual contribution from students or *faculty* members. This, we feel, will provide a more fertile framework for creativity and a more full and complete campus representation.

# Fulbright Awards Open To Students

Competition for Fulbright and Buenos Aires Convention scholarships for graduate study abroad for 1958-59 will close November 1, it was announced by Kenneth Holland, President of the Institute of International Education.

Fulbright awards for pre-doctoral study and research in Europe, Latin America and Asia cover transportation, tuition, books and maintenance for one academic year. The Buenos Aires Convention scholarships provide transportation from the U. S. government and maintenance from the government of the host country.

Eligibility requirements for these foreign study fellowships are United States citizenship, a college degree or its equivalent by the time the award will be used, knowledge of the language of the country of application sufficient to carry on the proposed study, and good health. Preference is given to applicants not more than 35 years of age.

Countries where U. S. graduate students may study under the Fulbright Act are Australia, Austria, Belgium, Burma, Chile, Denmark, Finland, France, Germany, Greece, India Israel, Italy, Japan, the Netherlands, New Zealand, Norway, the Philippines, and the United Kingdom. In the Asian countries—Burma, India, Japan and the Philippines, as well as in Greece, only a limited number of grants is available, and mature graduate candidates are preferred. Further information about these awards and application blanks are available in the offices of Fulbright advisers on college and university campuses.

# Freshman Advice

(Continued from Page Three)

well-rounded student must be active." By this we conclude that Dr. Smith means that the student must have a large assortment of activities in which he participates; join a Greek organization, take advantage of all lectures, take an avid interest in sports, make friends and influence teachers, have Indo-Chinese pen-pals, and get pinned as soon as possible. In other words, socialize like a mad fiend.

A final word concerning sleep—4 hours ought to be sufficient. A quote from Dr. Smith supports the statement: "I think," says Dr. Smith "that 4 hours sleep ought to be sufficient."

from the **Westminster Holcad**

# The Chowline

Do you have a thin dime? If so, you should be interested in the large assortment of ten-cent selections offered you by the Slater system.

During your many visits to the Student center, why not declare a dividend and invest your dime in some returnable satisfaction. One suggestion would be a steaming hot cup of coffee or a creamy cup of hot chocolate, designed to help combat the chilly morning wind. Both cost only ten cents. And if you're hungry also, why not try some Blue Ribbon cakes to relieve those pangs? These individually wrapped pastries also sell for a dime—a measely tenth of a bill. Then again, if you don't like coffee, and hot chocolate makes you break out, drink milk—for a dime.

For those hearty men who can hold their beverage, we wish to recommend a tall chilled, ten-cent glass of coke. And, of course, it still isn't too cold to eat ice cream. We have five delicious flavors for the student body, selling at ten cents per scoop. If you like popsicles, may we suggest the Eskimo Pie —a ten cent treat on a stick.

So we'll see you in the Snack bar. Bring your dime, too. On second thought, bring fifteen cents—the nickel can provide listening pleasure from the juke box while you eat, that is if you have the beat!

**Adv.**

# Student Council Announcement

**All student organizations who wish to apply for funds from the Student council must submit a budget to the treasurer of Student council no later than October 16, 1957.**

Each budget must: 1. be for one semester only; 2. contain a list of cash assets (balance in treasury); 3. contain a list of anticipated income (membership fees, etc.); 4. itemize the expected expenditures for one semester; 5. be signed by the family adviser, president and treasurer of the organization; 6. state the amount requested from Student council; 7. be typed or printed in ink on 8½ by 11 paper.

Along with the budget, each organization must submit their treasurer's books to date, with the balanced checked and initialed by the College Treasurer's office. Budget committee meetings are open. A representative of your organization is welcome to speak on behalf of your budget. Meeting dates and budgets to be discussed will be posted on the Student council bulletin board in the Student center. Budgets and books will reach the Student council treasurer if addressed to **Robert Leighton, Box 41,** and sent through the campus mail.

Robert P. Leighton, Treasurer
Chairman, Budget Committee

## Placement Interviews

**There will be a placement meeting for seniors on Tuesday, October 15, in room 105 of the Science building at 3:15 p.m.**

line-up, and has remained there ever since. During his Sophomore year, he scored more than 400 points, only the second man in Muhlenberg history to accomplish this fact. With another year like his Sophomore year, Clint could well finish his senior year among the top five all-time high scorers in Muhlenberg history.

# . . . Student Council Report . . .

October 3, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:05 p.m. by President Luis Torres. Mr. Vari was absent.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $ 773.93 |
| Social fund | 242.86 |
| Assembly fund | 786.52 |
| | $1,803.31 |

**COMMITTEE REPORTS:—**

Chapel:—Mr. Ueberroth reported that six Chapel slips had been revoked during the previous week.

Mule:—Mr. Smith reported that a mule had been secured for this Saturday's football game. Mr. Smith moved and Mr. Skweir seconded a motion that the mule also be hired for the games on October 12th and 19th. Motion carried.

The President then welcomed Mr. Joseph Becker as the representative of the Freshman class and Miss Jayne Kuntzleman as the representative of the Women's Dorm council to their first Student council meeting.

**NEW BUSINESS:—**

On motion by Mr. Ueberroth and Mr. Markoe, the President of the Student council will begin the annual Tug-of-War by standing in the middle of the creek and being the chief official. The tug will be held next Tuesday at 3:30 p.m. in Cedar park. Other officials appointed by the President include Messrs. Leighton, Piston, Shellenberger, Gurski, Becker, and Ueberroth.

Mr. Skweir announced that the Homecoming dance in Memorial hall will feature Bud Rader's orchestra and will be informal.

The President reported the signing of a Peace Pact with Albright college with a provision for reciprocal action in the case of stolen property. He also announced that the lot adjacent to the ATO house is available for commuter parking.

On motion by Mr. Piston and Mr. Becker, the meeting was adjourned at 8:12 p.m.

Respectfully submitted,
RAY UEBERROTH,
Recording Secretary

# Girls' Sport Program

# Homecoming Queen And Life Magazine Highlight Week

MUHLENBERG WEEKLY

"Toward a Greater Muhlenberg"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., October 17, 1957 A. C. P. Rating No. 4

## Alumni Weekend Festivities Feature Queen, Football, Social Activities

Muhlenberg college's annual Homecoming weekend for the 1957-58 academic year, beginning Friday evening, October 18, and continuing through a full day's events on Saturday, October 19, will extend a cordial and informative welcome to all returning alumni and their families. In addition to such annual affairs as the Homecoming dance, luncheon, football game, and reception in the Student center, the weekend will also be highlighted by the crowning of a Homecoming Queen, selected from among Muhlenberg's newly-arrived coeds, and an open house tour of West hall and Martin Luther hall.

The weekend will officially begin on Friday evening, October 18, with the annual Homecoming dance in Memorial hall. The dance, which will feature the music of Bud Rader and his orchestra, will begin at 9 p.m. and continue through 12 p.m., during which time the newly-elected Queen of Homecoming and her court will be announced.

A freshman Pajama parade, considered a part of Homecoming weekend and an annual affair for many years prior to 1956, will not be included for the second consecutive year.

**Saturday's Activities**

Saturday morning's activities will commence with a meeting of Der Deutsche Verein in the conference room of the Administration building at 11 a.m. The society has functioned for many years as an organization to serve the interests of those students and faculty members who desire to further their knowledge and acquaintanceship of the German language and culture. All alumni of this organization are cordially invited to attend the meeting, at which time a discussion will be held concerning the raising of funds for the proposed Deutsche Haus. Rev. Luther F. Schlenker, class of '35, will conduct the discussion as temporary chairman. The Rev. Conrad W. Raker, class of '34 and superintendent of the Good Shepherd home of Allentown, will serve as temporary fund chairman for the organization.

At 12:00 noon on Saturday there are plans for a luncheon to be served family style in the college commons. Donald B. Hoffman, class of '32 and vice-president of the Alumni association, will preside at the luncheon meeting in the absence of the president of the association, Harry I. Oxenreider, who is unable to attend. Dr. J. Conrad Seegers, President of Muhlenberg college, will speak for a brief period on the state of the college and campus in general, including the latest building developments and the subject of co-education in its first year.

(Continued on Page Six)

## Co-Education At Muhlenberg To Be Subject of Life Article

Muhlenberg college will be the subject of five-page spread in the October 21 edition of Life magazine. The article, which will include pictures of the campus and the student body, will be entitled "Co-Education Comes To A Man's College."

Life magazine chose Muhlenberg for this article because it is typical of many all-male colleges throughout the country, which are presently involved in a trend toward co-education. It seems that small colleges and large universities alike, are finding new life as co-educational institutions.

The reporters for the magazine were on campus during the week of September 30 and in their pictorial article they covered such events as the co-ed's serenade of East hall, the shaving of the Lehigh vandals and freshman regulations for the co-eds.

**1,500 Copies Ordered**

Mrs. Helen Bailey of the publicity office has ordered 1,500 advance copies of the October 21 edition of Life, which should arrive on campus Saturday afternoon. These will be available in the college book store to both students and alumni, who will be on campus for the Homecoming festivities.

In addition to the national magazine article, a group of Muhlenberg students were interviewed on tape, by Mr. John Van Sant, station manager of radio station WSAN, for the coast to coast radio show "Life In The World." This show, whose commentator is Frank Blair of the Dave Garroway show "Today," highlights the upcoming feature articles in Life magazine through personal interviews.

Those students interviewed by Mr. Van Sant for the radio show were: Lou Torres, president of the Student council; Karl Becker, editor-in-chief of the Muhlenberg **WEEKLY**, Ray Ueberroth, recording secretary of the Student council, Jayne Kuntzleman, president of the woman's Dorm council, Joelyn Borelli, Margaret Todd and Sandra Hamer. These people were asked to give their impressions of Muhlenberg as a co-educational institution.

Another group of students who were interviewed were several whose pictures appear in the Life article, they were: Carol Coolidge, Lyn Frere, Ida Diaz and Bob Hervey.

Phyllis Keith, Carol Coolidge, Lyn Frere and Madeline Egdner were asked to sing the "Alma Mater" and "Put On Your Old Gray Bonnet" for the show.

This program will be heard over radio station WRCV from Philadelphia at 7:45 p.m. Tuesday, October 22.

## Initial Meeting Held By Forensic Council; Debating Plans Made

On Monday evening, October 16, the Forensic council, debating society of Muhlenberg college, held its first meeting in room 201 of the Administration building. At this meeting the council decided to send letters to Lehigh university, Fordham university, Hofstra, Moravian, Lafayette, Haverford, Swarthmore and Beaver colleges and to Kutztown State Teachers college, in an effort to schedule debates with these schools.

The national topic scheduled for debate this year is "Should it be illegal to require membership in a labor organization as a pre-requisite for employment?"

Members of the Forensic council drew up their budget for the coming year and submitted it to the Student council. It was also decided that all future meetings this year would be held in room 201 of the Administration building on Monday evenings.

Muhlenberg's debating society has been rather inactive in recent years due to the lack of interest within the student body. This year the organization is being revived under the leadership of its president Don Michaels and its faculty adviser Dr. Andrew Erskine. Anyone interested in joining this society is urged to contact either of these two genltemen.

The purpose of the Forensic council is to further interest and participation in debating on campus. Intercollegiate debates are scheduled whenever possible.

## Asiatic Flu Epidemic In Lehigh Valley Forces Cancellation of Annual Contests

It seems as though the freshmen will never have an opportunity to meet their sophomore antagonizers on the field of combat, if the present Asiatic flu threat continues in this area. This week, for the second time, the soph-frosh tug-of-war has been postponed, on the advice of Dr. Thomas H. Weaber, director of student health on the Muhlenberg campus.

The soph-frosh events are not the only area of student activity that has been affected however. Last week both the boys' and girls' gym classes were called off until further notice. Dr. Weaber feels that ailments would be increased on campus if students are placed in a situation where they could easily contact the flu. This includes gym classes and intramural sports.

**Area Schools Closed**

Muhlenberg has been reasonably fortunate throughout this epidemic, as compared to some of our neighboring colleges. Lehigh has been closed until Octber 28 as a result of the flu and at Moravian we find a similar story. Throughout the Lehigh valley many of the public and parochial grammar and high schools have been closed until further notice. In Allentown, seven hospitals have barred visitors because of their influenza-type cases.

Allentown Mayor Donald V. Hock called a special meeting on Tuesday, October 15, to discuss possible drastic action to halt further spread of the epidemic. The meeting was attended by representatives of the Allentown school district, the Lehigh county medical society and the Allentown chamber of commerce.

**Health Office Busy**

Here on our own camps, Dr. Weaber has been unusually busy in the student health office. He reports a great number of flu cases; however, he says that colds during this time of year are typical and that the flu has not reached epidemic stages on the Muhlenberg campus.

With the cooperation of the entire student body, Dr. Weaber feels that the flu can be controlled. Please do not hesitate to report to the student health office at the first sign of cold symptoms. Cooperation of students so far has been good and has been greatly appreciated.

**Preventive Measures**

The following preventative measures have been released by the student health office in an attempt to reduce the number of flu cases on campus.

1. Be sure you have an adequate diet.
2. Drink plenty of liquids; force yourself if necessary.
3. Try to get more rest than usual.
4. Adhere strictly to the rules of good personal hygiene.
5. Avoid large public gatherings.
6. Be sure to get early treatment of any minor cold symptoms.
7. Immunization is desirable. Flu shots are available in the student health office.

**Early Meals**

If you wish to take a tray from the college commons to a sick roommate, please come for the tray before the regularly scheduled evening meal. A deposit of $1.00 will be required for the tray and utensils and will be refunded upon the return of the equipment.

Some students have been absent from class because of illness. Such absences are ordinarily excusable provided the student obtains an excuse from Dr. Weaber of the health office. This excuse must be presented by the student to each of the instructors whose classes have been missed.

## Dr. Claude E. Dierolf Releases Student Parking Regulations

Dr. Claude E. Dierolf, Dean of Men, has released the student regulations for the 1957-58 term. They are as follows:

No freshman resident student may have a car on campus. (A resident freshman is one who is living in the dormitory or is rooming in a private home near the campus.) Failure to comply with this rule may result in expulsion.

No student cars are permitted on the campus from 12:00 midnight to 5:30 p.m. The one exception is the Memorial hall parking area, which is open to students from 7:30 a.m. to 5:30 p.m.—Monday through Friday only.

Cars may be parked on the streets bordering the campus parallel to the curb except in front of the president's home or driveway.

**All Cars Registered**

All cars owned or operated by students must be registered at the regular time for registration. This car registration will include filling out a card to be kept on file in the office of the Dean of Men, and purchasing a numeral parking sticker which must be displayed at all times on the rear windshield of the car.

Failure to register cars will render students liable to a $5.00 penalty.

Violation of campus rules concerning student cars will result in the following penalties: first offense — $1.00, second offense—

(Continued on Page Six)

## Dr. Charles Cooper To Speak At Building Dedication Service

Dedication of the unnamed buildings on the Muhlenberg campus will take place on October 29, in the Gideon F. Egner Memorial chapel at 11:00 p.m. The service will be conducted by Dr. David H. Bremer, college chaplain.

Preceding the dedication, there will be an academic procession into the chapel. The dedicatory address will be given by Rev. Charles M. Cooper of Philadelphia, president of the Ministerium of Pennsylvania of the United Lutheran Church in America. Mr. Ludwig Lenel, head of the Muhlenberg music department, will play the organ and lead the college choir at the service. Guest speaker for the occasion will be Nancy Duke Lewis, Dean of Pembroke college at Brown university. She will speak on "The Education of Women." Her choice of topic is in keeping with the newly initiated program of co-education at Muhlenberg.

After the services in the chapel, there will be a half hour concert by the college band in West hall mall. Tours of the new buildings will also be conducted by the Cardinal Key society at this time. The new buildings included in the tour are the newly renovated West hall, Martin Luther and the new Medical center. Tea will be served in the lounges of both dormitories.

(Continued on Page Six)

## Education Club Plans Activities

Affiliation with a national organization and programs for the coming year were discussed at the year's first meeting of the Education society, on Tuesday evening, October 15.

The club considered joining one of several national groups of education clubs. No action was taken, pending further investigation of the matter by the officers.

Speakers for future meetings were discussed, as well as other activities. Suggestions received from the floor will be considered by the officers. Speakers will be invited both from outside of the college and from the faculty.

Officers of the club for this year are Don Canfield, president, Charles McCutcheon, vice president, Stan Sloyer, secretary, and Dave Smith, treasurer. Adviser to the club is Dr. Wm. M. French, head of the education department.

## 'The Little World of Don Camillo' Featured By Muhlenberg Cinema And Lecture Series

"The Little World of Don Camillo", an Italian picture starring Fernandel will be shown as the second film in the Muhlenberg Cinema series on Friday, October 25 at 7 and 9 p.m. in the Science building auditorium.

Based on the book by Giovanni Guareschi, "The Little World of Don Camillo" is essentially a series of anecdotes that give a well-rounded portrait of a forthright, even pugnacious priest in a northern Italian village and his political opponent, Peppone, the bluff, hearty Communist mayor of the town. No side is taken in presenting the clashes between these two and we are led step by step to an understanding of the principle and motivations of these two strong willed human beings. The antagonisms and new conflicts of postwar Italy are also presented and add scope to the film.

The wry, perceptive humor of the characters rises above the partisan politics and religious dogma which would otherwise impede a film of this type. Fernandel is the town priest, Don Camillo, and Peppone is portrayed by Gino Cervi. The success of this film is adjudged by the fact that several subsequent films were made which involved the same characters.

The next film in the cinema series will be "Cry the Beloved Country" starring Canada Williams. This will be shown on Friday, November 22.

## Newman Club Hears Murphy

On Monday night the Intercollegiate Newman club of Allentown heard Father James Murphy from the University of Pennsylvania speak on the "Newman Movement". Father Murphy has been affiliated with Newman clubs for some time and is presently the Chaplain of the Newman club at the University of Pennsylvania. His lecture on the Newman movement included the explanation of how it was started by five medical students at the U. of P. These students felt the need for such an organization on a secular campus.

The club held this meeting in the Student center. Members of Newman clubs from Cedar Crest college and the Allentown Nursing home also attended the meeting. The club is an area club. Its purpose is to unify Roman Catholic students, not only from Muhlenberg but from the area, in their faith.

**Election**

At the meeting, Ed Schroeder of Muhlenberg was unanimously elected president. Other officers include: vice-president, Dorothy Stoffels from Cedar Crest; corresponding secretary, Carl Lam from Muhlenberg; treasurer, Claire Miller; adviser, Father

(Continued on Page Six)

## Chess Club Outlines Plans For Semester

On Monday, October 14, the Muhlenberg college chess club held its first meeting in the English office, at which time the members discussed their plans for the coming year. It was announced at this meeting that the necessary funds have been appropriated for the chess club to enter the United States Chess federation. This will enable Muhlenberg to schedule matches with Western Electric and such schools as Lehigh, Franklin and Marshall, Ursinus and others.

It was also announced at this meeting that the Muhlenberg library has recently purchased new books on chess.

Officers of the chess club are Dennis Gurski, president; Michael Pitt, vice-president; Marv Hyett secretary; Morris Kricun, treasurer; and Wally Eli, recording secretary. The faculty adviser for the organization is Mr. Chatfield.

## Publicity Forms

**Mrs. Bailey requests that all sophomores, juniors and seniors pick up and fill out their publicity forms in the publicity office, by October 25.**

# Editorial Views——

**Some books are to be tasted, others to be swallowed, and some few to be chewed and digested.**

**Francis Bacon, 1597**

## A Vacuum . . .

At the present time, the College Bookstore is desperately in need of additional facilities for the adequate display of more trade books. A trade book is one not used as a text-book, but one used as a supplementary source book. These trade books are not receiving the attention they justly deserve.

However, many books and magazines containing little if any educational values are presently occupying valuable display areas. Topics such as "How You Can Be Framed In Fraternity Court" and "Give Your Old Chevy That '58 Look" add little to the educational scene and should be excluded from a college bookstore with such limited facilities as Muhlenberg's. Numerous stores off campus could satisfy this demand, thereby allowing the limited bookstore display space to satisfy the trade book vacuum. True, a few wire bookstands display Signet and Mentor books but these racks are inadequate.

Numerous publishing companies are currently advertising available readings for college students, the Modern Library of Random House being a perfect example. Random House has available a two-sided display and stock fixture holding 320 Modern Library books and 96 Giants in full face pocket book editions. This complete line of books would help fill the present void, providing varied readings at an exceedingly reasonable price. Believing in the statement "well displayed is half sold," this feature should be well received by the student body.

A nightmare for any professor is one in which he finds himself asking a former student what he has read since graduation. This nightmare would be, to some extent, relieved by the fostering of an interest in each student for the development of an individual library. Many men graduate from Muhlenberg never having purchased any books outside of basic texts, which is a definite indication of their future readings.

The staff of the college bookstore is presently undermanned. This situation should not be allowed to continue. By a thorough revision of the Grant-in-Aid program, men could be assigned to maintaining the trade books, providing the needed labor time required for the efficient operation of such a program. With such aid provided, the staff could then be free to devote time to the numerous other areas also in need of improvements.

This much needed addition, as well as others, would tend to foster the "intellectual curiosity" of the student body, many quarters being very deficient in this prerequisite to a thorough education.

# Their Side of Humor . .

Those freshmen are getting smarter every day. The other night in France hall lounge, an upperclassman sneaked up behind one petite miss, covered her eyes with his hands and announced:

"I'm going to kiss you if you can't tell who this is in three guesses!"

She guessed, without hesitation, "George Washington, Thomas Jefferson, Abraham Lincoln."

The Kilikilik

—

Girls don't only marry for cash. They'll take checks.

The SUSQUEHANNA

Her: "Why is it you have so many boy friends?"

She: "I give up."

The SUSQUEHANNA

—

"I don't want any callers this afternoon," said the chairman of the board to his secretary. If they say their business is important, just tell them that's what they all say."

That afternoon a lady called and insisted on seeing him. "I am his wife," she exclaimed.

"That's what they all say," replied the loyal secretary.

But not your heart . . ."
Knock, knock, knock . . .

Dr. S————, engrossed in A. E. Houseman, was suddenly interrupted by a tapping, tapping, gently rapping at the chamber door. Through the slightly opened door peered a chubby face. He drew his full stature into the chamber and in his clenched fist, he held a camera, flash and plates.

With an indignant look from Doc, the Raven, not heeding the irritation, flew atop the bust of Pallas where he immediately prepared to photograph the class—Dean's class in Modern poetry at which the good Doc was guest lecturing.

Without any introductory maneuvers, Raven astounded the class with the immediacy of the entire affair. He had come completely unexpected by either the good Doc or Dean. As he made his preparations, he kept the class in suppressed amazement with his raw mirth.

Raven beckoned for the good Doc to sit on the edge of the desk and to look as though he were lecturing to the class, but the good Doc, fearing a discharge from the College for an act of laxity such as this refused and tried to pass the buck to Dean. "This isn't my class. I think you should get the **real** professor up here." A five-minute argument ensued, resulting in Dean's standing up front and the good Doc's sitting in the rear with a triumphant grin from ear to ear.

Dean, now standing at the head of the class, was puzzled over his role in this comedy. He glanced at Raven for instructions. Raven glanced back.

"Pretend that you're lecturing to the class."

"What should I say?"

"Anything . . . pretend you're lecturing!"

"But . . . Er . . . This is an item of particular importance. Ah . . . Be sure to get this in your notes Mr. Raboy. Uh . . . I don't know what else to say."

"Well just move your mouth. You in the front row, Sonny. Can you move a little to your left." McConnell was offended. He moved. "That's a big big boy!"

A wise acre in the group retorted "Watch out! He might be from Confidential magazine."

Raven, without hesitation, returned with "No, unfortunately,

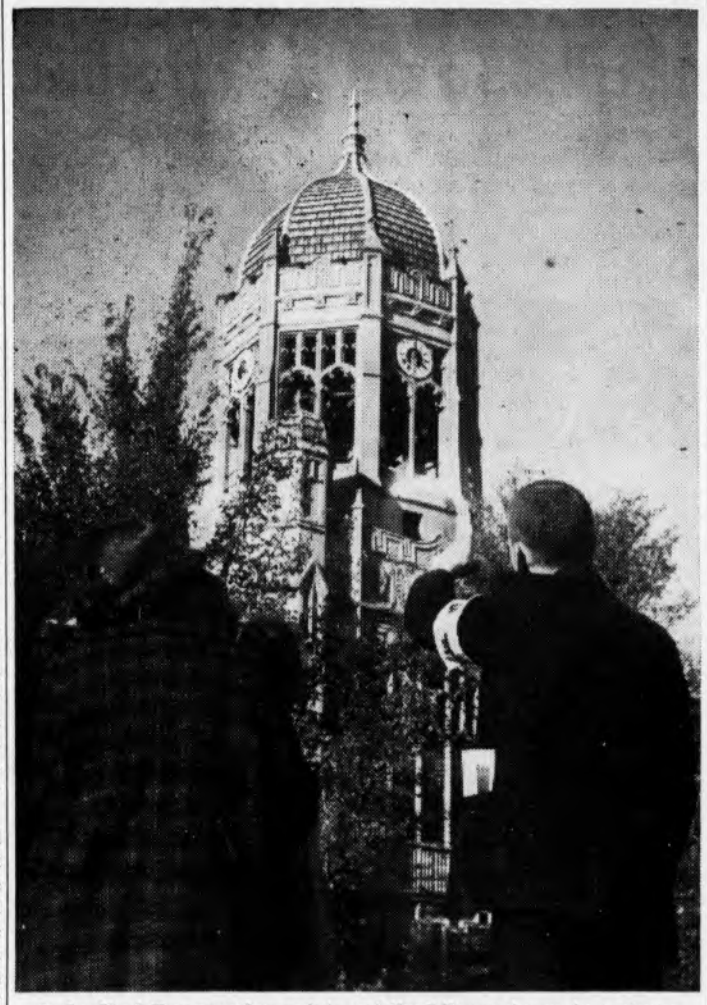
# Cardinal Key Society . . . It's Purpose At Muhlenberg



**A Cardinal Key member points out the Library tower to a Mopsy day visitor.**

**by Linda Patnoi**

The Cardinal Key society is an honorary organization on the campus dedicated to service to Muhlenberg college. Its activities include acting as ushers for home athletic events, movies, and graduation; guiding and playing host to visitors; as well as any other tasks which directly benefit the school.

Membership in this organization is founded on a merit system. Seven representatives are chosen from the male students who have accumulated the greatest number of points. Every power of the Cardinal Key except voting is given to its five associate brothers, who are eligible to fill vacancies. It is also possible for a member to be dropped upon having three demerits.

On May 28, 1940, the Cardinal Key society was founded by six members of the class of 1942. They were of the opinion that an organization for service to the College and for extending good will to visitors on the campus should exist. At first, its principle goal was in providing guides and entertainment for visiting teams on the campus, such as those for athletics and debating.

Recent tours given by the Cardinal Key society occurred during Mopsy day and Boy Scout day. For the latter, a letter of high appraisal was received. Other recent endeavors include devoting a Sunday afternoon to a chapel concert series and Friday night to school-sponsored movies.

Looking toward the coming year, all members of the Society plan to participate in Dedication day. Robert Nuss, president, had this to say about the future of the Cardinal Key society: "I think a successful year is ahead. Interest in the organization, as well as the attitude of the members as a whole, is steadily improving."

It was decided on October 7, 1957 by a vote of 20-1, that the Society remain open strictly to male students. This conclusion was formulated for two reasons. First, a consensus felt that a few

# Joe College Answers Coed

Dear Claudia,

I was so glad to hear from you in the last issue of the **WEEKLY.** I had been wondering when you were going to get around to writing me a few lines.

I can't fully express how much it has meant for me to have you around in the few weeks we have been on campus. The chapel dates, lunch dates, library dates, and in-beween-classes dates have been lots of fun, and I've also enjoyed very much the few minutes we spend together in the Student center lounge after dinner listening to **Hula Love** or some other modern classics playing in the juke-box.

Now that I mention dinner, I hope you will watch your girlish figure against Harry's "starch-free" diets. Word is around that Harry has a contract with Barnum and Bailey and he is supposed to keep them supplied with fat ladies, so be very careful. I'd sure hate to see you end up in the midway of the Allentown Fair!

I've seen a lot of our mutual friends lately and they have all asked me to give you their best regards. By the way, did you know that **Norma Dias** has a special lease on one of the booths at the Snack bar? She has a partnership with **Jane Creveling** and **Ida Diaz,** and that way when one of them is in class, the others keep an eye on it.

**Ray Ueberroth** and **Marjie Williams** were recently nominated King and Queen of the Evening Meal. You know, this royalty business is the latest thing on campus. We are even going to have a Football Queen and everything. That's something really new; we never had a Football Queen before!!

A few days ago on my way to chapel I met **Janice Merritt.** She had been doing a little hazing here and there and said she was having a lot of fun, but it seems like a few "conferences" with the Dean of Women since have given her a completely new outlook on the whole business of "regs".

**The two Barbaras—Osborn and Lindsay**—may be the stars of our next Campus Talent Show. They have been working on some variety act and plan to go on stage under the name **"Dodie and Alice —Comedy Team."**

Since the last time we went to

(Continued on Page Six)

**All organizations wishing to use the Student center for meetings, must first check with the Dean's office, and must then check with Gabriel Spector.**

# Student Opinion: Letters To The Editor

To the Editor:

Last week a letter appeared in the **WEEKLY** criticizing my feature story of the October 3rd issue. In reading that letter, I found one of two things to be evident—either Mr. George missed the point completely, or chose to miss the point intentionally. Which of these alternatives is correct concerns me very little. Nor does it concern me whether Mr. George is ashamed to admit that he is a Muhlenberg man.

However, there is one statement in that letter which I would like to dispute. After stating his belief in freedom of the press and giving some fine definitions of reporting, he makes this statement: "If it is not a majority opinion of the men, it can only be a personal theory and as such has no right to appear in the **WEEKLY** as it has."

First, the article appeared on the **Feature** page with my name attached. It was not intended to be straight reporting, and there was no attempt to make it pass as such. I assumed that any college student would be able to determine this for himself. Second, it **did** contain personal opinion, as all such articles must. But this is no reason that it should not be printed in the **WEEKLY,** whether it coincides with public opinion or not. Where is your freedom of the press if one is not free to write the way he wishes? A newspaper without personal opinion would be a sterile one, and I doubt whether anyone would look forward to getting their copy of such a publication.

There are undoubtedly many valid criticisms of my story, but unfortunately Mr. George has succeeded in producing none of them..

(Signed) Earl Knies

---

To the Editor:

When reading your editorial dealing with the Freshman Tribunal which appeared in a recent edition of the the **WEEKLY,** I was in complete agreement with you, but upon further reflection, I have come to the conclusion that your editorial was completely misdirected.

In every one of the points which you made against the Tribunal, one fact becomes quite apparent to the reader—the failure of the Student council. First of all, you point out that the Tribunal "has not operated efficiently nor has it operated in the best interests of Muhlenberg college." Who has been responsible for allowing this situation to exist and who is responsible to see that such an organization does operate in the best interests of the College? The Student council. Next, you point out that the Tribunal is "completely disorganized" and that when the freshmen first met the Tribunal that upperclassmen were allowed to remain and the agreement with the Personnel Deans was completely disregarded. Members of the Student council were present at this meeting and they, too, were aware of the agreement with Personnel Deans. Why did they not take action and see that some semblance of order and adherence to such an agreement was kept? You also state that "many members of Tribunal are incompetent." Why has Student council not acted on this point? Three years ago when one of the members of Tribunal was thought to be incompetent Student council took immediate action to replace this individual and did not wait until the editor of the **WEEKLY** pointed out the need for such action in an editorial.

It would seem to me after examining these obvious facts that the Tribunal should not be the one to be criticized but that the Student council should have been the subject of your editorial for it is guilty of every one of the charges which you have leveled against the Tribunal, and it, not the Tribunal, is the one who is to set the example. How can you with a clear conscience criticize the Tribunal for its policy of action and behavior when it is faithfully following the policy of action and behavior set by its superior, Student council.

Respectfully yours,
(Signed) Melvin L. Rea

To the Editor:

In last week's issue of the **WEEKLY,** you published an article by Mr. Kinter, in which he stated a purpose of the Muhlenberg Christian association. I am in total agreement with his article, but MCA does stand for other interests than intellectual pursuits.

The MCA is equivalent to the YMCA's on other campuses. On campuses with which I am familiar, this is one of the top organizations. This has been brought about by the wide selection of activities which appeal to the majority of the student body. They do not delve entirely into the intellectual discussions that are far above the average student. In the past MCA has appealed to a "select" group only. However, this is an organization designed for the entire campus by virtue of the fact that each student contributes to its support.

It is my hope that in the future MCA will sponsor such activities as weekend retreats, bring speakers to the campus **that will have a definite message for the students,** and that the discussions that are carried on at general MCA meetings will be of enough interest that a greater percentage of the students will participate.

Respectfully yours,
Richard Stephan
Vice-president
Muhlenberg Christian Asso.

# Greek Way...

by Burt Eisenbud

**ALPHA MU IOTA**

This past weekend was a busy one. Much effort and time was spent in painting, varnishing, and landscaping in order to get the house in tip top shape for the homecoming weekend. Our two new pledges, Barry Weisman and Steve Syres gave the brothers a big hand in accomplishing the work. The Homecoming houseparty, planned by Brother Lichtenthal should be a big success. The theme is Hallow'en Fair with the dress and entertainment planned accordingly. Brother Kern has planned some unusual skits and a five piece band has been engaged. One of the band members is Harris Brody, a former student of Muhlenberg and pledge of AMI who has transferred to the Manhattan School of Music. Several contests should add to the fun of the party. We hope to have presented our newly acquired animal, namely a boa-constrictor, to the science department by this time. It was acquired from an Allentown resident by Brothers Levy, Rothfeld, and Handelman, who figured it was something for nothing.

**ALPHA TAU OMEGA**

A committee selected the name Cerberus for our new mascot. He is named after the mythological dog that guarded the gates of Hades. We're wondering if this name was appropriate since the dog sleeps all day long. He should probably be called Morpheus. The social committee has planned a gala homecoming weekend. The dance, the football game, and the party at the Willows on Saturday night should keep everyone busy. It was our pleasure to have Miss Heimtraut Dietrich as our guest for dinner Monday evening. The brotherhood was pleased to hear the news about the story which will appear in Life magazine on co-education.

**LAMBDA CHI ALPHA**

The house would like to congratulate new pledges Ken Mealing, Ken Mosier, Bob Pearsons, Roger Ludwig, Pete Kelting, Charlie Jeuell, Russ Hibbets, Ralph Borneman, John Young, and Glenn Johns. Ed Thieler has turned in two commendable performances for the Berg cross country squad. Brother Gorden Warner started in the soccer game on Saturday and seems to be doing pretty well at his first attempt. Lambda Chi alumni are expected to return in full force this Saturday. There will be a buffet supper at the house immediately following the Lebanon Valley football game.

**PHI EPSILON PI**

All excursions this past weekend by the brotherhood turned out successfully. We had representatives at Syracuse, Trenton, and Penn State. Congratulations to the Big Red on their last victories. Let's carry thru for Homecoming and the rest of the season. A few of the brothers have started their own "Let's stop smoking campaign" with $30 going to the one who can hold out the longest. This coming weekend should be one of the best ever according to the number of graduates who plan on coming in.

**PHI KAPPA TAU**

The brothers are in the midst of preparations for a houseparty this weekend to be held at Heffner's barn. Also on the agenda for this weekend is a party for the coeds. John Holcroft did a good job at the soccer game on Saturday by scoring the only point against Lehigh. Just lately, the fraternity football team scrimmaged, the results were rather promising. The men hope to go for in the intra-murals this year. House mascot, Rusty the cocker spaniel has made himself known all over campus, particularly at football games. He seems to have an obsession for making new friends.

# 'Round Campus

**Thursday, October 17**

**At 8:00 p.m., Dr. Rodney Ring will speak to Alpha Kappa Alpha honorary philosophy fraternity, on the subject of "The Approach to Truth at the Time of Christ." The meeting will be held at Dr. Stine's home at 2116 Allen street.**

**Friday, October 18**

In Memorial hall, starting at 9:00 p.m., the annual Homecoming dance will be held. The Homecoming queen and her court will be present.

**Saturday, October 19**

**This is Homecoming day and we have a full schedule of sports. The first event will be the football game with Lebanon Valley at 1:30.** At 2:00, the soccer team will play host to Stevens Trade and at 3:30, the cross country runners will start at Juniata.

**Monday, October 21**

**Der Deutsche Verein will meet at 7:30 in the Student center.**

**Tuesday, October 22**

At 4:15, the Muhlenberg Christian association will meet in the MCA room to hear a talk given by Dr. Rufus Cornelson.

# Will This Happen Again?

# From Here And There

by Stanley W. Heim and R. Schlunk

*(The purpose of this column is simply to offer our comments and opinions on bits of information, events, ideas, problems, etc., that we feel pertain to the student body of Muhlenberg college. It is in no way our intent to become scholarly, abstract, or abstruse. We think it is important, rather, to be practical and concise).*

"The Sin We Have Committed in Lowering Our Parents and Teachers . . . "

Two weeks ago, an article entitled "The City That Saved Itself" appeared in the **New York Times.** It was sponsored by the Jewish Theological seminary of America. The message continued that "this error becomes increasingly acute as the blessings of our time increase."

We are all weary of hearing the phrase, "How lucky we are to be in college!" So often have we heard this that most of us have forgotten the significance . . . and truth of this statement. We are here mostly through the sacrifices of our parents—a fact many of us often overlook. The point is that more of **everything** is available to our generation than to any other in history, and that these opportunities are in part, at least, a result of our parents' efforts. And yet, in view of all our blessings, has our appreciation and respect for our parents kept pace with their provisions for us? How often do we resent or reject their guidance which we regard often as "parental tyranny"! Do we ever attempt to understand this? And yet how different this is in so-called "backward" countries.

More pertinent to us, probably, is the phrase, "lowering our teachers." Regarding this, it is important for us to remember that these men, of their own volition, have chosen to help us better ourselves in every respect. In all other countries of the world the teacher is regarded as one of the most, if not the most, important and respected members of the community. How opposite this seems to

(Continued on Page Six)

# THE CAMPUS Whirlpool

by Dick Kennedy

What will be the outcome of the flu? Now that practically the whole campus has come down with some kind of ailment or another—will we do as our neighboring schools, Lehigh, Lafayette, and Moravian have done? Chances of this are unlikely. According to Dr. Weaber, it would not be practical to close. So, those who have been hoping for vacation and have left their books on the shelves had better crack them again.

Students who had the opportunity to have been photographed by **Life** magazine will probably see themselves on those pages. Muhlenberg has definitely hit the nation. **On October 21, Life will carry a full five-page spread about our own campus.**

Some of the coeds in West hall have come up with a dandy method of communication. One ingenious miss thought that it was too much trouble to walk one flight of stairs, so she rigged up a dumbwaiter-type wire from her window to the one above. When one wishes to send a message, she merely bangs on the pipes and the contraption is hauled up. If it has come to this, maybe with a little persuasion, the school will provide **an inter-com system for the girls.**

AMI is mourning the absence of their boa-constrictor. One evening, a boy called up, asked the brothers if they wanted a boa-constrictor, they said yes, and the boy brought it to them. In kindness for the poor creature, they went downtown, bought a live mouse, fed it to him. However, the mouse was hardly enough to whet its appetite, so the brothers **presented it to the science department where it casually ate three professors** and Byron.

Bob Schumacher's parents thought that Slats just might get hungry over the weekend, so, when they came up for Mopsy day, they brought him six dozen eggs! Not only that, but every last one of them was broken. Everyone laughed. They had another think coming though, because by Monday morning, there was only one dozen left.

May we recommend that a time clock be put into West hall for those who spend an eight hour day! In particular, we are thinking of **Glenn Davis whom many have mistaken for the maintenance man** because he's there so much.

# Little Mules Ready For Initial Contest With Hofstra Dutchmen

**BRING ON THE DUTCHMEN—A determined looking group of Mule freshman football players pose in the positions they will probably fill when they meet Hofstra college in their opening game tomorrow afternoon. They are (from left to right): Bob Patterson, Craig Moyer, Ed Callahan, Marty Renshaw, Arnold Hoverman, Fred Schwenk, and Vince Rosso in the line. The backfield men are: Tom Wargo (62), Bob Butz (58), Paul Miller (96), and Sal Messina.**

The Cardinal and Gray freshman football team will open their four game schedule tomorrow afternoon with Hofstra at Hempstead, L.I. During the past week coach Milo Sewards made final preparations with his 32-man team for this opening encounter. The nucleus of the team is made up of Lehigh valley area players, namely: fullback Ed Yost, halfbacks Paul Kraynak and Joe Stupak, guard Gerry Havilla and centers Frank Gergits and Ross Ramsey. From Northampton are tackles Paul Miller, Craig Moyer and end Frank Ifkovits. From Palmerton are center Marty Renshaw and quarterback Tom Wargo. Other area players are Bob Neitz, Emmaus; Bob Butz, Bangor; Bob Dolan, Bethlehem; and Merle Wolfe, Lehighton.

Other members of the team include Joe Rillger, Vince Rosso, Bob Patterson, Bob Olson, Phil Ehrig, Paul Barnett, Fred Schwenk, Dick Moran, Arnold Hoberman, Will Weber, Ed Callahan, Cy Ohnmachd, Bill Meyers, Frank Ike, Bob Glassmeyer, Sal Mesina, and Jim Hoffert.

**Dutchmen Win Opener**

The Flying Dutchmen already have one win under their belts. They took a decision from the

(Continued on Page Six)

## Cross Country Squad Drops Second Meet

Elizabethtown handed Muhlenberg its second straight loss in Cross Country last Wednesday at Cedar Park, the meet ending in a 25-31 defeat.

The opposing team took the first two places to account for the margin of victory. Bernard Thome placed first covering the 4.6 miles course in 24 minutes, 9 seconds.

Runners up were Glen Bruckhart (E) and Ed Thieler (M) placing second and third respectively. Other finishers were fourth, Pierce Knauss (M); fifth, Hellman Baer (E); sixth, Bob Voorhees (M); seventh, Ron Dungan (M); eighth, Donald Shirk (E); ninth—Donald Hosler (E); and tenth, Dick Lewis, (M).

# Sport Magazine Blasts Actions Of Patterson

It's an unflattering picture that's painted of Gus D'Amato, manager of heavyweight champion Floyd Patterson, in the current issue of Sport Magazine.

The magazine article raises a cynical eyebrow at D'Amato's insistence that he always acts in the best interests of boxing. Sport recalls that before Floyd beat Jackson in their first bout in June, 1956, D'Amato took some fights for his boy "for which both should have been arrested. Floyd fought Alvin (Athos) Williams in Kansas City. Patterson had beaten Williams twice before, but this did not keep D'Amato from making the match again. Patterson knocked out his man.

"Some weeks earlier," Sport points out for further evidence, "Floyd fought Jimmy Walls in New Britain, Connecticut, an unsuspecting industrial town. Walls had not won a fight in two years. Patterson knocked him out in two rounds. Walls was suspended by the Connecticut State Athletic Commission for ineptitude in the ring."

For a more recent example of D'Amato's "interest" in boxing, Sport points at the match with Rademacher, "Not even a professional. He was, at best, an ancient amateur, seven years Patterson's senior."

Sport goes on to say that D'Amato is "the heavyweight champion of all Svengalis," and that incudes Al Weill, and, for the present anyway, Patterson is very willing to play Trilby.

"D'Amato regards Patterson," says Sport, "as his own special product. He resents any insinuation that he had not molded a perfect fighter. Once, when both Sugar Ray Robinson and Patterson were training at Greenwood Lake, either Robinson or his trainer, George Gainford, suggested to Patterson that he throw a punch differently from the way he had been tossing it. When D'Amato heard of this, he confronted both Gainford and Robinson.

" 'Keep away from my fighter, and stop telling him how to fight,' D'Amato warned them. ' I don't want him picking up any of your bad ring habits, Robinson. I'll tell my fighter anything he needs to know, and nobody else is going to do it. He's my fighter, understand?' "

# *Stout Defense, Fine Blocking Bring 6-0 Verdict Over Royals*

**by Ben Livingood**

Muhlenberg staged its finest defensive display of the season as it stopped a powerful Scranton university eleven, 6-0, last Saturday afternoon before some 3500 Mopsy day fans at Muhlenberg field. The Mules stamped out every scoring attempt the visitors made, stopping the Royals on the one-yard line at the outset of the second quarter.

(Photo by Owen Faut)

**OPEN SPACES—Herb Owens, fast-moving Muhlenberg halfback races past Scranton university defenders for a 25-yard gain. In addition to this run, Owens scored the Mules' lone and winning touchdown in last Saturday's game. For his outstanding play in this contest the sophomore star was given honorable mention on the ECAC team of the week.**

Herb Owens was the game's lone scorer. The swift and shifty sophomore halfback set the crowd screaming in the opening moments of the second half, when he raced 35 yards for the winning touchdown. With the exception of the run by Owens, the contest was a bitterly fought defensive battle.

The Mules demonstrated the most outstanding defensive maneuver of the game in the opening moments of the second quarter, when they halted the only serious scoring threat posed by the Royal offense throughout the game.

Late in the first quarter, Scranton took possession of the ball on their own 34 and in 12 plays moved to the Muhlenberg 5-yard line. It was first down and goal-to-go at that point with only seconds in the first period.

**Goal Line Stand**

On first down, halfback Walt Perih took a handoff from his quarterback, Ed Zilenski, and smashed through the right side of his line to the two before Bob Hieter brought him down. On second down, Zilenski handed to his fullback, Ned Panfile, but once again the alert Hieter was there and this time wrapped up the ball carrier for a one-yard loss.

That was the end of the first quarter, and the action moved to the opposite end of the field.

The Royal offense did not find the change of scenery to be helpful, however, for on third down when Joe Belluci, Scranton left half, tried to find an opening in the left side of his line he ran head on into the Mules' Clair Miller on the one-yard line. As a desperation attempt, Perih tried to make it around right end on a pitch-out from Zilenski, but Art Wright moved up from the Mule secondary to spill the 185-pound senior one yard short of the goal line. The closest the Royals came to paydirt from that point on was late in the third period, when they moved to the Mule 31 and lost the ball on a fumble.

**Second Half**

Owen's sensational touchdown run came with only a little more than three minutes gone in the second half. The Mules kicked off to Scranton to open the half. However, the Royals were stalled on their own 38, and on fourth down Frank Dwornikoski punted. Roger Keehn grabbed off the punt on about his 20, broke out into the open on an outstanding block by Paul Whitcraft, and raced to the Scranton 35 with the help of sparkling interference on the part of his teammtes.

On the next play Owens took the handoff and started around right end. He cut back through a gaping hole in the Scranton forward wall, weaved his way through the secondary defense, shaking off three of four would-be tacklers in the process, and streaked into the end zone for the score. In so doing, he scored his third consecutive Muhlenberg touchdown.

Jim Nonnemaker's conversion for the extra point missed the mark, but it mattered little as Bergmen successfully thwarted every Scranton scoring attempt for the remainder of the game.

The win was the second for Muhlenberg in three starts, while

(Continued on Page Six)

# Basketball Team Begins Pre-Season Scrimmage

**by Bob Nuss**

So you think it's football season? Well, if you happen to pass through Memorial hall any afternoon between 4:00 and 5:00, you'll probably see something that might change your mind, if not completely disillusion you.

The basketball court is buzzing with activity these days, as coach Birney Crum is beginning one of the biggest rebuilding campaigns in Muhlenberg basketball history. Crum has only one returning regular starter from last year's squad in senior Clint Jeffries.

**Outstanding Player**

Jeffries was named a pre-season selection for the All-East team by Dell Sports magazine. The 6' 2" star is unquestionably the nucleus of the comparatively green squad. Last year he collected a total of 302 rebounds and averaged 14.8 points per game at a shooting average of 44.6%. For his outstanding play in the Penn Palestra against St. Joseph's last year, Jeffries was selected as the most outstanding visiting player to appear on that court throughout the season.

Also returning from last season's varsity team are seniors Dick MacLaughlin, and Bill Dissinger, and juniors Mel Kessler, Steve Matell, and Charlie Hofman. Up from last year's freshman team are Joel Sarner, Joe Berghold, Dick Sekunda, Herb Loeffler, and Don Robbins.

However, the varsity candidates are not the only ones you'll see on the Memorial hall hardwoods these days. For at one end of the court, you can observe Coach Dick Schmidt whipping some 15 freshmen basketball candidates into shape.

Once again, it appears as if the Muhlenberg freshman team will be well supplied with height. Rich Brennan, 6' 7", from Long Island; Ron Druckenmiller, 6' 5", from Kutztown, Pa.; and Brady Nienstal, 6' 10", from Cambridge, N.Y., are some of the taller members of the squad. The freshman group boasts ten men of 6' or over.

# Mules Seek Third Straight Against Lebanon Valley

Lebanon Valley brings an experienced squad to Berg in an attempt to gain their second victory of the year. Ellis McCracken's Dutchmen won their opener by crushing Wilkes 21-0, but were edged out by Upsala, 14 to 7 last week. Coach McCracken will be seeking his first victory against the Mules since he took over the helm four years ago.

The Dutchmen will be headed by co-captain Dick Smith from Carlisle, Penna. Smith, a 205 pound senior, has gained 117 yards in 21 tries, an average of better than 5.6 yards per carry. Joe Toy, guard and co-captain, will not be able to play due to an injury suffered earlier in the season.

**Veteran Line**

The blue and white will probably start with seniors Bob Longenecker, and Jack Lambert, at the ends; Ken Longenecker, a 6' 4", 300 pound giant at left tackle and Tom Kunkle, a 220 pound junior at right tackle; Ron Weinel and Karl Wesolowski (replacing the injured Joe Toy) at the guard spots with Neil Aharrah, 210 pound junior at center. The line averages 207 pounds with each starter having earned at least one letter.

The backfield will start with junior Bill DeLiberty at quarterback and Slezasky and LeGay at the halfbacks, along with Smith at foolback. Also seeing action is a freshman halfback, who has scored twelve points thus far, to lead the team in that department. Reserve quarterback Frank Giovinazzo will also be called upon to call the signals. DeLiberty has completed seven passes in fourteen attempts for 55 yards to lead the team in passing.

Muhlenberg has won 17 games, lost 13, and tied one in a series that dates back to 1900. The Dutchmen lost to the Mules by a 14-7 score last year at Annville. They will also seek to improve on the 1-8 record they compiled last year.

After they tackle the Mules the blue and white take on Moravian, Drexel, Albright, Ursinus, and finish the season with Pennsylvania Military college.

# Juniata Harriers Host Victory Hungry Berg

On Saturday, October 19, the Muhlenberg Cross Country team will journey to Huntingdon, Pennsylvania where they will endeavor to avenge a 21-38 loss which they suffered at the hands of the Harriers of Juniata college last year.

The Indians, who last year earned victories over Elizabethtown, and Albright in addition to Muhlenberg, while bowing only to Franklin and Marshall college, figure to be just as strong this year, having lost only one man from their squad. Coach Mike Snyder can count on six lettermen and three promising freshmen to help fill the gap left by the departure of last season's number one man, Herb Layman.

The returning lettermen are Herb Deuchar, Chuck Brown, Frank Hrach, John Pettit, Joe Seneft, and Bill Lase. The frosh candidates are Alan King, Chalmers Billwing, and Don Layman, brother of last season's star.

# Booters Lose Opener; Holcroft Scores Goal

Last Friday, at Steel field, Bethlehem, the Muhlenberg soccer team lost its opening contest to a strong Lehigh squad, 3-1.

Fred Stuckey paved the way for the engineers, accounting for two of their goals. John Holcroft put the Mules in the lead by breaking into the scoring column in the first period. But Lehigh came back strong with two goals in the second quarter and thereby put down the Berg threat.

The second half was played on even terms, with neither team scoring.

| Pos. | Lehigh | Muhlenberg |
|---|---|---|
| G | Rach | Gray |
| RB | Brooks | Balliet |
| LB | Schlosser | Vollmer |
| RH | Serfass | Troyer |
| CH | Newkirk | Ritter |
| LH | Forrester | Warner |
| OR | Brodbeck | Dreskin |
| IR | Stucky | Holcroft |
| CF | Segal | Loewe |
| IL | Bayer | Csaszar |
| OL | Sawyer | Schirmacher |

Score by periods:

| | | | | | |
|---|---|---|---|---|---|
| Lehigh | 1 | 2 | 0 | 0 | —3 |
| Muhlenberg | 1 | 0 | 0 | 0 | —1 |

Scoring, Lehigh: Stucky 2; Newkirk. Scoring, Muhlenberg: Holcroft.

Substitutions, Lehigh: Bay, Garfield, Godin, Salamon. Muhlenberg: Waller, Stosser, Lousch.

## M Club Eligibility

**Any man who has earned a letter for participation in any varsity sport, is eligible for admission to the M-club. Those lettermen desirous of joining this organization are urged to contact one of the following men: Joe Federico, Bill Carty, Paul Whitcraft or Roger Keehn.**

## PEP Club

**All students wishing to join a PEP club should meet with the cheerleaders in the Science auditorium, Wednesday, October 23, at 3:15 p.m. The purpose of the club will be to encourage spirit for the school.**

## Balliet, Wright Add Talents To Berg Teams

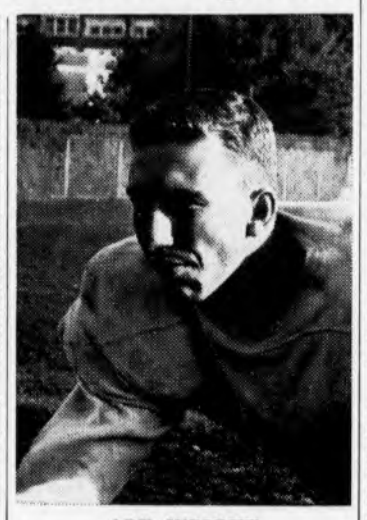
JAMES BALLIET

James Balliet is now playing his final season for the Muhlenberg soccer team, after being one of the major cogs in the Mules line-up for the past two years.

Jim is a graduate of Palasides High school Pa., where he was active in sports and student government. He was class president during his sophomore, junior, and senior year of school, and was also a member of Student council for three years, serving as vice-president for one year.

A member of the senior class, Jim is majoring in history and political science and would someday like to attend Law school. He is a member of the M-club and is active in Intramural sports at Muhlenberg.

Balliet has won two letters in soccer here at Berg, and is the Mules' number one full-back. He has hopes for a good season, because spirits are high even though the team in general is inexperienced.



ART WRIGHT

A senior, Art Wright is beginning his second season at quarterback for the Mules, and is looking forward to a successful campaign.

Art is a graduate of Abington High school, where he participated in basketball, baseball, and football. He was also a member of the Student council.

This 5' 11", 175 lb. quarterback, won a letter last year and also led the Mules in scoring. He has proven himself as a very dependable defensive and offensive ball player.

Wright entered Muhlenberg in 1955, as a sophomore, after transferring from Penn State. Here, he is a member of the M-club, Business and Economics club, and is active in Intramural sports. After graduation, Art plans to enter some field of the business world.

Art is very optimistic about this year's football team. He thinks that barring injuries and sickness, the Mules have the personnel to go undefeated for the rest of the season.

# Soccer Team Loses Second Engagement

Muhlenberg College's Soccer team lost its second game of the season yesterday losing to a strong Franklin and Marshall team, 5-0.

Jerry Quinn, center forward and Jerry Husted outside right for the Diplomats led the scoring with two goals apiece.

**First Goal**

The first scoring came at the beginning of the second quarter when Quinn booted one with one and one-half minutes gone. Joe Nolt quickly added another thirty-five seconds later.

Quinn added another in the second period and Husted added two more near the end of the game.

**Shortage of Players**

Berg having lost some of its players due to the presence of the influenza and sickness put up a good fight to a team that has beaten a very good Haverford College this season.

A serious blow was dealt the team when late in the last quarter Ron Ritter was felled by an old knee injury. It was not determined whether he will be able to play in the remainder of the games.

The Mules hurt by the loss of Frank Czascar are expected to do a lot better as the season progresses. He and John Holcroft make a fine forward combination, and along with such players as Jim Balliet, Bob Leighton, Bill Lowe, Sandy Dreskin, and Harvey March, the team should fare well in the remainder of their eight game schedule.

# Senger Finishes First In Tri-City Golf Open

Dave Senger, a senior at Muhlenberg college and captain of the golf team, recently won the Tri-City open Golf tournament held at Allentown Municipal Golf course.

Youth stole the show as the 21-yr.-old Senger finished first with a score of 300 for 72 holes, and 20-year-old Tom Volko of Moravian finished second with a score of 305. Senger shot a 77 final round to reach his total of 300. This was eight strokes over par. Volko ended with an 80 for 305.

Senger led with a 149 after 36 holes and held his advanage for the remaining part of the tournament. His card showed a 77-72-74-77.

**Challenger**

The person with the best chance of catching Senger was Chuck Mehi of Brookside who finished at 307. However, Mehi blew his chance in a sand trap on the third green where he required seven strokes to hole out. Following this incident, Dave coasted in, playing what Municipal golf pro John Shorey called "cozy" golf.

Here at Berg, Senger has been playing golf for the past three years. Last year he played in either the first or second position on the Muhlenberg links team, and turned in some very respectable scores.

# Alumni Weekend

(Continued from Page One)

Immediately after the luncheon, the alumni and their families are invited to attend the football game with Lebanon valley at 1:30 p.m. The young Muhlenberg college football team will be attempting their third consecutive victory of the season, having lost their first game before winning the next two. The Queen of Homecoming and her court will also be present at the game.

**Reception for Alumni**

Following the football game, there is to be a reception for the alumni and their families and the faculty in the newly furnished Student center, at which time coffee and doughnuts will be served. "Haps" Benfer will serve as host for the reception, and accordingly will welcome and introduce alumni and faculty.

The newly renovated West hall, which serves as a good example of the capable remodeling necessary in preparation for the advent of co-education, will be open on Saturday for public inspection. All alumni, faculty, staff, and students are invited to attend the open-house. At the same time, another feature of the new Muhlenberg will be on display, the addition to the men's dormitory of East hall, dedicated Martin Luther hall. The open-house is scheduled for all day on Saturday and it is the hope of the Administration that the alumni and all parties interested will take advantage of this opportunity to inquire about and inspect the latest development in Muhlenberg's building program.

For the evening there are plans, by the respective fraternities, to hold an evening meal, at which time dinners and buffet suppers will be the order of the day, with various parties to entertain the alumni later in the evening.

# Frosh Gridders

(Continued from Page Four)

Long Island Aggies last Saturday night in their opening game, 26-6. Halfback Bill Stetson appears to be the man the little Mules must stop. Against the L. I. Aggies he scored twice on a 56-yard pass (the opening play of the game) and a 62-yard run. The Dutchman also sport another fine back, Bill Kolb. He kicks the extra points and picks up the solid yardage on the inside. In the opening game Kolb sprung loose for a ten-yard touchdown jaunt through center.

Muhlenberg will be helped by the fact that Hofstra has a weak bench, but will still have to hustle to stage a good showing in their first game of the year.

## Color Guard

**Anyone interested in joining the Color Guard should see Hal Zell in room 251 Martin Luther hall. Members of the Color Guard receive the same benefits as band members.**

# Rude Intruder

(Continued from Page Two)

we all have our clothes on. Are we all ready now? Here we go."

SNAP! SNAP! SNAP!

"What's wrong with this cotton pickin' camera!"

SNAP! SNAP! SNAP!

"Hang it all!"

The group grew tense, for the class hour was coming to a close. Raven completed his assignment and went to the head of the class. With an almost pathetic gaze, he reminisced. "Youse don't know how lucky you are. Dis is what I need—an education. Look at me. See dis job I've got. With a couple years of college, I could be takin' real big pictures—like boxing shots, and pictures o' the president, and pictures of earth satellite. Now, all I can do is stuff like dis. Yeah, youse lucky kids." And with this, Raven bid his adieu.

The class still didn't realize exactly what happened, but Dean returned to his chair in the rear and the good Doc continued his lecture as though nothing had happened. And nothing had. Raven had forgotten to put film in his camera!

. . . And it wasn't even in the paper.

# Newman Club

(Continued from Page One)

Jung from St. Catherine of Sienna of Allentown.

Under the direction of their faculty adviser, Mr. Kinter, the club strives to achieve things in the pattern of their three-fold program. These include: doctrine, educational, and social, the first having the most importance.

Later in the year the club will hold discussions, study groups, or invite speakers for proposed topics such as the growth and development of Mass, the Miracles of Our Lady (e.g. Fatima) and other subjects interesting to the club.

# Dedication Ceremony

(Continued from Page One)

The Dedication Day ceremonies serve a two-fold purpose. First, to dedicate the unnamed buildings and secondly, to inaugurate co-education at the 109 year-old institution of the sciences and liberal arts.

# The Chowline

Many additions have been added to the Snack bar menu, including the wonderful addition of pizza pie. These treats are available throughout the day and serve as excellent snacks during that evening break. The tomato and cheese delights come in two sizes; the small pie runs for forty cents, while the larger one sells for seventy-five cents. These pies should really be consumed with a strong beverage, so why not try a tall cherry coke with it? It will only cost you an extra dime. (I guess I forgot the juke box again.)

The personnel of the Snack bar have several requests to make of the student body. The first request is that you do not remove the sugar, cream, catsup, and salt and pepper to the tables and booths, but rather leave them at the counter. During rush periods the articles become scarce and needless searching can be eliminated with your cooperation. Also, kindly return your used dishes to the counter when you are finished. This consideration will be appreciated not only by those individuals occupying your recently vacated chair, but by the girls as well. Commuters should possess enough consideration to return their dishes to the counter from the commuter's room, thereby relieving the janitor of one extra duty.

I guess I had better call a halt to the lecture, so I will adjourn to the Snack bar to see Myrtle.

**Adv.**

# Cardinal Key Society Purpose Explained

(Continued from Page Two)

organizations on campus should include only males; this is the case in many co-educational schools, such as Cornell university and the University of Delaware. Another opinion was, that women would be unable to devote several week-end hours to this work.

The construction of the official ensignia is a cardinal-colored key on a white background with a grey "M" for Muhlenberg. This is displayed on the arm band worn while the members are in action.

# Joe College Speaks

(Continued on Page Two)

chapel together, a new type of on-campus date has developed. It's called the let's get-our flue-shots-together date. From what I hear, it must be great fun, so if you aren't doing anything special after your 1:15 on Monday, I'll meet you under the Arcade.

Well, so long for now. Be a good girl and don't forget to sign in and out!

Love,
(Signed) Joe College

# Parking Regulations

(Continued from Page One)

$2.00, third offense—$5.00. After the third offense additional penalties will be imposed.

Reckless driving on campus is prohibited. Offenders are subject to a $15.00 fine.

All fines are payable at the Treasurer's office within 48 hours of receipt of the bill for the fine.

# Mules Win 6-0

(Continued from Page Four)

for the Royals, it was their second consecutive loss after a 20-0 opening victory over Albright.

As a result of their outstanding play throughout the game, Bob Hieter and Herb Owens were named to the Eastern Collegiate Athletic Conference (ECAC) all-star team of the week. Hieter was named first string tackle and Owens received honorable mention. In so doing they became the second and third Mule gridmen to receive the honor in the past two weeks. Ken Hendricks, sophomore end, was awared first string end honors for his sparkling show in the Albright game one week ago.

# Here And There

(Continued from Page Three)

be in America—from our experience! As the article also says, "We will remember that wisdom builds the house, and that the teacher is the guardian of the city."

In closing, we feel that the statements which we have quoted are food enough for thought. They need no elaboration.

## Sociology Club Meeting

**The Sociological society will present a panel discussion on the "Social Effects of Co-Education at Muhlenberg". All are invited to attend.**

**TIME: 7:30 p.m.**

**DATE: Wednesday, October 23**

**PLACE: Commuters lounge, West hall.**

# . . . Student Council Report . . .

October 10, 1957

The regular meeting of the Muhlenberg college Student council was caled to order at 7:02 p.m. by vice-president Dennis Gurski. Mr. Torres and Mr. Ueberroth were absent because of illness.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $ 773.93 |
| Social fund | 242.86 |
| Assembly fund | 786.52 |
| | $1,803.31 |

**COMMITTEE REPORTS:—**

Athletic:—Mr. Vari reported that the beginning date for intramurals had been postponed because of the great number of students that were sick.

Assembly:—Mr. Skweir reported that Mr. Fred Waring would be at Muhlenberg for a jazz concert on October 23. He also stated that Matt Gillespie's orchestra had been obtained for the Soph-Frosh Hop.

Miss Kuntzleman reported on the rules adopted by the Women's Dorm council. They have been published in the current issue of the **WEEKLY.**

**OLD BUSINESS:—**

The following schedule was given for Freshman events:

October 14—Pushball game.

October 17—Tug of War

October 23—Volley ball game (Coeds only)

Mr. Leighton moved and Mr. Schellenberg seconded a motion to accept the above list. Motion carried.

The election for a Homecoming Queen was announced. It will be held in the Student center tomorrow from 9 a.m. to 4 p.m. and will be under the direction of Student council.

It was again announced that **no organization is to have any form of meeting in the Student center lounge without the expressed approval of both the Dean of Men and Mr. Spector.**

**NEW BUSINESS:—**

On motion by Mr. Markoe and Mr. Becker, the Student council will recommend to the Administration that the name of the Women's Dormitory be kept as "West hall."

Mr. Gurski suggested that the Student council minutes be posted in the Student council bulletin board for the students to read and inspect.

On motion by Mr. Skweir and Mr. Spector, the meeting was adjourned at 7:35 p.m.

Respectfully submitted,
JOSEPH BECKER,
Secretary Pro-tem

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., October 24, 1957 | A. C. P. Rating | No. 5

## Seegers Honored By Wagner At College's 75th Anniversary

Dr. J. Conrad Seegers, Muhlenberg college president, speaker at the Founders Day celebration of the Diamond Jubilee of Wagner college, Staten Island, New York, on October 15, was presented with an honorary doctorate, that of humane letters, during the program.

Dr. J. Conrad Seegers

Presentation was made by Dr. Frederick Sutter, Wagner board of trustees president for 40 years. The degree was conferred by President David Delo of the college.

In his talk on "Three Quarters of a Century of Useful Service," Dr. Seegers congratulated the Muhlenberg "sister college" on its service and stature. He declared it was a truism to say that no one may be content with the past, however glorious.

**Self Examination**

"Part of the challenge of the present," Dr. Seegers told the assemblage, "is to examine ourselves constantly, with honest appraisal, to see if our pronounced purposes are actually translated into practice."

"Another challenge of the present derives from the very nature of our times," the speaker continued, saying: "He must indeed be an insulated individual who does not see change in this generation, or a very calm and serene individual if he does not see in this change the possibility of chaos. This danger of chaos is proof positive of the importance of the right kind of education."

**Keeping Our Perspective**

Dr. Seegers cited a third challenge as "keeping our perspective." He expressed the hope that liberal arts colleges will remain liberal arts colleges, not "overextended, consequently superficial, institutions which pay lip service" only to the liberal arts.

"I plead for clearly - focussed binocular vision, seeing clearly the dual aspect of intellectual achievement in a framework of spiritual reference. With that kind of vision," he concluded, "we can progress toward our goal."

**Diamond Jubilee**

The Diamond Jubilee celebration at Wagner college marked the college's 75th Anniversary and also the 40th Anniversary of the college's move to its present Staten Island campus from Rochester, New York. The observance culminated on October 15, with a Silver Jubilee convocation. Also the new dormitory for men was dedicated on October 13. At this time those, whose gifts helped furnish the building were also honored.

## Warning Jazz Sextet Featured On Campus

Last night in the Student center the Fred Warning Sextet, Lehigh Valley jazz group, presented a concert under the auspices of the Student council assembly program committee. The group played original jazz arrangements, ranging from Dixieland to modern.

The sextet is composed of bass, piano, drums, and trombone, and the musicians alternate on alto and tenor saxophone, clarinet and trumpet. Warning himself is from Bethlehem, and his musicians are all local men.

The Warning group has played at many college houseparties and social functions in the Allentown area, though not at Muhlenberg as yet.

**Programs Scheduled**

Leon Skwier, assembly program chairman, has announced that several programs of interest have been scheduled for the semester. One of the speakers to be heard on campus is Fabian of Scotland Yard, about whom a television serial has been written. These programs are all free to Muhlenberg students and faculty.

Although this particular program is being held in the evening, the regularly scheduled assembly programs are held in the Science auditorium on Wednesday afternoons at 3:15. Unless a special announcement is made, the programs for the rest of the year will be held at that time.

## Interfraternity Council To Present Pigskin Hop

As its first social function of the year, the Interfraternity council wil present the 'Pigskin Hop" on Saturday, October 26. "The Savoy Six" will provide the music for the casual dance, which is to be held at eight p.m. at the Northampton Memorial Community center.

In accord with its policy of providing more social functions for the entire campus, IFC has opened the dance to all students. Tickets wil be $2.50 per couple, and no stags will be admitted. The purpose of the dance is to celebrate the last home football game.

**Collegiate Band**

"The Savoy Six", which will play for the dance, is a group of students from various colleges who have been playing together since high school. Harris Brody, leader of the group, is a former Muhlenberg student who has transferred to Manhattan School of Music. The group has played at several eastern colleges, including Penn and Bucknell, and has made an LP recording for a large record company.

Refreshments will be supplied at the dance, at no extra charge. Tickets may be procured from the following IFC representatives: Walt Schuman, Lambda Chi Alpha, Steve Fuchs, Alpha Mu Iota, John Coughlin, Alpha Tau Omega, Gabriel Spector, Phi Epsilon Pi, Leon Skwier, Phi Kappa Tau, and Pete McWilliams, Sigma Phi Epsilon.

**Transportation Arranged**

The dance will be held from eight to one at the Northampton Memorial Community center, 16th and Laubach avenues, Northampton. Transportation provided by IFC will leave from the Memorial hall parking lot at eight p.m. Dress will be casual; bermudas and khakis.

Schuman, IFC president, stated that if this affair is successful, two more such functions will be scheduled this year.

## Veteran's Club To Be Formed At Muhlenberg

Fred Smith, a transfer from Moravian college, has announced the first meeting of the Veteran's club, on Friday, October 25 at 3 p.m. in the Science auditorium. This is a new organization on the Muhlenberg campus and this, the initial meeting, is for exploratory purposes to determine the interest and need for an organization of this type.

The Veteran's club is being patterned, as a social and service organization, after the Veteran's association on the Moravian campus. So far 30 men have indicated interest in joining the new club. A veteran, faculty adviser is presently being sought.

One facet of this new organization that makes it different from any other on the Muhlenberg campus, is that the wives of its members will be included in the club's activities. They will not, however, be bona-fide members.

Future plans of this new organization include an affiliation with the Moravian Veteran's association, similar to the affiliation of national fraternities. A constitution will also be drawn up, using Moravian's constitution as a basis.

The Veterans' club is not being organized in opposition to the social fraternities on the Muhlenberg campus, but is an organization, similar to the Commuter's club, of a group of men who have something in common, in this case, their service experience.

A move was started last year for an organization of this type, however, due to lack of interest the club never materialized. This year the vets on campus, have shown a great deal of interest in tthe club's organization.

## College Gets Kodak Grant

In recognition of the services of an alumnus, Eastman Kodak company has given a direct grant to $2,000 to Muhlenberg college. The gift honors Laverne C. Etshman '51, who is employed in the Kodak Park Works. At Muhlenberg, Mr. Etschman majored in psychology.

Under the direct grant plan, payments of $500 are provided for each year of normal academic work completed by the student at the institution from which he was graduated in a regular degree program at either the undergraduate or the graduate level. In order to qualify for these grants, the institution must also have had a number of graduates who have been employed by Kodak for more than five years.

**Direct Grant Plan**

Kodak officials point out that these direct grants to privately supported colleges and universities in this country help those institutions to meet their increasing financial needs. The direct grants also serve to recognize the contribution graduates of institutions receiving them have made to the company's progress.

In addition to the grants, Kodak has also given 39 fellowships valued at $120,000 to advanced students in chemistry, physic and engineering.

The chemistry and physics fellowships are designed to assist promising young scientists studying for the Ph.D. degree, with preference given to persons in the last year of such study. Each fellowship recipient in these fields is granted at least $1,600, or $2,400 if married and with dependent children.

The fellowships also provide tuition and fees, an additional $1,000 to help defray research ex-

(Continued on Page Six)

## Degrees To Be Given To Women Educators

Muhlenberg college will officially inaugurate co-education at dedication ceremonies on October 29. Three women educators will have honorary degrees conferred upon them on this date. They are Miss Nancy Duke Lewis, Sister Lydia Fischer, and Mrs. Lilly B. MacIntosh.

Miss Lewis became the fifth dean of Pembroke college in 1950. Formerly, she was an academic adviser and counselor at the women's college of the University of North Carolina.

Dean Lewis was graduated from the University of Kentucky with B.A. and M.A. degrees in mathematics. She is a member of the board of directors of the National Merit Scholarship corporation, the Hazen foundation, the Commission on Instruction and Evaluation of the American Council on Education, and is active in the national organization of Phi Beta Kappa.

**Sister Lydia Fischer**

Sister Lydia was graduated from Lankenau school and holds a B.S. degree from the University of Pennsylvania. She was consecrated as deaconess of the United Lutheran Church in 1922.

After being a member of the Lankenau faculty for twenty-eight years she was given the chairmanship of the faculty committee of the Lankenau School Continuation committee in 1942. Sister Lydia became its principal on a new campus in Germantown in June of that year. She is the regional co-chairman of the Council for Religions in Independent Schools, and a member of the executive committee of the Pennsylvania Association of Private Schools.

**Cedar Crest Graduate**

Miss MacIntosh was graduated from Cedar Crest college with a B.A. degree. She headed the Juliette Gordon Low Birthplace com-

(Continued on Page Six)

## Commuters Club Plan Coming Year's Events

At a meeting held by the Muhlenberg Commuters' club on October 16, the plans for the coming year were discussed. Two committes were formed at this time. The publicity committee will be headed by John Flemming and the social committee will be headed by Norman Wangman.

The annual Commuter's club dance has been tentatively scheduled for March 21. Another social function that is presently under discussion is a party, the purpose of which is to integrate the co-eds into the organization. This function has been tentatively scheduled for November.

**Club Seeks Adviser**

The Commuter's club is presently seeking another faculty adviser in addition to Dr. Victor L. Johnson. Dr. Johnson is unable to attend the meetings although he will remain one of the club's advisers.

The first commuter's social function was held on October 12 at the Willows. Dancing lasted until 1 a.m. and refreshments were served during the course of the evening's festivities.

### Flu Shots

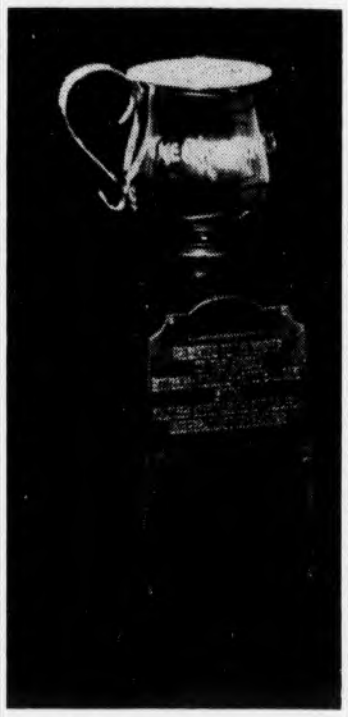
**All those who had flu shots in September are to come to the health office next week for their booster shot. (No charge.)**

**Dr. Weaber**

## Football Game Features 'Tin Cup' Presentation

This Saturday a coveted trophy will be at stake when Muhlenberg meets Gettysburg college, on Muhlenberg field, in their annual football rivalry. The trophy, the "Old Tin Cup," is traditionally awarded to the winner of the gridiron clash between the two teams.

The Old Tin Cup



Up until two years ago the presentation of this traditional trophy had become extinct. The reason for this was that Muhlenberg had won the cup in 1912 when they beat Gettysburg by a score of 33-7. However, the trophy was apparently forgotten by the date of the college's next meeting in 1921.

**Idle Trophy**

For forty-three years the trophy lay idle in some obscure spot on the Muhlenberg campus. In September of 1955 when Dean Wilbur Tilburg of Gettysburg college was preparing for retirement, he found a forty-year-old letter in his files . The letter, written by the son of a Pennsylvania German farmer in 1912, related certain incidents leading to the awarding of the trophy.

Dean Tilburg contacted Dean Richards of Muhlenberg college, shortly thereafter, requesting information about the old cup. Dean Richards was finally able to locate the object and contacted the Gettysburg authorities.

**Cup Restored**

It was through the newspaper staffs of the rival colleges that the "Old Tin Cup" has been restored and put in proper condition for presentation as a trophy. This year's game marks the third time that the cup will be awarded to the wining team. At last year's game the cup was awarded to Gettysburg when they beat Muhlenberg by a score of 34-7.

The "Old Tin Cup" will be presented to the winning team by Taimi Toffer, Muhlenberg's 1957 Homecoming Queen, immediately after the game.

An individual award will be made at halftime, to the most outstanding player during the first half. The award will be made by three representatives of the Muhlenberg **WEEKLY and** two representatives of the **GETTYSBURGIAN.** The Muhlenberg representatives will be Karl Becker, editor-in-chief, Ron Moxey, managing editor and Bob Nuss, sports editor. The **GETTYSBURGIAN** representatives will be Bill Steirer, co-editor-in-chief and the sports editor.

**Tin Cup History**

**In 1908, two sons of a poor Pennsylvania German farmer who lived near Allentown, said goodbye to their father and set off for college—one going to Muhlenberg and the other to Gettysburg.**

**The old man, having few worldly possesisons, decided in his sons' graduation year to give them his most prized possession, an old tin cup. Since they attended different schools, however, he was undecided which son he should give the trophy.**

**He had been impressed by the first football game between the schools in 1907 and since both of the boys played football, he solved the problem of who should get the heirloom by making it known to his sons that the one whose team won the game in 1911 should receive the cup.**

**The G-Burg boy was hurt shortly before the half, but before this had kicked a field goal which ultimately gave his school a 3-0 victory. The Muhlenberg boy, at halftime, told his father to give the cup to the injured brother—out of respect for his ability and skill in the first half.**

**Upon his graduation in 1912, the Gettysburg student presented the cup to his alma mater. Along with it he presented a letter of explanation. The letter related how he had gotten the cup and asked that it be made into a perpetual trophy for the best player of the first half of the annual Muhlen-**

## First Meeting Held By Pre-Theo Club

Mr. Ludwig Lenel, head of the music department at Muhlenberg, was the guest speaker at the first meeting in the fall program of the Pre-Theological club, on October 14. Mr. Lenel's subject was "Church Music."

At this meting president Richard Hinkle announced that that the club will meet again at 7:30 p.m. on November 11, to hear Dr. Strempke, of the Board of Higher Education of the United Lutheran Church of America, speak on "The Ministry."

**Christmas Party**

On December 9 the annual Christmas party will be held at the home of Chaplain David Bremer. Also, on January 13, the last meeting of the semester, Rev. Edward Fry, from the Department of Church Architecture of the ULCA, will talk on "Architecture for the Church."

The club is presently looking forward to worship in the Oratory of the Holy Ghost, which has been enhanced by the various works of art that have been added this year.

A Muhlenberg student, John Dreisbach, is presently working on one of these pictures, it is entitled, "Fall of Angels."

The John A. W. Haas Pretheological club is an organization composed of Lutheran pretheological students. Its purpose is to bring these students together for discussions pertaining to the work of the church. Throughout the year, a number of speakers are brought to the Muhlenberg campus to speak on the various aspects of church work and the ministry. Due to a revision in the constitution, the club will meet only once a month this year.

# HOMECOMING IN REVIEW

## Queen Arrives At Game; Presents Ball To Team

**THE CROWD:**

The football game with Lebanon Valley was the second big occasion of the Homecoming weekend. Alumni filed into the stadium to see the home team win. Before the game, the queen and her court appeared on the field in a stylish motorcade, led by a new Edsel carrying Taimi Toffer. With her rode Dr. Seegers, president of the College. In the second car, an oldsmobile convertible, were Jayne Kuntzleman and Betty Ann Lebo, upperclass court members. Following in a Chevy convertible were the Freshman court members, Carol Coolidge and Marilyn Frere.

Upon their arrival in front of the Muhlenberg stands, the queen presented the game ball to co-captains of the football team, Paul Whitcraft and Don Herman. The girls were then escorted to the stands where they sat among the freshmen in a specially reserved row.

The alumni also sat in a special section where they could observe the opening ceremony.

Miss Toffer will continue her reign this Saturday at the Gettysburg game where she will present the award for the most valuable player during the first half.

*Our Queen . . .*

Her majesty, Miss Taimi Toffer, arrives at Muhlenberg field.

*Cheering Alumni*

Alumni and friends join in the students' cheers during the first half of the football game. Tension was great at this point when Muhlenberg was losing to the Dutchmen, 6-0.

## Queen And Her Court Highlight Dance

Taimi Toffer (center), Muhlenberg's Homecoming Queen is surrounded by her court at the Homecoming Dance in Memorial hall. From left to right are pictured Carol Coolidge '61, Jayne Kuntzleman '60, Queen Taimi Toffer '60, Betty Ann Lebo '60, and Lyn Frere '61.

**THE DANCE:**

Homecoming weekend in its first stages got under way on Friday night with the music of Bud Rader providing motif for dancing in Memorial hall. The dance was crowded with probably more students than Memorial hall has ever seen for any other similar affair. An undercurrent of "Who's the queen?" was passed from lip to lip. No one seemed to know.

Presently, the orchestra stopped, Leon Skweir stepped to the platform, and the crowd gathered around, for they knew this was going to be the answer to their question, even though acoustics prevented any audible symbol as to what was happening. One segment of the crowd was pushed aside and the queen and her court passed through the gap and onto the platform to take their places.

Once again, a few utterances were almost heard over over the PA system and President Seegers was called to the scene. In his hand, he carried a dainty crown and with a few words, he ceremoniously placed it upon the head of our homecoming queen—Taimi Toffer. Flashbulbs illuminated the queen and her court and the orchestra played softly in the background. Taimi adjusted her crown and stood for more pictures. Walt Schuman presented her with a trophy from IFC, and, the ceremony over, the orchestra struck up a dance tune. The queen was escorted from the platform and ushered onto the floor, and soon every one joined in the dance.

The dance returned to its normal atmosphere as though nothing had happened, but underlining this outward nonchalance was the realization that, for the first time in the history of Muhlenberg, we actually had a homecoming queen! And not only that, but there would be a homecoming queen every year—

And so it was that homecoming weekend commenced.

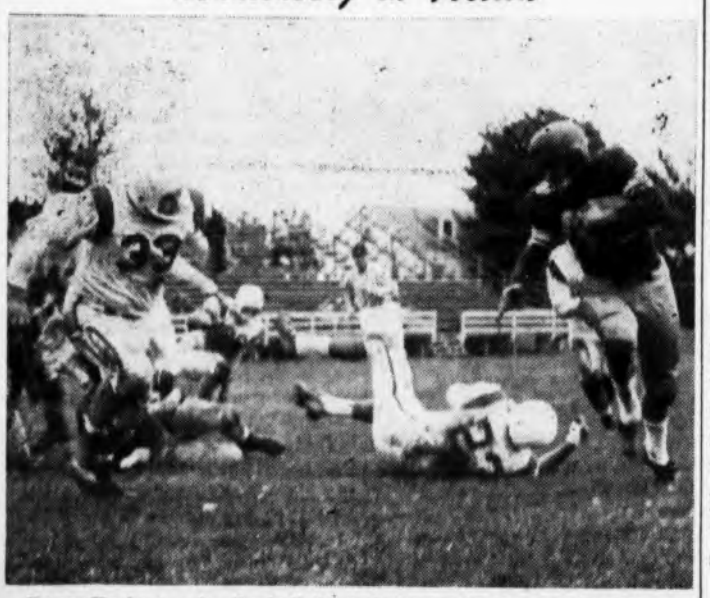
## Graduates See Their Alma Mater Victorious

**THE GAME:**

The Mules put on a good showing for their predecessors. After some trouble in the first half, they returned with more zip than ever in the second. Sparked by Herb Owens and Roger Keehn in the backfield, the team trampled down Lebanon Valley to score three touchdowns and to win the game 18-6.

This gave Muhlenberg three wins to only one defeat and its third straight win in this year's campaign. Alumni were glad to see the team under such good circumstances and the win set them in good spirits.

*Muhlenberg in Action*



Roger Keehn carries the ball through the ranks of several Lebanon Valley players at the Homecoming football game.

## Berg Alumni Attend Reception

**THE RECEPTION:**

After the homecoming football game, the alumni and their families, the faculty, and a few undergraduates, sojourned to the Snack bar. The occasion was the annual homecoming alumni reception. In the four consecutive years that this affair has existed, the Snack bar was used for the first time in the history of the College because of the attractive renovations.

Acting as a reception committee and socializing with the guests were Dr. and Mrs. Seegers, Haps Benfer, and Bruce Romig.

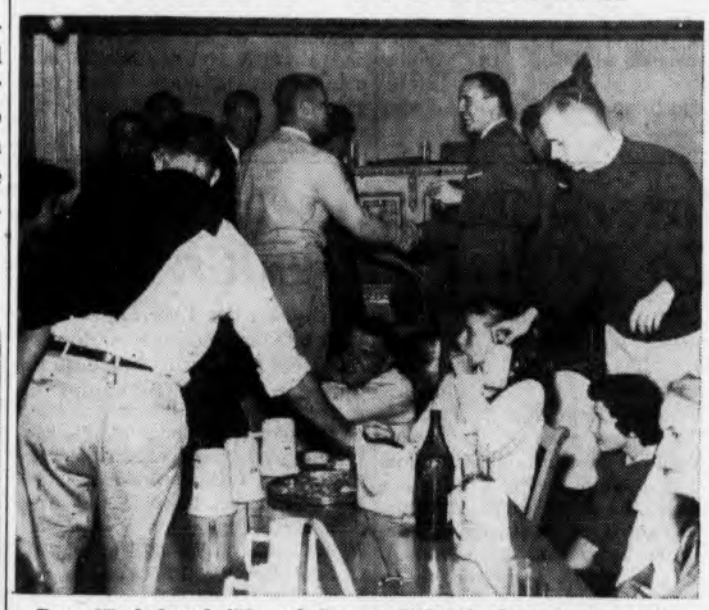
Participation was exceptionally good. Booths and tables were filled to capacity, employing the use of the student lounge for additional room. It was estimated that three hundred and fifty people were in attendance. Coffee and doughnuts were served.

The annual alumni reception enabled its participants to fraternize with other graduates of Muhlenberg, as well as their families. Another purpose of this affair was to reacquaint the alumni with past professors and introduce them to the present faculty.

*Alumni Meet*

Alumni meet in the Student center after the football game. Here we see "Haps" Benfer greeting some old friends at the reception.

## Houseparties Climax A Festive Weekend



Dave Washabaugh '56, and George Gibbs'54, shake hands at the Alpha Tau Omega houseparty. This meeting is typical of the many meetings that occurred during the Homecoming weekend.

**THE PARTY:**

As a climax to this festive weekend, each fraternity had a houseparty. The parties were attended by undergraduate brothers and a number of returning alumni. The themes ranged from safari at Lambda Chi, to a Russian Toga theme at Sig Ep. The brothers once more had an opportunity to fraternalize with their predecessors and to see what life is like on the outside.

This has been one of the first years that Homecoming weekend had been blown up into a full scale production in the form of a major social event.

## Students Want To Get In
## Teachers Want To Get Out
## What Do You Want . . . ?

**The colleges and universities of America face a crisis.**

**STUDENTS WANT TO GET IN! . . . Enrollments are spiralling faster today than our universities and colleges can take care of them . . . Facilities and Faculties are woefully inadequate to keep pace with rising social and population pressures . . . And the prediction is that ten years from now the problem will be twice as acute as it is today.**

**TEACHERS WANT TO GET OUT! . . . Not because they don't like teaching . . . There are no more dedicated men and women than those who train the minds and stir the imagination of our children . . . They want to get out because they have an obligation to their own children and they cannot discharge this obligation on starvation pay.**

**WHAT DO YOU WANT? . . . Do we want our sons and daughters to be denied access to the vast repositories of knowledge for want of the money to pay for it? . . . Should the educational facilities and opportunities of the richest nation on earth be curtailed by inadequate and obsolete accommodations and spiritually depressed by the anxieties of impoverished professors?**

**Seats of learning are no good without seats.**

**And professors are better without worries and debts. Be good to the college you prefer for your children. Be quick and be liberal.**

## Stumbling Block . . .

Unnoticed in the excitement of homecoming weekend was a small incident that occurred Saturday night at 23rd and Gordon streets. At approximately 7:45 p.m. a middle age couple were crossing 23rd street on their way to the campus. Just as they approached the path leading into the College, a soft but fearful scream was heard. The woman was trying to help the man who had just tripped over one of the boulders that had been placed along 23rd street at Gordon. The light that was available at this part of the campus, was not sufficient to reveal the extent of injury to the man but a bloody gash on the side of his head could be seen. The man's lone comment was, "They had no business putting that rock there."

This is probably the first incident that has occurred because of these rocks, but it is not necessarily the last. The lack of light at this path at 23rd and Gordon has been an encouragement to injury for several years. However, insufficient lighting evidently is not enough to encourage a mishap. Boulders which supposedly are serving the purpose of solving the parking problem on 23rd street have been added to further hamper an attempt to traverse the campus from 23rd street.

The remark. "They had no business putting that rock there," is a very applicable statement. Or, if it isn't, what is the business of these rocks which are encouraging injury in a dangerously dark area.

## Jean Hecht IN THE NEWS

by Jan Horvath

Usually seen clad in white bermudas and white blouse, accented by an ever-present friendly smile is Miss Jean Hecht, girls physical education instructor. Miss Hecht is an alumna of East Stroudsburg State Teachers college and is now working toward her master's degree in education at Temple university.

When not teaching classes at Berg Miss Hecht enjoys reading and participating in sports. Her proficiency in the art of tennis has won for her such honors as Women's Singles Title in the Public Park and City Open tournaments in Allentown and also in the Northwestern Pennsylvania tournament.

Miss Hecht came to Muhlenberg from Parkland high school where she taught for three years. "It took a lot of work to prepare for the first class of girls and most things are still in an experimental state," she revealed, "but I do enjoy teaching at Berg."

---

A man went to a tennis tournament and sat down on a bench to watch.

"Whose game?" he asked.

A shy young thing on the bench next to him looked up and said, "I am." (THE REVIEW)

## From Here And There

by Stanley W. Heim and R. Schlunk

In the centuries to come the Twentieth will most probably be remembered for the vast and revolutionary transitions which occurred during its span. As social historians seek to give broad comprehensive generalities to define the century, the one which will be most easy to come by is the emergence of women into education and into the world "outside the home". Since Muhlenberg has succumbed to the relentless pressure of femininity, and our bastions of homegeneity have been blasted to smithereens, we feel that discussion on the education of male's biological supplement is worthwhile.

The question of the value of a college education for women has often been raised and argued over. In an era where money talks, many fathers have considered this question at great length, and finally have said, "I spend $5000 on her, and what happened? She receives her diploma, and a week later she gets married." It is then thought of as a waste of money. Many people conceive of a college education only as a means of getting a better job that pays more money. Actually what is received from a college education is intangible and cannot be erased by business recessions. Cannot education be conceived of for its own sake? It would be absurd to deny that rewarding jobs are the result of a college education, but this is not all. Education should also enable us to see the world with great depth and perspective, and to teach us to react in accordance with this perspective.

The money spent on the education of women is certainly far from being wasted. The value of the influence they, as educated mothers can have on future generations is immeasurable. This is the crux of our discussion. We believe most heartily in education for women, but we also believe that this education should be used by them as mothers in the home, and not in the man's "world".

Out of every era of great change comes perversity and extremity. We feel that women competing with men on his ground, is one of the great mistakes of the Twentieth century. We do not mean by this that there is any inferiority or superiority between the sexes. We are saying, however, that such factors as our high divorce rate, and the fact that America has one of the highest murder rates between husband and wife, is a result, at least in part of this encroachment.

We hope that the social historians of the future will be able to enumerate endlessly on the successful adjustments made by our century to the social unheavals caused by rapid change, and that the foremost of these is the recognition of the proper position of the respective sexes in society.

## Their Side of Humor

A co-ed was reading about birth and death statistics. She turned to a man and said, "Do you know that every time I breathe, a man dies?"

"Very interesting," he retorted. "Why don't you try Sen-Sen?"

A new idea in smoking...

# Salem refreshes your taste

Created by R. J. Reynolds Tobacco Company

- menthol fresh
- rich tobacco taste
- most modern filter

Refreshing! Yes, the smoke of a Salem is as refreshing to your taste as a dew-sparkled Spring morning is to you! Now get the rich tobacco taste you love, with a new surprise softness and easy comfort. Through Salem's pure-white modern filter flows the freshest taste in cigarettes. You take a puff . . . it's Springtime!

*Smoke refreshed... Smoke Salem*

# Frosh Gridmen Lose To Flying Dutchmen

Muhlenberg's freshman team traveled to Hempstead, Long Island last Friday only to come out on the short end of a bitterly fought 7-6 decision. All of the scoring occured in the first half as the little Mules hit paydirt first, scoring in the first quarter, and the Flying Dutchmen scored their only tally in the second period.

After the opening kick-off the teams were only at scrimmage for eight plays when Tom Wargo of Palmerton, grabbed off an interception of a pass thrown by Lou Bauer, Hofstra's quarterback, sprung into the open and dashed 40 yards for a touchdown. At this juncture, the extra point was missed because of a bad pass from center and this later proved to be the turning point of the game.

**Hofstra Scores**

The teams battled back and forth rather inconclusively for the balance of the second quarter and well into the third quarter. Hofstra struck paydirt suddenly when quarterback Bauer rifled a 35-yard pass to end Don Stetson on the Berg 25 who galloped the rest of the way for the score. Once again Bauer's arm proved the Mules undoing, as he passed to Bob Denees for the extra point that was the margin of victory.

The only sustained drives in the game came in the fourth quarter when both teams managed to drive to the opposition 20 only to see their drives fizzle. Although the Frosh didn't manage any particularly spectacular offensive pushes, several men stood out. In the line, Marty Renshaw of Palmerton, at center and Bob Patterson of Belvidere, N. J., at end, gave good accounts of themselves. Ed Yost, of Allentown, and Merle Wolfe of Lehighton, helped provide what offensive spark the frosh had at fullback and halfback respectively.

# Soccer Slate Shows 1-3 Season Record

The Muhlenberg soccer team posted a record of one win and three defeats in its first four starts.

Lehigh downed the Berg booters 3-1 as only John Holcroft was able to dent the cords for the Mules.

A strong Franklin and Marshall club finished strong to blank the Bergmen, 5-0. With the flu sidelining inside right Frank Czascar, the Mules were no match for the well-balanced Diplomat aggregation.

The Mules broke out of their scoring famine to rack up their first victory of the season over Stevens, 4-3. Bill Loewe tallied the winning goal in the final period, after Stevens fought back from a 3-0 deficit. Holcroft scored twice for the victorious Mules, and Czascar once.

On Tuesday, the Booters dropped their fourth contest as Lafayette won, 5-2. Holcroft and Csaszboth scored for the Mules.

The Mules will seek to gain their second victory against La-Salle in a home match Saturday afternoon.

# Cross Country Squad Meets Albright Team

On Tuesday afternoon, October twenty-ninth, Muhlenberg's cross country team will be looking for their first win of the season, when they will oppose the Albright harriers on the Albright course.

Last year Albright had a record of two wins and seven losses. One of these losses was handed to them by the Berg runners. This was the only win of the season for the Muhlenberg team.

**Returning Lettermen**

Albright will be hoping to improve on last year's record with returning letterman George Mack, Don Seltzer, and Dick Thrasher. This nucleus of three veterans will be supplemented by two promising sophomores; Dick Allwein and Louis Andre.

Muhlenberg is looking to juniors Ed Thieler and Pierce Knauss and sophomore Ron Dungan to carry the brunt of the attack.

Because of the Asiatic Flu and the subsequent closing of Lehigh, the Muhlenberg-Lehigh cross country meet, which was previously scheduled for October 25, has been re-scheduled for the seventh of November.

## Football Schedule

NO FILM PRESENTATIONS OCT. 27 NOV. 9—CIVIC LITTLE THEATRE PLAY "JANUS"

# Distance Men Sport Winless 1957 Season

Muhlenberg's cross - country team, hard-hit by injuries and the unexpected loss of experienced personnel, has dropped its first three starts of the season.

Of the six-letter winners, all sophomores, who made up last year's squad, only two reported for action this fall. As a result, Dick Schmidt's squad once again is suffering from lack of experience. To add to the Mules' woes, promising sophomore prospect Marty Ruoss of Mechanicsburg, Pa., was sidelined by a leg injury, and the Berg harriers haven't yet been able to come up with a winning combination.

**Opening Loss**

They dropped their opener to Lafayette, 16-39 as the fifth place finish of Ed Thieler, a junior from Philadelphia, averted a shutout.

Elizabethtown edged the Mules 25-31, with Thieler and Pierce Knauss, a junior from Bethlehem, Pa., finishing third and fourth, respectively.

Juniata topped the Bergmen 21-34. Ron Dungan, a sophomore from Feasterville, Pa., placed fourth for the Mules, and Thieler and Knauss tied for fifth.

The Mules will attempt to break into the victory column this Wednesday in an away meet with Albright.

# Mules Down Stevens Tech. For First Win

Muhlenberg's soccer team notched its first win of the season, 4-3, over Stevens Tech last Saturday afternoon at Muhlenberg field. Bill Loewe kicked a fourth-quarter goal to break a 3-3 tie and give the Mules their first win in three games.

**Early Lead**

The Berg booters jumped out in front to a 3-0 half time lead on two goals by John Holcroft and another by Frank Czascar. However, in the second half, the visitors fought back, scoring two goals in the third period and one in the fourth to tie the game before Loewe kicked the game-winning tally.

Holcroft and Lopez paced their respective teams with two goals each to share the high scoring honors.

| Pos. | Muhlenberg | Stevens Tech |
|---|---|---|
| G | Simpson | Walker |

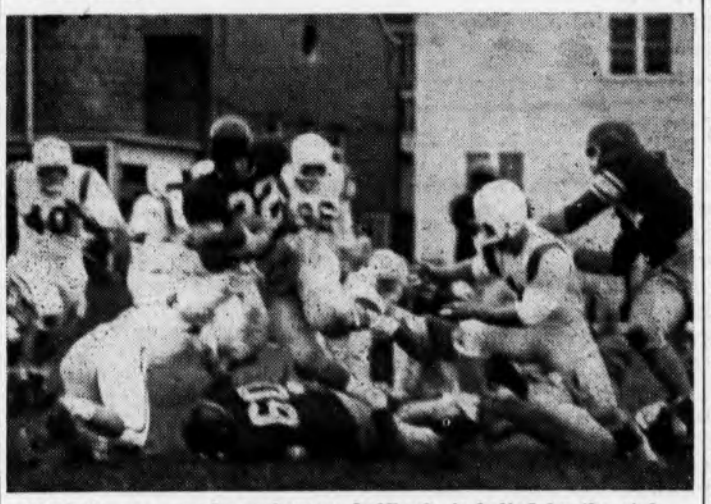
# Berg Captures Third Straight; Defeats Lebanon Valley, 18-6

Muhlenberg scored three touchdowns in the final quarter to overcome a 6-0 deficit and hand Lebanon Valley college an 18-6 defeat last Saturday afternoon on Muhlenberg field. The Homecoming victory marked the third consecutive win for the Mules since an opening loss to Lafayette. This was the first time in four years that Muhlenberg has won three consecutive games.

**Muhlenberg fullback, Roger Keehn drives for added yardage as he straight arms a would-be Lebanon Valley, tackler. Roger picked up valuable yardage throughout the game, and also scored the first touchdown. This tied the score, 6-6, and started the way to a Berg victory.**



**Herb Owens, speedy sophomore halfback, is halted by the stubborn Lebanon Valley line. Owens continued his scoring rampage as he added two more touchdowns to his credit. His scoring runs of 15 and 21 yards provided the margin of victory as Berg defeated Lebanon Valley, 18-6.**

The Flying Dutchmen did their scoring early, as they took advantage of a loose Muhlenberg pass defense to tally midway through the first quarter.

Early in the opening period, Muhlenberg moved to the Lebanon Valley 30-yard line and could not go further. The Dutchmen took over and moved 70 yards in six plays to score. A 29-yard run by freshman halfback Venerd Magnuson and three successful pass attempts by quarterback Bill DeLiberty gave the visitors a first down on the Muhlenberg five-yard line. It took the Dutchmen only one play to cover the remaining five yards, as Ed Slezosky smashed through the middle of the line and fought his way into the end zone. DeLiberty mised the try for the extra point and Lebanon Valley led 6-0.

**Berg Threatens**

Muhlenberg threatened to score almost every time they had the ball in the first half. However, it wasn't until early in the fourth quarter that the Mules were able to cross the Lebanon Valley goal. The Bergmen hit paydirt for the first time with the clock showing 11 minutes and 14 seconds remaining to be played, after capitalizing on a Lebanon Valley bobble.

With fourth down and 11 yards to go on their own 19, the Dutchmen sent Bob Longenecker back to punt. After taking a bad pass from center, Longenecker tried to run with the ball, but got no further than the 13 where he was upended by Don Herman.

Two plays later, Roger Keehn bulled his way over left tackle for the touchdown. Ralph Borneman missed his first of three extra point attempts and the score was tied at 6-6.

From that point on, the Mules found the going easier. They got possession of the ball two more times and scored on both occasions. It was the running of sophmore Herb Owens that accounted for both tallies.

The first of these came with a little more than five minutes remaining in the game, when Owens took a pitchout from Borneman and ran around left end for 21 yards, climaxing a 49-yard drive in eight plays.

The final tally came with just 51 seconds left, as the Mules drove 31 yards in four runing plays. Owens took the scoring honors once again as he raced around his right end and sprinted 14 yards to the goal line, despite the efforts of no less than three Flying Dutchmen defenders. The touchdown raised Owens' total for the season to five, and a total of 30 points.

# Lafayette Booters Edge Berg Soccer Team, 5-2

Muhlenberg's soccer team dropped its third decision of the season as Lafayette handed them a 5-2 defeat this past Tuesday afternoon on Berg's home grounds. Lafayette, sporting a 2-0 won-lost record, outplayed the home team and walked away with their third triumph.

Lafayette scored early in the first quarter as centerforward Koller scored the first of his two goals. Joung also scored for Lafayette in the first quarter as the Maroon and White pushed their advantage to 2-0. Muhlenberg came back into contention as Frank Czascar scored his second goal in as many games to cut the lead to 2-1. The first half ended with no further scoring.

**Aggressive Play**

The second half was marked by aggressive play by both teams, and there was no further scoring until Koller tallied his second goal with 7:30 remaining in the third period. Muhlenberg goalie, Bob Spivak, was caught away from the goal on this play, and Koller scored with ease. Lafayette pushed its advantage to 4-1 with 6:00 to go in the quarter as Wilcotsen scored a 61 yard goal. The ball went just over the outstretched fingers of Spivak and landed in the net.

John Holcroft scored for Berg with 5:00 to go in the third period. His shot was deflected by a Lafayette defender, and ricocheted into the net for the score. At the end of the fourth quarter, the score read 4-2 in Lafayette's favor.

The fourth quarter was played on even terms as both teams kept the ball in the center of the field. However, near the end of the quarter, a repeated assault by Lafayette on the Muhlenberg goalie resulted in another score. The game ended without further scoring.

| Pos. | Muhlenberg | Lafayette |
|---|---|---|
| G | Spivak | Ruoff |
| RB | Balliet | Pelishe |
| LB | March | Wilcotsen |
| RH | Leighton | Kessler |
| CH | Vollmer | Forbes |
| LH | Warner | Larson |
| IR | Czascar | Staats |
| CF | Loewe | Koller |
| IL | Holcraft | Joung |
| OL | Schirmacher | Lotz |

Score by quarters:

| | | | | |
|---|---|---|---|---|
| Lafayette | 2 | 0 | 2 | 1—5 |
| Muhlenberg | 0 | 1 | 1 | 0—2 |

Lafayette scoring: Koller 2, Joung, Wilcotsen, Rauch.

Muhlenberg scoring: Czascar, Holcroft.

## Chapel Regulations

**Attention of all students is called to chapel attendance requirement regarding deficiencies:**

**"Students who do not register the required number of attendance in any one semester will receive the designation 'U' (unsatisfactory) on their semester reports and on their transcripts. Deficiencies must be made up in the following semester and will be added to the total requirement for that semester. Students failing to make up their chapel deficiencies in the semester following the incurring of the deficiencies or who incur additional chapel deficiencies face suspension from the College for one semester. Students whose chapel records are unsatisfactory are not eligible for graduation."**

**Sincerely,**
**David H. Bremer**

# Gettysburg Bullets Face Berg In Final Home Football Game

Muhlenberg currently has a three game winning streak going, and they will be out to make it four in a row on Saturday afternoon when they meet a visiting Gettysburg eleven. However, the Bullets will provide the Mules with one of their toughest tests of the season. Thus far, they have defeated Bucknell, Western Maryland, and Albright and have lost only to Lehigh.

This year the Orange and Blue will face the Bergmen under a new head coach, Gene Haas. Haas, who has succeeded highly successful John Yovicin (32 wins, 11 defeats in six years at the Bullets' helm), was a line coach at Gettysburg for three years before his elevation to the top post. Under his direction the Bullets will again employ the straight-T formation and drive series on offense which has proved to be very successful. In their first four contests this season they have averaged better than 240 yards per game, while their highly-touted defense has limited the opposition to less than 85 yards a game.

**Star Fullback**

Offensively, the Bullets' standout is senior fullback Frank Capitani. As a sophomore he showed considerable promise as he averaged 7.7 yards per carry and was the East's eighth leading ground gainer during the 1955 campaign. Last season he led his team in rushing, total offense, pass receiving, and punting, and was named to the AP all-Pennsylvania state first team. Up to now, this 180 pound triple-threat back is leading Gettysburg in total offense, punting, and rushing.

As for the rest of the backfield, Neil Hickoff will probably be at quarterback, with lettermen Earl Yost, a brilliant defensive performer, or 190-lb. senior Don Hailey at one halfback position and 170-lb. junior George Greiner at the other. All three of these halfbacks saw action against the Mules last year with the latter two gaining a total of 149 yards rushing.

**Starting Line**

On the forward wall, it appears that Chet Knight and junior Herb Payne will be at the ends, with Gino Calgagni and Marty Hoffner at the tackles. The remainder of the line will find juniors Dick Rowan and Jules Provost at the guards, with either John Yohn or Carl Schoenborn at center.

The Muhlenberg - Gettysburg series dates back to 1907. Since that time the Bullets have won 20 of the 35 games played. Last year they were victorious while compiling an overall record of seven wins and two defeats; the defeats came at the hands of Bucknell and Lehigh.

Following this encounter the Orange and Blue will meet Lafayette, Scranton, Temple and Franklin and Marshall.

The winner of this week's game will walk away with the traditional "Old Tin Cup". Gettysburg has won the trophy for the past two seasons since it was reintroduced in 1955.

## Freshman Gridders Oppose Lafayette

The freshmen football team will be seeking its first victory when it opposes Lafayette tomororw at Easton. In their first outing the Little Mules lost a hard-fought battle to Hofstra, 7-6. Much experience was gained through this game, and the team hopes to capitalize on this fact against the Leopards. The Frosh seem to be very strong defensively, while the offensive unit has been improving and should be in good shape for tomorrow's contest.

In the game with Hofstra, quarterback Tom Wargo injured his right wrist, and it is doubtful that he will start tomorrow. This could be a factor in the outcome of the game.

The Leopards usually turn up with a strong freshmen team, and with this in mind, a well-played game can be expected at Easton tomorrow.

## Berg Harriers Upset By Juniata Indians

Juniata's cross-country team handed Muhlenberg its third consecutive loss, 21-3 , last Saturday afternoon at Huntingdon. Freshman Don Leyman paced the Indians with a record - breaking 24:37 run over the 4.3 mile course on city streets and hilly terrain.

Juniata captured the first three places, with Herb Deucher and Frank Hrack following Leyman across the finish line. Ron Dungan, Ed Thieler and Pierce Knauss were the top Mule finishers, taking fourth, fifth ,and sixth places respectively.

Other finishers were: 7. Charmer Dilling, (J), 8. Jim Petit (J), 9. John Carty (M), 10. Chuck Brown (J), 11. Bob Voorhees (M), and 12. Gale Heckman.

One Muhlenberg man, Dick Lewis was injured slightly when he dislocated his hip. His injury was corrected by Dr. R. Patterson, Juniata school physician.

It was Ruck's first hunting trip. Seeing a duck high in the sky, he took a shot and down it came. Telling one of the boys about it later, he said, "I shouldn't have wasted that shot . . . the fall would have killed him anyway."

# SPORTSCOPE

by Bob Nuss

Muhlenberg won its third consecutive football game this past Saturday when the gridmen rolled over the Lebanon Valley dutchmen by an 18-6 score. Halfback **Herbie Owens** again sparkled as he added two more touchdowns to his growing total. His jaunts of 15 and 21 yards were both executed in the last quarter when Berg needed the points. This marks the second game the "Audubon Ace" has scored two touchdowns. Also playing outstanding ball for the Mules was fullback **Roger Kehn.** Roger scored his first touchdown of the season when he plunged three yards for Berg's first score. Throughout the game he picked up valuable yardage, and on several occasions almost broke away for long gains. Sophomore quarterback **Ralph Borneman** also looked impressive as he handled the team during each of the touchdown marches.

Muhlenberg's record now stands at a creditable three wins and one loss. From here on in though, the Mules face a rough schedule. Gettysburg looked very impressive in rolling over Albright by a score of 34-13. The men from G-burg are again sparked by All-stater Frank Capitani, who is off and running to another great season. Following Gettysburg, the last home game of the season, the gridders face Temple who last week defeated Lafayette by a score of 13-12. Hofstra, who follows Temple, is rated even higher, and at the present time holds an imposing 5-0 record. The season finale is played at Lancaster where the Diplomats will provide their usual stiff competition. **Even though this is an imposing array of competition, we feel that the Mules will do better than average.** Since the Lafayette game the Bergmen have come a long way, and now boast a competent team that can meet their opponents on even terms.

* * *

Due to the illness caused by the flu epidemic, the intramural season has still not gotten underway. The siege of sickness has set the intramural program back at least two weeks and will cause numerous problems when rescheduling takes place. This may eventually cause a shortening of the schedule in order to complete the season on time.

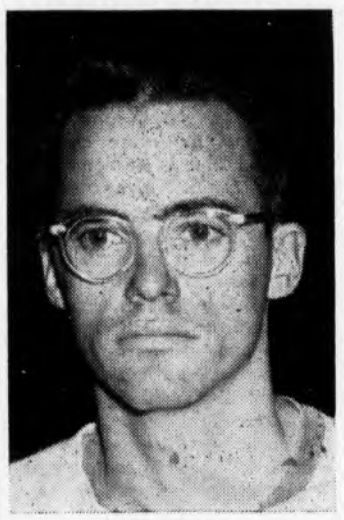
* * *

Berg's soccer team won its first game of the season on Saturday when they defeated Stevens Tech by a 4-3 margin. Although overshadowed by the football game, the booters played heads up ball in securing the victory. Berg was playing without the services of **Tex Ritter** who was injured in the last game, and who still was not ready for action. Returning to the squad after a bout with the flu was **Frank Czascar** who proved his worth by booting home one goal. High man for Berg was John Holcroft who scored two goals.

Although Berg's cross country team has yet to win a meet, several men have been putting their all in an attempt to break into the positive side of the ledger. **Ed Thieler,** a junior, **Pierce Knauss,** another junior, and **Ron Dungan,** a sophomore have all been impressive in a losing cause. The harriers are faced as usual with lack of experience and a small squad. It is a sad affair here at Berg that many men do not continue running after their sophomore year. It seems that when they win their letter, they are content to sit back and let someone else carry the burden.

# *In the Sportlight . . .*

## Lettermen Spark Muhlenberg Sports Events

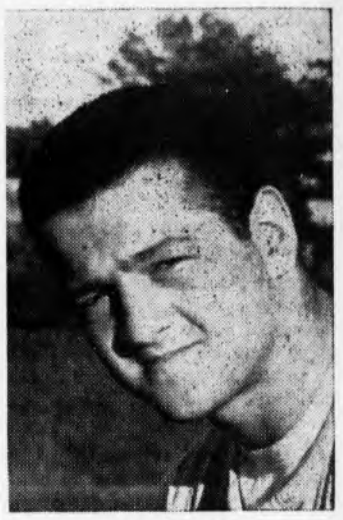


**Ed Thieler**

Ed Thieler, one of the few returning letterman on this year's cross country team, is a junior from Central High school, Philadelphia. Ed also lettered in track as he participated in the one mile, two mile, and the 220 yard dash. He has been the top man for Berg in two of the three races for the harriers thus far.

A natural science major, he hopes to enter medical school upon graduation. Ed is a member of the "M" club, Deutsche Verein, and the Pre-Med club. He was selected to be freshman adviser for the class of '61. Ed has also been elected treasurer of the junior class and treasurer of Lambda Chi Alpha social fraternity.

He has high hopes for this year's cross country and says that, "Not withstanding the fact that our numbers are few and that in many cases our men have had little experience, we show a great deal of hustle and determination, and as the season wears on we should accrue several victories."



**Tony Caporale**

One of the standout members on this year's football squad has been senior halfback Tony Caporole. Tony, who stands 5' 10" tall, and weighs 180 pounds, hails from Fairview, N. J., and has been one of the pleasant surprises for Coach Ray Whispell's Mules. He has carried the pigskin 38 times for 160 yards, an average of better than 4.2 yards per try.

Tony graduated from Cliffside Park high school where he played baseball, track, and football. He was selected "all county" in football and also honorable mention "all state" in his senior year.

An Economics major, Tony is not sure what field he will enter after graduation but favors personnel work. He is a member of the Newman club and the Business and Economics club. He has also played intramural basketball and softball for the past three years.

Super Sub!

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlist.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from *us*) it's a Coca-Cola machine. And not unexpectedly, re-enlistments are quite respectable.

Rugged lot, those submariners. Great drink, Coke!

# Marshall Award Deadline Near

U. S. college students can now apply for next year's Marshall Scholarship awards enabling them to study at a British university for two years. Applications must be in by October 31, 1957.

The Marshall Scholarship scheme was started in 1953 as a token of Britain's thanks for Marshall Aid.

Twelve scholarships are awarded every year. Any American student of either sex, married or single, may apply, but they must be under 28 on October 1, 1958 and have graduated from an American University.

Each award is worth £550 ($1,450) a year. Passage is paid to and from the United Kingdom. Married men get an extra allowance.

Successful candidates are chosen for their character as well as scholastic attainments.

Four Regional Committees—the Eastern, Southern, Middle Western and Pacific—consider the application forms and would-be winners should apply to the British Consul-General in one of the following cities:

Chicago, (Mid-Western Region), New York (Eastern Region), New Orleans, (Southern Region), San Francisco (Pacific Region).

Each Regional Committee includes the Consul-General and four Americans distinguished in educational or public life. It selects six names from the applications and forwards them to the British Embassy in Washington.

At the Embassy the names are re-examined by a 7-member Advisory Council headed by the British Ambassador. Twelve names are selected — three from each Region—and sent to the United Kingdom for review and approval by a commission of leading British educators and businessmen set up to administer the Trust. Lord Colereine is chairman of the commission.

Names of the winners are announced in Washington each April for the following October.

So far 48 Americans have benefitted from the scheme.

All the Marshall scholars who took their final degree examinations this summer have been successful and some of them have done especially well.

Carol M. Edler (1954): Ph.D. London.

C. T. Maxwell (1954): B.A. Oxford (Third Class Honours in Oriental Languages).

Norma McLeod (1954: M.A. London (with mark of Distinction).

J. P. Smith (1955): B.A. Oxford (Second Class Honours in Philosophy, Politics and Economics).

Jean M. Smits (1954): M.A. Glasgow (Second Class Honours in Classics).

C. E. Whaley (1954): M.A. Manchester.

L. Wharton (1955): B.A. Cambridge (Second Class, first division of Part II in Chemistry of the Natural Sciences Tripos).

# Honorary Degrees To Be Conferred

(Continued from Page One)

mittee while doing volunteer work on the regional level through Florida, Georgia, and the Carolinas. At this time she was instrumental in the purchase and restoration of the Gordon house in Savannah. She is a member of the Dade County Scout council.

After gaining support from the community, she helped in the building of Camp Mahachee. She recently assisted in the building of a world training center in Mexico, in conjunction with the Western Hemisphere committee of the World association of which she has been a member for the past seven years.

These women are engaged in the fields of education, the church, and American youth work, and their degrees will be given for volunteer service. Dr. Conrad J. Seegers, president of the Muhlenberg college, will confer the degrees upon the women. It is the first time in the history of Muhlenberg that degrees will be given for volunteer work.

# Old Tin Cup

(Continued from Page One)

**berg-Gettysburg game, with the stipulation that the trophy would remain in possesion of that particular school unless the opposing team was the winner.**

Since that time the rules regarding the cup's presentation have been changed. The "Old Tin Cup" is now presented to the winning team and an individual award is made during halftime to the outstanding player during the first half of the game.

# Kodak Grant

(Continued from Page One)

penses as well as funds to enable the student to attend one scientific or professional meeting appropriate to his field of study.

Since 1955, when the Kodak plan for direct grants was established, about $900,000 has been contributed for fellowships and for assistance to educational institutions and organizations in fields of special interest to the company.

Her: "Why is it you have so many boy friends?"

She: "I give up."

The SUSQUEHANNA

# The Chowline

A new addition has hit the Snack bar menu—Pork barbecue sandwiches. These delicious treats are served on a roll for the nominal price of twenty-five cents. The delights can be obtained during the evning as well as throughout the day.

Many other sandwiches are also available, served in a style known only to the Snack bar personnel. Tuna fish, cheese, egg salad ,and delicious bacon, lettuce and tomato sandwiches are designed to satisfy those annoying pangs of hunger. Made with either white, rye, or toast, the sandwiches are obtainable at low prices. Just think, you can still buy a sandwich at a price so low that the tax is avoided.

Several items have been left in the Snack bar by careless students. Those people that have lost these items are requested to claim their belongings at the Snack bar.

The girls were happy to welcome back the numerous alumni acquaintances after the Lebanon Valley football game last Saturday.

By the way, please cooperate with the staff in the Snack bar and bring your dishes back to the counter, from the tables after you're through. Also, please do not move the mustard, ketchup and other items on the counter, to the tables. This greatly inconveniences the Snack bar customers during an afternoon rush period.

A Balding Production

**Adv.**

# The Thief's Secret

Once there lived in Russia a worker named Ivan. Every day for many years he had worked hard on his job in the factory. Ivan was one of the most conscientious workers in the Soviet Union?

One day as Ivan was about to leave the factory for home, the guard stopped him, because Ivan was pushing a wheelbarrow through the gate. In the wheelbarrow was straw. The guard poked through the straw very carefully but found nothing. Finally the guard permitted Ivan to go home.

The next day the guard again stopped Ivan, because Ivan again was pushing a wheelbarrow with straw in it. Again the guard carefully searched through the straw, but found nothing.

The scene went on for many weeks, and then one day the guard came up to Ivan and said, "Ivan, I'm being transfererd to the Ukraine tomorrow, so it doesn't matter if I know what you've been stealing. I'm really curious. How about letting me in on the secret?"

Ivan looked blandly at the guard and said, "Well don't tell a soul, but I've been stealing wheelbarrows.

(Word-of-Mouth)

## Placement Meeting

**A second placement meeting will be held on Tuesday, October 29, at 3:15 p.m. in room 105 of the Science building. All interested seniors are urged to attend.**

**Dr. Claude E. Dierolf**
**Dean of Men**

# AKA Schedules Next Speaker

Dr. Hagen Staack, of the Muhlenberg religion department, will be the guest speaker at the next meting of Alpha Kappa Alpha, honorary philosophy fraternity, on November 7 at 8 p.m. at the home of Dr. Russell Stine, 2116 Allen st.

Dr. Staack's subject will be the Medieval approach to the year's topic, "The Approach To Truth." Following his lecture, Dr. Staack will lead a discussion period.

At the two previous meetings of AKA, the group has considered the approach to truth in the ancient world and at the time of Christ.

**Purpose of AKA**

Both faculty and student members of the philosophy group, consider through AKA the science of things divine and human—the the science of the relations of all knowledge to the necessary ends of human reason. This, therefore, very basically involves the integratin of all fields of study and endeavor, thereby bringing forth the real liberal education, and filling a gap very evident in academic training.

Membership is extended to all students whose interest is demonstrated. Transportation to Dr. Stine's home may be arranged by contacting Phillip Feigenbaum, Box 197 or Richard Hinkle, Box 62.

Bus Driver: "All right back there?"

Feminine Voice: "No, wait until I get my clothes on."

Three people were killed in the rush to see a girl get on with a bundle of laundry.

THE BUCKNELLIAN

# . . . Student Council Report . . .

October 17, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:06 p.m. by President Luis Torres. Messrs. Gurski and Carpenter were excused.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $2,838.68 |
| Assembly fund | 2,390.36 |
| Social fund | 1,935.27 |
| Total— | $7,162.22 |

Social:—Mr. Skweir reported that Student council would have to provide a piano for the Jazz concert by the Fred Warning Ensemble on Wednesday, October 23 in the Student center at 7:15 p.m.

Chapel:—Mr. Ueberroth reported that three men had their chapel slips revoked during the previous week. In addition, two students each had five (5) slips revoked. This made a total of thirteen (13).

Transportation:—Mr. Smith reported that transportation for the Homecoming Queen and her court will be provided. He also announced that the Queen would be crowned at 10:00 p.m. at the Homecoming dance by Dr. Seegers.

Library Dome:—Mr. Skweir announced that he has not been able to find out why the Library dome chimes are no longer used.

**OLD BUSINESS:—**

On motion by Mr. Markoe and Mr. Vari the following schedule for Soph-Frosh activities was adopted:

Wednesday, October 23: Volley ball game (Coeds)

Thursday, October 24: Pushball game, 3:30 p.m.

Monday, Octber 28: Football game

On motion by Mr. Leighton and Mr. Becker, the Volley ball game will be substituted for the Tug-of-War in the point system as a Soph-Frosh event.

It was announced that the IFC will provide a trophy for the Homecoming Queen.

Mr. Piston moved and Mr. Leighton seconded a motion that Council provide $25.00 to cover the expenses of the Homecoming Queen and her court. Motion carried.

**NEW BUSINESS:—**

Mr. Barry Sirota has been given the franchise to sell the official Muhlenberg jacket.

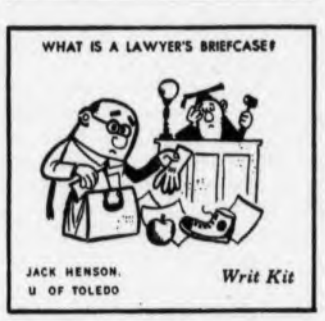
On motion by Mr. Spector and Mr. Becker the meeting was adjourned at 7:43 p.m.

Respectfully submitted,

RAY UEBERROTH, Recording Sec.

Sticklers!

**ANY SALT** worth his salt will gripe when told to paint a dull hull, varnish a vast mast, or swab a dank plank. How to make him break out in smiles? Just break out the Luckies! He'll be a *Beamin' Seaman* in no time—and no wonder! A Lucky's a light smoke—it's one cigarette that's packed end to end with superbly light, golden rich, wonderfully good-tasting tobacco. And Luckies' fine tobacco's toasted to taste even better! Now hear this: Want to go light? Just go Lucky!



STUCK FOR DOUGH?

**START STICKLING! MAKE $25**

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., October 31, 1957 A. C. P. Rating No. 6

## Freshman Regulations Concluded By Tribunal

**Freshmen: as you read this you are liberated from all further obligation to the tribunal, upperclassmen, and upperclasswomen.** Student council has officially ruled that fresh men regulations are now, as of this minute, no longer in effect. The threat, "I'll call Mr. Hervey" will no longer be feared; the little gatherings around the Commons, the Library, will no longer be heard singing, "Put On Your Old Gray Bonnet; and, there will be no more sign wearing on Fridays. This all gone for another year, when the entire process will again be repeated.

This year the period of "hazing" for the freshmen was not only a disputed period, but also was the first time for several years that the annual freshmen - sophomore contests were not held. The flu epidemic cancelled these contests permanently. Although several repercussions occurred as to the right of upperclassmen to challange freshmen girls, the regulations became integrated into the co-educational setup without excessive problems arising.

**Life Magazine**

**Life** magazine used. Muhlenberg's freshmen regulation program for the five page spread Berg received a few weeks ago. Several fortunate frosh who might have thought that "regs" were a bore, a grind, a pain in the neck, had their feelings compensated for by the fact that they received national recognition in a widely read magazine.

The time has now come for freshmen to begin what they were told when they thought that "regs" might make them quit school. The time has now come to think back on these weeks which many thought so terrible, and realize that it really wasn't so bad after all. Many associations have been gained through freshmen regulations that otherwise may never have developed.

## History Honor Society Initiates 10 Members

Ten men will be initiated into Phi Alpha Theta, national honorary history fraternity, on Monday evening, November 4. At this meeting, which will take place at 7:45 p.m. at the home of Dr. James Edgar Swain, South 24th and Lehigh Parkway, there will also be a discussion of "The Coming Caesars in America," which was the title of an article in the October 25th edition of **U. S. News and World Report.**

The men who are to be initiated into the honorary fraternity are: Robert Behile, Michael Beinner, Robert Cardonsky, John Holcroft, Paul Horger, Robert Lilienkamp, Walter Schuman, Leonard Swan, Richard Truchses and Frank Walinski.

**Largest Honor Society**

Phi Alpha Theta has the largest number of chapters of any accredited honor society, with 157 chapters in 41 states, including the District of Columbia and Puerto Rico. It was the first departmental honor soceity accredited by the Association of College Humanity societies. Its scholastic requirements are also the highest of any departmental society in ASHS.

Kappa chapter of Phi Alpha Theta was established on the Muhlenberg campus in 1929.

The faculty adviser for the honorary fraternity is Dr. James Edgar Swain, head of the department of History at Muhlenberg.

## H. F. Gernert, Jr. To Be Speaker For Psych Club

Rev. H. F. Gernert Jr. will be the guest speaker at a meeting of the Psychology club on Thursday evening, October 31 at 7:30 p.m. in the Student center. His topic will be "School Psychology."

At present Rev. Gernert is Director of Special Education, and School Psychologist for the Wilson Boro area schools and also Assistant Supervisor of Special Education in Northampton county. He is a graduate of Muhlenberg college and also of the Lutheran Theological seminary in Philadelphia, where he received a Master of Divinity and a Master of Sacred Theology. In addition, Rev. Gernert received a Master's degree in Clinical Psychology from Temple university.

**Past Experience**

In the past, Rev. Gernert has held a position as a U. S. Army chaplain and as an instructor in the Department of Education at Lehigh university, and also at the Lutheran Theological seminary in Philadelphia. His experience in the field of psychology include a position as Clinical Psychologist for the Child Guidance center of Carbon county, and Associate Secretary of the Board of Higher Education of the United Lutheran Church in America, where he was in charge of psychological services.

## Cash Award Offered To College Novelists

The Thomas Y. Crowell Company is offering a $2500 prize in its novel contest for college students only.

It's purpose is to encourage young men and women to write worth-while book-length fiction about their contemporaries or about some other subject of their choosing and help launch them on succesful writing careers.

Any undergraduate or graduate student, not more than twenty-five years old, attending any American college or university during the academic year 1957-1958 is eligible. Manuscripts must be at least 70,000 words long, typed double-spaced on one side of the page only. Manuscripts may be submitted at any time between October 1, 1957 and October 1, 1958, with a covering letter giving home address, college, class, and age.

**Cash Award**

An outright award of $2500 will be given to the prize winner and publication of the manuscript by Thomas Y. Crowell Company will take place within twelve months after the award has been made. In addition, standard royalties will be paid.

An outright award of $500 will be given to the literary magazine of the college attended by the winner, in addition to the prize of the contestant.

**Judges**

Judges of the contest include Orville Prescott of **The New York Times,** William Hogan of **The San Francisco Chronicle,** and Editors of Thomas Y. Crowell company. If the judges cannot agree on a single prize winner, the prize money will be awarded in any case, the $2500 being divided among the most worthy contestants.

Thomas Y. Crowell company reserves the exclusive right to negotiate for the publication of any novels submitted in this contest within six months after the contest closes.

Queries and entries should be sent to:

Contest Editor
Thomas Y. Crowell Company
432 Fourth Avenue
New York 16, New York

## Honorary Degrees Conferred At Building Dedication Service

Three buildings, Martin Luther hall, West hall and the Student Health center, were dedicated at a convocation and service of dedication, held in the Gideon F. Egner Memorial chapel on Tuesday afternoon, October 29. President J. Conrad Seegers presided over the program, which included the conferring of three honorary degrees.

**President J. Conrad Seegers (right) confers an honorary Doctor of Laws on Miss Nancy Duke Lewis (center), Dean of Pembroke college. Hiss Heimtraut Dietrich, Dean of Women, aids in the ceremony. The occasion was the Convocation and Building Dedication service.**

The dedicatory address was given by Rev. Charles M. Cooper of Philadelphia, president of the Lutheran Ministerium of Pennsylvania of the United Lutheran Church in America.

Recipients of Honorary degrees were Miss Nancy Duke Lewis, Sister Lydia Fischer and Mrs. Lilly B. MacIntosh. Miss Lewis was conferred an honorary Doctor of Laws for her outstanding service on behalf of education, and particularly of the education of women.

**Sister Lydia Fischer**

Sister Lydia Fischer was the recipient of an honorary Doctor of Letters in recognition of her service to the church and to education. Mrs. Lilly B. MacIntosh also received an honorary Doctor of Letters in recognition of her service to her community, to the church, and to American youth through the Girl Scout movement.

Miss Nancy Duke Lewis was the guest speaker for the occasion. Her topic was "The Education of Women." The choice of topic was in keeping with the newly initiated program of co-education at Muhlenberg.

Miss Lewis was graduated from the University of Kentucky with B.A. and M.A. degrees in mathematics. She is a member of the board of directors of the National Merit Scholarship corporation, the Hazen foundation, the Commission on Instruction and Education of the American Council on Education, and is active in the national organization of Phi Beta Kappa.

Mr. Ludwig Lenel, head of the Muhlenberg music department played the organ and led the college choir for the service.

**Band Concert**

After the services in the chapel, there was a half hour concert by the Muhlenberg college band in West hall mall. Tours of the new buildings were also conducted at this time by the Cardinal Key society. The new buildings included the newly renovated West hall and the new Martin Luther hall. Tea was served in the lounges of both dormitories.

Besides the dedication of the new buildings on campus, the Dedication service marked the official inauguration of co-education at Muhlenberg.

## Lehigh Valley Reformation Rally Features Guest Speaker, Pflum

Again, as in past years, Muhlenberg college hosted hundreds of Protestants from the Lehigh valley at a Reformation Rally held on Sunday, October 27. This Rally commemorated the religious revolution of the 16th century that marked the beginning of the Protestant Church.

The Lutheran Pastoral Association of Allentown and vicinity sponsored this annual festival of Reformation held at the Muhlenberg College Memorial hall.

The Reverend Doctor Henry J. Pflum, pastor of Christ Lutheran Church, Allentown, was the speaker for the evening. In his sermon entitled "Strength for Tasks", he pointed out three different ways by which modern Protestants may meet challenges to modern tasks. Dr. Pflum told the congregation that Martin Luther, whom he called a "giant of courage," has offered us values to meet these challenges.

**Three Avenues**

He further stated, "The challenge to modern tasks bequeathed by the Reformation can be met by modern Protestants through three avenues: (1) a living, wide-awake faith, (2) strength that comes by resisting the encroachments of material living today, and (3) by individual freedom. To obtain this faith, we must lessen the distance between ourselves and God. We must become close to Him, this close relationship is based on faith." Dr. Pflum continued his sermon by saying that "God is our refuge and strength; therefore we should not fear Him. The kingdom of Heaven is ours and shall remain ours as long as we have the courage, and stand to give account of our stewardship."

Mr. Ludwig Lenel began the service with an organ recital of selective hymns. These included "If Thou, But Suffer God to Guide Thee", "Our Father Which In Heaven Art", and "Salvation Now Hath Come To Us". The service continued with the prelude "A Mighty Fortress Is Our God", written by Martin Luther. The congregation sang the processional hymn "A Mighty Fortress Is Our God".

## Standard Oil Grant Given To College

Muhlenberg college was selected by the Esso Education foundation to receive a grant of $2,000 for the 1957-58 academic year. This grant was given to the college without restrictions except that it be used to help meet expenses directly associated with undergraduate education.

The Esso Education foundation was formed in 1955 by The Standard Oil Company of New Jersey and several of its domestic affiliates. The purpose of the foundation is to give financial aid to the nation's privately supported colleges and universities so they may continue to meet the even higher intellectual standards of modern society.

It is intended that, from year to year, additions and deletions will be made in the list of those receiving grants, in order to assist directly a representative group of privately supported schools and to encourage all such schools to seek support from their sources. Such changes will be made for the purpose of broadening support to education.

## Freshmen Class Meeting

**All freshman are requested to the Science auditorium at 7:15 tonight for an important meeting.**

**Jim Piston**
**President pro-tem Class '61**

## First Class Honors Awarded To Weekly

For the second semester of the 1956-57 academic year, the Muhlenberg **WEEKLY** has received a first class rating from the Associated Collegiate Press. This rating. was given to the **WEEKLY** on the basis of coverage, content and physical properties.

A contributing factor in the judging of college newspapers entered in the 57th All American Critical Service, was the college's enrollment. Muhlenberg was entered in the 1250-751 classification

Credit for this rating is attributed to two separate **WEEKLY** editorial staffs, since the newspaper changed hands in April of 1957. The editorial staff for the first half of the second semester was composed of: Cal Colarusso, editor-in-

(Continued on Page Six)

## M&D Production To Be Postponed

Dr. Andrew H. Erskine has announced that the production of "Othello," fall presentation of the Mask and Dagger society, has been postponed one week, from the original dates of November 14, 15, and 16 to Thursday, Friday and Saturday, November 21, 22, and 23. Sickness within the cast has slowed up the rehearsal schedule and made this change necessary.

The cast of the Shakespearean tragedy will be headed by Jim McConnell who will play Othello with Pat Shalter playing Desdemona and Dick Kennedy, Iago. The play boasts a large supporting cast including Barbara Reichenbach as Emilia; Bob Sabol, Cassio; Simon Gribben, Roderigo; Janis Horvath, Bianca; Don Michaels, Lodovico; Don Canfield, Gratiano; Mike Sanders, Duke; and Bob Kehrli will play the part of Brabantio.

Admission to the M & D production will be free to all Muhlenberg students. However, reserved seats will be sold in the Student center between November 18 and 21 for $1.35. General admission tickets will be sold for $1.00.

## *Don Haily Given Award As Outstanding Player*

**"Congratulations . . ." Taimi Toffer, Muhlenberg's football queen presents Don Hailey, Gettysburg halfback with the most valuable player trophy at halftime of last Saturday's game. The award was made by the respective newspapers of the two colleges.**

(Photo by Owen Faut)

Don Haily, left halfback for Gettysburg college, was chosen the most outstanding player during the first half of the annual Muhlenberg-Gettysburg football game last Saturday. Haily was chosen by representatives of the Muhlenberg **WEEKLY** and the **Gettysburgian** undergraduate newspapers. Karl Becker, editor-in-chief, Ron Moxey, managing editor and Bob Nuss, sports editor were the representatives for the **WEEKLY**. The representatives for the **Gettysburgian** were Bill Streier, editor-in-chief and Bob Beal, sports editor.

Taimi Toffer, Muhlenberg college Homecoming Queen, made the presentation during halftime. Her court was also in attendance for the presentation. The Queen's court consisted of Carol Coolidge, Jayne Kuntzleman, Betty Ann Lebo and Lyn Frere.

The "Old Tin Cup" which is traditionally awarded to the winner of the annual gridiron clash, was given to Gettysburg who defeated Muhlenberg by a score of 21-0. This trophy will remain in the possession of Gettysburg college until next year when the coveted trophy will again be at stake.

Originally the "Old Tin Cup" was presented to the outstanding player of the first half of the game. However, in recent years the cup has been awarded to the winning team and an individual award has been established for the outstanding player.

# Editorial Views——

## Let's Plan Ahead . . .

Although Homecoming weekend has just been completed, plans for next year's event should begin being formulated. The Muhlenberg **WEEKLY** feels that Student council should establish a Student Homecoming committee to work with Mr. Romig of the Alumni office in the planning of future Homecoming weekends.

This committee, when established, should be chaired by the social chairman of the Student council to insure the proper coordination of the various social events to be held during the weekend. Another area of coordination would include the activities of the Inter-fraternity council, which, it is hoped, would sponsor a float parade and contest, adding still further enthusiasm to the weekend activities . Proper timing of publicity would be essential. It is also essential that criteria for future Homecoming Queen elections be established, not only to promote keen competition and a more meaningful election, but to provide the most democratic election procedures possible.

Funds are necessary for the numerous prizes and expenditures, and Mr. Romig should make provision in next year's Alumni budget to provide for at least partial payment of these costs. These expenditures would benefit undergraduates and graduates alike. Another source of funds would be from the general fund of the Student council.

This committee, with the use of available funds and pregnant with ideas, could utilize the existing ground work and develop Homecoming weekend into a strong social event. Alumni in greater numbers would then return, and a spirit would develop in the undergraduates, compelling them to return in later years. This goal can only be achieved by a strong committee to develop and coordinate the planning. Student council alone, can establish this committee.

The future of a **meaningful** Homecoming weekend is in the hands of Student council. Will council act, or will it allow the groundwork to wither and die?

## No Ciarla . . . Why?

The **WEEKLY** would like to request that the Ciarla provide an open statement to the student body concerning the delay in delivery of the 1956-57 yearbooks. Space has been reserved in the next edition for this statement, which should include answers to the following questions:

1. Why are the books still unfinished? Explain causes in detail.
2. What work is being done now—and by whom?
3. Who is at fault?
4. When will the books be distributed?

When received, the statement will appear as a Letter to the Editor, but will be addressed to the entire student body. It seems only natural that the present editor of the Ciarla should assume the responsibility for the drafting of such a statement.

Since all bona fide students of the College are entitled, by virtue of their activities fee, to receive a copy of the college annual, the editors feel the request for a statement is justified. Drawing approximately fifty per cent of the cash allotment that is presented to the Publications board, the Ciarla staff should feel compelled to clarify the existing situation to the publications.

This editorial is not to be considered as an attack against the present Ciarla staff; rather, to expose an existing situation and seek the causes and explanations which the student body deserves to know.

# M&D Provides Berg With Dramatic Outlet

**Othello (Jim McConnell) strangles his wife, Desdemona (Pat Shalter) in a climatic scene in a rehearsal of Mask and Dagger's latest Shakespearean production.**

**by Barbara Fretz**

In the wild 1920's, when the fabulous Barrymores reigned on stage and moist-eyed millions mourned the death of Rudolph Valentino, theatrical history was being made at Muhlenberg, too, for dramatic organization was becoming a part of campus activities. Originally called "Cue and Scroll," this organization was given its present name, "Mask and Dagger," in 1931.

Through the years, M & D has become recognized for many outstanding performances; for example, **Romeo and Juliet** in 1942, **Journey's End** in 1944, **Hamlet** in 1947, and **Detective Story**, 1952. Incidentally, the cast of **Romeo and Juliet** included Dean Dierolf, who was then a student at Berg.

**Officers and Members**

Membership in Mask and Dagger is open to anyone in the student body. Jim McConnell, president; Spencer Tuchinsky, vice president; Martin Coover, secretary; and Dom DeBellis, treasurer, are the officers this year. Since 1942, Dr. Andrew H. Erskine has been faculty adviser of the club. Twice each year, in the fall and in the spring, a play is staged by M & D. Under Dr. Erskine's direction and with the help of his suggestions, the club members choose the play to be presented. A cast is selected by tryouts and production plans, including the planning of stage settings, all made by M & D members.

*Dr. Andrew Erskine*

Mask and Dagger welcomes coeducation. In addition to providing an available supply of feminine talent, the presence and participation of the women will enable the club to choose from a wider selection of plays, for now new emphasis can be placed on women's roles.

**Dramatic Outlet for Students**

This organization, or any college dramatic group, should not be considered only a stepping stone

(Continued on Page Six)

# Letters to the Editor

To the Editor:

The dictionary defines education as, "Discipline of mind or character through study or instruction." This does not quite cover what I would like to think of as the quality of training and mental attainments of a Muhlenberg graduate.

In a sense, the mind may be thought of as a series of compartments, one for science, one for history, psychology, etc. Anything more than superficial attainment, in each requires a special thought process. College very basically functions to develop proficiency in each of these various types of thinking.

It would seem to me that REAL LIBERAL EDUCATION involves the integration of the many fields of endeavor. The combination of thoughts from many fields on a central theme, or the production of original ideas based on thoughts from various fields, represents what is very obviously the best possible academic training, represents the highest possible intellectual achievement, represents the real learning, represents the sort of thing men will carry with them and bring to fruition all through their lives.

At the present time, aside from the all too infrequent intellectual bull sessions, there are at Muhlenberg only two organizations which stimulate such thinking, and through which such attainments can be made. These are the History of Ideas course, because it was made to do this, and the honorary fraternity in philosophy, Alpha Kappa Alpha, which recently has adopted such a policy in earnest.

I think it very necessary that a course of INTEGRATED, LIBERAL EDUCATION be made available to a larger group here at Muhlenberg. In the past few years our school has physically grown beyond what might have been imagined. The years to come will see further growth. The integration of the various fields of study here seems as much appropriate as it is overdue.

Students have done no more than express their desire for such a thing — and their realization that having it will be of great credit and advantage to Muhlenberg. Now let's try to work out a plan by which it can be put into effect.

(Signed) Phillip Feigenbaum

---

To the Editor:

Although only a few weeks of school have passed, I have already come to appreciate how fortunate I am to be one of the seniors participating in History 71, "History of Ideas." It provided an opportunity to express and use ideas and material which has been learned but stored in the past. I feel that I have also gained from this course a most healthy awareness of how ignorant I really am and the desire to take advantage of every possible opportunity to learn. Finally, I appreciate this course because it has enabled me to integrate somewhat, material I have absorbed from various departments of this school and to examine ideas expressed by students, whose areas of study have differed considerably from mine. I cannot help regretting that such a course is available to such a small group of students. I hope that sometime soon a similar course will be designed for all interested students.

(Signed) Henry N. Williams
President MCA

# Hallowe'en Originates Among Celtic Druids

**by Dick Kennedy**

We think of Hallowe'en as a time for trick-or-treat, black cats, bobbing for apples, and spooks and goblins. It is interesting, however, to turn back the pages and to investigate just where many of these customs and traditions began. What we celebrate today as a time of fantasy and a time of light fun and even gaiety was at one time the religious belief of an ancient people. Let's go back in history to the origin of Hallowe'en and see how this whole business started.

Ancient civilizations based their religion on the sun-god. Each had a name for it: the Greeks called him Apollo; the Egyptians called him Horus or Osirus; in Norway and the Scandinavians, his name was Sol; and in Peru, Bochica. The sun was their source of living. It mapped out their year for them—it divided the year into summer and winter, seed-time and harvest, and it was always the responsible figure for all the beauty and goodness on earth. The pagan "Hallowe'en" was a time at the end of summer for the mourning of the decline of the sun's glory, as well as a harvest festival of thanksgiving to him for having ripened the grain and producing a good harvest.

**Celtic Tradition**

The first real predominant features of a Hallowe'en that we might say has existed down to our present time came from the religion of the Celts, a tribe that inhabited England almost two milleniums ago. The Celts worshipped spirits of the forest, such as the brooks, hills, dales, rocks, and particularly the oak tree. They believed that in these natural places existed supernatural beings that might do them good or evil.

Druid was the title given to the priests of the Celts. The word meant "sage" derived from the Celtic word druidh, and connected with the Greek word for oak, or drus. Later, the word took on a connotation indicating "magician", showing that the priests had gained the reputation of being dealers in magic. They dealt in symbols and common objects, interposing spirits to signify certain facts.

**Sacrifices to Baal**

The chief god of the Celts was Baal, the sun-god. To him, they made sacrifices of prisoners of war and criminals, burning them alive in bonfires on the hillsides. The fires were meant to urge the gods to insure a good harvest and to protect and bless the crops. From the appearance of the burning victims, symbols were taken which foretold the future. The gods revealed the innocence or guilt of the victim by the way he endured the fire.

Immortality of the soul and reincarnation were utmost beliefs of the Celts. On the last night of the old year (October 31) the lord of death gathered all the souls of those who had died in the passing year. At this time, he decreed what forms they should inhabit for the next twelve months.

The black cat was sacred to the Druids. It was said that a slender black cat on a long silver chain used to guard treasure in the old days. Cats were dreaded because

it was thought that humans had been changed to that form by evil means.

**Samhain**

November first was the summer's end, or Samhain, as the Celts referred to it. Thanksgiving fires were built to Baal for the harvest and sacrifices were made. Black sheep were burned in these fires, and from the death struggles of these animals, omens for the future year were taken.

The Celts also thought that at this time of year the sun fell victim to his enemies for a six-month period of winter darkness. From this idea that the sun fell prey to his enemies grew the association of Samhain with death. Samhain was the day sacred to the death of the sun. Evil was ascendant at Samhain. Methods in finding the will of the spirits worked better at this time, charms and invocation had more power because the spirits were near (if care was taken not to anger them and if due honors were paid.)

**Coming of the Christians**

When the Romans invaded England, they found that the Druids exercised too much power over the people and they interfered with Roman rule in Britain. As a result, the Druids were driven off and slaughtered, and the Christian religion was substituted. The Christian fathers explained to the people that their omens were only the doings of evil spirits and the power that they seemed to possess was "black magic."

All Saints was first suggested in the fourth century in memory of all the saints since there was not enough room on the church calendar to give each one a separate day of the year. In 610, Pope Boniface IV chose a day in May for the worship of these saints, and in 835, Pope Gregory made the day compulsory. When the people flocked to Rome, they found that they could not all be fed. The day was changed from May to November so the people might be fed from the harvest bounty.

**All Souls' Day**

In the tenth century, St. Odilo, Bishop of Cluny, instituted a day of prayer and special masses for the souls of the dead. He had been told that a hermit, living in a cave, had heard the voices of the dead souls. These church holydays were celebrated by bonfires to light souls through purgatory to Paradise.

The custom of making tests to learn the future comes from the old system of augury from sacrifice. Superstitions were believed to be active at any time, but numerous special ones worked best on November eve. The tests of all the Celtic festivals have been allotted to Halowe'en. Tests are often tried blindfolded so that the seeker may be guided by fate—many are mystic—to evoke apparitions from the past or the future. Because skill and undivided attention and concentration are needed to carry them through successfully, many have degenerated into mere contests of skill.

This has only been a beginning for the examination of the origin of Hallowe'en, and we have not touched on all of those superstitions that have come down to the present day. It is difficult to trace each custom, because they are vague and no thorough study has been made, but now, we do know where Hallowe'en had its start.

## Business & Economics Club Meeting

**The Business and Economics club will present Mr. George Williams, Director of Industrial Relations for the Universal Atlas Cement company of Northampton as its first speaker.**

**TOPIC: Scope of Industrial Relations**

**TIME: Thursday, Oct. 31, at 7:30 p.m.**

**PLACE: Science building, room 105.**

*The President's Memo*

# Drinking Laws Reviewed

Last year and again this year I have received a letter from Governor Leader with reference to the provision of the state liquor law governing the serving of alcoholic beverages to minors, a problem which has occasioned the Governor considerable concern and which he is determined to do something about.

In each of these communications he called attention to the clause in the law which provides severe penalties not only if alcoholic beverages are sold to minors but if they are provided.

I have recently received a letter from the Chairman of the Pennsylvania Liquor Control Board, citing changes in the nature of the penalties, making those penalties more severe. Portions of that letter follow:

"The purpose of this letter is to bring to your attention a change in the law as to these penalties. At the last Session of the Legislature, the Penal Code was amended (Section 675), so as to increase the penalty for the misdemeanor from a fine of not exceeding Fifty Dollars ($50.00), or imprisonment not exceeding sixty (60) days, or both, to a fine not less than One Hundred Dollars ($100.00) nor more than Three Hundred Dollars ($300.00), or imprisonment not exceeding six (6) months.

"It is hoped that the increased penalty will have a deterring effect on minors who might be tempted to violate the law.

"The Pennsylvania Liquor Control Board will appreciate anything which you may do to help in the solution of this vexing problem."

I would be very grateful if you would publish this communication for the information and guidance of all concerned.

# From Here And There

by Stan Heim

Compulsory chapel has been a sore in the hide of Muhlenberg campus life for many years, and most probably, outbursts of protestation shall continue to arise in the future. Compulsion has become a dirty word in the American vocabulary. We are a people with a chip on our shoulder and resent prodding or coercion.

In the chapel a few years ago a raucous gruff voiced student bellowed "If you don't like it, stay away" in reply to those who objected to compulsory chapel. That student's blatant reply contains an essential feature of Democracy that has made our civilization the greatest the world has ever known. Freedom of movement! If something is not to our liking we have the liberty to abstain from it. Another aspect of this freedom is the license to organize and form private associations and institutions. And anyone who wishes to join them must submit and abide to the rules and regulations of that group. Such is the case at Muhlenberg. The Lutheran Church has established an institution of learning open to all who can fulfill its requirements. They have the legal right to demand that all students attend a minimum amount of chapel services. They also have the legal right to preach Lutheran doctrine in the chapel. It was our prerogative to come here and is likewise our prerogative to leave if we find it objectionable.

However, another feature enters. A feature which isn't concerned with legalistic right and wrong, but a right and wrong which can be determined only by the individual. That feature is a propounding of basic church doctrine, unidentified, to the unknowing ears of students whose religion is contrary to the doctrine heard. This "beat generation" is confused enough. Our values, if any, have been pummeled and shaken. We spend half of our life determining whether our actions are right or wrong. Any frame of reference we may have had has been kicked out from under us.

If one were to ask Muhlenberg students what the theological tenets in back of their respsctive church affiliations were an overwhelming majority could not answer. For example; on this campus last year their was a pretheological student who did not have a clear understanding of the Trinity.

When the most of us are not cognizant of our own church doctrine it is **not right** for any person to stand in the pulpit of our chapel and present unidentified doctrine which may be contrary to our own. It should be specified and given its proper tag so that we who have been driven to the stalls may know what is being fed to us. This unawareness and ignorance is not flattering and belies the supposed spiritual resurgence of the last few years. Though this is an indictment of our own ignorance, we should not be further impeded by those who do know.

# THE CAMPUS *Whirlpool*

by Dick Kennedy

Call in the National guard! Prowlers have been reported snooping around West mall. This is of national import. A meeting has been called and it has been decided that downstairs is off-limits eleven o'clock at night. Those windows have no locks, and who knows that the big bad wolf might be peering in at Red Riding Hood. And just to make sure that he doesn't see anything, Red Riding Hood is not allowed downstairs unless she is fully dressed—this includes black shroud, completely covering all parts of the body—only two slits are permitted for vision. From now on, West hall will be surrounded by floodlights, a mine field, and man-eating dogs.

With all these recent tales of the satellite, Marty Coover and ---------- were intensely moved—so intensely, that they sacrificed those early morning hours of sleep to rise at 5:00 a.m. What they saw was a white speck, crossing the sky. Marty and ---------- thought it was the satellite, but what they really saw was Mr. Kinter soaring to Redeemer church in Reading for the early mass in his winged Buick.

And speaking of Mr. Kinter, while he was in Reading, he somehow heard of a notorious 'Dutch Mary." Kinter was impressed. He immediately delegated her to talk to MCA, allowing her to choose her own topic. This woman, claims Mr. Kintner, is without a doubt, a sybil!

The new laundry room in Martin Luther dorm has caused quite a stir. The other week, Harry Baer was doing his laundry and decided that he didn't have enough soap. He had already poured in half of a box of Cheer, but still, he could see no suds. Despite the objections of others (who like to sit around in the laundry room to watch the show) (which is better than television) Harry added more. Everything seemed ok for a while, and Harry admired all his foaming suds. Suddenly, the machine turned to spin, and the suds overflowed through the top. Harry spent the rest of the afternoon mopping up the floor.

We would like to give a word of thanks to the person who clarified the "Mystery Meat" situation in the commons at the beginning of this week. "Mystery Meat" has always been a standing comment, but to make certain that no one had any qualms about what they were eating, some clever inspector (via the signature of H. Eberhart) assured us that our "Mystery Meat" is U. S. Government inspected—Grade A, when he posted a notice in the commons.

# 'Round Campus

**Thursday, October 31**

Pi Delta Epsilon will have an initaition ceremony in the Chapel lounge at 6:30.

**At 7:00 p.m., the Business and Ecnomics club meets in room 105 of the science building.**

The Psychology club will meet tonight in the Student center at 7:30. The speaker will be a Muhlenberg graduate, Reverend H. F. Gernert.

**Friday, November 1**

LSA will hold a party at the YMCA cabin. Cars leave Student center 7:00 p.m.

The commuters club will hold its meeting at 3:15 in science building, room 105.

**Monday, November 4**

**Der Deutsche Verein will hold their meeting at Dr. Barba's home in Emmaus. Cars will leave East hall at 7:00 p.m.**

The Sociological society will meet in room 310 of the Ad building at 7:30 p.m.

Phi Alpha Theta will congregate at the Swain school at 7:45 for a meeting and initiation of new members.

The Forensic council will assemble in room 201 of the Ad building at 8:00 p.m.

**Wednesday, November 6**

**The Dorm council will hold their meeting in the Student council room at 6:45 p.m.**

Pre-med club meeting in room 305 of the Science building at 7:30.

**ACADEMIC REGULATION**

**All students are advised of the following academic regulation concerning incompletes.**

**". . . a grade of "F" will be given for all incompletes not made up by the end of the eighth week of the following semester except by special permission of the instructor and the Dean of the Faculty."**

**The deadline for making up incompletes carried over from the Spring semester 1957 is Friday, November 15, 1957 at 5 p.m.**

# Mule, Mule, O Worthy Mule... We Missed Thee At The Joust

by Ovid

For three glorious jousts hast thou been present at the lists. Thou hast amused the court with thy antics and actions.. But now all this is gone for thou hast deserted thy noble habitat. Thou hast faded from the scene.

Oh Jack, such action on thy part brings great disdain from thy admirers. Every week, we looked forward to seeing thy shining morning face; thy glowing presence was worth more than the joust itself.

Oh, thou beauteous donkey; whither didst thou goest last Saturday? Thy student body sorely missed thy presence at the lists. Thou also missed the presentation of Ye Olde Teacup Trophy between the jousts. Oh my adorable Apuleius wilt thou returnest next year to the joy of thy loyal subjects?

Forsooth dear Apuleius; until next year when the jousts continue—we bid thee adieu.

Coming . . .

# Sports in Short

by Ben Livingood

When the Muhlenberg college football team takes the field against Temple university this Saturday afternoon in Philadelphia, they will more than likely be **playing without the services of several regular starters.**

At the present time, it appears that tackles Clair Miller and Bob Hieter may not see any action in Saturday's contest. Miller suffered shoulder nerve injuries in the Gettysburg game last week, and Hieter injured his left ankle during practice session on Monday.

Coach Ray Whispell plans on introducing a changed starting lineup against the Owls this week. Paul Whitcraft will be moved from center to right end to fill in for the injured Ken Hendricks, and Dick Ludwick will start at center. Bill Carty and Gerry Rehrig will replace Miller and Hieter at tackles. There will be one alteration in the backfield, as Ralph Borneman will switch from reserve quarterback to a possible starting halfback position.

There is little doubt that the injured men will be badly missed in Saturday's game, as **Temple should prove to be rugged competition.** The Owls boast an experienced team including hard-running backs Jim Thompson and Jack Charters, both of whom gave the Mules trouble last season. To date, the Philadelphia collegians have won only one contest, however, that one win was a 13-12 upset victory over Lafayette college.

* * *

Coach Whispell expressed great disappointment in the performance of his charges last week against Gettysburg. Whispell stated the main reason for the loss was the fact that "we were unable, as a team, to overcome the breaks against us." He further stated he always believes that a lost game is the fault of the coaches, but admitted that the Mule's appearance against the Bullets was their worst of the current campaign. Costly mistakes on both offense and defense hurt the Bergmen greatly. Motion pictures of the game reveal a number of missed blocks and tackles. The fact that Muhlenberg gained a total of only 36 yards throughout the entire game, speaks for itself.

The Mule gridmen began rather heavy practice sessions on Monday in hopes of being fully prepared for their upcoming match with Temple.

# Harriers Lose To Albright By 19-39 Margin

Albright's cross-country team handed Muhlenberg its fourth loss of the season, on Tuesday, by the score of 19 to 39. The meet was held on the Albright campus in Reading, Pennsylvania.

Running the 4.3 mile course, in a time of 24:04, Richard Thrasher of Albright placed first. He was followed by teammate Don Seltzer who crossed the finish after 24:19. Ron Dungan of Muhlenberg placed third with a time of 24:51, and running fourth was George Mack of Albright in 24:56.

Other finishers for Muhlenberg were Ed Thieler who placed sixth, and Pierce Knauss who broke the tape in ninth place. Albright entered a team of eight runners in the meet, while Berg entered seven harriers. No injuries marred the meet.

# Lehigh Runners Face Berg At Cedar Beach

On Thursday, November 7th, Muhlenberg's cross country team will play host to the thinclads of Lehigh university at the Cedar beach course.

The Engineers, coached by John Steckbeck, boast a veteran squad, which lost only one meet last season, to West Chester state. The Engineers have lost only two meets in the two seasons. In addition to scoring a 15-40 shutout over the Mules last year, they defeated Delaware, Temple, Rutgers, Haverford, and Lafayette. In the Middle-Atlantics the Engineers notched third place behind St. Josephs and LaSalle.

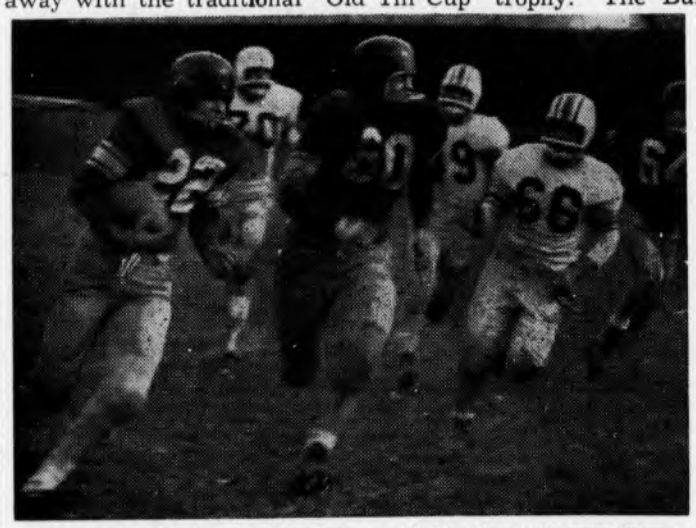
**Returning Lettermen**

Heading the list of returning lettermen are captain Bruce Gilbert and Fred Krehbiel. The other returnees are Bill Bayles, John Foote, Tom Hughes, Murray Randall, and Ken Shaner. Pressing these men is talented sophomore Bob Ransom.

# Strong Bullet Eleven Inflicts Mules First Shutout Loss, 21-0

by Ben Livingood

Gettysburg college dealt Muhlenberg its first shutout of the season, 21-0, last Saturday afternoon at Muhlenberg field. The Bullets combined a stout defense and a powerful offensive attack to capture its seventh consecutive win over a Muhlenberg eleven, and walk away with the traditional "Old Tin Cup" trophy. The Bullets were led offensively by Frank Capitani and Don Hailey.



**FOLOW ME HERB—Muhlenberg guard Jim Orr (60) runs interference for his teammate, halfback Herb Owens. In the background are three Gettysburg defenders and Muhlenberg's Glenn Johns.**

The seemingly impenetrable Gettysburg defense limited the Mules to a total gain of 36 yards, as a hard-charging seven-man line coupled with numerous penalties kept the Bergmen in their own territory throughout most of the game. At the same time, the Bullets capitalized on Muhlenberg bobbles and unleashed one of the fiercest ground attacks the Mules have encountered this season to tally twice in the first half and once more at the outset of the final period.

**Costly Fumble**

Gettysburg's first touchdown came as the result of a Muhlenberg fumble late in the opening quarter. Roger Keehn bobbled a Capitani punt, and the Bullets' left guard, Dick Rowan pounced on the loose ball giving Gettysburg a first down on the Muhlenberg 33-yard line.

Hard running by Capitani and Hailey moved the ball to the two before Hailey raced around his left end and across the goal line to give his teammates a lead which the Mules could never threaten. Harry Binger added the extra point to set the score at 7-0.

**Capitani Scores**

The Bullets scored again with 11:30 remaining in the first half, after Hailey returned Jim Nonnemaker's punt 19 yards to the Muhlenberg 21-yard line. A pass from quarterback Neil Hickoff to Arlie Olsen gave Gettysburg a first down on the 11, and on the next play Capitani fought his way around right end for the remaining yardage. Once again Binger's conversion split the uprights, giving the Orange and Blue a 14-0 half-time advantage.

In the opening moments of the third period, it looked as if Muhlenberg was beginning to move the pigskin. However, once again, the Gettysburg defense tightened and stamped out any hint of a Mule threat.

Throughout the third quarter, both teams played on more or less equal terms. The Gettysburg forward wall held the Mules in check, while a series of penalties kept the Bullets out of a threatening position.

**Final Tally**

Gettysburg finally broke the second half scoring ice with a touchdown, with 11:32 remaining in the game. The final tally of the contest was the result of a 37-yard march in five plays. It began when a partially blocked punt by Roy Madsen went out of bounds on the Muhlenberg 37. The Bullets then hit paydirt for the last time on a 15-yard pass from Hickoff to his right halfback, Earl Yost, in the end zone. Binger made it a perfect day on conversions to make the score 21-0.

The remainder of the game, for the most part, was played by the reserves, with neither team imposing any scoring threats.

The victory was Gettysburg's fourth in five starts, losing only to

(Continued on Page Four)

# Muhlenberg Cagers Prepare For Opener Against Lebanon Valley

by Don Poppe

Muhlenberg's basketball season is still a month away, but coach Birney Crum's hopefuls are already going through extensive pre-season practice. Unlike other years, Crum has only a handful of ball players on hand, but those that he has are worth talking about.

This appears to be a year of rebulding since only one starter from last year, Clint Jeffries, is back. However, there is reason to believe that the Mules may cause some raised eyebrows before this campaign is over. Coach Crum has a small nucleus of reserve lettermen to work with, in addition to the five starters from last year's outstanding freshman squad.

**Clint Jeffries**

Heading the group of lettermen is Jeffries, undoubtedly one of Berg's all-time standouts. The 6' 2" senior forward from New York city scored 385 points last year (14.8 points per game) and grabbed 302 rebounds. His best offensive effort was against St. Joseph's in Philadelphia when he scored 31 points in Berg's 77-67 upset victory. Due to this fine performance, Clint was voted the most valuable visiting player in the Palestra for 1956.

His most effective shot is a driving lay-up, but he scores equally as well with jump-shots from outside and tap-ins from underneath. He is a fine team player and is counted on to lead the Mules this season.

**Other Returnees**

Other returnees expected to see action are 6' 5" Mel Kessler, 5' 10" Steve Matell, and 5' 11" Dick McLaughlin. Kesler, a lanky forward from Brooklyn, N. Y., saw a great deal of service in a reserve role as a sophomore (162 points scored) and will be a strong candidate for a starting assignment this year. He possesses a soft jump shot and is effective under the boards.

Matell, also a junior from Brooklyn, has been used sparingly in the back court in the past, but should see more action because of his potentiality from outside and his all-around hustle and speed. MacLaughlin, a senior, has proven to be effective in spots.

**Sophomore Candidates**

Up from coach Dick Schmidt's freshman squad, which lost only to LaSalle while wining 18 games, are 6' 7" sophomores Don Robbins and Herb Loeffler, 6' 5" Dick Sekunda, and backcourt men Joe Berghold (6') and Joel Sarner (5' 10").

Robbins, a fine rebounder, has looked very impressive in practice thus far. He has improved his offensive punch considerably, and should do very well this year. Loeffler, who was used as a forward last year, handles the ball well, but did not score consistently as a freshman. Sekunda, high frosh scorer with a 16.4 average

# Owl Gridmen Provide Next Test For Mules

This Saturday the Mules invade Philadelphia to play the cherry and white of Temple. After losing their first two games to Bucknell and Hofstra respectively, the Owls bounced back to pull a big upset by defeating Lafayette 13 to 12.

The Templar's game with Scranton scheduled for last Saturday was postponed because of the Asia flu. The Owls operate from the T and plan to do more passing than in previous years. They have twelve returning lettermen with several sophomores having broken into the starting lineup.

In their upset win over Lafayette, the Templars were sparked by the passing of quarterback Bud Fahey. The Owls were dealt a severe blow when he wrenched his knee late in the game. This hard-luck senior also missed several games last year because of an injury. Fahey will be replaced by senior Jed Lankitus, who has done a very capable job in the past.

**Backfield Threat**

The big ground gainer for Temple is halfback Jimmy Thompson, who has gained 157 yards on 37 attempts for an average of 4.2 yards per carry. Ray Norton, a junior who missed last season because of a broken leg, will be the other halfback. Jack Charters will start at fullback, with Mike Logan also seeing action in this slot.

The line, averaging over 205 pounds, will start with sophomore Joe Pooler and Dave Diehl at the ends; Matt Dabrowolski and Paul Kulinski at tackles; Chuck Panello and Paul Hallaway at the guard spots; and senior Ron Becker at center. Sophomores Bob Arangio and Bob Schoen will also be used frequently at tackle and end respectively. A standout in the Lafayette game was 205 pound guard Chuck Panello, as he recovered three fumbles and made several crushing tackles.

The Templars will be minus lettermen Chad O'Shea, a hard running halfback; end Lonnie Staton; and Fahey due to injuries.

## LaSalle Booters Edge Mules By 3-2 Margin

The Explorers of LaSalle invaded the Muhlenberg campus on Saturday, October 26, and handed the soccer team its fourth loss in five games by scoring a 3-2 victory.

Muhlenberg scored first when Frank Czascar scored in the second quarter. However, LaSalle's Tom Lysianski booted his team into a tie when he scored late in the second period.

**Berg Takes Lead**

After the half, Muhlenberg went into the lead again when Ralph Stosser scored, but LaSalle quickly retaliated when Jim Beckett booted one home.

The teams went into the final period with a 2-2 deadlock. This tie, however, was not a permanent one and Lysianski, who previously had scored in the second quarter, knocked the winning goal into the net and LaSalle gained their winning margin.

**Previous Losses**

The Mules previously had lost to Lehigh, Franklin and Marshall, and Lafayette. Their only victory has come by way of Stevens Tech, who they beat on Homecoming Day, 4-3.

The Cardinal and Gray have three more games before they compete in the newly organized Middle Atlantic Soccer championship on November 22. They play Delaware and Rutgers away and their final game is with Bucknell at home.

# Freshman Team Suffers Second Straight Setback At Hands Of Lafayette; 14-6

A resurgent Muhlenberg freshman team fell short in a second half effort and fell prey to a quick-striking Lafayette freshman team last Friday in Easton by a 14-6 count. The Leopards gained their first score and what was to prove to be a sufficient margin of victory when they scored 9 plays after the opening kick-off.

Striking on a pass play, quarterback John Pierce collaborated with Charley Bartos on a 29 yard jaunt. This play climaxed a 76 yard drive which started with the first play from scrimmage. Jim Wild converted to give the Maroon and White a lead they never relinquished.

**Mules Dominate Play**

The game proceeded in a see-saw fashion until the third quarter when the Mules so completely dominated the play that the Leopards ran only one play from scrimmage the entire third period, after stopping a Muhlenberg drive on the one.

In the fourth quarter the Little Mules drove for their only score. Due to a back injury to Tom Wargo, regular quarterback, the Frosh drove the 70 yards on the ground. They were led by fullback Ed Yost of Allentown and Jim Hoffer, gaining 26 yards apiece in the drive. Wargo returned briefly to attempt the extra point but was unsuccessful. Lafayette applied the clincher with a sparkling 59 yard sprint by the Mules' nemesis, Charley Bartos. Dick Herbster converted to make the final totals read 14-6.

Another dark spot occurred when the Little Mules' promising halfback, Sal Messina suffered a broken ankle and will be sidelined for the balance of the season.

The defeat gave the Mules a 0-2 record and evened Lafayette's slate at 1-1. Stevens Trade School will be the Mules next opponents as they meet next Friday on Muhlenberg Field.

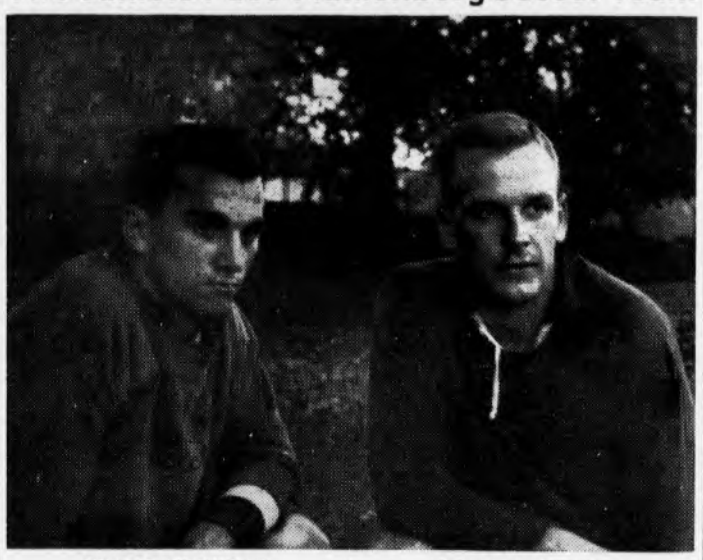
## Two Juniors Pace Muhlenberg Soccer Team



**FRANK CZASCAR**

For the past two years Muhlenberg's soccer team has been sparked by the outstanding play of Frank Czascar. Before coming to Muhlenberg Frank played four years of soccer for his high school in Belleville, New Jersey. While in high school Frank also played basketball, track, and tennis.

As a Chemistry Major, Frank has to put a lot of time in on the books, but he still finds time to be an active member of the M-club.

Frank is second high scorer on this year's soccer team. So far this season, from his inside right position he has booted three goals into the nets.

Czascar feels that the morale of the team at this point is low. He attributes this to the unsuccessful season so far, but hopes for an improvement soon.

**JOHN HOLCROFT**

"This year Muhlenberg has potentially their best soccer team in ten years." This sentiment was expressed by John Holcroft who is playing his first full season of soccer. John is definitely one of the outstanding players on this year's team. Playing at the outside left position he has scored four goals in five games, to lead the team in the scoring department. This scoring ability of John's could be seen last year when he started the last few games of the season.

John went to high school in Philadelphia where he won three letters for soccer, baseball, and basketball.

Here at Berg John also plays the infield on the baseball team, and is very active in intramural sports. John is a brother at Phi Kappa Tau. His other activities include Phi Sigma Iota and Phi Alpha Theta.

John thinks that "the team this year has been hurt with injuries to key players Tex Ritter and Tuck Vollmer, and by the Asiatic Flu."

## Cross Country Squad Engages Greyhounds

The Muhlenberg harriers will be looking for their first win of the season when they oppose Moravian on Tuesday, November 5, at Cedar Park. The Mules have been unsuccessful in their three meets thus far this season.

Moravian is in their first year of Intercollegiate cross country competition, and have a team composed of mostly freshmen. They sport a one win and one loss record with the win being over PMC, 22-37. Two of their meets have been cancelled because of sickness.

The leaders of the Greyhound squad are Hank Sunyak, who placed second in the win over PMC, John Jacobs and Bob Fatzinger, all freshmen.

The Mules will be expecting juniors Pierce Knauss and Ed Thieler and sophomore Ron Dungan to lead them to their first victory.

## Wrestling Candidates

**There will be a meeting of candidates for the wrestling team on November 4 at 7:15 p.m. in Memorial hall**

**Coach Carl Frankett**

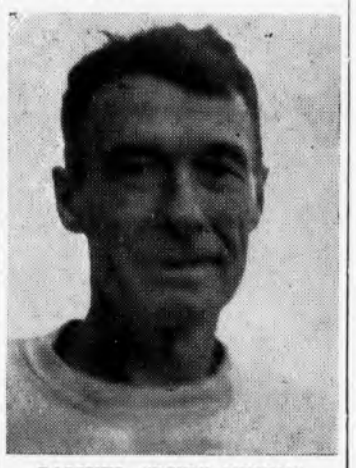
# Past All-American Now Soccer Mentor

**by Dick Hess**

Samuel L. Nevins is in his fifth season as head coach of the Muhlenberg soccer team. Again this year, he is attempting to mold a team with a limited number of players and support.

Coach Nevins is a social science teacher at Whitehall High school in Hokendauqua, Pa. His activities at Berg as soccer coach show only a portion of his interest in organized athletics. He also serves as faculty manager of athletics for his High school.

Mr. Nevins is a graduate of Lehigh university, Class of 1927, where he received a Bachelor of Arts degree. While attending Lehigh he was recognized as one of the outstanding soccer players in the country, and received a position on the All-American soccer team of 1927.



**SAMUEL "BUD" NEVINS**

Upon graduation from college, Mr. Nevins was signed by the St. Louis Cardinals and played for the major league club for a few seasons. In 1949 Coach Nevins returned to his Alma Mater, but this time to acquire his Master or Arts in Education.

Coach Nevins is married and the father of two girls, one 8 years old and the other 16. He has been employed by Whitehall High school for 27 years, and hopes for many more pleasant years of teaching.

Hampered by injuries and the influenza epidemic, which affected many of his players, Coach Nevins hopes to be able to field a team at full strength. He has hopes for a fair season, provided a full team is able to play. However, even with some of his regulars on the sick list, Coach Nevins guarantees a fight for any team that plays the Mules.

# Teacher Exams To Be Offered

The National Teacher Examinations, prepared and administered annually by Educational Testing Service, will be given at 250 testing centers throughout the United States on Saturday, February 15, 1958.

At the one-day testing session a candidate may take the Common Examinations, which include tests in Professional Information, General Culture, English Expression, and Non-verbal Reaesoning; and one or two of eleven Optional Examinations designed to demonstrate mastery of subject matter to be taught. The college which a candidate is attending, or the school system in which he is seeking employment, will advise him whether he should take the National Teacher Examinations and which of the Optional Examinations to select.

A Bulletin of Information (in which an application is inserted) describing registration procedure and containing sample test questions may be obtained from college officials, school superintendents, or directly from the National Teacher Examinations, Educational Testing Service, 20 Nassau street, Princeton, New Jersey. Completed applications, accompanied by proper examination fees, will be accepted by the ETS office during November and December, and in January as long as they are received before January 17, 1958.

# WEEKLY Honored

# Basketball Practice

(Continued on Page Four)

is counted on heavily. He has a deadly jump shot from outside and handles himself well underneath the basket.

**Backcourt Men**

Berghold, a good rebounder for his size, was right behind Sekunda in scoring with a 15.6 average. He is a good driver and has a better-than-average jump shot. Sarner, despite his size, was a big surprise as he averaged 12.6 points per game as a member of last year's frosh team. He is very aggressive and a fine ball handler.

Other candidates include seniors Bob Lukens and Bill Dissinger, juniors Bob Beeton and Charles Hoffman, and sophomore Ken Hendricks. Lukens, a 6' nonletterman, possesses a soft jump shot and has good speed. Hoffman, a 6' 3" forward and transfer from Gettysburg, is a good rebounder and has come up with a deadly jumper. Hendricks, 6' 5" footballer, spelled Loeffler and Robbins, as a freshman, and scored from the corner and around the key with a push shot.

Fortunately for coach Crum, now in his fourth season as head basketball mentor, the opening game with Lebanon Valley on December 6 is still five weeks away. During this time it will be his job to select the starting five, and mold them into a cohesive unit. The quantity is lacking, but the potential is very evident.

# Reformation Service

(Continued from Page One)

**Psalm 46**

Psalm 46, a factor in Dr. Pflum's sermon, was read responsively by the congregation. The First and Second Lessons were taken from Galatian 2:16-21 and Saint John 8:31-36, respectively. The sermon followed the sermon hymn 11, Lord Keep Us Steadfast In Thy Word" and the service ended with the Recessional Hymn "Through the Night of Doubt and Sorrow."

The Liturgists for the service were: The President of Pastoral, the Reverend Samuel F. Stauffer, Pastor of St. Luke's Evangelical Lutheran Church, Allentown; and the Secretary of Pastoral, the Reverend Evans R. Keim, Jr., Pastor of St. Mark's Evangelical Lutheran Church, Allentown.

At the service the Muhlenberg College Choir appeared before the public for the first time with coeds participating in the singing.

## The Chowline

Breakfast served in the Snack bar manner is a treat that can not be copied by anyone anywhere. Prices are extremely reasonable and the selection offered is of enormous proportions.

A wide variety of juices are on hand for the thirsty student, pineapple, tomato, grapefruit, orange, and blended, providing the backbone of the selection. All juices sell for ten cents, except the fresh orange juice, which is provided at 15 cents per serving.

An enormous selection of fresh cereal, served with cold milk, can be purchased for the nominal price of twenty cents. Powdered, glazed, and jelly doughnuts are also available for five cents apiece. A variety of buns, both of the sticky and powder type, can be purchased for ten cents. Served with butter, the buns are a tasty breakfast requiring little time to prepare or consume.

The typical breakfast of the American college student, consisting of two eggs, toast and coffee can also be purchased at the Snack bar at the nominal price of forty cents. Served with a smile this breakfast can also be consumed in a limited amount of time, perfect for the late student.

As you can well see the breakfast menu of the Snack bar is geared to the interest and time limitations of the student body.

A "Bald Spot" production

# . . . Student Council Report . . .

October 24, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:06 p.m. by President Luis Torres. All members were present.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $2,817.26 |
| Social fund | 2,367.21 |
| Assembly Fund | 1,835.27 |
| Total | $7,019.74 |

**COMMITTEE REPORTS:—**

Social:—Council approved the membership of the Social Code committee as presented by Mr. Skweir:

Leon Skweir, Chr.—Student Council
Ronald Moxey—**WEEKLY**
Henry Williams—MCA
Walter Schmuann—IFC
Richard Truchses—Band, Choir
Leonard Swann—Commuters' Club
Jayne Kuntzleman—Women's Dorm Council

Dorm:—Mr. Gurski reported that Freshmen were currently washing the windows in East hall.

Chapel:—Mr. Ueberroth reported that one Chapel slip had been revoked during the previous week.

**OLD BUSINESS:—**

On motion by Mr. Spector and Mr. Leighton, Council rescinded its decision to rent a mule skin for this Saturday's football game.

The President announced the members of the Honor Court, as approved by Dean Richards and recommended by Student council to be:

Karl Becker, Chr. — Richard Truchses
Henry Williams — Burt Eisenbud
Arnold Markoe

On motion by Mr. Skweir and Mr. Piston, Student council will instruct the Freshman Tribunal to terminate Freshmen Regulations on Hallowe'en. It was apparent to Council that none of the Soph-Frosh events could be held this year, upon the recommendation of the College physician.

Mr. Ueberroth moved and Mr. Smith seconded a motion that Muhlenberg become a member of the Intercollegiate Press Association. Motion was defeated.

**NEW BUSINESS:—**

Mr. Skweir moved and Mr. Leighton seconded a motion that $700.00 of the Social Fund be transferred to the account of the Senior Class to be used for the expenses of the Senior Ball. Motion carried.

On motion by Mr. Spector and Mr. Skweir, the money received from the juke box in the Student center will go to the Social fund.

The meeting adjourned at 7:51 p.m. on motion by Messrs. Spector and Piston.

Respectfully submitted,
RAY UEBERROTH
Recording Secretary

# Freshmen And Sophomores Planning 'Harvest Moon Hop'

"Harvest Moon Hop" will be the theme of the annual Soph-Frosh dance which will be held on Friday evening, November 8 at the Frolics ballroom. Matt Gillespie and his orchestra will supply the music for the informal affair which will last from 9 p.m. to 1 a.m.

Admission is free to all Muhlenberg students and their dates, however, no one will be admitted without a student activties card.

The Soph-Frosh dance is the first big event on the Muhlenberg social calendar. It is a joint project of the freshman and the sophomore classes and is annually undertaken after the termination of freshman regulations. This year, the sophomore class dance committee and the executive council have been made one committee under the co-chairmanship of Stan Dudak and Dick Weller.

Other members of the committee include: Dick Anderson, Dave Auerbach, Tom Carpenter, Ed Davis, Tom Hains, Asher Krafchick, Morris Linett, Ted Rindfleisch, Matt Scanlon, Ben Schoellkopf, Al Stott, Ken Stuart and Gordie Warner.

The decoration committee is headed by Barbara Sher, Barbara Fretz, and Carol Hodson.

# Mask & Dagger Society History

(Continued from Page Two)

to higher things in the theater—although two M & D alumni have succeeded in the field of radio and television, and one has succeeded in Hollywood and on Broadway. As Dr. Erskine has said: "The college theater should provide not a training ground for young actors, but a dramatic outlet for all students."

Mask and Dagger is striving to present only that which is worthwhile to the men and women at Muhlenberg. "The purpose of the educational theater," explains Dr. Erskine, "is not to strive for box office success, but to produce past and present plays which have something of enduring value to say."

Sticklers!

NO SORRIER WARRIOR exists than the one without Luckies. What's he missing? A smoke that's as light as they come! End to end, a Lucky is made of superbly light tobacco—golden rich, wonderfully good-tasting tobacco that's toasted to taste even better. That's a lot to miss out on—no wonder our chief has grief! Up North, you'd call him a Blue Sioux; back East, a Bleak Creek. But out in the land of the pueblo, he's just a mighty *Mopey Hopi.* (Smoke signal to you: Light up a Lucky. You'll agree a light smoke's the right smoke for you!)

STUDENTS! MAKE $25

Do you like to shirk work? Here's some *easy* money—start Stickling! We'll pay $25 for every Stickler we print—and for hundreds more that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

LIGHT UP A light SMOKE—LIGHT UP A LUCKY!

## Honorary Journalism Fraternity Initiates Three Weekly Editors

**Bob Nuss signs the Pi Delta Epsilon ledger as (from left to right) President Ron Moxey, and new initiates Larry Woodward and Ben Livingood look on. The ceremony took place last Thursday evening in the Chapel lounge.**

Pi Delta Epsilon, national honorary journalism fraternity, held initiations for three men last Thursday evening. The ceremony was presided over by president Ron Moxey and began at 6:30 p.m. The three men who were initiated were Ben Livingood, Robert Nuss and Larry Woodward.

Ben Livingood, a junior from Wyomissing, has been on the city and the sports staffs of the **WEEKLY** since his freshman year. He is currently the associate sports editor of the **WEEKLY.** In addition to this job "Skip" also works for the Allentown Morning Call. He is a brother at Lambda Chi Alpha social fraternity and is majoring in English.

**Editors Initiated**

Robert Nuss, from Boyertown, is a senior pre-medical student. He has been on the sports staff of the **WEEKLY** for two years and presently serves as sports editor. Bob is a brother and secretary of the Alpha Tau Omega social fraternity and is president of the Cardinal Key society.

A junior English major from Broomall, Larry Woodward was a member of the city page staff of the **WEEKLY** for two years, before assuming his present posi-

## Campus Chess Match To Feature Cleaver

Mr. Mahlon Cleaver, local chess expert, will hold a simultaneous chess tournament in the Woman's Commuters room in West hall, on Monday, November 11 at 7 p.m. Mr. Cleaver will challenge any number of players, simultaneously. The chess boards will be placed in a circle and he will move from board to board, making his move at each one.

Any students, faculty or members of the administration who are interested in competing against Mr. Cleaver, are urged to attend the tournament.

Mr. Mahlon Cleaver is a Muhlenberg graduate, class of '57. Among his achievements in the field of chess are the winning of the Tri-State tournament.

## Fellowships To Be Given By Danforth

Senior men and recent graduates who are preparing themselves for a career of college teaching, and are planning to enter graduate school in September, 1958, for their first year of graduate study are invited to apply to the Danforth foundation for the seventh class of Danforth Graduate fellows.

The foundation welcomes applicants from the areas of natural and biological sciences, social sciences, humanities and all fields of specialization to be found in the undergraduate college.

**Liaison Officer**

President J. Conrad Seegers has named Dr. William C. Wilbur as the Liaison officer to nominate to the Danforth foundation two or not to exceed three candidates for these 1958 fellowships. These appointments are fundamentally "a relationship of encouragement" throughout the years of graduate study, carrying a promise of financial aid within prescribed conditions as there may be need. The maximum annual grant for single Fellows is $1400 plus tuition and fees charged to all graduate students; for married Fellows, $2400 plus tuition and fees charged to all graduate students with an additional stipend of $350 for children. Students with or without financial need are invited to apply.

A Danforth Fellow is allowed to carry other scholarship appointments, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc., concurrently with his Danforth fellowship, and applicants for these appointments are cordially invited to apply at the same time for a Danforth fellowship. If a man receives the Danforth appointment, together with a Rhodes scholarship, Fulbright scholarship, or Woodrow Wilson fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are complete.

All Danforth fellows will participate in the annual Danforth Foundation Conference on Teaching, to be held at Camp Miniwanca next September.

## 'Harvest Moon Hop' To Feature Music of Matt Gillespie's Band

The annual dance, sponsored by the sophomore and freshmen classes of Muhlenberg college, this year will feaure the music of Matt Gillespie and his orchestra to the theme of "Harvest Moon Hop" at the Frolics ballroom on Friday evening, Nov. 8. The dance, which will last from 9 p.m. to 1 a.m., will be free to all Muhlenberg students and their dates, and dress will be informal.

**Matt Gillespie's band will provide the music for the "Harvest Moon Hop" tomorrow night at the Frolics ballroom. Mr. Gillespie's band is not new to Muhlenberg since the local aggregation has previously played for Berg dances.**

Matt Gillespie, who has provided the music for numerous Muhlenberg dances in the past, boasts a 13 piece band and vocalist. Gillespie has also been popular with other schools in the Lehigh valley such as Lehigh university and Lafayette college.

The first major social event on Muhlenberg's social calendar, the "Harvest Moon Hop" is the result of the combined efforts of the sophomore and freshmen classes of the college. Traditionally, the dance follows the termination of the enforcement of freshmen regulations by all upperclassmen. As the dance is free to all Muhlenberg students, no one will be admitted without the presentation of the student activities card issued to him by the college.

**Dance Committee**

Customarily, the dance committee and the executive committee are separately-functioning units of the organization of each class. However, this year these two committees have been unified into a single committee in charge of the social affair, under the co-chairmanship of Stan Dudak and Dick Weller. Other members of this joint committee include Richard Anderson, Dave Auerbach, Ed Davis, Tom Haines, Asher Kraftchik, Morris Linnet, Ted Rindfleisch, Matt Scanlon, Ben Schoellkopf, Al Stott, Ken Stewart, Gordon Warner, and Tom Carpenter, president of the sophomore class.

**Decorations Committee**

The committee in charge of decorations is comprised of Barbara Sher, Barbara Fretz, and Carol Hodson. There will be no decorating before Friday, and all members of either class who wish to aid in the work of decorating will contact one of the members of the decorating committee. Approximately twenty co-eds have already volunteered their help in this project. The co-eds will also be preparing the programs and invitations for the dance.

The chaperones for the occasion are Dr. Wegener and Miss Stafford. Honored guests for the dance have not as yet been decided upon.

## Arcade Receives Second Place Recognition In National Publications Contest At Cornell

Muhlenberg's literary magazine, the **Arcade**, received a second place award in national competition, when it was entered in a college enrollment classification of 600-1200, at Cornell university on October 26. A first place award in this division was given to Alfred university and a third place was awarded to Coe college.

The contest was held for newspapers, literary magazines and yearbooks. The literary magazines were judged on the basis of the publications for the entire year rather than for publications of just one semester. The Arcade was judged on the basis of its fall and its spring editions of the 1956-57 academic year.

This contest is sponsored annually by Pi Delta Epsilon, national honorary journalism fraternity. The only requirements for this contest are that a chapter of the fraternity be represented on the campus of the colleges whose publications are entered.

**Others Honored**

Honors were also given to two other Lehigh valley colleges. Le-

## Atlas Executive Speaks At Meeting

Mr. George Williams, Supervisor of Industrial relations at Universal Atlas Cement company in Northampton, was the guest speaker at a meeting of the business and economics club, held on October 31 at 7:30 p.m. Mr. Williams' topic was "Industrial Relations in the Relatively Small Plants."

He divided his topic into five major areas; industrial safety, administration of employee welfare and benefits, employment, training of personnel, and the labor relations field. Mr. Williams discussed the various problems in these areas of industrial relations and also their solutions. As an additional point of interest, he discussed the nationwide cement strike which took place this summer and in which Atlas Cement company played a major role.

**Field Trip**

A discussion concerning a field trip to the Stock Exchange in New York city was also held at this meeting. It was voted upon and decided that a large percentage of the members present would be able to attend. The trip will take place on December 2 and the day will be spent touring the Stock Exchange, the Federal reserve and other place of interest. Dean Henry M. M. Richards, who has had experience in the Stock Exchange, will acompany the group and act as moderator for the tour.

A list for the field trip will be placed on the bulletin board outside the Economics department office. Interested students are requested to sign up for the trip before Wednesday, November 11.

## Reporter Nabbed By Campus Police In attempt To Cover Mass Cremation

**by Earl Knies**

I was just standing there minding my own business, watching the guys trying on their ill-gotten underwear. Pretty soon they decided to go back to the laundry room for more, so I figured I'd tag along and get the details. Well, I had no sooner walked in the door then all the guys came barging out again, with Mrs. Brown, Nuss, and Becker in hot pursuit. I stood in the corner so I wouldn't get trampled, but everybody stopped Harvey had arrived from the other side and now the boys were surrounded.

"All right, let's have your A-cards," he commanded. "You too," he said as he spotted me in the corner.

"But Harvey, I'm here for the **WEEKLY,"** I protested.

"Give me your card!"

So there I was. It all started over in the Science auditorium around 7:30. I walked in with Don Nase to watch the pre-burial warm-up, which was already in progress. As we came into the building, the Frosh were chanting, "We want Inskip, we want Inskip," but when someone spotted Nase, they decided he'd do. He was very gently ushered to the front of the room by about ten muscular frosh, where he was requested to do such things as sing the **Alma Mater** and lead cheers,

**Three men, garbed in black, conduct the ceremony at the traditional burial of the Tribunal. The coffin and its contents were later cremated. From left to right are Bob Petersen, Barry Leighton and Art Hahn.**

things that were all quite familiar to him. He very willingly complied—not that he had much choice. The Frosh seemed to enjoy this type of thing immensely, and when Inskip foolishly entered the scene they treated him in a like manner.

While this was going on the pall-bearers, dressed in chapel gowns and silk hats, were getting last-minute instructions from Haps. Then the band scheduled to play for the evening's festivities arrived amid wild cheers and applause. The Frosh were definitely up for this one. The musicians began to play the background music and the Frosh immediately picked up the eerie chant, "Cheer up Tribunal, the worst is yet to come!" The pallbearers lifted the epitaph-bedecked coffin and the Tribunal's effigy, ready to begin the death march.

"The rest of you fall in two by two," Haps shouted, and the mad

## Mail Room Notice

**To facilitate the handling of mail, it is requested that the student body inform all interested persons as to their correct mailing address, including the mail box number. Your cooperation will be greatly appreciated.**

**Howard MacGregor**
**College Treasurer**

## Four Muhlenberg Delegates To Attend Press Conference

Four delegates from the Muhlenberg **WEEKLY,** Karl Becker, editor-in-chief, Ron Moxey, managing editor, Dick Kennedy, feature editor and Larry Woodward, city editor, will attend the 33rd Annual Associated Collegiate Press conference at the Hotel New Yorker in New York city on Thursday, Friday and Saturday, November 7, 8, and 9. The conference will consist of lectures and discussions of the various phases of journalism as related to college publications.

Separate meetings are held during the course of the convention, to discuss particular phases of journalism, such as sports, features, city, and management. The speakers for the lectures and discussions are editors of large newspapers and men who are outstanding in the field of journalism. Last year, Norman E. Isaacs, manager of the Louisville Times in Louisville, Kentucky, was the guest speaker at the Saturday evening conference dinner. Mr. Isaac's topic was "Your Stake In A Free Press."

Last year's conference, which was held at the Statler Hotel in Cleveland, was attended by 817 delegates of colleges from 37 states, including Washington, D.C., Canada and Hawaii. The Muhlenberg delegation, last year, consisted of Cal Colarusso, Jim Mackenzie, Ron Moxey and Karl Becker.

## Der Deutsche Verein Hears Preston Barba

On Monday, November 4 at 7:30 p.m., Der Deutsche Verein, the German language club, held its meeting at the home of Dr. Preston A. Barba in Emmaus. Dr. Barba spoke on "Pennsylvania German Culture."

Dr. Barba explained the symbolism of the paintings on the sides of many Pennsylvania German barns. He pointed out that many people believe that these markings are hex signs. This is a mistake made by New England historians who knew very little about the German culture. Actually the designs on the sides of Pennsylvania German barns are representations of the sun, a predominant symbol in the symbol of life, or the tree of life. Germanic reverance to the tree of life is also present in many of their other symbols, such as the Christmas tree.

## Give An Inch . . .

In past years, fraternity rushing has been much debated, discussed and argued. Rules were given little alteration and fraternities were obliged to conduct rushing only during allotted periods set aside for that purpose. Until this year, conditions have remained so. Our present Inter-fraternity council has considered rushing and has come up with a conclusion which, they thought, would settle the age old problem and which would allow freshmen a greater opportunity to choose the fraternity to which they were best suited.

**As the situation now stands, it is permissable for any fraternity man to rush any freshman—with only one reservation: that the freshman not be permitted on fraternity property nor in any place obtained by the fraternity for the purpose of a fraternity function.** This, we must agree, is the furthest possible allowance that IFC could make and still adhere to a certain amount of control.

However, there are individuals—or groups of individuals—who believe either that this regulation is too stringent or that rules are made only for some. Evidentally, a stride such as that which has been taken by IFC is not sufficient to open both freshmen and fraternities to a free rushing schedule; some must persist in taking the extra last foot of rope.

**Why is it, that with this liberal policy set forth by IFC, certain fraternities still insist on breaking rules?** These infractions are just what prohibit any successful development in the much-striven-for honor system. Actions of this kind exhibit a lack of principle and honor. **If a fraternity cannot remain within the broad bounds drawn by the officiating body, some definite curtailment should put a halt to these violations without further hesitation.**

# 'Round Campus

**Thursday, November 7**

**The DeMolay club will meet in the Chapel lounge tonight at 7:30.**

Alpha Kappa Alpha, honorary philosophy fraternity will meet tonight at the home of Dr. Stine (2116 Allen st.) at 8:00.

**Friday, November 8**

**The first big dance of the year, the Soph-Frosh hop, will be held at the Frolics ballroom tonight beginning at 9:00.**

**Saturday, November 9**

While houseparties of the big weekend are taking place, the Muhlenberg gridders will travel to Hofstra in New York, seeking their fifth win.

**Sunday, November 10**

**The Lutheran Student Association will hold its meeting and devotional service in the Student center tonight at 7:30.**

**Monday, November 11**

The Psychology club will meet in room 209 of the Ad building this afternoon at 4:00.

**At 7:30, Dr. Powell will be the speaker at the Science club meeting to be held in science building room 105.**

Also at 7:30, the Pre-Theo club will hold its meeting in the Pre-Theo room of the Student center.

**The Forensic council will conduct its meeting at 8:00 in Ad room 201.**

**Tuesday, November 12**

The Education society will meet in the Student center lounge at 9:00 p.m.

**Muhlenberg Weekly**

# THE CAMPUS Whirlpool

**by Dick Kennedy**

West hall is literally in the spotlight this week. Plans have been made for the rear area to be completely floodlighted (and appropriately so after the episode which occurred last Thursday evening.) The officials, judging from certain acts of pranksters, thought that this would put a stop to said atrocities. Several fellows now claim squatters' rights to various unmentionables which filtered through the portals of the dorm and, according to the higher-ups, **"this is not to be."**

Another brilliant job was done by Mr. Knies in the recounting of the "mob-tale." **It is even more amusing, however, to watch Earl as he follows through with one of these stories.** He races from one person to another, asking "What was that? Who? Where? Get who? Zell?" It should be the policy, henceforth, to **send a reporter to report on Earl** as he goes through the paces of recording his stories. (What really takes the cake is that Earl wasn't kidding when he says he had his athletic card revoked.)

But not going to school events couldn't be too bad. Ron Flaig has found an answer to the problem of spending too much money on a houseparty weekend. **While Ron studies his zoology, his date will knit.** In this way, he is killing two birds with one stone.

West hall has a complementary character to fill in the place of Schroeder in the "Peanuts" comic strip. **There is a girl who actually carries a blanket with her when she studies.** It is "too much' 'to see her parade through the halls with this blanket fondly draped around her shoulders. It gives her security, so they say.

Those who have read John O'Hara's new novel, **Ten North Frederick,** must have seen the space the author allotted for the advocation of a small college education—particularly at a school like Muhlenberg. Here is what O'Hara says: **"The difference between having a boy at Yale and sending him to Dickinson, Lafayette or Muhlenberg was not important financially. But there existed a strong feeling in Pennsylvania in favor of the good nearby colleges, and a slight prejudice against Yale as a New England institution and Princeton as too strongly Southern.'** This is not the only occasion where O'Hara mentions Muhlenberg. It is interesting to note how he is in strong favor of our college, as compared to some of the larger universities.

It has been rumored that Russia sent up an emergency satellite to follow the last one. This latest rocket is said to contain a fire-plug.

# Mystery Thriller Enthralls Luther Hall TV Followers

**by Marv Hyett**

It is the immedaite pleasure of those fortunate few who live in the new dorm to be permitted the privilege of watching (oh wonder of wonders) television. On Tuesday nights, a small but hardy band of brigands gathers stealthily to watch the most bizarre of family entertainments, the horror movie. For those who have been deprived of this benefit, it is here presented forthwith.

The cast of our movie is stereotyped by necessity. It reads as follows:

Mad scientist—Walt Disnie
Beautiful young girl—Zazu Potts
Hero-type boyfriend—King Kong
Monster—Mickey Mouse
Assorted chemicals, test tubes, etc.—courtesy of Chem dept.

As the scene opens, it is a dark, stormy night, somewhere off the coast of Staten Island. A huge medieval castle looms in the distance . Suddenly, a long black Edsel, looking like an Oldsmobile sucking lemons, speeds up the road, plunges toward the drawbridge, and falls into the moat. A handsome young man, evidently suffering an Oedipus complex, gets out with a beautiful young girl. They run through the rain and stop at the door of the Castle. They knock. Slowly, the door opens and they are admitted into the castle by a cross-eyed cyclops. The girl shudders and clings tightly to the sleeve of her boyfriend's suit (courtesy of Robert Hall.)

Entering the living-room, they see a tall, attractive woman with a huge black hat who turns slowly and says "Hello. I'm the Coty girl," and then disappears in a cloud of motorcycle exhaust.

Suddenly, the lights go out, the girl screams. The boy says "I'm sorry," and turns on the lights again. But she's gone! Frantically, our hero runs for the basement where he hears strange sounds. He creeps quietly down the dark tier of steps until he sees a ray of light eminating from the doorway.

Inside this room, his eyes slowly grow accustomed to the blinding light and there before him, he sees a huge neon sign "Eat at the Commons and Break the Food Habit."

Strapped on the table is the unconsicous girl. Two tubes are in her arm, one tube pumping out blood, the other pumping in a mixture of bug juice and cold cream. A mad scientist reaches up and pulls a switch. The hero runs forward, but he is too late. Slowly rising off the table, the fiendish creation dramatically chants "Who's the leader of the club that's made for you and me—M-i-c-k- . . ."

Here, the story ends, leaving the observer in complete bafflement.

# West Hall Showered With "Belle Lettres"

"Dear Irm:

How does one address a person who has their picture in 'Life Magazine?' Her Excellency? Her Honor? Her Grace? The Honorable?' . . ." so goes **Life.** The repercussions are coming from across the nation and the girls have propositions pouring in from left and right. The effects of Muhlenberg's write-up in **Life** are ironic and amusing, especially when we leaf through some of the letters that have been received by Gail Rosenberg, Irmgard Englehard, Carol Coolidge, Ida Diaz and Lyn Frere.

The above letter was written to Irm by an old high school political rival who was determined to be the first from his home town to get his picture in **Life.** "Never before have I undertaken such a gigantic task. I have written to Senators, Congressmen, and even Presidents but never before have I written to an individual, whom I know personally, whose picture has appeared in **Life** . . . I have only one thing to say: "Congradulations." "In closing, I have only one remark to make. **Nov. second will be a great day in the history of Temple university.** That will be the day when **the mighty 'Mule' from Muhlenberg will be conquered, subdued, defeated, routed, crushed, humbled, and beaten in an athletic contest called football by a MIGHTIER team from Temple university. (This is FACT; not fiction."**

Ida Diaz received a letter from a junior at Michigan college of Mining and Technology. He says: "I ran across the picture of you and **the little fellow who was scolding you.** So I decided to write to you. Every now and then I get a stupid idea like this . . . **If you feel like Droping me a line** I hope you do so, for I would like to hear from you."

Gail Rosenberg hit the jack-pot. She got letters from Texas, New York, and Canada. The one from the lad in New York: " . . . my copy of **Life,** in which I had the pleasure of seeing that charming smile of yours was so appealing, that I decided to write to you, so that we may start a mutual correspondence between us, and eventually meet each other . . . born in Brussels, Belgium . . . I am about 5' 8" or 5' 9", weigh about 130 lbs., brown hair and eyes. **Fortunately, I am considered good-looking, and easy to get along with . . .P. S.This is the first time I ever did such an abnormal thing."**

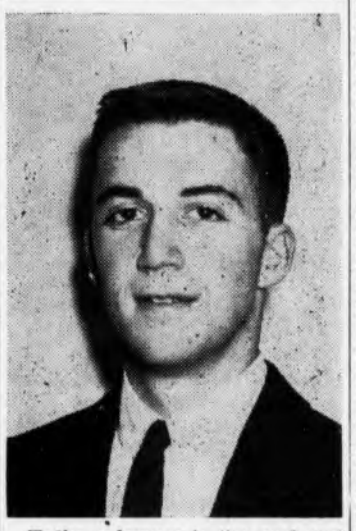
The best of all, though is the pair of letters received by both Irm and Gail from two hooples in Texas. The **one has a photograph of his hotrod engraved on each sheet of stationery,** and both have elaborate engravings of their names and initials. They both attend Abilene Christian college and **"my roommate and I were kicked out of Texas university last year."** Let's look at a few excerpts from Gail's letter. ". . . I saw your picture in **Life** and decided there was the girl to meet . . . **I guess I'm a regular Texan,** 6', 195 lbs., grey eyes, brown hair, all-of that stuff . . . **What I'd like to find out is whether or not you and Irmgard Engelhard might come down for a while.** My buddy is writing her and we're throwing a party for ya'll . . . **We'll send my plane and pilot after ya'll if you like** . . . arrange it for any weekend between now and Christmas . . . **dad is co-owner of Neiman-Marcus in Dallas so don't worry about clothes . . ."**

And from Irm's letter: **"I was 'shook' to my toes by your picture. Without doubt, you are one of the cutest, most charming girls I have ever laid eyes on. My buddy was taken back in the same manner by the picture of Gail Rosen on the opposite page** . . . Our homes are only thirty miles apart . . . etc." Irm's describes the same scheme as the one Gail received, concerning parties, swimming, skiing and so on.

Carol Coolidge got a letter from the third cousin of Calvin Coolidge, asking if she was any relation to the late president. And Lyn Frere heard from someone who claimed the same surname and that his ancestors came over with William the Conqueror in 1066 from France to England.

If a plane hovers over the campus, lands, and expells two six foot Texans clad in ten gallon chapeaux, act nonchalant. They are only Irm's and Gail's dates for a weekend back on the ranch.

## Arnie Markoe IN THE NEWS



To be a lawyer is the goal and consuming interest of this quiet-spoken senior, Arnold Markoe. "I want to minister politically," said he. "I'd like to feel that my endeavors will be universal—touching all phases of life."

Arnie is not merely aspiring to his dream, however. Here on campus, he is a political leader and adviser. He is president of the senior class, president of the John Marshall Pre-law club, secretary, of Phi Epsilon Pi social fraternity, and a member of the Honor court. Some of Arnie's other activities include the presidency of Phi Sigma Iota, membership in both Student council and History of Ideas, and editorship of the **Ciarla.**

"I think that the Tribunal should be granted more power if it is to remain an important freshman function. Slowly, it will evolve into a body of little or no significance unless some action is taken." This is what Arnie had to say concerning his role on the Freshman tribunal.

Reading is the favorite pastime of this busy senior; he particularly enjoys books which concern law and philosophy. Arnie also visits friends at other schools and sketches in his spare time.

A native of Briarwood, New York, Arnie Markoe was graduated from Jamaica high school where his major interest was basketball.

### CHEST X-RAYS

**A mobile chest x-ray unit will be at Muhlenberg on Nov. 12, from 8:30 a.m. to 12:00 and from 1:00 to 3:00 p.m. The mobile unit will be located just south of the power house. All freshmen, seniors, transfers and athletes are requested to have X-rays taken. All College personnel are urged to comply with this request.**

**K. M. Kistler, R.N.**

BUT THAT'S WHY WE NEVER, NEVER DO!

# Letters to the Editor

### *Ciarla's Answer*

To the Editor:

When the publication date of any edition of the Ciarla is late, the editor and the faculty adviser are responsible. Mr. Richard Glick was editor and I was the faculty adviser to the 1957 Ciarla.

For the past several years, the senior class has taken formal action to have the Ciarla published after graduation so that the Commencement activities could be included. This procedure has encouraged an editor to postpone the essential completion of the book before June in the belief that the period directly after the final examinations and the period directly after graduation would give him opportunity to complete the book under leisurely conditions.

However, after graduation, job employment becomes the primary interest, and the College Ciarla, of secondary interest. In addition, after graduation of the editor, the faculty adviser loses authority to direct him.

Since the opening of College, Mr. Robert Spivak, the editor of the 1958 Ciarla, and his staff have completed a few of the unfinished parts and have proof-read the galley sheets.

The printer has given assurance that the 1957 Ciarla will be ready for distribution shortly before the Christmas vacation.

Dr. Seegers has appointed Dr. Claude Dierolf to share in the faculty responsibilities for the 1958 Ciarla. I am confident that there will be no delay in the publishing date next year.

Very sincerely yours,
Truman L. Koehler

### *Markers Needed*

To the Editor:

It was the weekend of October 17-18, and a Friday, when two University of Vermont coeds arrived in Allentown, anxiously anticipating Muhlenberg's Homecoming festivities.

We were, however, greatly detained in our attempts to find your campus! We did not see one sign indicating the whereabouts of your fine college! Numerous Cedar Crest signs lined the highways, but not a word of Muhlenberg. Why?

Muhlenberg is a colorful school with a great campus—more people should know about it. Can't someone do a little research on the situation and get up a few advertising and directional signs showing that the college is in the locality?

Hopefully,
(Signed) Jane Patterson
University of Vermont

### *A Compliment*

To the Editor:

First, a word of congratulation to the current and past staffs for the excellent record they have made recently in their ACP ratings. I wonder how many students realize that the **WEEKLY's** first class rating is given in competition with schools whose enrollment is substantially higher than is that of our college. From what I've seen of this year's issues, another first class award (or better) will be coming at the end of this semester.

Second, I feel a special word of commendation is due in connection with this year's editorials. They have been pertinent and thought-provoking. Especially was I in accord with last week's "No Ciarla . . . Why?". In recent years the humming bee hive of activity which is the **Ciarla** office during the winter and spring months has frequently lapsed into inactivity after the last final exam. The net result has been apparent disorganization and inefficiency in the fall when it is time for the **Ciarla** to be distributed. If this is not the true picture, why have some members of my graduating class **never** received a yearbook for 1956, and why was last week's editorial necessary? In the words of the **WEEKLY's** current editor, this is not an "attack." This is my expression of hope that something can be done to avoid this frequently embarrassing situation.

Best wishes (especially to you new co-ed journalists) for a rewarding, "first class" year.

Sincerely yours,
Richard G. Miller, Jr. '56

### *Good Work*

To the Editor:

For the Lehigh County United Community Chest Drive successfully concluded last week, I was section chairman for colleges. As such, it is a pleasure for me to commend Joe Federico and the M club members who, on their own initiative and effort, during the last three days of the drive, collected the funds from the student body which enabled the colleges to turn in more than 100% of their quota.

# From Here And There

by Stan Heim

Education is a continual amazement and delight. It gives us the power to view the world more critically and closely. But along with this better understanding and insight come misgiving, and oft times mental discomfort. The enlightened mind is a questioning and doubtful mind.

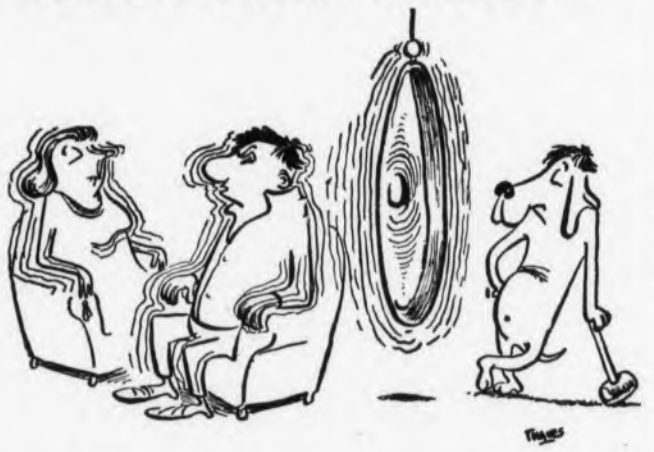
We think that seldom do we delve into the nature of our thoughts. We believe that the faculty of reason is a free and independent process. It is not. The nature of our thought is limited to a framework which has been forged by custom, social mores, and many years. An interesting aspect of the nature of the twentieth century mind is its concept of humor and what it finds amusing. We have an amazing ability to slough off adversity, tragedy, and pre-meditated death and destruction as humorous anecdotes. As long as we are untouched it is laughable. An example of this humor is a story told by a news commentator a few weeks ago. It appears a disc jockey played a particular song over and over, day after day. A listener became so annoyed in irate that he wrecked the station and seriously beat the disc jockey. Immediately upon hearing it, we burst out in laughter. In giving the incident a second thought, it appeared almost to be a conditioned reflex or response. This same thing is done day after day. In the classroom, a teacher will relate the massacre of thousands as a foible of a tyrant. We think it quite amusing that this atrocity is nothing more than a whim of an unbalanced man. We lose contact with what actually happened. A psychologist would probably have no trouble explaining this phenomena.

I suppose this delight in the adversity of others is a form of strength whereby we can face another day. A friend offered the idea that numor is a form of slapstick. Everybody enjoys seeing a pie thrown in another's face. But can we carry this over in the mangling of flesh and bones? Is this not a perversion? If man finds delight in brutality, serious questions are aroused. Is the wrecker of the radio station indicative of man's increasing inability to adapt himself to a technological society where intrusion is practically unavoidable? After thousands of centuries has man really become civilized or has he just become more subtle?

Perhaps we have laughed off and overlooked tragedy to a point where it has become detrimental rather than amelioratory. In a world which is controlled by mass economics, and has devised weapons of mass annihilation, the individual is being forgotten. Perhaps it is time to seriously think and consider his humor in its essential nature.

This author considers this humor a perversity. He doesn't really know. He is unsure. He invites and would gladly accept any comment on this topic.

## Man's Best Friend?



"You'd think he could learn to bark when he wants something."

**PARENTS DAY NOTICE**

**At the last meeting of the faculty the Parents day program for November 16 was cancelled. Since a number of parents of freshmen have requested the opportunity to interview freshmen advisers, the committee has asked those members of the faculty who teach freshmen to be available Sunday afternoon, Dec. 1, from 3:30 to 5:30 p.m. Due to scheduling difficulties, Dec. 1 was the only date available for the interviews.**

**Parents Day Committee**

# WEEKLY Reporter Nabbed On Mission

(Continued from Page One)

scramble for position began.

I walked outside, and there the pallbearers were lighting flares which bathed the procession in a weird red light. An upperclassman standing nearby muttered, "Why bury the Tribunal?—It's never been alive!" But the Frosh seemed to think it was a good idea, judging by the gusto with which they were performing the last rites. The procession began to move again, winding its solemn way across the rear of campus.

I was swept into the whirling mass of bodies before long, and I soon began to realize that the Frosh are well aware of campus regulations. "Don't walk on the newly-seeded grass," one said, "It's a five dollar fine." It was too dark to see very well, though, so no one paid much attention.

It wasn't too long before the mob had reached the center of the quad. Here the pallbearers stopped and eased their burden gently to the ground. Appropriately enough, Barry Leighton was the speaker for the occasion. "We, the Class of 1961, appreciate the manner in which 'The Powers that Be' have handled Freshman Regs this year," he began. He went on to say that the Frosh were disappointed that they didn't get a chance to prove they could beat the Sophs, but assured everyone that "we will endeavor to carry on the traditions of Muhlenberg college in years to come." Everyone was glad to hear that.

Since they didn't want to ruin the campus by digging holes, they had decided to have the Tribunal cremated at Pottsville, and scatter the ashes over the campus from an airplane, "dedicating the Tribunal to Muhlenberg college forever." The pallbearers lifted the corpse over its coffin, and the 1957 - 58 Tribunal disappeared from sight with a resounding thump. "Purdy feels the pain," commented someone. "That's his coat."

A tremendous cheer filled the air as the pallbearers lifted the coffin for the last time and began to bear it away. Evidently all ill-feeling had not been sealed in the coffin, however. The crowd moved to Hal Zell's window, where he had been calmly watching the proceedings. Taunts were exchanged between the 2nd floor window and the ground for awhile, and then the Frosh decided to do something about it. Before I knew it, the majority of the ground-observers had bolted for the west entrance to Martin Luther hall. In a matter of seconds they were half outside his room and half in it, and not knowing quite what to do now that they had arrived.

The small group of girls that had remained tried to be helpful by shouting hints to their male classmates—"Throw him out the window!" "Shave his head!" Then they began a rip-him-up, tear-him-up chant. His room filled with raging Freshmen, Hal leaned out the window and said, "You want to hear me say the Freshman Class is the best—alright, the class of '61 is the best. You happy, now?" This statement was met with a mixed chorus of boos and cheers.

I thought I'd walk up to the room and see what things were like on the inside. By the time I got up there things had calmed down considerably, but a few Frosh and upperclassmen were still there. Somebody inquired, "Nervous, Hal?" but he didn't answer. It looked like the excitement was over in this area, so I left.

I headed toward West hall to see someone, and as I neared the place I could hear shouting there. As I came closer, I could see a group of fellows standing beneath the windows shouting to the girls. Some of them were trying on unmentionables, and one fellow was being boosted up to an open window by his cohort. Just as he was nearing his goal, an uncooperative girl slammed the window shut. So we're right back where I started now. I followed the guys in, Harvey came, and now I'm no longer eligible for free Athletic events.

I waited around after most everybody had left and talked to Nuss and Becker for awhile. A Frosh came up to us with a bewildered look on his face and asked, "What am I supposed to do?" When asked what he was doing there, he replied, "Well, I really just came down to go to the men's room, but now nobody will believe me!"

I did. I know how it is.

Test your personality power

A Freud in the hand is worth two in the bush!

| | YES | NO |
|---|---|---|
| 1. Do you chase butterflies in preference to other creatures of Nature? | ☐ | ☐ |
| 2. Do you believe that making money is evil? | ☐ | ☐ |
| 3. Do you think Italian movie actresses are over-rated? (Women not expected to answer this question.) | ☐ | ☐ |
| 4. Do you buy only the things you can afford? | ☐ | ☐ |

Have a real cigarette – have a Camel

# Football Statistics

Herb Owens, Muhlenberg's sensational sophomore halfback, currently leads his teammates in both scoring and total ground gaining. In the first six games of the season, Herb has scored six touchdowns for a total of 48 points, which amounts to half of the team's scoring. The speedy, shifty back from Audubon, N. J. has carried the ball 78 times for a total of 487 yards and an average of 6.2 yards per carry.

As a team, this year's squad has already bettered the total yardage gained by the 1956 eleven. The Mules have ground out a total of 1,042 yards on the ground in its first six contests, while last year's team gained a total of 897 yards in eight games. This year's gridmen also have a good chance of bettering the 1956 passing yardage total. To date they have completed 27 of 77 pass attempts for a total of 305 yards, as compared to last season's 30 completions in 90 attempts for 439 yards gained. The '57 squad has already surpassed the total offense of a year ago by eleven yards, 1,347-1,336.

Other team leaders include Don Herman in pass receiving with eight receptions for a total gain of 90 yards, and Jim Nonnemaker in passing with 13 completes in 32 attempts for 124 yards.

# Freshmen Try For First Win; Tackle Temple

Muhlenberg's freshman football team will be seeking its first victory of the current campaign when it faces the first year men of Temple university tomorrow afternoon on Muhlenberg field. Kickoff time for the final 1957 frosh grid dual will be three p.m.

The little Mules have been unsuccessful in their first three starts this fall. They were defeated by Hofstra, 7-6, Lafayette, 14-6, and Stevens Trade, 26-0. Their lack of success has been due partly to injuries to key players in the starting lineup. Quarterback Tom Wargo suffered an injured hand and has been moved to halfback since the injury has hampered his passing attempts. Sal Mesina, a hard-running halfback, had his right leg broken in the Lafayette game, sidelining him for the remainder of the season.

**Backfield Shift**

Jim Hoffert has been converted from halfback to quarterback, while the fullback slot has been filled quite responsibly by Ed Yost. The forward wall has looked good with Marty Renshaw, Dave Haberman, and the two boys from Baltimore, Ed Callahan and Vince Rosso forming the backbone.

The Temple Owls will be led by by quarterback Dick Famieglitte and halfbacks Jerry Brodsky and Charlie Downham. The Owl frosh boast good reserve strength and usually rotate two complete units. Temple's freshmen will provide the last chance for the Berg freshmen to break into the win column this season.

# Rutgers Soccer Team Next Foe For Mules

Muhlenberg will be looking for its third win of the present soccer season when it faces Rutgers on Saturday, November 9.

The Mules' soccer program this season has taken on added interest as 'Berg is competing with twenty-two other members of the MASCAC for the conference's first formal championship.

**Division Members**

Muhlenberg is a member of the Northern Division of the conference, which also includes Bucknell, Elizabethtown, Gettysburg, Hofstra, Lafayette, Lehigh, Rutgers, Stevens, Wagner, and Wilkes.

On Saturday Muhlenberg meets Rutgers, the present leaders of the Northern Division, at New Brunswick. Rutgers sports a strong team this year and has a conference record of four wins and no defeats. Temple, Ursinus, Haverford, and Stevens have all been downed by Rutgers.

## Student Ticket Sale

**Student tickets for the Muhlenberg-Hofstra game will be on sale at the field on a first-come-first-served basis. Price for a student ticket is fifty cents.**

# Strong Offensive, Owens Stun Temple University By 40-16

Muhlenberg college's football team displayed their greatest offensive attack since 1948 last Saturday as they defeated the Temple Owls, 40-16 at Temple stadium in Philadelphia. Herb Owens led the attack with three touchdowns, and the entire squad showed exceptional teamwork as the Mules rolled to their fourth win in six contests. The 40 points that the Cardinal and Gray scored was the most scored since 1948 when Berg blasted Bucknell 44-14.

Herb Owens scored the first of his three touchdowns less than a minute after he entered the game as he galloped 49 yards after gathering in a Temple punt. His second six-pointer came in the second period when he streaked around end for seven yards. However, he eclipsed both these performances by barreling for a 52-yard touchdown run in the last quarter.

**Other Berg Scores**

The other Muhlenberg scores came through the efforts of Roy Madsen, Tony Caporale, Claude Wilson and Ken Hendricks. Madsen scored in the second period on a one-yard plunge after Owens had set the stage for him by reeling two nine yard runs, and one of 18 yards. Tony Caporale, who ended the day second only to Owens in rushing scored on a dash of 17 yards. The final Berg score came when Claude Wilson threw a perfect pass to Ken Hendricks in the end zone.

Temple broke into the scoring column when Bob Schoen and Ron Becker tackled Jim Nonnemaker of Muhlenberg in the end zone for a safety. The Owls got their first touchdown as Ray Norton drove to paydirt from the two following a Berg fumble. Temple's final score came on a fourth quarter touchdown pass from Bob Wunder to Cliff Hubbard.

**Temple Held**

Temple did not get beyond their own 30-yard line during the first quarter and did not get out of their own territory throughout the entire first half. Muhlenberg ground out 14 first downs and a total of 26 rushing. The chief ground gainer for the Mules was Owens with 139 yards in 14 carries. He was followed by Tony Caporale who covered 52 yards in nine attempts.

Although the entire team played together commendably, there were a few individual performances that were outstanding. Roy Madsen's efforts on defense were reminiscent of Paul Billy as he frequently broke through the opposing line and caught the ball-carrier behind the line for substantial losses. Don Herman and Don Novek also were impressive with the latter returning to full time line duty.

The Mules now have a good chance to gain a winning season for the first time since 1954 when they won four, lost three and tied one. In 1955 and 1956 the record was 4-4.

This Saturday the Bergmen journey to Hempstead, Long Island to engage the undefeated Hofstra eleven.

In recognition of their outstanding performances in the Temple game, Novek and Owens were placed on the Eastern Collegiate Athletic Association's team of the week. Novek was awarded first string guard honors, while Owens received honorable mention for the second time this season. Novek became the third Muhlenberg lineman to be so honored. Ken Hendricks and Bob Hieter were awarded first team places earlier in the season.

# I-M CORNER

Due to the flu epidemic the Intra-Mural program came to a complete stand-still here at Berg. During the four week lay-off period it was doubtful if the league would be started; but last week the Student Health office gave permission for all student athletic programs to resume activity. Now once again I-M football will take over on campus.

Valuable time was lost during the bout with the flu and therefore the athletic department was forced to revise all previous scheduling. Considering all possibities they have come up with the best possible solution to provide for an adequate program.

The I-M League will be run as a single elimination play-off. A team losing one game will automatically be dropped. This will continue until the nine teams have been reduced and the two teams standing up against all competition will play off for the championship. All games will be played at 4:30 on the field next to the baseball field. Schedules will be posted on the bulletin board in Memorial hall.

In past years the IFC Championship was decided by the fraternity records in the I-M league. The two fraternities with the best records would have a play-off for IFC honors. This year IFC felt that because a team could be dropped out while only playing one game it would not be a good measure of the championship. After discussion and approval by the athletic department they have formed another league that will play all its games at night so that it will not conflict with Intra-Murals. These games will be played at 6:15 and 7:30. This league will be a round robin, with each fraternity playing each team once. After one round the two teams with the best records will play for the championship.

In the first game of th IM league, Phi Kappa Tau took a 13-0 victory over Lambda Chi Alpha. The game went through three scoreless quarters before Phi Tau put its offense into high gear. Ray Croft took a pass for the first six pointer and also scored the extra point. Tom O'Conner accounted for six more late in the quarter to assure the win.

ATO and PEP played to a 6-6 tie. In a close game all the way, Bob Nuss tallied first as he swept his own right end for the score. Pep Boys countered when Bob Spivak caught a pass from Gil Sopher and went all the way. Both extra points were missed.

**Sig Ep Wins**

Sigma Phi Epsilon, last year's championship team, opened up with a 12-2 victory over Lambda Chi. Both teams displayed power but the Sig Eps pulled through with Frank Vari taking the scoring honors.

In the I-M league, PEP had an impressive victory that eliminated the Trojans from further competition. Dave Auerbach chalked up two td's with a pair of pass interceptions and Frank Claire and Bob Spivak also helped the Phi Ep cause with two more tallies.

In another I-M game, Phi Tau eliminated ATO with a 21-6 victory. Tom O'Conner and Ken Stewart led the Liberty Streeters attack. O'Conner scored two and the Stewart - Croft combination clicked for another. ATO's lone score came when Bob Nuss broke through the line for a 55-yard touchdown jaunt.

# Muhlenberg Harriers Tie Moravian Runners, 28-28

Muhlenberg's cross country team, last Tuesday, came close to winning its first meet this season when they ran against Moravian. They finished in a tie with the Greyhounds, 28-28.

Moravian's team, composed of seven freshmen and two sophomores had an impressive record of two wins and one loss before the race. They had previously beaten Penn Military college and Albright (who have beaten the Mules this season) while losing to Elizabethtown college.

The race started in a cold drizzle that fell during the first half of the race. In the first quarter of the race the leaders were in a tight pack, but nearing the half-way mark Hank Sunyak, a freshman from Moravian broke into the lead and was never caught.

**Dungan Second**

Following closely behind Sunyak, who ran the course in 24:13, was Ron Dungan who has consistently placed high for the Mules in the last few meets. Dungan's time was 24:33. Following closely behind Dungan were two Greyhounds, Bob Fatzinger and Jack Jacobs, both freshmen.

Muhlenberg then placed four men in the next four places in the persons of Ed Theiler, Pierce Knauss, Dick Lewis, and Bob Voorhees. Moravian's last two men to place were in the ninth and eleventh slots.

The Muhlenberg harriers although they did not win this race, proved themselves capable of winning future meets. They have steadily improved over the course of the season and are expected to do better against Haverford college and Franklin and Marshall.

# Mule Gridmen To Face Unbeaten Hofstra Squad

by Don Poppe

Muhlenberg's next opponent, Hofstra college of Long Island, New York, is one of the few remaining unbeaten and untied elevens in the country. Thus far the Flying Dutchmen have defeated all of their adversaries: Wilkes, St. Lawrence, Upsala, Temple, Northeastern, Cortland and Scranton.

Coach Howard "Howdy" Myers, now in his eighth year at the helm of the Dutchmen, has been forced to rely on sophomores, and his sophomores have not failed him. Regarded as one of the East's most successful small college coaches (a record of 39-23-1), Myers has eleven members of last fall's "Tiny Twenty" on hand including six starters. In addition, he has 36 other hopefuls — many of whom represent the best in Hofstra's football history — competing for starting berths.

**Starting Ends**

At the ends, it appears that juniors Vin Fagan and Don Baldwin will be the starters. The latter, a converted tackle, has seen action in the fullback slot, but his pass-catching ability and defensive play have necessitated his shift to a wing position. In Hofstra's first four games he caught a total of 19 passes (7 of them against Upsala), good for 257 yards and four touchdowns. As a result, he was chosen on the weekly All-East squad for several consecutive weeks.

At the tackles, Steve Miller, an aggressive sophomore speedster, and senior co-captain Reid Wamser (5'8", 200 lbs.), a fine defensive lineman, are the likely starters, although Wamser is a doubtful starter due to a leg injury. Sophomore Bernie Larkin and junior Jim Pakenham will undoubtedly see plenty of action in reserve roles.

**Top Linemen**

As for the remainder of the line, junior letterman Renzie Lamb and sophomore George Dempster will be at the guards, and letterman Al Vadnais the center. Lamb developed rapidly as a sophomore last year, and is rated one of the squad's top linemen. Dempster, who has been very impressive, is a good blocker and always seems to be in the right place at the right time. Vadnais, a senior, is a fine blocker and a sound defensive performer.

In the backfield, senior Larry Magilligan looms as Hofstra's most dangerous offensive threat. He is an expert ball handler, accurate passer (against Upsala he completed 10 of 16 passes), good runner, and fine kicker. In the first four games the lanky T-quarterback from Mineola, Long Island, completed 36 of 83 passes for 457 yards and six touchdowns. He will be backed up by veteran Fred Wine and sophomore Doub Lewis.

**Offensive Power**

At the halves, co-captain George Wiemer, a senior letterman, and Frank Moura, a soph speedster, get the starting assignments. Wiemer, despite his small size, is an elusive runner and an alert defensive back who has frequently been called on for full 60 minute performances. In the fullback slot either Kevin Commins or Bob Overton, both sophomores, will start.

In addition, Hofstra has several other backs worth mentioning. One of the most publicized is junior Ron Trezza, a transfer from Syracuse. Hampered by an injury to his left hand most of the season, Trezza has still shown signs of promise and will undoubtedly see some action on Saturday. He has good speed and size, and is a fine blocker.

**Backfield Depth**

Two other backs that bear watching are sophomore Joe Cramer and senior Frank Moretti. The latter was sidelined by injuries last year, but has recovered and poses as a terrific offensive threat. Cramer hits very hard and has been outstanding on defense.

In a nutshell, the Dutchmen appear to have strength at the end, quarterback, and halfback positions. In other words, they have a powerful split-T offense. Any weakness in the line is questionable due to the fact that coach Myers' defenders have limited the opposition to a total of only 31 points in seven games. Generally speaking, they lack size and weight, but they compensate for this with a great deal of speed.

Last year the Muhlenberg-Hofstra contest was the first between the two schools on the gridiron, and the Dutchmen were victorious by a 13-9 score. Following the Berg encounter Hofstra will wind up its schedule with Springfield on November 16, and Kings Point on November 23.

# Stevens Trade Captures Muddy Win Over Frosh

A hard driving Stevens Trade team, despite a slippery turf, ground out a convincing 26-0 victory over a stymied Muhlenberg Freshman team last Friday afternoon on Muhlenberg field. Stevens unveiled a hard-charging line and a dazzling array of shifty backs, led by Leroy Sydnor, who dashed 103 yards for a touchdown on the opening kick-off.

This set the tone for the balance of the game, as Stevens set the pace marching down the field, although they couldn't manage another sustained drive for the balance of the first half. On the Mule's part the rain seemed to drown out whatever offensive spark they had as they were beset by fumbles and a generally sputtering offense. The half ended with Stevens out in front by a 7-0 count.

**Defensive Half**

Mixing their plays well, Stevens culminated a drive with a 32-yard dash by Joe Manugold around left end. The Little Mules still could not get their offense clicking and played most of the second half on defense.

In the fourth quarter Coach Dick Bevilacque's squad put on the finishing touches with two more touchdowns. The first was a brilliant 70 yard jaunt by Joe Danik, making the score 20-0. The

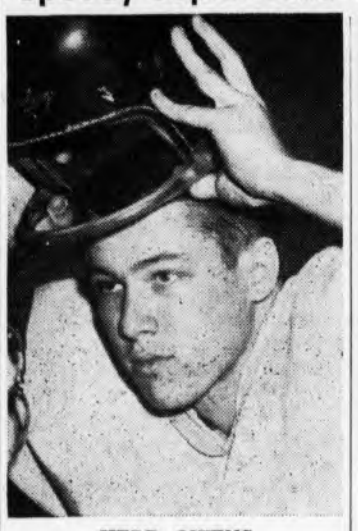
## Speedy Sophs Lead Grid, Harrier Teams



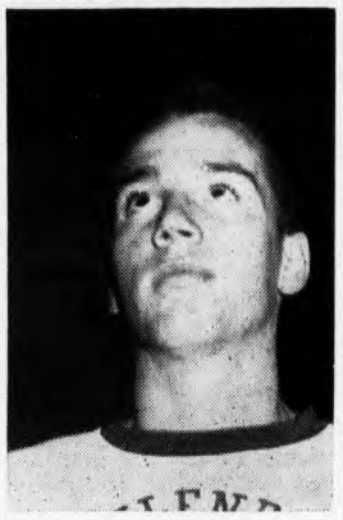
HERB OWENS

Those of you who were fortunate enough to attend the Temple game last Saturday witnessed one of the greatest offensive displays by a Muhlenberg player in recent history. And from all indications there will be no let-up. Herb Owens promises to become one of the finest backs ever to take the field for Muhlenberg.

Only a sophomore, Herb comes to Berg from Audubon high school in Audubon, New Jersey, where he was one of the most versatile athletes in that school's annals. There he earned twelve letters as a member of the baseball, football, basketball, and track teams.

Here at Berg this nineteen-year old who stands five feet, eleven inches tall and weighs 178 pounds has confined his athletic activities to the gridiron. However, he has indicated that he plans to participate in track next spring. Scholastically speaking, Herb is a natural science major with an eye toward a career in the teaching and coaching fields.

Herb feels that if the squad performs with the same unity that it showed in defeating Temple there will be another upset this Saturday when they tackle unbeaten Hofstra.



RON DUNGAN

Ron Dungan has proven to be one of the greatest assets to this year's cross country squad. Ron has taken first place for the Mule harriers in the past three meets against Juniata, Albright, and Moravian. He has not finished lower than third for the Bergmen all season.

Ron is a sophomore from Feasterville, Pa., in Bucks county. He attended Neshaminy high school, where he won letters in track and cross country during his senior year.

At Muhlenberg, the soph runner is majoring in business administration. After graduation, he plans to return to his father's business. His other school activities include the band and Phi Kappa Tau social fraternity.

Despite the fact that the Muhlenberg cross country team currently sports a winless record, there has been at least one bright aspect in Ron's performances. His success this season gives hint of better possibilities in the future of Muhlenberg cross country competition.

## Muhlenberg Harriers Meet Haverford Team

Muhlenberg's harriers will travel to Haverford this Saturday afternoon for their third to last dual meet of the season. The Mules have been unsuccessful in four meets so far, and are still looking for their first win.

Haverford sports a record of one win and three losses. Their lone victory was over PMC. They have tasted defeat at the hands of Albright, Lafayette, and Lehigh. The coach, Joseph B. R. Miller, is in his first year and has a squad of seventeen men, most of whom are sophomores and freshman. Haverford has six returning lettermen on this year's team.

Muhlenberg will be looking to sophomore Ron Dungan, who placed third in the meet with Albright, and juniors Ed Thieler and Pierce Knauss to carry the brunt of their attack.

The meet will get underway at three p.m. on the Haverford course.

# SPORTSCOPE

by Bob Nuss

Now that the flu epidemic has subsided to a certain degree, the college doctor has seen fit to allow gym classes and intramural sports to continue. Intra-mural football began on Monday as Phi Ep defeated the Trojans by a 25-0 margin. This was insignificant in itself, but it began the single-elimination tourney which is being used in the intra-mural program this year. Due to the lack of facilities and the short time remaining, it was decided by the powers in charge to schedule a **single elimination tourney or have no intramurals at all.** As the schedule is now set up, it will take eight playing dates to complete the intra-mural schedule and determine a champion. However, as the custom has been in the past, the Interfraternity champion will not be selected on the basis of performance in the I-M league. A separate Interfraternity league has been established with all games played under the lights. This situation puts great pressure on fraternity teams as they must play three or four games in four days. However, in order to allow the independent teams to participate, and also to get a deserving champion of the fraternity teams, this is probably the best possible solution. At least some part of an otherwise lost season will be salvaged.

* * *

Berg's football team went great guns on Saturday as they rolled over Temple by a score of 40-16. Not only did they bounce back from a whitewash at the hands of Gettysburg, but they also scored the greatest number of points by a Muhlenberg eleven since the powerhouse team of 1948. Halfback **Herb Owens** again dominated the spotlight as he rolled up 139 yards on 14 carries. His three touchdown jaunts consisted of runs of 52, 49, and seven yards. He also recovered two fumbles and completed a 14 yard pass to set up a Mule TD on the Owl five yard line. **Herb now has scored 48 points on 8 touchdowns and is averaging better than 6.2 yards per carry with 487 yards in 78 carries.** Overshadowed by Owens' running was the line performance of several men. **Len Woodel**, a former footballer at Berg, and **Bill Carty** both turned in sterling performances. **Glenn Johns**, a sophomore, also played a sound ball game.

## Muhlenberg Soccer Squad Meets Bucknell Booters In Home Contest

The Muhlenberg soccer team will play host to Bucknell at home on November 12. The Mules will be looking forward to their third win of the campaign. Their record to date stands at 2 wins and 4 defeats.

Coach Hank Peters of Bucknell, has only six men returning from last year's club, which compiled a record of 3 wins, 3 losses, and three ties. Of the six returning, only 3 are letter winners. These are: Jim Balta, the team captain; Tom Linton and Bob Toad. The other holdovers from last year are halfbacks Phil Poneck, and Tom Clark, and lineman Larry O'Hara. At the onset of the season Coach Peters was not very optimistic about a successful season, and thought of the team as sub-par.

The Mules, under the coaching of Sam Nevins, have been plagued throughout the season by injuries and sicknesses. Tex Ritter, Tuck Vollmer, and Bob Schirmacher, three of the Mules' starters have recently been on the inactive list, but all reports seem to indicate that the Mules are ready to a man for front line action. The results of this game will have a serious effect on the standing of the newly formed Middle Atlantic Soccer conference.

# Pro Court Forecast

The current issue of Sport Magazine makes its annual pro basketball forecast and here it is:

In the Eastern Division, the defending NBA title-holders, the Boston-Celtics, will repeat by a bigger margin, while the Western Division will have a pip of a dogfight between the St. Louis Hawks and the Cincinnati Royals.

In the East, the champion Celtics will be followed far behind by the Philadelphia Warriors, New York Knickerbockers and, finally, the Syracuse Nationals.

In the West, Sport gives the barest, slightest edge to the Hawks over the Royals, while it sees the Minneapolis Lakers coming in third ahead of the Detroit Pistons.

The franchise shifts of Fort Wayne and Rochester to Detroit and Cincinnati will succeed financially.

The individual stars will continue to be the established heroes with no first-magnitude rookie in sight.

The stability and popularity of the league will continue to grow.

George Mikan's new career as a coach will get off to a troubled start. The Lakers have too many weaknesses.

# Coed Cheerleaders To Receive Uniforms

New uniforms are presently being appropriated for the coed cheerleaders from the Diamond Sporting Goods store in Bristol. This is the first time that Muhlenberg college has supplied uniforms for the cheerleaders, in past years they have had to supply their own.

The colors of the new uniforms have not as yet been decided upon by the girls. However, they will consist of a jumper which will come above the knees and a long sleeved, tailored blouse. These will be worn at the basketball games, due to the fact that the present uniforms, consisting of a sweater and a skirt, are too warm for indoor wear.

The uniforms are expected by the time of the third or fourth basketball game.

## Science Club Meets

**The Science club will feature Dr. Powell who is to speak on Chromatography, Monday, November 10 in the Science building room 105.**

# The Chowline

Last week I outlined the Snack bar's breakfast 'hit parade,' so now I will elaborate on the various lunches provided to the student body and faculty.

You are all probably familiar with the beverage line-up; which includes white and chocolate milk, coffee, tea, hot chocolate and a wide variety of fountain drinks—all for only a Roosevelt dime.

Two delicious platters are provided daily, the most popular consisting of a hot beef sandwich, french fries, a vegetable and a beverage—all this for just seven Roosevelt dimes. Numerous sandwich delights are also on hand, including tuna, egg and chicken salad sandwiches for three Roosevelt dimes, and the large Hoagie for only three and a half Roosevelt dimes. Hamburgers and cheeseburgers, hot dogs and steak sandwiches are served hot from the griddle for various numbers and fractions of Roosevelt dimes.

Rounding out the complete lunch with desert, a wide assortment of pies may be purchased for one and a half Roosevelt dimes, including apple, pumpkin, and numerous custard varieties. Ice cream is sold in a wide variety of flavors for ten cents a large scoop.

Well, gang, that seems to round out our luncheon list. Stop in and have lunch, won't you? By the way Commuters, when you are having your lunch, won't you please place your waste papers in the receptacles provided. Thanks a lot!

Adv.

# Baseball Still In Sportlight

In view of the beanball revival which swept the major and minor leagues alike this past hectic season, the current issue of **Sport** magazine predicts "There's Going To Be A Beanball Murder Yet!" unless forceful steps are taken immediately to reduce the practice.

"A blind disregard of the rules by weak, buck-passing officials and umpires," says Sport, "has given pitchers—especially in the National League—a license to maim!"

Before anything can be done, opines **Sport**, it must be recognized that there exists a genuine need for action. When asked about the knockdown danger, National League president Warren Giles dismissed the matter by saying "I think the whole thing is greatly exaggerated."

"It is apparent that if such is the sentiment of the top man," **Sport** feels, "then the NL umpires will reflect it. They will avoid the role of policeman, and ignore the enforcement of the law that is at their disposal."

The improvement of the protective skull cap is not the answer, says the magazine. The safety helmets give a pitcher a sense of security, and whereas previously he would hestitate to throw at a batter, now he fires with abandon, thinking: "I can't hurt him; he's protected around the head."

As far as **Sport** is concerned, there's only one answer to the beanball danger: GET TOUGH! It's up to the umpires to get tough before someone gets killed.

# Three Men Initiated

(Continued from Page One)

tion as city editor. In addition to his work on the **WEEKLY**, Larry is head of the ticket committee for the Mask and Dagger society.

Total membership in Muhlenberg's chapter of Pi Delta Epsilon is now 13. The officers are: president, Ron Moxey; vice-president, Karl Becker; secretary, Sheldon Morris; and treasurer, Bob Spivak. The faculty adviser for the organization is Dr. Harold L. Stenger, head of the English department. Membership in Pi Delta Epsilon at Muhlenberg is contingent upon the journalistic contributions of students on the staffs of the **WEEKLY**, Ciarla, Arcade and WMUH.

# Fellowships To Be Given

(Continued from Page One)

**Qualifications**

The qualifications of the candidates as listed in the announcement from the foundation are: men of outstanding academic ability, personality congenial to the classroom, and integrity and character, including serious inquiry within the Christian tradition.

All applications, including the recommendations, must be completed by January 31, 1958. Any student wishing further information should get in touch with Dr. William C. Wilbur of the history department at the following times: Tuesday from 10-11 a.m. and from 2:15 to 4 p.m., Wednesday from 10-11 a.m., and Thursday from 3:15 to 4 p.m. Applications should be submitted by December 1, so that the committee will have time to consider them.

# Cardinal Key Society Announces Pledging

It was announced by the Cardinay Key society at its November 4 meeting that male members of the freshman class will be accepted into open pledgeship for the society, at its next meeting to be held Monday evening November 9, in the Muhlenberg Christian Association Room of the Student center at 7 p.m. The pledgeship shall extend until March, at which time seven of those pledging will be initiated at the discretion of the members of the Society.

All male members of the class of 1961 are cordially invited to this meeting to begin pledgeship for this honorary Society.

# Frosh Suffer Loss

(Continued from Page Five)

final score was registered by Sydnor on a six yard run.

The victory gave Stevens a string of 14 in a row, the most impressive of which was a 19-14 triumph over the freshmen of West Chester State Teachers college. Seasonally, they stand at 6-0, as opposed to the Mule's 0-3 slate.

The Mules try again tomorrow when they play host to the Owls of Temple university.

# . . . Student Council Report . . .

October 31, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:05 p.m. by President Luis Torres. Messrs. Piston and Becker were excused.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $2,817.26 |
| Social fund | 1,700.21 |
| Assembly fund | 1,585.27 |
| | $6,102.74 |

**OLD BUSINESS:—**

The President reminded Council of the Leadership Training Conference to be held at New York university on November 22-23.

**NEW BUSINESS:—**

Mr. Leighton presented the budget for the current semester to be:

| | |
|---|---|
| Balance as of Oct. 31, 1957 | $2,817.26 |
| Anticipated Income | 25.00 |
| Antipicated Expenses: | |
| Maintenance Student center | $ 125.00 |
| Student council keys | 77.00 |
| President's gavel | 14.00 |
| Officers' gifts | 44.00 |
| Administration Expenses | 100.00 |
| Miscellaneous | 25.00 |
| Total Anticipated Expenses | $ 385.00 |
| Organization Allocations: | |
| "M" Club | $ 100.00 |
| Der Deutsche Verein | 20.00 |
| Sociological society | *27.46 |
| Pre-Theological club | 15.00 |
| Cardinal Key society | 40.00 |
| Psychological society | 20.00 |
| Choir | 475.00 |
| Total Budget Allocations | $ 697.46 |
| Total Expenditures | $1,082.46 |

*This amount is actually $14.00 less than suggested.

On motion by Mr. Leighton and Mr. Vari, the budget was adopted as amended.

Mr. Skweir moved and Mr. Carpenter seconded a motion to transfer $250.00 from the Social fund to the treasury of the Sophomore class to cover expenses of the Soph-Frosh Hop. Motion carried.

Three men then appeared before Council for disciplinary action. The first man's case was concerning his behavior in Chapel. After discussion, a motion was made and seconded that he be reprimanded for not showing the proper respect for a Councilman in the performance of his duty.

The second case involved two men who were involved in an incident on one of our neighboring campuses. After discussion, the one man was freed of the charges levied against him. The second man was given a verbal reprimand for his actions from the Student council. A motion was made and seconded to that effect.

Mr. Markoe moved and Mr. Spector seconded a motion to revert to the normal order of business. Motion carried.

On motion by Mr. Skweir and Mr. Leighton, $400.00 will be transferred from the Social fund to the account of the Senior class for expenses of the Senior ball.

On motion by Mr. Skweir and Mr. Gurski, $350.00 will be transferred from the Social fund to the account of the Junior class for the expenses of the Junior prom.

Mr. Leighton and Mr. Smith will serve on a committee with Mr. Ueberroth as chairman to present a recommendation on a new service organization, "Alpha Phi Omega."

On motion by Mr. Gurski and Mr. Leighton, Student council recommends to the Administration that proper lighting be constructed to the rear of East hall.

The meeting was adjourned at 8:40 p.m. on motion by Mr. Gurski and Mr. Leighton.

Respectfully submitted,
RAY UEBERROTH,
Recording Secretary

# Jazz Society Reorganizes

On October 30, at 7:30 p.m. a reorganization meeting of the Jazz society of Muhlenberg college was held in room 213 of the Administration building. Elections were held at this time and the following officers were elected: Fred Stutman, president; Leon Finkle, vice-president; Ken Harris, secretary; and Harry Berg, treasurer.

At this reorganization meeting, the future possibilities of the club were discussed. The Jazz society will tentatively schedule several jazz groups, who will present concerts during the Thursday assembly period. There was also a discussion of a jazz concert to be sponsored by the Interfraternity council.

**Juke Box Records**

It was decided that an all out effort will be made during the coming year to present enjoyable entertainment to the entire student body. One aspect of this plan is that the jazz society will have several jazz records added to the juke box in the Student center.

The next meeting of this organization will be held in approximately two weeks and will be highlighted by a speaker on the subject of jazz. Anyone interested in joining the organization is urged to attend the next meeting. Further details will be posted on the bulletin boards.

# Magazine Honored

(Continued from Page One)

high university received a first place award for semi-weekly newspapers entered in the 2500-4000 classification and a first place for yearbooks, entered in the same classification. Lafayette college received a third place in the yearbook competition, for colleges entered in the 1200-2500 class.

The **Arcade** is the only Muhlenberg publication that entirely devotes its pages to the student's desire for artistic expression. It considers all sincere student efforts and is published twice each academic year. Previous editions of the Arcade have established it as one of the best collegiate magazines of this type.

William Holst is the present editor of the **Arcade.** Faculty adviser for the publication is Dr. Harold L. Stenger, head of the English department.

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Allentown, Pa., November 14, 1957 A. C. P. Rating No. 8

## National Service Fraternity Seeks Muhlenberg Chapter

Alpha Phi Omega, national service fraternity, is seeking permission to become established on the Muhlenberg college campus. This fraternity is composed of men from colleges and universities who have formerly or still are affiliated with the Boy Scouts of America. Those who desire membership must have had previous training in scouting, satisfactory scholastic standing, and desire to offer their services to others.

The student body and faculty, the youth and community, the nation, and active brothers are all those to whom the services of Alpha Phi Omega are directed. The purpose of this group is "To assemble college men in the fellowship of the Scout Oath and Law, to develop friendship and provide service to humanity."

All members of social fraternities are eligible for membership in this group. Alpha Phi Omega is not in open competition with other campus organizations, but intends to seek the aid of the other campus groups to assist them in their endeavors.

**Founded at Lafayette**

This group was founded at Lafayette college on December 16, 1925, by students who wished to bring to their campus the activities and principles with which they had been associated in their pre-college days. Although founded on scouting ideals, they are a self-supporting and self-governing body with the approval of the National council of the Boy Sconts of America. The fraternity, at present, has chartered 290 chapters and numerous preparatory groups. The chapters range from coast to coast with a national membership of 50,000 men, since their founding date.

Every member of the fraternity has an opportunity to take an active part in the service program. There are seven offices in each chapter to which members are eligible for election. There are at least six committees in each chapter, with a chairman and several assigned members. Effort is made to give each member a responsibility in the particular phase of the organization in which he is most interested.

**Various Activities**

Activities of the group include: putting on radio programs to promote Scouting, planting trees for the city, assisting at church conferences, furnishing officials for community sporting events, presenting "Best Citizen" award, aiding in the various charitable drives, giving

(Continued on Page Six)

## Science Club Hears Dr. Manly J. Powell

Dr. Manly J. Powell of the chemistry department addressed the Science club Monday night on the subject of "Chromatography." Before the address there was held a short business meeting including a discussion of future trips.

Field trips discussed include an open house at Western Electric in January, and a chemical exposition in New York on December 12 to 16. Dr. Smart, club adviser has the details about this latter affair.

**Three Main Areas**

Dr. Powell discussed the three main areas of chromatography, a system of separation of materials by adsorption, partition, and ion exchange. Adsorption is the deposition of a substance on the surface of another substance by some chemical attraction. Various isotherms used in adsorption were discussed. Partition involves separation by passing a substance through a chromatographic column at a critical rate of flow. Dr. Powell explained the mathematical analysis of this rate of flow.

The address included practical applications of chromatography, such as the separation of catalyst at the conclusion of the catalytic refining process for petroleum. It was shown that the application of even a small electric potential difference to the chromatographic column will accelerate the process.

**New Professor**

Dr. Powell was appointed associate professor of chemistry this year. He received his B.S. in 1943, M.S. in 1946, and Ph.D. in 1950 from Michigan State university.

The Science club meetings and membership are open to all interested students. They are not, as in former years, open only to science majors. Club advisers are Dr. Harry L. Raub III and Dr. G. N. Russell Smart.

Marshall Reber is president of the club this year. Other officers are Elmer Eisenhower, Edward Pulver, and Ernest Helfrich.

## Problems To Be Reviewed At Leadership Workshop

Under the auspices of Dr. Claude E. Dierolf, the second Student Leadership conference of Muhlenberg college students will be held at the YWCA cabin at Summit Lawn beginning at 4:30 p.m. The purpose of this conference will be to continue the discussions of campus problems which were previously discussed at the September 11 conference held at Pottstown and also to discuss the new problems which have arisen since then.

The afternoon session will begin with the presentation of reports from the various committees, created at the Pottstown conference. These reports will indicate what has happened to the recommendations made at the first conference; how these recommendations have succeeded and what are the situations which came as a result of these recommendations. This will lead to a general discussion, giving a total picture of the problems discussed at the Pottstown conference.

**Major Problems**

The major problems to be discussed will be student apathy, freshman regulations, the student center, commuting students, the chapel, parking on campus, weekends, and the fraternity system and coeducation. Five committees were formed to discuss these problems and they are divided as follows: student apathy, chapel and student center; freshman regulations; commuters and parking; social program; and social standards.

The group will then have supper, after which the new problems will be discussed. Next, the group will break up into several discussion groups to determine definite action on these new problems.

The conference will consist of the same male members who attended the Pottstown conference, but the girls attending will be the members of the Women's Dorm council. Members of the administration attending will be dean of men, Claude E. Dierolf; dean of women, Heimtraut Dietrich; and chaplain, David Bremer.

## Nine Seniors To Represent Muhlenberg In 1958 National 'Who's Who' Publication

Nine seniors were recently elected to represent Muhlenberg college in the 1958 edition of "Who's Who In American Colleges And Universities." They are: Karl Becker, Dennis Gurski, Earl Knies, Arnold Markoe, Herbert Meily, Robert Nuss, Gabriel Spector, Luis Torres and Henry Williams. These men were nominated by a student committee, consisting of three men, and were later passed by the college administration.

**Nine prominent members of the Muhlenberg college student body who were recently elected to represent the college in the 1958 edition of Who's Who are (from left to right), back row: Luis Torres, Arnold Markoe, Henry Williams, Gabriel Spector, and Herb Meily. Front row: Bob Nuss, Earl Knies, Dennis Gurski, and Karl Becker. These men represent all of the various phases of campus activities.**

**Karl Becker**

Karl Becker is an economics major from Plainfield, New Jersey. Among his activities are, treasurer of Alpha Tau Omega social fraternity, president of the Muhlenberg chapter of Omicron Delta Kappa, national honorary leadership fraternity, editor-in-chief of the Muhlenberg **WEEKLY,** vice president of Pi Delta Epsilon, national honorary journalism fraternity, and head of the Honor Court. Karl is also an active member of the Business and Economics club and a representative in the Leadership Conference.

**Dennis Gurski**

Dennis Gurski is a native of Allentown and a pre-medical student at Muhlenberg. In his sophomore year Dennis was a member of the Freshman Tribunal and since then he has been active in two campus publications, both the **WEEKLY** and the **Ciarla.** He is presently chairman of the Dormitory council, vice-president of the Student council, chairman of the Commons committee and president of the Chess club. Dennis is also a member and vice-president of the national honorary leadership fraternity, Omicron Delta Kappa.

**Earl Knies**

A native of White Haven, Earl Knies is president of Alpha Tau Omega social fraternity. Earl also maintains membership in Cardinal Key, and Der Deutsche Verein. He is copy editor for the **WEEKLY** and secretary of Omicron Delta Kappa, honorary leadership fraternity. Earl is majoring in English.

**Arnold Markoe**

President of the senior class, Arnold Markoe is a history major at Muhlenberg and makes his home in Jamaica, New York. Arnie's intended profession is in the field of law, and he is president of the John Marshall Pre-Law club. He is also president of Phi Sigma Iota, national honorary romance language fraternity, recording secretary of Phi Epsilon Pi social fraternity and a member of the Academic Regulations and Standards committee. Arnie has been active in both the **WEEKLY** and the **Ciarla** and is a member of the Student council.

**Herb Meily**

During his sophomore year, Herb Meily was a student proctor in West hall. He is a physics major and hails from Annville. Among his college activities, Herb maintains membership in both the Band and Choir and is president

(Continued on Page Six)

## Lead of Othello To Be Played By McConnell

Jim McConnell will play the lead of Othello in the Mask and Dagger society's fall production of the Shakespearean tragedy, to be held in the Science auditorium on Thursday, Friday and Saturday, November 21, 22 and 23 at 8:15 p.m. The supporting cast includes Pat Shalter who will play the part of Desdemona and Dick Kennedy, Iago.

President of the M&D society, Jim McConnell has played in many of the past performances. He will be best remembered for his part as Sheridan Whiteside in the production of "The Man Who Came To Dinner," last spring. Dick Kennedy, another favorite of M&D audiences, began his association with the society last fall when he played the lead of Henry Higgins in the production of "Pygmalion." Pat Shalter, a freshman, will be playing her first role for the M&D society next weekend, when she plays opposite Jim McConnell and Dick Kennedy in her part as Desdemona.

**Supporting Cast**

The play also boasts a fine supporting cast of veterans and newcomers to the M&D stage. Included in the supporting cast are Barbara Reichenbach, Bob Sabol, Simon Gribben, Janis Horvath, Don Michaels, Don Canfield, Mike Sanders, and Bob Kehrli. The sets are being designed and constructed by Marty Coover and Marty Ruoss.

Muhlenberg students will be admitted without charge on presentation of their student activities card. However, reserved seats will be sold in the Student center next week, for $1.35. General admission tickets will be sold at the door for $1.00.

## Pre-Med Club Meeting

**The Pre-Med club will meet next Wednesday, November 20, in room 305 of the Science building. The speaker will be Dr. G. D. Timmons, Dean of the Dental School, Temple university. All freshman pre-dental students are welcome.**

## Lutheran Student Association To Hold Annual Area Conference At Muhlenberg

On Sunday afternoon, November 12, the local Lutheran Student association composed of students from Muhlenberg, Cedar Crest college and the Allentown Nurses' home, will host the area conference of the Lutheran Student association. The area includes Muhlenberg, Cedar Crest, Allentown Nurse's Home, Kutztown and East Stroudsburg State Teachers college, Moravian, Lehigh, Lafayette and Albright.

This area is part of the North Atlantic region. The area holds a conference twice a year; in the spring and in the fall. At this fall meeting, election of officers will be held. Muhlenberg has nominated its candidates, but at present the names of candidates has not been received from other schools.

**Theme**

The theme for this area conference will be "Abundant Life." The program will begin at 3:15 with registration in the Student center. The business meeting will take place at 3:45. Gorden Ward, president of the National Lutheran Student association will speak at the business meeting. Mr. Ward has attended Lenoir Rhyne college and is presently enrolled in the Philadelphia seminary. He was elected national president this summer.

Worship will begin at 5:00 in the Muhlenberg College chapel. The Reverend Peter Dexnis of St. Peter's Lutheran church, Bethlehem will deliver the sermon. It is entitled "Heap of Living" and will be based on the theme of "Abundant Life." Reverend Dexnis recently came to Bethlehem from Advent Lutheran church in Philadelphia.

**Social Hour**

At 6:00, dinner will be served in the College commons, followed by a social hour at 7:00 in the Student center.

The Lutheran Student association is a Luther league for college students. The association is nationally organized. A number of colleges or in some cases a college comprises a local Lutheran Student association. A number of locals unite to form an area. These areas comprise a region, and each section of the country has a region.

The officers of the local Lutheran Student association are president, Dick Truchses, vice-president, Bob Schumacher, secretary, Norma Moyer and treasurer, Judy Savitz.

## Catholic Group To Hold Dance

Tomorrow evening, November 15, the Newman club, is sponsoring a record dance in the Muhlenberg Student center. The dance will commence at 8 p.m. and last until 12 p.m. Refreshments and admission are free and an open invitation is extended to all Muhlenberg, Cedar Crest and Allentown Nursing home students.

The Newman club has recently been formed on the Muhlenberg campus, as a religious organization for students of the Roman Catholic faith. At present the Newman club is composed of students from Cedar Crest and the Allentown Nursing home as well as the students of Muhlenberg college.

The purpose of this dance is to try to influence other members of the Roman Catholic faith to join the Newman club.

## Associated Collegiate Press Holds New York Convention

New York city was the scene of the 33rd Annual Associated Collegiate press conference, at the Hotel New Yorker, on Thursday, Friday, and Saturday, November 7, 8, and 9. The conference was attended by 936 representatives from 205 universities and colleges throughout the United States and Canada.

There were delegates at the convention from 189 campus newspapers, 129 college yearbooks and 14 collegiate literary magazines. This was the largest attendance in the history of the ACP conference. Last year's representation totaled 803.

**Muhlenberg Delegation**

The Muhlenberg delegation consisted of four representatives from the Muhlenberg **WEEKLY,** they were: Karl Becker, editor-in-chief; Dick Kennedy, feature editor; Larry Woodward, city editor; and Ron Moxey, managing editor.

The program of events covered a three day span with the opening address given on Thursday evening, by Hal Boyle, Associated Press columnist and former AP war correspondent. Mr. Boyle's topic was "The Life of a Columnist." On Friday and Saturday afternoon, the delegates attended a series of meetings where the various phases of campus publications were discussed. At these meetings such varied topics as "The College Newspaper and the Administration," "Modern Ideas Regarding College Yearbooks," "Newspaper Makeup and Typography," and "Politics and the College Press" were discussed.

The moderators for the discussions and the lecturers for the

(Continued on Page Six)

# Editorial Views——

## A Free Press . . .

Mounting criticism to the editorial policy of the **WEEKLY** is appearing in various areas of the campus, both of student and administrative origin. Recent attendance at the 33rd annual Associated Collegiate Press convention in New York justified in the editor's mind the continuation of the current policy.

During the numerous panel discussions at the convention, the ugly topic of censorship and control were reviewed. Many colleges represented had complete censorship while numerous others only had partial control imposed by the administration, the faculty advisers, or the Student government. Particularly tragic is the case of the **Vermilion,** student newspaper at Southwestern Louisiana Institute, where the newspaper is merely the "mouthpiece" for the Student government association.

Students aspiring to become editors of the **Vermilion** must submit an application to the editorial board, which is established and controlled by the Student government. Since three out of five members of the board are Council members, only editorials, columns, and letters to the editor which are suitable to the student government are permitted to be published. A vacuum has been created—no advancement is possible and no new ideas are allowed to germinate without the expressed approval of Student council. We have, then, the deplorable situation of a one party system to lead and form student opinion.

Collegiate journalism must be free from censorship. Every editor must have the liberty to stand for his or her convictions, not only verbally, but in the printed word as well. The right of every editor to probe every sphere of campus life, to attempt to turn minority opinion into majority opinion, and to provide a stimulus for the advancement of ideas cannot be thwarted. Through the editorial column, the editor must serve as a vehicle for student opinion and must never become a mirror of student government nor serve as the house organ for the college administration.

Complete freedom from censorship is a characteristic of the editorial policy of the **WEEKLY,** and editorials are designed to be thought-provoking and informative. Continually striving to fulfill our motto of "Towards a Greater Muhlenberg," the **WEEKLY** will attempt to improve conditions for the entire student body, and not cater to the desires of a particular organization.

## Here We Stand . . .

Although the organized rushing period for the social fraternities is not upon us, the Muhlenberg **WEEKLY** feels the necessity of defining its position on the subject.

The **WEEKLY** will stand in a position to print positive or negative criticism on the actions of the Inter-fraternity council before, during, and after the rushing period. Not concerned only with council's handling of the rushing policy, overall procedures may also stand to be evaluated.

Individual fraternities will not be permitted to utilize the **WEEKLY** as a propaganda organ. Formerly, the newspaper served the interests of a certain social fraternity immediately before and during the organized rushing period. This situation will not be present this year. An impartial attitude to individual fraternities will be the core of the current policy.

To counter-act any attempt by fraternities to place articles in the paper prior to and during the organized period, all fraternity news will be excluded from publication after the Christmas recess until the freshmen have received their bids at the end of February. Letters to the Editor will be carefully scrutinized during this period to prevent the entrance of the column into fraternity politics and advertising.

This policy rests in the hands of the Editor-in-Chief. All requests and criticisms should be addressed to him.

# Muhlenberg College Choir Serves Campus; Coeds Allow Larger Scope In Selections

**by Chuck Trexler**

Of all the organizations on the Muhlenberg campus, few, have attained the stature, the prominence, and the devotion to service as the Muhlenberg college choir. From the humble beginnings of "just another" college glee club, the Choir has attained widespread fame beyond the confines of the campus and even the local area. Indeed, it has well earned respect because of its faithful adherence to the responsibility of establishing and propogating a high standard of the art of music.

At the time of the dedication of the Gideon F. Egner Memorial chapel in 1931, there came a need for a formal vested choir to provide a suitable musical background for the imposing structure. Under the able guidance of Dr. Harold K. Marks, the need was satisfied by the transformation of the Muhlenberg college glee club into the Muhlenberg chapel choir.

The new organization made its first appearance at the Baccalaureate service of June, 1931.

Throughout the years, the Choir has more than amptly played its role. Concerts, at the request of various congregations throughout Pennsylvania and the surrounding states, were readily instituted into the Choir's program. With both an a capella and accompanied repertoire, the Choir has presented the sacred works of innumerable composers from the Pre-Reformation era up to the present time. Recently the repertoire has been expanded to include secular compositions as well.

**Here is the college choir in full regalia, prepared to exercise its tonal qualities. The setting is the front of the Chapel where the choir makes its temporary home.**

**The Choir practices under the direction of Mr. Lenel and with George Weckman acompanying at the piano. Members possess musical aptitude as well as voice quality.**

Last year the Choir participated in a mass concert, together with five other college choirs, at Haverford. In addition, it made a concert tour of the New England states. Recordings were made of this tour which sold well last year and which may still be obtained, together with an explanatory program, in the College book store.

This year, the Choir boasts a new constitution, a new name (Muhlenberg college choir), and the addition of 25 coeds. Of the success of this last development, Mr. Ludwig Lenel, Choir director, is well pleased. In Mr. Lenel's opinion, the presence of women in the Choir will make possible the presentation of a much larger scope of selections.

A few weeks ago, the new group made its initial public appearance at the Reformation Day rally in Memorial hall. On the agenda for the next few months are a concert tour of Ohio and the recording of a much-requested album of Muhlenberg college songs. At present, the Choir consists of about 70 students, chosen on the basis of both voice quality and general musical aptitude. Carl Adams serves as Choir manager, being assisted by David Farber, Harold Bear, and David Bausch. Robert Kehrli and Richard Weller fulfill the capacity of librarians.

As always, may the well-balanced combination of education, interest, and inspiration continue to be the Holy Grail of the musical aspirations of the Muhlenberg college choir.

# West Hall Reviews Pros And Cons Of Sorority Question

**by Barbara Fretz**

A group of girls plus a controversial topic usually equals a lively discussion in West hall. Recently, these discussions have turned to the question of sororities. Although there can be no definite action taken toward the formation of sororities until spring at the very earliest, many girls are already beginning to form strong opinions for or against the sorority system, and good points have been made for both sides.

Sororities provide a fine social life for girls—this is what most girls consider the best thing about them. They offer the opportunity of meeting students not only on the home campus, but also at other schools as well. Sororities, possessing the proper spirit and guided by school loyalty, can do a great deal for the college, too. Many worthwhile projects have been completed at other schools by these groups of girls.

Women belonging to sororities learn to cooperate for the benefit of a group. They experience living and working closely with sorority sisters, and this relationship is much closer than that of women in the dormitory as a whole. As one coed said it, "The girls in a sorority share a spirit of togetherness not found anywhere else."

When a sorority has its own house, there are added advantages. The women are provided with a home which is their own, a home they must care for, but one in which they can make their own rules (within limitations, of course.)

Since girls by nature group themselves in circles of friends, sororities would fit into their life naturally. Friendships formed through sororities are often long-lasting and can make college days pleasant ones to remember.

On the other hand, sororities can cause a great deal of friction and heartache among girls, especially at rushing time. Girls are generally much more fearful of social ostracism than boys are, and this may make the sorority loom too important in campus life. This would be particularly true in a school with a relatively small number of women students.

The expense of belonging to a sorority is another factor which would keep many girls from joining one. Sorority houses are not necessary, but when they do exist, the expense is even greater.

The formation of sororities would create many serious problems. The practice of discrimination must be taken into consideration. Quotas should be established, for independents are necessary on all campuses.

The greatest criticism against sororities is that they create a friction among women in colleges which can present a serious problem. Competition is good, but not when it becomes fierce and vengeful in nature.

And last of all, sororities may develop among sisters a loyalty to the group which is so strong that it will come before loyalty to the college.

No doubt many other problems will arise and many other opinions will be expressed before the girls decide for or against the sorority system. The question of local or national sororities, for example, will have to be discussed.

# From Here And There

**by Stan Heim**

Summer vacation has a variety of connotations for the college student. For all of us, it is usually a break from the academic milieu. For some, it is an opportunity to have a good time. Jobs at shore resorts and the mountains represent an emancipation from parental dictum and college responsibility. It is an opportunity to let down our hair and engage in memorable indiscretions. But for a great many, the summer is a grind. It is an exposure to the cogs and gyrations of American industry.

Summer employment in industry represents a means whereby many young people can achieve a college education. But more than financial enumeration, they are introduced to the life of the assembly line, the miner, and all the repetitious unskilled jobs of mass production. They are able to witness the way of life and the social customs created by bigness and the assembly line. It is an education in the actualities of life.

**Petty Thievery**

One of the interesting and most disturbing features of industry, which I noticed was the prevalence of petty thievery. Tools and repair materials are stolen in great profusion. A particular industry, with which I am familiar, manufactures nuts and bolts. If an employee sees a fellow employee purchasing nuts and bolts in a hardware store, he thinks the man is daft. From the reports of others, it appears that petty thievery is common throughout all industry. It has become somewhat of a national pastime.

What is amazing and deploring is the attitude of the participants. They aren't really stealing. The company has an abundance of everything; they can afford to give a few away. It is not considered stealing in the true sense.

**Rationalization**

These people are common, ordinary citizens who shake their heads with dismay at the increase in juvenile delinquency and the rising crime rate. They don't consider their own larceny a crime or even a misdemeanor. They rationalize and justify their pilfering from their employers. It is perhaps the bigness and impersonal nature of industry that causes this psychological maneuver. It is a lamentable situation and in it are contained many implications. One may say that there is no bad intent in these people and that they could not be the source of any real evil. This may be the case, but nevertheless, if man can rationalize his position in this respect, might he not carry this justification over into more serious and severe circumstances?

**SPECIAL LIBRARY SALE OF SETS**

**Between now and Christmas vacation the Library will have a special sale of sets of standard work, from a special display case in the Lobby.**

**These sets are Library duplicates and older editions which are still useful in homes and fraternity houses. Prices are reasonable.**

# THE CAMPUS *Whirlpool*

by Dick Kennedy

Last week, the **WEEKLY** printed a story about the letters that girls received from readers of Life magazine. **In the latest issue of Life** in the letters to the editor section, **there are three communications regarding the five page spread. Two of them mentioned Taimi Toffer (one includes a picture), and the other is from a Texas college man who says that our antics are parallel to those of a third rate junior high school.** The letter is from a fellow who, if he went to Berg, would more than likely be the subversive type and who would more than likely have a standing invitation to Tribunal meetings.

Karl Becker hit an all time low over the weekend. Unable to attend the party activities, **Babe found himself in New York at the Associated Collegiate Press conference. In one excursion to the Village, he meandered into an establishment called "Dirty Louie's" where he kibitzed with the village hooples and casually partook of the "atmosphere".** Karl can't wait to get back to see his friends there!

Spence Tuchinsky, playing the part of Montano in Mask and Dagger's Othello, has decided that it is best for him to shy away from the sport of fencing. It seems that Spence was slightly injured, resulting in a temporary loss of voice.

Skip Livingood is an ardent advocate of the latest dating policies. Stemming from such things as Chapel dates, Student center dates, and class dates, Skip has suggested a "let's cut our classes, together date. The end result of this kind of date will be "let's flunk out together and work in the knitting mill."

At first, it looked as though the workmen were planning to extend the asphalt in the area behind the ad building, but instead, they are working in complete reversal to campus tendencies. It turned out to be a shrubbery patch. This seems to be a poor step in attempting to make progress. How in the world are we ever going to cover the campus with asphalt if they persist in planting shrubs? This is the highest good attainable — eh?

Martin Luther hall was silent. Everyone (almost) was busily preparing for the impending tests. The entire atmosphere was one of pensiveness. Suddenly, a resonant pounding echoed through the hall and heads were raised in curious wonder. Then, the familiar voice of Dick Reimet announced: "There it is — the ninety-sixth thesis!" There is more to this era of religious amplitude. Supposedly, the boys are going to sacrifice a lamb for Don Novek.

# 'Round Campus

**Friday, November 15**

**The Newman club will hold a dance in the Student center. It will last from 8:00 to 12:00 p.m.**

At 3:15, the Commuters' club will hold its meeting in the science building, room 105.

**Saturday, November 16**

**The Muhlenberg football team will travel to Lancaster, Pa., to meet the Franklin and Marshall gridders.**

**Monday, November 18**

Der Deutsche Verein will meet tonight in the Student center beginning at 7:00 p.m.

**The Forensic council, Muhlenberg's debating society meets at 8:00 p.m. in room 201 of the Ad. building.**

**Wednesday, November 20**

The Pre-med club will hold its meeting in the science building, room 305 at 7:30 p.m.

**Eta Sigma Phi, the honorary classical fraternity is to meet in the chapel lounge at 8:00 p.m.**

The Commuter's lounge will be the meeting place of the Sociological society tonight at 7:30.

**Thursday, November 21**

**Mask and Dagger's opening night will begin with the curtain rising at 8:15 p.m. on the Shakespearean tragedy, Othello. Students will be admitted upon presentation of their activities card.**

# Campus Delegates Attend Collegiate Press Conference

Four delegates from Muhlenberg attended the Associated Collegiate press conference at the Hotel New Yorker in New York city this past weekend. Karl Becker, Ron Moxey, Larry Woodward, and Dick Kennedy arrived at the hotel late Thursday evening, registered, and were taken to their four man room which was smaller than a broom closet.

Meetings began at 9:00 the next morning, so the elder members of the delegation decided to sack, while the younger, spryer delegates, tried to weed out parties that were taking place all over the hotel. The next morning proved who the spryer members were.

The meetings were, however, well-attended, a feat which is seldom accomplished at such a convention, and the topics discussed were of fluctuating value. The four hearty newspaper men returned with what they thought would be of help in boosting the **WEEKLY** rating and adding more zest to the paper.

The highlight of the weekend was a trip to Greenwich village, guided by Jon LaFaver, a 1957 Berg graduate and member of the NYU law school. The delegates were taken on a tour of the interesting points of the Village, and wound up the evening by visiting the night court in the municipal building. Here, various unusual cases were brought before the heartless judge, who casually pushed them through the ritual with little adieu.

The weary party of four left the big city early Sunday morning, and happily returned to the Muhlenberg campus.

## *Luis Torres* IN THE NEWS

Two attributes are inherent to the successful Student council president. He must have both a profound interest in the welfare of the school and the ability to meet crises diplomatically. Luis Torres displays both these with much success.

Born in Santurce, Porto Rico, where his family still resides, Luis graduated from Central high school in 1954 and came to Muhlenberg on a full tuition scholarship. Majoring in history, he intends to have a career as a teacher, or in foreign service. Luis is a member of Der Deutsche Verein and Mask and Dagger. He is a brother of Lambda Chi Alpha social fraternity and a member of Phi Sigma Iota, Phi Alpha Theta, and Omicron Delta Kappa honorary fraternities.

Studying piano when he was still quite young may have fostered his love for classical music which he enjoys listening to on his newly-purchased hi-fi set.

As president of our Student council he states, "We have had our troubles as do most Student councils, but this year's members are conscious of their duty and are doing a good job."

# MCA Discusses 'Existing God'

"Does God Exist" was the topic of discussion for the Muhlenberg Christian association on Tuesday, November 12. Leading this group discussion was Dr. Russell W. Stine, professor of philosophy.

The meaning of God was first debated, so as to have a basis of discussion. Definitions and meanings such as cause, unknowable, regulative, providence, caller, perfection, and infinite were given to describe the word God. Dr. Stine gave a collective term for all names given. Although any word given was anthropomorphic, or in human terminology, he felt that the word "Ideal" was an all-inclusive summation.

With a foundation for conversation, discussion followed trying to prove the existence of God. Cosmology, teleology, and ontology were the different methods of proof. In the final analysis, Dr. Stine felt that "Rational arguments will get you nowhere." The discussion was led on an objective level, rather than with the coloration of a church doctrine.

# 'Curve' Judging Is No Measure

NEW HAVEN, Conn.—(I.P.) — Speaking about standards of excellence by which students, citizens or nations may judge themselves, Rev. Browne Barr of the Yale University Divinity School recently warned against values set by comparison with others which he equated with grading examinations on a "curve."

Quoting from the 12th chapter of I Corinthians, ". . . and yet show I unto you a more excellent way," he stressed his theme of attempting to live by a higher standard of excellence than merely doing slightly better than others.

If "scholars, prize-winners, honors-graduates, VIP's on campus, judge yourselves by the curve, compare yourselves to your fellows . . . you will be insufferable strutting egotists," he said. "If the only vision you have this day is a ranch house with a two car garage and security in your old age, you are grading on the curve," he continued, "and that curve is always eventually downward."

Living "on the curve" should be replaced with the humility of working for "the unattainable standard" through the ethics of love and aspiration, he concluded.

# I-M CORNER

by Jack Coughlin

Both the I-M and I-F leagues are in their second week of play and the championship games are drawing near. In the I-M single elimination tourney, quite a few teams have been dropped and the field is narrowing down.

LXA bumped SPE from the I-M league by a close score of 13-12. Jim MacMillan and Mike Woolley provided the punch behind the LXA attack. With MacMillan doing the pitching and Woolley on the receiving end they accounted for the 13 points. The big man in the SPE attack was John Habern. He chalked up the 12 for SPE on a run and a pass.

**AMI Eliminated**

The LXA powerhouse rocked AMI from the I-M league with a 20-13 score. Joe Federico picked up six points when he went around end and the MacMillan-Woolley combo hit seven more. Roger Ludwig blocked a punt and grabbed it in the end zone to round out the 20 ponts for LXA. Siegel and Handleman provided scoring power for AMI but it wasn't quite enough to hold off Lambda Chi.

PEP boys assured themselves a spot in the I-M championship when they knocked off the Giants. Gil Sopher passed to Frank Claire for six and Bob Spivak tossed to Ed Smith to account for the 12-0 win for Phi Ep.

**Sig Ep Wins**

In the I-R League Sig Ep came out on top in a 13-12 game with Phi Tau. In a tough game that was 0-0 at halftime both teams opened up late. Dave Jones passed to Schaeffer to give SPE their 6-0 lead. Then Ken Stewart pased to Ray Croft to tie up the game. Two plays later Jones tossed again, this time to Bob Lukens. The same combination clicked for the extra point and they gained a 13-6 edge. Phi Tau moved down field and a Croft to Stewart pass climaxed the drive. Sig Ep held on the extra pont and gained the 13-12 victory.

Mike Woolley, Jim MacMillan and some good line play gave LXA another IF victory when they defeated AMI, 16-12. MacMillan passed to Woolley for one TD and swept his end for the other six pointer. Andy Brusko scored two for AMI, one on a pass from Herb Siegel and the other on a run. The line play of Lamba Chi was strong and it proved fatal for AMI. The hard chargers forced AMI back twice, scoring two safties for LXA and adding four more points.

**I-F SCHEDULE**

If Phi Kappa Tau wins their I-M game on Wednesday, November 13, the Thursday, November 14 schedule is as follows:

6:15 Lambda Chi vs. ATO
7:30 Sig Ep vs. Alpha Mu Iota

If Lambda Chi wins the I-M game on Wednesday, November 13, the schedule is as follows:

6:15 Phi Kappa Tau vs. Alpha Mu Iota
7:30 Sigma Phi Epsilon vs. ATO

**I-F Standings**

| | W | L | T | Pts. |
|---|---|---|---|---|
| PKT | 2 | 1 | 0 | 35 |
| SPE | 2 | 0 | 0 | 30 |
| LXA | 1 | 2 | 0 | 25 |
| ATO | 0 | 1 | 1 | 15 |
| PEP | 0 | 0 | 1 | 10 |
| AMI | 1 | 1 | 0 | 5 |

# Freshmen Win First Contest; Defeat Temple

by Bill Wightman

The freshman football team closed out its season with a 12-0 victory over Temple last Friday afternoon on Muhlenberg field. The little Mules ended the 1957 campaign with a record of one win and three losses. Teamwork was the key to last Friday's success, as the freshmen displayed the class they failed to show in previous games.

The Mule defense prevented the Owls from penetrating beyond the Muhlenberg 35-yard line. The powerful defensive play was sparked by end Vince Rosso, of Baltimore.

**Scoring March**

Tom Wargo from Palmerton set up the first touchdown by intercepting one of Dick Fameiglitte's passes on the Temple 45. The Mules then moved to the 12 in seven plays, before Bob Butz rounded left end for the score, with about five minutes of playing time remaining in the first quarter. Butz gained a total of 21 yards in the 45-yard scoring march. Wargo's placement for the extra point was wide.

**Final Tally**

The second Berg touchdown came after a Temple punt went out of bounds on the Owl's 28. The Mules moved to the 18 on four plays for a first down. From there Lehighton's Merle Wolfe, playing his second game at quarterback, found running room around left end, and raced across the goal line for the final tally. Once again, Wargo was unsuccessful on his try for the point, and the score read, 12-0.

Only two Muhlenberg substitutes were used until the last four minutes of play. Guard Ed Callahan was moved to fullback replacing Ed Yost. Wolfe was the game's leading ground gainer, as he carried the ball 13 times for a total of 62 yards.

The loss was the third for the Temple yearlings, against no wins and one tie.

# Mule Gridders Tackle F. & M. In Final Game Of 1957 Season

Muhlenberg will close its 1957 football season on Saturday, when it travels to Lancaster to face coach Woody Sponaugle's Franklin and Marshall eleven. Thus far, the Diplomats, now in their 69th season of intercollegiate football, have defeated Johns Hopkins (13-7), Dickinson (35-7) and Western Maryland (40-6), and have lost to Tufts (14-7), and Carnegie Tech (13-0).

Heading the list of twelve returning lettermen among 32 candidates are two two year veterans and co-captains Charles Havens, a guard, and Dick Wright, a halfback. The forward wall, which has lost only two starters from last year's highly successful squad (a 5-2-1 record), will have veterans Bob Herring and Bill Pettigrew at the ends, veteran George Dilliard and newcomer John Irwin at the tackles, Havens and veteran Ed Kraft at the guards and converted guard Herb Moriarity at center.

**Outstanding End**

Herring, a senior wingman, has been outstanding all season and was voted most valuable player in the Dickinson encounter for his all around performance—especially in rushing the passer. Pettigrew, also a senior, does all the extra point kicking and kick offs. In addition, coach Sponaugle has several promising line reserves in Gil Shaffer, Norm Bell, Scott Wallace, Kent Weaver, and sophomore Al Hillman.

Offensively, the Dips, like the Mules, use the split-T formation. Their biggest weakness, due to inexperience, has been at quarterback where Tom Kirkup and letterman Fred Hesse have been alternating. At the halves, the Blue and White are set with hard-running veterans Wayne Dussinger and Wright. At full, triple-threat junior George Darrah, a converted halfback, will be the starter. The latter, a fine passer and punter, has shown power up the middle, and has set up the off-tackle and end-around plays of his halfbacks.

**Experienced Eleven**

In brief, the Blue and White have an experienced front-line eleven with the exception of the split-T combination of center and quarterback. They are strong at the ends and guards, but overall, lack depth due to inexperience and the lack of any outstanding sophomores. In spite of this, however, they have established themselves as one of the top small college teams in the East, both offensively (an average of 223 yards per game rushing) and defensively (they have limited their opponents to 52 yards a game through the air).

## Berg Kickers Lose Final Two Contests To Rutgers, Bucknell; Season Record 2-6

**THAT'S USING YOUR HEAD — Tuck Vollmer, Muhlenberg Soccer ace, uses his head as he passes the ball down field. Muhlenberg dropped the game to Bucknell by a score of 2-1.**

Muhlenberg's soccer team closed its current season on Tuesday by losing to Bucknell 2 to 1 on the Muhlenberg field. Berg also lost to Rutgers last Saturday and ended the season with a 2-6 record.

In the game at New Brunswick highly touted Rutgers defeated the Berg booters, 6-1. The undefeated Rutgers squad held a slim 1-0 lead at halftime, but took advantage of the visitors lack of depth and substituted freely against the tiring Mules in the second half. The Mules broke into the scoring column in the final period after Rutgers had built up a 6 to 0 lead, with Kasuba banging in four goals.

**Defensive Standouts**

Jim Balliet, Tuck Vollmer, and Fred March played a very fine defensive game for the losers. Goalie Don Simpson made the defensive play of the game as he blocked a penalty shot. Bob Lausch scored the lone tally for the losers as he slammed in an assist from John Holcroft.

Coach Nevin's squad lost its finale on a Bucknell goal at the start of the second half. The Cardinal and Gray struck first as John Holcroft booted his sixth goal of the season (to lead the team in that department) in the opening minutes of the contest but Bucknell quickly retaliated as Jim Boineck found the mark to tie the game.

This was the final game for seniors Jim Balliet, Sandy Dreskin, Bob Spivak, Don Simpson, and Ron Ritter.

What is the relationship between Lutheran Brotherhood and the Lutheran Church?

Forty years ago, at a Lutheran Church convention in St. Paul, a prominent layman stood up to persuade the group that Lutherans should work together to help each other in time of trouble.

At that time, many still thought insurance was un-Christian. So to make his point, he used a very simple illustration:

"Suppose two brothers made an agreement," he said. "Each promised that if the other died, he would provide for the widow and her children. That would be, in effect, an insurance contract."

A few days later the organization now called Lutheran Brotherhood was incorporated by church leaders. Its purposes were "to aid the Lutheran Church; to foster justice, charity and benevolence; to provide education . . . to encourage industry, savings, thrift . . . to furnish relief and protection to its members, their dependents and beneficiaries, through the payment of benefits in case of death or disability."

While its primary purpose is to give protection to members of the Lutheran Church, the Brotherhood also helps build churches by loaning money . . . helps train church leaders by providing scholarships . . . helps churches grow by giving money and supplies.

The Lutheran Brotherhood is a working partner of the church, staffed by Lutherans to serve members of all Lutheran Churches.

# Flying Dutchmen Spoil Mules' Upset Hopes With 26-7 Victory

Any hopes of an upset victory over unbeaten Hofstra which the Muhlenberg football team may have had, were annihilated last Saturday afternoon at Hempstead, L. I. Hofstra made Muhlenberg its eighth consecutive victim of the season with a 26-7 triumph. The win brought the Flying Dutchmen within two games of the first perfect season in the Long Island school's history.

Hofstra, usually known as a passing team, caught the Mules off guard and rolled up 271 yards rushing, and limited its passing total to 62 yards. At the same time, Berg gained 138 yards on the ground and 38 on passes. The Mules were able to reach the Dutchmen's territory on only two occasions — once on a touchdown drive, and once on an intercepted pass.

**Opening Tally**

The opening half was played on more or less even terms scoring-wise, with Hofstra holding a 7-0 advantage at the midway mark. The Dutchmen got their single tally of the first half with 13 minutes gone in the first quarter. They did it with a 32-yard drive in four plays, after Jim Nonnemaker punted from his end zone to the Muhlenberg 32. A 17-yard run by halfback George Weimer was instrumental in setting up the score. Quarterback Larry Magilligan was credited with all seven points as he sneaked over from the one-yard line for the touchdown, and converted for the point after.

Less than two minutes later, Hofstra was threatening again after Jim Rudd recovered a Nonnemaker fumble on the Muhlenberg 36. The fast-moving Dutchmen moved to the four-yard line before end Ken Hendricks threw Weimer for a seven-yard loss on fourth down ending the threat.

**Exchange Interceptions**

Moments later, the Mules moved into the hosts' territory for the first time, as Herb Owens intercepted a Magilligan pass on the Flying Dutchmen's 48. On first down, however, Magilligan evened the score with Owens by intercepting one of the Berg halfback's passes. The Cardinal and Gray failed to cross the 50 for the remainder of the half.

In the third period, Hofstra padded its lead by marching 77 yards in 11 plays following the kickoff for its second touchdown. The scoring drive ended when Frank Mauro dashed 28 yards to paydirt on a "draw" play. Once again Magilligan converted, making it 14-0.

The Mules came within seven points of their rivals soon after Roger Keehn returned the kickoff 20 yards to his team mates' 44. Art Wright hit Hendricks with a 21-yard aerial to the Hofstra 31, and from there Roy Madsen and Owens took turns hitting the line until Madsen plunged over from the one for the lone Muhlenberg tally. Wright's conversion split the uprights and the score read 14-7.

There was no further scoring in

(Continued on Page Six)

## Cross Country Team Jolted By Haverford

Haverford college gained its third cross-country win on Saturday when they defeated the Muhlenberg harriers on the 4.2 mile Haverford course, 17-46. For Muhlenberg, it was the sixth loss in seven outings and only Ron Dungan's fourth place finish saved the Bergmen from a shutout.

Dungan finished high for Berg in fourth spot, trailing Henry Phillips, David Hiller, and Gregory Alexander all of Haverford. The winning time was 23:45, considered good for the course in cold weather. Dungan finished in 24:13.

**Berg Finishers**

The next Berg runner to finish was Bob Voorhees who ran the course in 25:52 and finished in 11th place. Other Berg finishers were Dick Lewis in 13th place, John Carty in 14th place and Ed Thieler in 18th place.

Muhlenberg was hampered by leg injuries to both Pierce Knauss, who did not finish, and Ed Thieler, who crossed next to last.

The next meet for the Bergmen is at Franklin and Marshall on Saturday. This will be the final regular season meet before the Harriers compete in the Middle Atlantic States championship held at St. Joseph's college.

**SUMMARIES:**

| Place | | Time |
|---|---|---|
| 1. | Henry Phillips (H) | 23:45 |
| 2. | David Hiller (H) | 24:04 |
| 3. | Gregory Alexander (H) | 24:08 |
| 4. | Ron Dungan (M) | 24:13 |
| 5. | David Nowlis (H) | 24:17 |
| 6. | Myles Johnson (H) | 24:39 |
| 7. | Glen McCury (H) | 24:45 |
| 8. | Dave Grambs (H) | 25:02 |

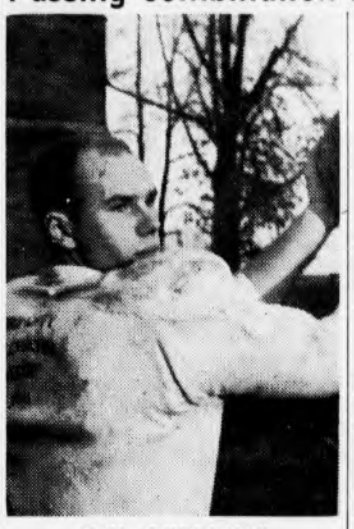
| 18. | Ed Thieler (M) | 30:23 |
| 19. | Dave Hanson (H) | 31:35 |

# *In the Sportlight . . .*

## Passing Combination Sparks Mule Gridders



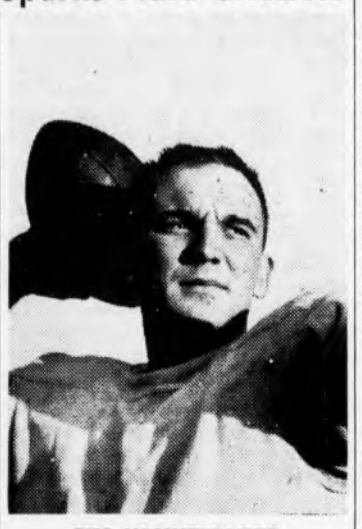
**KEN HENDRICKS**

Ken Hendricks, sophomore from Perkasie, Pennsylvania, has been one of the biggest assets to the Muhlenberg football team this year. At his position at right end he has been one of the leaders on defense and pass receiving.

Ken is a business major and hopes to become an accountant when he leaves school.

In his high school, Pennridge, Ken was an active participant in sports. He competed in football, his best sport, and in which he was selected first-team All Bux-Mont and second-team All-Greater Philadelphia. Excelling also in basketball he was named to the second-team All Bux-Mont.

Aside from playing football, he also plans to try out for the varsity basketball team.



**JIM NONNEMAKER**

Jim Nonnemaker is another sophomore that has bolstered the Muhlenberg squad this year. This six-foot, one-inch, two hundred pound quarterback, who lives in Sellersville, Pa., has led the quarterbacks in offensive statistics this year.

Jim is an English Major, and would like to teach as well as coach football and baseball when he graduates from college.

In high school he excelled in three sports; baseball, basketball, and football. During his four years in high school he succeeded in winning ten letters.

Aside from playing football, Jim also plans to try out for the baseball squad. He has had experience as a pitcher.

# *Sports in Short*

by Ben Livingood

After a stunning 26-7 defeat at the hands of Hofstra last Saturday at Hempstead, Iong Island, Muhlenberg's grid team is setting its sights on its next and final opponent of the 1957 season, Franklin and Marshall college. The Mules will journey to Lancaster on Saturday in hopes of capturing the victory which will give them the first winning season in three years. The 1954 Muhlenberg eleven finished the season with a record of four wins, three losses and a tie. The '55 and '56 squads finished with 4-4 records. The Mules should find easier going against F & M this year in comparison to last. The Diplomats have few returning letermen from last year's squad which brought an undefeated streak to Muhlenberg field only to have the Bergmen snap it with a 13-0 upset victory.

* * *

The cross country team has only two events remaining on the 1957 log. On Saturday it travels to F & M for the final dual meet of the season before the Middle Atlantics Tournament at St. Joseph's in Philadelphia on November 22. Although the Mule harriers have failed to win a meet thus far, the members of the team deserve a word of praise for their determination and game competitive spirit despite some heavy odds and the lack of student body interest in their sport.

* * *

Like cross country, Muhlenberg soccer has been on the short end of student body support throughout the current campaign. This year's booters finished with a 2-6 record. However, the rather dismal season was brightened with play of several outstanding underclassmen performers, which seems to hint a more successful season in 1958.

* * *

With the end of fall sports in the very near future, interest will soon be switching to the winter sports—mainly basketball. Performances by such past Muhlenberg standouts as Bobby Gall, Denny Roth, Bill Smith, and Cardy Gemma will be badly missed, but this year's cagers have appeared very promising in practice sessions to date.

# Soccer History Shows Beginning Of Football

by Ron Moxey

Today, football enjoys prominence during the fall season of professional, collegiate, and scholastic sports. However, if it had not been for the game of soccer, football popularity might never have occurred, because soccer is the original version of the gridiron game.

Soccer in one form or another has been played for more than 2,000 years by many people. The Americans received the game from the English, but it was not originated by them. Some antiquarians have traced the beginning of soccer back to the Egyptian fertility rites.

**Early History**

In England, soccer dates back as far as 1100 A.D. However, after this period of time it fell into oblivion until it became popular again in the 100's. In this century, all football was soccer, which was then, as now, essentially a kicking game. Football and soccer thus remained almost synonymous until the early 1800's. At this time, with the generation of the game of Rugby, the idea of carrying the ball was introduced. There the first differentiation between the two games became apparent.

In 1863, a conference held at Cambridge produced a set of rules which helped define the kicking game. A round ball was prescribed and teams of 20 players each were permitted. However, a month did not go by before representatives of about 20 amateur clubs held meetings in London and adopted the Cambridgian rules virtually intact. They formed the London Football Association. This group called their game association football to distinguish it from any other form of play. This name came to be abbreviated to assoc and later was changed to its present name of soccer.

**American Concept**

The game was generally recognized in the United States in 1913 when the United States Football association was formed. Most American schools now play soccer as a part of their regular sports program. It was the early football game of American schools until the 1870's when the American game began to take shape.

Soccer crowds in Ireland, Wales, and Scotland are as large or perhaps larger than American football crowds. The games in Great Britain are played with teams from all parts of Europe.

So, the next time you go to a football game, remember that all this would be non-existent if it had not been for the elder game of soccer many years ago.

## Four WEEKLY Editors Attend Press Meeting

(Continued from Page One)

clinics were outstanding men and women from the field of journalism. Among these people were Judith Crist, reporter for the New York Herald-Tribune; Glenn Hanson, from the School of Journalism and Communications at the University of Illinois and Charles Wagner, Sunday editor of the New York Mirror.

**Conference Luncheon**

Thomas J. Hamilton, chief United Nations correspondent for the New York Times, was the guest speaker at the conference luncheon, held on Saturday afternoon, in the Grand Ballroom of the Hotel New Yorker. Fred L. Kildow, Director of the Associated Collegiate Press presided at the luncheon.

In his talk, Mr. Hamilton said that he finds more material for his stories by listening to the conversations of the foreign representatives, after the actual meetings are held. He said that in order to get a good story, a reporter must "get the views of several delegates on what was the most important speech, on a particular issue." This, Mr. Hamilton finds, can be most easily done, by listening to the representatives discussions of the meetings. Mr. Hamilton then went on to discuss the hectic life of a reporter in the UN. He also explained several of the technical aspects of acquiring a good news story, including the use of a tape recorder for speeches.

Following Mr. Hamilton's talk, there was a discussion period, at which time he asked for questions from the assemblage. A representative from the University of Minnesota asked if the UN's future was insecure. Mr. Hamilton answered that "the hope of the UN lies in the increased cooperation between two nations, Russia and the United States."

## The Chowline

The third and final elaboration of Snack bar offerings will center around the cuisine offered during the evening hours. As you all probably know, the Snack bar is open during the evenings also, from 7:30 to 10:30 p.m. from Monday till Friday. Service is also maintained on Sundays from 9 a.m. to 1:00 p.m. and from 3:00 to 5:30 p.m. Saturdays find the Snack bar open from 9:00 a.m. till 5:00 p.m.

As usual a wide variety of treats are available for the gratification of the familiar pangs of hunger that plague students at about 9:00 p.m. The usual long list of fountain drinks is once again present, as well as the ice cream offerings. Hot dogs, hamburgers, sandwiches and various pie cuts round out the after-dinner snack menu.

Of prime importance and of high demand are the delicious pizza pies available for the asking. Coming in two sizes, the large pie sells for seventy-five cents while the smaller variety is a steal at forty cents. A nominal charge of five cents must be charged for orders "to go" due to the high cost of cardboard containers. Students no longer need travel great distances to get their pizza, since a few short steps to the Student center will solve their problem.

In charge of the Snack bar during the evening hours is William M. Bloss, a sophomore majoring in psychology.

So when you're wasting time in your room and you feel like a snack, dribble on down to the Student center — it will be the highest good attainable, eh!

A glow Top production.

**Adv.**

## Service Group

## Student Council Special Report

**For this issue of the WEEKLY, the Student Council is waiving its right to publish its minutes in order to bring to the attention of the entire Student Body the following item:**

**By unanimous action of the Student council at its meeting on Thursday, November 7, 1957, the following resolution was adopted.**

**Whereas Article II, Section 1 of the Codes of Conduct and Student Ethics of the Constitution and By-Laws of the Student Body of Muhlenberg states:**

**"A student of Muhlenberg college is expected to comport himself everywhere in a manner that will not bring discredit upon the College or its Student Body."**
**and,**

**Whereas Student council feels that action such as that which occurred on October 13 are against the welfare of the College,**

**Therefore, be it resolved, that any male student found or proven to have been in the off-limit areas of the Women's Dorm will be exposing himself to immediate expulsion or suspension from the College,**
**and further,**

**Be it resolved, that any female student encouraging such action will be exposing herself to immediate expulsion or suspension from the College.**

**Student Council will not tolerate the reoccurrence of any events similar to those of October 31. Violators will receive the severest of penalties.**

**LUIS TORRES,**
**President**

**RAY UEBERROTH,**
**Recording Secretary**

## Mules Lose Third

(Continued from Page Five)

the third period, but the Dutchmen came back strongly in the final stanza with two more touchdowns. The first came on a 49-yard end run by Weimer, and the final six pointer was the result of a 10-yard pass from Magilligan to Don Baldwin in the Muhlenberg end zone with only two and a half minutes of playing time remaining.

Hofstra leads Muhlenberg in their young series, 2-0, having conquered the Mules 13-9 last season on Muhlenberg field. The Bergmen's record now stands at 4-3. They play their final game of the current season next Saturday afternoon against the Diplomats of Franklin and Marshall college at Lancaster.

## Jazz Society

**The Jazz society will meet on Monday evening, November 18 at 7:30 p.m. in the commuter's room, West hall.**

## Sociology Club Meeting

**On Wednesday night the Sociology club will present a panel discussion entitled "The Social effects of Co-education at Muhlenberg college" with Miss Dietrich as moderator. It will be held in the commuters' lounge of West hall at 7:30 p.m.**

# MUHLENBERG WEEKLY

"Toward a Greater Muhlenberg"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., November 21, 1957 | A. C. P. Rating | No. 9

## Thanksgiving • 1957

Let us not underestimate the significance of Sputnik. The myth that America is unconquerable has now been shattered. Joe Doakes does not seem to realize yet that his 'great' America has lost the scientific race. However, slowly and inevitably seeds of fear, the realization of defeat, is spreading. For many years thinking people have come to comprehend the enormity of man's increasing destructive power. But our government has not been loathe to assure the citizenry that the United States has the means of effective retaliation to any foreign threat. Even this is not comforting in the face of all-out-war, but it gives a sense of independence, the security of possessing bargaining power, the confidence of wielding a formidable threat. Now everything is changed.

With this in mind we approach Thanksgiving day. Our prayers shall echo the usual refrains, in thanks for home and family. We shall piously remember the good old story about the Pilgrims and how they gave thanks just to be alive after the hardships of their first heartbreaking year in America. Shall we remain humbly grateful if we reflect that within this generation America might revert to a similar situation? Envision a second Pilgrim band, refugees from an insane world, struggling for life on a more barren shore, strangers on a bleak, lonely planet.

And yet, we might be so bold as to celebrate a special Thanksgiving this year. Thank God for Russia, for anxiety and fear, for the visible threat of cruel and sudden death. As a nation, we may yet abandon a foolish trust in the myth of science. With our back to the wall we may gain greater wisdom. There is always hope for this or any other world as long as man can be made to realize that everything is not all right.

Just as all is not right for our nation so too there is much amiss within each soul. Death may seem at times very remote, the Ultimate Reality may seem quite unreal. We are cushioned from the sharp truths of life by so many tranquilizers and distractions. Don't look beyond the television screen or the comic world of childhood, for there is much of the unpleasant and embarrassing in your society.' But at the last shall we have realized the fullness of our capacities or have even awakened from that ever-menacing lethargy of the soul?

Therefore, thanks be to the Wisdom of the Ages for a grand alarm-clock and also for those smaller cuts and bruises of quickening effect; for the fear of Satan's visible and powerful force, in this country and in Russia, and also for the tragedies of our personal lives. And if this is to be, thanks for the loss of everything dear and precious, physical and spiritual as long as true reality is reached.

## Pertinent Problems Discussed At Second Leadership Meeting

Over two months ago, 20 Muhlenberg men and eight Muhlenberg women assembled at the Volunteer Service center in Pottstown for a student leadership conference. Many existing and potential problems were discussed and definite and tentative answers were arrived at. This September's meeting marked the first time that a meeting of this sort had been tried.

Last Sunday night this group again met to continue examining campus problems and to consider new problems which have arisen since the Pottstown meeting. The usefulness of a conference of this type was also evaluated at this second meeting of the student leaders in addition to the specific discussion of the problems.

**Those in Attendance**

Those who attended this conference were the personnel deans, the chaplain, the same male members who attended the meeting at Pottstown, and the members of the women's dormitory council.

Arriving at the YWCA cabin at Summit Lawn in the late afternoon, the discussion immediately descended upon freshmen regulations. The successes and failure of this year's freshman program were discussed in addition to proposals for next year. During this discussion resolutions were presented in regards to Tribunal and its current structure of membership. This subject was continued until a hot dog and baked bean supper intervened at 6:15.

Following supper the group again assembled to continue the conference. Due to the absence of several committee chairmen the committee reports were eliminated. The discussion, therefore, turned to the 19 recommendations the Pottstown conference had made and the degree to which they were carried out. Several points on these recommendations were discussed at length.

**Points Discussed**

Among these points was the problem of visitation of fraternities by Muhlenberg women. Also the curfew hour for girls on weekends was once again questioned.

Other issues that were elaborated on were the Big Brother program, the role of a chaperone at a fraternity party, and the women's dormitory council. Tentative plans were set up for a constitution for women's dormitory regulations. The constitution will be

(Continued on Page Six)

## Sister Ebert To Speak At Women's Meeting

Sister Anna Ebert, director of the Philadelphia Motherhouse of Deaconesses, will address the Muhlenberg college Woman's Auxiliary, Tuesday at 2 p.m. in St. Peter's Church, 1925 Hanover Ave., Allentown. She will speak on "Church Vocations for Women."

An honorary Doctor of the Humanities degree (LHD) was conferred upon Sister Anna by Muhlenberg college in 1945. In addition to her duties at the Motherhouse for more than 25 years, she has served as Directing Sister of Lankenau hospital since 1940 and dean of the Philadelphia Lutheran Deaconess school since 1950.

**Kutztown Graduate**

A graduate of Keystone State Normal school in Kutztown, she attended the Philadelphia Lutheran Deaconess school. In 1926 she was graduated from Lankenau Hospital School of Nursing and in 1930 received a Bachelor of Science in Education degree from Temple university.

She is the former superintendent of Zurbrugg hospital at Riverside, N. J. She also is a former superintendent of nurses at Lankenau hospital and a former superintendent of the hospital.

Miss Dorothea Kostenbader, Auxiliary president, will preside at the business session. The speaker will be introduced by Mrs. Willard U. Baum, vice-president and program chairman.

The Rev. Asa S. Wohlsen, pastor, will lead the devotions. Clement Burton, organist and choir leader, will be at the organ, and Mrs. Roger W. Rentschler will be soloist.

Mrs. Fred Reinoehl, auxiliary keywoman, will be in charge of tea, which will be served after the business session.

## Sacred Music To Highlight Zion Concert

A concert of sacred music by the Zion Choral society will be presented Sunday afternoon, November 24, at 2:30 in Egner Memorial chapel on the Muhlenberg college campus.

The program will open with a group of Bach chorales by a brass ensemble, composed of members of the Quakertown band under the direction of Ralph Moyer.

Dr. David H. Bremer, Muhlenberg college chaplain, will give the invocation, the closing prayer, and benediction. Members of the Cardinal Key, the service society of the college, will serve as ushers. The concert is open to the public and a free will offering will be taken.

**Program**

Selections by the 85-member choir will start at 3 o'clock. The program will include "He Shall Feed His Flock" from the "Messiah," sung in three parts by the women choristers, and Handel's "Thanks Be To Thee," a four-part arrangement for men's voices. The male quartet includes Robert Lang, first tenor, J. Gordon Brensinger, second tenor, Ernest Hertzog, first bass, and Oscar Myers, second bass.

Other offerings will be "With A Voice Of Singing" by Shaw, "Here Yet Awhile" by Bach, and "How Shall I Fitly Meet Thee" from Bach's "Christmas Oratorio."

**Special Selections**

There will also be special selections by Mrs. David Weidemoyer at the piano and Richard Van Auken at the organ.

The Zion Choral society was organized in 1929, and many denominations are represented by the singers. The time and labor of the members and the officers of the choir are voluntarily contributed.

The selections to be presented on Sunday were recorded recently by the Zion Choral society along with other selections including Rosenmuller's "World Farewell, Of Thee I'm Weary," Handel's "And The Glory Of The Lord," and Pergolesi's "Glory To God In The Highest."

## Chapel Choir To Sing On Television Show

Members of the Muhlenberg chapel choir will participate in a network television show in New York this Sunday, November 24. The program is "Look Up and Live," on CBS-TV at 10:30 a.m.

The Muhlenberg men will be the congregation for a half-hour re-creation of a second-century worship service. Thirteen men have been selected to make the trip. They will sing three plain chants during the program,

"Look Up and Live" is a regular religious drama, sponsored by the Lutheran church and several other Protestant churches. The choir's appearance was arranged by Helen B. Bailey, Muhlenberg publicity director, and Ludwig Lenel, choir director. Muhlenberg will get a credit on the program.

Choir members will travel to New York by car on Saturday and participate in a dramatic and musical rehearsal at 4 p.m. They will stay overnight and begin technical rehearsals at 6 a.m. on Sunday. As part of the congregation they will wear dark suits and off-white shirts.

## McConnell, Kennedy and Shalter Head Cast of "Othello" Tonight

In the title role of "Othello," Mask and Dagger's production which begins its run this evening, will be Jim McConnell, Muhlenberg thespian who has proved his ability by many past performances. Dick Kennedy and Pat Shalter have supporting roles in the Shakespearian drama to be presented in the Science auditorium Thursday, Friday, and Saturday at 8:15 p.m.

Four members of the supporting cast of "Othello" try on their costumes at the first dress rehearsal. The Shakespearean tragedy is the Mask and Dagger society's fall production of the 1957-58 season.

A senior from Allentown, McConnell is president of the Mask and Dagger society and has had experience in feature roles in several past performances, including Sheridan Whiteside in last year's "Man Who Came To Dinner," Captain Queeg in "The Caine Mutiny Court-martial," the lead in the MCA's production of "Murder in the Cathedral", and several others.

**Supporting Cast**

Kennedy, who will portray Iago, the villain, is a junior English major from Pottsville. He began his association with M & D last year, playing the lead as Henry Higgins in "Pygmalion." Desdemona, Othello's wife, will be played by Pat Shalter, a freshman from Reading.

"Othello" is a romantic tragedy by William Shakespeare, set in early sixteenth century Venice and Cyprus. It is one of four great tragedies, Othello, Hamlet, King Lear, and Macbeth, written in Shakespeare's "Period of Despair", a time when he was pre-eminently concerned with the struggle between evil and good in the soul of man.

**Story**

The story concerns Othello, gallant Moorish general of the armies of Venice, who has courted and secretly married Desdemona, the daughter of Brabantio, a senator. Othello makes a young soldier Cassio, his lieutenant, by-passing Iago, another officer. For revenge, Iago attempts to turn Brabantio against Othello, and failing in doing this, convinces Othello that an affair is going on between Desdemona and Cassio. In a rage, Othello kills Desdemona and falls on his sword, killing himself.

The supporting cast includes Barbara Reichenbach as Emilia, Iago's wife; Bob Sabol, Cassio; Simon Gribben, Roderigo, Iago's henchman; Bob Kehrli, Brabantio; Janis Horvath, Bianca; Don Michaels, Lodovico; Don Canfield Gratiano; and Mike Sanders, Duke of Milan.

Tickets will be sold at the door, $1.35 for reserved seats, $1.00 for general admission. Students will be admitted upon presentation of activity cards, or will be sold reserved seats for thirty-five cents.

## 'Turkey Trot' Cancelled; Illegal Rushing Revealed

Charges were placed against Sigma Phi Epsilon social fraternity, for illegal rushing procedures at the weekly meeting of the Interfraternity council on Monday evening, November 18. The council met again on Tuesday evening for a special session. At this meeting it was decided to cancel the originally planned M-club and Interfraternity council dance, "The Turkey Trot."

Walter Schuman, acting in his official capacity as president of the Interfraternity council, officially lodged a complaint against Sigma Phi Epsilon, for rushing proceedures that are contrary to the constitution of the Interfraternity council. Specifically, it was charged that Sigma Phi Epsilon had allowed freshmen on the premises of the fraternity. A trial will be held next week to determine the validity of the charge.

**Turkey Trot**

The "Turkey Trot" which was originally planned as a joint project of the Interfraternity council and the M-club was cancelled by a special joint action of the two groups. The administration, through the office of the dean of men, prompted this action. The reasons given for this action were that the organizations sponsoring the dance neglected to officially register the chaperones, one week prior to the dance. Administration action was also taken, forbidding the serving of alcoholic beverages at the event.

Plans are being carried out for the cancellation of all existing contracts. Money will be refunded to any one who has already bought tickets. Transportation to the dance that was originally scheduled has been cancelled and the arrangements with the Northampton Community center have been canceled. Lack of student interest in the dance was the main reason for its cancellation, plus the administration's action in the affair.

### Arcade Meeting

**There will be a meeting of the ARCADE staff on Tuesday, November 26 at 3:30 p.m. in the Ciarla office. Business will be to consider for publication those contributions to date.**

**William Holst**

## Renninger Speaks At Classics Meeting

"Logos in Hebrew and Greek Thought" was the topic of Rev. Jesse B. Renninger at the meeting of Eta Sigma Phi, national honorary classics fraternity, held on November 20 at 8 p.m. in the Chapel lounge. Rev. Renninger is professor of religion at Muhlenberg. The meeting was not restricted to club members, but was open to all students.

The Alpha Rho chapter of Eta Sigma Phi was formed in 1931 as an outgrowth of the Classical club. It strives to keep alive interest in the classics and to support an appreciative feeling for the ancient languages. Membership is open to any student who has completed at least one semester of Greek or Latin, achieved a "B" or better, and who has maintained an overall college average of eighty per-cent.

## Arcade Staff To Present Prize For Best Literary Contribution

By action of the **Arcade** staff, a prize of $20 will be offered to that contribution (poem, essay, or short story) of any eligible affiliate of Muhlenberg college, judged best by a committee of the staff and faculty members. Members of the staff or any contributor whose work has in the past been published by the **Arcade**, are eligible.

The contribution must undergo judgment through conventional means and must meet the basic standards established by the staff before it may be considered. The piece will be published in the fall issue of the **Arcade.**

**Deadline**

The deadline for contributions will be on December 9, three days before the final date for **Arcade** material. Contestants may submit their work to any member of either the **Arcade** staff or the English department.

The aim of the prize is to stimulate the creative efforts of personalities new to the vision of the **Arcade** and to engender a healthy competition among them.

In a national contest sponsored by Pi Delta Epsilon, national honorary journalism fraternity, held at Cornell university on October 26, the **Arcade** won a second place award when it was entered in a college class based on enrollment. The Arcade was entered in the classification of from 600 to 1200 enrollment. The first place award in this division was given to Alfred university and third place honors were awarded to Coe college. This was the first time that the **Arcade** had received national recognition as a collegiate literary magazine.

William Holst is the present editor of the **Arcade.** Faculty adviser is Dr. Harold L. Stenger.

# Editorial Views——

## To Be or Not To Be . . .

**Interfraternity council is facing a critical test — either they assume the responsibilities that have constitutionally been placed in their hands or administrative proceedings from the Dean of Men's office will be necessitated.**

Regulated by the rules as stated in the Constitution and By-Laws of the organization, the management of fraternity and interfraternity affairs is in the hands of the Interfraternity council, subject to the advice and overall supervision of the Dean of Men and the faculty of the College. Historically the council has been incompetent and reluctant to accept the responsibilities extended by their charter. With this vacuum present, the administration was obligated by direct action to preserve the best interests of Muhlenberg college.

A partial vacuum exists within the present body. However, a definite step forward was taken on Monday evening. **At this meeting the President of the council officially lodged a complaint against Sigma Phi Epsilon for violation of the rushing clause stating that no freshman may be allowed on the premises of a fraternity house. Sigma Phi Epsilon's council representative admitted that freshmen had been in the house.** Also it was charged the members of the Muhlenberg chapter had taken freshmen into the Sigma Phi Epsilon chapter house at the University of Pennsylvania. Other rumors and reports concerning the fraternity's actions were also made known. **A trial will be held next week to determine the validity of the charges, and the resulting penalty, if any, may be subject to appeal.**

Interfraternity council has taken a stand. Therefore, the vagueness of the charges requires the necessity of clarification. Reports of violations must be official. Conclusive evidence must be presented to provide a foundation for the charges. Available information held by the Dean of Men should be presented at the trial. Various members of the student body, present when these violations supposedly occurred, must testify to prove the validity or non-validity of the accusations. **The WEEKLY calls upon all members of the student body who have witnessed these violations to present their testimony at the trial. If fraternity regulations and honor have been broken, severe punishment to the violating fraternity is necessary.**

Only definite action by the Interfraternity council will counteract the declining faith of the administration in student responsibility. **Will the council's actions show its acceptance of responsibility, or will it once again avoid the issue, necessitating the use of administrative pressure?**

## Hurrah For The Coeds . . .

*This editorial is reprinted from the October 31, 1957 issue of the Morning Call, Allentown, Pennsylvania.*

In more ways than one, coeducation has been a shot in the arm for Muhlenberg.

And in just as many ways, co-education at Muhlenberg—officially and formally inaugurated at academic ceremonies this week—has been good for the community, good for those of its young people who want and can profit from the diversified opportunities it offers.

For more than a century prior to last September, when the first girls arrived on the campus as full-time students, Muhlenberg was a college for men—a college that through the years made it possible for thousands to prepare and prepare well for careers in which they serve their fellows.

Just how well the college has done its job and how widely it is known for that job is indicated by the fact that applications for admission to its freshman class now are approximately 10 times the number that can be accepted.

There are indications already, less than two months after the co-eds arrived, that Muhlenberg not only will do the same outstanding job for women that it has done for men but it will do an even better job than before for its men.

Even most of the die-hards—and there were many both within and without the college's constituency who were unalterably opposed to co-education—admit that in a few short weeks they have seen the beginnings of a new and a greater Muhlenberg.

Good teachers—always one of Muhlenberg's greatest strengths—are still there and, for the most part, they are teaching the same subjects they taught last year, the year before, and perhaps for many years before that. They have noted, however, that they are teaching more interested students; that academic competition has been sharpened; that there is a greater classroom eagerness as men and women —as is generally the case—seek to attract each other's interest.

The same factors, old-timers who have visited the campus in recent weeks have observed, have resulted in better-groomed college students in a better college spirit that has been particularly evident at football games and in public areas, in a neater, more sprightly, more pleasant campus, in more gracious surroundings.

The college has benefited, too, by the new funds that have come from the Lutheran Church and from its other friends; funds that have made possible one new dormitory and the refurbishing of another, a new health building; a new women's athletic field; a better library; new tennis courts; a balanced budget; a reduction in the indebtedness that for many years has been a millstone and that still must be completely erased; funds that have made it possible for Muhlenberg to retain and expand a faculty of men who are real teachers.

And the community benefits, too, not only because it has a better college for its sons, but because its daughters have even more facilities for a higher education than they have had, because the areas for which they may prepare withouf going too far from home have been broadened.

There is every reason to be grateful that Muhlenberg has expanded its educational facilities and their is every reason for the people of this community, their churches, and their business interests to support this college that through the years has served them so well and that now points toward even greater service.

# Chess Players Promote Intellectual Competition

**Dennis Gurski and Ed Pulver match patience and mental skill over the chessboard. The Chess club fosters student interest in this game of intellect, and participates in matches with other colleges and with industrial teams.**

**by Jan Horvath**

On every second Monday of the month at six-thirty in the evening if one passes under the lighted window of the third floor English office, he may not realize that in that very room a battle of strategy is being fought. One general scratches his head premeditating the next move of his foe, but soon "check-mate" is heard and the war is won.

Mr. Chatfield, advisor to the chess club, thinks of chess as a game of skill, imagination, and concentration and of the players as "two generals" fighting a war. He was taught the game by his father at the ripe old age of four years and has enjoyed the game ever since. When he was a freshman in college he held the title of City Champion in New Haven, Connecticut and played on the Yale university team. It was through his effort that the chess club was organized at Muhlenberg in 1955.

**Outside Competition**

Intercollegiate competition is not the main goal of the club, although it is an important one. The club's immediate purpose is to stimulate interest in chess here at Berg. Outside competition is, however, promoted and the club has played against such teams as Lehigh, Western Electric, and Ursinus. Last year our team was sent to Philadelphia to compete in nation-wide intercollegiate competition and finished in a very satisfactory middle position. It was a Swiss tournament in which one team, rather than one person, challenged another. This year the tournament will foster individual competition likewise, on a nation-wide basis, and will be held at Erie, Penna.

An outstanding member of the club is Mahlon Cleaver who has won the city championship several times and has taken second place in the state tournament. Though he has been playing chess for only five years, he has become proficient enough to defeat any member of the club. Among the other titles which he held are the Pennvania State and Tri-State junior championship.

**Club Program**

Through the efforts of the club, the Library has purchased books on chess for beginners as well as for established players. The club is a member of the United States Chess federation and as a member receives the publication called *Chess Life*. It is a club not solely for the purpose of polishing one's game of chess but also teaching the game to non-players. Mr. Chatfield would enjoy seeing interested students come to the meetings—girls, too — and spectators are always welcomed.

# THE CAMPUS Whirlpool

**by Dick Kennedy**

Behold! This past Monday was truly a day of revelation. It was a day of hallowed sacredness. All students, professors, and administration bowed low. Yes, Monday was the day! That's right. **Al Arscht came out of hibernation to attend classes.** (Incidentally, physics majors confused their holidays. They stood about the campus with their weathervanes and other devices. They thought it was ground-hog day.)

Word of mouth has it that **Fred Frey is so certain of getting a date for the senior ball that he has wagered fifty dollars on it.** True, one of the stipulations says that he is to ask an older woman . . . Also, those with whom he has made the bet are the ones who must choose his mate for the affair. Be merciful with him — remember that **this is an impressive function, fellows, and Fred just wouldn't quite fit into the party with Eleanor Roosevelt.**

The residents of West hall have been gravely disturbed with their latest mark of distinction. Some of the girls complain that they cannot sleep with those "horrid" spotlights shining in their eyes . . . they come to class with rings around those eyes and their only time for real relaxation is in class. **It has also been suggested that sunglasses be purchased for the squirrels so that they may sleep at night.**

Another anecdote from that female abode—**Phyllis Lehman is the proud owner and operator of one Spanish guitar.** (She claims she learned the art from an old bull-fighter (or thrower) who works on the docks.) The other night, the girls gathered around and had a good old song fest—the songs being Christmas carols. Now this is not out of place. After all, it's almost Thanksgiving and the Christmas spirit has practically subsided.

Several students have requested that the **WEEKLY** be transformed into a lost-and-found bulletin. **Poor Don Michaels has been all wet for almost a month because he cannot find his raincoat, and Helmut Germer can no longer attend chem class since he has lost his slide rule.** If anyone can aid these men, let it be known that they offer a hearty "Thank-you' as reward payment. Now there's an incentive!

# 'Round Campus

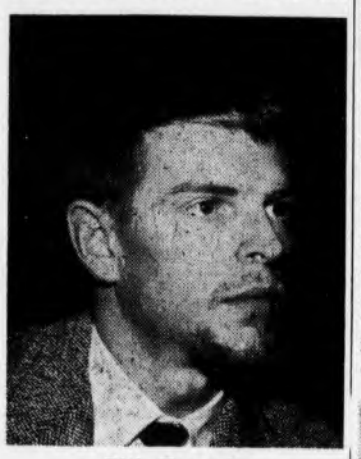
# Berg Players Star In Othello

This is a week in which Muhlenberg campus resounds to the intrigues, the soliloquies, the grim murders, and the clashing swords of Shakespearean tragedy. This is the week in which "Othello" has come to Muhlenberg campus. Stepping into the limelight, in the role of the Moor of Venice, is Jim McConnell, a familiar figure on the Muhlenberg stage.

Jim, a resident of Allentown, came to Berg upon his graduation from AHS in 1954. Majoring in English, Jim's intended vocation is that of teacher. He is the



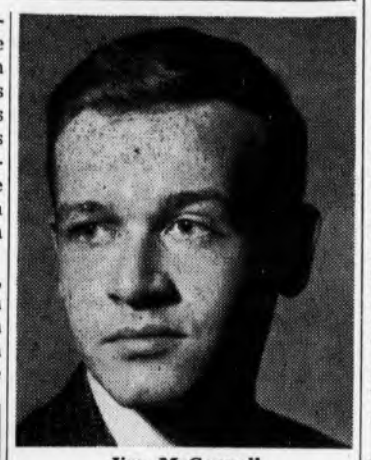
**Dick Kennedy**

president of both Phi Kappa Tau social fraternity and of the Mask and Dagger society and a member of Alpha Psi Omega dramatics fraternity.

Jim's interest in dramatics was kindled in a drama workshop during his elementary school days. He regards the works of George Bernard Shaw as the epitome of drama. Of the innumerable roles he has played, his favorite is that of Sheridan Whiteside in "The Man Who Came to Dinner." As a veteran of character parts, Jim disagrees with the dramatic policy of "living the part" and wholeheartedly advises the keeping of a "warm heart and a cool head."

Stepping into the role of "Honest, honest Iago" is Dick Kennedy, another veteran to the Mask and Dagger stage. Dick is best remembered for his performance as Henry Higgens in "Pygmalion." He also played on "The Man Who Came To Dinner."

An English major, Dick hails from Pottsville, Pa., and is a junior at Muhlenberg. He is a member of Phi Kappa Tau social fraternity,



**Jim McConnell**

Pi Delta Epsilon, honorary journalism fraternity, and served on the Freshman tribunal last year.

As Iago, Dick plies the Moor with his so-called "honesty" to the point of madness and turns the Isle of Cyprus into a churning mass of psychological temper and confusion. This is the first time that play-goers will see Kennedy in a role that is other than humorous.

**Pat Shalter**

Desdemona will be played by a Muhlenberg coed, Pat Shalter. Pat is a freshman and comes from Reading, Pa. This is her first appearance on the Muhlenberg Mask and Dagger stage and she steps into a leading role with this, her initial performance.

As the receiver of Othello's passion and the object of Iago's wrath, her virtue is tossed about and finally drowned in complete denial by her husband. In the end, he is so overcome with grief, that Desdemona dies by his hand.

# From Here And There

**by S. Heim and R. Schlunk**

There were two interesting articles in the **WEEKLY** last Thursday, one concerning a leadership conference to solve various campus problems (outstanding among these seemed to be the oft-mentioned "student apathy"), and the second, the formation of another honorary fraternity. Apathy among Muhlenberg students certainly has been all too apparent in recent years, and something positive should be done to remedy this. This apathy seems to increase proportionately with the growth of the number of extra-curricular activities on campus.

The problem of student apathy is then, *not* because there are not enough intellectual organizations and other stimuli on campus—there are plenty, many very inviting to the individual student. This is the beginning of the problem. The energetic student naturally dives headlong into several clubs, and very ambitiously becomes actively involved. He will soon realize that with his studies, etc., that he has more than he can handle. Consequently he does a "half-baked" job all the way around, accomplishing very little.

This disease of surface scratching spreads to others who are a part of these same groups. We certainly have a quantity of stimuli, but this is all. Stimulus without penetration is worthless. Why add another extra-curricular activity when we have more than we can handle now, unless it would add another key to the jangling chain.

Several years ago an attempt was made to combine some of the meetings of the smaller groups, but this met with no success. The idea *was* a good one. With a little concentrated and directed effort on the part of those enthusiatic members of many outlets existing, it is possible that some of this student sleeping sickness might be eliminated. The patient, of course, must want to be cured, or else all remedial effort is to no avail.

# Letter To The Editor

To the Editor:

It has come to my attention that the national service organization, Alpha Phi Omega, which is attempting to organize a chapter here on the Muhlenberg campus, was thwarted by Student council on the grounds that there was no need for an **"ambiguous"** group on campus. This ambiguity was inferred from the list of suggested service projects **to aid the student body** and not from the list which suggests projects **in service to the community.** (it should be noted here, that APO is primarily a campus service organization on those

# Berg Footballers Complete Season With Record of 4 Wins, 4 Losses

by Don Poppe

Despite a surprisingly fine start, Muhlenberg's football eleven was not able to do any better than post a 4-4 record once again this year. At the very outset, it was apparent that inexperienced sophomores would be counted upon heavily, and a number of them came through in fine style.

In the season's opener, a fast-starting Lafayette team grabbed a 20-0 half-time lead and staved off a late Berg rally to win 20-13. The Leopards scored their first touchdown in the closing minutes of the first period, and added two more within the final five minutes of the second. In the second half, however, the Mules' offense, led by sophomore quarterback Jim Nonemaker's passing and signal-calling, began to click when Pat Wilson scored from the two. Not to be outdone, the Bergmen, who looked good even in defeat, scored again with 43 seconds remaining as sophomore end Ken Hendricks recovered a fumble in the end zone.

**First Victory**

Returning home, the Mules met Albright in the first of their four consecutive home games. Sophomore halfback Herb Owens led the attack with two touchdowns, and gained 101 yards in 12 carries as the Cardinal and Gray subdued a stubborn Lion squad, 18-14. Senior halfback Tony Caporale was impressive as he gained 60 yards in 11 carries, and soph Hendricks once again was outstanding as he blocked an Albright punt.

On October 12, the Mules defeated a highly successful Scranton team, 6-0, as sophomore Owens once again accounted for the margin of victory on a 35 yard touchdown jaunt. End Don Herman and tackle Bob Hieter were outstanding on the forward wall.

On October 19 Owens was again the difference as he scored two touchdowns in the final six minutes of play to overcome a 6-0 deficit and hand Lebanon Valley an 18-6 defeat.

**Win Skein Ends**

Riding the crest of a three game winning streak, the Mules met a rugged Gettysburg college eleven and saw their victory skein end in a 21-0 setback. The Mules' ground attack, which had averaged just under 200 yards a game in its first four outings, was limited to a mere 33 by the rugged Bullet defense. Sophomore Nonnemaker was impressive in defeat as he completed 4 of 6 passes and kicked several 45-yard punts that kept the Bullets from running up an even higher margin of victory.

Rebounding from their second defeat, the Mules traveled to Philadelphia to engage the Temple Owls, whom they handily defeated by a 40-16 score. Again Herb Owens lived up to his notices as he reeled off touchdown runs of 52, 49, and 7 yards. In addition, he recovered two Owl fumbles and completed a 14-yard pass that set up a Berg touchdown on the Temple five.

On November 9 the Bergmen traveled to Long Island where they met coach Howdy Myer's undefeated Hofstra squad. Any thought of upsetting the Dutchmen was forgotten as Hofstra rolled to its eighth consecutive triumph, 26-7. Fullback Roy Madsen scored on a one-yard plunge early in the second half for the Mules only score.

In their final outing, coach Woody Sponaugle's Franklin and Marshall Diplomats gained revenge for a 13-0 setback last year by belting Muhlenberg 41-20.

# Harriers Drop Sixth; Lose To F & M, 19-37

This past Saturday, November sixteenth, Muhlenberg's cross country team dropped its sixth meet of the year to Franklin and Marshall.

The loss left Muhlenberg with six defeats and a tie in seven outings. Only the Middle Atlantic meet this Friday in Philadelphia remains on the season's slate.

**Dungan Leads Mules**

F & M swept six of the first seven places. John Buchanan and Dick Clapp tied for first over the 4.4 mile course with times of 24.44. Ron Dungan paced the Mules, finishing behind the front runners with 24:55.

Other finishers were James Moran, F & M, 25:43; Chuck Walters, F & M, 26:10; Nathan Senst, F & M, 26:14; Bob Voorhees, M, 27:06; John Carty, M, 27:21; Dick Lewis, M, 28:00; and Ed Schnyder, F & M, 28:20.

# Coed Declares Gym Classes Are Unpopular

by Ima Bergcoed

It's five of nine, and a stream of co-eds go tearing down the mall to meet that dearly-beloved class of gym. If chances are good, it may rain or snow—then class will be canceled. If extremely lucky, maybe the gym teacher has caught the flu, but as usual you are unlucky and you tear over to Katy for an excuse. Your attempt is unsuccessful.

But so life goes, you say to yourself "I like gym, I'm going to enjoy myself" and proceed to get out the famous red shorts. Of course, the shorts are designed for the summer time and you freeze to death. But wait — We are Berg co-eds and this kind of action "is not to be."

The clock says nine after nine, and you have one minute to make it to the field — you forget and take the short cut through the lobby in bermudas — Oh my, you just committed the sin of the year — ten campuses for you, my dear.

At last, you make it to the field — you poor individual, you're late. Everyone is in line, you get their just in time for the command "Dress Right," which apparently no one has learned yet. Then the roll call, Oh my, you forget your number — how could you do that? You are a Berg coed and "this is not to be."

Next call — "Equipment" — Oh no, of all things, it was your turn to take out the hockey sticks. So you run back and get them. What, you were just stampeded in the rush for the long sticks. Cheer up, better things are ahead. Of course, you're five foot ten inches, and you wind up with the shortest stick but, that's to be expected.

# I-M CORNER

by Jack Coughlin

In the I-F league last week SPE took measure of PEP, 13-12. In a close and hard fought game PEP Boys jumped to a 12-0 lead at half time. Ed Smith accounted for the first TD after a long drive as he swept end for the tally. Gil Sopher intercepted a pass and went the distance into pay dirt to give the PEP Boys their 12 point edge. In the second half Sig Ep came to life as Dave Jones sparked his team to the victory. Jones scored on a run and then passed to Frank Vari to tie the score, 12-12. The all important point was made by the same combination and Sig Ep took the victory by 13-12.

**ATO Victorious**

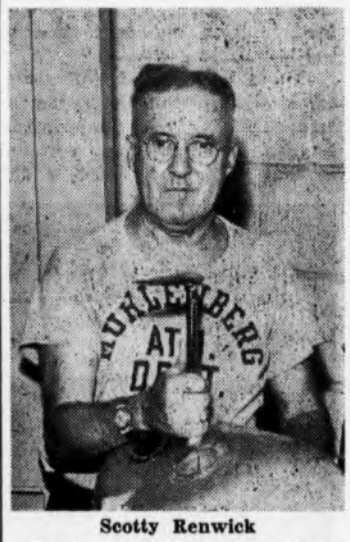
On the same night ATO defeated AMI by a score of 13-7. With Bob Nuss passing and Don Bright on the receiving end the ATO's were led to victory. Nuss hit Bright for the first Td and built up a quick six point lead. AMI came back fast and scored on a pass from Stan Handleman to Bob Cardonsky. Herb Siegel caught the pass that gave AMI a one point edge. After two goal line stands and some good line play, ATO moved down field and another pass from Nuss to Bright topped off the drive. Nuss swept end for the extra point.

In the I-M league Lambda Chi beat Phi Tau and on the Semi-windup game. They will meet PEP for the I-M championship. PKT took a first half lead of 7-0 when Ken Stewart hit Bob Shumacher for the score. Stewart tossed again to Phil Haines for the extra point. In the second half big Mike Woolley unlimbered his passing arm and Ken Mealing hauled in the passes. Ken came up with two beautiful catches and gave the 12-7 victory to Lambda Chi.

# College Trainers Boast Long Service

by Ben Caplan

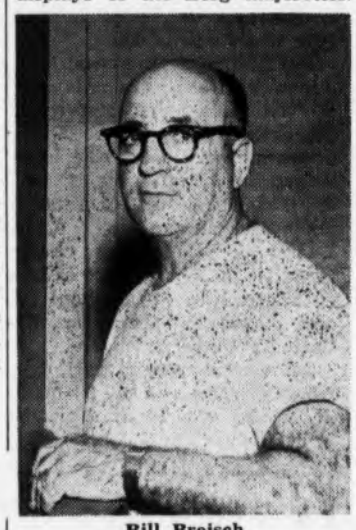
Two of the most venerable members of the Muhlenberg family are Bill Breisch and Scotty Renwick who have been taping ankles, fixing equipment, and keeping athletes in shape at Muhlenberg for a total of 47 years. Scotty is the senior member with 36 years of service thus far in his colorful career.



Scotty Renwick

Scotty, who hails from Philadelphia, came to Muhlenberg in 1921, as a trainer. During his long career, he coached Muhlenberg's track team for 4 years. This is worthy of note, for during his tenure, records were set in the 100 and 220 yard dashes and the 100 and 220 yard hurdles, which still stand as Berg marks.

On December 12th Scotty will celebrate his 66th birthday. He is married and has a married daughter and a grandson. With regard to coeducation Scotty's only regret is the fact that he is unable to witness the half-time displays of the Berg majorettes.



Bill Breisch

Bill Breisch is a long time associate of Muhlenberg's basketball mentor, J. Birney Crum. From

# Gridmen End Season Losing To Diplomats

by Ben Livingood

A highly spirited Franklin and Marshall college eleven scored in every quarter to roll to a 41-20 victory over injury-ridden Muhlenberg last Saturday on Williamson field in Lancaster. The win brought sweet revenge to the Diplomats, who had an undefeated streak snapped by a 14-0 Muhlenberg triumph a year ago.

Three hard - running backs, George Darrah, Wayne Dussinger, and Dick Wright, were largely responsible for the Dips' success. The trio gained a total of 343 yards rushing in 47 carries between them, only 27 yards short of their team's total.

**Opening Drive**

The Diplomats began their scoring early. The first time they took control of the ball, they marched 71 yards in 14 plays for a touchdown midway through the first quarter. Quarterback Fred Hesse climaxed the drive with a ten-yard sweep around his right end. Bill Pettigrew added the point with his first of three successful conversions.

The Blue and White increased their lead to 14-0 three minutes later after Owens fumbled the kickoff return on the Muhlenberg 35, and Kent Weaver recovered. Six plays later, a screen pass from Hesse to Darrah was good for 17 yards and the second tally of the period.

Less than a minute later, the Mules moved within seven points of their hosts. On first down, Owens slashed off his left end for his 68-yard gallop. The shifty halfback fought off tacklers for 25 yards along the left sideline before breaking into the clear on the F & M 37. Wright's placement accounted for the extra point.

The Dips ran the count to 21-7 at the half when Darrah scored on an 11-yard sweep with 5:14 remaining in the second period.

**Second Half**

The lone touchdown of the third quarter came in the opening four minutes. The Lancaster collegians took the kickoff and drove 67 yards in seven plays, with Darrah and Wright sharing the runs. It was Wright who applied the finishing touches with a 13-yard sprint around right end. The score read 27-7 after Pettigrew missed the mark on the point attempt.

Muhlenberg scored on the third play of the final quarter, when Owens bucked off right tackle from the one. The score was the result of a fumble recovery by the Mules' Bob Pearsons on the F & M 14.

Franklin and Marshall hit paydirt again four minutes later on a 44-yard pass from Hesse to Norm Bell. George Dilliard failed on the extra point attempt, making it 33-14.

**Final Mule Tally**

After Roger Keehn returned Dilliard's kickoff to the 25, the Mules drove 75 yards in 13 plays for their final touchdown of the season. Keehn ended the drive when he smashed over from the one.

The Dips scored twice in the final two minutes. The first was on a safety as the Blue and White forward wall caught Jim Nonnemaker in his end zone on first down, after Ben Schoellkopf recovered Dussinger's fumble on the Muhlenberg 6-yard line.

Dussinger was credited with the final tally of the game with 1:27 remaining to be played, with a 27-yard jaunt off right tackle.

# Muhlenberg Harriers To Compete In Thirtieth Middle Atlantic Run

On Friday, November 22, the Muhlenberg Mules will travel to Philadelphia to compete in the thirtieth annual Middle Atlantic Cross Country Run.

The event will be held at Cobbs Creek golf course in the Western part of Philadelphia. The course is run partly through a woods and the rest over the golf course.

**New Site**

In the past few years the event, with the exception of 1952 when it was held at the University of Delaware has been held at Muhlenberg's Cedar Park. However this year St. Joseph's college and coach Beitlesman, Chairman of the Middle Atlantic Cross Country Event, will be the host.

Favored in this five-mile grind will be St. Joseph's college. In the past ten years the Hawks have taken first place each year. Leading the Hawks will be co-captains Joe Sloan, a senior from Pitman, New Jersey and Bob Hagarty, also a senior, from West Catholic high in Philadelphia. Sloan as a sophmore in 1955 set a new record for the Cedar Park course when he drove over the finish line in 21 minutes and 44.2 seconds. Hagarty placed third in that race helping St. Joe's to capture their ninth straight Middle Atlantic win.

**New Course Record**

In 1956, St. Joe's also won the race but the first place honor was taken by a smooth running, hard driving junior from LaSalle, Earl Jefferson, who succeeded in establishing a new record for the course at 21:33. Following some distance behind him were Sloan (St. J.); Ed Mather (St. J.), who won the race two years previous to this; Earl Eldridge, a senior from LaSalle; Hagarty (St. J.); Jerry Bankert from West Chester; and four more Hawks.

Last year St. Joseph's traveled to New York university to compete in the forty-eighth running of the ICAAAA. With practically the same squad as they have this year, with the exception of Ed Mather, they succeeded in taking second place behind Michigan State. Jefferson from LaSalle placed tenth.

In succeeding years, 1955 and 1956, St. Joe's placed fifth in the NCAA championships.

In the Middle Atlantics held at Muhlenberg last year, St. Joseph's won the race with 24 points, and was followed by West Chester with 96 points, Lehigh (103), LaSalle (120), and Swarthmore (122).

Besides these teams other teams who will compete will be Albright, Bucknell, Delaware, Franklin and Marshall, Juniata, Lehigh, PMC and Elizabethtown.

# SPORTSCOPE

by Bob Nuss

When the Muhlenberg footballers lost to F & M this past Saturday, they ended their season with a record of 4 wins and 4 losses—the same won-lost record Berg has recorded for the past three years. The last time the Bergmen enjoyed a winning season was back in 1954 when they won four, lost three and tied one. Franklin and Marshall's victory was revenge for last year's upset engineered by the Mules. F & M had an undefeated season ruined by the Mules last year and now the Diplomats wrecked Berg's chances for a winning season.

The one bright spot in the defeat was the scoring of Sophomore sensation, **Herb Owens. Herb** picked up two touchdowns to run his season total to ten for 60 points, the highest number of points scored by a Muhlenberg player since 1948 when Marty Binder scored 102 points in ten games.

Basketball is rapidly moving to the foreground as football begins to bow out. Here at Berg, the cagers have been practicing for several weeks in preparation for their opening tilt against Lebanon Valley, on December 6. Berg has only one returning starter in Clint Jeffries, but from pre-season practices, the indications seem to point for a winning season.

Berg cagers from the 1956 edition are still engaged in the game of basketball. **Denny Roth** is coaching at Lehighton, and **Del Park** has a coaching job at Sharon Hill. **Bobby Gall** is on the roster of the Easton Madisons professional basketball team (Eastern Pro league), and **Cardy Gemma** is also playing in the Eastern Pro league with the Reading Keys. Besides this, **Cardy** is also head basketball coach at Fleetwood (Pa.) Class C state champions of 1956.

Wrestling practice has begun in the confines of Memorial hall and another superb wrestling team may be in the making. Returning from last year's squad which finished second in the Middle Atlantics by two points, are lettermen **Pierce Knauss, Dick King, Don Simpson, Roger Keehn,** and **Gerry Rehrig.** Also working out in the pre-season practice sessions is **Jim Waller,** who had several wins last year before dropping the sport. Men that have to be replaced are Middle Atlantic champions Frank Guiterrez and Paul Billy.

FACTS YOU SHOULD KNOW ABOUT IBM

IBM is the consistent leader in perhaps the one "unlimited" field in electronics—digital computer development, manufacture and sales. This leadership is based on a 43-year record of steady achievement and growth.

A variety of challenging career opportunities exist and open up continually at IBM. Company policy and company growth assure that individual merit is quickly recognized, and then translated into positions of increased responsibility. Financial rewards are excellent.

Your progress is under constant review. The IBM "small-team" work system is one reason why individual contributions to a project become known . . . and are rewarded.

Company-sponsored educational programs are among the most advanced in American business today. IBM needs well-qualified seniors and graduate students who will find their future practically "unlimited" in the development, manufacture and sales of electronic computers.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 cities throughout the U. S.

# . . . Student Council Report . . .

November 14, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:01 p.m. by President Luis Torres. All members were present.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $2,114.30 |
| Social fund | 620.21 |
| Assembly fund | 1,585.27 |

**COMMITTEE REPORTS:—**

Elections:—Mr. Shellenberger announced that elections for the Class of '61 would be held on February 19, 1958.

Commons and Dorm Council:—Mr. Gurski reported that the fines for the infractions of dorm rules had been handled through the office of the College Treasurer. He also stated that the penalty for the Commons disciplinary case had been carried through.

Chapel:—Mr. Ueberroth reported that three Chapel slips had been revoked during the previous week.

**SPECIAL COMMITTEE REPORTS:—**

Alpha Phi Omega:—Mr. Ueberroth reported on the formation of the proposed new service fraternity, Alpha Phi Omega. Mr. Ueberroth moved and Mr. Leighton seconded a motion that the Student council recognize the organization and that it be recommended to the faculty committee on student affairs. The motion was defeated by vote of three ayes, seven mays, two abstentions.

There was no Old Business.

**NEW BUSINESS:—**

On motion by Mr. Smith and Mr. Becker, Student council will pay the registration fee for the delegates to the New York university Student Leadership conference.

Mr. Leighton moved and Mr. Markoe seconded a motion to appropriate $300.00 to the Mask and Dagger society. Motion carried.

On motion by Mr. Leighton and Mr. Carpenter, the meeting was adjourned at 7:29 p.m.

Respectfully submitted,
RAY UEBERROTH,
Recording Secretary

## Berg Trainers

(Continued from Page Four)

1929-1945 Breisch was the trainer for Allentown High school. In the early days of his athletic career Bill was very active in semi-pro sports, playing baseball, football and soccer at that level. He also was the trainer for the local entry in the Eastern League. Later he was to be affiliated in the same capacity with the Bethlehem Bulldogs, a professional football team.

He started at Muhlenberg in 1945, at the time Floyd Schwartzwalder was head football coach. At this time he took over the job which he presently holds. Scotty and Bill take care of the equipment as well as the bruises of the ballplayers.

MUHLENBERG'S ANSWER TO SPUTNIK . . . Czar Commisar Igor Rabenovich Guzenk Eberhart has just released information concerning the development of a new atomic sandwich designed to make all other means of nourishment obsolete. Here is a portion of Commisar Eberhart's mesage to the highest governing body of the Snack bar, none other than Joe Slater and his system.

"Dear Comrades, members of the board and students attempting to break the food habit. Effective immediately, the Snack bar of Muhlenberg college will officiallly launch into the open market a new sandwich to keep pace with latest developments in the foreign market. It will be called 'The Muhlenberg Sputnik.' Ingredients will, by necessity, include a **hot dog** (Laika, who?) cut in half and so arranged as to represent the aerials of an outer-spaced ship. A stale hamburger bun will serve as the body of the sandwich.

"The inernal mechanisms of the device will incude a rich slice of American cheese—patriotic, you know—lettuce and tomatoes, and also a large slice of Kruschev ham. Salt and pepper, dressing, or pickles may be added due to the taste of the mission to be performed.

"This sandwich delight will be on sale at the Snack bar. Comrades, for the benefit of the Slater system, won't you give one a try?

A glow Top production.

**Adv.**

# Letter To The Editor

(Continued from Page Three)

campuses which do not have service organizations; but at those colleges that have college service organizations, APO is mainly an aid to the community, and an aid to the college whenever necessary).

Included in the list of projects to benefit the community are: the promotion of C.A.R.E., sponsoring an easter egg hunt at orphanages, selling Christmas seals, assisting church conferences, giving of first-aid training, giving assistance to various scout organizations and functions, collecting old clothes for needy families, and many more such activities.

As far as I can see, there is no such organization here on the campus, and any ambiguity to such a group is falacious.

To back this statement up, I would like to cite the second letter to the Editor in the November 7, 1957 edition of the **WEEKLY**, sent by Miss Jane Patterson of the University of Vermont: "We did not see one sign indicating the whereabouts of your fine college. Numerous Cedar Crest signs lined the highways, but not a word of Muhlenberg." **Why?**

That is my question. **Why?** If the material presented to Student council would have been carefully studied, it would have found such a project as the fifth one in the list of service projects listed by Alpha Phi Omega.

I think that the Student council owes to the 60 men that petitioned for APO, and Mr. Benfer and Dr. Thomas Lohr, two of the group's faculty sponsors, the courtesy of a reply as to why a slanted picture of this organization was allowed to be voted upon by council.

Sincerely yours,
Penn Chabrow.

# Coed Discusses Gym Classes

(Continued from Page Four)

You divide into teams — the whistle blows and the game begins. Since you're playing center forward, it's your turn to "bully." Oh no, your partner doesn't know what the game is all about. What, you think she fractured your ankle — Gracious — "This is not to be." The game is in progress. Look out, someone just forgot to stop the ball and connected it with a drive. Heavens, you just hit the fullback in the stomach. The ref calls, "A free roll-in for the other team." No, no, roll it, don't throw it. Poor left inner, you almost killed her.

You look at your watch — it's time to go. You run like mad to make that 10 o'clock class — Whoops — you forgot to put the equipment away. Back to your duties.

At last, you're on your way to class, fully clothed, you hope. Alas, you're late — but wait — "This is not to be," you are a Berg coed.

# Problems Discussed At Student Meeting

(Continued from Page One)

drafted at the end of the academic year with the occurrences during the year used as basis for the rules.

The conference served the purpose of discussing problems which will be investigated further by student council. With the conference discussing in detail many problem areas, student council may have a better foundation with which to solve these issues.

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., December 5, 1957 A. C. P. Rating No. 10

## IFC Jury Finds Fraternity Guilty of Illegal Rushing

Sigma Phi Epsilon was tried for the violation of the rushing code (Art. 1, Sec. 1) which states "During the period from fall semester registration until the beginning of rushing season, freshmen shall be prohibited from any fraternity premises or organized fraternity function, on or off campus, except in the case of freshmen officially registered with the Inter-fraternity council who are engaged in fulfilling business obligations"; on Monday evening, November 25.

An official charge was brought against Sigma Phi Epsilon by the president of I.F.C., Walter Schuman. The charge was based on the information brought to him concerning freshmen entering and leaving the premises of the Sigma Phi Epsilon house. Several of the sources of information were from men on I.F.C.

**Trial**

The trial was conducted under general court procedure with the president acting as judge. The jury consisted of one representative from each of the five other fraternities on campus, excluding Sigma Phi Epsilon. Representatives on the jury were Benson Caplan, John Belschwinder, Dick Truchses, Roy Clayton and Earl Knies. A committee for the prosecution was set up at the previous meeting of IFC Herb Meily, Don Schneider and Leon Skweir served as the prosecutors, while Pete McWilliams, Ed George and Don Simpson acted as defendants. The penalty of the offender was to be left up to the president with a second from council. Recommendations of a proper sentence would be in order from the jury. The only specification concerning penalties is that a fine cannot exceed $75.00 for any one offense.

The prosecution committee produced five witnesses who at one time had either been in Sigma Phi Epsilon or had seen freshmen in the house. With a thorough cross-examination of the witnesses, the jury was able to make a definite decision.

The decision of the jury was that Sigma Phi Epsilon was guilty of violating the freshman rushing code. The jury recommended a lenient sentence be given, consisting of an official reprimand which is to be sent to the fraternity and

(Continued on Page Six)

## Concert To Highlight Young Professionals

The first concert of the Muhlenberg college Concert Series for 1957-58 will take place this Sunday at 8 p.m. in the Chapel. The Orpheus Chamber singers, a group of young professionals from the metropolitan area in New Jersey, will present a program ranging from Renaissance music to the present time.

The group, a solo quartet that has been praised for their musicianship and fine blend of tone consists of Shulamith Charney, soprano, Helen Winters, contralto, Maurice Gessell, tenor, and Warren Small, bass. They have concertized in New York and New Jersey. Their program will consist of compositions for the Christmastide, by Schuetz, Praetorious, Monteverdi, as well as a group of early American carols and folk hymns.

**Cantata**

One of the highpoints will be a cantata by Dietrich Buxtehude "Open to me the Gates of Justice," in which the group will be joined by the two violins and organ. Winfield Wavrek, concertmaster of the Allentown Symphony orchestra and Jane Lenel will participate in the cantata and present with Ludwig Lenel at the organ, a sonata by G. F. Handel.

The concert is open to the public without charge. The other concerts in the Concert Series will include an organ recital by Philip Gehring on January 12, at 4 p.m., a concert by the "Singing City" choir under Dr. Elaine Brown on February 9, at 4 p.m., the first appearance of the new mixed choir of Muhlenberg college on March 15, at 4 p.m., and the appearance of the Oratorio Society of New Jersey, under the direction of Peter Sozio on April 27, at 8 p.m.

## State Executive Visits College Education Club

Mr. Herbert P. Lauterbach, assistant executive secretary of the Pennsylvania State Education association, will be the guest speaker at a meeting of the Muhlenberg college Education society on December 10. At this meeting, Mr. Lauterbach will discuss the advantages of affiliating the Muhlenberg organization with the state organization.

At this meeting action will also be taken on two amendments to the club's constitution. The first amendment states that "prospective members of the Muhlenberg college Education society must attend at least two consecutive meetings in order to become members." The other amendment states that "all members of the society will be permitted to be absent from one meeting per semester.

Anyone interested in the teaching profession is invited to attend this meeting if he is interested in membership in the organization.

The Education society now boasts a membership of 20 men. The faculty adviser for the group is Dr. William M. French.

## Buskin Society Presents Plays

Cedar Crest college's Buskin society, under the direction of Dr. Constance Ruys, will present two classic medieval plays, "Everyman" and "The Second Shepherds' Play" on December 5 and 6 in Alumnae hall.

"Everyman" is a medieval morality play portraying the plight of Everyman when he is confronted by Death. He discovers the transient qualities of those possessions he held most dear such as Beauty, Strength, Fellowship, and Goods and Riches when he asks them to accompany him on his long journey to the grave.

**Special Effects**

Of special interest to all area theatre-goers will be the special effects employed by Dr. Ruys and her crew. An organ and a choir singing authentic medieval music will help to lend the atmosphere of the medieval church. The newly-improved stage lighting system will be used to full advantage.

The role of God in "Everyman" will be portrayed by Al Jefferies who appeared in the lead role of last fall's production, "The Miser," and in the Allentown Civic Little theatre.

Gloria Knoblock, president of the Buskin society and veteran of many local theatrical productions is cast as "Everyman." Death is played by Barbara Kleppinger, another versatile Cedar Crest veteran. The cast includes many familiar faces and newcomers too. They are: Priscilla Sager, Barbara Miller, Jill Lissner, Carol Liebel, Barbara Bauer, Pat Lauer, Nancy Laubach, Isabelle Rhoades, Carolyn Briggs, Jerry DiTullio, and Gail Parker.

**Second Shepherds' Play**

"The Second Shepherds' Play" is an English mystery play which deals with the nativity. It is so titled because it was the second nativity play about shepherds in the Wakefield cycle. Although this play concerning the lives of the shepherds who took part in the first Nativity is an old one, the humor of its characters still brings chuckles to modern audiences.

Members of the cast are Anne Ten Eyck, Carolyn Briggs, Irene Haber, Isabelle Rhoades, Barbara Bauer, and Carolyn Detweiler.

The curtain goes up at 8:00 on December 5 and 6. There is no admission charge and all interested theatre-goers will be welcomed.

## Muhlenberg Wins Season Opener; Sekunda Leads Attack With 23 Points

Muhlenberg's green varsity basketball quintette last night combined fast-moving plays, and better than average shooting to capture an opening victory for the 1957-'58 season, 79-59, over scrappy Lebanon Valley college. Sophomore Dick Sekunda paced the Mules with 23 points. He was aided by senior ace Clint Jeffries, whose 13 markers and dazzling playmaking added greatly to the Muhlenberg offensive attack.

Don Grider and Bill DeLiberty led the Flying Dutchmen with 15 and 10 points respectively. Despite the fact that the Dutchmen didn't have a man over 6' 2", they gave the Bergmen a hard battle throughout. Their alert defensive play kept the Mules on their toes practically all the time.

**Mules Take Lead**

The game got off to a rather slow start, with the lead changing hand several times before the Mules finally moved out in front to stay, 16-14, on two free throws by Jeffries midway through the first half. Previous to that, Sekunda had done most of the Muhlenberg scoring, registering 10 of the first 14 points. Grider and Sam Butz shared the early scoring honors for the visitors.

The Mules increased their advantage to 20-14 on two free throws by Mel Kessler and a jump shot by Joe Berghold. Mat Mihalek made it 20-16 with a set shot, before Sekunda threw in a foul and jump shot to run the count to 23-16. The Dutchmen came within four points of their hosts on a three-point play by Barry Skaler making it 23-19. The teams matched goals until a driving layup by Kessler and two free throws by Jeffries put the Mules out by eight, 31-23.

**Close At Half**

Two consecutive Valleymen goals made it 31-27, before Don Robbins threw in a hook shot from the keyhole and a tap-in which gave the Bergmen a 35-27 lead. Glenn Coates tossed in a free throw just before the first half buzzer, and the score read 35-28 at the midway point.

The first scoring in the second half came with one minute gone on a free throw by Skaler, making it 35-29. Steve Matell hit on a set shot and Jeffries tapped in a rebound to give the Mules a ten-point margin, 39-29. The Dutchmen came within seven points, 40-33, on a hook by DeLiberty. However, after the Bergmen moved out in front, 44-33, the visitors never again came within ten points or less of their fast-moving hosts.

Muhlenberg began moving away as mixed shots by Charlie Hoffman, Sekunda, and Matell built the lead to 69-49 with 3:10 remaining in the game.

## Omicron Delta Kappa Taps Six At Traditional Chapel Ceremony

**Karl Becker, president of Muhlenberg's circle of Omicron Delta Kappa, honorary leadership fraternity, congratulates Charles Smith at the recent tapping ceremony as Earl Knies looks on. Others who were recognized at the ceremony were, from left to right: Dick Truchses, Dick Tepper, Owen Faut, Arnie Markoe, and Herb Melly.**

Six men were tapped for initiation into the Omicron Delta Kappa society, national honorary leadership fraternity, on Tuesday, November 26 during the regular chapel service. Those men recognized were: Owen Faut, Arnold Markoe, Herbert Meily, Charles Smith, Richard Tepper and Richard Truchses. Dr. Hagen Staack was the speaker at the service.

Owen Faut is a senior from Pennsburg, Pa. A chemistry major, Owen has served as the photography editor of the **WEEKLY** for four years. Active in the Science club and Pi Delta Epsilon national honorary journalism fraternity, Faut also serves as financial secretary to his social fraternity, Phi Kappa Tau.

**Senior Class President**

President of the Senior class, Arnold Markoe is active on the Student council, Honor Court, and Tribunal. Secretary of the Phi Epsilon Pi social fraternity, Markoe is President of the John Marshall Pre-Law club and Phi Sigma Iota, national romance language fraternity. A history major, Arnold makes his home in Jamaica, N. Y. He was selected to represent Muhlenberg in Who's Who.

Herbert Meily is a senior from Annville, Pa., and is working toward a Bachelor of Science degree. Meily is president of Lambda Chi Alpha social fraternity and serves as a representative to the Interfraternity council, President of the Muhlenberg college band and a member of the Deutsche Verein, Meily was also selected to represent Muhlenberg in Who's Who.

**Two Juniors**

One of the two juniors tapped by the Society was Charles Smith, an economics major from Cheltenham, Pa. A member of the Cardinal Key society, Business and Economics club and the "M" club, Smith is also a sports reporter for the **WEEKLY** and is on the varsity baseball squad. Smith is a member of the Alpha Tau Omega social fraternity, and is president of the Junior class.

Richard Tepper is a senior premedical student from Brooklyn, N. Y. Tepper is vice-president of the Interfraternity council, serves as circulation manager to the **WEEKLY**, and is in the Pre-Med club. Tepper is also a member of the Phi Epsilon Pi social fraternity.

Richard Truchses is the other junior selected. A pre-theological student from Carlisle, Pa., Truchses serves as president of the

(Continued on Page Six)

## Annual Senior Ball Has Winter Motif

On Friday evening, December 13, the senior class of Muhlenberg college will hold their annual Senior Ball at the Frolics ballroom on Union boulevard in east Allentown. The decorations for the dance will follow a winter motif in keeping with the approaching winter season and the Christmas holidays.

The music will be supplied by the Jimmy Dorsey orchestra, under the direction of Lee Castle.

Chaperones for the affair will be: Dr. and Mrs. John J. Reed and Mr. .and Mrs. Robert A. Battis. Honored guests will be: Dean Heimtraut Dietrich, Dr. and Mrs. Henry M. M. Richards, Dr. and Mrs. Claude E. Dierolf; Admiral Charles W. Moses; and Dr. Hagen Staack, class advisor for the class of '58.

## Bishop Rajah B. Manikam To Visit Campus For Scheduled Address At Chapel Service

Bishop Rajah B. Manikam will address students and faculty in the Gideon F. Egner Memorial chapel, during the regularly scheduled chapel period on Monday, December 9. Bishop Manikam is the Bishop of Trenquabar, India and will be in America next week to attend the Lutheran World Federation assembly in Minneapolis. He then intends to remain here for a year as lecturer at Union Theological seminary in New York city.

Chaplain Bremer hopes to schedule an informal discussion period with the Bishop, sometime Monday afternoon, after which he will be taking a train to New York city.

**Outstanding Church Leader**

Bishop Manikam is an outstanding leader in world Protestantism and is very popular as a speaker and lecturer. He was born in Cuddalore, Madras, India and is a member of Tamil Evangelical Lutheran church. He received his B.A. from Madras Christian college in 1921. He then earned his M.A. from the teachers college at Columbia university in 1925 and his Ph.D. in 1929. The Bishop also studied at Union Theological seminary in New York and at Mt. Airy Lutheran Theological seminary in Philadelphia where he received his B.D. in 1928. Between 1929 and 1930 he studied at Oxford university.

The Bishop is also the author of several books. Among them are, "Christianity and the Asian Revolution," "The Church in Southeast Asia," "The Christian College and the Christian Community," and "The Changing Family in East Asia."

**Bishop Rajah B. Manikam**

The title of Bishop Manikam's presentations on the Muhlenberg campus, have not as yet been ascertained.

## Pre-Registration Begins For 1958 Spring Term

Pre-registration for the spring semester of the 1957-58 academic year, will be held during the period beginning Monday, December 9 and ending Friday, December 13. A late fee of $10.00 will be charged for the completion of pre-registration after 4 p.m., Friday December 13.

Pre-registration commences at 9 a.m. and closes at 4 p.m. each day of the pre-registration period. Students are required to report to their adviser for the pre-registration form, course schedule, and period code work sheet.

**Schedule of Courses**

Students are to prepare a schedule of courses. Change of sections in two semester courses is not permitted except with the written approval of the department chairman concerned. This approval must be brought to the registrar. Elective courses must have the approval of the instructor or the chairman of the department offering the elective. Such approval will be designated on the pre-registration form by the initials of the instructor or department chairman.

After the advisor has approved the student's pre-resistration form, the student will take it to the office of the registrar where courses will be tabulated and sectioned. During the following week all pre-registration forms will be changed and classes balanced.

**Pre-Registration Form**

One copy of the pre-registration form will be countersigned by the registrar and returned to the student. Unless the student is required to modify his spring semester schedule because of failure in full semester courses, this copy of the pre-registration form will permit the student to report directly to the registration table in Memorial hall on February 3-5, 1958 and obtain the final registration materials required for the spring semester.

# Editorial Views——

## Useless Custom . . . ?

Many campus organizations have adopted the custom of awarding to their graduating seniors a key or some other token recognition for their service during the past four years. **This practice has been carried to such an extreme that it appears now to be entirely out of control and outside of the realm of common sense.**

An example should clarify this statement. The present Student council has approved the proposed expenditure to provide members of Council with recognition gifts at the end of their term of office. **This approved expenditure provides for the purchase of Student council keys, officer's gifts, and a president's gavel at the estimated cost of one hundred and thirty-five dollars.** This amount is approximately thirty-five per cent of the Student council's anticipated expenses for their fiscal year. Is this high cost of these gratuity items—articles of relatively little value—of benefit to the student body? Or rather, is the money spent completely wasted on gifts for individuals who have only served the College for one year?

**In facing this problem the WEEKLY has set certain criteria for recognition.** Among these criteria are faithful service to the paper for three years, or working ten hours or more on each issue of the newspaper. The names of the persons now being considered for recognition at the annual spring banquet are Ronald Moxey, Robert Nuss, James Piston, Owen Faut, Earl Knies, Benson Caplan, and Richard Tepper. Other seniors presently on the WEEKLY staff have not contributed enough time and effort to deserve recognition. This policy is in the hands of the editor-in-chief.

**An attempt has been made to curb this useless custom. Will Student council follow suit or will it continue to use a portion of student body funds for personal gifts?**

## A Step Forward . . .

**The Muhlenberg Interfraternity council had taken a definite step forward by prosecuting Sigma Phi Epsilon for illegal rushing.** Meeting this infraction by direct action has been an important move in the restoration of Interfraternity council to a strong position on campus.

**The Council president is to be praised and criticized.** He is to be praised for taking the initiative in making the violations known. However, the president was dominated during his actions by a strong fear that his popularity would be harmed. **A competent campus leader in times of crises must disregard his popularity rating in the carrying out of his official duties.** This policy must be dominant in the eyes of campus leaders.

**The members of the student body who testified at the trial are to complimented in taking the stand in the defense of the fraternity system.** With competent and forceful officers and cooperating students, government organizations will once again command the respect of the administration and faculty.

# Foreign Engineers To Examine Campus

Muhlenberg college will play host to a group of 40 young engineers from India on Sunday afternoon, December 8. They are part of a group of 200 men who arrived in New York last August for a year's training in the techniques and processes of steelmaking under a grant from the Ford foundation. Five U. S. technical universities and seven American steel companies are cooperating in the program.

The 40 engineers, now based in the Lehigh valley, spend four days each week at Bethlehem Steel company and one day in the classrom at Lehigh university where they are housed. The purpose of their visit to Muhlenberg is to give them first hand information on the small, liberal arts college. It will also give the college a chance to boost an experiment in international relations, which has been undertaken by American private industry, philanthropy and education.

India is now in the process of industrialization and huge development programs covering five year periods are being carried out. In a nation of nearly 400 million people, there are only three steel plants in all, and only two of appreciable size. India's annual steel production amounts to but 1.5 million tons of the world's total of more than 300 million.

What India needs is skilled supervisors who can carry the responsibility of supervising increasing numbers of workers in this expending industry. As a result, the Ford Foundation and the American embassy agreed to plan a program to train several of these men.

# Novelty of Education Wears Off; How Now?

Now that the first few months of the academic year are passed and much of the novelty of being a Berg coed has worn off, it is interesting to note the feelings of the women, who can at last look at college life more realistically. Many who told, in one of the first issues of the **WEEKLY**, how "thrilled" they were to be here and how "fabulous" Berg was, have become more sober in their feelings. Those who began the year uneasily are, in some cases, finding themselves well adjusted and happier.

The comments of the coeds on what they think of Berg now that grades have been sent home and social life is overshadowed by academic life are varied. Here are a few of these impressions.

"College is giving me the opportunity to make long and lasting friendships and the chance to think and make decisions for myself."

"There should be a better athletic program for women."

"Living in the dorm is a great experience. Even though it does get pretty noisy, the fun we have together is good for us."

"Too much is said about our dating. That should be our own affair."

"Everyone has been very nice to me. Berg? There's nothing like it in the world!"

"When are we going to be treated more like women and less like little girls? We're told where to go, why to go there, what to do there, and what to wear. We need more responsibility in making our own decisions—after all, that's why we're here to learn!"

"Berg is giving me the chance to live with people of many beliefs and with new ideas—I'm learning a lot about people."

"There are too many regulations on our dress. We should decide things like that for ourselves."

"I like the pride everyone here has in the school."

And so goes the comments. Some of course, are passing impressions. But others are undeniably worth serious thought.

## THE CAMPUS Whirlpool

by Dick Kennedy

**Dave Reinhardt, boy psychologist, has taken upon himself the duty of studying and psychoanalizing several of his friends.** He feels that everyone needs adjustment and he is acting as the catalyst for this human metamorphasis. Dave has an experimental file larger than Freud's records. **He brags of sheer efficiency — two couches, no waiting.**

The latest rage of West hall is turning into a traditional **event. When one of the gals has succeeded in catching a** man, either by going steady, pinning, or engagement, **she is taken by the other gals to the nearest shower and given a thorough dousing.** This seems to show that there is a certain amount of **professional jealousy** amongst the West hall femmes.

One of the most potent of all fads, however, is the late horror show starring one "Roland" who acts as mediator, master of ceremonies, and keeper of the crypt. George Merz claims to know the man personally, so he wrote a letter. Roland returned the following:

"Dear George:

"What with all the blood and stuff that has been flying around down here lately and with things being just a little bit slower moving in the under-world we are just now commencing to answer some of the mail that has been floating in . . . evidently we have stepped on a public open sore or something because we get some weird stuff these days from the mailman. **(I hope you have noticed that Igor has been collecting mailmen for the past week** . . . the idea being that when I finally get good and mad at him and order him to let them go and send them back . . . they don't want to go.) **We get letters that have the edges burned; are written on parchment; painted with spots; bordered in black** . . . etc. **Yesterday was the greatest . . . we got ourselves two pints of real blood in the mail** . . . from two nuts that signed themselves Drs. Caddilehopper and Hemojuice in Newmanstown, Pa.

"Tell all the faithful hello from below . . . and I hope you all dig our latest experiments in the realm of the supernatch.

Don't drink any lumpy blood
Zack

Typed by Igor"

On the bottom of the page (which, incidentally, has Roland's personal seal composed of bat and coat of arms, etc.) is his signature in red crayon. Not that we're worried about you or anything, George, but please be careful in selecting your friends.

At the end of the school year, **Bob Leighton and his brother Barry plan to head to Hollywood to take screen tests.** From rumor, this is a fact and the guys are serious about the whole thing. Is it possible that they were prompted to this action after they saw Elvis Presley's sterling performance in "Jailhouse Rock?"

## Photographs

**Photographs, taken this fall for newspaper and magazine publicity, may now be ordered at the College Bookstore. Fifteen prints are on display in an order book. Orders will be taken through Dec. 16 for delivery after the Christmas recess. A new set of prints will be placed in the display book after Christmas. Prints are priced at $1.00 plus tax.**

# Faculty Member Reviews Mask & Dagger's Othello

by John Bulette

In the recent Mask and Dagger society's production of **Othello,** Jim McConnell once again demonstrated that he is an actor of superior talent. By his beautifully controlled voice, his feeling for his part, and his professionally assured stage presence, he overcame the handicap of unheroic size and made Othello a moving and tragic figure. His performance was the more remarkable because for various reasons he was forced to carry an undue share of the load of the play.

The hero alone cannot make a play. This is especially true of **Othello,** for this play is unusual in that the tragedy is brought about not by the hero's actions but by his being acted upon. Thus the success of the play depends very largely on the principal agent, Iago. Dick Kennedy played the role with dash and confidence, but two elements combined to make his somewhat unorthodox interpretation of Iago less satisfactory than it might have been in other circumstances.

First there was the audience. One might think that presenting Shakespeare to an academic audience would be a piece of cake. It is not. Nor does the trouble lie in the presence of carping "experts" from the English Department, for the more familiar the audience is with the play the more likely it is to find virtue in experimentation. The danger is that the director and cast will assume a knowledgeable audience, forgetting the high school students, the undergraduates, and others, who approach Shakespeare with an all too proper reverence but who have little actual experience with any plays but *Julius Caesar* and *Henry IV*. Any treatment of the play which tends to obscure the exposition is likely to confuse this group; not knowing how they are supposed to react, they react to what they see.

Now if the tragedy of Othello is to be convincing, Iago must be shown as a passionate man whose potentiality for evil has been released by a bitter blow to his ambition and pride. The audience must recognize both the validity of his motivation and the deadly seriousness of his burning need for revenge — without becoming sympathetically engaged. It seemed to me on Saturday night that Mr. Kennedy's understated reading of his lines did not have sufficient impact on that part of the audience seeing the play for the first time. And in employing the Elizabethan convention of taking the audience openly into his confidence, he was so ingratiating that many seemed to take him seriously as a villain.

These effects were compounded by the second disturbing element—the presence in crucial expository scenes of a scene-stealing comic. Roderigo is no heavyweight, to be sure, but Mr. Gribben—whose obvious talents as a comedian should be most valuable in future productions—was allowed to play him so broadly as a fool that the audience too frequently was intent upon his antics when it should have been intent upon Iago's words. And it is hard to take seriously even the most forcefully asserted threats when they are confided in a fool.

The result of all this was that some of the audience seemed to feel that Iago's machinations were simply part of a big practical joke, so that several of the most tensely ironic scenes involving referende to "honest Iago" were marred by untimely bursts of laughter. That the cast were able to take this in stride speaks well for their training and aplomb.

Of course, none of this mattered in the end, for in the final scene the tragedy of both Kennedy's Iago and McConnell's Othello struck home with moving force.

The entire supporting cast was equal to the high standard of previous Mask and Dagger productions. Among them Mr. Sabol as a grave unmilitary, but winning Cassio, and Miss Shalter as a sweet, bewildered Desdemona deserve special mention.

Professor Erskine's arrangement and staging were most effective, the simple, easily adaptable scene permitting the quick and smooth transitions that an Elizabethan play requires.

The entire Society has reason to be proud of its first production.

# Modern Who-Dunnit Remains Unsolved

This work of surrealistic art has been lying around the **WEEKLY** office for nobody-knows-how-long. The cut was found several weeks ago and when the dust was wiped away, this unusual creation was revealed. Now the origin and the meaning of this painting remain to be a mystery to most of those who see it.

Of course there **are** many hypotheses, and perhaps they are valid. At any rate, it makes an interesting study. Here are some of the suggestions which have been thrown out as to the "watzat" of this painting.

Some think that it is a Salvador Dali masterpiece. It does have that unusual fling of surrealism and abstractness used by this painter and this suggestion is probably a good one. But, what really has us puzzled is — what does it mean?

One of the staff came up with the idea that maybe it is the end of time . . . or the death of time . . . or time taking a nap . . . Now, if any person on campus knows anything about this picture, we would appreciate some comment. Also, please pardon us if it has mistakenly been printed upside down.

## 'Round Campus

**Thursday, December 5**

Alpha Kappa Alpha will meet at the home of Dr. Russell Stine at 2116 Allen st. tonight at 8 p.m. Dr. Moyer will be the guest speaker and his topic is "The Approach to Truth at the Time of the Enlightenment."

**Friday, December 6**

**Omicron Delta Kappa, honorary leadership fraternity will ini.iate its newly tapped members in the Chapel lounge this afteronon at 4 p.m.**

**Sunday, December 8**

The concert series will present the Orpheus Chamber singers from New Jersey in the Chapel beginning at 8 p.m.

**Monday, December 9**

**Dr. Bremer will play host to the Pre-Theo club who are having a party tonight at his home at 7:30.**

The Jazz society will meet at 7:30 in the commuters' lounge in West hall.

**The Newman club will meet in the Chapel lounge at 7:30.**

At 8 p.m., the Forensic council will hold its meeting in the administration building, room 201.

**Tuesday, December 10**

**The Pre-Medical society is to meet in the science building, room 305 at 7:30 this evening.**

# Letters To The Editor

## Council Answers

To the Editor,

In answer to Mr. Chabrow's letter which appeared in the November 21 issue of the **WEEKLY** concerning the petition by Alpha Phi Omega, a national service organization, which was brought before Student council at its meeting of November 14, Council would like to make clear its position which Mr. Chabrow has clearly misconstrued.

In the first place, the charge that this matter was summarily brought before us and dismissed without proper study is completely false. Alpha Psi Omega's petition was handed over with the informative material which they provided to a three-man committee. This committee after carefully going through the aforementioned material, presented its report at the regular Council meeting.

During the discussion which followed their report, several things came out, which resulted in the negative decision rendered by Council. The fact that Alpha Psi Omega works both on campus and in the community was pointed out. However, it was also pointed out that the activities which Alpha Psi Omega could undertake on campus are at the moment being taken care of quite effectively by the Cardinal Key society. Furthermore, many if not most of the community activities fall in the realm of our social fraternities and other campus groups which have regularly volunteered their services.

Council did not consider it healthy to create a situation on campus where two service organizations would be competing with each other. In a campus and a community the size of ours there are only a number of service projects. If these have been taken care of for the most part, why create another group?

In closing, Council would like to refer Mr. Chabrow to the column From Here and There which appeared in the **WEEKLY** of November 21 along with his letter. In it we are sure he will find an answer to any other questions he might have.

Sincerely yours,
Muhlenberg college Student council
Luis Torres, President

## IFC Reply

To the Editor:

Such a stand as IFC has taken this week shows that the council can handle its affairs without administrative intervention. For the first time in years it has stood up on its two feet and assumed the responsibility delegated to it. With the cooperation given to it through the student body, as exhibited in the trial, the IFC at Muhlenberg college will be able to fulfill its obligations.

The IFC on many campuses is a very powerful body, governing the social affairs of the college without faculty interference. Because the IFC at other schools has reprimanded the violators of their code of conduct, the faculty has been able to entrust to the IFC the care and management of social affairs. At Muhlenberg the IFC too can maintain this position of authority, if it is willing to enforce its constitution. Will the members of the IFC continue to take a stand on infraction of the constitution? This will be the deciding factor in the position IFC will hold on campus.

Walter H. Schuman
President of Interfraternity council

"SAY, ED - DO WE KNOW ANYONE IN "E" HALL NAMED 'FAUSTUS'?"

# West Hall Sponsors Mixer Dance

There will be a party this Friday evening in the West hall gym. All the West hall girls are inviting all the boys but the affair is particularly scheduled for the freshman boys, who, are often left out of many college functions. Another purpose for this affair is to help the freshman class to become more acquainted with their classmates —in other words, to form a more perfect union, insure domestic tranquility, and promote the general college welfare.

The party, or dance (as it might be labeled) was organized by a committee of the Women's council headed by Sarah Jane Ruloff,

The program committee, under the chairmanship of Carol Coolidge, will have an interesting and unusual selection of activities and dances which are specifically designed for "getting-together." Refreshments will be taken care of by Peggy Todd. The party-dance will begin at 8:00.

A new idea in smoking...
**Salem refreshes your taste**

Created by R. J. Reynolds Tobacco Company

• menthol fresh
• rich tobacco taste
• most modern filter

Salem adds a wholly new quality to smoking . . . refreshes your taste just as a sudden breeze on a warm Spring day refreshes you. Rich tobacco taste with a new surprise softness . . . menthol-fresh comfort . . . most modern filter, through which flows the freshest taste in cigarettes. Smoke refreshed . . . pack after pack . . . get a carton of Salems!

*Take a Puff... It's Springtime*

# Administration Provides Rules For Establishing New Sports

The following program for new sports at Muhlenberg college was approved by the Athletic committee of the College at its meeting October 8, 1957.

**PROPOSALS FOR NEW INTERCOLLEGIATE SPORTS**

The Committee feels the College should maintain a flexible policy, one adaptable to the variety of factors which would appear with each proposal for the establishment of a new sport. The following statements are relatively brief and general, but they seek to establish a general procedure than a rigid list of rules, the application of which to specific situations might prove quite unrealistic and impractical.

I. **Who May Initiate A New Sport:**

Proposals for initiating a new sport at the College may be made by any group of regularly enrolled, full-time students or by members of the faculty or the administration.

II. **Time For Proposing A New Sport:**

Proposals for the initiation of a new sport at the College may be made at any time, subject, of course, to the procedures outlined below, and with the understanding that a period of some length may elapse between the time a proposal is made and the approval, if forthcoming, of this sport.

III. **Procedure For Initiating A New Sport:**

A. A new sport must have the initial approval of the Athletic committee, acting as the properly designated authority of the College.

1. All requests to establish a new sport shall be submitted to the Athletic committee through the Director of Athletics.
2. These requests shall normally be presented both personsonally and in writing by all parties interested in the establishment of the proposed new sport. The Athletic committee may hold open hearings on such proposals, at which hearings persons both directly and indirectly interested in the proposal—whether in favor of or against it—may present their views.

B. A proposal to establish a new sport on an intercollegiate basis or requiring funds in excess of the regular athletic budget must, when approved by the Athletic committee and the Administration, be presented to the Board of Trustees or to its Executive committee for final approval.

1. Other requests relating to new sports may be presented to these two bodies, after which they will be referred to the Athletic committee for action in keeping with the procedure outlined in this report.

IV. **Nature Of A Proposal For Initiating A New Sport:**

A. **Statement:** A proposal to establish a new sport at the College shall include in writing an extensive statement explainfully the nature of the new sport, the number of students to be directly involved in such a a sport, and the reasons why the proposal is being made.

B. **Finances:** Any proposal to establish a new sport must contain:

1. A full statement of any initial financial outlay involved.
2. A detailed one-year operational budget.

C. **Facilities Staff:** Any proposal to establish a new sport must contain a detailed statement of all facilities to be required along with the estimated costs of operating these facilities. (For example: rental, transportation of participants, insurance, supervisions costs.)

1. Proper instruction and leadership for all sports shall be required.

V. **Review:**

Once a sport is established, there shall be a periodic review.

# Berg Meets Moravian In Second Home Test

The Muhlenberg and Moravian basketball teams will meet next Wednesday at Memorial hall. Each team will be playing its third game of the season. Moravian's coach, Rocco Calvo has moved from the football field to the hardwood to replace Harvey Gillespie as mentor of the squad. With the loss of Moravian's most outstanding player of last year, Bob Jones, Calvo will have to depend on five lettermen and a couple of frosh. One of his best men will be captain Fritz Toner. Toner who is only 5' 8", averaged 15 points a game last year. He is especially remembered by Muhlenberg because of his record-breaking display at Memorial hall two years ago when he dumped in 40 points.

Other lettermen who are expected to help carry the load will be Russ Causley (6' 2"), Joe Keglovits (6' 5") Lorenzo Martin (6' 2"), and Bill Davis (6' 3").

**Promising Freshmen**

Two promising frosh this year have been John Olsen and Gene Uscilowicz, both football players. Six-foot, one inch Olsen who hails from Allentown, started last year for Allentown High, scoring an average of 10 points a game. Uscilowicz, six-footer from Shenandoah, Pa., averaged 17 points a game in high school.

In a series of 37 games, the Mules have won all but two. Two years ago, the Mules won, 97-85, before a crowd of 2,000 despite Toner's scoring display.

Last year, despite another bit of heavy scoring, this time by Bobby Jones who scored 25 points and broke the 1000-point mark, the Mules won 97-69. In this contest at Moravian's College hall, Mel Kessler led the Muhlenberg scoring with 18 points. Closely following him was Bobby Gall with 18. Steve Matell with 12 and Jeffries with 11 also helped the Mules to win their second game of the year.

The Hounds because of the lack of height will have to depend on a fast team-play, trying to use the fast-break and quick passing.

## Fencing Candidates

**Fencing practice began on Monday, December 2. Practice is daily from 3:30 until 5:30, Monday through Friday. Any upperclassmen, particularly sophomores are welcome to try out for the team regardless of whether they have had any previous experience.**

**Dr. Andrew Erskine**
**Fencing coach**

# Mules Engage Rutgers; Search For Second Win

The Mules will play their first road game this Saturday when they travel to New Brunswick to face Rutgers. Coach Warren Harris has four returning lettermen from last year's squad. One of the lettermen, Dutch Wermuth, a pre-medical student from Palmyra, will not report until after the Christmas holidays because of scholastic difficulties. The scarlet have a good crop of sophomores which should see plenty of action in an effort to improve on last year's 8-15 record.

Rutgers will be led by captain Bob Sanislow, a 6' 4" set and jump shot artist from Rahway, New Jersey. Dick Hirshfield is being counted on to supply the scoring punch since he averaged 13.7 points per game last year, hitting mostly on drive-in shots. Bruce Webster the other lettermen, will act as playmaker. His best shots are drives and sets and he was third in scoring for the scarlet last year.

**Other Starters**

Whitey Leaf, a senior from Scarsdale, N. Y., lettered in the 55-56 season, but was unable to play last year because of a broken jaw. The only sophomore in the starting lineup will be 6' 4" Lee Amerman, center from Princeton, N. J. Lee will be counted on to do the bulk of the rebounding.

Also seeing a lot of action will be sophomore guards John Eastman and Larry Kaufman. The latter has an excellent set shot and is also a good driver. John Clark, a 6' 6" transfer from St. Louis or 6' 5" Don Davis from Metuchen will be used at center to help Amerman.

The Mules trounced Rutgers last year 90 to 76 during their late season spurt. Coach Harris considers height his biggest obstacle but has hopes for a .500 season. Commenting on the season's outlook, he said, "Look for us to play possession ball trying for good shots. I just hope we can make enough of them."

## Basketball Success Contingent Upon Abilities of Sophomores

**Surrounding captain Clint Jeffries on the hardwood is Muhlenberg's 1957-58 basketball team. From left to right are: Joel Sarner, Bob Lukens, Joe Berghold, Bill Dissinger, Charley Hoffman, Dick Sekunda, Don Robbins, Herb Loeffler, Mel Kessler, Dick MacLaughlin, Steve Matell, and coach Birney Crum.**

**by Don Poppe**

Muhlenberg's 1957-58 basketball season is under way. This year's well-balanced squad is made up of four seniors, four juniors, and five sophomores. In brief, they possess very good height, good speed, and plenty of hustle.

Heading the list of returning veterans is 6' 2" senior letterman Clint Jeffries. Last year Clint scored a total of 385 points in 26 games for a 14.8 average. Mel Kessler (6' 6"), another member of last season's Cardinal and Gray five which won 17 and lost 9, scored a total of 162 points in 25 games for a 6.5 average.

**Returning Lettermen**

Steve Matell and Dick MacLaughlin, a pair of back-courtmen, are the two other holdovers. The former, a 5' 10" junior set-shot artist, scored 48 points in 18 games for a 2.7 average. MacLaughlin, a 6' senior, scored 41 points in 15 games for a 2.7 average also.

Newcomers to the squad include the five starters from last year's fine freshman squad which posted an 18-1 record: 6' 7" Herb Loeffler, 6' 7" Don Robins, 6' 5" Dick Sekunda, 6' 1" Joe Berghold, and 5' 10" Joel Sarner. Sekunda was high scorer with a 16.4 average, followed by Berghold with 15.6, and Sarner with 12.6.

Rounding out the varsity are junior Charles Hoffman (6' 3"), and seniors Bill Dissinger (6' 2") and Bob Lukens (6').

**First Away Game**

This Saturday the Bergmen will travel to New Brunswick, N. J., to face coach Warren Harris' Rutger's squad (8-15 last year), who were defeated by Muhlenberg last season by a 90-76 score. Following this encounter the Mules will meet an inxeperienced Moravian five headed by 5' 8" letterman "Fritz" Toner.

On December 14, a visiting Delaware university squad, which has already dropped its opener to Temple, 83--38, will face the Mules. Four days later, Lehigh university (8-10 last year), back on Berg's schedule after a lapse of several years, will travel to Memorial hall. The Brown and White are headed by lettermen Arnis Balgalvis (6' 6"), Bob

(Continued on Page Six)

## Mules Win Opener

(Continued from Page One)

**Reserve Strength**

With three minutes left to be played, Coach Birney Crum inserted his reserves. Junior Bob Lukens, wearing a varsity basketball uniform for the first time, tossed in two jump shots and a game ending layup for a six-point total in three minutes of play. Herb Loeffler hit on a set shot, and Don Robbins threw in two from the foul line, while DeLiberty, Grider, Mihalek, and Bob Dinerman combined for the Dutchmen's final ten tallies.

Despite a somewhat shaky start, the Mule cagers came back strongly in the second half. The outstanding playmaking of Jeffries and Matell, and the accurate shooting by Sekunda gave the Muhlenberg fans something to cheer about.

# Berg Wrestlers Begin Practice; Await Opener With Swarthmore

The 1957-58 edition of the Muhlenberg wrestling squad has been working out under the tutelage of Carl Frankett and Frank Gutierrez since November 20. The thirteen man squad, captained by senior Don Simpson, is priming for their first meet against Swarthmore on January 7, 1958. This year's team faces a tough ten meet schedule, climaxed by the MASCAC tournament at Wilkes at the end of February.

**Five Lettermen**

The nucleus of the team is formed by the five returning lettermen: Pierce Knauss, Dick King, Don Simpson, Roger Keehn, and Gerry Rehrig. Although the squad is relatively young, two seniors, five juniors, and six sophomores, it is by no means inexperienced. The probable varsity this year may include Art Jaquette at 123, Pierce Knauss at 130, Gordy Warner at 137. Don Simpson at 147, Jim Waller at 157, Dick King at 167, Roger Keehn at 177, and Gerry Rehrig holding down the heavyweight position. Keehn and Simpson are seniors, King, Waller, Rehrig and Knauss, juniors, and Warner and Jaquette sophomores. Waller saw action in the early part of the season last year and Jaquette wrestled on the freshman team.

**Contest for Positions**

Bidding for positions on the varsity in the lightweights are sophomore Mike Peters and Herb Schwartz, while sophs Dan Williams and Dave Hughes, and junior Ken Harris will keep the middleweights and heavyweights on their toes.

With a squad as this representing Berg, another fine season can be expected. Last year's squad finished second only to Wilkes by two points at the Middle Atlantics and is hoping to grab first place this year.

Also working out are four freshmen. They are Joe Bauder, Vince Russo, Ed Callahan, and Paul Miller. If enough turn out there is a possibility for the freshmen to have some meets, but not enough have shown the interest to warrant this at the present time.

**Don Simpson and Frank Gutierrez demonstrate a few fine points in wrestling as Ken Harris, Gerry Rehrig, and Dick King observe their championship ability.**

# I-M CORNER

**by Jack Coughlin**

After another full week of IF football, the league is just about completed. Last week SPE, one of the teams in contention for the championship, defeated ATO by a score of 20-13. Dave Jones led his teammates to the victory with passing and running. Jones tossed to Schaeffer for one of the tallies and then he hit John Haberern in the end zone for another. Dave passed for the extra points and finished up the night by sweeping end for six more. Nuss passed to Bright for one TD, and ran for another to give the ATO's 13 points in their losing battle.

Pep Boys had their offense working to perfection when they took the measure of LXA, 25-0. Gil Sopher filled the air with passes and hit his targets throughout the game. On the receiving end were Dave Auerbach, Ed Smith, Frank Claire, and Bob Spivak. Defensively Phi Ep played heads up ball as they held Lambda Chi scoreless.

**Phi Tau Victors**

In another high scoring game Phi Kappa Tau rolled up a 33-6 win over Alpha Mu Iota. Sharing the scoring honors for the Liberty street outfit was Ray Croft, Ken Stewart, Tom O'Connor, Phil Haines, and Bob Schumacher. Andy Brusko starred for Alpha Mu when he took a kick-off, went for the side lines and then galloped the distance for the touchdown.

Lambda Chi Alpha came out on the winning end when they played Alpha Tau Omega. In the second play from scrimmage Jim MacMillan passed to Mike Woolley for a TD. MacMillan skirted his end for the extra point and gave Lambda Chi a seven point lead. In the second quarter Bill Higgins took a pass from Mike Wooley to build the lead up by another touchdown. ATO didn't score until the last period when they moved down the field and Nuss completed the drive with a pass to Rick Sloan. The final score stood at 13-6.

(Continued on Page Six)

# All-Opponents Squad Named By Footballers

Hofstra college dominated the Muhlenberg all-opponent football team released today, placing three men on the mythical eleven. The Flying Dutchmen named were quarterback Larry Magilligan, halfback George Weimer, and end Don Baldwin.

In all the names of 30 players were mentioned in the balloting, and in most cases the margin of difference between the first and second teams was slight. Only three men scored heavily in the voting. They were Hofstra's Baldwin, and center Dave Yohn and tackle Al Kempton of Gettysburg. Baldwin was both a defensive and offensive standout in his club's victory over the Mules, and Yohn and Kempton were the star performers of a Bullet line that limited the 'Berg eleven to its lowest rushing yardage of the year. The selection:

**First team:**

Ends: Dan Wooten, Lafayette; Don Baldwin, Hofstra.

Tackles: Al Kempton, Gettysburg; Frank Dwornikoski, Scranton.

Guards: Stan Vnuk, Scranton; Bill Harrick, Lafayette.

Center: Dave Yohn, Gettysburg.

Quarterback: Larry Magilligan, Hofstra.

Halfbacks: George Weimer, Hofstra; Wayne Dussinger, F & M.

Fullback: George Darrah, F & M.

**Second team:**

Ends: Vince Fagan, Hofstra; Bob Longenecker, Lebanon Valley.

Tackles: Ken Longenecker, Lebanon Valley; Geo. Dilliard, F. & M.

Guards: George Lloyd, Lafayette; Dick Rowan, Gettysburg.

Center: Al Vadnais, Hofstra.

Quarterback: Frank Sudock, Albright.

Halfbacks: Frank Mauro, Hofstra; Don Hailey, Gettysburg.

Fullback: Frank Capitani, Gettysburg.

# All-American Squad Predicted By Sport

Once again, Sport Magazine goes out on a limb to pick a preseason All-America basketball team. Wilt Chamberlain and Guy Rodgers top a supporting cast that Sport feels makes the 1957-58 squad one of the strongest ever picked.

"For scoring punch, rebounding potential and ball-handling skill," says Sport, "this year's club is probably unmatched by any previous collection of all-stars."

**Here's the first team as selected by the editors of Sport:**

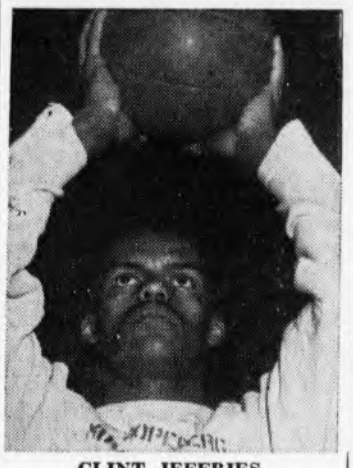
Wilt Chamberlain, Kansas; Barney Cable, Bradley; Elkin Baylor, Seattle; Guy Rodgers, Temple; Frank Howard, Ohio State.

**Making Sport's second team are:**

Jimmy Smith, Stubenville; Bob Boozer, Kansas State; Archie Dees, Indiana; Johnny Lee, Yale; Don Hennon, Pittsburgh.

# *In the Sportlight . . .*

## Returning Lettermen Spark Basketball Team



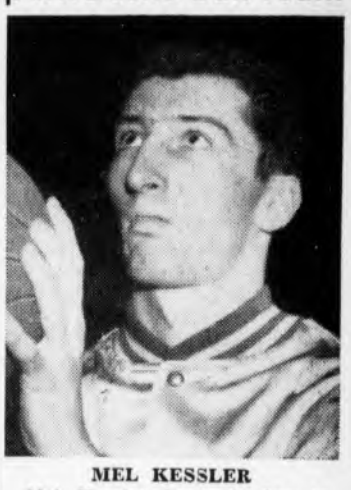
**CLINT JEFFRIES**

Clint Jeffries is the only returning starter for Muhlenberg's basketball team this season. Last year as a junior, Jeff scored 385 points which was good for a 14.8 game average. Clint, a fine team player, will lead the Mules' fast break. He has been picked by Dell Sports Publications as one of the ten top players in the East this season.

Clint hails from New York City where he attended Evander Childs high school. While there he won six letters for basketball and track participation.

Jeffries is only six-two but he does the job of a much taller man off the boards. A tremendous leaper he gathered in 302 rebounds last year.

Jeff is a Biology major with hopes of becoming a mortician. Among his other activities on campus he lists the M-Club, Jazz Society, and intramural sports.



**MEL KESSLER**

Mel Kessler is a six-five returnee to coach J. Birney Crum's basketball team this year and should provide more than adequate help in the Berg attack. Last year Kessler played in twenty-five of the twenty-six games, and scored 162 points.

Kessler, a junior, is from Brooklyn, New York, where he attended Madison high school. In his senior year there he won All-City honors in basketball

Because of the added height to the team this year Mel has been moved from forward into the backcourt. He plays this position just as well as forward for he drives well and has a good overhead set shot.

Here at Muhlenberg Mel is an English major and says that "this year the team has good potentiality and we will just have to wait and see for the outcome."

# I-M Corner

(Continued from Page Five)

**PKT Gains Finals**

Phi Kappa Tau played Phi Ep to decide which team would play Sig Ep for the I-F crown; Phi Tau won, 12-6. In a close game all the way Ken Stewart tossed to Tom O'Connor for the first score. Mike Derechin took a pass from Gil Sopher to the score at 6-6. Later on Stewart again passed to O'Conner to give Phi Tau six more. Unable to score again Phi Ep lost their chance at the championship.

**Basketball Begins**

As football leaves the scene it will be followed up by the I-M Basketball League. The league will get under way next week and plans are already completed for the league to start. Schedules will be posted for the games each week on the bulletin board in Memorial hall. The first of these schedlules will be up on Monday morning, December 9.

Twenty-one teams have signed up for Intramurals and these will be broken up into two leagues. To determine the intramural champion the first place team in Leaegue I will play the second place team in League II; the first place team of League II will play the second place team of League I. The winners of these two games will play for the championship.

All games will be played in Memorial hall. Court I is the court at the front of the gym and Court II is at the back of the gym. Game time will be 6:30 for the first game and 7:30 for the second game. Regular college basketball rules will be used along with the special rules of the Intramural committee in regard to forfeits and players.

# German Group Hears Dr. Meyer

Der Deutsche Verein, Muhlenberg's German club, has had two meetings in the past three weeks. On November 18 the members of the Verein heard Dr. Heinrich Meyer speak on "Perfectionism and the German Mind." Dr. Meyer approached the topic by stating that Germany, like all other nations in the world today is not made up of a homogeneous people, and it is false for us then to speak of a German mind. However, the German people do have certain views and values which are characteristic of them as a whole but which naturally don't hold true for all of them individually. Dr. Meyer contrasted these with the views and values of several other countries.

The characteristic of striving for a higher goal or purpose and keeping that goal uppermost in mind until it is realized is one of these characteristics. Other characteristics of the German people are their individualism, as opposed to American conformity, their high value for authority, and their respect for education.

**The German Mind**

The German mind, said Dr. Meyer, thinks he knows best in any given situation as opposed to the humble pride of the American who also thinks this but doesn't say so. The world renowned German contributions to the world of music, science, literature and the skilled craftsmen are all products of the values and philosophy of the German people. An informal discussion followed Dr. Meyer's presentation.

Last Monday the Verein heard Dr. Hagen Staack speak on the German contribution to ecclesiastical art. Films were used to illustrate the lecture which concentrated mostly on the baroque and rococo churches of central Europe. Dr. Staack pointed out the distinctive German contribution to the art of this period, and showed its evolution from the gothic. We mentioned that an even greater contribution is being made by the German artist to contemporary art.

## Jazz Meeting

**A meeting of the Muhlenberg college Jazz society will be held on Monday evening, December 9 at 7:30 p.m. in the West hall Commuter's room.**

# The Chowline

We only have two weeks of school until the Christmas recess. These two weeks include a houseparty weekend, numerous Christmas patries, as well as an untold number of snow ball fights. Of course, the studies must suffer, but your diet needn't be affected.

Special platters are now available at the Snack bar for your noon meal. These delightful treats include breaded veal cutlet, hamsteak, and tendercut beef platters. Fresh vegetables, potatoes, beverage, bread and butter are incuded in the nominal price of seventy cents.

There is also one or two daily specials on sale, with prices ranging from thirty-five to forty cents. Included in the daily special lineup are franks and beans, sauerkraut, and ravioli dishes. These platters are more of a "light lunch" and bread, butter and beverage are not included.

Well the freshman class has received their mid-semester reports, with mixed emotions being expressed. Of course the "snack bar personnel" have been hit hard by the averages. These people just like the Snack bar so much that they just don't know when to leave. We like a lot of people at the Student center, but not the same people all day long. Just remember—there is a time to leave.

Till we meet at the Snack bar, I remain your faithful servant.

The Balding One
**Ad.**

# . . . Student Council Report . . .

November 21, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:01 p.m. by President Luis Torres. Mr. Shellenberger was absent.

**TREASURER'S REPORTS:—**

| | |
|---|---|
| Student Body fund | $1,814.30 |
| Social fund | 620.21 |
| Assembly fund | 1,585.27 |

**OLD BUSINESS:—**

Mr. Skweir stated that as of now, no one has been able to determine why the Library chimes have not been ringing this year.

Mr. Spector reported that an attempt would be made after Thanksgiving to form a Pep club.

**NEW BUSINESS:—**

The President announced that the Executive committee of the Student council will have a joint meeting with the Women's council on Saturday, December 7th in the Conference room of the Administration building. This meeting will be at 1:30 p.m.

The President appointed the following committee to study Freshmen regulations and to prepare a recommendation concerning their conduct:

Mr. Gurski — Mr. Leighton, Chr.
Mr. Spector — Mr. Ueberroth

Student council will investigate the possibility of having a new assembly period introduced into the regular class schedule. It is felt that the present assembly time period is too inconvenient for most students and faculty members.

The meeting adjourned at 7:25 p.m. on motion by Mr. Gurski and Mr. Spector.

Respectfully submitted,

RAY UEBERROTH,
Recording Secretary

# Fraternity Trial

(Continued from Page One)

is also to be entered in the administrative files, in addition to which they shall be fined $50.00 to be paid to the I.F.C. treasurer within two weeks. The recommendation was acceptable to the president and the sentence was thus stated.

**Freshman Regulations**

There has been some question in the minds of freshmen as to just what they are allowed to do concerning fraternities on the Muhlenberg campus. Walter Schuman, president of the Interfraternity council has stated that "no freshmen are allowed in fraternity houses for the entire first semester except in the case of freshmen who are engaged in fulfilling business obligations. Furthermore, freshmen are not permitted to go to any organized functionfi sponsored by Muhlenberg fraternities, on or off campus.

## Business Department Notice

**All accounting, business and economics majors are asked to note their specified advisors during the pre-registration period. Lists of these men and their advisors will be posted in Dean Richard's office and in the office of the economics department.**

# Dr. Rhoads Speaks

Dr. Donald Rhoads will be the guest speaker at the Pre-Medical Society meeting next Wednesday, December 11, at 7 p.m. in room 305 in the Muhlenberg college Science building. The main topic of discussion will be Obstetrics and Gynecology.

After graduating from Muhlenberg in '31, as a science major, Dr. Rhoads went on to complete his medical work at the University of Pennsylvania He graduated from Pennsylvania in '35. Presently Dr. Rhoads is a specialist in Obstetrics and Gynecology and is practicing in Allentown and is also on the Medical staff at the Allentown Hospital.

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., December 12, 1957 | A. C. P. Rating | No. 11

## Director of Planetarium To Appear On Campus

Dr. I. M. Levitt, nationally known scientist and director of Philadelphia's famed Fels Planetarium, will speak on "The Star of Bethlehem" on Wednesday, December 18 at 3:15 p.m. in the Science auditorium. Dr. Levitt is an inventor as well as one of the country's highly respected astronomers.

Dr. I. M. Levitt

Among his more recent inventions is the Hamilton Space Clock, which he developed especially to aid in charting journeys into space. The world's first interplanetary timepiece, it is designed to show the comparative passage of time by the day, months, hour and year, on earth and on planets in outer space.

"To all space explorers, the clock would be a matter of life and death," explains Dr. Levitt. "For instance, they would need it to time departures from earth in order to reach destined spots on another planet during daylight hours, and at a suitable season. Also, it would be mighty handy in calculating the precise timing of their homeward journeys." This device, Dr. Levitt adds, is one of the world's first pieces of scientifc apparatus which the world's future pioneers into outer space will require.

**Authority On Space Travel**

Before the launching of Russia's "Sputnik," Dr. Levitt, an authority on space travel, urged that the U. S. take the lead in launching a man-made device into space before Russia does, "with its tremendous psychological repercussions throughout the world." Since then, Dr. Levitt's statement has proved to be correct. The lauching of Russia's "Sptnik" has had tremendous repercussions throughout the world.

Dr. Levitt, at the time of his statement, proposed a man-made moon that would circle the earth at a height of 200 miles, traveling continuously around the earth.

When he speaks at Muhlenberg, Dr. Levitt will explore the many hazards that face man in his efforts to undertake interplanetary travel, as well as the tremendous advance already made by forward-looking scientists toward that goal.

## Carols To Be Sung By Deutsche Verein

As in the past Der Deutsche Verein will again sing German Christmas carols during the week before Christmas recess. A slight change has been made in the traditional program. Instead of singing in the Administration building, as was done in previous years, the Verein will sing in the Student center next Thursday, December 19 at 12:45 p.m.

A brass quartet will accompany the singing. All students, faculty and other members of the Muhlenberg community are cordially invited to attend the singing program.

On that same Thursday, December 19, at 7:30 p.m., Der Deutsche Verein will hold its annual Christmas party. The party will take place in the West hall lounge. A special German Christmas program has been planned.

## Forensic Council To Hold Discussions For High School Debate Organizations

Approximately 150 students from nine area high schools will be on the Muhlenberg campus on Wednesday afternoon, December 18, to attend a panel discussion by the Forensic council on the national high school debating subject. The high school students will also attend a lecture in the Science auditorium at 3:15, by Dr. Levitt of the Fels Planetarium.

**Nine High Schools**

These area high school students represent nine schools, including Catasauqua, Hellertown, Norristown, Allentown, Parkland, Weatherly, Whitehall, and Slatington. They are all members of their high school debating team and have been invited by the Muhlenberg Forensic council, to attend a panel discussion on "Resolved: That direct U. S. economic aid to individual countries, should be limited to technical assistance and disaster relief." This subject is the national high school debating topic this year and was the national college debating subject last year. With this familiarity of the subject, the Forensic council hopes to help these high school students, through a panel discussion, with their pro and con arguments.

Dr. Andrew Erskine, faculty advisor to the Forensic council, will also deliver an address at this time, to the high school students, on the subject of debating. This is the first time that Muhlenberg has held an affair of this sort.

**Campus Tour**

Also included in the day's activities is a campus tour, to be conducted by the Cardinal Key society. Supper will also be served to the guests, in the College commons.

The Muhlenberg college Speaker's Bureau in conjunction with the Lehigh Valley Debating association, have made the arrangements for the high school student's visit to the Muhlenberg campus. Miss Evelyn Naylor, of Slatington high school, is in charge of the Lehigh Valley debating association's activities.

### Coeds Challenged

**The males of the Muhlenberg Forensic council challenge any two Muhlenberg coeds who feel capable of upholding the honor of American Womanhood to debate the following topic: "The Masculine Sex has a Natural Superiority,—Intellectually, Morally, Socially and Physically."**

**This topic will be debated on Monday evening, January 13, 1958 in the Student center lounge.**

**Women interested in being "worthy opponents"' please reply to Box 7B.**

## Hillel Meets For Address By Greenburg

"Man and His Relationship To Man" will be the topic of discussion at a meeting of Hillel society on Sunday, December 15 at 7:30 p.m. in the Student Center lounge. Rabbi William Greenburg of Temple Beth-El, 17th and Hamilton Streets, will lead the discussion which is a continuation of last week's topic, "To Be Or Not To Be A Jew."

The topic under discussion will be in keeping with Hillel's intent to foster and provoke a cultural interest in Judaism. At the November 24 meeting, Rabbi Greenburg discussed, "Man and His Relationship To God."

Hillel is a campus organization for students of the Jewish faith. The organization was recently reactivated during the 1956-57 school year. Officers of the organization are: Richard Fine, president; Susan Goldblatt of Cedar Crest college, vice-president; Ira Seidman and Ruth Weidman of Cedar Crest, secretaries; Robert Cardonsky, treasurer; and Gilbert Sopher, program chairman.

Hillel holds joint meetings between Muhlenberg and Cedar Crest colleges. The meetings are open to students of all faiths.

"The Philosophical Implications of the Jewish Background" will be the topic of discussion at the December 14 meeting of Hillel.

## Catholic Club Holds Meeting

Father Strassner, vice president of Central Catholic high school presented a talk entitled "Analysis of Human Love." The talk was held by the Newman club, in the Chapel Lounge on Tuesday evening, and was built on the four basic elements of love; sexual, spiritual, supernatural and the emotional. "Without the spiritual element, love can not grow. Sometimes the psychological effects of emotion block out the spiritual element thus a marriage lacking in the spiritual element is doomed."

Father Strassner stresses that if disagreements are not straightened out in the courtship period, then the relationship should be broken. There are three basic ways that people fall out of love. The first is absolute physical separation in which persons do not see each other. The second is the absolute mental out, such as the destroying of symbols that either person holds. The third is a vacuum of the mind about the other person. Falling out of love is the causation of a lack in common interests, disagreements or disrespect for the other person.

The Newman club also made plans for a Communion breakfast to be held at the Traylor Hotel on January 12th. The speaker for the occasion has not yet been chosen.

Faculy advisor for the Newman club is William Kinter of the English department.

## Cedar Crest-Muhlenberg Schedule Christmas Sing

This year, as in the past, a joint Christmas Carol fest between Muhlenberg and Cedar Crest colleges will be held on Monday afternoon, December 16 at 4 p.m., in the Muhlenberg college chapel. This is the twenty-fifth year that the joint caroling service has been held between the two schools.

One of the leading speakers at this year's service will be Dr. Dale Moore, president of Cedar Crest college. Dr. J. Conrad Seegers, president of Muhlenberg college, will present a narration of the Christmas story to the assemblage. Also participating in the fest will be Dr. David Bremer, chaplain of Muhlenberg college and B. Leroy Burkhart, Cedar Crest college chaplain.

**Combined Choirs**

The combined choirs of both colleges will be featured in the program. Musical selections will begin with the prelude, "Good News For Heaven The Angels Bring," and "In Dulci Jubilo." These selections will be sung by the choir of Cedar Crest college, under the direction of Mr. Wilbur Hollman. Following this, the combined voices of both Muhlenberg and Cedar Crest colleges will sing the following selections: "Christmas Hymn," "Lo, How A Rose E'er Blooming," and "From Heights Of Heaven To Earth I Fare." The Muhlenberg college choir, under the direction of Mr. Ludwig Lenel, will then present "O Morning Star," "So Pure, So Bright" and "Rosent in Laudibus."

**Soloists**

The soloists for Cedar Crest's choir are Barbara Kleppinger and Mary Ann Larsonu. These two girls will be featured in the last two numbers which are, "Patyan Burgundian" and "The Shepherd's Story." The musical portion of the program will then conclude with the "Postlude" by Ludwig Lenel.

The traditional Christmas tree lighting ceremony will be carried out by the Student council of Muhlenberg college, following the service. The tree, south of the college chapel will be lighted and will remain so, throughout the Christmas season.

## Club Sponsors Student Dance

"Muhlenberg Night" will be held at The Meadowbrook on route 23 in Cedar Grove, New Jersey, on Saturday evening, December 28. This annual affair will feature the music of Tommy Tucker and his orchestra. A music fee of $1.00 will be charged, but there will be no minimum and no cover charge. Dancing will continue from 8:30 on.

In the event that enough men from any of the six Muhlenberg fraternities turn out for the dance, special tables will be arranged. Anyone interested in making reservations for the affair are urged to contact Joe Federico or Paul Whitcraft before December 19.

**Annual Affair**

This is an annual affair sponsored by The Meadowbrook which is reputed to be the foremost night club in New Jersey. Included in the music to be played by Tommy Tucker's orchestra will be "Put On Your Old Gray Bonnet," the traditional Muhlenberg pep song. Last year there was a large attendance by Muhlenberg students and their dates.

## Dorsey Band Featured At Annual Senior Ball

"The Fabulous Jimmy Dorsey Orchestra," under the direction of Lee Castle, will supply the musical segment for the annual Senior Ball, on Friday evening, December 13. Lee Castle, one of the best trumpeters in the country, has been more than a member of the Dorsey band for many years. Many have regarded him as the "third son" of the Dorsey family.

Lee Castle

At the intermissions musical entertainment will be provided by piano interludes. These will be performed by Muhlenberg students.

As an added feature of the dance, there will be a life-size sleigh in the middle of the floor. There is a possibility that photographs will be taken of couples sitting in the sleigh. Placed on each table will be a snowman with a candle in its center. Other decorations will be in keeping with the holiday spirit.

**Senior Ball Committee**

This year's Senior Ball committee are: Marvin Roth, Robert Spivak, David Ulanet, Richard Lichtenthall, Harry Berg, Sidney Gamburg, and Ronald Moxey. Honored guests will be: Dean Heimtraut Dietrich, Dr. and Mrs. Henry M.M. Richards, Dr. and Mrs. Claude E. Dierolf; Admiral Charles W. Moses; and Dr. Hagen Staack, adviser for the class of '58. Those chaperoning for the evening will be Dr. and Mrs. John J. Reed and Mr. and Mrs. Robert A. Battis.

Lee Castle, the director of the Dorsey Band, showed interest in the musical field at a very young age. He spent a great deal of his time playing at local Italian street festivals. The deciding factor as to which instrument he would specialize in, came to him upon hearing one of America's greatest trumpet players, Louis Armstrong. The names of "Mr. Trumpet" and "Prince of Trumpet", have been attributed to him throughout his musical career.

**First Start**

Lee's first start in the musical profession was with the Joe Hyams Band. From there, he went on to play with more popular bands, such as Artie Shaw, Glen Miller and Tommy Dorsey. Dorsey, realizing the potentiality of Lee, sent him to study under his father. Upon the completion of his training, he joined the Benny Goodman Band, but then went on to form his own group. He finally was called by the Dorsey brothers to be the featured trumpeter in the newly formed "The fabulous Dorsey Orchestra."

The Senior Ball is the beginning of a houseparty weekend, in which the fraternities will participate. Informal parties and the basketball game with the University of Delaware on Saturday night will be the highlights of the weekend.

## Pre-Registration Ends Tomorrow

Tomorrow afernoon at 4 p.m., pre-reistration for the 1958 spring semester will be closed. Any student who fails to pre-register before this designated time will have to pay a late fee of $10.00.

Pre-registration will begin at 9 a.m. Students are required to report to their adviser for the pre-registration form, course schedule, and period code work sheet. After preparing a schedule of courses, the student is to obtain the approval of his or her adviser and return the form to the office of the registrar.

One copy of the pre-registration form will be countersigned by the registrar and returned to the student. This copy of the form will permit the student to report directly to the registration table in Memorial hall on February 3-5, 1958 and obtain the final registration materials required for the spring semester.

## Gettysburg Honor System Functions

Gettysburg, Pa.—(I.P.)—All examinations, term papers, reports, laboratory work, and all homework are included in the newly-installed honor system, according to a report by the Gettysburg College Honor Commission.

Fraternity files will now include only past examinations. The faculty has been instructed to inform the students if they feel cooperative work is in order as in laboratory work or mathematics problems.

The faculty will not proctor any tests unless it is necessary as in the case of laboratory practicals, language orals, and other tests requiring their presence. Professors will make themselves available for any questions at the beginning of the exams and then inform the class where they can be contacted during the exam for questioning.

The commission suggests the professor retire to his office. If the office is in another building, he may remain in the testing room with the permission of the class. The student under the honor system is obligated to be honorable himself and to report any student he notices abusing the code.

The faculty received considerable attention. One comment requested that "pegging," "jap test," and other unfair practices be eliminated . . . get rid of the "curve" system of grading.

## West Hall Residents Decorate Dormitory

Following the Lehigh basketball game on Tuesday, December 17 the Muhlenberg coeds will hold an open house from 10:30 p.m. until 11:45 p.m. The purpose of this open house will be to enable the male students to see the various Christmas decorations on the doors of the West hall rooms.

Next Monday a contest to determined the most attractive door on each floor of West hall will be held. The judges for this contest will be three members of the Administration building secretarial staff. The judges will determine the best door.

In addition to the door decorations, the coeds will decorate the West hall lobby on the first floor. The lobby has been closed to the public and to the residents in West hall from 12:00 noon today and will be open again tomorrow evening before the senior ball.

## Last Gasp . . . ?

Many male members of the freshman class have recently become aroused when learning that the traditional Muhlenberg-Cedar Crest freshman dance has been abandoned. This event was usually held before or immediately after the beginning of classes.

With the cancellation of the traditional dance, serious consequences have been realized. Muhlenberg men have had their morale shattered. The initial opportunity for making contacts with Cedar Crest freshmen and upperclass-girls has been removed. We have then the grim situation in which many male freshmen find themselves to be social outcasts. Having been deprived of an acquaintance into the social life of Cedar Crest girls, the majority of men will find difficulty in overcoming this fabricated barrier. Our male freshmen are virtually unknown by the women of Cedar Crest. Is this situation directly traceable to the administrative action eliminating the customary Muhlenberg-Cedar Crest freshman dance?

This question has caused mixed emotions. However, a silimar situation may be recognized as existing on campus, whereby the freshmen males still find themselves in a strictly limited social life. The coeds, facing a very favorable 8 to 1 ratio, have been monopolized by men in the sophomore, junior, and senior classes. Freshmen once again find themselves relegated to a position of social inferiority.

Regardless of these apparent consequences, the crucial question remains: Will this breaking of social ties with Cedar Crest be continued? Next Monday afternoon the annual Muhlenberg-Cedar Crest Carol service will be held in the Gideon F. Egner Memorial chapel. Is this wonderful event also to be eliminated? Rather, steps should be taken to provide means for maintaining better relations with our neighbor college. Present means for the preservation of good relations with Cedar Crest include both academic and social activities and these must be fostered by the administration and Student council alike.

The years of social and academic relationship with Cedar Crest must not be curtailed or extinguished. Will the administration follow such a policy?

# From Here And There

by Robin Schlunk and Stan Heim

Monday evening we experienced a truly unique and most pleasant sensation in the Student center. Permeating every dusty nook and corner, the magnificent strains of Beethoven's "Emperor" Concerto, issued forth for 15 minutes and only 15 minutes. Stop and think about this a moment, if you will. So you realize what this means? Is it possible that we have real music instead of that uncivilized, uncultured, unbefitting, and uncouth noise that we have been forced to endure for almost three and one half years? We find this hard to believe.

We feel that something ought to be done about the quality of music in the juke box in the Student center. If this is indicative of the Muhlenberg cultural level, we boys and girls might just as well whip back to the jungle and don loincloths and decorate our thatched huts with shrunken heads.

We know that there are enough students who would greatly appreciate some decent music for a change. We should like to offer several suggestions which would ameliorate this abominable situation, noise racket, etc. (Of course this is a public newspaper and we do have lady readers, little girls, (of course, this excludes those who rock 'n roll together and we do attempt to adhere to the certain basic social graces, so we are forced to omit, and leave to your imagination, many of the utterances which have been vehement-expressed.)

First (and foremost): lower the volume several decibels. Second (and equally foremost): Have a liberal variety of types of music, such as popular, semi-classical, classical music, progressive jazz, and. . . rock 'n roll, only if it is necessary.

We do not wish the Student center to become an academy of music nor do we wish it to become a metropolitan opera house, even though we could do without the spontaneous gyrations, but we do feel that there should be something resembling a college atmosphere in the Student center.

As an added note, we should like to comment on the fine chapel concert given this past Sunday evening. At this time, free of charge, and at a convenient time, a program of truly fine music was offered to the student body. It is a shame that only 15 students at the most found this worth their while to attend. It is interesting to note the following statistics. (That is "unless statistics lie)" The Muhlenberg secretarial staff had fortunately greater attendance than the rest of the college community combined.

# Dancers Will Swing To Dorsey Rhythms

by Barbara Fretz

Years ago, an eighteen year old saxophonist was discovered while playing at a dance in Reading, Pennsylvania. This boy grew older, became world famous, and then died, but his music is still very much alive, and probably will be for years to come. Tomorrow evening, here at Berg, less than fifty miles from the place where its leader got his start, the band of Jimmy Dorsey will be playing the dance music that has made the name of Dorsey famous.

Jimmy Dorsey's life was devoted to his music. While still a child, he learned to play the saxophone, cornet and clarinet. In his teens, he organized the Dorsey Novelty Band, and it was through this band that he was discovered. When Baltimore's first radio station opened, it was Jimmy Dorsey's music that reached the ears of early radio fans. Soon after this he accepted a bid to play with the Scranton Sirens, a jazz group of the day.

Thus began twelve years of appearances with top bands in the nation, including the original California Ramblers and Paul Whiteman. His "golden sax" was soon sought by the radio orchestras of, among others, Victor Young, Rave Rubinoff, Freddie Rich, and Rudy Vallee.

The Dorsey Brothers orchestra was organized by Jimmy and his brother Tommy in the early nineteen thirties. Bob Crosby was their vocalist, Ray McKinley played drums, and Glenn Miller played second trombone in the dance band which established a musical tradition that lasted an entire generation.

In 1933, the Dorseys broke up, each planning to build a band around his own style of music. Tommy became America's first bandleader to feature the trombone. Jimmy's sweet saxophone styling did much to launch the juke box industry. Together and apart, the Dorseys have sold a total of 110 million records.

Such tune as "Maria Elena," "Green Eyes," "I Hear a Rhapsody," and "Besame Mucho" rocketed Jimmy Dorsey to the position of one of the nation's top record sellers. His "John Silver" was one of the first recordings to reach the million mark in sales. All in all, twenty-two of his records became all-time best sellers.

"So Rare," released during the first week of January of this year, was destined to be Jimmy Dorsey's biggest hit in fourteen years, and also, unfortunately, his last big hit. But his band, now directed by Lee Castle, still continues to play his music — a fitting tribute to the man who will be remembered as the "world's greatest saxophonist."

# THE CAMPUS Whirlpool

by Dick Kennedy

The juke box has aroused a great deal of interest among various students as can be observed on these pages of the **WEEKLY. Mr. Schlunk was so put out by the blaring beast, that to remedy hearing Rock and Roll, he silently slinked into the Student center early Tuesday morning and placed a note on the machine — "Out of Order."** This peace remained for the greater part of the day, but in the afternoon, Schlunk spotted a repairman toying around with the wires. Result — sign was removed; Robin had to listen to Rock and Roll over his coffee.

Former Muhlenberg representative of catism and hipsterology, Dave Smith, has abandoned his untimely practices and resorted to a modern flare. Dave is turning ivy. **He has added to his collection of pink and charcoal blazers, several three-button, striped sport jackets, button-down shirts, and other items that compose a college wardrobe. Yes, Dave is becoming collegified.**

Ace Adams has become an avid student of twentieth century English poetry. He reads the material religiously and presents his findings in class. **Rumor has it that he will be teaching the course next semester.**

Lafayette men in quest of dates for one of their recent houseparties wanted Muhlenberg girls. They only had one contact, so most of the dates had to be blind. **The leopards didn't want to take any chances on mismatching, so they typed out lists of the characteristics of their datable men. On these rating charts appeared such traits as good dancer, is tall, doesn't like jitterbugs, likes conversation, fast, etc.** In this way, their West hall counterspy could carefully pair off the proper girls with the proper hooples.

# Letters To The Editor: "Toward A Greater Muhlenberg"

## No Schedule . . .

To the Editor:

It seems senseless for Muhlenberg college to have an elaborate bulletin board by the Administration building, if it is not kept up to date. Perhaps Muhlenberg or the individuals responsible for attending to this board are still out to Thanksgiving recess!

Why can't the dates of meetings be posted weekly? Why can't this posting be done every Friday-Saturday to insure that activities meeting on a Monday do not fall victims to the whims of someone "who gets around to changing the dates—say Tuesday?"

Why are so many small notes and various advertising signs permitted on this board? In the past visitors and members of Muhlenberg college were presented with official notices neatly arranged. Posters for special assembly programs and student body meetings were the only permitted inserts in the board. The present "junky" appearance was never permitted.

1957 is coming to a close. Let's not wait for any New Year's resolution. Let's change the board now before someone asserts authority to make this change.

(Signed)
Karl A. Schneider

## Blaring Beast . . .

To the Editor:

Unless the Muhlenberg student body takes immediate and decisive steps, our beloved Student center will soon degenerate into a corner sweetshop, complete with the latest model of the chain-swinging, leather-jacketed "stud" and the gum snapping tight-skirted "chick". The instrument which may affect this change, is that blaring, belching, multi-colored, plastic and glass ogre, popularly referred to as the juke box. Occupying a corner of the Student center, which promises to become a shrine to idiocy, this instrument threatens to invalidate our claim to being included in the category of a college.

An important purpose of college, other than the acquiring of knowledge and intellectual ability, is to develop a certain degree of sophisication and social polish which is necessary in the adult world to whose membership we aspire. The Student center is a facility provided for just such a purpose. It is a place to relax, meet people, exchange informal ideas over a cup of coffee with a fellow student or professor, or merely to eat. How can one, even begin to attempt these things with the sweet, nostalgic strains of "Wake Up Little Hoozy" crashing against the ear-drums? Neuroses, laryngitis, and indigestion can be the only material result.

I am not attempting to criticize Rock 'n Roll as a form of music, for that is another subject and it would take reams to do it justice. What I am criticizing is the fact that it is played in the Student center. No doubt, to some, Rock 'n Roll music constitutes a way of life, and is valued for its musical content and enjoyment derived thereof. Like all things however, Rock 'n Roll must be put in its proper place and perspective. It is not and should not be allowed to become a symbol of a college student. College is a place to progress and broaden one's interests, and not a continuation of narrow, high school concepts. The day Rock 'n Roll becomes firmly associated with the college student is the day that Screaming Jay Hawkins and Elvis Hipster will teach a course in Cultural Anthropology.

I offer the following proposals as a remedy for the situation.

1. Lower the volume of the juke box.
2. Replace the records now present in the juke box with ones of a more civilized nature.

(Signed) Roger Keehn

## What's It . . .

To the Editor:

In answer to your plea for help concerning the "Unusual" painting which appeared in last week's issue, we would like to offer our interpretation of it. After many hours of research on the works of Dali and a devoted study of surrealism, we have come up with the following conclusions concerning it.

The painting is unique because of its complete organization, while at the same time it is disorganizing itself. All of the watches in the picture denote six o'clock and have the six o'clock shadow, putting the painting within the time element. It is set in late fall, the period of earth's decay, around dusk. The whole setting from the vast plains to the high mountains is lifeless and barren. All of the watches have melted into shapelessness, their very structure taken from them, except one which is being eaten by the ants and undergoing decay at the present. It is quite apparant that the theme of this painting might be the **End of Time**, as one of your staff suggested. But in the foreground lies the gruesome, melting man slowly losing his shape and rigidity. This painting is not simply the end of time, but the **End of Man's Time.**

Within the ideas of the painting itself everything is nothing: the melting watches, the melting man, the dead rotten tree, the desert, and the high useless mountains. Man may destroy himself in any manner he chooses, but time will go on, without meaning. However, without thinking life to perceive of a concept of time, time cannot exist either.

The theme of this great work is the self-destruction of man and time. In the far right hand corner of the picture can be seen the Rock of Gibraltar, gateway to the west. Judging by the positions of the shadows the sun is westering. The entire picture points to the west, the region of death. Man, on his own time, will destroy himself and then time will end also.

We hope to have helped bring about a clearer understanding concerning the significance of this great painting by Dali and would like to assure you that it is not upside down.

Sincerely yours,
John R. Mondschein
William A. Kinter

## Editorial Reply . . .

To the Editor,

This letter is in reply to your editorial of December 5, 1957. The aforementioned editorial was a vicious and unmerited attack upon Student council even though you may try to hide this fact behind the excuse that Council was used only as an example to illustrate your point. It, by the way, was the most irresponsible piece of editorial commentary that has appeared in the **WEEKLY** in the last four years. In it the thought was conveyed, or at least that was the impression it gave, that Student council members have been misusing student body funds for their own personal benefit and without any regards as to the benefit the student body as a whole might receive as a result of the expenditures of said funds. This is a falsehood which I will try to clear up. Before I go on, may I make it clear that these are the points of view of an individual and are in no way designed to represent the opinion of Council as a whole.

First of all, let me point out that this $135 you talk about are not spent because of a whim of Council, but only as a way of recognizing valuable services rendered to the College and to the student body. Let us not belittle the fact that the men rendering these services serve for only one year. Keep in mind, Mr. Becker, that even though these men may not put in "ten hours or more" a week in carrying out their duties, the responsibilities which rest on their shoulders are a heavy load. They are the ones who have to answer not only to the faculty and administration but also to the students who elected them when things "go wrong." They are the ones who have to conduct student affairs and they are the ones who sit as judges when their fellow students break rules and regulations, a task which is never easy, or pleasant. Other duties and responsibilities would fill pages. Perhaps they only spend five hours a week on the job, but these five hours are just as valuable as your ten.

Furthermore, you forgot to mention one detail. That detail is that the $135 spent by Council are used to recognize the work of thirteen men. In your case, sir, the three top men of the **WEEKLY** staff—editor-in-chief- managing editor, and business manager —each receive a college ring worth around $40 each . . . a total of $120 just to recognize the labor of three men. But then maybe you do not consider this a useless custom or an unwarranted expenditure of student funds.

In closing, let me remind you that recognition is a useful thing and can be a great incentive towards better performance in many fields. That is the reason why athletes get sweaters and letters; that is the reason why we have a Dean's List and Omicron Delta Kappa and Who's Who. That is perhaps the reason why we get a piece of sheepskin with Doctor Seegers' signature on it at the end of four years of working away at the books. I will grant you that these forms of recognition can sometimes get out of hand, but they can also have a positive value and serve a constructive purpose. Their material worth is perhaps nothing, but they are something to strive for. Please keep this in mind, and next time you are writing an editorial try to consider all sides of the question involved, and not just your narrow point of view.

Yours for a better Muhlenberg,
Luis Torres, Class of '58

## Art Contest

**All Muhlenberg students who are interested in submitting works of art for the MCA contest are asked to give their names to John Dreisbach or Mr. Kinter. Exhibit is scheduled for May 1958. Deadline date is May 1. A prize or prizes will be offered.**

# Muhlenberg Plagued By Intellectual Apathy

**by William N. Holst**

*Editor's Note: The opinions expressed in these two columns are purely those of William Holst and not representative of the Muhlenberg WEEKLY as a whole unit. The WEEKLY felt that such criticisms which appear here should be brought to light; whether they be entirely valid or not is not for the staff to decide. Therefore, as an attempt to provoke thought, it has been printed.*

In an ARCADE of several years ago, a past editor expressed through open and clear essay, his attitude toward a topic held dear by many of the student hood and faculty. We hear it continually; in chapel, in editorials, and over coffee. In the ARCADE article, DECLINE OF INTELLECT AT MUHLENBERG, the author presents his analysis of the intellectual climate among the students, concluding that there is a marked apathy, an anti-intellectual attitude apparent among the students. He meant, I would imagine, that there was not that vigor, give and take of ideas; not that push, a real concern for intellectual things. Removed from the classroom the student willfully returns to his "vacuum."

Muhlenberg's student body has only increased numerically, (whereas the classroom facilities remain essentially the same) since the time of the article of which I mention. The same situation, in the main, would still exist among the student body today through the eyes of that writer. Those voices now who still oft times remark upon what we shall call apathy, present evidence in regard to the proportionally few who attend and support the college outlets for intelectual endeavor-statistical support to the apathy question. Can we measure apathy with that criteria? Perhaps.

Let us examine apathy more closely, perhaps we cannot place too much blame upon the student body, perhaps very little. All with clear eyes know their good teachers and poor, their vigorous and bored, their stimulating and dull. Using our criteria for apathy measurement in students, we see the same results mirrored in our faculty (how many faculty members attend AKA, contribute to the ARCADE, are generally concerned intellectually?). We know our good students—those noble, disciplined spirits who have the courage to study not with the "A" mark as an end. Similarly, we know those faculty numbers who teach with not the mark as a whip, whose tests are designed to examine a students' progress rather than to pin an A, B, C, D, or an F on his attendance card (whip them to class, for if they cut, not their education will be impeded, but certainly their marks.)

Quite obviously, to pursue this in a different way, we must point our fingers most specifically to the admissions system. Are good students consistently being excepted or are collective cases of $2840 (8x355) potential dollars being accepted? One can't very well place a poor student with no real desire to learn, be "intelligent" in a group and justifiably then accuse him of apathy- intellectual or otherwise. On this again, we must turn to our faculty, many of whom are perhaps teaching with the controlling attitude "just another job"—a business arrangement. The student, of course, is paying for the benefits of Muhlenberg to provide him with an education. Hence, it would seem the greatest responsibility rests with the faculty and secondly with the administration.

We are paying the teacher to teach, he must also prove himself to us as he expects us to prove ourselves to him. A student in good standing (his bills are paid) has every right to be erudite, assinine, "intellectual," anti - intellectual, dean's list, or . . . . list. His responsibility is to himself, not primarily to the school. If one pays in purchase of an automobile and soon afterward it breaks down, this buyer is right to complain to the seller because he did not get what he has paid for. If he should be negligent and the car breaks down it is his responsibility, certainly not the seller's. The buyer senses a bad bargain if the seller insists he not drive fast or only drive on certain streets—that he report with the car every month or so for a check-up.

Muhlenberg, to conclude, has its good and bad, very good and very bad; it is the men who control Muhlenberg, and the conditions they operate under, who make it so. Student apathy is Muhlenberg apathy.

Unless a cynic is either funny or creative he is not worth listening to. Avoiding this, let me list suggestions which I think to be the responsibility of the administration and faculty to bear heed. The general suggestion: faculty and administration have more conscience of responsibility, that it be more vigorously envisioned and applied. This "Greater Muhlenberg" business is not primarily a student venture.

(a) Better Chapel speakers; men willing to be meaningful for Protestants, agnostics, Catholics, Neverthoughtaboutits,

(Continued on Page Six)

# The Coed's Dilemma

**by Linda Patnoi**

It never fails
When I am out
With someone I
Don't care about,
Who's young or fat
Or much too short,
Who's boisterous and
A tin-horn sport,
(You know the type—
He's so persistent
You make a date
For some night distant,
And finally it
Is here, and you
Must see the awful
evening through)
It never fails,
I've said before,
But then I meet
SIX friends or more.

And then again,
The nights that I
Am with a tall
And handsome guy
Who's charming and
A gentleman
A very sentimental man,
Who dances well,
And holds my hand,
And acts as though
He thinks I'm grand
Those nights, no matter
Where we go,
I never see
A soul I know.

# THE JAZZ ROOST

**by Fred Stutman and Leon Finkle**

**Record Review**

**Flute Souffle:** Herbie Mann—Bobby Jaspar

Essentially, this is a flutist's LP, with both men up to the occasion. On tenor, too, both play with authority, but the most rewarding moments come in the form of flute passages. On flute, Mann urges interesting melodic and rhythmic figures from the instrument. Jaspar excels on tenor, gradually emerging from previous influences to maintain a sound and conception of his own.

Mann's ability and Jaspar's promise are both worth hearing. This contains some of their best expressions to date.

**Ritual:** The Jazz Messengers, featuring Art Blakey

This is a turbulent sounding group, generally content with one dynamic level, except for Blakey, who exists apart from such limitations.

In this collection, Blakey is omnipresent, surging behind the soloists, laying down transitional bombs, and soloing violently. His work is remarkably fascinating in many cases, and apparently the soloists don't mind being clubbed from behind. Personnel: Jackie McLean, alto; Bill Hardiman, trumpet; Sam Dockery, piano; Jimmy DeBrest, bass; Blakey drums. Most of the members of the group, however, aren't musically articulate enough to do so. McLean had potential and Blakey is an amazing drummer with much to say.

**The Jazz Message:** Featuring—Donald Byrd, trumpet; John LaPorta, alto sax; Horace Silver, piano; Wendell Marshall, bass; Kenny Clarke, drums.

The statements that are made by these jazz musicians are worthy of the "musical soapbox" provided in this album. Excellent rhythm throughout by the ever-swinging, ever-tasty Kenny Clarke. Solo attention is called to both Horace Silver and Donald Byrd whose ideas and fluidity of improvisional ideas are a high point in recorded jazz.

All in all, the Message is here to hear . . . and the hearing is fine.

**The Bud Shank Quartet:** Featuring Shank, alto and flute; Claude Williamson, piano and celeste; Don Press, bass; Chuck Flores, drums.

The tunes provided here include a wide variety of sounds in terms of tempo and mood. The splendid array here makes listening to the entire LP a pleasant experience. Shank plays with communicative warmth on both instruments, but at times is somewhat fragmentary in conceptual terms and a bit harsh in tone.

**For good listening in jazz, tune in to Muhlenberg's radio station WMUH for:**

**Tuesday night**

# Keep Christmas Always

There is something truly wonderful in the way the approach of Christmas affects our life as a college community. The spirit of Christmas always brings people closer together and I think that this is particularly evident on our campus. It has a way of engendering a real sense of community among us.

The various traditions which we observe before we separate for the Christmas vacation helps to create a warm and friendly atmosphere on our campus. The annual Carol Service in the Chapel, the lighting of the college Christmas tree, caroling and parties by campus organizations, the Christmas dinner in the Commons and in fraternities, and now this year for the first time — a Candlelight Service in the Chapel the evening before we leave for home. To keep Christmas we must share it, and this sharing with one another of the spirit and meaning of Christmas breaks down barriers, opens our hearts, and creates a feeling of unity and true fellowship among us.

Have you ever wished that the spirit that pervades this season might be more manifest at other times of the year — say along about the first of October or the week before final exams? Surely it doesn't require snow and mistletoe, bells and holly, and the singing of carols to engender goodwill and friendliness and a genuine sense of community on our campus. I am not suggesting that we try to **save** this Christmas spirit or spread it out over more of the year. It's not like a rare perfume that must be kept tightly bottled to preserve its fragrance, for the more we give of it, the more we have to give.

As God gives himself to us at Christmas, let us give of ourselves to one another. As we seek to keep Christmas, let us also seek to keep the true spirit of Christmas alive in our hearts throughout the entire year.

A joyous and blessed Christmas to you all!

# Jazz Society Holds Meeting

On Monday night, December 9, the Muhlenberg Jazz society met for the third time this semester in the West hall commuter's room. At each session the members discuss a certain musical instrument as it is applied to the jazz world. Last Monday, with the aid of a high-fidelity phonograph and several records, they discussed the trombone and its place in the field of jazz.

On a larger scope, this once all but extinct organization, is planning a Jazz concert for sometime next semester, preferably in conjunction with the Junior Prom or IFC weekend. They are trying to obtain the jazz group of Don Byrd. This is an up and coming group, originally from Detroit, which has been currently featured in New York.

Locally the Jazz society is planning an outing this weekend to the Embassy where they will take in Don Elliot and his melophone.

# I-M CORNER

by Jack Coughlin

Intramural basketball got off to a fine start with three games the other night. In the opening contest of the 1957-58 campaign the Roonies took the measure of AMI, 34-20. High man for the Roonies was Ken Herb with 10 points. Herb Siegle and Dave Farber hit for 8 each for Alpha Mu Iota.

Lambda Chi Alpha gave indication of their power when they downed the Catahamptons 59-29. The Lambda Chi attack was led by Bob Heiter with five field goals and two fouls, for a total of 12. Jack Young dropped in nine points and Jim Orr contributed eight more for the Lambda Chi cause.

**Warriors Beat Canucks**

After a close first half the Warriors pulled ahead to defeat the Canucks, 29-19. At half time the score was 15-13 and the Warriors held a slim 2-point edge. In the second half they held the Canucks to six points and Raven and Brensaw hit from the floor to give the victory to the Warriors.

In the only other game scheduled for Monday night the Commuters failed to show up with five men for the scheduled time and the game was won by forfeit by Phi Epsilon Pi.

**Football Championship Cancelled**

Due to the bad weather the past week the I-F football championship game has not been played. The game will be played as soon as possible. This game will be played between Phi Kappa Tau and Sigma Phi Epsilon. In the other championship game Lambda Chi Alpha met Phi Epsilon Pi for the Intramural title. In a close game Lambda Chi jumped to an early lead when Jim MacMillan passed to Mike Woolley for the first score of the game. Lambda Chi moved down field again and this time MacMillan went around end for the TD giving LXA the 12 point lead. Phi Ep came back strong in the second half. Gil Sopher passed and ran his team down the field. Late in the third quarter he connected with Frank Claire for the TD. Defensively Phi Ep began pushing LXA back and finally pushed them back for a safety. With the score now at 12-8 they tried to get that winning touchdown but time ran out and with the final whistle Lambda Chi took the Intramural football crown.

With the football season completed we have taken a poll to select the All-Interfraternity teams. These mythical teams are made up and show the best players in the competition this year. The selections were made on the basis of all-opponent teams that were submitted by the six fraternities. On the basis of total votes received we have selected the top players to represent these teams.

**All Intra-Fraternity**
**First Team**

| Name | Position | Fraternity |
|---|---|---|
| Ray Croft | Back | PKT |
| Ken Stewart | Back | PKT |
| Bob Nuss | Back | ATO |
| Gil Sopher | Back | PEP |
| Bob Kaltreider | Center | SPE |
| Mike Woolley | End | LXA |
| Frank Vari | End | SPE |

**Second Team**

| | | |
|---|---|---|
| Jim MacMillan | Back | LXA |
| Dave Jones | Back | SPE |
| Andy Brusko | Back | AMI |
| Nino Carnevale | Back | LXA |
| Roger Ludwig | Center | LXA |
| Tom O'Connor | End | PKT |
| Dave Auerbach | End | PEP |

# Bergmen Whip Rutgers, 68-59 For Second Win

Despite a great deal of hustle, a stubborn Rutgers basketball team succumbed before Muhlenberg's towering height last Saturday night, as the Cardinal and Gray won their second straight game of the season, 68-59, at New Brunswick, N. J. The win also marked Muhlenberg's seventh consecutive triumph over a two year span.

Berg was off to a poor start as Rutgers led 10-5 midway through the first period. However, with Clint Jeffries sparking the attack with commendable floor direction, the Mules fought back and finally went ahead to stay at 22-20.

Aggressiveness under the boards by Dick Sekunda and Mel Kessler, and ball-handling by Steve Matell and Dick MacLaughlin brought the Bergmen to a fairly comfortable 32-22 halftime lead. The low scoring was due to the fact that 80 charity tosses were awarded throughout the game.

**Second Half**

The second half saw Muhlenberg working more like a cohesive unit as they increased their lead gradually until they enjoyed their largest margin of the game, 53-36 after 13 minutes had gone by in the second half. The Mules then received a scare as the Scarlet fought back for ten straight points. However, foul shooting proved to be Rutgers' downfall as Jeffries, MacLaughlin and Sekunda each hit for two free throws to spur Muhlenberg on to their nine point winning margin.

Berg was outscored from the field 23 to 21 and had to rely on foul shooting for their victory. The Cardinal and Gray converted 26 of 49 fouls while Rutgers hit on only 13 of 31 attempts.

Sophomore Dick Sekunda was again high for Muhlenberg, posting 18 points. Three other Bergmen hit for double figures as Mel Kessler collected 14, and Clint Jeffries and Dick MacLaughlin tallied ten each.

**Frosh Lose 63-58**

The Muhlenberg freshman team lost their first encounter with Rutgers plebes as they were edged out 63-58. The Berg frosh although taller than the Scarlet frosh could not use their height to full advantage as Rutgers' hustling was instrumental in their win.

This loss was only the second for a Muhlenberg freshman quintet since the 1955-56 season since last year Muhlenberg's yearlings wound up the campaign with only one defeat.

# Berg Smashes Moravian 96-67 For Third Consecutive Victory

by Ben Livingood

Muhlenberg unleashed a blazing, smooth-running offensive attack in the second half to smother Moravian college, 96-67, last night in Memorial hall. Five Mules scored in double figures, led by Clint Jeffries with 18, as the Bergmen tallied 60 points in the closing half. Steve Matell (14), Joe Berghold (12), Mel Kessler (12), and Dick MacLaughlin (10) were the other four to finish with double digits in the scoring column.

Dick Chergey and Ducky Potter led the visitors with twelve and ten points respectively. The Greyhounds were limited to 36 markers in the second half, as the Mules' height and alert defensive play held the Hounds' offense in check.

The Mules completely outshone their opponents in every department. They hit on 36 shot from the field to Moravian's 29. On the foul line Muhlenberg found the mark on 24 out of 37 attempts, while the blue-shirted Bethlehem collegians went 9 for 14. Every man inserted by coach Birney Crum managed to tally, as the Mules' fast-moving offensive plays and accurate shooting baffled the Greyhound cagers time and again.

Joe Berghold, Clint Jeffries, and Steve Matell were outstanding as Muhlenberg staged its most brilliant performance of the season to grab its third consecutive victory against no setbacks.

The first half started with both teams playing on equal terms. Steve Matell opened the scoring with a long jump shot with 15 seconds gone. Seconds later, Ducky Potter tied it at 2-2 with an arching one hander. From then on the teams matched each other until the Mules forged into the lead, 13-11, on a set shot by Matell. Jeffries followed it with a jump to stretch the margin to four points, 15-11, before Russ Causley made it 15-13 with a jump shot.

The teams continued to keep it close, with Muhlenberg holding the slight advantage, until two consecutive jump shots by Joe Berghold ran the count to 28-21 with slightly more than four minutes remaining. Two foul shots by Mel Kessler made it 30-21.

The Greyhounds utilized a late surge to close the gap slightly, and at the mid-way mark it was 36-31 with the Bergmen on top.

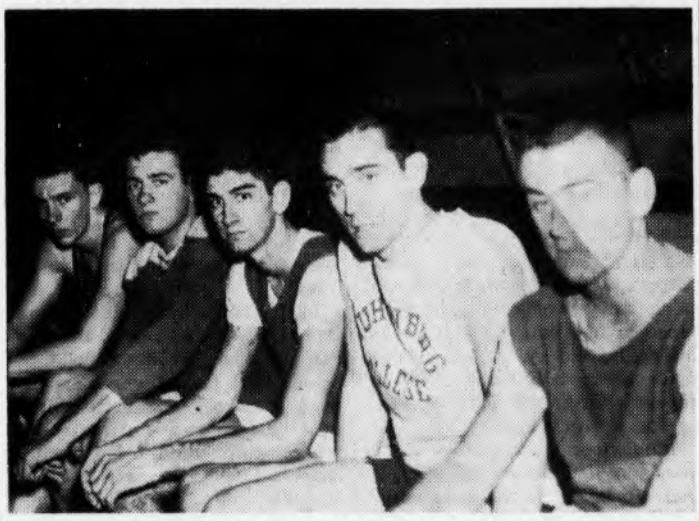
Jeffries was the high man in the first half for the Mules with 13 points. Potter paced the Hounds with eight markers.

The second half, however, was a completely different story. The Mules started quickly, and ran the score to 46-31 before Moravian managed to tally its first points of the half when Bill Davis threw in a jump shot with slightly less than five minutes gone in the half.

A free throw by Jeffries, layups by Kessler and Matell, and a jump shot by Sekunda pushed the Mules out in front 54-33 with six minutes gone. The Bergmen continued at their blazing pace, and when the reserves were inserted with seven and a half minutes remaining in the game they took up just where the starters left off. The leading margin was as much as 90-56 at one time. Moravian managed to get something going in the closing moments which enabled them to close the wide gap somewhat.

In the preliminary game, the Muhlenberg freshman team defeated the Moravian junior varsity, 54-44. Ron Druckenmiller and Al Filardi paced the little Mules with 20 and 13 points respectively. Johnny Olson, formerly of Allentown high school, led the Moravian underlings with 12 markers.

# Muhlenberg's Freshman Squad Boasts Height, Good Potential



Muhlenberg's freshmen basketball team takes time out from practice to pose for a picture. They are from left to right: Richard Brennan, Al Filardi, Ron Druckenmiller, Walt Harper, and George Gilfillian. Not pictured above is Ed Sousa.

Bigger things at Muhlenberg seems to be a rule as far as the current freshman basketball team is concerned. This year's freshman squad is one of, if not the tallest of teams ever to wear the Cardinal and Gray. Four of the first six men measure better than six feet, the tallest being Rich Brennan at 6' 8".

In their first two outings, the frosh have defeated Mack Local of the Allentown city league and lost to the Rutgers freshmen. This years' squad seems to have the potential, which, if properly developed, could create one of the finest freshman teams in Muhlenberg's history. As in the past, Coach Dick Schmidt is relying most heavily on the services of six particular men, namely: Brennan, Al Filardi, Ron Druckenmiller, Ed Sousa, Bob Harper, and "Gil" Gilfillan.

**New York Representatives**

Brennan attended Long Island high school in Long Island, New York. The lanky 205-pounder averaged 18 points per game in his senior year, and was given honorable mention on the All-City team.

Filardi stands 6' 5" and weighs 220. He hails from Holy Trinity high school in Brooklyn, where he captained his team. His 20 points per game average as a senior won him a place on the All-City team. He got off to a fast start at Muhlenberg with 28-point performance in the season's opener against Mack last week, proving himself to be one worth watching throughout the season.

**Local Products**

Druckenmiller, from nearby Kutztown, measures 6' 5", 175 pounds. He attended Kutztown high school and Perkiomen Preparatory school. He captained the Kutztown Cougars in his senior year, while averaging no less than 24 points per game. He was named to the All-Berks county team and received honorable mention on the All-Pennsylvania selections.

Sousa is another local product, coming from West Catasauqua. He attended Whitehall high school, where he participated in basketball and track. The smallest member of the first six at 5' 10" is known mainly for his ball handling and play making ability.

**New Jersey All-Staters**

Harper comes from Caldwell high school in New Jersey. He was captain of the basketballl team in his senior year, when he made All-Suburban conference, All-Essex County, and third team All-State. His dimensions are 6' 4", 225 pounds.

Gilfillan is a 6' 1", 175-pound backcourt man from Palmyra high school in Riverton, New Jersey. He captained his high school five in his senior year, averaging 20 points per game. Among his honors were third team All-State, All-South Jersey Group II, and All-Burlingon county.

## Science Club Movie

**A color movie produced by Bell Telephone laboratories will be featured at the Science club meeting in room 105, Science building at 7:30 p.m. There will be a short business meeting. All interested students are invited to attend.**

*See if you can answer this question about your own future:*

**How much will you get back on your insurance dollar?**

Many people think it costs them money to have insurance protection. The facts are quite different. For example, if you take out a $10,000 Brotherhood Provider policy from Lutheran Brotherhood when you are twenty years old, you will actually receive $1.74 at age 65 in return for every dollar you have paid in. That's a profit to you of 74¢ on every dollar you invest—*and you have full protection from the day you sign up for the insurance besides.* At 65 you have a choice: you can have $12,255—or you can have a monthly income of about $77.20 for life. This figure is based on current dividend rates.

Protection for your beneficiary increases with the years, too. It starts with the $10,000 face amount, and rises steadily to $15,979 if you should die at age 65.

These are some of the reasons we say Lutheran Brotherhood gives "Living benefits for Lutherans through life insurance." You get the protection you need during your entire productive life, then get back much more than you have invested.

Talk to your Lutheran Brotherhood representative about the advantages of beginning your insurance program early, when the rates are lowest.

# Mules Face Delaware In Home Encounter

This Saturday evening a visiting Delaware university five, led by captain Frank Wickes, will face the Bergmen. Coach Irv Wisniewski, now in his fourth season at the helm of the Blue and Gold, has assembled a squad which has already dropped contests to Temple, 83-38, Lehigh, 90-66, and Navy, and has defeated Hofstra.

This year's well-balanced Blue Hen team, which consists of only 10 men, will be strengthened by the return of four lettermen. These include Wickes, a 6' 4" forward and regular on last year's five, who was third in scoring last season. Others who are counted on to lend an experienced hand are guards Jerry Bacher, 5' 10" senior, and Bob Schiliro, a 5' 11" junior. The only returning big man is center Harris Mosher, a 6' 6", 212-lb. senior.

**Outstanding Sophomore**

This foursome, plus sophomores Bill Taylor (6' 2"), Charlie Cluff (5' 10"), and Gordon Zeigler (6' 1") are considered the mainstays of the squad. Cluff, from Wilmingtn, Del., is rated the top prospect among the newcomers. He is a fast and cat-like guard who possseses a deadly shot from both outside and underneath.

In the Lehigh encounter, Schiliro, from New York city, scored most of his 21 points on a one-handed jump from about 20 feet out. Others who hit double figures were Cluff and Wickes with 12 and 10 respectively.

In brief, the Hens appear to suffer mainly from a lack of overall height and depth. Their 1957-58 schedule is as rugged as ever, but their is an indication that they will improve on last year's record of 8-16, despite the loss of scoring aces Skip Crawford (a total of 1205 points in 3 years) and Jim Smith (1053 points in 3 years). Last year's contest found the Mules on top by an 85-81 score.

# Muhlenberg Fencers Prepare For Opener

In preparation for the opening match of the season with Temple university on January 18, and succeeding matches with Haverford college on February 12, Johns Hopkins on February 15, and Lehigh on the 22nd of February, coach Andrew Erskine and his fencing team have been practicing daily in Memorial hall. The highlight of the season will come on March 1, when Muhlenberg will play host to the MASCAC championships.

Last year the Mule fencers fencers finished 5th in the field of 6 teams who competed for the championship. However, Bill Wormley and Steve Fuchs won the team championship in the Epee division and Wormley won the individual title.

**Lettermen Graduate**

Wormley, however, has been lost to the squad due to graduation as have George Goldenbaum, Jim Patterson, and Jerry Jacobson in the Foil division, and Al Adams and Carl Schimmel in the Saber division. Consequently coach Erskine is faced with an almost complete rebulidng job. His only returning lettermen are Fuchs and Marshall Reber in Epee, and Les Sweeley in Saber. In addition, Don Michaels who saw action as a saberman last year, is back.

Despite the large number of losses coach Erskine is not pessimistic. He has been greatly impressed by the large turnout of sophomore hopefuls and is looking forward to a rewarding season.

Concerning the possibility of a freshman team Erskine said that no plans have been made to field one but that he would welcome freshman who have an eye toward competing next year.

# Sport Magazine Blasts 'Sugar Ray' Robinson

The current issue of **Sport** magazine takes a few solid punches at Sugar Ray Robinson, and the boxer emerges from the pages a badly bruised man.

"His reputation as a grasping gladiator," says Sport, "has cost Robinson many friends. Now it looks as if it's going to cost him money, too."

Author of the article, Barney Nagler, goes on to give a history of how Sugar Ray has managed to have the game played by his rules throughout almost his entire career, and almost gloatingly predicts things will be different when Robinson attempts to win the world middleweight championship for the fifth time when he opposes Carmen Basilio in a 15-round title fight at the Chicago Stadium in February.

Although **Sport** calls the article "All Sugar Ray Wants Is Everything," and then goes on to prove it, the magazine does not attempt to hide its admiration of Robinson as fighter. Sport says it does not "reject the possibility that Robinson, the finest fighter of his time, may beat his recent conqueror. For Robinson, doing the impossible simply takes a little more time than doing the unexpected."

The only item about the return between Robinson and Basilio, who took the 160-pound title from Sugar Ray on a split decision at Yankee Stadium last September 23, that seems certain is that this time Robinson is not going to grab all the money.

"Sugar Ray," Sport says, "who extracted a $25,000 guarantee for the closed-circuit telecast of the first bout with Basilio, will not get even remotely resembling this heist the next time around. Contracts for the return bout allot both Basilio and Robinson 30 per cent of all receipts."

Sport says that Basilio frankly does not like Robinson, and won't be surprised if Basilio will demand a larger cut of the purse for the return match. He may do this just to cause Robinson some moments of anxiety.

During negotiations for the first Basilio-Robinson bout, Sugar Ray let it be known that he was the main drawing card. He said, "I'm the one they'll come to see."

Now, says Sport, the situation's different. "'The championship belongs to Basilio, and Carmen may be moved to remind everyone concerned that he is the champion. He will give Sugar Ray a hard time of it before they get into the ring. It could be another story once they are inside."

## Basketball Tickets

**Tickets for the basketball game with Temple are now on sale in the Athletic office and will be on sale until Thursday, December 19 at 4 p.m. The game will be held in the Palestra on Saturday, December 21 at 7:30 p.m.**

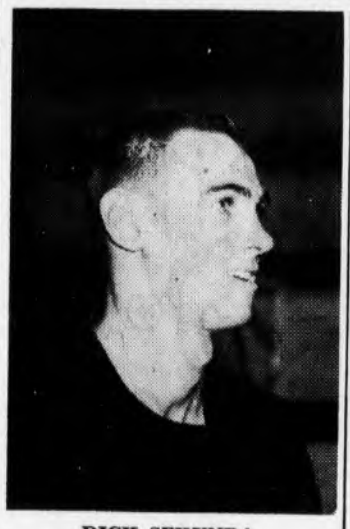
## Sekunda, Loeffler, Secure Starting Positions



DICK SEKUNDA

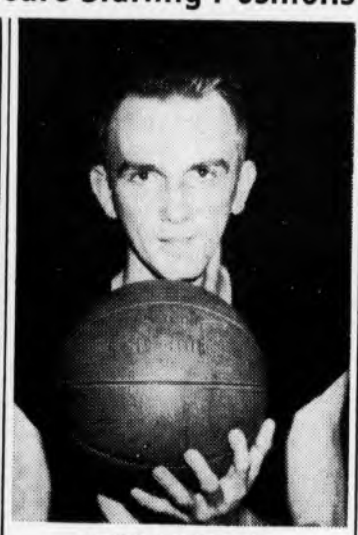
One of the bright spots in the basketball season this year has been the play of a sophomore, Dick Sekunda. The 6' 5" guard has led Muhlenberg to its first two victories leading the scoring column in both games with 23 points against Lebanon Valley and 18 against Rutgers.

Dick is from Grover Cleveland High school in Maspeth, New York where he played baseball, tennis, golf, and basketball. Excelling in basketball, he was named in his senior year to the All-Queens varsity five as well as the All-New York City Team.

**Business Major**

Sekunda is a business major and desires to go into management when he graduates from Muhlenberg. He is a pledge at Alpha Tau Omega Social Fraternity.

When asked about the team's prospects he said "Once the team gets going and has a little more experience working together we will do all right." In the first two games he feels that "the team has not showed its true caliber."



HERB LOEFFLER

Another sophomore who has proven that he is capable to start on the varsity has been Herb Loeffler. The 6' 8" center has played steady ball while starting at center in the first two games that Muhlenberg has won this year.

Herb lives in Long Island, New York where he attended Huntington High school. As a senior he was selected on the All-Suffolk County team along with Bobby Lotz who now attends North Carolina uinversity. Besides playing basketball Herb also ran cross-country and competed in the high jump.

**History Major**

He is a History and Political Science Major but is undecided what he will do in the future.

Concerning the first two games this season he said "I don't think we played a good brand of basketball. There was a lot of shaky ball-handling but we will improve in the future."

# Berg Basketeers Meet Lehigh; First Engagement Since 1955

The Brown and White of Lehigh university under the tutelage of Coach Tony Packer will face the Mule basketeers in Memorial hall on Tuesday, December 17. This marks the first time since the 1954-55 season that the Mules will face Lehigh. During the last season of play, Muhlenberg split two decisions, beating Lehigh in the first outing by a 73-71 score, and losing the second by a 69-64 margin.

The rescheduling with Lehigh is due to the fact that both teams are members of the Middle Atlantic University division. The grouping includes Bucknell, Lafayette, LaSalle, Muhlenberg, Rutgers, Lehigh, St. Joseph's, and Temple.

**Three Returnees**

Lehigh university has three standouts returning to spearhead their team. Returning from last year's squad are 6' 6" Arnie Balgalvis, 6' 2" Bob Roepke, and 6' 2" Tom Healy. Another returning letterman, 6' 2" Joe Wenzel, played varsity football, and will not be in shape for the first several games. Other possible starters include Al Hoffman, 6' 3" junior from Hawthorne, New York; Norm Zelengo, 6' 2" junior from New York city, and a transfer from N. Y. U.; and Terry Eckert, 6' 2" sophomore from Palmerton. Five sophomores round out Coach Parker's 14 man squad. Dan Nolan, 6' 2" football star, and two year letterman on the basketball team will not be playing the winter sport this season.

In Roepke, co-captain along with Tom Healy, Parker has an outstanding ball player. Last season Bob scored 332 points for an 18.4 points per game average, while shooting at a 43.8% accuracy from the floor. He also converted 118 out of 164 foul shot attempts for an accuracy of 72 per cent. Roepke scored more than 30 points against both Delaware and Bucknell. His season total of 332 points was only 26 points short of the all-time single season scoring record for Lehigh university.

# *Sports in Short*

**by Ben Livingood**

Muhlenberg basketball is off to a good start. The varsity used its height and foul line accuracy to overcome its first two rivals, Lebanon Valley and Rutgers. The standout, scoring-wise, has been sophomore **Dick Sekunda,** while seniors **Clint Jeffries** and **Dick MacLaughlin,** and junior **Steve Matell** have been outstanding in the ball handling and play making department. The Mule cagers seem to boast better than average reserve strength, a fact which is a comfort to any coach. The varsity as a whole undoubtedly holds strong potential which, given time to develop, should produce a stronger team than many of its opponents probably anticipate. This year's squad lacks the finesse and sensationalism displayed so often by the 1956-57 team. However, to match the current team against that of last season is, without doubt, an unfair contrast on the grounds of experience. There is a good chance that Captain Jeffries and company may pull more than one surprise before the season ends in March.

* * *

The emphasis upon height on Muhlenberg basketball teams is more than evident in this season's freshman team. Four of the starting five men measure better than six feet, beginning with 6'4" **Bob Harper** up to 6'8" **Rich Brennan. Ron Druckenmiller** and **Al Filardi** fall in between, both at 6' 5".

Once again, as in the past few years, **Coach Dick Schmidt** seems to be relying heavily on five or six men for the majority of the work. Others who played better than average basketball for their respective high schools sit unnoticed on the bench until the waning minutes of a game, when they are inserted only if a large leading margin permits.

* * *

The athletic office has announced that students will be permitted to fill in **Section D** in Memorial hall when the student section (C) is filled. The seats in Section D will not be sold to the public for that reason. The cooperation of the student body in sitting in these two sections only is requested. The office also stated that **tickets for the Temple game** on Saturday, December 21 in the Penn Palestra in Philadelphia, are now on sale in the athletic office in Memorial hall. The tickets will remain on sale until Thursday, December 19.

It is unfortunate that such a big game as this should be scheduled during the Christmas vacation, for it will doubtless cut down the number of students attending. The Temple game is one of the toughest on the current schedule and requires the **strongest student support possible.** Any student who can manage **should be present** at the Palestra that night to give the team the strong backing it will need.

Even though basketball is in the spotlight now, the fencers and wrestlers are preparing for their day of glory. The fencers begin their season on January 18 while the wrestlers open on January 7. Temple will be the opposition for the fencers in a contest to be held at Memorial hall, and Swarthmore will host the wrestlers in a match away from home.

The wrestlers should enjoy a victorious season and be a threat for the Middle Atlantic championship. Returning to bolster the squad are such stalwarts as captain Don Simpson, Roger Keehn, Jerry Rehrig, Dick King and Pierce Knauss. Also back on the squad is Jim Waller who wrestled during the first half of the 1956-57 season.

# College Newspaper Evaluates Aspects Of United Nations

(ACP)—Editors of the Connecticut DAILY CAMPUS wrote this estimation of the United Nations.

Twelve years ago the Union of Soviet Socialist Republics deposited its ratification of the UN charter with the United Nations organization.

As UN Secretary-General Dag Hammarskjold has stated, "Based on the noblest dreams and the highest aspirations of man . . ." the United Nations has served as mankind's best hope for peace.

**International Organization**

UN enthusiasts, however, have played up the idealistic aspects of the international organization to such a degree that the general public becomes disillusioned when the UN appears to fail in an endeavor.

What must be realistically acknowledged is the fact that the United Nations is only as effective as the amount of agreement and cooperation between the United States and the Soviet Union. As was seen in the Kashmir situation even the lesser powers, Pakistan and India, could not be forced to comply to UN resolutions, so how can we suppose that the USA or the USSR would comply with a UN resolution against their respective national interest.

The settling of the Suez crisis is often called as an achievement of United Nations efforts. To be sure, the UN played a significant role by sending the UN Emergency Force to Egypt as a peace patrol and by undertaking the Suez canal clearance, but had the United States and the Soviet Union not been in agreement momentarily and the former able to pressure England, France and Israel into withdrawing their troops, the war might have been prolonged.

**USA and USSR Agreement**

If agreement between the USA and the USSR is essential for UN action and is so infrequently possible, then perhaps it is better to attempt to oust the latter from the world association as Senator Knowland of California has frequently advocated. It would seem, however, that such an assocation without the Soviet block, would be little more than what is already embodied in NATO.

Moreover, it seems to our decided advantage to keep Russia within talking distance. As our UN delegate Henry Cabot Lodge once commented, "The presence of communists in the United Nations forces them to show their hand."

**UN Charter**

Under the UN charter as it stands, the world organization is in a position to do little but debate an issue. As long as nations must rely on a system of balance of power for security, the United Nations endeavors will be perpetually thwarted by national interests. This situation leads to the conclusion the continuance of a United Nations organization is useless. Yet imperfect as it is, the world has no other technique for world peace.

Secretary-General Hammarskjold states that without the United Nations, the world would be in a state where everybody would agree that such an organization had to be created." We seem to have no choice but to struggle along until the governments and peoples of the world have evolved toward a greater world unity, or at least, a lesser conflict of national interest.

## Hungarians Refugees Reveal Soviet Crimes

(ACP)—A little more than a year ago, Hungarian students were fighting in the streets of their homeland. Some were finding freedom. Many made their way to American universities.

A year later, many college newspapers were surveying their campus' Hungarian students, getting their views on the results of what UCLA's DAILY BRUIN called the "October of Oblivion."

Eight young Hungarians are at the University of Oklahoma. They told the OKLAHOMA DAILY where they were one year ago and what this past year has taught them.

"I didn't want to believe this was an actual revolution," said one, recalling the first afternoon of the revolt when 15,000 students congregated in Budapest's city square. Many felt that way, he said, until the secret police shot into the crowd.

One girl, a pre-med student, said she worked four days and nights in the hospital, at the end helping move patients to the basement when the Russians shelled the building.

A young man remembered not being allowed to eat in the morning or at noon because "there were great chances of our being shot in the daytime, and if one is shot in the stomach, it is never good for one to be full at that time."

What did the revolution prove? The new Oklahomans offered this:

Communism is not good for the workers or people, only the party leaders.

Morale of the Russian army is not high. Their loyalty is based on ignorance. Many stopped fighting when they realized who they were fightinug. They were looking instead for the Suez canal.

The battle brought to light the apathy of the western countries.

Disagreements between Russia and satellite countries were revealed. If Russian armed forces weren't in a country, the Communist government couldn't exist.

## The Chowline

Your Snack bar is ready and willing to answer your two most important calls—I mean, of course, the morning "coffee call" and the afternoon "coke call."

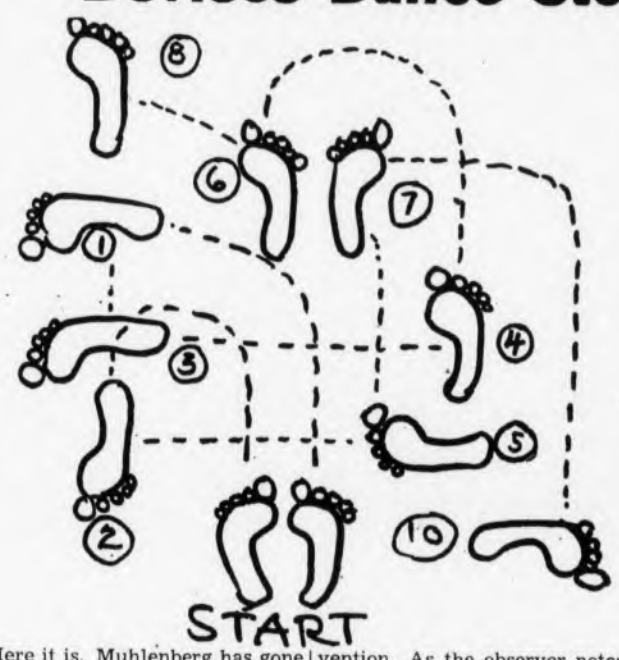
The coffee call runs from about 9:00 to 11:30 a.m. and finds the Snack bar loaded with numerous goods designed to give you the highest good attainable (for a dime, eh!). Our delicious coffee goes for a dime a steaming cup as does the hot chocolate. To squelch those premature hunger pangs we have toast, coffee cake, sticky buns, and sweet rolls available, while sugared, filled, glazed, and jelly doughnuts go for a nickel a sinker.

For your afternoon coke call, which usually runs from 1:00 to 4:30 p.m., the Snack bar is once again well equipped. The numerous fountain drinks — coke, cherry, root beer, lemon, lime, orange, strawberry, and vanilla —all sell for a dime and a wide variety of sandwiches may be made to order. Also available are milk shakes at twenty-five and malteds at thirty cents.

So when you feel the call, visit the Snack bar. You too can become a "grill hound."

**Adv.**

## Warner Goldenschtein Devises Dance Step



Here it is. Muhlenberg has gone mad over the latest rage in dancing techniques. Yes, this tremendous new bongo step has just been released by its originator, Warner Goldenschtein. Mr. Goldenschtein thought that this was the appropriate time for its release since the senior ball will offer an opportunity for Muhlenberg students to give it a try.

Mr. Goldenschtein has spent many years in the perfection of this complicated step in order to develop its fullest possibilities in rhythm and form. As we can plainly see, this step is an evocation from its simpler ancestor, the South African twist (otherwise known as the palsy hop in modern day lingo.)

Even yet, Mr. Goldenschtein is not quite satisfied with the so-called "finished product" of his invention. As the observer notes as he begins to go through this routine, the feet become slightly entangled if the diagram is not carefully followed. A little more practice will quickly remedy this.

Another imperfection which might cause some notice is the fact that Mr. Goldenschtein has apparently left out step number nine. This is not true. Mr. Goldenschtein, pondering the problem for several months came to the conclusion that it would be completely illogical to interfere with the grace and poise of step ten to insert a number nine. If the novice feels that he cannot assuredly use step ten in the direct beauty which is was meant to perform, he may simply turn the pattern upside down and use the inverted six as his ninth step, thus allowing him to float more easily into the finale.

## Federal Exams

To further improve its position in the competition for talented college people, the Federal Goverment is opening its Federal-Service Entrance examination this year to college juniors in addition to seniors, college graduates and others of equivalent experience, the Civil Service Commission announced today.

Also, job appointments, effective after graduation, may be offered the juniors if they pass the examination and their names become available on the lists of elegibles to be established. As in the past, such job offers may also be made to seniors.

The first Federal-Service Entrance Examination to be held since the change is scheduled for November 16, the Commission said. Subsequent examinations will be held in January, February, March, and May 1958. Applicants will have until October 31 to file for the November 16 written test, which will be given at approximately 1,000 examination points throughout the country.

The examination, first given two years ago, is designed to help fill the Government's yearly need for more young people of college caliber who can be placed in jobs at the entrance level and who have the potential to develop into the top managers, technicians, and specialists of the future. Positions filled through the examination are in almost every kind of work. During fiscal year 1957, more than 7,500 job appointments in 175 different occupations were made of persons who passed the examination. The Commission estimates that during the next 12 months at least the same number of entrance-level jobs, at salaries ranging from $3,670 to $4,525 a year, will be filled from the FSEE lists of eligibles.

## Student Apathy

(Continued from Page Three)

Jews, Hindus, or what have you. Everyone must go, should the majority resent going?

(b) Smaller classes.
Emphasis away from the lecture and toward classroom discussion. The exchange of ideas, not simply the statement of ideas.

(c) Freedom to speak freely rather than merely gripe. (If a complaint never gets further than "over coffee" it is a gripe.)

(e) Freedom to handle our personal affairs as we, responsible students, think proper, reasonable, and fit.

I realize that this is all in outline, not lengthy enough. I'll be glad to bend willing ears any time on these matters. I also hope there will be public disapproval in part or in main of this exposition. If there is not, then this will be true apathy.

## Lehigh Contest

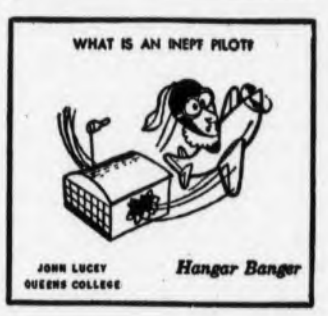
(Continued from Page Five)

**Senior Co-Captain**

Co-captain Tom Healy, another senior letterman from Saratoga Springs, New York, followed Roepke in scoring last season. During the 1956-57 campaign he scored 209 points while shooting at 45.2% accuracy, and his sophomore year he scored 232 points while hitting 42.3% of his shots.

6' 6" Arnie Balgalvis is Lehigh's only big man. Last year during his first season of varsity competition he scored 170 points. Balgalvis, a junior letterman, was the leading rebounder with 192.

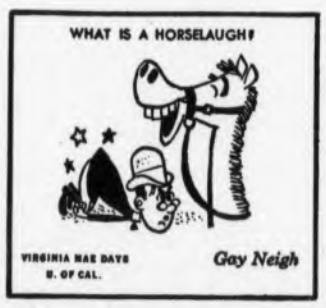
**Sticklers!**



DON'T JUST STAND THERE . . .
**STICKLE! MAKE $25**

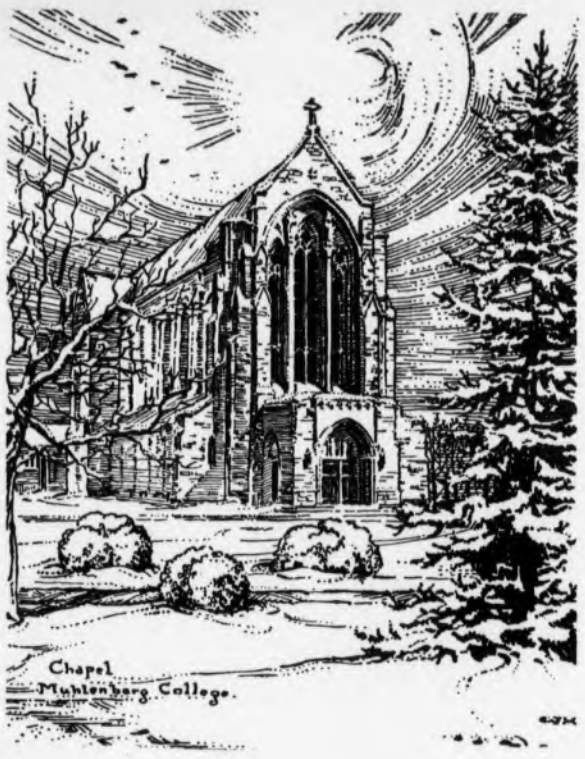
Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out $25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N.Y.

It's all cigarette . . . all naturally light, golden rich, wonderfully good-tasting tobacco. And Luckies' famous tobacco is toasted to taste even better. Don't just sit there, shift for yourself! Try Luckies right now. You'll say a light smoke's the right smoke for you!



**LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!**

Product of *The American Tobacco Company* — "Tobacco is our middle name"



AND it came to pass in those days, that there went out a decree from Caesar Augustus, that all the world should be taxed. (And this taxing was first made when Cyrenius was governor of Syria.) And all went to be taxed, every one in his own city. And Joseph also went up from Galilee, out of the city of David, which is called Bethlehem; (because he was of the house and lineage of David:) to be taxed with Mary his espoused wife, being great with child.

And so it was that, while they were there, the days were accomplished that she should be delivered. And brought forth her first born son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn.

And there were in the same country shepherds biding in the field, keeping watch over their flock by night, and lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid. And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Saviour, which is Christ the Lord. And this shall be a sign unto you; ye shall find the babe wrapped in swaddling clothes, lying in a manger. And suddenly there was with the angel a multitude of the heavenly host praising God, and saying, Glory to God in the highest, and on earth peace, good will toward men.

Luke 2:1-15

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., December 19, 1957 | A. C. P. Rating | No. 12

## Alpha Mu Iota To Be Initiated By Leading National Fraternity

Alpha Mu Iota local social fraternity, will be officially initiated into the national fraternity Tau Kappa Epsilon, on the weekend of January 10-11. This initiation will be a very special one for the national fraternity since this date is that of their founding on January 10, 1899 at Illinois Wesleyan university.

Alpha Mu Iota has a present brotherhood of thirty men. Their's will be the 142nd chapter of Tau Kappa Epsilon, Zeta Theta chapter. With its affiliates, Teke is the largest national fraternity in the country. It is also a member of the National Interfraternity council, In this area, there are chapters of the fraternity at Drexel Institute of Technology, Pennsylvania State university, East Stroudsburg State Teachers college, Indiana State Teachers college, the University of Pennsylvania, Gettysburg college and Moravian.

**Local Fraternity**

Alpha Mu Iota was established as a local fraternity on the Muhlenberg campus in the early fall of 1955. One of the policies of the fraternity was that admission into the brotherhood would not be based on religious belief. The fraternity experienced great success as a new, local organization and an increase in its brotherhood called for improvements in the house. In the summer of 1956, work began on the improvement and modernization of their quarters located at 401 N. 23 St. At the beginning of this year, the fraternity drew up a petition to Tau Kappa Epsilon, whose non-sectarian policy of membership is similar to theirs.

**Initiation Weekend**

The program of events during the weekend of initiation include the pledging of AMI's pledges into the national fraternity on Friday afternoon. Also on that day, the national officers will deliver lectures and instruction to the brotherhood and a pledge test will be administered by Don Becker of Gettysburg college who is Grand Hypthotes. On Saturday afternoon the formal initiation and installation of officers will take place. The guests for the festivities will be parents, wives and friends of the brothers, Dr. and Mrs. Seegers, Dean and Mrs. Richards, Frank B. Scott, Grand Prytanis of Tau Kappa Epsilon, Magnus Flaws, Sr., Province Haegomon, Dr. and Mrs. Dierolf, Dean Heimtraut Dietrich, Mr. and Mrs. MacGregor, and brothers from the surrounding TKE chapters. On Sunday afternoon there will be a chapel service in Muhlenberg college chapel, conducted by Dr. Rodney Ring of the Muhlenberg religion department, followed by a buffet luncheon at the chapter house.

(Continued on Page Six)

## Campus Medical Center To Be Completed Before Second Semester Classes Begin

With the return of the students to the campus of Muhlenberg college following the Christmas recess, there are expectations that the twice-delayed completion of the new and modern medical center will be a reality. Mr. McAuley, who is the college's superintendent of grounds and buildings, has confirmed these hopes by his statement that on January 6, 1958, the new building will be in complete operation.

The medical staff plans to move into the medical center during the Christmas vacation, with the anticipation of a thoroughly functioning unit for the new year. This move has already been delayed two times, and not due to any fault of the architects, Heyl, Bond, and Miller, but stemming from the various trades involved in the construction. The combination of a strike and several minor factors involving the various trades, has caused a delay of sixty days so far.

**Carpenter's Strike**

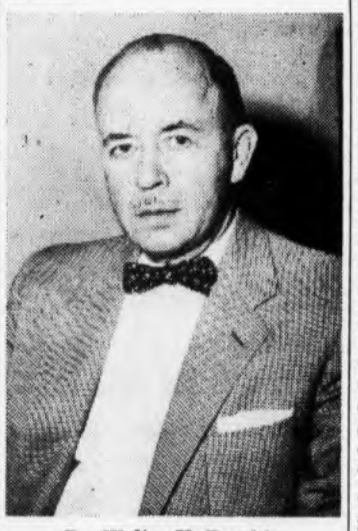
A strike of the carpenters' union, which extended over a period of approximately two months during the summer recess, has been the most obvious deterent. In addition to this, there was, for example, a three-week holdup in the final plastering of the building because of the lack of several small plumbing fixtures. As it stands now, everything is practically finished and ready for operation. The painters have completed their work on the inside, the plumbing is complete with the exception of several fixtures, and the asphalt tiling is to be installed this week.

The medical center, as was planned, is complete with the most recent and finest facilties available for this level of medical therapy. Dr. Thomas Weaber, who directs and supervises all medical activity and therapy for Muhlenberg college, has expressed his complete satisfaction concerning the adequacy of the facilities. Dr. Weaber has been in charge of the complete furnishing of the center, which included the purchasing of such new equipment as a complete inter-communication system within the building and the

(Continued on Page Six)

## Dr. Brackin Aids In Development Of Psychology

Amazing interest has been shown in psychology at Muhlenberg college in the last three years. In comparison to the eight psychology majors in the fall of 1954, there are now sixty-two. The fall enrollment in the various sections reached a total of 398 in retrospect to the 1954 matriculation of 60 students.



Dr. Walter H. Brackin

Dr. Walter H. Brackin replaced the retiring Dr. C. Hess Haagen in the fall of 1954. At this time, general psychology was a five hour credit course. This included two hours of lecture and three hours of laboratory work, and was a one year course. With the elimination of the laboratory work enrollment grew to 111 students.

**Department Growth**

Growth in the department was demonstrated with the appointing of Dr. Thomas L. Lohr to the psy-

(Continued on Page Six)

## Mayor Donald V. Hock To Speak At Student Christmas Banquet

Tonight at 5:30 p.m. the annual Christmas dinner will be held in the Muhlenberg college commons. Among the list of guests that have been invited is the honorable Donald Hock, Mayor of Allentown. Mayor Hock will address the student body and guests following the dinner.

The dinner will begin following Chaplain Bremer's invocation. Mayor Hock will deliver his address and Dr. J. Conrad Seegers, president of Muhlenberg college, will offer a few remarks. The evening proceedings will be culminated by a selection by 16 members of the College choir.

**Muhlenberg Graduate**

Mayor Hock was born in Catasauqua, Pa., in 1910, and graduated from Catasauqua high school. He saw service in World War II and is the author of the novel "Young Man On a Ledge." He is reputed throughout the East as a public speaker. He was graduated from Muhlenberg college in 1932, and from the University of Pennsylvania Law schol in 1935. He holds positions and memberships in numerous civic organizations throughout the area.

Honored guests for tonight's dinner, in addition to Mayor Hock, Dr. and Mrs. Seegers, and Chaplain and Mrs. Bremer include: Mr. and Mrs. Charles Stecker, Mr. and Mrs. Howard MacGregor, Dr. and Mrs. Henry Richards, Dr. and Mrs. Thomas Weaber, Mr. and Mrs. George Frounfelker, Mr. and Mrs. Harry Benfer, Dr. and Mrs. Claude Dierolf, Mr. John McAuley, Mrs. Helen Bailey, and Miss Heimtraut Dietrich.

The commons committee consists of Paul Horger, Les Stauffer, Edward Meyer, Henry Williams, and Dennis Gurski, chairmen.

The Women's Dorm Council assisted in the preparation of the table settings and decorations.

## Kaufman & Hart Play To Be Next Feature On Cinema Series Bill

"You Can't Take It With You", the George S. Kaufman-Moss Hart Pulitzer Prize winning play of 1937, since made into a movie, will be presented by the College Cinema series Friday evening, January 10, in the Science auditorium at 7 and 9 o'clock showings.

The play, heralded by the critics with superlatives during its 837 performances on Broadway, is a study in the oddity of the individuals of the play, presenting the Kirkys, the orderly and elevated society, in contrast with the Sycamores, an irresponsible and ludicrous brood. The love plot in the play appears to be unwarranted, for the two characters here are seemingly normal and thus do not fit in on this madcap scene.

**Two Main Characters**

The two characters playing prominent roles are Grandpa Vanderhof and Penelope Sycamore. When the play opens, Grandpa is shown luxuriating himself at home and finding diversion in witnessing commencements, hunting snakes, throwing darts and manufacturing fireworks. He has taken on this complacency twenty-five years before the "rising of the curtain," while riding up an elevator and reflecting that work and thus drudgery is ridiculous. The other character has been writing a play entitled, "If a Girl You Loved Entered a Monastery, What Would You Do?", ever since the accidental delivery of a typewriter. She is also a sculptor and has for a model, Mr. De Pinna, an iceman who poses for her as a discus thrower.

**Plot**

A synopsis of the plot reveals that Tony Kirby, wishing to marry his typist, Alice Sycomore, brings his parents to meet the Sycomores at a most inopportune moment, for at the Sycomore residence is a tipsy actress commenting on Penelope's play; in addition, F.B.I. agents appear on the scene and arrest all those present because of suspicion of explosives

Mayor Donald V. Hock

## Candlelight Service To Feature Carols

A Candlelight Christmas service will be held in the College chapel on Thursday evening at 7 p.m. for the entire student body. The scheduled events for the service include an organ prelude by Ludwig Lenel at 6:45 p.m., followed by the college choir, under the direction of Mr. Lenel, who will sing two anthems. The service will also feature a brass quartet, composed of Richard Fisher, Thomas Nottle, Carlton Reed and David Wartluft, who will play "The First Noel," and "God Rest Ye Merry Gentlemen." Dr. Bremer will then present a short Christmas message.

**Candlelight Singing**

A singing of Christmas carols by the congregation, with accompaniment by the organ will follow the message. At the close of the service each member of the congregation will be given a candle, and will join in singing "Silent Night."

This is the first year that a service of this kind has been held during the Christmas season, on the Muhlenberg campus. It is hoped that this will become a tradition, if the service is a success this year.

Ed Meyer is in charge of the arrangements for the service.

## Campus Group Holds Meeting

"A Case History of Multiple Personality" was shown in film at the meeting of the Psychology club on Wednesday, December 18, at 3:15 p.m. in the Student center.

Bi-monthly meetings of the club endeavor to further student interests in the field of psychology. Requirements for membership in the Pschology club are: the student must be an accepted psychology major, or must have completed nine semester hours of study in the Psychology department.

Dr. Thomas Orr, Chief Clinic Psychologist at Albert State, will possibly speak at the first meeting of the spring semester.

# Editorial Views——

## Anaconda Policy . . . ?

**Muhlenberg fraternities are presently facing a crisis. This drastic situation has its embryonic development in the office of the Personnel deans. The main issue: social survival.**

Fraternities at Muhlenberg are being continually shackled by more and more restrictions concerning "proper" houseparty weekend procedures. Aside from the fact that we are now faced with a two o'clock curfew and that chaperones must be registered at least one week prior to the scheduled event, more restrictions have recently been added. **Those measures inaugurated for the Senior ball weekend approach the stage of ridiculousness.** Fraternities are now required, by the latest decree of the Personnel deans, to submit the names of all girls scheduled to attend the weekend activities, names of all girls planning to sleep in the house, and the bed in which each date is to sleep—of course, along with an elaborate floor plan of the living quarters of each house. What next? This past weekend should provide a classic example.

Members of Phi Kappa Tau and Lambda Chi Alpha social fraternities had both scheduled parties to the theme "A Night Before Christmas." Phi Kappa Tau had ordered approximately thirty night shirts at an estimated unit cost of two dollars and ten cents. This garment, it was felt, would serve to further the atmosphere of the selected theme. Lambda Chi Alpha had similar convictions, and to promote their theme requested pajamas be worn to the Saturday evening party. **Our personnel deans, having learned of these arrangements, felt 'this was not to be" since a bad conotation could, by careful investigation, be unearthed. Our Dean of Men thereby called upon the two houses and "strongly suggested" that the attire be changed.**

From this example we might forecast the next possible step in the probable "anaconda policy" of the Personnel deans. Could this next step require the sanction of houseparty themes and favors? This is entirely within the realm of possibility.

**During the early weeks of the semester the Dean of Women frankly and openly admitted to the editor-in-chief that her desire was to see the termination of fraternity houseparty weekends.** This policy would be justified, in her mind, in that possible future fraternity difficulties would be permanent. Are the initial and latest developments a part of this long run policy? Will further restrictions and petty regulations continue to plague our fraternity social scene? And further, will these regulations finally achieve the Dean of Women's idealistic social vacuum, her utopia?

**Measures must be taken to prevent this developing abortion of fraternity social life from being realized.** A united Inter-fraternity council, with a cooperating **WEEKLY** and Student council, must endeavor to preserve the fraternity system at Muhlenberg. With a strong student unity and a sympathetic faculty, this catastrophe can be avoided.

**The issue is at hand. Will joint student and faculty defensive mechanism appear to foster fraternity preservation?**

## Think At Christmas . . .

Once again the Christmas season has arrived and once again we have a period of two weeks away from college. To many people this may be all that Christmas means — two weeks away from college. Such a condition is a critical situation for the individual. Christmas can not be treated as a mere vacation for a person who calls himself a Christian.

Will we go to church Christmas eve with a true cognizance of the significance of Christmas or will we simply treat Christmas eve as a part of this two-week holiday? College students are one of the major groups who should realize the what Christmas really means. It is not a time of year for only celebrating a birthday. It is the celebration of the beginning of Christanity. Christmas celebrates what happened 2,000 years ago in Bethlehem and commemorates that glorious story which is told in the old testament.

Maybe a close look at the words "Peace On Earth, Good Will Toward Men" will make us realize more fully the message of Christmas. This was Christ's purpose on earth; peace and good will toward men. However, does this still exist throughout the community, the city, the state, the country, or the world? Is it just around Christmas that good will spreads? Do we continue Christ's purpose throughout the year? This is something for each of us to examine.

We give presents Christmas morning but do we realize what this "giving" signifies? How many of us realize that this represents God's giving his only son to save us from our sins. Do we give and receive presents without this mind or do we appreciate and think of God's gift when we give and receive?

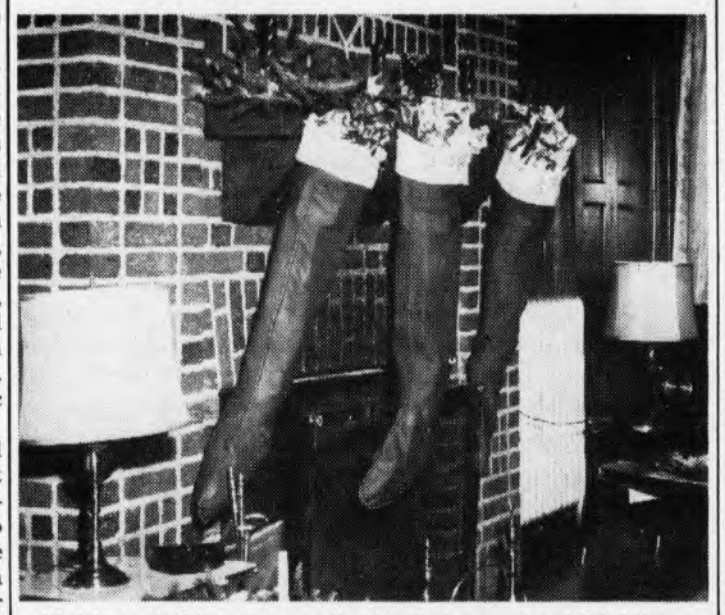
Christmas carols are constantly heard throughout this season but how often do we listen to the words carefully? Do we sing mechanically or do we obtain the true meaning from the words, "Joy to the World," "O Come ALL Ye Faithful," and "Oh Night Divine?" The Christmas message is here for all of us. It only takes a little concentration and thought to hear it. A materialistic Christmas does not serve any purpose for us. To derive the true Christmas spirit from this joyous season we must have Christ's purpose constantly in mind. We may then fully appreciate the "giving" and the joyous strains of the familiar carols when we commemorate the birthday of Christianity.

## Where Credit Is Due . . .

Many times a rather small group of people do not receive the amount of thanks they deserve. This is characteristic of the group of people who were responsible for the success of the senior ball last Friday. The time and effort put into the decoration, arrangements, and organization of the affair should not be overlooked.

To those who were responsible for the success of Muhlenberg's first formal coeducational affair: **a hearty word of appreciation.**

# Deck The Hall With Boughs of Holly



**Christmas stockings, representing the first, second and third floors of West hall, dangle before the fireplace in the reception room of the girls' dormitory. All students had the opportunity to see these decorations during open house on Tuesday night.**

**by Linda Patnoi**

"Deck the halls with boughs of holly" . . . angel-hair, tinsel, and even lollipops. Then pine trees . . . mistletoe, flannel stockings, and advent wreath.

These have been the activities of the Muhlenberg coeds in preparation for the Christmas season. The result—a breath-takingly beautiful lobby and a gaily collorful dormitory.

Under the leadership of Sue Schell, the lounge of West hall has attractively donned its holiday finery. In the corner of the room stands a twelve-foot Christmas tree with blinking lights, red and silver balls, and gaily-wrapped packages beneath. Nearby lies the advent wreath, while a huge circle of mistletoe temptingly hangs from above. To complete the Yuletide motif, five bright red stockings dangle from the fireplace representing each floor, Miss Dietrich, and Mrs. Brown.

**Best Door Decorations**

Originality was the goal as the coeds enthusiastically competed for the best door exhibitions. Judging the contest were Mrs. Helen Bailey, director of publicity; Shirley Seidel, secretary of the dean of women; and Ethel Lentz, secretary in the Alumni office.

A comical sight in West hall is a tissue-made Santa Claus crawling through his chimney upside-down. The caption—"Never Say Never."

**A Christmas Surprise**

Like the side of a huge present, another door is covered with silver aluminum paper and crossed with bright red ribbons. "The two surprises inside for Ken and "Ron" reads a note on this pandora's box.

Another unusual display is a modern interpretation of the meaning of the Christmas holiday by two of the more imaginative coeds. Forming an arch around the top of their doorway are snow-laden branches against a golden background. Ahead, pastel-colored stars on a rectangular box and a sign saying "Merry Christmas" in artificial snow make this abstract scene complete.

"Deck the halls with boughs of holly" the Muhlenberg coeds did. And even Santa Claus himself will notice the transformation of West hall into a Yuletime wonderland.

### Vacation Precautions

**All dormitory students and fraternity men are urged to lock all doors and windows at all times—especially during the Christmas vacation.**

# THE CAMPUS Whirlpool

**by Dick Kennedy**

Something such as this which follows is nothing new to the Muhlenberg community and it could be expected of any similar administrative office. It has been suggested that this scrap of information be printed in this column so that we students may understand fully what is meet and proper in certain jurisdictions. Here is the anecdote:

The female personnel dean of Purdue has thought it plausible to make suggestions regarding her girls' closing minutes of a date. **The idea is to abstain from osculation, particularly from emotional osculation when bidding good night to dates.** The female dean of Purdue has also gone quite as far as to **advise handshaking as a farewell.** thus reducing the possibility of emotion. This seems likely. I, personally, have never experienced any emotion while shaking hands good night, and I doubt that this practice could quite lead to anything serious. **It is evidently a dangerous thing to attempt to fall in love.**

Can you picture a scene in front of the Purdue girls' dormitory?

"Good night, Marsha. I love you madly. May I shake your hand? It will mean more to me than anything else in the world."

"Now, John. You know the consequences of these shows of emotion. I've asked you before to stop trying to seduce me. I just believe that shaking hands is going a little bit too far. After all, I **do** have a certain amount of **pride in womanhood,** and I wouldn't forfeit that pride to allow myself this display of affections. What would people think?"

"Marsha, don't refuse me. Give me your hand!"

**"John! This is not to be!"**

Now, it is quite within the realm of this dean's jurisdiction to dictate policies such as these. After all, **college girls and boys have not yet had the opportunity to judge for themselves whether they have really fallen in love and whether their date is the perfect match for them.** Therefore, since college students lack this judgment, it is only reasonable that **someone older, someone experienced, someone who really knows what love is, someone with authority, someone who may dictate, someone with an objective and cool mind, someone who knows the ways of the world should assign mates and plan the course of action in the courting of said mates.**

It is also the obligation of this administrator to step into any affair which he/she deems inappropriate and unmatched. She/he may use any method of advice which he/she considers helpful in achieving a perfect end and a perfect combination of two people. **It is completely beyond reason that juvenile individuals themselves should have the proper conception of how and when to fall in love.**

In lieu of this, the girls and boys of Purdue may feel a certain amount of satisfaction in not having to take on the responsibility of choosing their spouses. This will relieve them of much worry and give them more time for study. **The ideal procedure for Purdue students would be to submit their names and personality characteristics to the dean of women and allow her to match these with a member of the opposite sex.** What a wonderful innovation it would make! And think of the time and tension saved! But pardon me. I have to rush to take my placement tests.

# Christmas Spirit Comes To Berg With Traditional Tree Lighting

**Dennis Gurski (representing Student council) and Chaplain Bremer preside at the official lighting ceremony at the tree on 23rd and Chew streets.**

At dusk on Monday evening, Muhlenberg's campus Christmas tree was officially lit in a ceremony following the Berg-Cedar Crest carol service.

The tree, decorated with soft blue lights and topped with a white star of Bethlehem, is a traditional part of Christmas at Muhlenberg. The tree is located on the south side of the chapel along Chew street.

Dennis Gurski, vice-president of Student council, took charge of the ceremony in place of Luis Torres, Student council president. The crowd which had gathered around the tree provided a background for the ceremony as they sang "Silent Night". Dennis Gurski then gave the signal for the tree to be lit. As the blue lights began to shine in the twilight, Gurski officially ushered in Christmas at Berg with these words:

"On behalf of Muhlenberg College—its students, its faculty and its Student council—we officially give light to this tree. May the lighting of this tree also signifiy the lighting of the Christmas spirit within us."

The lighting of the campus Christmas tree is an annual event at Berg, and is a function of Student council on behalf of the Student body and administration. It's glowing lights serve as a quiet reminder to all who pass by, that the season of Christmas is with us again.

# Fashions Need Diplomas

## Trend Setting Styles

**EVIDENCE of the trend setting "dressiness" of college men today are the two Ivy styled Worsted-Tex outfits above. At left, the new ensemble suit with the look of sportswear in the fine tailoring and matched fabric cf clothing. The three button blue unfinished worsted suit, right, is the backbone of any college wardrobe, replacing the charcoal shades of yesterseason.**

The college man has reclaimed his national leadership in sartorial matters, according to a recent survey that shows his influence is felt far from the Ivy covered walls and reaches into the business world of men's fashions.

In the past decade, he has climbed of the blue jean fashion limbo in which the war and post war period plunged him. He has climbed so far back, say the experts, that today he sets a fashion example for millions of men whose nearest association with higher education is their interest in the weekly football pool.

**Fashions Need Diplomas**

Proof positive of his resurgence as a national factor in masculine dress came from a recent study conducted by The House of Worsted-tex one of the country's largest men's clothing manufacturers, and involving more than 1,000 retailers, manufacturers and fashion editors.

Concensus of the pulse testing experts was that the tastes and ideas of the colege man comprise the biggest single fashion forces in the market today. In fact, a man's fashion now needs a college diploma to succeed, they said.

**College Support**

Everyone knows how far the college man slipped on the sartorial scale and why. No one can exactly trace the reasons for him taking the road back. But by his appearance today he shows his individually in what he wears as well as in what he thinks. He sets an example for many American men.

Michael Daroff, president of the firm making Worsted-tex clothing for men and which conducted the survey, found four big leadership items were credited to the college man's initial support. They are the Ivy League type of clothing and furnishings, leather goods, knitwear, and the newcomers to the hit parade—racoon and camel hair.

**Dramatic Proofs**

The Ivy League clothing is one of the most dramtaic proofs of what a college stamp of approval can do for a fashion idea today, cording to Daroff. Originally as Eastern mode of college dress, that clothing style has become a mark of sartorial distinction for millions of men who have never graced any Ivy halls. Daroff's firm, which pioneered the Ivy League style of clothing in the popular price field, now devote almost 15 per cent of its entire production to this hitherto "exclusively university" style item.

The straight sack coat, unpadded shoulders and unpleated, tapered trousers have become a young man's uniform of good taste, Daroff pointed out. The line that divides the East and the West and the college man and the non-college man has been wiped out in this big, across-the-board acceptance of this clothing style, he said.

**Leather Gets Push**

The survey also showed that leather, either as a trim or sportswear, or used by itself in coats and jackets, received its first big "push" from college men and is now a national style trend.

When the "big men on the cam-

# Letters To The Editor

### *Frosh Rebel*

To the Editor:

In the editorial of the last issue of the **WEEKLY**, it was asked whether the cancellation of the traditional Muhlenberg-Cedar Crest freshman dance was "directly traceable" to the Administration. We of the freshman class would like to present this question again with some of our main views included.

According to a substantial rumor, the Administration had little to say in the matter of calling off the dance. The decision seems to be directly due to the action of the Dean of Women. We would like to know whether this is true, and if so, on what grounds and what authority the action was taken. Does Dean Dietrich feel, even with an eight to one ratio existing, that her coeds will be slighted if the male freshmen of Muhlenberg would attend this traditional dance?

Does the Dean of Women realize that the coeds, as well as the men, are being deprived of the enjoyable social life which might be existing if it were not for the resentments built up as a result of certain actions, such as the pampering of the coeds by Miss Dietrich? Since this dance has been traditionally scheduled for Freshman week, we would like to know why the situation has been shrouded.

These questions are being asked in order to either ratify or disprove certain rumors and to expose the truth, not with the idea of incrimination in mind.

(signed) 24 Indignant Freshmen

### *More Frosh Rebel*

To the Editor:

Having read the editorial in the **WEEKLY** (Dec. 12) concerning the cancellation of the dance between Cedar Crest college and Muhlenberg freshman, it is the consensus of opinion among the freshman boys that they would like to express their feelings toward the matter.

It is apparent that the members of the class of 1961 are in a sense "guinea pigs," as this is the first year of coeducation. It has been a most heavy burden on the boys.

Some of the freshman girls are curious as to why freshman boys seem to avoid them. We will enlighten them. The ratio of girls to boys is quite staggering;

(1) There are obviously not enough girls to go around.

(2) There is an insufficient number of organized campus funtions of the type that many girls are accustomed to attending. For example, it has ben noted that the attendance at the periodic showing of films on campus is almost entirely boys.

From the beginning, the boys have ben denied a convenient opportunity to make social contacts off campus. Aside from the cancellation of the Cedar Crest-Muhlenberg freshman dance they have been unable to become familiar with the surrounding area and its inhabitants, primarily due to the lack of adequate transportation.

Furthermore it is apparent that many of the girls regard the freshman boys inferior to upperclassmen, only as far as dating goes, of course. This is because the freshman boys are not able to entertain them in the ways that upper classmen are able to. The prime example of this is the effect fraternity parties have on the girls. Why should they walk to the Nineteenth Street theatre when they can go to a fraternity party?

The awkward position of the male freshman, we feel, may be directly attributed to the actions of the administration. This may be especially noted in the case of the cancellation of the Cedar Crest-Muhlenberg freshman dance.

(signed) 37 Indignant Freshmen

# How To Sling It

In the best interests of those whose grades aren't quite up to par, here's a definition of illutration of a time-tested college custom which is guaranteed to help.

FROSH: "What do you mean by slinging the bull?"

SOPH: "To sling the bull is to prevent the professor from realizing that you are saying nothing in a great many words."

JUNIOR: To sling the bull is to say little in a great many words so as to give the impression that you are familiar with what the testing is covering."

SENIOR: "To sling the bull is to say as much as possible in well-chosen words so as to convey the impression that you are familiar with the material under examination in spite of the fact that you have been able to devote insufficient effort to study adequately an unduly difficult assignment."

# Dean Releases Exam Rules

Final examinations will be held from January 17 through January 25. As many as possible will be held in Memorial Hall. Read the regulations governing final examinations. (See Academic Regulations, pp 13-15).

**Do's and Don'ts:**

1. Put your books etc. up front, or in the permanent seats Memorial hall.
2. Be on time. You can be denied the right to take the examination if you arrive late.
3. Don't talk to your neighbor or place yourself under suspicion. Stick to your business. When you are finished,, leave promptly and quietly. Do not stay to visit with the proctor. He has a duty to perform. Your visit will distract him from that duty.
4. Do not enter an examination room unless you are taking the examination being given there. If you must see one of the proctors, wait until he leaves the examination room after the examination. Do not stand around in the doorway to the examination room.
5. If you are taking an honor system examination, be sure to:
   (a) Write and sign the pledge at the end of your paper.
   (b) Report promptly to either the Dean of the Faculty or to a member of the Honor Court any suspicions of violation of the honor pledge.
6. Cheating is knowingly giving or receiving aid during an examination, etc.
7. Guard your honor. Cheating can mean suspension or expulsion. It's not worth the risk. Be proud to be a subscriber to the Muhlenberg Honor Code. It's the way to a greater Muhlenberg through student government.
8. No smoking in the examination room.
9. Get a good night's rest before the exam. Cramming is a waste of time. You cannot expect to do your best if you are tired.
10. Leave your nerves and fears in your dormitory room. All you need at the examination is a clear head and writing materials.

# SPORTSCOPE

by Bob Nuss

Muhlenberg's basketball team has now won 5 consecutive ball games and has shown that it has the possibilities of a good year. Several men have provided the spark for the Mules, and **Coach J. Birney Crum** seems to have an adequate bench. In the game against Delaware, **Joe Berghold** came off the bench early in the second quarter and proceeded to play an outstanding ball game as he scored 16 points and made several defensive gems. Although only 6' 1", **Berghold** rebounded remarkably for his size. Several times he stole the ball and on one occasion, took the tap on a jump ball from a man who had a 4-inch height advantage over him.

Intramural basketball is progressing very nicely now in its second week of operation. **The athletic department should be congratulated for organizing the program before the Christmas holidays.** This will allow more needed time during the spring intramural program.

Muhlenberg opens its fencing season on January 18 with a contest against Temple in Memorial hall. Although fencing is a minor sport, and a relatively new one here at Berg, there is no reason why it should not receive student support. If one understands a few of the major points of the game, it can prove to be quite interesting from the spectators view. So let's see if we can support our fencing team in its first effort.

As Christmas rapidly approaches, the **WEEKLY** sports staff wishes to extend yuletide greetings to the many people who have made our jobs more pleasant. To **Ray Whispell**, head football coach for allowing us to interview his players during practice and giving us much information about the team and their performances . . . To **Joe McCarron** and **Dave DeLong** of the Allentown newspapers who so graciously allowed us to use material printed by the Morning Call and Evening Chronicle . . . To the editors of **Sport magazine** who every month send us several pre-releases. . . . To all the members of the **sports staff** who are handing in their assignments (though they are usually late) and keeping me from going completely mad with this job . . . To **Ken Webb**, Muhlenberg sports publicist who gives us information for stories, who allows us to use his sports files, and who writes sports releases which are frequently used by this editor . . . To **Owen Faut** and his man **George** who keep us provided with pictures of a high calibre obtained at an even higher cost . . . To **Ron Moxey** and **Karl Becker** who each Tuesday evening "sweat" these two pages as to whether or not they will be filled . . . to all the **Muhlenberg coaches** who assist us whenever possible and give us the facts we need . . . To **"Skip" Livingood**, associate sports editor who each week does his job faithfully and makes my task that much lighter . . . To all the **Muhlenberg athletes** who go out on the gridiron or court or diamond and supply us with moments of glory that make the sports page of the newspaper possible . . . To the **Muhlenenberg basketball team** with the hope that they win many games and give us unlimited opportunity to exhort their glories . . . To all of these people listed above, and the many who were not listed, the best of Christmas greetings and hopes for a prosperous New Year.

by Jack Coughlin

Fred Klink and Dick Holben collected 12 points each in the Rinky Dinks 38-32 victory over the Bell Boys. Klink dropped in five buckets and hit for two more on the free throw line. Holben picked up four two-pointers and four on the foul line. Serges Salivanchik was high for the game with 20 points. The Tri-Staters defeated G hall by the same score of 38-32. Ken Hendricks led the attack for the Tri-Staters by droping in 12 points.

**Vets Win**

The Vets proved that the "Old Men" are a power to be reckoned with after they swamped Phi Kappa Tau "B", 43-17. Don Wendling led the Vets scoring with 16 and Harry Beidleman dropped in 9. Ron Dungan took PKT scoring honors with four baskets. Lambda Chi Alpha defeated Alpha Mu Iota, 37-19. Jack Young dropped in 12 for LXA to lead the scoring parade. Andy Brusko came through with ten for AMI.

Phi Epsilon Pi "B" was defeated 43-18 by the Rinky Dinks. Dick Holben and Bill Fackler were high for the Rinky Dinks with nine and seven respectively. Ken Semmel dropped in seven for the losers.

**Tri-Staters Triumph**

The Tri-Staters came through with another victory at the expense of the Mules. The Tri-Staters took the game easily by a score of 48-28. Scoring honors were shared by Yost, Higgins and Hendricks. In another game the Mules stepped into the victory column by their 32-26 win over Phi Epsilon Pi. Wolf was high scorer in the game with his 10 points for the Mules.

Sigma Phi Epsilon played a close game with the Schmekels that ended up with Sig Ep on top by one point. In the 34-33 victory Frank Vari provided the scoring punch for Sigma Phi Epsilon with 14 points. Tony Caporale collected 12 counters for the Schmekels. Phi Epsilon Pi took an easy victory over the Roonies, 41-24. Gil Sopher and Eddie Smith provided power for Phi Ep as they dropped in 12 and 7 respectively.

**Commuters Romp**

The Commuters really poured it on the Canucks when they walked away with an easy victory, 54-28. Wilson and Johnson were high for the Commuters. Wilson hit for 16 and Johnson dropped in 14. In the losing cause of the Canucks, Smith connected for 12. In another of the close games Phi Kappa Tau "A" took measure of Alpha Tau Omega "A" by a score of 37-34. John Holcroft led the winners with 16 points and Jack Gleckner collected seven buckets and one point from the charity line. High man for ATO was Bob Nuss with 13 points. Mike Kurtz and Dave Krewson contributed six each. The Bell Boys came through with a 45-32 victory over the outfit from G hall. Frank Csaszar was the big gun for the Bell Boys with his 14 points and Bill Penketman added 10 more.

# Muhlenberg Scores Thumping 83-61 Victory Over Lehigh For Fifth Straight

by Ben Livingood

Muhlenberg welcomed Lehigh university back to its basketball schedule Tuesday night after a three-year absence with a thumping 83-61 defeat. The game marked the fifth consecutive win for the Mules, while for the Engineers, it was their second setback in three starts after an opening victory over winless Delaware. A Memorial hall crowd of approximately 3200, the largest of the young season, looked on.

Dick Sekunda and Clint Jeffries were the scoring standouts for the Bergmen with 24 and 23 points respectively. Jeffries played practically the entire game despite the fact he was nursing a Charley horse in his right thigh which he suffered in the Delaware game last Saturday night. The injury seemed to bother him little, however, as his spectacular driving, twisting lay-ups and dazzling playmaking sparked his teammates throughout. Sekunda was a constant thorn in the side of Lehigh, particularly in the second half when he scored 17 points on seven field goals and three out of four free throws. Mel Kessler bolstered the attack with a 14-point total.

**Lehigh Scoring**

Lehigh also had three men in double figures. Bob Roepke paced the Brown and White with 15 markers, while Denny Brenan and Bob Rogan added 14 and 11 respectively. Tom Healy and Arni Balgavis scored nine each.

The Mules' fifth straight triumph came in much the same way as the four which preceded it. It was a strong second half surge that spelled the difference. A very loose, almost sloppy first half ended with the hosts out in front, 34-29. The Bergmen had led most of the way, with the exception of a brief time near the close of the half, when the visitors took the lead, 25-24, on a free throw by Terry Eckert, and stretched it to 27-24 on a jump shot by Rogan. The Mules, however, recovered quickly and regained the lead, 28-27, as Jeffries threw in a jump shot and two foul shots. Lehigh moved ahead again at 29-28 on Healy's jump, but a jump shot by Jeffries, a tap-in by Keesler, and two successful free throw attempts by Sekunda gave the Bergmen their five-point advantage at the intermission. Jeffries was the high man in the opening 20 minutes with ten points.

**Mules Steal Show**

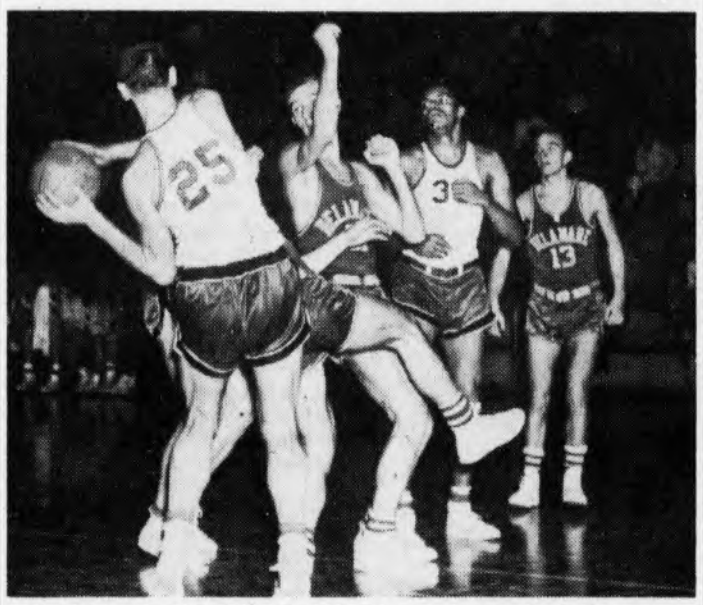
The second half show was all Muhlenberg. Sekunda and Jeffries riped the Lehigh zone defense to shreds with driving lay-ups and snappy jump shots from underneath. The Mules completely dominated the backboards on both offense and defense as they limited the Engineers to only nine rebounds.

Muhlenberg broke away for a ten-point lead with a little more than 14 minutes remaining, 45-35. From that point on, the Bethlehem collegians never managed to get back into the ball game, as their hosts continued, little by little, to increase the leading margin.

Lehigh managed to stay on almost even terms with the victors in the field goal department. The Engineers were successful on 24 out of 61 shots from the floor. Muhlenberg hit the mark 27 times in 66 attempts. The real difference, however, was on the foul line, where the Mules dropped in 29 of 40 shots as compared to Lehigh's 13 of 17. The fast working Muhlenberg offense seemed to prove too much for the Engineers' defensive zone to handle. Time and again coach Tony Packer's proteges found themselves guilty of fouling as they attempted to

(Continued on Page Six)

## Muhlenberg Defeats Delaware For Fourth Consecutive Victory



**Muhlenberg's Dick Sekunda (25) attempts to pass the ball around an unbalanced Delaware player, as Clint Jeffries looks on apprehensively.**

Before a houseparty crowd of approximately 2,000 spectators, the Muhlenberg Mules won their fourth consecutive game of the 1957-58 season by defeating the Delaware Blue Hens, 93-74, in Memorial hall. It was the fourth straight loss for the winless Blue Hens.

Delaware's zone defense kept the game close during the entire first half, and the Mules were able to hold only a one point lead at halftime. The Blue Hens hit on 14 of 30 shots in the first half and held on whenever the Mules threatened to pull away. At several points, Delaware had as much as a six point lead. The second half was a different story, however, as the Mules opened up with a terrific scoring spree. Delaware was not hitting as accurately from the floor and could connect only on 15 out of 38 shots for an evening's total of 29 out of 68 attempts. Muhlenberg on the other hand finished up with 40 out of 78 attempts.

**High Scorers**

Mel Kessler, Clint Jeffries, and Dick Sekunda scored 23, 21, and 20 points respectively to lead the Mules in the scoring category. Kessler made most of his shots on follow-up tap-ins and Jeffries made his usual number on spectacular driving twisting shots. Joe Berghold, who entered the game for starter Steve Matell also played a beautiful game as he scored 16 points and made several sparkling defensive plays. These four men colected 80 out of Berg's 93 points.

Bob Schiliro, and Charlie Cluff led Delaware in scoring with 20 and 18 points. Cluff made several of his points with long jump shots while Schiliro scored continuously throughout the game.

**Second Half Spree**

Muhlenberg came out for the second half nursing a one point lead, 39-38. Quick baskets by Sekunda and Berghold pushed it to 43-39 and after five minutes of play, the Mules had increased their lead to 10 points. Coach Crum removed his entire starting team during the waning minutes of the game and the sustitutes finished with the point spread the same as when they entered.

In the preliminary game, the baby Mules won their third game of the season as they defeated the Delaware frosh by a score of 84-72. The Mules were never headed after the opening minutes of the game and had as much as a twenty point lead at one time. George Gilfillan and Al Filardi led the Mules with 19 and 18 points respectively. John Harry of the Blue Hens, however, led all scorers with 34 points on eight baskets and 18 foul shots.

Dick Schmidt's freshmen teams now have won 50 games while losing 10 over a four year period.

# Temple Provides Opposition For Mules In Palestra Contest

Muhlenberg will face its toughest opponent to date on Saturday evening when they meet Temple university in a doubleheader at the Penn Palestra. Despite two surprising early setbacks, the Owls are still considered the class of the East.

Coach Harry Litwack, one of the very best collegiate mentors, has his entire team back from last year which posted a fine record of 20 victories and 9 defeats, and placed third in the NIT. Heading the list of returning lettermen are seniors Guy Rodgers, Jay Norman, and Mel Brodsky who are all veterans of two years of varsity and tournament competition. In addition, the Owls will again have the services of Tink Van Patton, their 6' 8" center who broke his arm a year ago and missed the entire 1957 campaign.

**Team Playmaker**

Rodgers, a 180-lb. guard who scored 591 points in 29 games for a 20.4 average last year and 573 points as a sophomore, is the main reason for the Owls' prominence. He is one of the fastest college players in the country and a superb jump-shooter and playmaker.

As a back-court man and team general, he is in a class by himself. Like the Boston Celtics star Bob Cousy to whom he has been compared, Rodgers posseses an abnormally wide field of vision. He has that all important skill of getting the ball to the right man at the right moment. His quick reflexes and passing speed require constant attention by his teammates. To quote the Celts' Red Auerback: "He's at the pro level right now . . .", and has already established himself as the greatest basketball player in Temple history.

**Veterans**

Norman, a 6' 3" forward from Philadelphia, is a tremendous rebounder and team player. Last year he grabbed 372 rebounds and scored 430 points in 29 games for a 14.8 average. Brodsky, a 6' 2" forward, possesses a fine outside set and jump shot which netted him 379 points, good for a 13.1 average.

Van Patton, a senior from West Chester, did not face the Mules last season, but threw in 16 points as a sophomore. He also is a definite offensive threat and is certain to aid Norman under the boards.

**Sophomore Starter**

Temple's fifth starter will be Bill "Pickles" Kennedy, a tricky backcourt man who averaged no less than 26 points per game as a freshman last year. He is expected to team up with Rodgers to form another feared fast break attack which Temple has been without since the departure of All-American Hal Lear.

There is plenty of reserve strength in Dan Flemming, a 6' 6" starter on last year's five, Ophie Franklin, a 6' 5" letterman who filled in nicely for Van Patton in the Berg encounter, and 6' 5" Walt Bird. Others include 6' 7" Pete Goss, 5' 7" Joe Goldenberg, 6' Barry Goldstein, and 6' 2" sophomore Cliff Crispin.

**Early Losses**

Thus it appears that the Owls have the potential to produce one of the best teams in their history. Although they have already dropped a thriller to Kentucky in triple overtime and have been

## Muhlenberg Gridders Honored For Ability

Muhlenberg's football team last week was given five good reasons to be proud of its accomplishments during the past season.

The reasons by name were: Don Novak, Bob Hieter, Herb Owens, Bob Pearsons, and Ken Hendricks. Each was honored in one way or another last week when the All-ECAC (Eastern College Athletic Conference and All-Pennsylvania Collegiate teams were announced.

**They'll All Be Back**

The most interesting fact concerning these honors is that all of the five men are underclassmen and will return as lettermen on next year's squad. Hieter and Novak are juniors, while Owens, Pearsons, and Hendricks are sophomores.

Novak, a junior from Philadelphia, was named first string guard on the ECAC citations listing. He had been noticed by the conference during the season for his outstanding performance in Muhlenberg's 40-16 rout of Temple university.

**Honorable Mentions**

Hendricks was awarded honorable mention on the ECAC all-star selections, as a result of an earlier recognition for his work against Lafayette in the season's opener.

The remaining three men; Hieter, Owens, and Pearsons were mentioned on both ECAC and state announcements. Each was given honorable mention on both teams. Owens was recognized several times on the weekly ECAC all-star teams, while Hieter and Pearsons had one such appearance.

## Wrestlers Open Year Against Swarthmore

On Tuesday, January 7, the Muhlenberg wrestlers will travel to Swarthmore, Pennsylvania where they will engage Swarthmore college. The meet will be Muhlenberg's first of the year and Swarthmore's second, having recently encountered Moravian.

Swarthmore will boast a squad of five returning lettermen. Leading these men against Berg will be the only two winners in last year's contest held at night in Memorial hall before 500 fans. Paul Billy, Don Simpson, and Frank Gutierrez each counted with pins, while Jerry Rehrig, Jim Waller and Dick King won by decisions to win, 26-8. The men who were the only winners for Swarthmore last year are Ken Mehan and Dave Tiller, winners in the 123-lb. class and the 130-lb. class respectively. They each have moved up to heavier weights at 130 and 137. The three other men who competed against Berg last year have also moved into heavier weight classes. Wally Clauser moved from the 147 lb. class to 157; Tom Stevenson from 167 to 177 and Pete Durkson from 177 to the heavyweight class.

Other members of the squad will be John Hawley wrestling at 123, Geordie Jaunson at 147 and Gil Harmon at 167.

In a recent contest with Moravian college, Swarthmore triumphed over a newly formed Moravian squad, 20-12. Hawley, Mehan, Teller, and Stevenson each pinned their men but Swarthmore men Jaunson, Clauser, Harmon and Durkson each lost decisions.

## *In the Sportlight . . .*

## Matell, Simpson Spark Respective Squads

**STEVE MATELL**

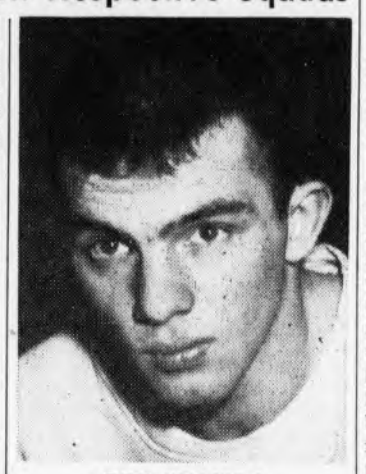
Although only five feet ten inches tall, Steve Matell has won himself a starting berth on this year's varsity basketball team, a team of giants. His sharp shooting, excellent ball handling, and all around hustle and team spirit has made one of coach Birney Crum's top five players.

Two years ago as a Freshman Steve averaged better than twenty points a game, reaching his pinnacle against the Seton Hall frosh against whom he scored forty points. Last year as a Sophomore, on a team loaded with talent, Matell played in eighteen games, scoring forty-eight points for a 2.7 average.

**New York Native**

Steve hails from Brooklyn, New York. He played his high school basketball there at the James Madison high school. His high school team mates included Muhlenberg's Mel Kessler, Joel Sarner, and Charley Hoffman.

Steve works hard at his studies in his course as a business major but still finds time besides playing basketball to be an active member of the M-club.



**DON SIMPSON**

This year's wrestling team will be keystoned by Don Simpson, a senior, in the 147-pound class. Don learned his wrestling at Allentown high school and has been one of the most consistent performers for the Muhlenberg varsity. This is his third campaign of varsity competition.

Don, who has been a family man for five years, the father of two children, is kept pretty busy. However he still finds time for other interests. His hobbies include guns, sailing, and Indian lore. He is also a brother of the Sigma Phi Epsilon fraternity.

**147-lb. Champion**

Individually Don has never had a losing season in wrestling. Last year he reached his peak when he was crowned Middle Atlantic Champ in the 147-pound class.

With the loss of Paul Billy and Frank Gutierrez Coach Frankett is looking to Don and men like him to come through and give Muhlenberg another fine wrestling season.

## Head Basketball Coach J. Birney Crum Sports Impressive Three Year Record

J. Birney Crum, now in his fourth year as head basketball mentor at Muhlenberg has directed his teams to a three year total of 46 wins and 30 losses. Birney came to Muhlenberg at the start of the 1954-55 season.

Birney was born in St. Louis, Missouri in 1899. He graduated from Palmyra high school, Palmyra, Illinois, in 1917, and from Muhlenberg college in 1923 with the degree of Ph.B. He received the degree of M.Ed. from Penn State college in 1939.

A former head football and basketball coach of Allentown high school, Birney has earned for himself an enviable reputation as a coach since his graduation from college. He had the distinction of winning several championships for Allentown high school and of having developed many notable college stars during the years 1925 to 1949 when he was in charge of all athletics at Allentown high. Among the honors that he has received is his selection by the Allentown Rotary club as Allentown's most representative ciitzen for the year of 1945.

**Company Executive**

In his spare time, Mr. Crum is an executive of the Wetherhold and Metzger company in Allentown which deals with the retail selling of shoes and footwear. He is a member of the A.T.O. fraternity, various Masonic orders, and

# Post Season Contests Offer Bullets, Bisons

In the first two games following the Christmas recess, the Mule cagers will engage Gettysburg in Memorial hall and then encounter LaSalle in Philadelphia. Gettysburg should improve on last year's 7-18 record, compiled by a sophomore dominated lineup.

The Bullets will be captained by Frank Walsack, from Newark, N.J. Walsack led the team in scoring along with big Tim Cousins with a 12.7 average. Cousins, 6' 8", also led the team in rebounds with 314. Dick Warfel, a 6' 6" junior from Lancaster should also provide a big scoring punch as he averaged 9.2 points per game last year. Frank Capitani, football star, has shown a lot thus far this season and is another threat. Other seniors on the team include Stan Traymore and Marty Miller. Coach Bob Hulton is also counting on juniors Frank Grzelecki ,Walt Melnik, and sophomores Barry Gwinn and Jerry Long.

**Heavy Road Schedule**

The Bullets will be hampered by the fact that nine of the first twelve games will be away from home. Coach Hulton feels that "the shooting is adequate at the present time, and we have average speed and height." This is Hulton's first year at the helm, having taken over for Bob Davies, who resigned at the end of last season to accept a business position. Hulton coached at York Junior college for ten years where he compiled a record of 193 wins against only three losses.

**LaSalle Strong**

On January 7, Muhlenberg travels to Philadelphia to tackle LaSalle college on the Lincoln high school court. The Explorers have formed a nucleus around seven returning lettermen and have a good crop of sophomores.

LaSalle will be led by captain Charlie Eltringham, a good rebounder and the team sparkplug. Bill Katheder, a 6' 6" senior, played brilliant ball last winter after returning from the army, and is being counted on heavily. The playmaker on last year's squad, Tom (Gabby) Garberina, was the second highest scorer with a 14.6 average. Garberina was selected to the All-City team last year because of his outstanding play. The tallest man on the squad is 6' 7" Ed Givnish, a senior from Lincoln high school. Ed missed the last fourteen games of the season because of a dislocated elbow. The only sophomore in the starting lineup is Ralph Bantivoglio, the smallest man on the team at 5' 10". He is an excellent ball handler and is very fast. He will act as playmaker, thereby enabling Garberina to shoot more often.

**Returning Lettermen**

Other returning letterman includue Al Ferner, Bill McGonigal, and Bill Lavery. All these men saw considerable action last year with Ferner merging into the starting lineup by the season's end. Sophomores Bob Alden and Hugh Brally will also be used frequently. The former is a 6' 6" all-stater from Hatboro, Pa.

The Mules split with LaSalle last year, trouncing them 93-68, and losing 99-82, as the Explorers went on a spree winning their last seven games and ending the season with a 17-9 record. LaSalle leads in the overall series having won 15 and lost 6. LaSalle will play in the Richmond Tournament over the holidays before meeting the Mules.

In their first four outings, the Explorers compiled a 3-1 record. They conquered Albright, Lafayette, and Manhattan, after dropping their season's opener to Millersville State Teachers college.

**LIBRARY NOTICE**

**All books on the reserve shelves of the library may be taken out for the Christmas recess at 12:0 0noon on Friday, and must be returned on Monday, Jan. 6, by 9:00 a.m.**

# Medical Center

(Continued from Page One)

necessities of a full-scale physiotherapy phase.

**Not An Infirmary**

The center will not be an infirmary; that is, there will be no overnight cases handled in the building itself. The schedule of treatment and hours will remain the same, with the addition to the personnel of one new nurse, who will be on duty full-time.

The building itself is very compact but at the same time will be very inclusive. There are completely separate facilities for men and women, with the exception of a hydrotherapy room, which will be used in common by the men and women but not during the same hours. A duplication of this room, which includes a Sitz bath, a whirlpool, and foot baths, would amount to an unnecessary and tremendous expense.

Included in the women's section of the building will be a treatment room, recovery room, and rest room. The treatment room is divided into three cubicles, one of which contains the latest equipment for physiotherapy. The examining rom contains completely new furnishings.

**Nurses Station**

A nurses' station adjoins the waiting rom, which this week will be furnished with asphalt tile flooring, as will the remainder of the building. The doctor's office is practically identical to that in use now in East Hall. A separate and up-to-date drug room, as well as a records room, will greatly faciiltate and ease the burden of the medical staff.

The men's facilities in their section are quite similar to those of the women. These include a recovery room and solarium, in which the ultra-violet therapy will be applied. There is a door leading from the football field into the men's section of the building, to be used in the case of emergency.

# National Fraternity

(Continued from Page One)

The present officers of Alpha Mu Iota are: Donald Snyder, president; Richard Lichtenthal, vice-president; Charles Adami Jr., Secretary; R. Mackenzie Clayton Jr., treasurer; Carl R. Adams, house manager; Joel Pitman, instructor; and Jay Salustro, sergeant of arms.

# The Chowline

To the Snack bar fans and loyal followers, may the personnel extend to you the Season's Greeting. May your coming year at Muhlenberg be a successful one and may all your paths lead to happiness.

Of course the greatest amount of happiness that could possibly be attained by any individual is to discuss current campus politics over a steaming hot cup of Snack bar coffee. Latest scuttlebut seems to imply a further rift beween the fraternities and the Personnel deans. (If we are not mistaken one of the Personnel deans—I think the Dean of Men—can be seen having coffee every hour on the hour in the Snack bar. Makes him think clearly, so it appears.) People just can't imagine the logic behind these new regulations. Makes a person think the administration hasn't any faith in student acceptance of responsibility at all.

Well, anyway, the Snack bar welcomes all people concerned with campus politics and administration rulings. As you all know, the Student council and **WEEKLY** offices are upstairs on the second floor, so it is easy for us to relay all gripes to the proper people, or direct you to the same. But before doing anything rash, stop! sit down! relax! think! Have a coffee! We will then tend to your problems.

Well gang, let's hear your problems. Once again, a Merry Christmas and a happy New Year to you all.

**Adv.**

# Raymond C. Webster Speaks At Meeting

Mr. Raymond C. Webster of the Pennsylvania State Education association, was the guest speaker at a meeting of the Education society, on Tuesday evening, December 10. At this meeting he discussed the newly created Student Association of Pennsylvania, and the advantages of the Muhlenberg Education society's affiliating with it.

The motion to affiliate with the state group has not as yet been passed by the Education society, but it will probably be voted on at the next meeting on January 14, 1958. All members are urged to attend this important meeting.

# Fashions For Men

(Continued from Page Three)

pus" blossomed out in the wild and woolly, bulky knit sweaters a few seasons back, they set off a land mine in the knit-wear industry which today has parlayed the college man's esposal of this style into a score of fashionable knitted items. Pullovers, cardigans and the smoothly tailored, knitted shirts are less dramatic offshoots of this knitwear trend that has jumped the ivy walls.

**Inspiration from Universities**

It all shows how a college man can directly inspire a traditional industry to seek new ideas, Daroff reports. It was the increasing "dressiness" of college men, he explained, which was the direct inspiration of a new "ensemble suit"—a hybrid of sportswear and business suit—made to match yet give the contrast and comfort of sportswear.

The college mans' own fur - racoon - shows signs of winning a new generation of campus converts, the survey showed, for the coat made entirely of racoon, or trimmed with it is today's "hottest" young man's fashion item. Camel hair in the time honored polo coat is another current college fashion that shows signs of spreading.

Fashion needs a college diploma to succeed these days, according to current signs, and the college man's F. Q. (fashion quotient) is checked as carefully as his I.Q. He is the man to watch, said Daroff, for he is the man who can give the "Phi Beta Kappa" award to a fashion idea that means big news, big business, big influence all across the country.

# Dr. W. Brackin

(Continued from Page One)

chology staff in the fall of 1955. There are now 150 students in all sections. In the spring of 1956 the enrollment rose to 165 students in all sections. This year Mr. Theodore Maiser was appointed to the department, along with the requested assistance of Mr. George A. Frounfelker. This was necessary due to the increased interest in psychology.

A student is eligible for acceptance as a major if he has a grade of C or better in psychology. If he desires recommendation for graduate study, he must maintain a "B" average.

An undergraduate degree in psychology prepares a student for work in the personnel field of industry. These include: public relations, employment interviewing, employment selection in training, and selling.

In October of 1955 a counseling and guidance clinic was opened under the direction of Dr. Brackin. Mr. Maiser is now directing the newly developed reading clinic.

# J. Birney Crum Court Mentor

(Continued from Page Five)

the Football Hall of Fame. Birney is married and has two children.

Perhaps the biggest game that one of Coach Crum's teams has won at Muhlenberg, was the 67-66 upset win of nationally ranked Temple in the 1955-56 season. Birney's teams have also turned in impressive wins in Madison Square garden, the Palestra in Philadelphia, and the Carousel tournament last year in Charlotte, North Carolina.

The recent success of Muhlenberg basketball must be partially due to Birney's efforts and from all indications Muhlenberg is off to another successful season under the tutelage of head coach Crum.

## April Fool Notice

**Since preliminary work is beginning on the April Fool edition, the editors feel it should be known that all members of the faculty, administration, and student body are open to coverage, in the issue. No special requests will be honored.**

**Karl Becker, editor**

# Bergmen Whip Brown & White

(Continued from Page Four)

thwart the Mule attack.

The win was number 40 for Muhlenberg over a Lehigh five in a series that dates back to 1900. The Engineers have won 31. In their last meeting, back in 1955, Lehigh squeezed out a thrilling 69-64 overtime victory.

**Frosh Win Again**

In the preliminary game, Muhlenberg's freshman team continued to roll by easily overcoming the Lehigh frosh, 90-59.

The Mule freshmen found little difficulty in scoring their fourth win. They were never behind, as they established a 24-point cushion, 49-25, at the end of the first half.

Once again, Al Filardi, Ron Druckenmiller, and Rich Brennan were the scoring leaders with 26, 18, and 17 points. Ken and Scott Weaver paced the Lehigh yearlings with 11 and 10 points respectively.

# Cinema Series

(Continued from Page One)

being in the house. In jail, while Mrs. Kirby is being searched, a strip teaser sings an undressing song which causes the Kirbys' noses to upturn and their brows to wrinkle: The marriage, though, is consented to and the concluding scene is around the dining table, with Grandpa saying, "Well, Sir, Here we are again. About all we need is our health. The rest we leave up to you."

# Berg Meets Temple

(Continued from Page Five)

dumped by Cincinnati and sophomore Oscar Robinson, they still have a number of big contests to go including the Madison Square Garden Festival which begins on December 30. Their victories have been over Delaware and Bucknell with Rodgers leading the offensive.

This encounter will mark the 35th meeting between the two schools on the hardwood in a series dating back to 1917. Temple holds a slight edge, 20-14. Two years ago the Mules upset the highly -rated Philadelphians (27-4) by a score of 67-66 before a capacity crowd in Memorial hall. Last year Temple bounced back with a 78-64 victory led by Rodgers' 34 point performance.

# . . . Student Council Report . . .

December 12, 1957

The regular meeting of the Muhlenberg college Student council was called to order at 7:01 p.m. by President Luis Torres. Mr. Vari was absent.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $1,625.62 |
| Social fund | 620.21 |
| Assembly Fund | 1,585.27 |
| | $3,831.10 |

Mr. Piston moved and Mr. Spector seconded a motion to suspend the normal order of business. Motion carried.

Messrs. Becker, Nuss, Kennedy, and Woodward of the **WEEKLY** staff then participated in a discussion with the Student council concerning the editorial policy of the **WEEKLY.** Mr. Becker presented this policy to be: "Toward a Greater Muhlenberg." Mr. Becker also presented a copy of the **WEEKLY's** constitution and a brief explanation of its financial set-up. Discussion revolved around many areas of college life, being specifically concerned with the relationship of the **WEEKLY** to the Student council.

**COMMITTEE REPORTS:—**

Chapel:—Mr. Ueberroth reported that one chapel slip had been revoked during the previous three weeks.

Assembly:—Mr. Skweir reported that Dr. M. Levitt of the Fels Planatarium will be the speaker at the assembly period next Wednesday at 3:15 p.m. He will speak on the topic "The Star of Bethlehem."

Commons:—Mr. Gurski reported that the annual Christmas dinner will be held next Thursday in the Commons with Mayor Donald Hock as the speaker.

Constitutions:—Mr. Shellenberger moved that the Student council recommend to the Veterans' club of Muhlenberg college that a Section 2 be added under their Article I of their proposed constitution to read:

> This constitution and By-Laws of the Veterans' club of Muhlenberg college shall be second only to the Constitution and By-Laws of the Student council, administration and Board of Trustees of Muhlenberg college.

The motion was seconded by Mr. Carpenter and carried.

**SPECIAL COMMITTEE REPORTS:—**

Alpha Phi Omega:—The recemmondation of the Student council concerning this organization will be turned over to the Faculty committee on Student Activities.

Freshman Regulations:—The revised list of Freshman regulations and Freshman Code of Conduct will be presented to the Student council at its first meeting in January. The report has been prepared and is presently being typed.

**OLD BUSINESS:—**

Mr. Ueberroth reported that Mr. Martin Ruoss and Mr. Martin Coover have been given the sanction of the school for selling the "'Muhlenberg Mules" bumper tags.

**NEW BUSINESS:—**

Mr. Smith and Mr. Carpenter will exist as a committee to investigate the present system of cheering and cheers at Muhlenberg.

On motion by Mr. Spector and Mr. Becker, Student Council accepts the resignation of Mr. Ronald Flaig who stated he was forced to resign as a result of academic pressures.

On motion by Mr. Skweir and Mr. Leighton, Student council appoints Mr. Jack Kramer as acting head cheerleader, to fill the enexpired term of Mr. Flaig.

**Concerning the recent outbreak of stealing, particularly in Martin Luther Dorm, Student council recommends to all resident students the following guide:**

1. **All students should lock their doors upon leaving their rooms, even for brief periods of time.**
2. **All resident students, including those in fraternity houses, should be certain to secure their doors and windows before leaving for the Christmas vacation.**

The meeting was adjourned at 8:40 p.m. on motion by Mr. Smith and Mr. Piston.

Respectfully submitted,

RAY UEBERROTH,
Recording Secretary

Only Viceroy gives you
20,000 FILTER TRAPS
FOR THAT SMOOTHER TASTE

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., January 9, 1958 A. C. P. Rating No. 13

## DuPont Awards Total of $4,000 To Muhlenberg

Muhlenberg college has been chosen as one of 73 colleges to receive $4,000 as a grant from the DuPont company. This is to help to maintain its record of strength in chemical and technical education. The grant is divided into two parts. Chemistry teaching will receive $2,500, and the remaining will be given to other subjects.

DuPont company, of Wilmington, Delaware, is giving grants this year totaling $100,000 to a selected group of colleges and universities throughout the country. This is part of DuPont's annual program of aid to education. Since its origin, it has given grants totaling $1,500,000 to 135 colleges and universities.

**Science and Engineering**

The strengthening of science and engineering is the goal of the awards this year. Grants will be given to support the teaching of science and mathematics as well as other subjects. Also, grants for fellowships, which at one time made up the entire program, are being given with grants for fundamental research. DuPont's program dates from 1918.

Grants given by DuPont this year for advancing teaching, are now being extended for the first time to medical schools. This was brought about by discussions with educators having indicated that maintaining high standards of teaching is a major problem at all levels of education in view of higher costs and increasing enrollments.

**Many Part Program**

There are several major parts to DuPont's program in aiding education. They are: grants for teaching, aid to fundamental research, postgraduate fellowships, and grants for advancing teaching.

Colleges are selected to receive the grants on the basis of their performance and strength in chemical education. Colleges and universities in the area to receive the grants this year are Bucknell university, Allegheny college, Drexel Institute of Technology, Franklin and Marshall college, Gettysburg college, Haverford college, and Lafayette college.

## Festive Weekend Marks Transformation Of AMI

This weekend Alpha Mu Iota social fraternity will be initiated into Tau Kappa Epsilon, the largest national social fraternity in the nation. AMI has been a local fraternity since its founding date in the early fall of 1955.

The initiation of the Muhlenberg chapter of Tau Kappa Epsilon, will be a very special one for the fraternity. January 10 is the founding date of Teke. It began at Illinois Wesleyan university in 1899. This will be the 142nd chapter of the national fraternity, Zeta Theta.

**Weekend Events**

The events scheduled for the weekend's festivities include the pledging of AMI's pledges into Teke, lectures and instructions to the brotherhood which will be delivered by the national officers, formal initiation and installation of officers, and a banquet on Saturday evening. Guests for the weekend include Dr. and Mrs. Seegers, Dean and Mrs. Richards, Frank B. Scott, Grand Prytanis of Tau Kappa Epsilon, Magnus Flaws Sr., Province Haegomon; Dr. and Mrs. Dierolf; Dean Heimtraut Dietrich and Mrs. and Mrs. MacGregor.

Tau Kappa Epsilon has chapters at several surrounding colleges and universities, including Drexel Institute of Technology, Pennsylvania State university, East Stroudsburg State Teachers college, Indiana State Teachers college, University of Pennsylvania, Gettysburg college, and Moravian. Brothers from these chapters are also expected to attend the initiation of Zeta Theta.

**Local Fraternity**

Alpha Mu Iota was established as a local fraternity on the Muhlenberg campus in the early fall of 1955. Since then it has experienced success as a local group. One of the policies of the fraternity was that admission into the brotherhood would not be based on religious belief. At the beginning of this year, AMI drew up a petition to Tau Kappa Epsilon, whose non-sectarian policy was similar to theirs. Alpha Mu Iota has a brotherhood of 30 men. With the fraternity, the number of nationals at Muhlenberg will total six. These include Alpha Tau Omega, Lambda Chi Alpha, Phi Epsilon Pi, Phi Kappa Tau, and Sigma Phi Epsilon.

## Meyer To Talk On AKA Topic

Dr. Stine's home, at 2116 Allen St., will be the scene of the final meeting of the fall semester of the Alpha Kappa Alpha honorary philosophy fraternity. The meeting will be held tonight at 8 p.m.

Dr. Meyer, the speaker for the evening, will discuss "The Approach To Truth In The Time Of The Enlightenment," the last of the chronological series of discussions on "The Approach To Truth."

**Newly Initiated Members**

This meeting will be the first attendance for the newly initiated members. The men who were accepted into AKA at the December 12 meeting were: Harold Baer, Donald Bordon, Penn Chabrow, Richard Fine, George Freyberger, Robert Kehrli, Morris Linett, Edward Meyer, Martin Ruoss, Donald Simmons, James Skelton, and Richard Truchses.

Phil Feigenbaum, president of AKA, has announced that the discussions for the second semester will be devoted to a more contemporary approach to truth—the chronological order of topics at the future meetings being the ethical, the aesthetic, the modern Christian, the modern Jewish, and the naturalistic approaches.

## Concert Series Offers Campus Organ Recital

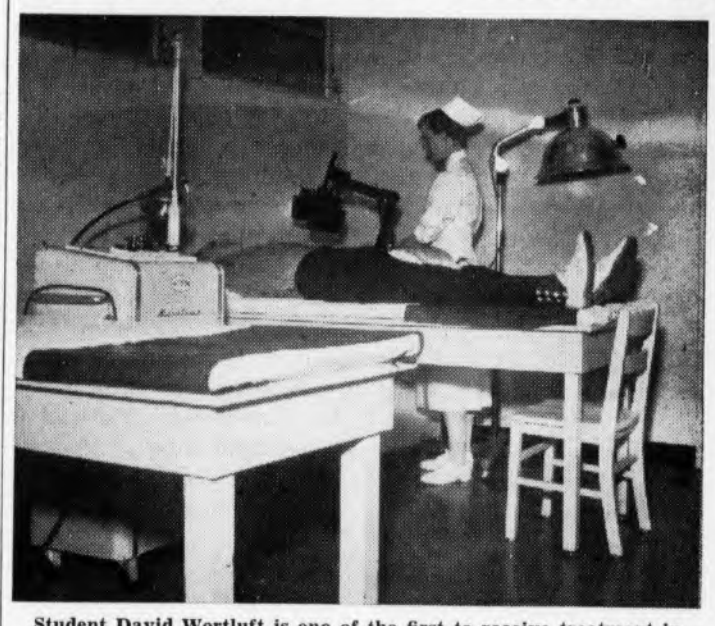
On January 12 the second concert in the current concert series at Muhlenberg college will take place. A young American organist, Philip Gehring, will present a recital at the Skinner organ in the College chapel.

Mr. Gehring who is presently teaching at Davidson college, Davidson, N. C., is a graduate of Oberlin college where he studied under Arthur Poister and Fenner Douglas. He has played numerous recitals throughout the east, including Trinity Church, New York, and Duke university chapel. He also played at the 1955 regional convention of the American Guild of Organists in Charlotte, and has the distinct honor of having been one of five organists to play a recital at the Lutheran World Federation assembly in Minneapolis last summer. He studied one summer in Paris with the famous blind organist Andre Marchal.

Mr. Gehring's recital will embrace masters from the baroque period, topped by the mighty Fantasia and Fugue in G Minor of J. S. Bach, as well as romantic and contemporary compositions. Among the latter are three selections from the Nativity, a suite by the outstanding French composer Olivier Messiaen.

The concert, at the regular time, 4 p.m. in the afternoon, is open to the public without charge. A free-will offering will be taken.

## New Medical Building Now Open To Students



**Student David Wortluft is one of the first to receive treatment in the newly completed Muhlenberg Medical center. Miss Wolford (administering treatment) is a recently acquired full-time nurse.**

Students returning to the campus after the Christmas vacation found the new and modern medical center completed. Delayed twice due to difficulties, in construction, the medical center, with the latest and finest facilities, was open to the students on Monday, January 6, 1958. The medical personel, headed by Dr. Weaber, had moved into the new building during the Christmas vacation.

Centrally located, the new building contains separate facilities for men and women except for the hydrtherapy room, which will be used in common by men and women at different hours. Dr. Weaber stated, "To furnish another room with equipment such as a Sitz bath, a whirlpool, and footbaths would be a great and unnecessary expense.

**Women's Section**

The women's section contains three divisions, including a treatment room with the latest equipment for physiotherapy, a recovery room, and a rest room. The major portion of these rooms contain entirely new furnishings.

The men's section is similar to that of the women. It includes a treatment room, a recovery room, and a solarium in which ultraviolet atherapy will be applied. In the rear of the men's section is an exit, leading to the athletic field, to be used in case of emergency at any sports event.

**Other Sections**

The other sections of the building are the waiting rom, nurses station, drug room, and records room. The new room is up-to date and contains ample storage

(Continued on Page Six)

## Foreign Scholarships Offered to Students

Competition for 165 scholarships for young Americans to study in thirteen foreign countries will close January 15, 1958, it was announced by the Institute of International Education.

These awards are primarily for one year beginning in the fall of 1958, and are for study in Austria, Brazil, Cuba, Denmark, France Germany, Iran, Israel, Italy, the Netherlands, Sweden, Switzerland, and the United Kingdom. Administered by IIE, they are financed by foreign governments, universities, and private organizations.

**No Travel Expenses**

Most of the scholarships do not cover travel expenses but persons applying for Austrian, Danish, French, German, Italian and Netherlands awards may apply for a Fulbright travel grant to supplement the scholarships. Applications for travel grants must also be submitted by January 15, 1958.

Most of these scholarships are open to candidates in languages and culture, fine and applied arts, sciences, social sciences, philosophy, history and theology. The

(Continued on Page Six)

## Muhlenberg Christian Association To Present Eliot Play In Spring

"Murder In The Cathedral" will be the spring presentation of the Muhlenberg Christian association. Tentative dates for the play's production are March 6, 7 and 8.

The play was written by T. S. Eliot for the 1935 Canterbury Festival. This will be the third time that it has been presented on the Muhlenberg campus. Jim McConnell will direct the MCA production as he did last year for the organization's presentation of "Thor With Angels." Jim is a senior English major and president of the Mask and Dagger society.

**Plot**

The plot of Eliot's play involve Thomas Becket, Archibishop of Canterbury, who achieved this post through his faithful service to King Henry II as Chancellor. During his years in this post, Becket acted as Henry's friend and ally and when Henry appointed him to his new post he expected the same faithful service to the crown. However, with the appointment to his new post, Becket suddenly became an exponent of church privileges in opposition to the king. When Henry II tried to bring the church under royal law, Becket opposed him.

This along with other acts of opposition on the part of Becket, infuriated the king so that he denounced him in a moment of rash rage. Four knights overhead the king and misinterpreted the meaning of his words. They rushed out and burst into the cathedral, which was at this time a place of safe sanctuary, and klled Becket. After this, Thomas Becket became a martyr in the minds of the people.

Intellectual stimulation is brought about through weekly discussions in the MCA room. This is only a partial purpose of the organization, as they are the instrument for the furthering of christian activities on the campus.

Officers for the 1957-58 year are: Henry Williams, president; Richard Stephan, vice-president; George Weckman, secretary; Harold Baer, treasurer.

## Film Series Presents Kaufman & Harte Hit

Kaufman and Harte's "You Can't Take It With You," is to be presented by the Muhlenberg College Cinema series on January 10, at the 7 p.m. and 9 p.m. showings.

Contrasted in the movie are the Kirkys and the Sycamores. The former represent the orderly and upper class society, while the latter symbolize the disorderly and lower bred class in society. Comedy and hilarity revel in the movie and are the elements which have caused the show to be a success.

Grandpa Vanderhof and Penelope Sycamore are the two characters playing the leading parts. Others in the cast include: Tony Kirby who wishes to marry his typist, Alice Sycamore, daughter of the Sycamore family. The love plot seems to be entirely out of character for a play filled with many idiocyncracies.

## British Student Receives MBE Honors From Queen

Reverend Hector Magalee, an East Indian native of British Guiana who is presently studying at Muhlenberg, has been awarded the MBE (Member of the British Empire) by Queen Elizabeth. The honor includes membership in the exclusive order and the privilege of using "M.B.E." after the name.

The MBE is awarded to British subjects for outstanding work in their particular fields. Fleming, a discoverer of penicillin, was one who received it in the past. Another was the commander of the group under Hillary who conquered Mt. Everest. (Hillary was knighted for the feat.)

When asked why he had received the MBE Magalee replied, "I don't know, but I have an inkling." That "inkling" concerns his work among the Arawak Indians along a 140-mile stretch of the Berbice River in British Guiana. Magalee explained that the people in this section work in the logging industry which was controlled by two of three men. For years they were exploited, were paid little and lived from hand to mouth. Rev. Magalee helped establish logging cooperative societies so the men were able to make a better living.

**Co-op Plan**

The Indians pooled their resources in the co-ops and were able

## Institute of Faith Program Announced; Dr. Stendahl's Topic, "Let God Be God"

Dr. Krister Stendahl of the Harvard Divinity school will be the speaker at this year's Institute of Faith, which will be held from March 10-12. Each morning during the three day program there will be a fifty minute address at 11 a.m. in the chapel. In addition there will be two discussion sessions in the afternoon and in the evening.

Dr. Stendahl's topic will be, "Let God be God." The title is borrowed from a book on Lutheran theology by an author named Watson. The three main subdivisions of Dr. Stendahl's topic are entitled: "He Made Us," "He Saved Us," "He Inspired Us." It has been suggested that the different discussion groups be led by a Roman Catholic Priest, a Jewish Rabbi, and one of the local clergyman.

**Born in Stockholm**

Dr. Stendahl was born in Stockholm, April 21, 1921. In 1939 he graduated from Gymnasium and completed the first part of his compulsory military training. In 1941 he received his pre-theological degree at Uppsala university in Sweden. Dr. Stendahl received his B.D. and was ordained a priest of the Church of Sweden. During his years at Uppsala university, Dr. Stendahl was associated with the student Christian movement.

Arrangements for Dr. Stendahl to speak at this year's Institute of Faith were made by Melvin Rea, student chairman of the IF committee of the MCA.

**Institute of Faith**

The Institute of Faith is a committee of the Muhlenberg Christian association. The organization plans programs of particular interest to the members of the student body and the faculty. Outstanding leaders in diversified fields are selected and brought to the Muhlenberg campus. Their lectures and seminars are concerned with contemporary topics and their relationships to Christianity.

# Editorial Views——

## Now Is The Time . . .

In the past the **WEEKLY** has campaigned for the establishment of an honor system at Muhlenberg. It was realized originally that such a system would require time to become integrated into the College. **However, time has elapsed and the progress that has been made toward this goal is hardly substantial.** This is not directly traceable to any particular individual, except those few students who continue to infringe upon honest principles. **With the strongly functioning honor court that Muhlenberg possesses and students giving honest cooperation, the two basic essentials to the establishment of this system are already present.**

With another examination period rapidly approaching, the temptation for cheating is also drawing near. A successful examination period, in which dishonest practices of any kind are not utilized, would greatly encourage the prospects of having the honor system become an actuality.

Everyone is cognizant of the fact that Muhlenberg has progressed considerably in the past few years both with the advent of coeducation and the campus's physical renovation. However, progress in scholastic and social honor has not kept pace with the physical improvement. **All students should feel honor bound to report any "violation or suspicion of violation' that comes to his or her attention to the Dean of the Faculty or to a member of the Honor Court.** Students presently serving on the Honor Court are: Karl Becker, chairman, Burton Eisenbud, Arnold Markoe, Richard Truchses, and Henry Williams.

**A more responsible attitude on the part of each student during this examination period is not only necessary but imperative if Muhlenberg's honor system is to be a areality.**

## 'Til We Meet Again . . .

During the Student Leadership conference it was decided that a faculty-student committee should be appointed "to set up a workable social code to govern all phases of student life." This body became a reality on October 24 when Student council approved the membership of the Social Code committee as presented by Mr. Leon Skweir.

This committee under the leadership of Student council's Social chairman, has held but one meeting since its establishment. It has not met since November 13, 1957, when only a few suggestions were offered for the reorganization of the present social order and the date of the next meeting was established. This scheduled meeting was later cancelled.

The **WEEKLY** realizes that this brief period before final examinations would be an inopportune time to meet. However, the Spring semester should begin with a meeting. Otherwise this committee should be disbanded since a non-functioning organization can serve no useful purpose.

It would appear that the Chairman has either been negligent or indifferent. A greater display of initiative by this gentleman might be instrumental in the success of the committee, and the alleviation of many of the existing problems originating with the advent of co-education. If no initiative is forthcoming, we can only recommend one remedy: appoint a new chairman.

# Milton Epic Depicted In Campus Mural

**Here is the painting which now adorns the pre-theo room, not yet completed. John Dreisbach has spent almost a year of work towards its intricate geometric design.**

**by Barbara Fretz**

After many months of careful planning and work, John Dreisbach's interpretation of John Milton's epic **Fall of Angels** is nearing completion. The painting is being done in the Pre-Theological club room, where it will remain permanently.

Dreisbach, a junior at Muhlenbach, has spent the past year in planning this geometrically-perfect piece of work. The inspiration for the painting came from the story of the heavenly war of angels, in which St. Michael and the angels of good drove from paradise the angels of evil. ". . . And there was a war in heaven: Michael and his angels fought against the dragon . . . and all his angels. And the great dragon and his angels were cast out . . . neither was their place found anymore in heaven."

The story told in the painting moves from top to bottom. At the top, heaven is depicted in blue to show serenity and peacefulness. Tall pillars are found there on which the angels stand as on pedestals. Some of the pillars are empty, signifying that the wicked angels have been toppled from their places. A circle near the top represents God. A small red spot in this circle shows, strangely enough, the presence of a tiny amount of evil. The angels, as they topple downward, begin to show more and more red until when they reach the depths of hell they are completely crimson.

The center of the painting is white with clouds. The bottom is fiery red and cold white to signify the fire and ice of the underworld.

Near the bottom of the painting, three stained glass windows stand for man, God-incarnate, and God. The window representing God incarnate tells the story of Christ's life on earth as a man. It includes his birth, shown by a cradle; his death, shown by a cup and loaf. Certain panels in this window form a map of Christ's travels—proof enough of the study and preparation that went into the execution of this painting.

The fine geometric points include a perfect parabola formed by the tops of the angel's pedestals. The red dot in the circle representing God is the point of intersection of all lines at the top of the drawing. The entire piece of work is exactly four times higher than it is wide.

As the eye travels from the top —heaven—to the bottom—hell—one can feel the transition from the balanced to the unbalanced, from the peaceful to the chaotic, from serenity to turmoil.

*Fantasy Department*

# A MODERN FAIRY TALE

**by Willy Grim**

Once upon a time, not too long ago, there was a happy little community nestled snugly in a peaceful little valley. Of course, this community had its problems—there were numerous petty arguments between rival groups in the town, and the Blue Laws were usually rather hard to take. But all in all, it was a pretty happy group that lived and worked there. The governing body and the citizens had a very good understanding, and an air of mutual confidence prevailed. About four times a year the weighty problems of everyday work gave way to pleasant festivals. These events were by no means so riotous as those held in neighboring communities, but they were quite effective in relieving tensions and boosting morale. When they were over, everyone was somewhat rested and ready to return to the rough grind of reality.

Then one fateful day a new race moved into this little community, and changes came thick and fast. A new commissioner was elected to govern the foreigners, and he immediately revealed a great discontent with the established order. Naturally, separate laws were needed for this different race, but the ones that were formed began to encroach on the liberties of the old residents.

The new commissioner decided that the current festivals were too wild and that they should be abandoned for constant smaller celebrations throughout the year. This plan did not meet with the mayor's approval, but the festivals were toned down considerably. Numerous new rules and restrictions were imposed on these celebrations until doubts arose among the citizens as to how long the events could retain any of their past glory.

Everyone was concerned about these problems, but no one found much success in dealing with them. The commissioner gained more and more power, and the situation grew worse, and worse, and worse. At just about this point in the story the tall, handsome hero should enter and save the day, restoring harmony and happiness to the little community. The heavy restrictions would be lifted from the festivals, once again making them useful as an effective steam valve, and the new race would become well integrated into community life.

Unfortunately, this fairy tale doesn't end with "everybody lived happily ever after," like a good one should. In his story, THE FALL OF THE HOUSE OF USHER, Edgar Allan Poe suggests a more appropriate ending:

And travelers now within that valley,
Through the red-litten windows, see
Vast forms that move fantastically
To a discordant melody;
While, like a rapid ghastly river,
Through the pale door,
A hideous throng rush out forever,
And laugh—but smile no more.

# THE CAMPUS Whirlpool

**by Dick Kennedy**

Henry Williams certainly spoke home in Chapel on Tuesday when he delivered his talk concerning honesty and the college. His most striking comment was in reference to **cheating and the psychological results of it.** This, said Henry, gives a **satisfaction to the person in that he has accomplished one of the greatest of American achievements—getting something for nothing.** What a great truth this is! It will be impossible to ever develop a workable honor system until we abolish this gross fallacy.

**Ron Moxey has an affectionate attachment to his appendix.** The fact that he had it out thirteen years ago has no bearing on the matter whatsoever. Ron has the intestinal appendage preserved in a corked tube which he keeps guarded in the glove compartment of his car. The "Mox" refuses to comment on this little obsession.

As long as we are on the subject of gore, George Merz has once more corresponded with his leader, Roland. This time, Roland has presented George with a set of membership cards for the **"Order of the Walking Dead"** and has appointed George himself as **Keeper of the Crypt at Berg.** Many people don't have the opportunity to see Roland since he doesn't appear until after TV hours in West hall, so for the benefit of those unfortunates, here you are! — **whatever you are!** This week's top tune from the Shock Theater is **"Walkin' my Werewolf Back Home."**

Pete Sell has the golden touch of Midas. On a recent search for dates over the vacation, Ralph scanned his black book thoroughly, but with little avail. He finally, however, came across a cocktail napkin with a phone number on it. This immediately recalled to mind a girl he had once met in New York City. Ralph picked up the phone without hesitation and dialed Manhattan, whereupon he casually made a date for that evening. He hopped in his car and traveled to the big city, attended several parties and returned late the next afternoon, a tired man.

Vivé la Dorm council! Under trying circumstances on Monday evening, **the girls elatedly passed a new ruling to become effective this Saturday. A motion was made and seconded that the girls of Muhlenberg be permitted to wear Bermudas all day every Saturday.** This is one of the first steps which has been taken by the girls themselves in true self-government and let us hope that it will lead to further improvement. **Remember—Saturday is Bermuda day, and from thence on, THIS IS NOW TO BE!!**

# 'Round Campus

**Thursday, January 9th**

Alpha Kappa Alpha will hold its meeting at the home of Dr. Stine, 2116 Allen St. at 7:30 p.m. Topic "Approach to Truth in the Time of Enlightenment" will be discussed.

**Friday, January 10th**

**Movie "You Can't Take It With You" will be shown in the science auditorium at 7 and 9 p.m.**

**Saturday, January 11th**

Muhlenberg-Manhattan basketball game will be played at Madison Square Garden. Berg-Temple wrestling match will be held at Temple.

**Sunday, January 12th**

Organ recital by Philip Gehring will be held in the Chapel at 4 p.m. **The Lutheran Student association will meet in the Student center at 7:30 p.m.**

**Monday, January 13th**

The Pre-Theological club will meet in the Pre-Theological room above the Student center at 7:30 p.m. Phi Alpha Theta will meet at 7:45 this evening at West hall's commuter's lounge.

**Wednesday, January 15th**

The Pre-Medical club will meet at 7:30 p.m. in room 305 of the science building.

Berg-Lafayette basketball game will be played at Memorial hall. Berg-Moravian wrestling match will be held at Berg.

# Student Library Types Defined

(ACP)—Three "library types" were defined and deplored in a recent DAILY CALIFORNIAN editorial.

There is the chatterbox—who must discuss the latest campus political issue as soon as he gets settled in the reading room.

There are lovers ("always occurring in the plural") whose actions almost force everyone else to stop and speculate on what will happen next.

And there is the groaner—who moans and sighs with every line he reads.

"Maybe we all are, on occasion, a little guilty of being one or all these," says the writer. "But it is time these types recognize themselves for what they are and act accordingly.

# From Here And There

by Stan Heim

The college student usually faces the Christmas and New Year vacation with a huge sigh of relief. It is a chance to obvert impending, academic tragedies. It is an opportunity to do term papers and to learn a semester of French or German. But as most of us know such conjectures are mere allusions and fantasies.

We take home various books and good intentions, but if little brothers and little sisters haven't played with them and mother hasn't seen to rearrange our room the books have remained where we plopped them and the good intentions have been frightened away by over indulgences of various sorts. Their mere presence, however, does have a tranquillizing effect. We know osmosis of the written word is impossible, but the sight of them pacifies us and the next day we are really going to dig in.

Also Christmas is a family celebration. It is a time for family reconciliation and happiness. However, college students have a knack of estranging parents over the holidays, especially mothers. She begins to wonder just what her son has learned at college. The first incident of bellicosity and irrational navigation she shrugs off. Her son is just sowing wild oats and unleashing the tension that school has created, but as they occur with unceasing regularity each succeeding day her understanding turns to concern, skepticism, and ultimatum.

So we return to school with threats, dusted books, and thoughts of how to avert the crisis of term papers and assignments. We relate with fellow students our various inebriated conditions and the presents received and complain of the lack of the Christmas feeling and spirit. It has been said that the stage between childhood and a family of one's own is characterized by lack of the Christmas spirit. Most of us will attest to this. However, this deficiency can have a quality of enabling us to see Christmas for what it really is.

Approximately 1,957 years ago Jesus Christ was born to a virgin and shortly thereafter three wise men bearing gifts came to pay the child homage. As centuries passed people commemorated his birth on the 25th of December. With it was built a tradition of gift-giving, Christmas trees, a feeling of happiness, and solemnity..

And now Christmas of 1957 has passed. In the last few years Christmas has come under condemnations, the most familiar being commercialism. Most people agree with this but the world has practically become jargon without real meaning like atonement, grace, salvation, and Christian love.

Christmas has become a financial crisis for the average working man. By July he has arranged a regular schedule of payments on his home, car, television set, washer, and stove. Christmas means buying gifts for people which they don't really need and receiving similar gifts. The loan companies, with usurious rates, reap a harvest of profits and underneath an exterior of happiness and joy a pervading uneasiness and tension prevails.

Let's bring Christ back to Christmas has become a familiar ring from the pulpit. Seeing that the nature of Christmas isn't likely to change it seems that such a move would be most horrid. Instead let's remove Him from Christmas altogether, and if necessary, set aside another time for His commemoration.

# Berg Community Makes Resolutions

by Alfred E. Neuman

Your **WEEKLY** cub reporter has surveyed various big names on campus, keeping in mind the advent of the New Year and asking questions concerning the resolutions of these personages. In the event where your reporter could not contact the person involved, he invented his own possible resolution for that person. (Actually, your reporter could not, unfortunately, get in touch with a single one, so he had to devise **all** these resolutions himself.)

Be it hereby known that for the year of nineteen-hundred and fifty-eight the following people have resolved:

Ray Ueberroth—to award extra chapel slips to all goodies and pretheological students; also to the chaplain.

Ron Moxey—to drop out of the Reserves.

Jack Coughlin—to improve his aim.

Frank Vari—to no longer contribute his advice at Student council meetings.

Betsy Ziegenfuss—to give up smoking.

Phil Feigenbaum—to give up.

Al Arsht—to finally break down and relinquish his all-time perfect attendance record to someone with less interest.

Walt Schuman—to be well-liked.

Seth Brown—to keep his powder dry.

Dick Kennedy—to transfer to Carnegie Tech.

Ed Perkins—to continue his award-winning record at Berg.

Henry Williams—to start booking it before he flunks out.

Bob Morris and Dick MacLaughlin—to quite sweating tests.

Mr. Kinter—to faithfully attend Chapel.

Karl Becker—to join the A.A.

# Students Appraise 1957 Ciarla Efforts

by Larry Woodward and Rick Stephan

Yesterday afternoon the 1957 **Ciarla** was distributed to the student body. The publishing of this yearbook involved a great deal of time and effort on the part of the 1958 **Ciarla** staff, rather than the 1957 staff, as should have been the case. Last summer the 1956-57 editor of the **Ciarla**, deserted the project before it was completed. Therefore, it was the decision of the present staff, under the leadership of Bob Spivak, to pick up the pieces in the fall, and to attempt to meet their deadline in the best way that they could.

Due to the circumstances, there were many mistakes throughout the book and in general it was a poor job in comparison to previous years. This fact was shown by the opinions of the students who received the Ciarla yesterday. The statements were as follows:

"The photography is extremely poor. It could be compared to a third rate high school yearbook."

**Dan Nesi '60**

"Is it impossible for a Muhlenberg organization to be organized or its product coherent? Let this issue be a lesson for following staffs."

**George Weckman '60**

"There are far too many mistakes in the book, considering the amount of time that the staff had. This yearbook does not even compare with that of many high schools."

**Rick Sloan '59**

"Disappointing that no mention or recognition is made of honor students."

**Roy Madsen '58**

"It seems like a hastily done job, but this probably could not be avoided when you consider that there were two classes working on what should have been a one-class project."

**Charlie Adami '58**

"Before getting a chance to do any reading of the 1948 Ciarla, I noticed a few points worthy of criticism. On first glance through the book, I missed action shots in sports—basketball. Pictures for activities are either complete setups of groups, or show very abstract association to the activity itself, i.e.—Education society, Psychology club, Cardinal Key, etc.

"Pictures and write-ups are confused on a few occasions."

**Leon Skweir '58**

"There is room for much improvement."

**Ed Schroeder '56**

"There are too many mistakes in photography—I would like to know when Seth Brown and Bob McQuilkin joined Alpha Mu Iota? What was the thought behind the picture of the new dorm in the Cardinal Key page?"

**Glenn Davis '60**

"It is very interesting and shows a lot of planning and hard work, but some of the facts should have been checked more closely to give an accurate edition."

**Robert E. Bector '59**

(Continued on Page Six)

# What Does Elvis Have That Bach Ain't Got?

*This article has been reprinted from the January edition of Harper's magazine.*

As a subject for polemic Elvis Presley has few peers, and too many people have experienced sudden shifts in blood pressure—either up or down—for him to be regarded as anything but an authentic barometer of the times. But, even now that he has been on the national scene for more than two years, he may be telling us more about ourselves than we would care to admit.

Presley's climb to fame, in the winter of 1955-56, followed upon the appearance of that raucous brand of popular music, primitive and heavy-footed, known as rock-and-roll. Untouched by subtlety, rock-and-roll seemed to signal a total collapse in popular taste, the final schism between a diminishing group sensitive to tradition and the great bulk of those who make entertainment to sell. Suddenly there was Elvis, not merely a manifestation of rock-and-roll, but of lascivious gyrations of the torso that older generations quickly recognized—the classic bump and grind of the strip-teasor.

Television compounded the jeopardy: Elvis could come lurching into any living room, and he did, and the chorus of adolescent shrieks was swelled by shrieks from the parents. The stomping blatancy of "Blue Suede Shoes" and the insinuations of "I Want You, I Need You, I Love You" were sufficiently distressing, but the foot-spread stance and the unmistakable thrust—well "The Pelvis" was going too far.

He went too far in every direction. Elvis was making millions of dollars, owning white Continental Mark IIs, getting into fights and reviving sideburns and being prayed over and building a house for his parents. The legend should have swallowed him out of sight, but it was all true—all, furthermore, palpably American. He may not actually have arrived for his Army physical in a Cadillac with a Las Vegas show girl and announced that he wanted to be treated just like everyone else—but the story was pure Elvis. Anyway, the gawky, loose-limbed, simple boy from Tupelo, Mississippi, was a genuine tabula rasa, on which the American populace could keep drawing its portrait, real and imaginary, and keep rubbing it out.

Admonished that there were those who found his hip-swiveling offensive. Elvis is said to have replied, "I never made no dirty body movements." And this is believable; Elvis moves as the spirit moves him; it all comes naturally. Hormones flow in him as serenely as the Mississippi past Memphis, and the offense lies in the eye of the beholder, not in Elvis' intentions.

By constantly reminding his teen-age listeners of what he so obviously was—a simple boy from Tupelo who had suddenly become famous—Elvis somehow removed the sting from the sexuality that could easily have terrified them. Valentino had to become an exot-

# Sports in Short

by Ben Livingood

The beginning of the new year was anything but happy for Muhlenberg basketball when the Mule cagers played their first game of 1958 against **Gettysburg college** last Saturday night in Memorial hall. The Mules squeaked out a 64-63 victory after the visiting Bullets staged a late surge that threatened to deal Muhlenberg its second consecutive loss. The win could very easily have gone either way. In the final minute of play, Gettysburg had two chances to make its upset hopes a reality, but bobbled them both. A free throw that could have tied the contest, and a jump shot by Frank Walsack with five seconds remaining both missed the mark, giving Muhlenberg its sixth win against its lone loss to Temple.

Gettysburg definitely had an upset in mind when it took the court on Saturday night, and the hopes were bolstered by the fact that **Dick Sekunda,** Muhlenberg high scorer, was sitting on the sidelines with an injured ankle. However, if the Bergmen had lost the game, it wold not have been due to the absence of Sekunda, but because of the manner in which the game was played. **Bad passing, loose ball handling, and inaccuracy seemed** to be the rule rather than the exception throughout the game. The smooth play that was prevalent in the Mules' previous five victories was definitely lacking against Gettysburg. In all their games this season, the Mule courtmen have looked stronger in the second half. Saturday's game again was an exception to this rule. The Bullets whittled away at and reduced every lead which the Mules managed to build up.

In an earlier edition of the **WEEKLY,** this column stated that it was quite possible that Captain Jeffries and company could very easily pull some surprises before the current season ended. **A surprise was almost pulled on Saturday night,** but not the type of surprise spoken of in that earlier edition.

* * *

Several **Muhlenberg men** are currently playing basketball in the Allentown club league for **Bud Kivert's AA.** The men are Jack Young, Mike Wooley, Jim Nonnemaker, Ken Hendricks, Frank Gutierrez, Bill Higgins, John Holcroft, Ray Croft (Captain), Paul Whitcraft, Paul Barnett, Ken Stewart, Austin Short (assistant football coach at Muhlenberg), and Jack Gleckner. The team is coached by **Chuck Theisen** and was the idea of **Marv Jaffe,** both of whom played on the outstanding Muhlenberg basketball squads between 1946 and 1950. The Kivert's have been unsuccessful in their first four starts, losing to Mack, Schaeffer A.A, Young Men's, and Salvation Army. It is hoped that success is on the way for the team during the remainder of the season.

# Basketball Statistics

| Names | Games | Field Goals | Foul Shots Att. | Foul Shots Made | Total | Aver. |

# I-M CORNER

by Jack Coughlin

Intramural basketball activity during the past week was at a minimum due to the Christmas vacation. Thursday night the league will swing back into full action with four more games slated on the Memorial hall courts.

In the last week of action the Phi Epsilon Pi fraternity team took measure of the Canucks by a score of 42-32. Frank Claire led the scoring for Pep Boys with his 13 points; he hit for five field goals and three fouls. Ed Smith and Dave Auerback contributed nine each. Bruce Womer of the Canucks took scoring honors for the game with his 14 counters.

**Warriors Victorious**

Phi Kappa Tau "B" went down in defeat to the Warriors by a score of 33-21. Baver and Glocker were high men for the Warriors with eight and six points respectively. Ron Dungan dropped in 10 points in the losing cause of the Liberty Street "B" team. At half time the score was 16-6 with the Warriors on top. Frank Csaszar led the Bell Boys in their 45-32 defeat of the G-Hall Quintet. Frank collected 14 points in the contest. March and Penkethman helped out with their contributions of 10 each.

Lamba Chi Alpha picked up another win at the expense of the Roonies. Jack Young and Jim MacMillan provided the scoring power to keep Lambda Chi in the ranks of the undefeated. Young picked up 17, and MacMillan hit for 12. After the first half the score was 18-12 and LXA held the six point margin. In the second half they doubled the margin and the final score stood at 38-26.

**Vets Romp**

The Vets took another landslide victory when they took advantage of the Catahamptons by a score of 49-18. Harry Beidleman was high for the Vets with his 16 points. Don Wendling and Dan Sourwine helped out with the scoring to give the Vets the win. Wendling hit six buckets and Sourwine added five field goals and a free throw.

In the two leagues so far there is a deadlock for the number one position. In League I Lambda Chi Alpha and Phi Epsilon Phi "A" are holding together with identical 3-0 records. In League II the two teams that are leading the pack are sporting records of two wins and no losses. At the top of the league are the Rinky Dinks and the Tri-Staters.

The complete standings:

**League I**

| | W | L |
|---|---|---|
| Lambda Chi Alpha | 3 | 0 |
| Phi Epsilon Pi "A" | 3 | 0 |
| Warriors | 2 | 0 |
| Vets | 2 | 0 |
| Roonies | 1 | 1 |
| Catahamptons | 0 | 2 |
| Phi Kappa Tau "B" | 0 | 2 |
| Alpha Mu Iota | 0 | 2 |
| Canucks | 0 | 3 |
| Alpha Tau Omega "B" | 0 | 2 |
| Commuters | 0 | 1 |

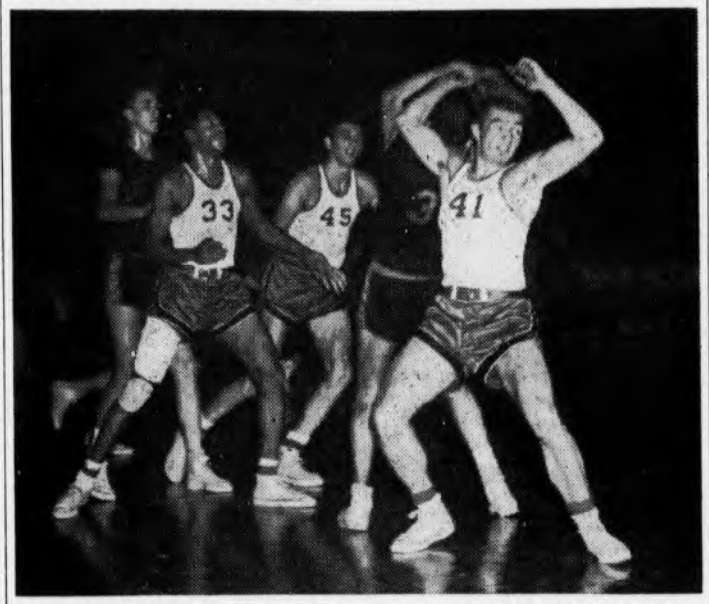
**League II**

| | W | L |
|---|---|---|
| Rinky Dinks | 2 | 0 |
| Tri Staters | 2 | 0 |
| Bell Boys | 1 | 1 |
| Mules | 1 | 1 |
| Phi Epsilon Pi "B" | 0 | 2 |
| G Hall | 0 | 2 |
| Sigma Phi Epsilon | 1 | 0 |
| Phi Kappa Tau "A" | 1 | 0 |
| Schmekials | 0 | 1 |
| Alpha Tau Omega "A" | 0 | 1 |

# Explorers Deal Mule Cagers Second Loss As Rally Fails

A late second half Muhlenberg rally fell short, costing the Mule cagers their second loss of the season at the hands of LaSalle college Tuesday night in Philadelphia's Lincoln high school. The Explorers, paced by Bill Katheder and Bill McGonigal, successfully stamped out the late threat for a 67-61 win.

## Bullets Falter In Final Minute As Mules Edge Out 64-63 Win



Joe Berghold (41) appears to be throwing the ball over his head as an unidentified Gettysburg player also has his arms raised in the scramble.

by Rich Raboy

A fired-up Gettysburg team pushed Muhlenberg to the limit before 2400 fans in Memorial hall Saturday night, but Steve Matell's two free throws in the last minute of play enabled the Berg passers to nip the Bullets' bid for an upset, 64-63.

Despite the handicap of a painful thigh injury, Clint Jeffries was the key figure in the Mules' close triumph with 18 points and 16 rebounds. With his right leg heavily taped, the Berg captain was unable to move with his customary speed and agility, but delivered when the chips were down in the final hectic minutes with two clutch baskets. Del Warfel of Gettysburg, however, was the top individual scorer of the night, banging in 10 field goals for 20 points.

**Sekunda Absent**

The Mules were severely hampered by the absence from the lineup of their high scorer, sophomore Dick Sekunda. Dick, who is averaging close to 18 pts. a game, was forced to sit out the entire contest because of an ankle injury. His replacement, 6' 7" Don Robbins turned in his best performance of the season, tallying 10 points and grabbing off 12 rebounds. Mel Kessler and Matell also scored in double figures with 12 points each.

The Bullets came within a hair of knotting the game and forcing it into an extra period when, with 12 seconds left and the Mules leading by one point, 64-63, Jeffries fouled the Bullets' Frank Grzelecki. However the latter missed the shot that would have evened it up. Even after that with only 5 seconds remaining the Bullets got possesion. Bob Walsack took a shot at the basket that would have won for Gettysburg, but the ball bounced off the rim into the hands of a Berg player and the Mules had their 6th victory in 7 outings tucked away.

Gettysburg, in suffering their 7th loss in 8 games, outscored the Mules from the floor, 27 field goals to 25, but the Mules converted on 14 of 29 charity tosses to Gettysburg's 9 out of 14.

Katheder arched in several long one-handers to gather 11 of his 15 points in the second half. McGonigal added nine, most of which came in the closing minutes. However, it was Muhlenberg captain Clint Jeffries who walked away with the scoring honors for the night. Jeff collected 18 markers on eight field goals and 2 free throws. Fifteen of these came as he led the Mules' late comeback. Dick Sekunda, back in action after sitting out the Gettysburg game last Saturday night with an ankle injury, scored 17, and Mel Kessler added 15.

The contest was a hard-fought battle from start to finish. The lead changed hands several times during the first half, but the Explorers manager to grab a four-point advantage at the midway mark, 34-30, with a six-point spree after trailing 30-28.

The hosts started the second portion as strongly as they had ended the first by running the count to 45-34. However, Jeffries and Kessler led a rally which gave the Mules 15 points to LaSalle's four, tying it at 49-49.

From that point on it was a tooth and nail battle right down to the final few seconds. Once again, it was Jeffries who kept his teammates in the running as he scored six of Muhlenberg's next seven points. However, LaSalle always managed to stay in front by at least one point.

With 30 seconds remaining to be played, it was LaSalle by two, 63-61, after Joel Sarner sank a driving layup. But Katheder threw in one of his long one-handers, and McGonigal dropped in two free throws to provide the Explorers with their final margin of victory and wipe out the upset threat.

The setback for the Mules marked the second time this season that they fell victim to a Philadelphia college. Their only other loss came in the same city against one of the nation's basketball powers, Temple university. For LaSalle, it was the eighth victory in ten starts.

In the preliminary game, which was cut to twelve-minute halves because hazardous driving conditions delayed the Muhlenberg bus one hour, the LaSalle freshmen defeated the Muhlenberg yearlings, 42-36. Once again, Al Filardi paced the Little Mules with 13 points. It was also the second loss for the freshmen team, whose record now stands at five and two.

| MUHLENBERG | G | F | T |
|---|---|---|---|
| Jeffries | 8 | 2 | 18 |
| Kessler | 6 | 3 | 15 |
| Sekunda | 5 | 7 | 17 |

| Totals | 25 | 17 | 67 |

## Berg Wrestlers Trounce Swarthmore By Decisive 20-10 Score In First Match

On Tuesday, January 7 the Muhlenberg Wrestling squad traveled to Swarthmore college for their first match of the 1958 season and emerged with a 20-10 victory encountering an inexperienced team made up largely of sophomores.

Coach Franket's forces made up of five juniors, two seniors and one sophomore, and led by Middle Atlantic champ, Don Simpson won six matches and appear to be off on another great season even though a great loss has been felt by the graduation of two Middle Atlantic champs, Frank Gutierrez and Paul Billy.

**First Win**

Sophomore Art Jaquette started off the meet with a 4-3 win over Don Hawley. Swarthmore quickly retaliated, however, with two pins by Bob Mehan and Jack Teller over Berg's Pierce Knauss and Gordie Warner and the score became 10-3.

From this point Muhlenberg was not to be stopped, piling up four decisions and one pin making the final 20-10. Jim Waller wrestling at a heavier weight than last year at 147, won a decision over Bill Jansen, 5-0. Dick King also at a heavier weight (167) beat Dick Clausen 10-2; Roger Keehn weighing in at 177, beat Jack Stephenson and heavyweight Jerry Rehrig collected the last three points with a 8-3 decision over Dick Strong.

One of the quickest and most decisive matches of the night was performed by Don Simpson who succeeded in pinning his man Steve Harman in 2:30 minutes with a cradle hold. Simpson was Middle Atlantic champ in the 147 pound weight class last year and has moved up to the 157 lb. class.

The Mules have a long schedule of eleven meets this year in the space of about two months time. The season will terminate with a two-day championship held at Wilkes college on Feb. 28 and March 1.

**MANHATTAN BASKETBALL TICKETS**

**Tickets for the Manhattan basketball game will be on sale in the Athletic Office until 4:00 P.M. Friday, January 10, 1958.**

**Students are entitled to purchase a $2.50 Reserved Seat for $.75. Student tickets will not be sold at Madison Square Garden.**

# Berg Meets Manhattan In Garden Encounter

Muhlenberg will travel to New York city and Madison Square garden for its next hardwood encounter with Manhattan college of Riverdale, N. Y., on Saturday evening. Coach Kenneth A. Norton's Jaspers (5-3) have defeated Farleigh-Dickinson (93-68), Bridgeport (83-48), Wagner (78-66), Memphis State (88-69) and Connecticut (62-57), and have lost to LaSalle (72-59), Pitt (71-63), and Dayton in an upset.

Like many coaches in the New York area, Norton has a rebuilding job on his hands due to the graduation of starters Jerry Paulson, Angelo Lombardo, John O'Connor, and Bob Josephs. These four teamed with returning letterman John Powers to capture the Holiday Festival crown at Madison Square garden last year and defeat such outstanding teams in the tourney as Niagara, Ohio State, and Notre Dame. In addition, the Jaspers went on to lead the nation in field goal accuracy last season.

**Inexperienced**

Despite inexperience, the Green and White have some size for a change in sophomores Bob Mealy (6' 6"), Pete Brunone (6' 6"), Ron Johnson (6' 7"), Jim Woop (6' 6"), Jim O'Brien (6' 5"), and Bob Dougherty (6' 4"). Brunone will team with veterans Powers (6' 2"), Don McGorty (5' 11"). Mickey Burkowski (6' 2"), and Dick Wilbur (6' 4") to form the starting five.

Powers, a senior and the only returning starter, is very aggressive and was right behind Lombardo in rebounding last year. He possesses a good shot and scores often on drives and sets. In 23 games for the Kelly Green last year he scored 274 points (a 62.9 field goal percentage) for an 11.9 average after averaging 17 as a sophomore (408 points in 24 games).

**Outstanding Soph**

Mealy, a sophomore reserve, tallied 415 points in 20 games on last season's excellent frosh team, and could develop into one of Manhattan's greats. Other top reserves include sophomore Bob Cleary (6' 2") and senior John Clegg (6' 1").

Last year the Mules did not face the Jaspers, but did meet them the year before with Manhattan, led by Lombardo, victorious in an overtime thriller. This year's contest will be the first game of a Garden doubleheader with Navy and NYU in the nightcap.

This will be the only game for the Bergmen in Madison Square garden. Following this Saturday evening contest, the Mules meet Lafayette at home.

## Temple Trips Mules; Kennedy Hits for 26

Temple university, listed as one of the top 20 teams nationally, combined speed, accuracy, and All-American candidate Guy Rodgers to deal Muhlenberg its first basketball loss of the season, 72-54, on Saturday night, December 21 on the Penn Palestra hardwoods in Philadelphia.

The Owls capitalized on their opponents' early jitters to seize a commanding lead which they never surrendered. It took Muhlenberg over ten minutes to register its first two-pointer of the evening. With 13 minutes gone in the first half, the fast-moving Philadelphians held a stunning 18-point lead, 26-8.

Temple, known for its surprise players, came up with another again this year in the person of sophomore scoring ace Bill "Pickles" Kennedy. His dazzling jump shots from the keyhole, and free throw accuracy (8-10) earned him high scoring honors for the night with 26 points. Rodgers followed with 18.

**Rodgers Steals Show**

It was Rodgers, though, who stole the show throughout the contest. The six-foot senior, who looks as if he has never handled anything but a basketball, startled the large Palestra crowd time and again with his basketball wizardry. His assistance in the form of timely handoffs and whistling passes accounted for practically half of his team's scoring.

The Mules suffered a two-fold impact from the contest. In addition to absorbing its first loss of the current season after five consecutive wins, Muhlenberg lost the services of Clint Jeffries midway through the first half, when he injured his left knee in a scrap beneath the Temple basket. He limped off the court and returned only for a short time in the second half.

Temple enjoyed a 14- point advantage at the intermission, 34-20. In the final 20 minutes, as in their previous appearances this season, the Mules came back stronger. Temple bounced back, however, and with eight minutes remaining to be played had their largest margin of the night, 61-40. The Owls simply glided to their victory from that point on.

**Sophomores Outstanding**

Sophomores paced the Muhlenberg attack. Dick Sekunda, Joe Berghold, and Joel Sarner tallied 14, 12, and 10 points respectively. Mel Kessler was the only other Mule in double figures with 12 markers.

The game marked the first time this season that the Bergmen lost the battle for rebounds. Temple led in that department, 50-48. Previously, NCAA statistics showed Muhlenberg first in the nation in rebounding with 65 per cent of the rebounds in their first five contests.

In winning their fourth game in six starts, Temple bolstered its edge over Muhlenberg in the series between the two teams to 22-15. The loss for Muhlenberg snapped a 10-game winning streak which began at the close of the 1956-'57 season.

## Intramural Schedule Set-up For Females

The 1957-58 intra-mural program for girls is underway. With the completion of the new gym in West hall, it is now possible for the co-eds to enjoy some of the facilities of a college sports program.

In just a few weeks, intra-mural volleyball and badminton will become a part of the activities. At present, however, some concentration is being put on developing a fencing program along with a few of the other sports open to males only.

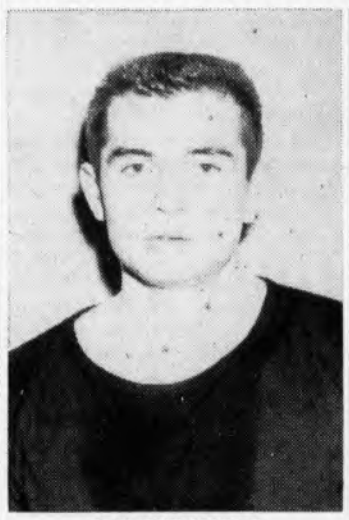
**Basketball Program**

Under the direction of Miss Jean Hecht, girls' physical education coach, Tuesday and Thursday afternoons from 4 to 5 p.m., intramural basketball is taking place.

Sonja Diamonti has taken the lead as far as scoring is concerned among the freshman girls. With the addition of new co-eds next year, there is hope for a complete intra-mural and inter-collegiate program.

## *In the Sportlight . . .*

## Berghold, King Add Strength To Mule Teams



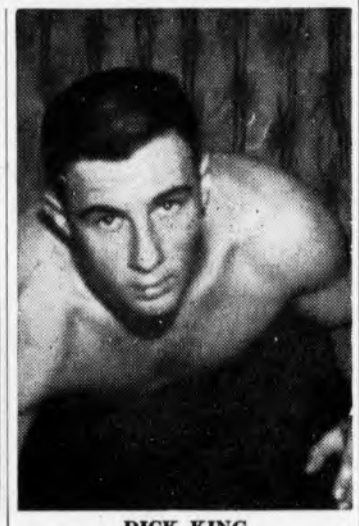
**JOE BERGHOLD**

Joe Berghold, who last year led the freshman basketball team to a great season, is having another fine year.

Joe is from Allentown where he captained his high school team and led them to an East Penn League title with a record of 25-1 in his senior year. This same year he was elected to the East Penn All League team and received the Most Outstanding Player award.

Joe, who is nineteen years old, is an accounting major. He is a brother of the Alpha Tau Omega Social fraternity where he serves in the office of assistant Exchequer.

Last year as a freshman Joe averaged twenty points per game. This year so far he has seen limited action. His best games to date have been against Delaware (16 points), Moravian (12 points), and Temple (12 points).



**DICK KING**

This year wrestling coach Frankett will have a very fine wrestler in Dick King, wrestling in the 167-pound class.

Dick, who is twenty years old is a Romance Languages Major. Besides wrestling, his other activities include Sigma Phi Epsilon Social fraternity and Phi Sigma Iota.

Last year in his first season of varsity competition Dick weighed in at 157-pounds. He compiled a record of five wins and four losses. This was overshadowed however, by his fine showing in his first attempt in the Middle Atlantic Championships. His record here was three wins and two losses and he placed fourth.

Dick feels that "this year the team appears to be as good as last year. It is a better balanced team even though two Middle Atlantic Champions were lost."

## Muhlenberg Faces Leopards; Seeks First Victory Since 1953

Muhlenberg faces the Lafayette basketball team on January 15, in Memorial hall in search of their first win over the Leopards in several years. Last year the basketeers from Easton beat the Mules handily by the scores of 82-76 and 80-68, while on their way to the NCAA play-offs.

Coach George Davidson in his third year of coaching at Lafayette has an impressive record of 42 wins and 12 losses. Davidson graduated from Lafayette in 1951 and while there scored 472 points in one season of play, a record which stood until the 1956-57 season. His 1955-56 edition went to the National Invitational tournament and last year's team went to the District 2 NCAA play-offs.

Davidson faces a major rebuilding task since only three lettermen are returning from last year's team. Gone are such stars as Jim Radcliff, Stuart Murray, who broke several scoring records last year, Tony Mack, and Gordon Galtere. The only returning starter from last year's team is center Bob Mantz. The other returning lettermen are Joe Sterlein and Dick Kohler.

**Starting Sophomores**

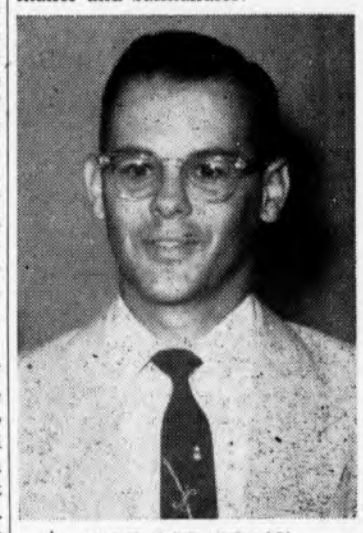
Lafayette's starting team up to this date has included two sophomores, one junior, and two seniors. Along with Captain Mantz, 6' 7" center, other starters are Sterlein, 6' 4" forward, Mike Wallace 6' 4" forward, Tom Brett, 5' 10" guard and Jim Hurst, 6' 1" guard. Mantz led the team in rebounding last year with 16.2 rebounds per game while scoring 348 points good for a 12.4 average per game. Sterlein became a starter late in the season last year and performed admirably in the NCAA play-offs. Brett, in his third year on the varsity, was hampered by injuries last year and served mainly in a reserve capacity. This year, however, he is sound physically and is playing good ball. Hurst and Wallace are both sophomores and had excellent seasons on the freshmen team last year.

# Frosh Basketball Led By Coach Dick Schmidt

**by Bob Schumacher**

Dick Schmidt, in his fourth season of coaching at Berg, has high hopes for this year's frosh squad. Led by co-captain Al Filardi, the team has rolled to a six and two record, losing to Rutgers and LaSalle frosh. Filardi has averaged 20 points a game, hitting mainly hook shots with either hand. The second high scorer for the little Mules is Ron Druckenmiller, a lefthanded shooter from Kutztown. Ron has averaged 15.2 points a game, hitting on a good percentage of his shots. The only other man in double figures is co-captain George Gilfillan, averaging an even 10 points a game.

Another big man who is improving daily is 6' 8" Rich Brennan. Rich has averaged just under double figures, hitting at a 9.2 clip while acquiring a better outside shot. The other man in the starting lineup is Don Nichol, who has acted mainly as playmaker and ballhandler.



**Coach Dick Schmidt**

Walt Harper, a stalwart in the frosh attack, had been used quite frequently but has been hampered recently by an ankle injury. Bill Nennstiel, the tallest man on the squad at 6' 8½", has been improving as he is learning to play the pivot. The smallest member on the squad is Ed Sousa, a good ball-handler and the best dribbler on the team.

The fiery Schmidt feels that this year's squad is similar to last year's team which compiled an 18 and 1 record. He stated that the squad is as tall and has the ability to duplicate this record, but thus far lacks the strong desire that was indicative of the play of last year's team.

Dick Schmidt's little Mules have

(Continued on Page Six)

## Mule Wrestlers Meet Temple and Moravian

After successfully opening the season by defeating the grapplers of Swarthmore, the Berg wrestlers engage the Temple Owls away on January 11, and the Moravian Greyhounds at home on January 15. The Mules were victorious over the Owls last year while on their way to a 7-2 record.

This year marks the first time that wrestling is being included in the intercollegiate athletic program of Moravian. Along with wrestling, the Greyhounds have also initiated cross country and indoor track. Coaching all three new sports for the greyhounds is Paul Kubentz, a 1946 graduate of East Stroudsburg State teachers colege. While in college, he lettered in westling, track and soccer. Since 1947, he has been coaching wrestling, football, and track at Northeast Junior high in Bethlehem. His grappling squads have copped the city duel championships eight out of nine attempts.

**First Year**

Since this is the first year of wrestling at Moravian, there are no experienced men available to lead the squad. At the first call for wrestling candidates, 28 men appeared and of these 28, eight men had high school experience. None have wrestled in college competition however. The men with high school experience are Charlie Bartolet, heavyweight; Bob Silvetz, 167 lb. class; Tom Lerch and Ron Cziracky, 147 lb. class; Steve Viglione, 137 lb. class; and John Jacob, 130 lb. class. Of the men still remaining on the squad, five are freshmen, seven sophomores, and three seniors.

Moravian has competed in three matches prior to the one with Berg and has dropped all three of them. They have lost to Wilkes, Swarthmore, and PMC.

Muhlenberg on the other hand has five returuing lettermen to bolster a squad of men trying to improve on last year's record. Captain Don Simpson, Dick King, Roger Keehn, Gerry Rehrig, and Pierce Knauss are all returning lettermen. Jim Waller, who won four out of five bouts in the 137-lb. class last year, is also back on the team wrestling in the 147 lb. class this year. These men, supported by sophomores Art Jaquette and Gordon Warner make up the starting line-up for Berg.

# Philadelphia Holds Picasso Exhibition

Art enthusiasts of Philadelphia and nearby cities will have the rare opportunity if enjoying the most comprehensive Picasso Exhibition ever held in this country, according to the statement of R. Sturgis Ingersoll, President of the Philadelphia Museum of Art, when this striking 75th Anniversary Exhibit opens in the 15 First Floor Galleries surrounding the Great Hall of the Museum, from January 9 through February 23.

This extraordinary Exhibition, covering 60 years of the work of the world's most famous and controversial artist, has already drawn record-breaking crowds in other cities; over 300,000 when first shown last summer at the Museum of Modern Art in New York, and over 116,500 this fall at the Art Institute of Chicago. Undoubtedly, it will receive the same overwhelmingly enthusiastic reception when it is exhibited at the Philadelphia Museum of Art, its final showing in this country.

**Greatest Works Displayed**

This impressive Exhibit will include many of Picasso's greatest works, with special emphasis on his paintings since the world famous Guernica of 1937, on his sculpture, which has seldom been seen, and on his ceramics, here shown for the first time in America. In all, it will include 300 oils, water colors, drawings, and sculpture assembled by Alfred H. Barr, Jr., Director of the Museum of Modern Art, from 95 of the leading museums and private collections in the world. 31 rarely seen paintings, lent by the artist himself, will add an especial interest to the Exhibit.

Individual in form, universal in feeling, the genius of Picasso, incredibly vibrant after sixty years of creation, continues to captivate with its endless originality, to astound with its vigor and versatility.

# Queen Honors Berg Student

(Continued from Page One)

to buy machinery and materials so their living standard became better. Rev. Magalee's story sounds very simple but actually it involved 11 years of work and effort. In addition to establishing the co-op plan in the section, Magalee also attended to the medical needs of the Indians and for six years of his work he traveled from one to another of his 11 congregations spread along the Barbic River into the very tip of the jungles, by government beat and then by canoe. Later, the Evangelical Lutheran Church supplied him with a diesel powered houseboat, complete with living facilities and an office.

For this work, he was awarded one of Britain's highest honors. In the entire British Guiana only one or two at the most, sometimes none, are awarded the MBE annually.

# Dick Schmidt

(Continued from Page Five)

compiled a mark of fifty wins agains only nine losses since his start at Berg's frosh coach in 1954. He also coaches the cross country squad at Berg and teaches physical education at Allentown high school. He graduated from Allentown high in 1944 and captained the basketball team coached by Birney Crum in his senior year. Upon graduation he attended East Stroudsburg State Teachers college, where he also played basketball.

# A Letter To The Editor

To the Editor:

While perusing through the **Ciarla** I was asked to write a criticism. In short it is easy to see that **Ciarla** '57 will not go down in history as a great yearbook. There are defects which are quite evident throughout. The faculty section, to my eye, leaves something to be desired. In the past Ciarlas, the faculty pictures were departmentalized, which seemed more effective to me. Also, the candid pictures throughout seemed quite superfluous. Likewise, there are various discrepancies which would be too long to mention in entirety.

However, there are certain exigencies which attributed greatly to this defective **Ciarla** which the uninformed Berg student does not know. The editor-in-chief of this Ciarla graduated and left college with the book in a shambles and unpublished. The editor-in-chief and his staff of this year's **Ciarla** ('58), took this chaotic mess and in a short period of time put together a yearbook. Consequently we should be thankful to Mr. Spivak and his staff for giving us a yearbook and we should not be too critical. For, all in all, it serves its purpose.

(Signed) Richard N. Fine

# Foreign Scholarships

(Continued from Page One)

French program includes forty assistantships for young Americans to teach in French secondary schools and teacher training institutions. Many of the assistants can also take courses in nearby universities.

General eligibility requirements are U.S. citizenship, a bachelor's degree by the time of departure (applicants in the field of medicine must have an M.D. degree), knowledge of the language of the country unless waived, a good academic record and good health. Generally, the age limit is 35 years. The Cuban award and certain French awards specify that candidates must be under 30 while the Netherlands awards are for persons under 28.

For application blanks and further information about these scholarships see your campus Fulbright Advisor or write to the Institute of International Education in New York or its regional offices.

# The Chowline

Only one week of classes is left in this semester and the personnel of the Snack bar are rapidly preparing for the final examination period.

An extra large order of coffee and flavor buds has been secured in expectation of an exceptionally large increase in demand. This beverage will be available to all men and women in dire need of nourishment, as a bracer, or as a receptacle for tears.

Along with the coffee order is an increased order for doughnuts, pastry, and other baked treats. These items will be available to those individuals who do not have enough time to eat, shower, sleep, shave, pluck their eye-brows, put on powder, etc. All persons caught in the massive "brain twitch" will be welcomed, treated, and consoled.

Very shortly the Snack bar will feature special snacks, sent directly to us from the kitchen of Roland. These items, it is rumored, are recommended by Duncan Hines.

That's all until exam time, when we will twitch together.

**Adv.**

# Ciarla Review

(Continued from Page Three)

Let us not judge this book too critically. The job done by the 1958 staff is a credit to their ability rather than a discredit. We cannot defend the book, for it is obvious that it does not meet the standards set in previous years. However, when you consider that the 1958 staff was doing a job that they were not obligated to do, and that they had a deadline to make and very little time to make it, we can not help but praise the book that they produced.

The difficulty lies in the fact that responsibility is placed in incapable hands. Too many students assume positions for the prestige alone, and are not interested in the work or the responsibility that is attached to the job. This year's Ciarla is an excellent example of the results of such a situation.

If the 1957 Ciarla is an example of the capability of the present **Ciarla** staff under difficult circumstances, it is a sure bet that we have an excellent staff this year. The 1958 **Ciarla** should be a true example of their ability. The present yearbook is merely a reflection of the poorly organized, poorly chosen editorial staff of last year.

# Elvis Presley

(Continued from Page Three)

ic in order to keep from frightening the ladies of an earlier era with his own heavy-lidded gaze; Elvis could remain the boy next door. He was even able to capitalize on his innocence: in his television appearances he could find himself flinging a Svengali-like finger out toward his audience and, when they squealed, he couldn't keep from giggling.

# Medical Center In Operation

(Continued from Page One)

room for many needed drugs. The new records room will greatly facilitate the burden of the medical staff. All of the rooms are furnished with asphalt tile flooring.

Dr. Weaber, who directs and supervises all medical activity and therapy for Muhlenberg college, has expressed his complete satisfaction toward the adequacy of the facilities. Dr. Weaber has been in charge of the complete furnishing of the center, which included a complete inter-communication system within the building and the necessities of a full-scale physiotherapy phase.

**Hours for Treatment**

The schedule of hours for treatment will remain the same and there will be no overnight cases handled in the building. A new nurse, who will be on full-time duty, has been added to the medical personnel.

With the introduction of co-education, a change in the medical facilities was compulsory and plans were made to make this change. Now a reality, the new red brick building takes its place as a vital part of Muhlenberg college.

# . . . Student Council Report . . .

December 19, 1957

The regular meeting of the Muhlenberg college Student council was called to order by Vice-President Dennis Gurski at 7:07 p.m. Messrs. Shellenberger, Skweir, and Vari were absent. Messrs. Torres, Smith, and Ueberroth were excused.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $1,625.62 |
| Social fund | 620.21 |
| Assembly fund | 1,285.27 |
| | $3,531.10 |

There was no Old business.

**NEW BUSINESS:—**

Mr. Piston moved and Mr. Becker seconded a motion that the Student council accept the Constitution of the Class of 1961. Motion carried.

Mr. Piston moved and Mr. Becker seconded a motion that the Student council accept the By-Laws of the Class of 1961. Motion carried.

Mr. Spector suggested to Council that the Inter-fraternity council, the Editor of the **WEEKLY**, and the Student council meet with the Dean of Men and the Dean of Women for the purpose of seeking solutions to some of the problems currently existing on campus, with reference to coeducation.

Mr. Gurski recommended to council that the Student councils of Cedar Crest college and Lehigh university be invited to attend a joint meeting with our Muhlenberg college Student council for the purpose of bettering relations between the several institutions.

Mr. Markoe moved and Mr. Becker seconded a motion that the Student council recommend to the Dean of the Faculty that hourly tests be eliminated for a few days before final exams.

The meeting was adjourned at 7:40 p.m. on motion by Mr. Leighton and Mr. Piston.

Respectfully submitted,

THOMAS CARPENTER,
Secretary Pro Tem

Vol. 78 First Class Muhlenberg College, Allentown, Pa., January 16, 1958 A. C. P. Rating No. 14

# Lafayette Humiliates Mules; Leopards Romp To 75-58 Win

by Ben Livingood

Faltering Muhlenberg lost its chance to regain some prestige as an underdog Lafayette college five rolled to a 75-58 victory last night in Memorial hall. The Leopards, who haven't been beaten by a Muhlenberg team since 1954, moved ahead, 2-1, in the opening minutes and never relinquished the lead.

The loss was number three in a row for the Mules, and marked the first defeat on their home court since January 19, 1957 when Bucknell university pulled its 74-68 upset.

Lafayette's accuracy from both the field and the foul line was the major determining factor. The Leopards shot better than 50 per cent (27-49) from the floor and dropped in 21 of 27 free throws. Mike Wallace's 15-point performance paced the Maroon and White, while three others finished in double figures. Jim Hurst and Dick Kohler tallied 14 each, and team captain Bob Mantz added 10. The Mules' Clint Jeffries was the game's high man with 16 points, 12 of which came in the second half.

Muhlenberg held the edge in the rebounding department with 38 takedowns to Lafayette's 31. However, the Bergmen found great difficulty in hitting the mark. They were successful on only 23 of 65 floor shots and 12 of 19 free throws. The Mules proved that a team which is only good in spots, can't win ball games.

Lafayette got off to a fast start, mounting its advantage to nine points, 17-8, after eight minutes of play. The Mules countered with a surge that cut the lead to one point, 18-17. The Leopards, however, managed to find themselves once again and were out in front by six, 35-29 at the half.

The final 20 minutes proved disastrous for the Mules. They managed to stay relatively close for a time. They moved within four points at 50-46 with ten minutes remaining, but that was the closest they came to the sharpshooting visitors.

In the late moments of the contest, the Muhlenberg attack seemingly went to pieces. Lafayette capitalized on their hosts blunders to take the victory going away. The Leopards widened the gap to 73-55 with a little more than two mintues left.

In the preliminary, the Muhlenberg freshmen, behind the 27-point showing of Al Filardi, walloped the Penridge A.C., 81-64. George Parker and Tom Hollenbach paced the visitors with 19 and 16 points respectively. The Little Mules' attack was also bolstered by Ron Druckenmiller with 18, and George Gilfillan with 16 tallies.

During the intermission of the varsity game, Muhlenberg President J. Conrad Seegers presented Mr. H. A. "Haps" Benfer, one of Muhlenberg's greatest administrators, with a memorandum from the athletic committee in recognition of 25 years of meritorious service to Muhlenberg college athletics.

## Banquet Highlights Initiation Weekend Of Tau Kappa Epsilon Zeta Eta Chapter

Don Snyder, president of the newly initiated Zeta Eta chapter of Tau Kappa Epsilon, unveils the charter which was presented to them at the initiation banquet. Viewing the charter are: (from left to right) Mr. Magnus Flaws, Province Hegemon; Dr. J. Conrad Seegers; Mr. Donald Becker, Grand Hypophetes; and Mr. Frank B. Scott, Grand Prytanis.

Saturday evening the Americus hotel was the scene of the initiation banquet of Alpha Mu Iota local fraternity, into the national fraternity, Tau Kappa Epsilon. Members of the college administration in attendance were: President Dr. J. Conrad Seegers, Dean and Mrs. Claude Dierolf, Dean Heimtraut Dietrich, Mr. and Mrs. Howard MacGregor, Dr. and Mrs. Rodney Ring, and Dr. Hagan Staack.

The evening's festivities began with the invocation by Dr. Staack, professor of religion at Muhlenberg and assistant chapter advisor to the newly initiated Zeta Eta chapter of Tau Kappa Epsilon. The invocation was followed by a group song, "Sweetheart of TKE." Don Snyder, president of Zeta Eta, then introduced Mr. Donald H. Becker, chief installing officer and Grand Hypophetes of Teke. Before unveiling a replica of the charter which was given to the new chapter, Mr. Becker expressed his sincere hopes that Zeta Eta would be an asset to both the college and to Tau Kappa Epsilon. He also congratulated the installation team from Moravian college, who handled the initiation ceremonies on Saturday afternoon.

**Presentation of Charter**

After the unveiling of the charter, Don Snyder introduced Mr. Frank B. Scott, Grand Prytanis of TKE, to the assemblage. Mr. Scott briefly described the history of Teke and announced that three new chapters were installed last weekend, bringing the total number of Teke chapters to 146, coast to coast. In presenting the new charter to Don Snyder, Mr. Scott expressed his hope that Zeta Eta would live up to the expectations of Tau Kappa Epsilon, and to the expectations of Muhlenberg college.

Mr. Magnus Flaws, Province Hegemon, then presented to Zeta Eta, the Teke horseshoe, which is a symbol of faith, good fortune, and friendship, and is presented to each new TKE chapter on its initiation.

**Guest Speaker**

The guest speaker for the evening was President J. Conrad Seegers. After congratulating the brothers of the new Teke chapter, Dr. Seegers took a stand against those who claim that fraternities are "un-American, undemocratic organizations which have served

(Continued on Page Four)

## Princeton Holds Medical Exams

Princeton, N. J., January 10: Candidates for admission to medical school in the fall of 1959 are advised to take the Medical College Admission test in May, it was announced today by Educational Testing service, which prepares and administers the test for the Association of American Medical colleges. These tests, required of applicants by almost every medical college throughout the country, will be given twice during the current calendar year. Candidates taking the May test, however, will be able to furnish scores to institutions in early fall, when many medical colleges begin the selection of their next entering class.

Candidates may take the MCAT on Saturday, May 3, 1958, or on Tuesday, October 28, 1958, at administrations to be held at more than 300 local centers in all parts of the country. The Association of American Medical Colleges recommends that candidates for admission to classes starting in the fall of 1959 take the May test.

**Objective Test**

The MCAT consists of tests of general scholastic ability, a test on understanding of modern society, and an achievement test in science. According to ETS, no special preparation other than a review of science subjects is necessary. All questions are of the objective type.

Copies of the Bulletin of Information (with application form bound in), which gives details of registration and administration, as well as sample questions, are available from pre-medical advisers or directly from Educational Testing Service, 20 Nassau Street, Princeton, New Jersey. Completed applications must reach the ETS office by April 19 and October 14, respectively for the May 3 and October 28 administrations.

## Fall Semester Classes End; Finals Begin

Classes for the 1957-58 fall semester ended today and the final examinations will begin tomorrow morning at 9 a.m. and will continue until Saturday, January 25 at 4:30 p.m. As many of these examinations as possible will be held in Memorial hall. Any student who has a conflict in his final examination schedule is asked to see the instructors who are concerned and arrange for an earlier or a later examination in one of the subjects. The subject concerning the student's major field will take priority, followed by his minor and then his electives.

**Rules for Exams**

Dean Richards has released the rules which should be followed during the final examination period. They are as follows:

1. Put your books, etc. up front, or in the permanent seats in Memorial hall.
2. Be on time. You can be denied the right to take the examination if you arrive late.
3. Don't talk to your neighbor or place yourself under suspicion. Stick to your business. When you are finished, leave promptly and quietly. Do not stay to visit with the proctor. He has duty to perform. Your visit will distract him from that duty.
4. Do not enter an examination room unless you are taking the examination being given there. If you must see one of the proctors, wait until he leaves the examination room after the examination. Do not stand around in the doorway to the examination room.
5. If you are taking an honor

## Chapel To Be Scene Of The 'Singing City'

The third concert in the Muhlenberg Concert series will take place on Sunday, February 9, 1958, at 4 p.m. in the College chapel. Dr. Elaine Brown, nationally famous director of the "Singing City" will be in charge of the program that will contain music from the liturgies of the great religions.

The group started in Philadelphia, and, under the inspired leadership of Elaine Brown, has steadily grown in importance and prestige. It is dedicated, through concerts, festivals, clinics and workshops, to Man and Music and to the attainment of the essential harmony in each. The chorus is inter-racial and open to men and women of all creeds. A select group from the large chorus will be represented for the Muhlenberg concert as the space in the Chapel is listed.

A concert under Dr. Brown's direction two years ago, in which she directed the Temple university chorus proved to be one of the outstanding concerts of that season. In the meantime, she resigned her position with the Temple university chorus to dedicate herself fulltime to the organization of "Singing City."

The concert, as usual, is open to everybody without charge.

## Letters To The Editor

**All students are reminded that in order for a letter to the editor to be published in the WEEKLY it must be signed in full by the contributor.**

**Karl Becker, Editor**

# Les Brown To Appear At Annual Junior Prom

"Les Brown and his Band of Renown" will be the featured attraction at the annual Junior Prom, on Friday evening, February 14, at the Frolics ballroom. Les Brown, rated by **Downbeat, The Billboard,** and **Metronome,** as the top dance band in the country, will be making his first appearance at Muhlenberg college.

Les Brown

The theme of the dance, "A Sentimental Journey," is taken from the song which made Les Brown famous. Dress for the dance is formal, and will be held from 9 p.m. to 1 a.m.

**Class Officers**

The Junior class officers are: Charles Smith, president; Walter Schuman, vice-president; George Thomas, secretary; Edward Thieler, treasurer. Chaperones for the evening are: Dr. and Mrs. Victor L. Johnson, Dr. and Mrs. John J. Reed, and Dr. and Mrs. David H. Bremer. Honored guests for the evening include: Dr. and Mrs. J. Conrad Seegers, Dean and Mrs. Henry M. M. Richards, Dean and Mrs. Claude E. Dieroff, Dean Heimtraut Dietrich, Admiral Charles W. Moses, Dean and Mrs. Harry A. Benfer, and Mr. William L. Kinter. The prom committee this year consists of Burton Eisenbud, chairman; Richard Hess, Donald Nase, Stanley Schabert, William Higgins, Philip Eichler, Paul Horger, Marvin Hyett, and Edward Meyer.

Les Brown's band is known all over the world through his eight years with Bob Hope on Radio and TV, his recordings for Decca, Columbia, Coral, and now Capitol, and his personal appearance tours as well as his tours before armed forces units in Europe, Japan, Alaska, Korea, and many other far countries. The name Les Brown has become a symbol of good, danceable music throughout the continent. Time magazine recently quoted him as saying: "We prefer sound to noise, we prefer the best over effects, we prefer consonance to dissonance, and we like the melody if it's good." This seems to have been the formula of success of the Band of Renown and its personable leader, Les Brown.

**First in Popularity**

All through the years Les Brown has appeared battling for first place in all the popularity polls; however, in 1953-1954-1955 and 1956 he won all first place honors. His first place in **Downbeat** and **Metronome** go on year after year.

Along with Les Brown's retinue is his vocalist Butch Stone. "Finding 'Butch' Stone was one of the greatest strokes of luck I've had in the band business," says leader Les Brown. In his fourteen years with the band, Henry 'Butch' Stone has won a string of titles including comedian, vocalist, assistant leader, music librarian, gloom chaser. Butch has won friends the world over for his great entertaining feats as well as his smile.

## AKA Merges With National Fraternity

Twenty-eight years ago, Alpha Kappa Alpha was founded on the Muhlenberg campus. This fraternity was founded on the principles of being honorary philosophical society. The organization is now under the advisory of Dr. Russell Stine, professor of philosophy.

Proceedings began a year for the merging of another such fraternity with Alpha Kappa Alpha. The purpose of this was two competing groups should not exist, with the possibility of harming each other. With the merger of Phi Sigma Tau with Alpha Kappa Alpha, the organizations will be stronger, without this separation, as they both abide by the same precepts.

**Twelve Chapters**

Alpha Kappa Alpha has twelve centrally located chapters in the Pennsylvania and Maryland areas. Phi Sigma Tau has sixteen chapters which are scattered throughout the country. Although Alpha Kappa is the smaller of the two in chapter size, they will be still retained as the alpha chapter and have control of the ordering of chapters. The distinction of still being the mother chapter, at Muhlenberg college, is an honor which has given great pride to those concerned.

The articles of merger were drawn at a meeting held in December of 1956, at the University of Pennsylvania. It has taken the intervening year to complete ratifications by the various chapters.

The articles of merger were

With the joining of the two fraternities, and their added strength, there is a possibility that they will fulfill the requirements for joining the Association of National Honorary fraternities.

# College Choir To Hold Concerts In Six Cities And Two States

Approximately 70 members of the Muhlenberg college choir, under the direction of Mr. Ludwig Lenel, will participate in a six-day concert tour, beginning on Tuesday, January 28. On this day the choir will appear at the high school auditorium in Dover, Ohio, where the concert is being sponsored by the Grace Lutheran church.

On Wednesday evening, January 29, the group will present a concert at the Trinity Lutheran church in Canton, Ohio, followed by another evening concert at the First Lutheran church in Findlay, Ohio on Thursday. The Augsburg Lutheran church in Toledo, Ohio will play host to the choir on Friday evening and on Saturday eveing they will appear at St. Paul's Lutheran church in Newark, Ohio. The concert tour will be concluded by the choir's appearance at St. Paul's Lutheran church in Carlisle, Pennsylvania.

**Program**

At least two of the numbers which will be included in the program to be presented by the choir, will be new numbers which have never before been presented in this country. The program itself is divided into three parts. The first part includes a number by

(Continued on Page Four)

## Film Series Features John Wayne Western

On Friday evening, February 7, the Muhlenberg college Cinema series will have "Stagecoach" as its feature presentation. All students will be admitted free of charge.

"Stagecoach" stands among the greatest of epic Westerns. This strange adventure centers around nine oddly assorted people traveling in a stagecoach to New Mexico. Threatening danger throughout the picture brings their true characters to the surface.

Starring in the leading role will be John Wayne. The supporting cast includes Clair Trevor and Thomas Mitchell. There will be two showings of the film, one at 7 p.m. and one at 9 p.m., in the Science auditorium.

# Editorial Views——

## Once Again. Apathy . . .

Newspapers and magazines are becoming increasingly aware and shocked at the apalling student apathy prevalent on American college campuses. Articles in past issues of the **WEEKLY,** as well as the present issue, have endeavored to make the students of Muhlenberg cognizant of the apathy present on our own campus.

However, all apathy present at Muhlenberg does not have its origin in the student body. Members of the faculty and administration have also fallen victim to this all-inclusive attitude. Campus leaders maintain that not enough students are willing to assume responsibilities, causing too many responsibilities to fall on too few people. A similar situation exists among members of the faculty. Also some faculty and administration become members of honorary fraternities and organizations but never attend meetings or offer suggestions. Although the student body is faced with compulsory chapel attendance, faculty attendance is negligible if not lacking entirely. Should such conditions be allowed to continue?

Even greater evidence of existing faculty apathy can be detected in relation to houseparty weekends and other mixed meetings requiring proper chaperoning. The personnel deans prefer parties to be chaperoned by members of the faculty and their wives. A great number of requests for chaperoning have been coldy and flatly refused. An insurmountable barrier would be erected, under existing circumstances, if the College required all parties and mixed gatherings to be chaperoned by faculty and administration members.

During the Student Leadership conference, certain goals toward which the faculty should strive were discussed. They were listed, in the conference minutes, as:

1. Strive to achieve an atmosphere which is conducive to intellectual achievements.
2. Develop a campus of which we can be proud—this includes everything from scholarship to cleanliness.
3. Strive to achieve an atmosphere which would be conducive to intellectual and social maturity.
4. Strive to develop a college to which we would want to send our successors. These areas of concern, it was felt should be dominant in the minds of all faculty and administration members.

These considered goals can only be realized if the present faculty apathy is removed. With such a removal being accomplished, Muhlenberg could then become a better place to live.

*See if you can answer this question about your own future:*

**How much will you get back on your insurance dollar?**

Many people think it costs them money to have insurance protection. The facts are quite different. For example, if you take out a $10,000 Brotherhood Provider policy from Lutheran Brotherhood when you are twenty years old, you will actually receive $1.74 at age 65 in return for every dollar you have paid in. That's a profit to you of 74¢ on every dollar you invest—*and you have full protection from the day you sign up for the insurance besides.* At 65 you have a choice: you can have $12,255—or you can have a monthly income of about $77.20 for life. This figure is based on current dividend rates.

Protection for your beneficiary increases with the years, too. It starts with the $10,000 face amount, and rises steadily to $15,979 if you should die at age 65.

These are some of the reasons we say Lutheran Brotherhood gives "Living benefits for Lutherans through life insurance." You get the protection you need during your entire productive life, then get back much more than you have invested.

Talk to your Lutheran Brotherhood representative about the advantages of beginning your insurance program early, when the rates are lowest.

# Letters To The Editor

## Apathy

To the Editor:

Apathy! Apathy! Apathy! A word used consistently in American colleges today. And rightly so! Because it preemptorily describes the attitude of American college students. Impressiveness toward intellectual and cultural ideas is quite prevalent is our educational institutions. An article in **Time Magazine,** in a recent issue, characterized this attitude as complacency. There are few, if any, radicals among American college students who challenge the ideas of the past or present. The student is no longer interested in "Knowledge for Knowledge's sake," but knowledge for expediency's sake. Education has become the means by which he can be inculcated into society. He is not interested in developing his mind and "To know the best that has been thought and said in order to see things as they really are," but conforms to the prevalent views of the day. As Matthew Arnold would say, "He has sweetness; but no light." He is imbued with the niceties—diletantism; but does not have a developed mind to permeate the innovation of society for its betterment.

Why this apathy? Why is the intellect the thing of the past? In a recent article in the **WEEKLY** the blame was laid upon the professors and administration of Muhlenberg college. True, the apathy of some professors, the lack of qualified speakers and provocative programs, and the overcrowded classrooms where the atmosphere is not one which will foster the permeation of ideas, leads to an apathetic attitude. However, it is not the ultimate cause. It is merely apathy itself—a failure to attempt to alleviate the situation.

In my eyes, the crux of the situation is more encompassing. It involves our entire educational system. It is a failure in the junior high schools, high schools, as well as the colleges, to psychologically adjust the student to education. They fail to show the student the innate worth of knowledge; and therefore, his environment shows him the mere pragmatic purpose of education.

The crux is the economic law of 'Supply and Demand.' Society doesn't demand the intellect or cultured individual. Ironically, he is even disparaged and depricated. The college student who strives for culture and sagacity is at once tagged a pedant. Likewise, if he uses a four-syllable word, he is subjected to insidious and invidious derision.

If we are to alleviate this apathetic situation, the impetus must be internal as well as external. The individual must be shown the worth of knowledge so that he will inwardly desire it.

Granted my panacea is somewhat idealistic and possibly quixotic. For I realize that educators throughout this country are diligently and vigorously attempting to find a solution to this apathy; but being constantly and personally confronted with the situation, I deemed it necessary to express my views.

Sincerely yours,
(Signed) Richard N. Fine

## More Apathy

To the Editor:

Every college activity seems to have what are generally called "off" years, years of which the specific organization is not too proud. The natural reaction is for the Student Body to criticize and condemn the organization, often without examining the situation as it really exists.

Here at Muhlenberg, we are what may be called fortunate, insofar as the excellence of student activities is concerned. And we are fortunate, too, as far as the quality of our student leadership is concerned.

But, there is one thing wrong. If we were to examine our student activities and their individual leaders, we would find that there is only a hand full of men and women who are doing the work. Indeed, most campus leaders, as a result of this, find themselves taking the reins of not only one, but two or three campus groups.

These students are, I feel, expressing the college spirit in a much deeper way than mere cheering at an athletic contest. I think that it is a definite shame that the generally apathetic student body allows all of the work to fall on the shoulders of a few consecrated students.

An example? All of us should be concerned with the activities of the Student Council, yet as Harvey Stein told me last year, in his 3½ years as a member of the council, not one single student ever attended a meeting to understand or learn of the activities of the council.

If you don't think that the council is doing its work in the manner that it ought, come to a meeting and tell the members so. If you don't like the way the **WEEKLY, or CIARLA,** or **ARCADE** is being run, join their staffs and exert your expert ability. But then, again, we have too much apathy.

Very sincerely yours,
(Signed) Ray Ueberroth

# THE CAMPUS Whirlpool

by Dick Kennedy

An apology is in order from the **WEEKLY** to John Dreisbach concerning the interpretation of his painting in the Pretheo room in the Student center. We made the statement that the tiny red dot in the center of the concentric circles at the top of the painting represented the evil in God. This was wrong. John has corrected this error by stating that this red dot represents "not a bit of evil in the Godhead, but rather the capability for it within his realm."

This correction and apology grow from a letter which the **WEEKLY** received from an anonymous writer called "Scorpio." It has been stipulated by the staff (because of previous unfortunate experiences) to refuse to accept letters to the editor unless they are signed by the person's real name. We hope that this explanation will explain why Mr. Scorpio's letter was not printed; the next time, Mr. Scorpio please have enough backbone to sign your name.

The unique Roland has even spread his influence to the upper echelon of the College. Last week, the morbid TV personality guaranteed that for anyone who sent in three human hairs for a pillow he was making, the sender would receive a genuine picture of Roland. It has been overheard that Dr. Rodney Ring complied with Roland's request and has sent in his hairs. When he gets the picture, he plans to hang in in the religion office.

Whatever happened to the challenge which Don Michaels placed before the coeds? Two issues ago, a bold box appeared calling for girls who wished to debate on the topic "The Masculine Sex has a Natural Superiority—Intellectually, Morally, Socially, and Physically." Don has had no answers. If you girls want to uphold your pride in womanhood, let's at least put up a battle—eh what?

# Alpha Kappa Alpha Began At Muhlenberg

**Philip Feigenbaum reviews a paper at a recent meeting of Alpha Kappa Alpha, as Dr. Russell W. Stein, Dr. Heinrich Meyer, and Dr. Harold L. Stenger look on approvingly. Dr. Meyer was the guest speaker.**

by Jan Horvath

Twenty-seven years ago a new kind of institution was established on the campus of Muhlenberg college. This innovation was the national honorary philosophy fraternity, Alpha Kappa Alpha. AKA was not only the first chapter of the philosophy fraternity but also the forerunner of the now numerous national honorary fraternities on campus. Now, ten chapters have been installed at various colleges across the nation.

The main theme of the meetings is the reading of a paper conveying the aspect of truth in art, literature, and history. The talk is followed by a discussion during which the members can liberate their ideas on the subject.

**AKA Convention**

Once a year, during spring recess, a convention of the various chapters is held at one of the colleges. A banquet, at which a distinguished professor speaks, in the **piece de resistance** of the convention. At the close of the year, Dr. Stine, the club's adviser, will summarize the papers read throughout the year, and a local banquet will conclude the year.

Membership for the fraternity is extended to students who have completed ten hours of philosophy and have upheld a B average. However, the meetings are opened and the non-members are invited to participate in the discussions.

# Courtmen Face Rough Foes; Games Continue During Exams

This Saturday evening Muhlenberg will meet a visiting Georgetown university five coached by Tom Nolan. The Hoyas, who posted only an 11-11 record last year, have lost experience, height and scoring punch because of the departure of several outstanding seniors, but have acquired more speed and defensive ability with the addition of several promising sophomores.

Heading the list of holdovers are Ken Pichette (6' 3"), the only returning starter, Joe Titus (6' 6"), who has adequately replaced Joe Missett (6' 7") at center, Jack Nies (6'), the top frosh scorer two years ago, and John Clark (6' 2"). These four, plus sophomore Tom McCloskey (6' 1"), the top frosh scorer of last year, will probably make up the starting team.

**To See Action**

Others who are expected to see service are sophomore Jack Rafferty (6'), and veterans Jack Wood (5' 10") and Jim Oravec (6' 2"), a junior from nearby Palmerton, Pa.

After dropping a decision to Princeton, 87-68, Georgetown has been impressive with victories over such schools as Loyola of Baltimore, Mt. St. Mary's, Baltimore university, Catholic university, and St. Peters's.

**Mules Meet Lehigh**

On Wednesday, January 28, the Mules will travel to Bethlehem to meet the Brown and White of Lehigh university. In their first encounter on December 17 the Bergmen rolled to an easy 83-61 triumph over Tony Packer's Engineers.

In this contest it was very evident that Lehigh (8-10) last year) lacks both height and scoring punch. Starting forwards and co-captains Bob Roepka (6' 2") and Tom Healy (6' 1") were impressive as they pulled the Engineers to within striking distance in the first half. Roepka, a senior letterman from Passaic, N. J., averaged 18.4 points per game last year, and hits well on jump and set shots from outside.

**Other Starters**

Other starters undoubtedly will be junior Arnis Balgalvis (6' 6"), at center, and junior Norm Zelenko (6' 2"), a fine floorman, and sophomore Terry Eckert (6' 3") at the guards.

Three days later, the LaSalle Explorers (17-9 last year) will invade Memorial hall in a game that should be one of the season's best. Just one week ago coach Pollard's LaSalle five had to go all out to defeat the Bergmen by a score of 66-61. The Explorers, loaded with veterans and promising sophomores, will probably have seniors Bill Katheder (6' 5") and Charles Eltringham (6' 4") at forward, little sophomore Ralph Bantavoglio at center, and sophomore Joe Heyer and senior Bill McGonigal (6' 2") at the guards.

**LaSalle Victories**

Thus far, LaSalle, which uses a five-man weave and a "flash" pivot to great advantage, has been very successful after losing its opener to Millersville State Teachers' college, 90-80. They have gone on to defeat such college fives as Lafayette (82-74), Manhattan (72-59,), and Niagara (69-68).

On Tuesday, February 4, the Mules will travel to Lancaster to face Franklin and Marshall college. Up to now, the Diplomats, who upset the Mules last year by a score of 70-68, have been unimpressive due to inexperience created by the graduation of several starters.

# Berg Fencers Initiate Season With Temple

Muhlenberg's fencing squad can look forward to some rather stiff competition in its first two meets of the 1958 season. The Mule swordsmen will take on Temple university in Memorial hall on Saturday, January 18, and travel to Haverford on Wednesday, February 12.

Coach Fred Pierce's Temple Owls boast four returning letterman, headed by the team captain Naselow in the epee division. Freddie Sharfstein and Dick Chellemi will be dueling in the saber class, and Joe Maioriello will be the letterman in the foils division.

**Win "Warm-up"**

In competition this season, the Owls have participated in what coach Pierce termed "a warm-up match," in which they defeated Rutgers university, 15-12. Temple's record last year was a good one, showing only one setback at the hands of Lehigh. Pierce feels that his team "stands a good chance being in the top three" in the Middle Atlantic standings.

Haverford's 22-man team has a total of six lettermen with two represented in each of the three divisions. The lettermen are F. Shaw and E. Heiman, foils; L. Price and W. Hecht, saber; and R. Lederer and B. Michner, epee.

**Two Losses**

The Fords finished last season with three wins and six defeats. They have been unsuccessful in their first two outings this year with losses to Rutgers of Newark, New Jersey and Rutgers university. Like Temple, they have not met any league competition to date. Coach Henri Gordon will be seeking to better last year's accomplishments, but when asked about this year's chances, Mr. Ramball, Haverford athletic director, stated only that it was "hard to say."

# Berg Faces Bucknell In Next Mat Contest

Coach Frankett's Muhlenberg wrestlers will engage the Bucknell Bisons this Saturday, in Memorial hall. The Mules supporting to date at 2 and 0 record have been impressive thus far this season. Bucknell, coached by Bill Srabley for the third year will be represented by a green, inexperienced team. Led by lettermen Rowland Sell and Larry Dempster, the Bisons will have support from a number of sophomores. Lost from last year's team is Bill Benton, heavyweight, who won 11 of 13 in the last two years. Scratton White will represent the Bisons in the 177 lb. division, Edge Deuel in the heavyweight, Rowland Sell in the 137 lb. class, and Larry Dempster in the 167 lb, class. Bucknell's grapplers won 3 of 4 last season.

Then on February 5, the Mules will travel to Easton to meet Lafayette college. Coached by Frank Eisenhauer, the Leopards will also be a team supported largely by sophomores. Co-captains Deke Pike, 147 and Doug Cherry, 167, will lead the Eastoners against the Mules. Dick Norton will occupy the heavyweight post, and the 123 pound class vacated by Tom Carlson, last year's Middle Atlantic champ, will be taken by Joe Lees, a sophomore. Tom Principi, another sophomore will grapple in the 130 lb. class. This is Eisenhauer's 11th year as head coach, and never before has he had to place all confidence in a sophomore studded line-up.

**Mules Travel**

The following Saturday, the Cardinal and Grey will again travel, this time to Gettysburg. The Mules will be looking for a win again this year against the Bullets.

Then on February 11, at home the Mules will entertain Haverford college. Haverford defeated Muhlenberg last year to the tune of 20 to 17, and were one of the two teams to conquer Coach Frankett's grapplers. Coach "Doc" Harter's team will again be led by co-captains Hollis Price and Boyd Ralph, who played an integral part in their surprising victory last season.

# Grapplers Trim Owls For Second Win 33-5

The wrestling team continued in its winning ways as it scored its second victory of the season with a decisive win over Temple university, 33-5, at the Owl's South Hall on Saturday, January 11.

The Mules' only loss of the day came when lightweight Art Jaquette received a shoulder injury with two minutes gone in a match with McCall. Jaquette was forced to default the match and Temple received its only points of the meet.

Pierce Knauss quickly retaliated for the Mules with a fall over Ed Rudley in seven minutes and thirty-five seconds. From this point on the Mules were not to be beaten. The next two matches were won by forfeit as Gordie Warner and Jim Waller picked up five points each for Berg.

**Second Pin**

Don Simpson wrestled next and for the second time in a week pinned his man in less than three minutes when he pinned Steve Lazar with two minutes and thirty seconds gone in the match.

Dick King followed in a match with football player Ray Norton and picked up the only 3-pointer of the day.

Roger Keehn, wrestling a former halfback on the football team, Jimmy Thomson, pinned his man in seven minutes and forty seconds, and Gerry Rehrig finished up the meet successfully for the Mules with a fall over Ted Quadenfield, pinning his man in seven minutes and forty seconds.

In winning the first match McCall compiled his fourteenth straight victory in his college career, but this helped the Owls very little.

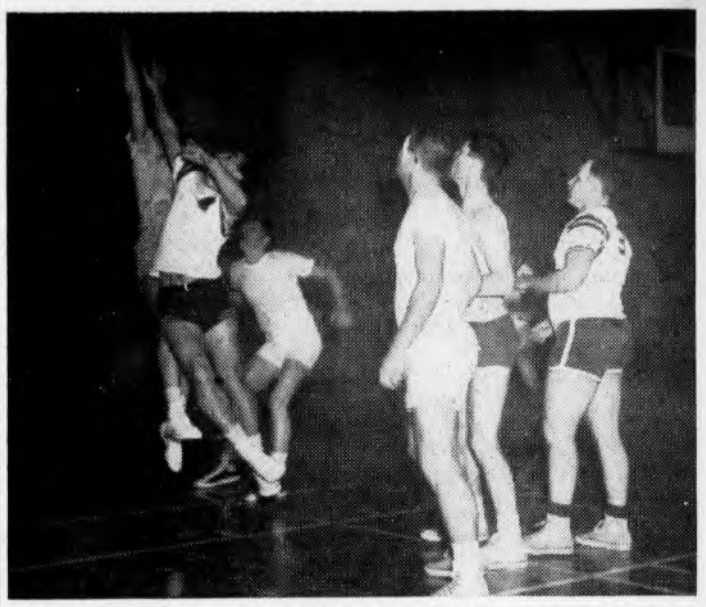
# I-M CORNER



In a recent intramural basketball game, Tom O'Connor and Frank Czaszar tangle for a rebound under the basket as George Ploza, Jack Gleckner, and Freddy March look on.

by Jack Coughlin

In the past week the Memorial hall courts were the scene for the action of eight more Intramural contests. In League II the Rinky Dinks took measure of Alpha Tau Omega by a score of 36-29. Fred Klink was high man for the Rinky Dinks with nine points and Agee and Holben collected six each in the effort. High scoring honors for the game went to Bob Nuss of Alpha Tau Omega. Nuss dropped in five field goals and collected two more from the free throw line for a total of 12.

Dave Jones led the high scoring Sigma Phi Epsilon quintet to a 63-51 victory over the Mules. Jones hit for a total of 27 points and was followed up by teammate Tom Schaeffer with 14. Hartman was high for the Mules with his 13 points. Alpha Tau Omega "B" team went down in defeat to the Phi Kappa Tau "B" team by a score of 32-12. In this low scoring contest Ron Dungan was the high scorer with 17 points.

**Catahamptons Win**

The Catahamptons came out on top in their game with the Warriors when the game ended 33-24. Karo was the leader in scoring for the winning Catahamptons with 12 points. Kahn picked up the same number in the losing cause of the Warriors. In another scheduled game the Canucks failed to show up and Lambda Chi Alpha won the game on a forfeit.

Sterner and Wilson teamed up to lead the Commuters to a 39-33 victory over the Roonies. Sterner and Wilson collected ten points each for the victors and Charlie Lawton dropped in the same number for the losing Roonies. In one of the highest scoring contests of the year Phi Kappa Tau "A" team

**Test your personality power**

(Id ain't necessarily so!)

| | YES | NO |
|---|---|---|
| 1. Do you find the dimensions of a parallelogram more intriguing than those of an hour-glass figure? | ☐ | ☐ |
| 2. Do you believe that your studies should be allowed to interfere with your social life? | ☐ | ☐ |
| 3. Do you call off a movie date with the campus doll because somebody tells you the film got bad reviews? | ☐ | ☐ |
| 4. Do you think anything beats rich tobacco flavor and smooth mildness in a cigarette? | ☐ | ☐ |
| 5. Do you believe two coeds in your brother's class are worth one in yours? | ☐ | ☐ |
| 6. Do you feel that your college's dating rules are too lenient? | ☐ | ☐ |
| 7. Do you prefer smoking "fads" and "fancies" to a real cigarette? | ☐ | ☐ |
| 8. Do you avoid taking your date to a drive-in movie because you don't want her to feel she's a captive audience? | ☐ | ☐ |

If you answered "No" to all questions, you obviously smoke Camels — a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to *enjoy* smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco makes the best smoke. Try Camels and you'll agree!

**Have a real cigarette – have a Camel**

# Cagers Face Stiff Opposition Following Semester Vacation

Following the semester recess, the Mules travel to Hershey arena to tackle Gettysburg's Bullets for the second time this season. The Bergman then return home to encounter Colgate the following day, February 7. Muhlenberg just squeaked past the Bullets in their last meeting by a 64-63 margin. The Mules were led by captain Clint Jeffries who garnered 18 points and 16 rebounds. The high scorer for the evening was Gettysburg 6' 6" Del Warfel, who pushed in twenty points.

The red raiders from Colgate will be led by their versatile captain Phil Bisselle, a 6' 1" slick ball-handler from New Hartford, N. Y. Bisselle was the second high scorer last year averaging 12.5 points per game behind Colgate's graduated all-time high scorer, Jack Nichols. Forward Russ Brummer in the only returning letterman on this young and inexperienced squad. Sophomore Jack Durkee will team up with Bisselle a the guard position.

**Other Starters**

The other starters are junior Chuck Hagenah at forward with Joe Murria and Al Jamison alternating at center. The latter is a 6' 5", 228-pound football star. Also seeing plenty of action will be sophomores Art Brandon and Johnny Mauer. Last year the Mules defeated Colgate in the carousel tournament, 88-81, but were defeated later on the following week, Berg faces the Lafayette Leopards for the second time this season. The Leopards will be led by their 6' 7" captain, Bob Mantz.

# Mules Fail At Garden; Jaspers Win 81-66

On Saturday, January 11, the Muhlenberg basketball team traveled to Madison Square garden to meet the Jaspers of Manhattan college. In a game marked by poor shooting and passing on part of Birney Crum's Mules, Manhattan scored an easy 81-66 victory.

By hitting on seven of their first fourteen field goal attempts the Jaspers jumped off to a 14-6 lead in the opening four minutes. The Mules never recovered. When the Berg passers moved out to stop the long shots, Manhattan drove through to one layup after another. The New Yorkers led at halftime, 45-34.

**Berg Narrows Gap**

Muhlenberg was able to narrow the gap to 47-40 early in the second half, but the Jaspers splurged again, widening the gap to 62-47. This put the game out of reach and Manhattan coasted the remainder of the way.

For Manhattan, whose record now stands at seven up and three down, Bob Mealy, Jack Powers, and Dick Wilbur topped the scoring parade with 20, 17, and 12 points respectively. Muhlenberg now sporting a 6-3 won-lost slate, was paced by their three top scorers, Dick Sekunda, Clint Jeffries, and Mel Kessler. Jeff notches 17 markers before fouling out with five minutes remaining to play, Sekunda garnered 15, fourteen of them coming in the first half, and Kessler tabbed 14.

# I-M CORNER

(Continued from Page Three)

defeated the Bell Boys, 67-45. Ken Stewart and John Holcroft provided the offensive power for Phi Tau by collecting 18 and 19 points respectively. Frank Csaszar was high for the Bell Boys with his 15 point total.

Lambda Chi Alpha was bumped from the undefeated ranks when they lost to the Tri-Staters, 50-37. Fezzi hit for 16, and Higgins and Hendricks dropped in 11 and 9, Mike Wooley was high for LXA with 12 points.

## Church Bus Service Notice

**There will be no bus service from the campus to downtown churches on Sundays, January 26, and February 2, 1958. Bus service shall be resumed for the second semester on Sunday, February 9, 1958.**

Town & Country Shop
962 Hamilton St. Allentown, Pa.

## The Chowline

This literary masterpiece is to be the last Chowline of the current semester. We hope you like it.

To the Commuters, however, we must first start off with somewhat of a gripe. Tlthough somewhat subdued during the beginning of the semester, the constant problem of dishes in the Commuter's room has once againgotten out of hand. We mus once again request that dishes and glasses taken to the second floor of the Student center be returned as soon as possible. It seems ridiculous to the personnel of the Snack bar that a college student cannot comply with such a simple request.

On a somwhat lighter note, the Snack bar was blessed by the presence f three campus notables last week. During the noon rush hour, we were delighted to serve lunch to Henry Richards, James Swain, and Charles Moses. You'd never guess who came in then—well it was John Shankweiler. We can only conclude — that the food is good, and the coffee—well its out of this world. Maybe our next guest will be Duncan Hines or Harry Eberhardt.

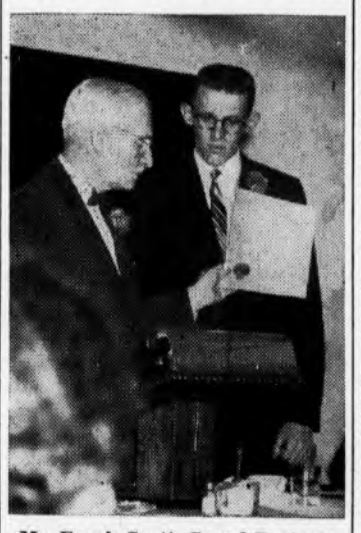
Once again, may we extend our services to the student body for the entire examination period. Best of luck to all.

**Adv.**

# Fraternity Affiliates

(Continued from Page One)

their usefulness." In his brief talk, Dr. Seegers said that "many of the faults of fraternities are not those of the fraternity, but of individuals. Any fraternity is only as good as the individuals who compose it. " He continued by saying that some of his most enduring friendships were derived from his own fraternity friendships, and that fraternities play an integral part in the life of Muhlenberg college and make valuable contributions. He concluded by saying that he hoped the fraternities would continue in this pattern.



**Mr. Frank Scott, Grand Prytanis of Tau Kappa Epsilon, presents recently acquired charter to Don Snyder, president of the Zeta Eta chapter. The ceremonies for the occasion were held at the Americus hotel.**

Don Snyder concluded the banquet by reading some of the telegrams and letters of congratulations which ha had received. Included among these were congratulations from Governor Leader.

# Examination Rules Issued By Dean

(Continued from Page One)

system examination ,be sure to:

(a) Write and sign the pledge at the end of your paper.

(b) Report promptly to either the Dean of the Faculty or to a member of the Honor Court any suspicions of violation of the honor pledge.

6. Cheating is knowingly giving or receiving aid during an examination, etc.

7. Guard your honor. Cheating can mean suspension or expulsion. It's not worth the risk. Be proud to be a subscriber to the Muhlenberg Honor code. It's the way to a greater Muhlenberg through student government.

8. No smoking in the examination room.

9. Get a good night's rest before the exam. Cramming is a waste of time. You cannot expect to do your best if you are tired.

10. Leave your nerves and fears in your dormitory room. All you need at the examination is a clear head and writing materials.

Registration for the spring semester will be held on Monday, Tuesday, and Wednesday, February 3, 4, and 5. Classes begin on Thursday, February 6.

# College Choir

(Continued from Page One)

Franz Schubert entitled "Hymn." "A Mighty Fortress," by Martin Luther and "I Know That My Redeemer Lives," by Johann Michael Bach are included in the second part of the program. The third part includes a piece by Gustav Holst entitled "Te Deum Laudamus," and "Pater Noster" by Igor Stravinsky.

# . . . Student Council Report . . .

January 9, 1958

The regular meeting of the Muhlenberg college Student council was called to order at 7:05 p.m. by President Luis Torres. All members were present.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $1,560.70 |
| Social fund | 620.21 |
| Assembly fund | 1,285.27 |

**COMMITTEE REPORTS:—**

Constitutions and Elections:—Mr. Shellenberger announced the following schedule for the forthcoming Student council and Class of 1961 elections:

February 19th—Class of 1961 elections
February 26th—Student Body meeting
Student council nonimations
March 9th—Nominations for Council close 6:00 p.m.
March 12th—Student council elections
March 16th—Nominations for Council offices close 6:00 p.m.
March 19th—Elections for Student council officers

The members of the Honor Court then presented a discipline case to the Council. Discussion and action was suspended until next Tuesday, January 14th at 3:00 p.m.

There was no Old Business.

**NEW BUSINESS:—**

Mr. Leighton presented the report of the Freshman Regulations committee. On motion by Mr. Leighton and Mr. Ueberroth, the report was adopted. The revised list of Regs will appear in an early issue of the **WEEKLY**, and will be presented to the Student Body at its next meeting on February 26th.

The Student council will direct a letter to the Mask and Dagger society concerning the care of its room in the Student center.

Mr. Becker will investigate the establishment of a definitive code for the Honor Court.

The meeting was adjourned at 9:09 p.m. on motion by Mr. Gurski and Mr. Leighton.

Respectfully submitted,
RAY UEBERROTH, Recording Sec.

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., February 13, 1958 | A. C. P. Rating | No. 15

## RushingCommences For Six Fraternities

Official rushing procedures were begun by the six national social fraternities on the Muhlenberg campus, on Monday evening when Tau Kappa Epsilon held the first rushing function of the 1958 school term. The second rushing function this week was held by Phi Kappa Tau fraternity on Tuesday evening.

The schedule of rushing events in the next two weeks are as follows: Alpha Tau Omega and Phi Epsilon Pi on Tuesday evening, February 18; Lambda Chi Alpha on Wednesday evening, February 19; and Sigma Phi Epsilon on Thursday evening, February 20. An open house will be held by all six fraternities on Friday evening, February 21.

**Rush Functions**

The rush functions will include smokers, informal dances, and stag parties. In addition to this, freshmen will receive invitations for lunch and dinner at the various fraternity houses during the rushing period. Prospective rushees are also invited to the fraternity house parties this weekend. Informal visits by rushees will be welcomed by all of the houses during the rushing period.

On Sunday evening, February 23, at 6 p.m., a silent period will begin, wherein fraternity men and prospective rushees will not be able to contact one another in any possible way. Bids for pledging will be distributed in the Science auditorium at the end of this period, on Thursday afternoon,, February 27. Representatives of the six fraternities will greet the new pledges in the Student center following the acceptance of bids.

**Fraternities**

Alpha Tau Omega maintains residence at 2302 Chew street, and has a brotherhood of 38 men.

(Continued on Page Six)

## Stendahl To Speak At Next IF Program

This year's Institute of Faith will feature Dr. Krister Stendahl of the Harvard Divinity school. The three day program which will be held from March 10-12 will include chapel sermons, small discusion sessions and evening programs, each of which will be devoted to Dr. Standahl's topic, "Let God Be God."

The title of Dr. Stendahl's topic is borrowed from a book on Lutheran theology by an author named Watson. There will be three divisions under the general topic; they will be "He Made Us," "He Saved Us," and "He Inspired Us." Although definite plans have not as yet been made, it has been suggested that the different discussion groups be led by a Roman Catholic priest, a Jewish rabbi and one of the local clergymen.

**Born in Sweden**

Dr. Stendahl is of Swedish descent and was born in Stockholm in 1921. He is an ordained priest of the Church of Sweden. In 1941 he received his pre-theological degree from Uppsala university and during his years at that institution he was associated with the Student Christian movement.

Arrangements for Dr. Stendahl to speak at this year's Institute of Faith were made by Melvin Rea, former student chairman of the IF committee of the Muhlenberg Christain association.

## Frosh Hold Nomination Of Officers

Nominations for officers of the Freshman class and the reading of the class constitution were the main topics of the meeting called by the members of the class of 1961 in the Science auditorium on Friday afternoon, February 6.

James Piston, Freshman president pro-tem, opened the meeting with the treasury report. Next, the constitution and by-laws were read. These were drawn up previous to the meeting by a group of six Freshmen with the help of Jim Piston and Joe Becker. Both the class constitution and the class by-laws were accepted by the assembled Freshmen.

**Nomination of Officers**

Nominations for class officers were then begun with Clinton Barlow, Galen Kistler, Barry Leighton, Leon Silverman, and Jay Van Kampen copping initial presidential bids. Clinton Barlow hails from Haddonfield, N. J., Galen Kistler is from Pennsburg, and Barry Leighton makes his home in Riverdale, N. Y. Leon Silverman is a native of Elkins Park, and Jay Van Kempen comes from Ridgewood, N. J.

Other nominations for president, vice-president, treasurer, and secretary may be placed in the Student center suggestion box before 6 p.m. on Saturday, February 15. The nominee must sign a three by five card on which his candidate's name appears. Elections will be held on Wednesday, February 19 from 9 a.m. to 3 p.m. in the Student center. The election will be under the auspices of the Student council and will be, as in the past, a preferential ballot.

**Preferential Ballot System**

For the benefit of those Freshmen who are unfamiliar with the preferential ballot, it is based upon a preferential system whereby candidates are elected not only through first-place votes, but by second, third, and fourth-place votes also. The ballot will consist of the names of all the candidates in the election.

Voters are asked to place the numbers one, two, three, etc. after each candidates name in order of preference. All ballots must be completely filled out in order to give best support to the candidate preferred.

## Les Brown; Queen And Court Highlight Annual Junior Prom

With the popular and internationally famous music of Les Brown pervading the ballroom to the mood-setting theme of "Let's Take A Sentimental Journey", the first major social event of the 1958 college calendar, the annual Junior prom, will be presented by the Class of '59 at the Frolics ballroom from 9 p.m. to 1 a.m. tomorrow evening, Friday, February 14. Another highlight of the evening's festivities will be the selection of a queen of the Junior class. Dress for the dance is to be formal.

**Les Brown is congratulated by Bobe Hope, T.V., radio and screen comedian, with whom he was associated for 8 years. His band is rated as the top in the country. Les Brown and his band will be appearing for the first time, at the Muhlenberg Junior Prom tomorrow evening.**

"Les Brown and his Band of Renown", rated by **Downbeat, The Billboard,** and **Metronome** as the top dance band in the country will be making his first appearance at Muhlenberg college. Brown's sound is internationally known through his eight years with Bob Hope on radio and television, his recordings on Decca, Columbia, Coral, and now exclusively Capital labels, and his personal appearance tours before armed service units in Europe, Japan, Alaska, Korea and other foreign countries. The name Les Brown has become a symbol of good danceable music throughout the continent. **Time** magazine has recently quoted him as saying "we prefer sound to noise, we prefer consonance to dissonance, and we like the melody if its good." This seems to have been the formula of success for the "Band of Renown" and its very personable leader, Les Brown.

**Theme of Dance**

The theme of the Junior prom, "Let's Take A Sentimental Journey," is taken from the familiar song of the same title which has become synonymous with the name Les Brown over the years. The mood of the evening will be further realized by the presence of extensive decorations. Aside from the usual spectacle of an outstanding centerpiece, the theme will be further enhanced by several scenes depicting the possible memorable moments in the life of a romance.

Charles Smith, president of he Junior class, and Burton Eisenbud, chairman of the class social committee, are the men who have been chiefly responsible for the organization of the affair. The committee this year also consists of Richard Hess, William Higgins, Paul Horger, Stanley Schabert, Donald Nase, Marvin Hyett, Philip Eichler, and Edward Meyer. The class officers following Smith as president are: Walter Schuman, vice-president; George Thomas, secretary; and Edward Thieler, treasurer.

**Prom Queen**

Eligible for the title of "Queen of the Junior Prom" will be all female members of the class of

(Continued on Page Six)

## College Receives Large Grant From Atomic Energy Commission

Muhlenberg college has received a grant of $5,093 from the Atomic Energy commission in recognition for its work in atomic physics on the undergraduate level. Muhlenberg is one of the few colleges in the country that offers such a course.

The grant will be used to purchase additional equipment for the teaching of atomic physics. This course comprises one full year of laboratory work in undergraduate atomic and nuclear physics. Additional equipment, to be purchased soon, will provide for further expansion of the course, according to Dr. Robert A. Boyer, department head. New experiments will be improved by the use of more refined instruments.

**New Equipment**

The new equipment will include many different kinds of instruments for detecting nuclear radiation, such as Geiger and scintillation counters, as well as radio-active materials suitable for special tests and experiments. The two term course consists of three one-hour lecture-recitation periods and a three hour laboratory each week. It is designed to provide a backgound to undergraduate students in their junior and senior year in the phases of modern physics dealing with the nature of atomic and nuclear phenomena.

At the present time, 28 experiments dealing with the electron, kinetic theory, photoelectricity, and atomic theory, along with detection and interaction of X-rays and radiation are being conducted.

**AEC Recognition**

"Bestowal of the AEC grant," Dr. Boyer said, "not only constitutes a recognition of the work Dr. Raub has done in the developing of the course, it also recognizes Muhlenberg's alert response to help fill the country's great and continuing need for more trained young scientists.

Application for grants, Dr. Boyer pointed out, are carefully scrutinized by the commission and accorded only when stringent requirements are met. Suitable courses for which the equipment is to be used must be in existence. Properly trained faculty must be in charge of the courses. Technitions also must be available for maintenance of the equipment, he said.

## PhiladelphiaConcerts Offer Student Tickets

Tickets are presently available for 500 students at a reduced price of $1.00, for concerts by the Philadelphia orchestra under the direction of Eugene Ormandy and guest conductors. The concerts are held every Friday afternoon at 2 p.m. in the historic Academy of Music in Philadelphia.

The world famous Philadelphia orchestra will continue this program until April 26th. Included in the concerts will be outstanding selections from world famous composers such as Mozart, Debussy, Strouss, and Tschaikovsky.

The next program will be held on February 14th. The selections for this concert include Symphony No. 4 by Brahms, Symphony No. 2 by Honegger, and La Mer by Debussy. This particular concert will be conducted by Paul Kletzki. Other guest conductors include Erich Leinsdorf, Igor Markevitch, Fritz Reiner, and William Smith.

Tickets for individual concerts go on sale at the Academy of Music box office three weeks prior to each concert. Mail orders are accepted. Checks for single tickets should be made out to the Academy of Music box office.

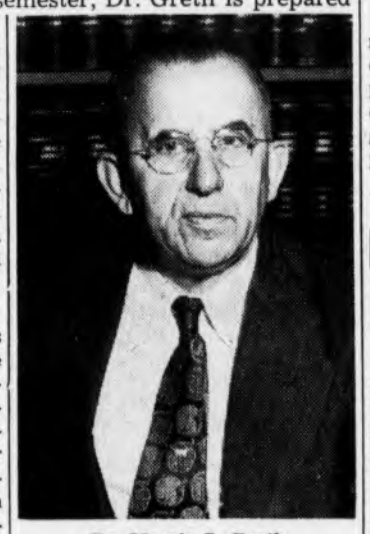
## Education Courses

**All students who EXPECT to take any courses in Education next year (Sept. 1958 to May, 1959) are asked to indicate their intentions by signing appropriate forms on the bulletin board of 303 Admin. Bldg. Your help in this regard will permit us to meet your need for such courses. Please sign in Room 303 before February 15.**

**WM. FRENCH**

## Dr. Morris S. Greth Returns To Muhlenberg After Semester's Absence Due To Illness

Dr. Morris S. Greth, chairman of the sociology department, has returned to his classes after a semester's illness. The doctors classified his illness as coronary insufficiency. After having recuperated this past semester, Dr. Greth is prepared to return to his schedule.



**Dr. Morris S. Greth**

Dr. Greth has been a professor of sociology at Muhlenberg college since his arrival in 1946. Previous to this, he taught at Albright college for 16 years. He was also the mission pastor at St. Luke's Church in West Collingswood, New Jersey. In 1953, Dr. Greth served as interum president of the college, before the arrival of Dr. J. Conrad Seegers.

**Many Activities**

Along with his many activities at the college, Dr. Greth finds time to engage in many beneficial services to the Church and the community. Among these are: memberships on the Board of Inner Missions of the Evangelical Lutheran Ministerium of Pennsylvania and the Lutheran World Conference on Social Responsibility. At a meeting of this conference last August he read an original paper on the "Pressures of Population Change."

Locally, Dr. Greth is a member of the Welfare council in Lehigh county, and was the president of the Lehigh Valley Social exchange. In 1951, he conducted a study at Muhlenberg on the "Survey of the Inner Mission Services on the Territory of the Ministerium of Pennsylvania. "The Family and Social Change Booklet," was written by Dr. Greth and printed and published in 1951.

**Attended Study Tour**

During the summer of 1956, Dr. Greth and his wife were selected by the Welfare Agencies of the Lutheran World Federation to participate in a study of the welfare services of the churches in Western Europe. This was a study tour under the sponsorship of the Welfare division of the National Lutheran council, and covered ten foreign countries.

Dr. Greth graduated from Muhlenberg college in 1922, and received his Bachelor of Arts degree here. In 1924 he received from the University of Pennsylvania a Master of Arts degree. At the same school, he was awarded his Ph.D. in 1930. At the Lutheran Theological seminary, he graduated with a Doctor of Divinity degree in 1925. Muhlenberg college conferred an honorary degree of Doctor of Letters upon him in 1953.

## Pomeroy's Executive Lectures To Society

"Retail selling and Merchandising," was presented by Mr. Stanley Heimbach, Personnel director of Pomeroy's Incorporated, at the first meeting of the Business and Economics club. Mr. Heimbach's lecture was considered a beneficial topic for those students who are interested in this particular field of business.

In addition to having Mr. Heimbach speak to the club, Pomeroy's Incorporated will have a representative interview prospective employees in room 105 of the Science bilding, at 7:30 p.m. on February 20.

The Business and Economics club was organized in 1955 to provide business majors with an opportunity to supplement their formal education with an interchange of ideas from related fields of business. The purpose of the organization is to stimulate interest in current economic problems through the medium of lectures and field trips. Plans are being formulated for a field trip in the near future.

## Verein Celebrates Old German Holiday

"Fastnachtfest" is the theme of Der Deutsche Verein's meeting of February 17. The meeting has been scheduled at a barn in Orefield, Penna. All interested co-eds are invited to attend the meeting, along with the members of the club and its invited guests.

In keeping with the German custom of celebrating the night before Ash Wednesday, the "doughnut night", which may be compared to our own Madri Gras, will be complete with dancing, films, a skit, and, of course doughnuts. The barn-meeting place will keep the rustic German atmosphere.

The skit, **Die Fleinen Berwanten** by Ludwig Thomas, is typical of the silly, incidental stories usually related about this time in Germany. The home like atmosphere will be kept as will many of the old German customs of the festival.

# Editorial Views——

## *Food For Thought . . .*

Once again the fraternities at Muhlenberg have begun an extensive two week rushing program to "sell" their houses to hand-picked male members of the freshman class. As in past years, the freshmen will be exposed to fraternity life without having established any criteria for their final selection. The following comments should be kept in mind by all freshmen males.

Muhlenberg has instituted a regulation requiring that at least a seventy-five or two point scholastic average be met for a man to be pledged by a fraternity. Freshmen barely meeting this minimum requirement should display caution in their decision to pledge a fraternity considering the tremendous amount of time fraternity activities would require. These activities would include clean-up details, pledge tests, projects and numerous other obligations which vary from house to house. Waiting a semester to pledge would not hamper a person's chances of acceptance, but could greatly enhance a scholastic average.

Attend at least one function at every house to enrich your understanding of the fraternity and provide a basis for comparison. Do not confine visits to one or two houses without gaining a representative sample of the offerings of other fraternities. Visit fraternities at unexpected hours and times when least expected. These visits would provide a true picture of fraternity life and not the "false-face" present during the rushing period. However, be careful to maintain proper preparation for classes and laboratories since rushing is not an extended academic holiday.

Be careful not to be misled by the physical plant of a fraternity; rather, closely and critically examine the members of the brotherhood and mainly the men in the sophomore class. These men will be your future companions and brothers and should be carefully scrutinized. Beware when a fraternity or a fraternity man slanders another house, since this is an obvious attempt to cover up faults in their own fraternity. A violation of Christian ethics and fraternity honor, slanderous statements should be noted with disdain. Also beware when a non-fraternity man criticizes fraternities since only a one-sided view—an outside view—can be presented.

Since a greater percentage of rushing devices are an insult to one's intelligence, be critical and observant during your visits. Actual fraternity life is not visible during the rushing period. A fraternity is a corporation and involves planning, work, and production and not only beer, party, and song as exemplified by the rush function. A fraternity, upon close observation, may also display immaturity and human frailty, as well.

These few thoughts as well as many others—should be present in the minds of freshmen during the rushing period.

## *Merited Grants . . .*

Two grants to local colleges, announced during last week, should call our attention to the quality of teaching that is being afforded by Muhlenberg and Lafayette and is to be encouraged by the Atomic Energy Commission and the New World Foundation respectively.

In the case of Muhlenberg college, a host of students have learned over the years that the course leading to a B.S. degree has been unusually good. To hold this Muhlenberg degree has been a wonderful background for post-graduate work leading to a variety of professions. This fact is recognized again by the A.E.C. grant of $5,093 to purchase equipment for the college's course in atomic physics.

While there is no thought of looking a gift-horse in the mouth, it must seem to be a measly grant when it is realized that, when the President and Congress have to deal with nuclear development, their thinking and talk is in terms of billions—not thousands or millions, but billions of dollars. We can only hope that this initial grant will lead to acuter examination of the work that, with splendid foresight, has been done at Muhlenberg for a full decade. This work has been keeping in step with developments in the field of atomic energy. Ambitious young people of this area have not had far to go to pursue the quest for knowledge necessary to advancement in this new field of world thinking and action.

These students presently are engaged in a total of more than a score of experiments. It is an interesting corollary to their college and laboratory work that there has been room for them during the summer months in the atomic energy division of the local P. P. & L. Co., which is pioneering in one phase of atomic energy.

Without any doubt Muhlenberg has already made a significant contribution to the national program for technical training in the A.E.C. field. Possessing as it does a department of educators which ten years ago foresightedly entered into this field, Muhlenberg can be expected to make even larger and more important contributions. The college deserves greater support in advancing the nation's multi-billion dollar program for nuclear research and development.

As for Lafayette, that eminent educational institution long has enjoyed the highest rating for its department of international affairs. This fact was recognized when the New World Foundation made a grant to the residential seminars on World Affairs which are to be held during the coming summer at the International Center on the Lafayette campus.

These seminars are not an innovation. Since 1954 they have been in continuous operation both on the national and regional levels. Demonstrating Lafayette's leadership in this field is the fact that operations on the regional levels are held in different parts of the United States in cooperation with other educational institutions and citizen education organizations.

The director of the residential seminars, in acknowledging the $10,000 grant stressed that "this generous recognition by the New World Foundation will make it possible for us to meet at once the urgent need for expanding world affairs education to keep pace with enlarging program of scientific training in this country."

# Satellites Are Vital To Scientific Study

**by Jack Magan**

Why spend millions of dollars of tax money to set a few hundred pounds of metal in an orbit around the earth? In this time of "Sputnik" and "Explorer" the average American citizen recognizes the magnitude of the achievement involved in orbiting the first man-made satellites, but does not understand the reasons for, or uses of these instruments.

Instruments they are, for satellites constructed and placed by man have many conceivable uses in both basic and applied scientific research, and many uses which we cannot yet foresee, even as the automobile could not have been conceived before the invention of the wheel. Many phases of investigation in physics, geophysics, astronomy, meterology, and even chemistry and biology may be enhanced greatly by the use of satellites.

Procurement of information from satellites is of primary importance in their use of research. Since recording of information is not practical for reasons of equipment size and difficulty of recovery, the necessary method is transmission by radio signal. Transmitters enclosed in present satellites are probably battery powered, but in the future they could be run by atomic power or by utilization of radiation from space, perhaps by the recently developed solar battery which converts the sun's radiation to electrical energy.

**"Beep"**

Signals received at stations all over the world, such as those broadcast recently over most radio stations, Sputnik's beeps and explorer's whistle, are recorded on magnetic tape or on motion pictures of cathode-ray oscilloscope patterns, and analyzed by electronic calculators to determine the content of their messages.

Most immediately, scientists are concerned with those signals which describe the condition and operation of the satellite itself, information which they can use in future design problems. Also of great importance are signals transmitted from the satellite's detectors of external date, equipment such as radiation counters, temperature-measuring devices, and biological instruments.

**Atmosphere Investigation**

Interesting to designers of future space vehicles is the density and distribution of meteoric dust particles, which could conceivably interfere with any upper-atmosphere device. A microphone installed in the satellite could count the number of times these minute particles collide with the instrument, and from this information density and pattern of the dust could be mapped.

Another part of the atmosphere, cloud formations surrounding the earth, can be investigated from above by a photoelectric cell which measures the light reflected from dark earth and light clouds. Disturbances such as typhoons, which alter cloud formations, could be noted while far at sea, and their paths could be predicted.

**Navigation Skyhook**

After the satellite has been tracked for some time, a mathematical description of its orbit can be drawn up, and from this information and reception of the signal, navigation and mapping could be considerably simplified, the process would be similar to that of hanging a fixed point in space for sighting . The location of many islands, now uncertain by large distances, could be more exactly determined.

Theories of the composition of the earth might well be investigated from the behavior of the satellite. One such theory states that there are places under the ocean where a greater-than-average density of the earth's matter attracts the water, causing mountains of water to form. If this were so, the same attraction would cause the satellite to deviate from its normal course as it passed over these places. Other investigations of the earth's properties, such as a description of its magnetic field, could be accomplished through the use of satellites.

**Ultra-Violet Radiation**

Investigation of aspects of space outside the earth's atmosphere is an important phase of satellite usefulness. Devices can be included to measure the amount of energy radiated to the earth by the sun and the intensity of ultraviolet radiation, and to investigate the characteristics of cosmic rays.

Ultraviolet radiation from the sun ionizes a layer of air known as the ionosphere, which reflects certain types of electromagnetic radiation, such as ordinary radio wave frequencies, and transmits others. More complete knowledge of the nature and distribution of such radiation might provide a basis for prediction of radio interference and conditions for long range communication. Also in the communication field, a satellite could pick up and retransmit those types of waves which do not bounce off the ionosphere, and which therefore can not presently be transmitted beyond the horizon.

**"Assistant Sun"**

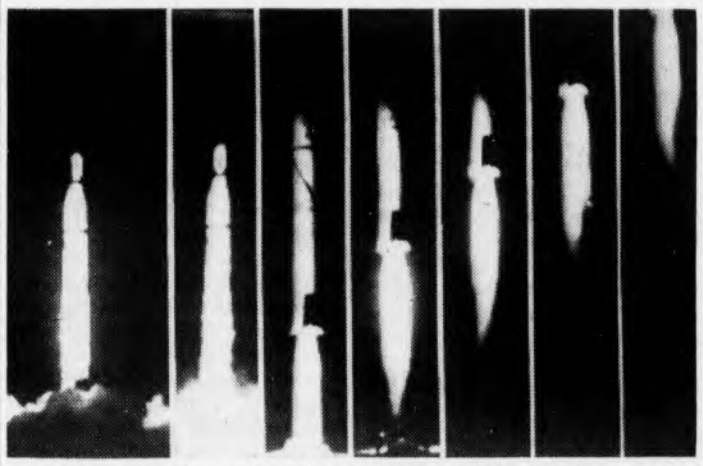
The condition of the atmosphere could also be changed through chemical action by man to improve it for his own uses, not only in communication, but in providing an "assistant sun" which would glow or reflect light due to its ionized condition, or in regulation of weather conditions, which has already been done with some success.

Of major interest to the scientific investigator are cosmic rays, high energy ionized hydrogen, and helium nucleii which bombard the earth from some source in space. Investigation of these rays is difficult since they collide with air particles in the outer atmosphere and send on to the earth's surface mostly the residue of these interactions. Information gleaned from satellite detectors should increase the meager fund of knowledge about cosmic rays.

**Chemistry in Outer Space**

Experiments in chemistry in outer space will be carried out with the advantage of a scarcity of matter greater than the finest vacuum construction on earth. Conditions in outer space for purity of substance and lack to external interference would surpass

(Continued on Page Six)



**Here is a shot of the launching of the same type of rocket which sent the United States' "Explorer" into outer space. This rocket has been called "Jupiter C." At the nose of the rocket can be seen the revolving chamber which set the Explorer in motion.**

# Muhlenberg Fraternities Compose Social Aspects

**ALPHA TAU OMEGA**

The oldest social fraternity chapter at Muhlenberg is the Alpha Iota chapter of Alpha Tau Omega, dating from 1881. The national fraternity was founded in 1865 at V.M.I., and today there are 117 chapters throughout the country.

The chapter house is located at 2302 Chew street. It was built in 1928 and presently accommodates thirty of the forty active brothers. Three pledges are awaiting initiation. The interior of the house has been painted recently by the Brothers and the rooms redecorated to suit the tastes of the occupants.

Bruce Romig, Muhlenberg Alumni Secretary, is adviser to the chapter. Earl Knies is president, Don Nase vice-president, Karl Becker treasurer, and Bob Nuss secretary.

A.T.O.'s are active in almost every campus organization, ranging from Student council, the **WEEKLY**, and Omicron Delta Kappa to varsity football, basketball, and wrestling. The chapter annually holds a Christmas party for underprivileged children in the Allentown area, and the coming Help Week is devoted to helping some charitable organization.

**LAMBDA CHI ALPHA**

Lambda Chi, at 407 North Twenty-third street, was instituted at Muhlenberg on October 12, 1940. At present, there are thirty-two active brothers and ten pledges under the advisership of Dr. John E. Trainer. Lambda Chi boasts one of the largest national fraternities, numbering 155 chapters across the nation.

The officers of the local chapter are John Belschwender, president; Gordon Warner, vice-president; Jack Young, secretary; Ed Thieler, treasurer; and Bob Hieter, social chairman.

The brothers and pledges of Lambda Chi Alpha are presently making plans for participation in the Inter-fraternity dance and their annual spring picnic which always turns out to be a successful affair.

Present plans include preparation for the Junior prom weekend and houseparty, for which the fraternity has acquired the services of "Queen Belle" and her band.

**PHI EPSILON PI**

Phi Epsilon Pi was founded as a national fraternity on November 23, 1904, at the City College of New York and has grown to its present 36 chapter roll including some 18,000 brothers. The fraternity was conceived on a nonsectarian basis to provide a source of expanded social activity within a framework of brotherhood and scholarship.

Locally, the Alpha Nu chapter dates back to 1932, with an interruption only for the war. The present house was purchased in 1947, and is located at 44 South Fulton street.

Presently, the brotherhood numbers forty-six men who have managed to maintain the standards premised by the founders, including academic excellence and extensive extra-curricular participation. This is evidenced by Alpha Nu's capturing the Scholarship cup for five consecutive semesters, and a generous sprinkling of Phi Eps in responsible positions in all phases of campus life. In addition Alpha Nu has participated in such civic affairs as parties for invalid and underprivileged children, and collections for worthy causes such as the Muscular Dystrophy fund. Phi Ep also managed a bit of distinction in athletics, by capturing the Intramural softball championship last spring.

By promoting these multifarious activities, Phi Epsilon Pi, under the leadership of the newly-elected Superior, Don Borden of Orange, N. J., hopes to continue in its tradition of providing a means for expanding campus life in all its diverse elements within the framework of a tightly knit brotherhood.

**PHI KAPPA TAU**

The Eta chapter of Phi Kappa Tau was installed at Muhlenberg on March 22, 1918. The national fraternity was founded at Miami university at Oxford, Ohio, in 1906. At present there are 71 chapters and over 24,000 members in the national organizations.

Located at 2224 Liberty st., Phi Tau has a membership of thirty brothers and eight pledges. This semester promises to be a momentous one for Phi Tau as the prospect of a new house is approaching reality.

Chapter adviser is Charles Stecker, assistant treasurer of the College. Resident officers are James McConnell, president; Dominick DeBellis, vice-president; Ray Croft, treasurer; Philip Kline; Recording secretary; John Holcroft, pledgemaster; and Richard Truchses, chaplain.

Phi Tau's annual Spring Formal, to be held at a Pocono retreat, is eagerly anticipated by the Bro-

(Continued on Page Six)

# Les Brown Will Provide Musical Notes For Prom

**by Linda Patnoi**

"We prefer sound to noise; we prefer the beat over effects, we prefer consonance to dissonance; and we like the melody if it's good." This quotation from **Time** magazine seems to have been the formula for success of the "Band of Renown" and its personable leader, Les Brown.

Les is a graduate of Ithaca Conservatory of Music, New York Military Academy, and Duke university. Somewhat of a child prodigy, at twelve he was playing the Rudy Wiedoft solos that were a part of every saxophonist's repertoire of that era. He was a featured soloist with Conway's concert band at the age of sixteen.

**Became Band Leader**

At Duke university Les played tenor sax with the Duke Blue Devils during his first two years at school. He became leader of this band in his junior year, which under his expert leadership became one of the best college bands. In 1936 Les took the Blue Devil Band to Budd Lake, New Jersey, for the summer. During this engagement, the band recorded for Decca and made world transcriptions. After a year of travel, the band disbanded.

Les headed for New York and, as well as playing dates as a sideman, turned to arranging. He did both arrangements for publishers and "specials" for such leaders as Isham Jones, Red Nichols, Ruby Newman, and Jimmy Dorsey. In 1940 Les organized the "Band of Renown" which steadily moved forward to become number one in the country.

**Danceable Music**

The policy of surrounding himself with the best possible sidemen and paying the best possible salaries to keep these men together was adopted early by Les. This has paid off in a cohesive playing unit.

Today "The Band of Renown" is known all over the world through his eight years with Bob Hope on radio and television, his recordings on Decca, Columbia, Coral, and now Capital, and his personal appearance tours before armed forces units. The name Les Brown has become the symbol of good, danceable music throughout the continent.

# The Snack Bar Gang Completes Berg Family

Muhlenberg's friendly Snack bar debutantes stand for inspection before the chapel period coffee call. They are, from left to right: Alice Albert, Myrtle Wassmer, Florence Hunsicker, Ann Eberhart, and Betty Follweiler.

by Barbara Fretz

The five faces you see above are as much a part of Muhlenberg's Snack bar as the ten minute coffee break. They belong to the women who so willingly serve you at the counter throughout the week.

Myrtle Wassmer holds the record for length of service—she has been pouring the coffee for five years. "Myrt" enjoys her job because, as she says: "I love to work with young people." When away from Berg, Myrt likes to spend free time crocheting and making earrings. Her pet peeves are those frequenters of the Snack bar who use cups and saucers as ashtrays.

Betty Follweiler, a veteran of four years behind the Snack bar, thinks that the coming of coeducation has had a pronounced effect on Snack bar habits. In her opinion, the coeds like to sit and chat more than the men do, and therefore they spend more time in the Snack bar. "Since the coeds have come, the Snack Bar has been beautifully renovated, too."

Betty enjoys associating with students and faculty alike. Traveling is her great love when she can find some precious spare time.

Ann Eberhart's hobbies include reading, knitting, and attending all sports events. (She is a loyal Berg fan, naturally) When asked what she found irking in her job, she replied, "When a student places an order with one girl and then duplicates it to another."

Coeducation, Ann insists, has brought more activity to the Snack bar. She, too, enjoys working with students and finds them courteous and congenial for the most part.

Florence Hunsicker is loud in her praise of Berg students and faculty. She considers them "the cream of the crop." Her only complaint is a coffee cup full of "napkins, sugar, and what-not." All of Florence's free time is devoted to her two sons, ages eleven and fifteen. A busy woman, Florence gladly gives much of her time to her Church missionary guild, the P.T.A., and kindergarten teaching. She also manages to squeeze reading and working out crossword puzzles into her full schedule.

Alice Albert commutes daily from Tamaqua where she and her husband (who also works at Berg) make their home. Alice is perhaps the most reserved of all the Snack bar staff and she enjoys her job because, as she says, "the students are pleased to be served." She also goes so far as to say that the students always seem so interested in their studies. In her spare moments, Alice likes to do work at home and tries to do a good deed whenever possible.

# Campus Fads Assume Modern Characteristics

(ACP)—Fun and games on campus get some editorial consideration. This is from the Fresno, Cal., Junior college RAMPAGE:

The youth of today is probably the group which is most heavily attacked by public criticism and censure. The younger college generation is not excluded from this category.

Looking at the college students of today and making a comparison with those of the past, however, can result in a rather startling conclusion.

Duiring the 1920's and 30's college campuses in this country saw widespread outbreaks of radical behavior. Communist groups were springing up on various campuses along with the soapbox speakers who voiced their radical opinions.. Also, bath tub gin parties and swallowing goldfish were the rage in college life.

Today's college student is far less apt to express himself or his inner turmoils through such unconventional methods as those practiced 20 and 30 years ago.

While it may be good that the college student of today has become far less explosive in his mannerisms, the aura of conformity he has assumed may be considered lethal.

This situation may be considered far more dangerous than a riotous student outbreak over the outcome of a football game.

With today's stress on social acceptance and security many students have been rendered either fearful or incapable of formulating opinions and ideas of their own.

They receive information from their teachers and texts as if they were in a vacuum. No attempt is made to question an authority, information is accepted as completely factual and beyond memorizing it, no further thought is given to it.

Very few people are ready to criticize this lack of mental activity on the part of so many college students. A seemingly insignificant act by a group of students, such as stealing a bell from a campus tower, is much more apt to receive widespread public attention.

As a result of the era in which they live, college students have become almost puppet-like. They are members of a regimented class, much like one in a communist state. An authority is never questioned but always followed.

The end result of this situation is that all college graduates are college trained but very few are truly educated.

Those who can do the most to remedy this situation are the students themselves. They can do this by removing the cloak of indifference which surrounds them and attempting a more inquisitive and through pursuit of their studies.

News reached the editor's desk recently of a crazy campus innovation that has sprung up at some Eastern colleges. It is an old game with a new twist called Russian Roulette.

Well, now these crazy, but lovable, college kids are using blanks. There is one chance in five that the loud exploding blank will go off and shatter your nervous system. Or it may be worse if the gun doesn't go off. But that is mere conjecture and so forth. (By the way, if you are going to run out right now and try it without reading further don't forget to use SPECIAL blanks. The regular ones may tend to blow a slight hole.)

The crazy, but fun-loving, college kids determine who is going to pull the trigger and when by a match of wits card game. This is thrown in for those who would match their wits rather than scatter them.

Its founders claim that RR is the first new college fad since goldfish swallowing and record-eating in the 1930's.

College students should have a certain devil-may-care attitude. It often helps to gain different perspectives. But streetcar strikes. sputniks, traffic jams, tuition, and examinations are sufficient to jangle anyone's nerves and then some. You don't have to explode loud noises in your ear to have a nervous breakdown. You can do it being an ordinary student. (Well, you think you are ordinary, don't you?)

## SENIORS

**All those seniors who have not checked their Ciarla profile for additions or corrections may do so between 1:30 - 4:00 p.m. on Thursday, February 19, in the Ciarla office.**

# Sports in Short

by Ben Livingood

**"It was a combination of things."** That was what Muhlenberg basketball coach **Birney Crum** had to say concerning the seven-game losing streak which the Mule cagers snapped last week. A win over Gettysburg college in the Hershey Sports arena last Thursday ended the losing skein just one game short of tying the consecutive lost games recorded by a Muhlenberg five back in the early 30's.

Coach Crum stated, "we got into a slump and had a hard time getting out of it. It got to the point where they (the team) were hurrying everything." Crum said the team was "a bit disorganized."

He pointed out **inexperience** as one of the chief contributing factors for the disorganization. It was one of the things which a coach must face now and then when a rebuilding problem presents itself. Crum emphasized that he was **not disappointed in the kids.** They were trying hard, many times too hard. This over-trying seemed to make them **"tight all the time."**

Crum blamed some it on what he termed **"sophomoritis."** When the predominantly sophomore team met older and more experienced opponents, it found the going tough. This fact brought about hurt confidence. Any person with some knowledge of sports knows it becomes increasingly difficult to snap a losing streak when the general morale is low. With this in mind, Crum stated, the losses were due in part to the **emotions and state of mind** of the players themselves. Before anything could be accomplished so far as a win was concerned, each player had to make his own individual adjustment.

Coach Crum's assistant and freshman coach, **Dick Schmidt,** added the fact that because it was difficult to break new players into last year's starting unit, there were only a few men on the current squad who had a considerable amount of experience. The coaches' job was 'to build a unit." That is something which requires time, patience, and, at times, a great deal of substitution. The right combination had to be found.

The season is not yet over: There is still a chance at a winning season. The **will** to win is there. The **way** to win is being sought. **The support of the fans must not continue to be absent.**

In a recent game the Phi Kappa Tau "A" team rolled over the Rinky Dinks by a score of 63-48. Leading the Phi Tau quintet was Ray Croft with 21 points. Holcroft, Gleckner and Stewart picked up 13, 10, and 10 respectively. Bill Agee picked up 16 for the losers. Half time score was 32-16. After a halftime lead of 18-11 Sigma Phi Epsilon went on to win over the Bell Boys, 47-31. Dave Jones provided the scoring power for Sig Ep with his 20 points. March was high man for the Bell Boys with seven buckets and a total of 14 points.

**Roonies Win**

The Roonies took a ten point victory over the Catahamptons when they finished up on the high end of a 38-28 game. John Peoples collected 11 points for the victorious Roonies. Karo hit five field goals and one free throw for his total of 11 points. Harry Beidleman was the big gun for the Vets when they rolled up a 53-26 victory over the Warriors. Harry dropped in 17 points and was aided by Nieman and Westin in the scoring. Westin picked up 10 and Nieman collected 13.

Alpha Tau Omega lost to the Schmekels by a ten-point margin. The Schmekels were led by Roy Spangler with 15 points and Joel Moskowitz helped out with his 10 points. Bob Nuss was high man for Alpha Tau Omega with 14. The final score was 43-33. The Tri-Staters continued on their winning ways with a victory over Phi Epsilon Pi. In this 46-20 ball game Jim Eden and Herb Owens teamed up with 10 points each to give the Tri-State quintet the edge. Mike O'Donnel hit for 20 points to help the Commuters down Phi Kappa Tau "B". In a lopsided contest the Commuters won, 75-39. Johnson and Wilson contributed 16 and 12 respectively for the winners. Davis was high man for PKT "B" with 12 points.

# Lafayette Defeats Berg Again; Leopards Trounce Mules, 79-66

The Lafayette jinx, which has plagued Muhlenberg basketball teams for four years, proved itself insurmountable once again last night in Alumni Memorial Gym in Easton. The Leopards took advantage of one of Muhlenberg's greatest weaknesses, the slow start, to gain a 16-point halftime advantage, then coasted to their eighth consecutive conquest of their neighboring traditional rival, 79-66.

The white-shirted hosts capitalized on a short but costly Muhlenberg slump near the close of the first half for ten straight points, and a leading margin which the Mules found too stiff to overcome in the second portion.

The big gun for the Leopards in the opening half was their 6' 7" senior center, Bob Mantz, who netted 17 of his 21 points in the first 20 minutes. However, he got a lot of help from sophomore reserve Charlie Ross, who tallied six points during the ten-point surge.

Clint Jeffries and Mel Kessler were outstanding for the Mules, scoring 18 and 17 points respectively. Kessler notched 13 markers in the first half, while Jeffries accounted for 15 of his total in the second. Dick Sekunda, with 14, and Dick MacLaughlin, with 10, were the other Bergmen to finish in double figures.

**Leopards More Accurate**

The Leopards also had four men register in double digits. They were: Mantz (21), Ross (15), Dick Kohler (18), and Mike Wallace (16). Lafayette hit the mark 30 times in 71 attempts from the floor, and made good on 19 out of 25 free throws. In contrast, Muhlenberg went 25 for 78 from the floor and 16 for 24 on the charity line.

If the going looked tough for the Mules at the close of the opening half, it appeared even worse at the outset of the final 20-minute portion. The Maroon and White picked up just where they had left off in the first half, and lengthened their lead to 50-30 with less than two minutes gone.

From that point on, however, the Mules began to pick up speed, and were constantly whittling away at the lead. In the final four minutes of the contest, a six-point spurt by Jeffries and Bob Lukens, who turned in one of his better performances of the season, brought Muhlenberg within eight points, 73-65. But, four quick points by Mantz and Ross extended the margin to twelve at 77-65, killing the Bergmen's upset hopes. With 40 seconds remaining, Jeffries swished a free throw, and Ross found the mark with a lay-up just before the buzzer to account for the final, 79-66.

It was a bad night all around for in the preliminary game, the Lafayete freshmen bested the Mule frosh, 71-65. The Little Mules outscored their hosts in the field goal department, 30-24, but the Lafayette yearlings' foul shooting spelled the difference. The Leopards were successful on 23 of 27 shots, as compared to Muhlenberg's 5 for 11.

Al Filardi, George Gilfillan, and Ron Druckenmiller led the Mules in scoring with 24, 18 and 17 points. Mark Chernovsky and Marv Boyer tied for the Leopards' scoring honors with 17 tallies each.

## Mules Defeat G-Burg, Colgate After Dropping Seven Games

**Muhlenberg's Clint Jeffries, partially obscured by two Colgate players as he scraps for a rebound. Other Berg players are Joe Berghold (41) and Dick Sekunda (25). Muhlenberg was victorious, 80-72.**

In the last three weeks Muhlenberg has faced six opponents, losing the first four encounters before rebounding to hand losses to Gettysburg and Colgate. These last two triumphs brought the Mules up to the .500 mark (now 8-8) after a long uphill battle.

After dropping a nip-and-tuck contest to Tom Nolan's Georgetown five led by pesky Jack Nies, the Bergmen traveled to Bethlehem to face the Brown and White of Lehigh on January 29. Here in Grace hall, the Engineers could do no wrong. Led by footballer Dan Nolan's standout floor play, Lehigh came out on top, 66-64, in a thriller as Tom Healy's jump shot from the key with two seconds remaining proved to be the margin of victory.

**Sekunda Scores 20**

For Berg, sophomore Dick Sekunda was outstanding as he bucketed 20 points and grabbed off 16 rebounds. Mel Kessler turned in another impressive performance, scoring 11 points.

On February 1, the LaSalle Explorers invaded Memorial hall and handed the Mules their sixth consecutive setback, 82-80. Led by Charles Eltringham and Joe Heyer, coach Jim Pollard's courtmen proved too much from outside and were able to stave off a last minute drive by the Cardinal and Grey for their second success over Berg this year.

Three days later, coach Birney Crum's five travelled to Lancaster where they absorbed their seventh straight defeat by a score of 70-64. Steve Matell was high for Berg with 17.

**Berg Wins**

On February 6, however, the Bergmen exploded for an 89-62 victory over Gettysburg (3-11). Clint Jeffries and last-minute starter Bill Dissinger were the key men scoring 24 and 16 respectively. The latter was especially effective, scoring on seven of 13 shots and frequently intercepting passes . In addition, Sekunda tallied 18, and Mel Kessler had 13.

On Friday, Berg met a visiting Colgate squad (5-11), led by captain Phil Biselle and defeated the Red Raiders, 80-72. The Mules gained an early 15-14 lead and were never headed despite the fine performance of Bisselle who netted 31 for scoring honors. Clint Jeffries raised his three year total to 1042 points as he scored 24, followed by Sekunda with 22, and Kessler with 17.

## Mules Beat Bullets

Muhlenberg's wrestling team came up with an impressive 17-8 triumph over perenially strong Gettysburg, in the Gettysburg gymnasium last Saturday. The win broke a two match losing streak for the Berg matmen and represents their fourth triumph in six outings.

Pierce Knauss opened the match with a decision over Propst to set the theme for the pinless matches. Thomas and Kunkle followed with wins over Warner and Williams in the 130 and 137 pound classes re-

# Mule Courtmen Face Hawks And Scranton

by Bob Schumacher

St. Joseph's college from Philadelphia and Scranton's Royals provide the Mules opposition for the next two games. Saturday night the Mules will entertain a strong Hawks team that has come a long way after a slow start. The Hawks, coached by Jack Ramsey, who is in his third year at the helm, are loaded with sophomores and have a sprinkling of juniors. They recently lost to Albright by one point and then got smothered by a strong Cincinnati quintet last Saturday, 100 to 78.

The Hawks leading scorers after 14 games are sophomore Bob McNeill with a 17.5 average and junior Joe Spratt hitting at a 12.3 clip. The big man at 6' 9" is Bob Clarke who is averaging 11.7 points and is the leading rebounder on the squad, grabbing over 11 rebounds per game. Other starters are forward John Hoffacker and the only senior on the team, Captain Jack Savage. Savage is a guard with a good set shot. Also due to see a lot of action are Al Cooke, Frank Murphy, Joe Gallo, and Fred Slaveski.

Last year the Mules defeated St. Joe's by scores of 77-67 and 71-70. The Cardinal and Gray also hold a 14-13 edge in the overall series.

On the following Wednesday the Mules journey to Scranton to face coach Fiore Cesare's royals at the Scranton Catholic Youth center. Coach Ceasare's five compiled a 9-14 record in his first year last season. The Purple and White are led by junior Ed Kacskavich, at 6' 5" the team's leading scorer and rebounder. Kasckavich averaged 20.6 points a game last year and is hitting at a little better pace this season. The Royals are captained by senior Tom Keefe, second high scorer and also a good rebounder. Other starters include forward Bob Kearney and guards Bob Meckwood and Jerry Davies. Two subs which will be used frequently are Ray Caucci and Joe Stachnik. The latter is an Air Force vet who possesses a deadly one-hander.

The Royals have only two games left after Wednesday, encountering LaSalle and terminating the season with Kings college. The Mules defeated Scranton last year by a 77-56 score as Bill Smith set a Memorial hall record for a Muhlenberg player by sinking 34 points. He was followed by Clint Jeffries who scored 23.

## Bucknell Hands Wrestlers First 1957-58 Defeat

Muhlenberg dropped its first wrestling match in four attempts this season when Bucknell handed the Mules a 19-10 defeat in Memorial hall on January 18. It was the third straight win for Bucknell.

Three Bucknellians kept perfect records while two others lost their first match. Muhlenberg's Simpson and King both lost their first matches of the season, but Keehn and Waller kept their slates clean.

**Keehn Stays Unbeaten**

Keehn, wrestling in the 177 lb. class decisioned Dick Watkins by a score of 7-2 to remain unbeaten, while Jim Waller wrestled to a draw with Pete Fritts.

Jerry Rehrig scored the only pin for Muhlenberg when he pinned unbeaten Edge Devel with a body press in 4:10 of the second period:

Summaries:

123—Wightman, Bucknell, decisioned Knauss, 2-0.

130—John Ayre, Bucknell, pinned Mike Peters, Muhlenberg, on 5:42 with a double arm bar.

137—Bell, Bucknell, decisioned Gordon Warner, Muhlenberg, 5-1.

147—Jim Waller, Muhlenberg, and Peter Fritts, Bucknell, wrestled to a draw, 0-0.

157—Tony Dempster, Bucknell, decisioned Don Simpson, Muhlenberg, 3-0.

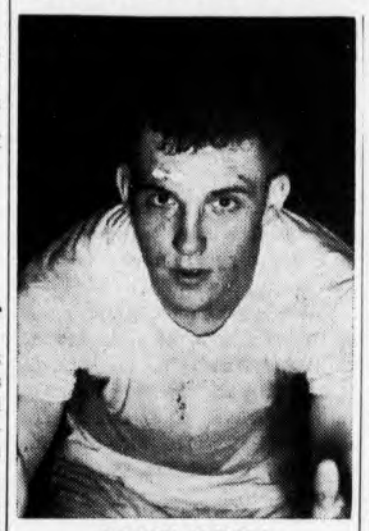
167—Dave Murdock, Bucknell, decisioned Dick King, Muhlenberg, 2-0.

177—Roger Keehn, Muhlenberg, decisioned Watkins, Bucknell, 7-2.

Hvt.—Jerry Rehrig, Muhlenberg, pinned Edge Devel, Bucknell, in 4:10 with a body press.

## *In the Sportlight . . .*

## Two Seniors Bolster Swordsmen, Grapplers



ROGER KEEHN

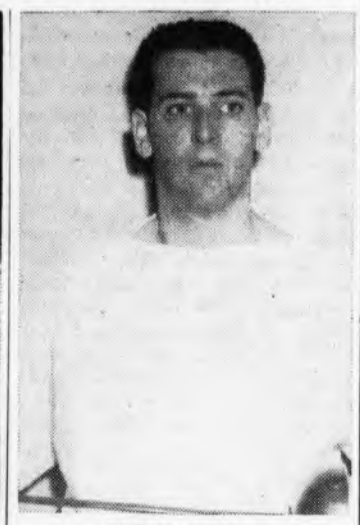
Roger Keehn who is from Hillside, New Jersey, is in his second year of varsity wrestling competition. Last year Roger wrestled in the unlimited weight class. Participating in only a few of the matches during the regular season. Roger had a record of three wins, two losses, and one draw. He placed third in the Middle Atlantic championships, winning three out of his four matches.

This year Keehn is wrestling in the 177-pound class. He has won five of his matches so far, one by a pin.

**History Major**

A senior History Major, Roger's other athletic activities include football and baseball. Keehn is also Vice-President of the M-club.

Roger feels that "the added strength in the lower weight classes and all around experience will help toward a better balanced team this year.



STEVE FUCHS

On January 5, the Muhlenberg Fencing team opened up the current season against Temple. One of the mainstays on this year's team is Steve Fuchs a Senior Pre-Medical student from North Miami Beach, Florida.

Last year was Steve's first year on the varsity squad. He won seven contests out of twelve in the regular season in the Eppé division. In the Middle Atlantic championships Steve teamed up with Bill Wormley to win the Eppé championship.

**Inexperienced Men**

Steve says that "fencing is relatively new to most of the men on this year's team. However, the team's prospects will improve with practice."

Steve's other activities include Tau Kappa Epsilon Social fraternity, Pre-Med, Mask and Dagger, the M-Club and the Jazz society.

## Freshman Nominations

**Nominations for Freshmen Officers, excluding those nominations made at the February 6 meeting, must be in the Student council suggestion box by 6:00 p.m. on Saturday, February 15.**

**Student Council**

# Mule Wrestlers To Face Delaware, Ursinus Teams

The Muhlenberg wrestlers hope to continue on their winning ways as they oppose two more opponents in the following week. On February 15, the Mules travel to Delaware to engage the Mudhens in an afternoon contest. Following this the Bergmen return home to encounter Ursinus on February 18.

In the Mudhens of Delaware, the Mules face a team that had a 3-3-3 won-lost record for the 1957 season. Delaware defeated Haverford, Albright, and Bucknell while losing to Muhlenberg, Drexel and Swarthmore. The Bergmen defeated Delaware by a score of 24-10.

**Four Lettermen**

Delaware has four returning lettermen on a 14 man squad. However there are nine sophomores on the team. Coach Whitey Burnhand in his eighth year as head wrestling coach has little depth on the team and injuries are a constant threat. Gone from last year's squad are Hugh Mooney and Steve Voorhees, both unbeaten last year. Also gone is Bob Peterson, the leading scorer.

Returning to spearhead the team is Captain Jim Zawicki, a senior letterman who compiled a 6-2-1 record last season. He will again hold forth in the 177 lb. class. Bill Walker, another letterman, will return in the 157 lb. class. He compiled a 5-1 record for last season. Dick Duerr and Marty Simpson, both lettermen, will again wrestle in the heavyweight and 157 lb. classes. One promising note is the performance of Sophomore Tom Maddux. As a freshman last year, he went undefeated and this year is expected to fill the vacancy in the 130 lb. slot.

**Meet Ursinus**

Following the Delaware match, the Mules meet Ursinus in Memorial hall on February 18. Last year the Mules defeated the Bears

(Continued on Page Six)

## Clint Jefferies Named To All-East Team; Third Time Honored

Clint Jeffries, captain of Muhlenberg's basketball team has been named to the All-East major college basketball team chosen by the ECAC this week. This is the third time Jeffries has been chosen to receive this honor. The basis for his selection to this team was his performance in the three games last week in which he scored 57 points as Muhlenberg broke a seven game losing streak. Only one other Lehigh valley player from this area was nominated for the team. This was Bob Roepke, co-captain for Lehigh's Engineers.

The entire All-East team for this week is as follows:

**Forwards:** Clint Jeffries, Muhlenberg; Frank Wickes, Delaware; George Schmidt, Penn; Joe Spratt, St. Joseph's.

**Centers:** Hal Danzig, Bucknell; Jon Cincebox, Syracuse.

**Guards:** Al Seider, St. John's; Guy Rodgers, Temple; George Britz, Canisius; Fred Perkins, Princeton.

Other nominations included Wally Colannder, Penn State; John Pipczynski, Connecticut; Bob Roepke, Lehigh; Tom Brennan, Villanova; Joe Tabo, Brown; and Len Wilkins, Providence.

## Basketball Statistics

| Names | Games | Field Goals | Foul Shots Att. | Foul Shots Made | Foul Shots Total | Av. |
|---|---|---|---|---|---|---|
| Sekunda, R. | 15 | 82 | 92 | 70 | 234 | 15.6 |
| Jeffries, C. | 16 | 91 | 121 | 72 | 254 | 15.9 |
| Kessler, M. | 16 | 76 | 103 | 69 | 221 | 13.8 |
| Berghold J | 16 | 31 | 35 | 23 | 105 | 6.6 |
| Matell, S. | 16 | 35 | 21 | 14 | 84 | 5.2 |
| Sarner, J. | 15 | 14 | 21 | 14 | 42 | 2.8 |

| Robins, D. | 15 | 19 | 14 | 8 | 46 | 3.1 |
| Hoffman, C. | 13 | 12 | 15 | 5 | 29 | 2.2 |
| Loeffler, H. | 13 | 8 | 15 | 9 | 25 | 1.9 |
| Lukens, R. | 9 | 11 | 14 | 6 | 28 | 3.1 |
| Dissinger, W. | 10 | 15 | 6 | 5 | 35 | 3.5 |
| TOTALS | 16 | 425 | 479 | 309 | 1159 | 72.4 |

## 1958 Football Schedule

The Muhlenberg college football team will play eight games this fall, with three contests at home and five away, according to the schedule released by Athletic Director George Lawson today.

Moravian is the only new foe making its appearance on the Mules' card. The Greyhounds, who replace Scranton, will help the Mules wind up their season on Nov. 22 in Bethlehem.

The schedule:

| | |
|---|---|
| Oct. 4—Lafayette | Away |
| Oct. 11—Temple | Home |
| Oct. 18—Lebanon Valley | Away |
| Oct. 25—Gettysburg | Away |
| Nov. 1—Hofstra | Home |
| Nov. 8—Albright | Away |
| Nov. 15—F. & M. | Home |
| Nov. 22—Moravian | Away |

(Continued from Page Two)

therhood. Immediate plans center around the Junior Prom weekend.

**SIGMA PHI EPSILON**

The Pennsylvania Iota Chapter of Sigma Phi Epsilon, was established on the Muhlenberg campus on April 10, 1938 as a result of the merger of Theta Upsilon Omega with the larger national organization. Sigma Phi Epsilon has been located at 325 N. 23rd street, since 1933.

At present there are 22 active brothers and 8 pledges in Sig Ep. The officers are: president, Edward George; vice president, Francis Vari; secretary, John Haberen; comptroller, Robert Beeton; and historian, Pierce Knauss. The adviser is Dr. Charles Mortimer professor in Chemistry.

Sig Ep has 142 chapters and is the second largest fraternity in the United States.

An entirely new scholastic plan has been established which will benefit all of those in Sig Ep very much. Within the next 4 to 7 years Sig Ep plans to build a new fraternity house.

The present activities of Sigma Phi Epsilon are shown through the great number of trophies on the mantle of the fireplace. Last year Sig Ep copped eight of the sports trophies.

**TAU KAPPA EPSILON**

In the early fall of 1955, a group of men met to decide upon organizing a local fraternity at Muhlenberg college. The body voted unanimously to establish Alpha Mu Iota, a local fraternity, which would strictly adhere to policy in determining membership without regard to religious belief.

On September 30, 1955 the brotherhood was united, officers elected, and Alpha Mu Iota began its existence as a local fraternity on the Muhlenberg campus.

In May of 1957, after being contacted by Tau Kappa Epsilon national fraetrnity, the brotherhood voted to affiliate with this organization. After successfully completing a four month pledge period, Alpha Mu Iota was installed as Zeta Eta chapter, the 145th chapter of Tau Kappa Epsilon. Newly elected officers included: president, Donald Snyder; vice-president, Richard Lichtenthal; secretary, Carl Adams; treasurer, Roy Clayton; pledge master, Herb Seigel.

Ever since the first initiation, membership has totaled approximately 35 to 40 members and has consisted of men of all backgrounds living together in harmonious accord. In addition to high moral character, scholarship, and brotherhood for all men, "TEKE" stands for the promotion of religious ideals and fellowship.

# Satellites Important In Scientific Study

(Continued from Page Two)

earth possibilities.

In physics, the major forseeable experiment would be a check on the Einstein relativity equations, which predict changes in dimensions of space, mass, and time for systems traveling at extreme velocities, that is, velocities which approach that of light waves. At this time, only satellites could approach the extreme velocities necessary for an experimental check on relativity theory, at least in the field of time transformation. For this, however, there must be further miniaturization of the atomic clock, which tells time accurate to one part-per-billion by vibration of a cesium atom.

Biological experiments have already begun. The dog in Sputnik II was wired, according to certain U.S. authorities. A. C. S. biologist, watching oscilloscope patterns of the satellites beep, recognized them as products of a phonocatheter, and instrument for measuring heart vibrations, according to a recent issue of **Time** magazine. In the future, psychologically conditioned mice could tell man much about the physical and mental affects of weightlessness and other factors of space travel.

A worthwhile article for those interested in the satellite topic, and one from which much of the information in this article is taken, is "How Man-Made Satellites Can Affect Our Lives", National Geographic, December 1957, written by Joseph Kaplan, chairman of the U. S. National Committee for the International Geophysical Year. Many other articles are available, some concerning the military aspects of the question, others entering more deeply into the purely political side, but certainly there are none that exhaust the topic, for new uses and developments in the satellite and space field will continue to arise as long as man cares to search for them.

# Wrestlers Win

(Continued from Page Four)

spectively by decisions of 4-3 and 6-0, for the Bullet's only wins in the matches.

In the 147 pound class Berg's Jim Waller retained his unbeaten record by decisively decisioning Jim Phidius, 5-1. Captain Don Simpson defeated Gettysburg's Scott by a similar score. Dick King partially revenged last year's loss to Arnie Nonas by wrestling to a 1-1 draw.

Roger Keehn registered his fifth win in six matches by defeating Leh, 4-0. Gerry Rehrig followed by decisioning Hoffner, 9-3.

# The Chowline

Well the Snack bar crew finally made the Muhlenberg **WEEKLY**, the best collegiate newpaper this side of Mauch Chunk. However, we detected that one of the girls was omitted intentionally, of course, from the story. The girl omitted was Harry. Maybe next time, sweetheart.

On a more cheerful note the Snack bar has added fruit cocktail to its desert menu. Now, for only fifteen cents, students can purchase a delicious snack that includes grapes, pears, peaches, apples, and pineapple chunks! This treat is available every day.

The Slater system is once again serving delicious beef **and** pork bar-b-q sandwiches—and for only twenty-five cents each. Served on a fresh hamburger roll, this delight can be consumed during your leisure time.

Since the winter weather has taken a turn for the worse, instant relief may be realized if a number of steaming hot chocolates or coffees are consumed in rapid succession. Your Snack bar has these beverages in large quantities. For the girls we also have tea.

Till I see you at the Snack bar,

I remain,
The Balding One
**Adv.**

# Junior Formal

(Continued from Page One)

'59 and those guests in the company of the male members of the same class. The selection of the queen and the two runners-up will take place at approximately 11:30 p.m. The queen will be honored by the presentation of an Ingham wrist watch, and each of the runners-up will receive a necklace.

Honored guests for the evenings festivities include: Dr. and Mrs. J. Conrad Seegers, Dean and Mrs. Henry M. M. Richards, Dean and Mrs. Claude E. Dierolf, Dean Heimtraut Dietrich, Admiral Charles W. Moses, Dean and Mrs. Harry A. Benfer, and Mr. William L. Kinter. The chaperones for the evening are: Dr. and Mrs. Victor L. Johnson, Dr. and Mrs. John J. Reed, and Dr. annd Mrs. David H. Bremer.

# Berg Meets Bears

(Continued from Page Five)

by a 23-15 margin. Ursinus will be missing one of its greatest wrestlers for the first time in four years. Gone is Dick Padula, four time Middle Atlantic wrestling champion, who graduated last year.

The Ursinus Bears opened the season by defeating Haverford, 19-13. In the starting line-up for the Bears were three freshmen, one sophomore and four seniors. Myles Dechant in the 123 lb. class, Pete Smith in the 147 lb. class, and Paul Simpson in the heavyweight class are all freshmen. Bob Turnbull at 130 lbs. is the only sophomore, while Hal Redden at 137 lbs., Captain Jack Prutzman at 157 lbs. Don Hartmen at 167 lbs. and Dick Blood at 177 lbs are all seniors.

# Term Paper Contest Is Now In Progress

Early last semester Pi Delta Epsilon, national honorary journalism fraternity announced that it would sponsor a term paper contest. This contest will take place this semester. It is open to all members of the class of 1961 who are enrolled in the freshmen English course. The final results of the contest will be released after all research papers have been submitted.

The contest is being sponsored by Pi Delta Epsilon in conjunction with the **WEEKLY**, the **Arcade**, and the English department. Three cash prizes will be awarded. The winner will receive, $15, the runner-up, $10 and the third place winner, $5.

**Method of Judging**

Judging of this contest will be carried out in the following manner. The instructor of each of the 15 sections of English 2, will submit the best paper or possibly the two best papers if there are two worthy of consideration, to a committee composed of members of Pi Delta Epsilon, the **WEEKLY** and the **Arcade**. From this group of approximately 20 papers, the committee with the help of the English department will pick the three papers which are worthy of recognition.

# Jazz Society Meets

**The Jazz society will hold a meeting Monday, February 17, at 7:30 p.m. in the West hall Commuters' lounge. Everyone is invited to attend.**

# Rushing Begins

(Continued from Page One)

Lambda Chi Alpha is located at 407 North Twenty-third street and is represented by 42 brothers. Forty-four North Fulton street is the address of Phi Epsilon Pi fraternity, and maintains a brotherhood of 46 men. The Sigma Phi Epsilon fraternity house is at 325 North Twenty-third street, and there are 22 brothers. Phi Kappa Tau is located at 2224 Liberty street, and has a brotherhood of 24 men. Thirty-six brothers are in the Tau Kappa Epsilon fraternity, and maintain residence at 401 North Twenty-third street.

# Fencers Drop Opening Match

The Temple university fencing team handed Muhlenberg an opening match defeat 22-5 at Memorial hall on January 18th.

Chuck Holder, Muhlenberg's captain, was the only local fencer to gain a doubel win, defeating Jenkins and Pengler and losing to Floam in foil action.

**Foil**

Holder (M) defeated Jenkins annd Pengler, lost to Floam; Moyer (M) lost to Jenkins, Pengler, and Floam; Linett (M) lost to Jenkins, Pengler and Floam.

**Epee**

Fuchs (M) defeated Naslow, lost to Kelley and Lagoia; Byrne (M) defeated Kelley, lost to Naslow and Lagoia; Burgess (M) lost to Kelley, Byrne, and Naslow.

**Saber**

Michaels (M) defeated Majorrelo, lost to Diano and Sharfstein; Merz (M) lost to Majorrelo, Diano, and Mertz; Abramson (M) lost to Majorrelo, Diano, and Sharfstein.

# Girls Gym Schedule Released For Spring

Miss Jean Hecht, physical education director for girls sports, has recently announced the second semester athletic program for coeds.

The regular gym classes will meet three periods a week. They have been divided into basketball, volleyball, and badminton sections. Later in the spring, they will include softball, tennis, and instructions in golf.

Along with the regular sports program, an intra-mural sport is required. Credit may be attained by participating two hours per week in the sport the girl chooses. Volley ball, badminton, basketball, softball, and tennis are offered.

As of yet, there is still a question as to whether or not fencing will be available. This will be determined by a conference among athletic directors.

# Parking Notice

**The Bureau of Fire Prevention has very kindly warned us that unless students at Muhlenberg abide by the State Law concerning parking near fire hydrants the City will be forced to arrest offenders.**

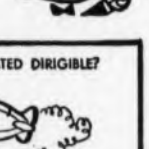
**May we remind you that in Pennsylvania you are prohibited from parking within 15 feet of any fire hydrants.**

**The request by the City to abide by this important regulation is a perfectly reasonable one and we are sure that all Muhlenberg students will cooperate by honoring this request.**

**Claude E. Dierolf**
**Dean of Men**

# Sticklers!

**TAXI DRIVING,** at best, is a *checkered* career. Some days, nothing seems to click—including the meter! Traffic crawls, motor stalls, horns bleat, bumpers meet. What a moment to reach for a Lucky—and discover (horrors!) you're fresh out. That's when the most genial driver turns into a *Crabby Cabby*. And why not? He's missing the best taste going . . . a cigarette that's light as they come. Luckies are all light tobacco—good-tasting tobacco, toasted to taste even better. Try 'em yourself. And step on it!



**DON'T JUST STAND THERE . . .**
**STICKLE!**
**MAKE $25**

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out $25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., February 20, 1958 | A. C. P. Rating | No. 16

## Student Body To Nominate New Council

Nominations for members of the Student council are now being accepted. Anyone wishing to submit a nomination for these positions is asked to place their candidate's name on a 3x5 card, along with their own name, and place it in the Student council suggestion box in the Student center.

On March 7 at 4 p.m. the nominations will be closed. All nominees will then hold a meeting in the Student council room on Friday, March 7 for the drawing of places on the ballot.

Student council elections will be held on Wednesday, March 12 from 9 a.m. to 4 p.m. in the Student center. All members of the student body will be eligible to vote in this election. The voting will be on a preferential ballot basis.

**Student Council Officers**

Nominations for Student council officers will close on March 16 at 4 p.m. The election of Student council officers will then be held on March 19 from 9 a.m. to 4 p.m. in the Student center. Election and nomination proceedings for this election will be run on the same basis as the Student council elections.

A special Council transfer ceremony will be held in the chapel on April 9, during the regular chapel period.

The elections, as in the past, will be run under the auspices of Dr. Claude E. Dierolf, Dean of Men.

## Prom Queen Crowned Amid Scene of Gaiety

**Gail Haid, Muhlenberg college freshman, is crowned queen of the Junior Prom by Charles Smith, president of the Junior class. Gail received the top honors from a field of approximately 100 girls and was selected by the judges from a group of 10 finalists.**

Gail Haid, Muhlenberg college freshman, received a memorable distinction last Friday evening when she was selected as queen of the annual Junior Prom, at the Frolics ballroom. Two other girls were chosen to comprise the queen's court. They were Eileen Reinsel and Barbara Wich.

Gail is from Jackson Heights, N. Y., and is an elementary education major at Muhlenberg. Her escort for the evening was Jack Young, also a student at Muhlenberg. Eileen Reinsel is a student nurse at Lankenau hospital in Philadelphia and makes her home in Reading. Miss Reinsel's escort was Edwin Scholl. The other runner up in the contest, Barbara Wich was escorted by Pete Kelting. Miss Wich is a student at Douglass college.

The elimination selection of the queen was conducted by a committee of 12 judges. The final selection was made from a group of finalists, consisting of ten girls. The judges for this part of the contest were: Dr. David Bremer,

(Continued from Page Four)

## ODK Project Announced By President

Omicron Delta Kappa, national honorary leadership fraternity, will sponsor a college evaluation poll in the spring, according to Karl Becker, president of the Muhlenberg circle. Designed for the graduating seniors, the questionnaire will attempt to discover the strengths and weaknesses of the institution.

Among the numerous areas to be included on the questionnaire will be the institution's contribution in the development of the student's religious, intellectual, social, physical and vocational interests — areas which the college attempts to develop. The poll will be administered to interested members of the senior class and will provide a basis for future recommendations to the administration by the honorary fraternity.

**Accuracy of Results**

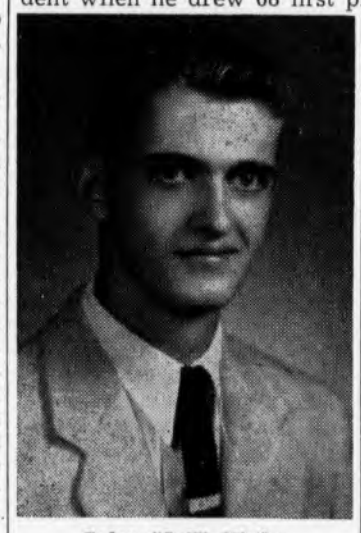
Seniors answering the questionnaire will be required to sign their name, to insure the accuracy of the results. Further details will be released by Omicron Delta Kappa as work on the project progresses. Members of the faculty, administration, and student body interested in contributing to the poll are asked to contact Karl Becker or Dr. Harold Stenger, faculty adviser to the fraternity.

Previously, Omicron Delta Kappa has sponsored a faculty evaluation poll, which was administered to the entire student body during the 1953-54 academic year. Students were not required to sign the

(Continued on Page Four)

## Class Of '61 Elects Kistler As President

Galen Kistler copped the presidential slot in the Freshman class elections yesterday afternoon, when he polled 90 first place votes. Thomas Reinsel won the position of vice-president when he drew 68 first place votes for that office. The position of secretary and treasurer for the class of '61 were taken by Barbara Fretz and Les Fetter, respectively, when Fretz took 110 first place votes and Fetter, 82.



**Galen "Jeff" Kistler**

In spite of the snow and the mixed up class schedules, 218 out of 287 of the members of the freshman class turned out yesterday for the elections. This is approximately 76% of the class and one of the largest election returns in recent years. The balloting was held for six hours, between 9 a.m. and 3 p.m.

**Galen Kistler**

The new president of the Freshman class, Galen Kistler, is a resident of Pennsburg. He is a pre-med student at Muhlenberg. Thomas Reinsel, newly elected vice-president of the Freshman class, is also a pre-med student annd makes his home in Reading. Barbara Fretz, who will now assume the position of secretary, is from Telford. Barbara is a history major here at Muhlenberg. The newly elected treasurer of the class of '61, Les Fetter, is a native of Reading and is majoring in chemistry.

The elections were held under the supervision of Carl Shellenberger, elections chairman of the Student council and under the auspices of Dr. Claude E. Dierolf, Dean of Men.

**Student Council Nominations**

The election returns were tabulated immediately after the stu-

(Continued on Page Four)

## Freshmen To Receive Fraternity Invitations

Fraternity bids will be distributed in the Science auditorium at 4 p.m., Thursday, February 27. Freshmen will enter the room and be seated. Each name will be called off in alphabetical order, with the assigned bids accompanying them.

No freshmen will be allowed to leave the auditorium until all bids have been placed in the hands of the designated men. Time will be allowed for the necessary decisions to be made. Those men who will be present to officiate over the proceedings are: Walter Schumann, president of the Interfraternity council; Dr. Claude E. Dierolf, Dean of men; and Dr. Henry M. M. Richards, Dean of faculty.

**Silent Period**

Beginning at 6 p.m., Sunday evening, February 23, a silent period will begin. This will end at 4 p.m., Thursday, February 27. The Interfraternity council's rules governing this allotted time is as follows: All fraternity men are honor bound not to attempt to influence a new man (freshmen) in a choice of a fraternity from the close of rushing until the bids have been distributted.

Other authoritive rules concerning bids are as follows: A man will not be considered pledged to a fraternity until a standard Interfraetrnity council pledge card has been signed by him, with the exact hour of signing and the signature of the fraternity man who did the pledging. This card must be filed within 24 hours of distribution.

**Depledging**

Also, if a pledge has been dropped from a fraternity for any reason, he may not pledge another fraternity until three months have passed. If bids have not been filed with the Dean of men within 24 hours of the date of distribution, the new man cannot pledge a fraternity of his choice until seven days have passed. This is not to be confused, however, with depledging.

Any other questions concerning the Interfraternity council rules on the distribution of bids may be referred to Walter Schumann, or Dean Claude E. Dierolf.

## Scotland Yard Sleuth To Address Students

Scotland Yard, the modern London police system and a racy history of the Yard will become vividly exposed as Robert Fabian, the noted "Fabian of the Yard," discloses his secrets here at an assembly program scheduled by Student council at 3:15 in the Science auditorium on Wednesday, February 26.

**Fabian of Scotland Yard**

Fabian, who has been decorated by King George VI, will deliver a talk including his own experiences and the methods of foiling the clever techniques of the most adroit of criminals. The detailed proceedings of Scotland Yard will be an open book before the audience.

Fabian worked himself up the ranks of the London police force from constable on the beat to Superintendent of Scotland Yard. His exploits have been recorded on thirty-nine films and some of his literary works include **Fabian of the Yard** and **London After Dark** both of which were best sellers. At present retired from Scotland Yard, Capt. Fabian writes a weekly article for the Kemsley papers, lectures widely in the British Isles, and is in the process of writing another book.

## Unexpected February Blizzard Blankets Muhlenberg College; Students And Dates Stranded During Junior Prom Weekend

**by Rick Stephan**

**Winter's icy blast hit the Muhlenberg college campus last weekend when 12 to 36 inches of snow was dumped on the Allentown area. The annual Junior Prom weekend was seriously affected when students and their dates found themselves stranded for an extra day. The campus certainly looked beautiful we must admit, but brrrrr! Was it cold!**

A memorable week-end! The snow that arrived on Saturday afternoon will cause everyone to reminisce of the 1958 Junior prom. Of course, this is not to say what memories will remain. Probably there are those who would rather forget completely about it in its entirety. And again, the elements perpetuated the frivolous and hilarious events which make a weekend at Muhlenberg one to remember.

House parties continued past the assigned period "alloted," much to everyone's joy. Precedent was broken when "les femmes" accupied some of the fraternity houses on Sunday night. Enterprising young men proceeded to uncover their vehicles from what seemed to be tons of snow, while their female counterparts cheered them on from the hearth of a blazing fire.

Classes were postponed for Monday, which allowed the various entrepreneurs to shovel sidewalks for personal profit. Others took this opportune time to recuperate from a very strenuous weekend. Still others were catching up on assignments that were shoved into desk drawers in anticipation of the coming week-end.

Worried mothers( and fathers) kept the employees of the telephone company busy with their harried calls of concern over the welfare of their daughters (and sons). Many momentous decisions were going on all over the campus whether to attempt a hazardous journey home with their dates, pinmates, fiancees, and wives. As has been mentioned, many took the easier and happier way out.

Word has been released from the upper echelon that Muhlenberg is undergoing a coal shortage. This might necessitate bringing Bunsen burners and Sterno to class for warmth. Those buildings slated to be closed are: Memorial hall, the Chapel and possibly the library.

Everyone in the Lehigh valley has been thrown into a virtual panic over the weather conditions. Predictions have been made that more poor weather is in sight and many are hoping that we can have another house party week-end in the very near future, so that festivities brought about by the recent deluge may be experienced once again.

It has been rumored that one of the local old-timers tried to relegate this blizzard to an almost obscure position as compared to the one in '88. The resultant rumor is that this advocate of posterity is now recuperating in the Allentown General hospital, due to his fallacious remarks.

Many have not seen a storm such as this since the winter of 1947, when those who are attending Berg had no thoughts of college. Now we are experiencing the winter of 1958, from which many humorous and weird tales will emit.

Sunday evening, Dick Hess and Seth Brown were returning from Bethlehem, after having driven their dates home. Brown was at the wheel, driving in his own inimitable style. Appearing before him was what seemed to be an avalanche of snow. Not sensing any danger in this he blandly roared through it. Emerging a few minutes later, he amazingly found himself on the road. We, too, are amazed that he didn't try it again.

Dick Kennedy stamped three blocks in the snow to buy a set of chains so that he could ride six blocks to his girl's house.

### Injured Student

**Over the past weekend sophomore Kent Moshier was seriously injured in an automobile accident, and is presently hospitalized. All cards and messages should be sent to Kent Moshier, Valley hospital, Ridgewood, N. J.**

**H. A. Benfer**

# What Is Essential To The "Educated" Coed?

by Chuck Trexler

The time was June, 1957. The place was a seat of learning, a citadel of the liberal arts curriculum. Many thoughts raced through the minds of students as they busily prepared for the long, inter-semester recess. Few of these thoughts, however, were concerned with the seriousness of the changes being wrought upon the beloved campus. Few appreciated that this was the eleventh hour of a dying era. Few realized that return in fall would see the collapse of proud tradition, the transformation of the temple of knowledge into the battleground of the sexes.

The coed has come to Muhlenberg as she has come to every other campus. She has come with one purpose firmly set in mind, to snare a husband. To this end she ardently devotes all the cleverness, artifice, and cold-blooded calculation at her command. No Alexander or Napoleon has ever entered the field of combat with greater confidence or resourcefulness than the college coed enters the arena of romance. Well has she mastered the axioms of military science, for love as well as war is the science of conquest.

**Coed Chronology**

The coed begins her campaign as a freshman when she dates everybody and anybody indiscriminately. Her behavior may seem irresponsible and frivolous, yet, in reality, she views each male acquaintance as a prospective mate. As a sophomore she becomes a bit more particular. Her favorite pastime now is to amass a sizable collection of fraternity pins. As the coed plays the field, one might easily deduce that matrimony is farthest from her mind, yet "The first rule of warfare is deception." When a junior, she begins to worry over the possibility of becoming an old maid and centers her attention on the best possibilities. At this time she is the most dangerous menace to the freedom of the male, for by her senior year she has made her catch. The effectiveness of her strategy cannot be denied. A few years ago, the average marriage age for college men was close to thirty. Now it is barely twenty-three.

The male comes to college primarily to obtain the education needed to pursue his chosen occupation. From the start, he is woefully unprepared for the contest awaiting him. He may dabble in romance, but his major interests lie in the curriculum, athletics, and campus organizations. Far from this diversity, the coed is possessed with a single-minded determination. To make matters worse, the male habitually underestimates the capabilties of the female. She, however, possesses a dedicated and coldly analytic mind, refusing to return the error. Thus the battle of the sexes is a one-sided rout with the male foredoomed to defeat.

**The Fraternity Pin**

A far-reaching effect of the coed's premeditated campaign of romance can be seen in the impact upon Greek-letter fraternities. The fraternity pin, symbolic of pride and fellowship, was once considered as binding and as meaningful as the engagement ring itself. No longer can this bit of idealist sentimentality be maintained. When a coed is pinned, the occasion is an everyday affair and she rarely keeps the pin beyond the semester. Of course we have the classic examples of a man pinning five girls in one weekend and a girl holding the pins of five men simultaneously. Such a devaluation of the fraternity pin reveals an appalling decline of fraterniy spirit and a rapid deterioration of fraternity prestige.

As spring approaches, we can anticipate an increase of amorous activity on campus. With each passing year, we will be able to discern the process all the more clearly. The revolution has been wrought. The old way of life has passed away. Muhlenberg has joined the ranks of co-educational institutions. The course of nature will continue unabated regardless of administrative attempts to hinder it with all manner of limitations and regulations. Men of Muhlenberg beware! The hour of your liberty is short lived!

# Weekend Blizzard Snows Berg Under

**Sonja Diamanti, Joelyn Borelli, and Dolores Gemenden typify a new precedent in girls' weekday wearing apparel as they don their slacks to have fun in the snow. Permission was given for the girls to wear slacks in order to combat the cold weather and drifting snow banks.**

With the blanket of snow that fell over the eventful Junior prom weekend, came the inevitable deviation from the norm in women's attire. The three femmes above exhibit the qualifications for this diversity by wearing slacks, a practice held in disdain by the administrators of Muhlenberg's feminine policies. We must realize, however that this deviation is one which evolves from absolute necessity because of the deep snow (besides, slacks are so much more comfortable.)

Along with snow and slacks, the typical winter sports are now becoming the vogue at Berg. These sports include throwing snow, cutting classes, and extending the length of houseparty weekends. The last is perhaps the most enjoyable. Since most dates could not return to their schools and homes, West hall was filled to capacity and the usual residents were forced to remain an extra night in the fraternity houses. This was unfortunate! The whole atmosphere acquired a tone of the "Lost Weekend" motif.

But, returning to our three friends above, the gals are casually enjoying the results of uncalculated reports of the weathermen and are making the best of their position by bombarding **WEEKLY** photographer Owen Faut, who courageously dared to venture into the arctical drifts for a shot of the candid coed capers.

*The President's Memo*

# The White Blanket

Many years ago I memorized the lines which told us "the snow had begun in the gloaming," and conditions round about us at this writing certainly bring them vividly to mind. Those of you who look back with longing and nostalgia to the "good, old-fashioned winters that we don't have any more" should certainly feel happy today.

This has certainly been a different sort of weekend! We had a great many guests on the campus—young ladies who had come for the Junior Prom and found themselves marooned. All day Sunday our telephones were beating tatoos. Students and parents, faculty members, staff, radio stations and newspapers wanted to know what our Monday schedule would be. Out of town calls poured in on behalf of the girls who were visiting us.

Fortunately we were in a position to take reasonably good care of the visitors. Fortunately, too, we were able to reassure their parents and school authorities, who were naturally concerned.

Saturday night Mrs. Brown took care of some of the girls who were visiting us. One or two fraternities took quick action. Haps Benfer took care of two couples whose cars stalled, and who had to walk to the College, arriving at 4:00 a.m., very tired and thoroughly chilled. He and Mrs. Benfer arranged makeshift accommodations for the girls in their apartment area. So, with everyone cooperating, and good-naturedly making the best of what could not be helped, we came through in fairly good shape.

One situation impressed me rather forcibly. We received a number of phone calls from parents and school authorities concerning girls who were among our week-end visitors, asking about travel conditions and inquiring as to whether they would be able to get home on schedule, and the like. Some of these inquirers did not know the name of the fraternity of whom the girls were guests, and one or two did not know the last name of the student who had invited the girl, knowing him only as Tom or Dick. This underlines the desirability of having on file, in the personnel dean's office, a list of such visitors. It is most unlikely that we will have blizzards playing unwelcome accompaniments at many parties, but it is by no means unlikely that emergency calls may come through, and we should be able to locate individuals without calling all fraternity houses. I hope and ask that all fraternities cooperate in supplying such information.

I hope that all of you have had happy sledding, happy snow shoveling, and that you will have very little more of either for a long time to come.

# Student Christian Association Provides Religious Opportunity

"Muhlenberg Christian association is a fellowship group of students and faculty at Muhlenberg college, united by a common loyalty to Jesus Christ. The members seek to understand the will of God through worship, study, and action, and strive to realize it in both personal and social living." Thus reads the statement of purpose contained in the constitution of MCA.

To facilitate greater participation and responsibility, MCA, under president Henry Williams, is divided into several commissions and committees. The commissions consist of Religious activities, Personal and Campus affairs, World Relatedness, and Social action. In addition there are the Publicity committee, Religious Arts committee, Institute of Faith committee, and the Oratory committee.

In order for a student to obtain active membership in MCA, he must attend at least one meeting a semester. The weekly open meetings are not business meetings, but serve instead for the presentation of special programs and discussion groups. For such a meeting, to be held this month, MCA has scheduled a student-led discussion on "An Atheistic Picture of the Universe." Arrangements are being made to have Amnon Hennacy, an editor of the **Catholic Worker**, as the guest speaker for an evening meeting later in the semester. Mr. Hennacy, as he is a Christian anarchist, is a most controversial individual.

MCA hopes for the earnest support of the student body in its coming production of "Murder in the Cathedral," as well as in a religious art contest, and in the World university Service drive.

# Mules Meet Albright In Away Encounter

With the postponement of Tuesday night's scheduled basketball game at Scranton university until this coming Monday evening, the Muhlenberg cagers will be idle until Saturday night when they travel to Albright college in Reading.

The Mules will be seeking to climb above the .500 mark for the first time since the early part of the season. Their record stands presently at 9-9.

The Lions have six lettermen, but have been badly hampered by injuries. Captain Merrill Eckert, formerly of Slatington, has been lost for the season due to a compound fracture of the left leg which he suffered in an automobile accident while returning to school from Maryland in the earlier part of the season. Another former starter, Wayne Hudson, has been hampered by a twisted left ankle.

**Probable Starters**

The probable starting lineup includes junior Fred Dietzel from Ephrata, Pa. Dietzel is the team's leading scorer with an average in the neighborhood of 20 points per game. Another outstanding scorer is freshman Stan Kaminski, who is hitting close to 15 points per contest and has been continually improving. Rebounding strength is supplied by 6' 4" Bruce storms, a senior from Camp Hill, Pa. Rounding out the starting five are senior Ernie Firestone and 6' 2" Ken Eberle. Richard Kelly, playmaker Paul Marrella, and Sam Preston will also be used frequently.

The Red and White is coached by Will Renkin, who is in his third year as the Albright mentor. Last season the Lions ended up with a record of 10 victories and 15 setbacks. One of those losses was an 83-55 drubbing at the hands of Muhlenberg. One of their biggest wins this season was a one point upset of St. Joseph's college two weeks ago.

# Cagers To Seek Third Straight Win Over Wagner College Five

The green and white of Wagner college invades the Muhlenberg campus on Wednesday evening, February 26 to engage the Mules in the third game of the Wagner-Muhlenberg basketball series. The Mules have been victorious in the prevous two meetings, edging out a 69-68 win last year and defeating the Seahawks 86-79 in the 1955-56 season.

Herbert E. Sutter, head coach at Wagner has a total of 237 wins during his coaching career. All of these wins have been recorded at the Staten Island school. Last year coach Sutter compiled a 10-16 won-lost record while during the 1955-56 season his teams had a 20-3 won-lost record. Sutter has been head coach since 1937.

**Seven Lettermen**

This year's Seahawk squad is composed of 11 men including 6 seniors, 2 juniors, and 3 sophomores. The tallest man on the squad is 6'6" Harold Junta, a sophomore who has developed very well this year. Other big men are Charles West and Paul Bailey at 6'5". There are seven lettermen on the team.

Coach Sutter is very optimistic about this year's team. He has co-captain Charley West returning after missing last season due to a broken leg. West, in his sophomore year, averaged 24 points per game and has scored 985 points during his interrupted career.

Another man who is expected to add much to the team is Harry Orlando, a sophomore who last season as a frosh scored 390 points on the varsity team. Fred Blackwell, another sophomore led the team in rebounds with 277 last year, and averaged 10.8 points per game.

# Muhlenberg Upsets Favored St. Joseph's Cagers, 96-84

Last Saturday evening before some 2,200 fans, Muhlenberg turned the tables on a highly touted, but inexperienced St. Joseph's college five, 96-84. In winning, the Bergmen displayed the very best brand of basketball seen at home this year.

Led by seniors Clint Jeffries and Dick MacLaughlin, and sophomore standout Dick Sekunda, the Mules were very impressive as they hit on 32 of 64 shots for a remarkable 50 per cent. They were tied only once at 9-9 in the opening minutes of play, and trailed momentarily, 46-45, in the early minutes of the second half.

**Halftime Lead**

Although Berg's margin never exceeded five or six points, coach Crum's courtmen managed to retain their lead through the balance of the first half, which ended at 43-40. It was not until then that Berg led by more than 10, but once they gained this lead, they kept it as they played steady, possession ball the rest of the way. The Hawks were forced to come out and did their best to recover possession but in so doing, committed numerous fouls. As a result, the Hawkes lost four of their starters during this time as 6' 9" Bob Clarke, Joe Gallo, John Hoffacker and Joe Spratt fouled out.

Jeffries, a Hawk nemesis who is remembered for his sparkling all-around play, and total of 31 points in the Mules 77-67 win over this same St. Joseph's team last year, led all scorers with 29 points, hitting on eight of 19 field goal attempts and 13 of 20 foul tries. He was followed by Sekunda with 27, 14 of which came in the first half, and Mel Kessler with 15.

**"Mac" Outstanding**

In addition, MacLaughlin was also very impressive although he scored a total of only **6 points. His** brilliant floor play, rebounding, and passing set up many of the Mules' buckets, and it wasn't until he left the game on personals in the closing minutes that his value became apparent.

For coach Jack Ramsay's five, all-Philadelphia high school star Bob McNeill was a standout scoring 27 points on 10 of 18 shots from the floor, and 7 of 9 free throws (in all, the Hawks converted on 26 of 30). The 6' sophomore who averaged 17.6 points per game on last year's frosh squad, was a constant thorn in the side of the Cardinal and Grey from the outside, scoring consistently on jump and push shots.

# Berg Wrestlers Face Dutchmen And Lions; Final Two Matches

The Muhlenberg wrestlers finish out the season this week with two meets before going to Wilkes college next weekend for the Middle Atlantics meet.

Lebanon Valley college visits Memorial hall on Saturday in what should prove an easy win for the Mules. The Flying Dutchmen have been having their troubles this year, as their 0-7 record shows. Their losses have come at the hands of PMC, Albright twice, Wilkes, Dickinson, Lycoming, and Moravian.

This is the first year of wrestling at the Annville school and its squad boasts only one upperclassman. The strongest contender the Dutchmen can put on the mat is team captain Dave Miller at 167, with a 4-3 record.

**Lost Five Men**

Coach Allis McCracken stated that the squad was hit hard by academic probation, as he lost five men, two of whom were more or less outstanding.

Following the meet on Saturday, the grapplers travel to Reading to meet Albright college on Tuesday, February 25. This meet was originally scheduled for the early part of the season, but was postponed because of the Christmas vacation. It will get under way at 7:30 p.m. in the Albright field house.

Thus far, the Lions sport a record of five wins and three losses. They defeated Lebanon Valley college twice, Elizabethtown, Dickinson, and Moravian and lost to Delaware, Lycoming and Ursinus Coach Jerry Barger's matmen have most of their strength lying in the lower weights, with their lone undefeated man, Ron Green, wrestling at 130.

Following the Albright meet, the Mules begin preparation for the Middle Atlantic championships. This event will be held at Wilkes college, home of last year's Middle Atlantic champs. The Mules finished second last yead.

# *Sports in Short*

**by Ben Livingood**

**"The will to win is there. The way to win is being sought. The support of the fans must not continue to be absent."**

In last week's edition of the **WEEKLY**, this column ended with the three sentences quoted above. The happenings in Memorial hall last Saturday night seem to prove that these words were not unfounded. The **will**, the **way**, and the **support** were undoubtedly present on Saturday.

Muhlenberg's victory over highly favored **St. Joseph's** college will probably be remembered and talked about for a long time to come. It will be remembered as one of the most dazzling performances by a Muhlenberg five in Memorial hall. It will be remembered as the night that over 2,000 sports fans braved one of the worst blizzards of the century—most of whom left with a feeling of great satisfaction. But it should be remembered mainly as the night when a group of Muhlenberg basketball players **became a team.**

Last week, this column quoted some statements by Coach Birney Crum in the form of explanations for the seven-game losing streak which his team had just broken. One of things which Crum and his assistant Dick Schmidt emphasized was the necessity of building a unit out of five individuals. The coaches seemed to have attained that success against St. Joe's. It was evident that the team **thought** and acted as one. It was not just the actions of one or two individuals which accounted for the victory. Each and every man who participated played an important role.

The two standouts scoringwise were Clint Jeffries, who continued to be a thorn in the Hawks' side, and Dick Sekunda. The local newspapers gave both the credit they deserved. But one of the things which seemed to be missing was the notice of a more or less **unsung** hero in the person of **Dick MacLaughlin.** For the six-foot hustling senior, it was probably one of the most brilliant performances of his basketball career. His ballhandling and timely assists accounted for the necessary added punch.

Another bright spot on Saturday night was the **enthusiasm** of the better-than-expected prom weekend crowd. It was clearly shown that moral support which was frequently absent during the losing streak, had not disappeared completely. Such support is needed whether the team **wins or loses.** There is no excuse for its absence. The season's record stands at 9-9. With six games remaining, there is more than a fair chance at a winning record if the **will**, the **way**, and **staunch support** continue to be present.

# Recommendations Concerning Frosh Presented At Student Body Meeting

*Editor note—The following recommendations were presented yesterday at the student body meeting. A special meeting will be held on March 5 for adoption of the recommendations as presented by the special student council committee. Members of the Freshman Regulations committee are Dennis Gurski, Gabriel Spector, Ray Ueberroth, and Robert Leighton, chairman. Under Section 5—Freshmen Regulations, only major revisions were presented to avoid needless repetition.*

The following are the recommendations presented by this committee to the Student council for adoption:

**I. Tribunal Composition:**

We recommend that beginning with the fall semester, there shall exist two Tribunals, working co-operatively and inter-dependently, to be named and composed in the following manner:

A. MEN'S TRIBUNAL—To consist of seven men. The president is to be a senior. In addition, there shall be one junior and five sophomore members:.

B. WOMEN'S TRIBUNAL — To consist of seven women. The President may be a member of any class. It is recommended that the members consist of one senior, one junior, and five sophomores. However, we realize that this may not be possible until the fall semester, 1959, and therefore recommend to the Student council that sound judgment is used in determining the proportionate membership for next year.

**II. Tribunal Election:**

We recommend the following system to be used for election to both Tribunals:

A. All men interested in becoming a member of a Tribunal must submit their name to any Student councilman on or before February 26, 1958.

B. The Executive committee of the Student council will then collect the names from the several councilmen and submit a recorded list of Tribunal members for the approval of the Student council.

*Women interested in becoming Tribunal members will submit their names to any member of the Women's council, who will in turn recommend a list of names to the Student council for approval. THIS IS NOT TO BE CONSTRUED AS A PRECEDENT FOR ACTION.

**III. Responsibility:**

A. Male freshmen will be responsible to upperclass males and the Men's Tribunal.

B. Female freshmen will be responsible to upperclass females and the Women's Tribunal.

C. The Student council will supervise the hazing of both male and female freshmen.

**IV. General Rules:**

A. Freshman Regulations will go into effect the day after the freshman class meets with the joint Tribunals.

B. This meeting will be required for all Freshmen and will be supervised by the Student council, with the co-operation of the two Tribunals.

C. No upperclass man or woman will be allowed to attend this meeting.

D. All rules and regulations concerning Freshman will be explained fully.

1. Freshman dress:

a. Male freshmen are required to wear a sport coat and black four-in-hand tie, in addition to the class dink and identification button—which is to be worn visibly over the heart.

b. Female freshmen are required to wear the class dink and identification button—which is to be worn visitbly over the heart

2. Male freshmen must remove their dinks upon entering any building, but must replace them immediately upon leaving the aforesaid buildings. All freshmen must remove their dinks when passing "General Pete."

3. All freshmen will be required to celebrate Crazy Day regulations determined by the Tribunals, with the approval of the Student council.

**There will be a special student body meeting on Wednesday, March 5, at 3:15 p.m. in the Science auditorium, when the recommended freshman regulations will be presented for adoption.**

# Prom Queen

(Continued from Page One)

Dr. Victor Johnson, Admiral Charles Moses, and Dr. J. Conrad Seegers. From this group of girls, three were chosen, the two runners up and the queen herself.

The three girls who were chosen each received a gift, commemorating the 1958 Junior Prom. The presentation was made by Charles Smith, president of the class of '59.

Approximately 100 girls were entered in the contest. The contestants were either members of the Muhlenberg class of '59 or guests of the male members of the class. The selection of the queen and the arrangements for the contest were made by Burt Eisenbud, social chairman of the Junior class.

The dance itself was highlighted by the appearance of Les Brown and his band who supplied the musical segment of the evening's

# Concert Band Visits Area High Schools

Muhlenberg colleges Concert band traveled to three local high schools last Friday, February 14. The band, under the direction of Mr. Albertus Meyers, played for audiences played forliasi n audiences at Allentown high school, Easton high school, and Nazareth high school.

Emcee Larry Scholl introduced a varied program which included: concert march "Block M", selections from "Carousel", sextette from "Lucia", "Holiday for Trombones", "Fanfare for Trombones", "Espana Cani", "A Fantasy in Color", and a march, "The Rainbow Division".

# ODK's Project

## The Chowline

Congratulations are in order for the Muhlenberg basketballers. The wonderful display of teamwork and the return to shooting accuracy should, once again, make Muhlenberg a difficult team to overpower. Even a strong Temple university five would have had difficulty in matching Berg's performance on Saturday. So, after an extremely long lapse of time, we find **Birney's big boys banking** the **boards** for **bingles.**

Speaking about the roundballers, a curious rumor has come to the attention of the **WEEKLY** staff. It seems that Harry Eberhart, recently voted "Campus Dribbler" for his support of the basketball team, is considering giving away a free coffee for every point that Clint Jeffries scores over one thousand. "Haps" Benfer was asked, so the rumor goes, to supply the cream and sugar. If true this act would serve as a stimulus to student spirit. (This rumor has its origin on the first floor of the Administration building.)

The Snack bar has added birch beer to its wonderful assortment of soft drinks. Like the other beverages, birch beer will be sold throughout the day for ten cents a tall glass. Why not give it a try? The money will be well spent and you will be as satisfied as the cows from Carnation. Till I see you at Harry's Hideaway I remain,

The Cookie Kid

# Commuters To Hold St. Patrick's Party

St. Patrick's day will be celebrated by the Muhlenberg college Commuters club this year when the organization holds its first social event of the second semester on March 15. The party will be held at the Willows and will begin at 8 p.m. Tickets will be sold at a cost of $1.00 per couple.

The highlight of the evening will be the presentation of a prize for the "greenest couple." The party is open to all members of the Commuter's club, but in order to attend second semester dues must be paid by March 15. Reservations for the party may be made in the Commuter's room, Monday through Friday, from 1:30 to 4:15 p.m. and should be made no later than March 12.

A meeting of the Commuter's club will be held on Friday, February 21 at 3:15 p.m. in room 105 of the Science building. Plans for the party will be discussed at this meeting and attendance is required for all members.

# Kistler Victorious

(Continued from Page One)

dent body meting, which was held in the Science auditorium at 3:15 p.m. yesterday afternoon. At this time the nominations were made for the coming Student council elections. Those nominated were (in order of nomination): Sue Schell, Donald Nase, James Waller, Thomas Schaffer, Nino Carnevale, Paul Horger, Richard King, Charles Smith, Richard Truchses, Richard Hess, and John Holcroft.

Aprroximately 60 students were in attendance for this, the first student body meeting of the spring semester.

# Letter To The Editor

To the Editor:

A grave injustice has been done to a boy who was a Muhlenberg student in good standing — until last Thursday.

The boy, his name is unimportant, was a member of the Muhlenberg Varsity Basketball team. Last Thursday he was notified by the Acting Athletic director that he had been observed attempting to sell complimentary tickets in the Hershey arena immediately before the Muhlenberg- Gettysburg game. The boy immediately admitted his guilt of this "charge."

Within **24 hours** the boy was notified that his scholarship aid was being dropped—effective immediately! The effect of this punishment on the boy was unimportant—that is, unimportant to those who had so quickly decided on his fate. To the boy—well, this puts him at the cross roads of life. Should he become a ditch digger or should he work for the department of sanitation? Because, you see he cannot afford to attend school without a scholarship. Therefore, we must assume that our school—Muhlenberg—has deprived a worthy boy, the benefits of a college education. To us it seems as if this individual is receiving capital punishment for committing a misdemeanor.

Selling complimentary tickets has been in practice at our school and at other schools for many years. It is common knowledge that during the last few years many of the athletes here at Muhlenberg did sell their complimentary tickets. Why, then, was this individual the only one to be punished.

Could it possibly be that he had outlived his usefulness to the school as he had only scored 29 points during the current basketball season?

Although it may prove to be foolhardy for us to write this letter, we as college students feel that we have that certain right of "free speech" which we have used to express our sentiment.

(Signed)
Muhlenberg College Varsity
Basketball Team

## Rushing Notice

**Each fraternity will hold its last rush function in the fashion of an open house tomorrow evening. All freshmen who are interested will be urged to visit the various houses in order to participate in this final open function. Invitations will not be necessary.**

# MUHLENBERG WEEKLY

"Toward a Greater Muhlenberg"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., February 27, 1958 A. C. P. Rating No. 17

## Berg Alumni Seek Funds

Funds are going to be attempted to be raised by the Muhlenberg Alumni office through the dedication of special chairs. This piece of furniture is completely black and will have the seal of the college affixed to the front of the chair in gold. The selling price for such a chair is set at 27 dollars.

There are two purposes involved in this project. Primarily, the donations given will be placed in the alumni fund, which in turn will be dispensed at the discretion of the college. Secondly, the chair will serve as a remembrance for the donor.

**Chair Construction**

This chair, made by S. Brent and Brothers, in Gardner, Massachusetts, is constructed of northern yellow ash, with a permanent gold crest imprinted on it by a special filtering device. The entire piece is hand rubbed and will fit any room in the house or office. Undergraduates may order this chair, to be sent express collect from the makers to their home.

Additional information may be secured from the Alumni office, along with orders for the chair.

The entire project is under the supervision of Mr. Bruce Romig, alumni director of Muhlenberg college.

## Der Deutsche Verein Hears Ludwig Lenel

Due to the unexpected snowstorm of last weekend, Der Deutsche Verein was forced to postpone its "Fastnachtsfest," which was scheduled for Monday, February 17. Ludwig Thomas' comedy, **Die Kleine Verwandten** which was to be one of the features of the program, will be given at a meeting later in the semester.

At the next meeting, Mr. Ludwig Lenel will speak to the Verein on his personal experiences with Albert Schweitzer, the world-renowned German humanitarian who is even today spending his life as a medical doctor and is ministering to the natives of Africa. Dr. Schweitzer is also noted as an organist, organ builder, and philosopher. This meeting will be held in the Music room in the library on Monday evening, March 3 at 7:30 p.m. All interested students, members of the faculty, and other members of the college community are invited to attend.

## Scholarships Offered To College Students For Study In Britain

Americans who want to study and vacation in Great Britain this summer will have the opportunity to do so in four British university summer schools, it was announced by the Institute of International Education. Closing date for scholarship applications is March 1 and admission applicatons March 31.

Each school offers six-week courses of particular interest to American graduate students. At Stratford-upon-Avon the summer school will be Shakespeare and Elizabethan drama, with a special seminar course on Elizabethan music. At Oxford the subject will be the literature, politics and arts of seventeenth century England. In London, courses will be given on literature, art and social change in England from 1789 to 1870. The theme of the Edinburgh School will be the European Inheritance, with the opportunity of making a special study of history, literature, or philosophy. Each school offers excursions to nearby points of interest generally not open to tourists.

**Fees**

The fees for the British Summer School including board, room and tuition, are approximately $224 to $236. There is an additional administration fee of $15. A few full scholarships are available to qualified graduate students as well as a limited number of partial scholarships open to graduates and undergraduates.

Although these courses are generally intended for college graduates, undergraduate students in their last two years will be considered.

Applications for the British Summer Schools may be obtained from the Institute of International Education in New York city or its regional offices.

## Spring Hits Campus; Love Is In Blossom

by Larry Woodward & Rick Stephan

Spring has Sprung! And in the Lehigh valley as in many other parts of the country we are experiencing warmer temperatures. After the 12 to 36 inch snowfall of last weekend this is a welcome relief to most of us.

The Muhlenberg college campus is now beginning to dig out of its winter hibernation and soon the area will again burst into its spring attire. The advent of spring has traditionally had an overwhelming affect on college students, who are always anxious to don their Bermuda shorts, knee socks, and cord suits.

Perhaps this new season of spring will evolve many new fads in clothing and dating. Crazy clothing such as pictured above may take precedent or be lost in obscurity. Dating fads such as dog collars may be replaced by ALPO. Whatever the case may be, all are in anticipation of the coming months.

With the coming of the warmer temperatures Muhlenberg students will now be seen moving their (HA!) study habits from musty dormitories to the more pleasant clime of Cedar beach. Visits to our neighboring colleges will become more frequent and class attendance, less frequent. The chapel's hallowed doors will be darkened by fewer and fewer students. Certain groups will be planning various forays into the domains of activities which were not available through the long winter nights.

Golf, tennis, baseball, and badminton will again dominate the sports scene, after being confined to the fields of football, basketball, and soccer. Other outdoor sports which are tradionally found in such places as outdoor theaters, parks and moonlit campuses will again enter the thoughts of young undergraduates.

Throughout the country young campus lovers wil again be seen strolling, hand in hand, through the rich green foliage of spring. The effect of spring is universal and seeps into the minds and hearts of young and old alike. Thousands of writers have wirtten poems, essays, short stories, letters and other forms of artistic expression, on young love and spring, old love and spring, frustrated love, spring, love, the effects of love on spring, the effects of spring on love spring, love, love, spring more love and more spring.

In the days of the Roman empire a foremost writer by the name of Gaius Valerius Catullus, feeling the effects of spring and the love which accompanies it, coined these immortal words:

> "Now spring brings back balmy warmth, now the sweet gales of Zephyr are hushing the rage of the equinoctial sky Deserted be the Phrygian plains. Catullus, and the rich land of burning Nicaea: away let us fly to the renowned cities of Asia. Now my soul flutters in anticipation and yearns to stray; now my eager feet rejoice and grow strong . . ."

It is doubtful that we have poets on the Muhlenberg campus who are quite as talented as Catullus, in expressing their feelings at this time of year. However, the same feeling invests itself in all of us during this season of fulfillment and rebirth.

## Dean's List Students To Receive Honors At Bi-Annual Service

Students who have merited the distinction of being on the Dean's List for the Fall semester will be honored at the Spring Honors Convocation in chapel on March 7. Highlighting the service will be a personal congratulatory message to each student and a sermon by Dr. J. Conrad Seegers, president of the college.

The purpose of this convocation is to single out the men and women who excelled in the primary phase of college life, the scholastic phase. Leading the numbers of students is the class of 1958, which has twenty men on the Dean's List. The other classes, respectively, have fifteen, fourteen, and ten students represented, including six co-eds. Their names and classes are as follows: **Class of 1958:** Roy M. Clayton Jr., Robert B. Evans, Owen D. Faut, Stuart M. Godin, Ernest R. Helfrich, Richard L. Hinkle, Earl A. Knies, Arnold Markoe, Herbert E. Meily, J. Marshall Reber, David W. Reinhard, Robin R. Schlunk, Charles F. Schmerker, Carl A. Schneider, Kenneth Semmel, David G. Senger, Fred A. Stutman, Richard B. Tepper, Luis Torres, Henry N. Williams.

**Class of 1959:** Mrs. V. Nadejska Dunlap, David T. Farber, John F. Haberern, Paul D. Horger, Marvin R. Hyett, Richard Alan King, Roy E. Madsen, Charles Markosi, Michael J. Pitt, Donald Rothfeld, Michael A. Sanders, Leonard A. Swann, Jr., Hans Toffer, Richard E. Truchses, Frank S. Walinski.

**Class of 1960:** David C. Abramson, Robert F. Bartholomew, Alfred F. Beers, Robert G. Droffner, David B. Evans, John C. Flemming, Paul T. Herman, Michael B. Kurtz, Thomas McCabe, John R. Mondschein, G. Mike Peters,

(Continued on Page Six)

## Alger Awards To Be Made

This year as in previous years, the Horatio Alger Awards committee of the American Schools and College association is presenting its annual award to some individual who has by his own efforts and ambitions achieved eminence as an American leader today. The committee is a nonprofit organization "dedicated to the fostering and enhancement of the American tradition of opportunities and rewards for ability and hard work." It is with this thought foremost in the minds of the committee members that they present the award.

Previous winners of the Horatio Alger Awards incude: Harold E. Stassen, Bernard Baruch, C. L. Kettering, Charles E. Wilson, Dr. Ralph Bunche, Conrad Hilton, Dr. Milton Eisenhower, Capt. Eddie Rickenbacker and Herbert Hoover.

The American Schools and College association, which is an educational guidance organization rendering free information to parents and students, is solely supported by annual dues of member schools, of which Muhlenberg has been one, for 44 years. This organization also distributes to over 400 colleges throughout the country, bulletins, giving an account of each individual candidate, and the ballots.

**11th Annual Awards**

Ballots for the 11th Annual Horatio Alger Awards have been distributed to over 2,000 campus leaders who will make their selection of today's Horatio Alger's on the American scene.

The 1958 Horatio Alger Awards Committe has as its chairman, Dr. Norman Vincent Peale; the committee also includes Conrad E. Hilton, president of the Hilton Hotels Inc. and previous winner of the Horatio Alger Award.

Aside from the many benefits of the Horatio Alger Awards committee of the American Schools and Colleges association is the outstanding achievement in granting youth scholarship to needy students.

Six ballots have been sent to Muhlenberg college to be distributed to six predominant campus leaders. The **WEEKLY** staff will assist in issuing and collecting the ballots. The voters who will cast their ballots are: Owen Faut, photographer for the **WEEKLY**; Dennis Gurski, vice president of Student council; Henry Williams, president of the Muhlenberg Christian association, Karl Becker, Earl Knies, and Luis Torres.

## Muhlenberg Evening School Enrollment Increased Rapidly In Recent Years

Evening classes, under the direction of Dr. William M. French, have grown to a great extent at Muhlenberg college in the last five years. The percentage increase reaches into the thousands. This is to imply that in the beginning of the aforementioned five years, there were only 14 students enrolled in the evening classes. This figure has grown to a figure of 214.

Dr. French classifies the students into five categories. There are those who have already attended college and are working toward the completion of their degree. Financial problems cause some to go into industry, but evening classes enable them to begin their undergraduate work. Day students may attend classes at night, if there is a conflict in their schedule, but this may only be done with the Dean of Faculty's approval. The state makes it necessary for teachers to have certain courses over and above the undergraduate work so that a teaching certificate may be obtained. Muhlenberg enables them to do so. Certain local industries encourage their men to take specialized courses for advancement in their occupations. There are many such students attending the evening classes.

**Distinctive Feature**

Muhlenberg college is the only school in the Lehigh Valley that gives courses in the liberal arts curriculum at this time. Another distinctive feature, is that there are 350 subjects being studied by the evening students. Some manufacturers will send their employees here, with half of their tuition

(Continued on Page Six)

## Book Grant Received By College Library

Last month, the Muhlenberg college library was awarded a $500 sub-grant from the Association of College and Research Libraries from funds granted to it by the United States Steel foundation.

Librarian John S. Davidson states that the grant will be used for the purchase of serious books of particular interest to women students.

**Co-eds To Suggest Books**

Any co-eds who are interested in suggesting particular books that they would like to see added to the library's collection, are asked to contact Mr. Davidson, or some other member of the library staff to submit their suggestion.

The library now provides modern facilities for the accommodation of its present collection of more than 95,000 catalogued volumes and several thousand uncatalogued magazines and pamphlets. The library is also a depository for selected United States government publications, and, in addition, receives regularly more than 430 current periodicals.

## Newly Formed Veteran's Club Plays Host To Topton Orphans

Last night the newly organized Muhlenberg college Veteran's club participated in one of its first and largest service projects of the present semester, when they played host to a group of 16 boys from the Topton orphanage, for the Muhlenberg-Wagner basketball game in Memorial hall. The group was comprised of boys ranging from 14 to 17 years of age.

The Veteran's club was organized last semester under the leadership of its president, Fred Smith. The constitution for the organization has been designed after the one which governs the Moravian college Veteran's club, and was recently submitted to the Student council for adoption. Meetings are presently being held at 533 Turner St., on the first Friday and the third Tuesday of every month.

Approximately 80% of the club's members are married. The wives of the members are presently formulating plans to work with the girls at the Topton orphanage. Future plans for the club in the field of social service include a hayride and a baseball game for both the boys and the girls at the orphanage.

In addition to its work in this field, the Veteran's club is also a social organization, and next month the group is planning a party.

Other officers of the organization, in addition to president Fred Smith, are: Bud Fix, vice-president; Harry Beidelman, secretary; Don Weston, treasurer; and Frank Trinkle, corresponding secretary. Faculty adviser for the club is Mr. Baldridge, of the department of history.

## Dr. Stine Hospitalized With Serious Illness

Dr. Russell W. Stine, chairman and professor of the Philosophy department, has been hospitalized with an illness inflicted with an internal disorder. Dr. Stine underwent surgery on the morning of February 26, at the Allentown General hospital.

None of Dr. Stine's classes in Christianity and Modern Thought and other other subjects have been canceled. Dr. Hagen Staack and Dr. Rodney E. Ring have assumed responsibility of his classes. Also, assisting in the teaching of his classes, is Dr. B. Leroy Burkhart of Cedar Crest college. Dr. Burkhart received his A.B. at Ursinus college and his Ph.D. at the University of Chicago.

Dr. Stine, who has been teaching at Muhlenberg college since 1927, did not in any sense undergo an emergency operation. It was imperative that this be done, but not immediate. Dr. Stine is not expected to return to his classes until the end of the Easter holidays.

Cards and letters will be greatly appreciated. Dr. Stine's home address is 2116 Allen street.

# Editorial Views——

## Huge Gaping Holes . . .

Within the last few years many noticeable improvements have taken place in an attempt to prepare the institution for the arrival of female students. A great number of the innovations were both needed and desirable and included academic, social, and recreational aspects of the college.

A much needed renovation for the Snack bar was included in the general plan of rehabilitation and improvement. One of the driving influences in this project was the wife of the President of the College. New furnishings were added, while the floor and walls received the experience of expert interior decorators. However, the tragedy of the situation lies in the complete absence of repairs awarded to the second floor.

Presently the upper floor is a disgrace. Huge gaping holes adorn the walls of the hallway and rooms, while warped boards are in fatal need of paint. The antiquated lighting system falls far short for meeting the accepted standards of illumination, and rough wooden floors are in many instances splintered and longing for repairs. Should not these open wounds be offered remedial treatment immediately?

Development plans for the College include, by tradition, a new Student center. This plan appears to be highly idealistic and not feasible within the near future. The present status quo on second floor repairs must not be allowed to continue. The hub of extracurricular activities, the second floor should be repaired to provide a better environment in which to work. If the physical plant is representative of the administration's attitude toward activities, the future of student government and publications is imperiled.

The Muhlenberg **WEEKLY** encourages the administration to act immediately to remedy this deplorable situation.

## A Farce . . .

**Male gym classes at Muhlenberg have been a "farce", in the true sense of the word, for a number of years.** According to the college catalogue, the purpose of physical education classes in the freshman year is to foster "participation in team sports emphasizing simple skills and cordination," and in the sophomore year, "participation in supervised competitive team and non-team sports. Emphasis is placed on developing skills in sports which may be enjoyed after graduation."

No program such as the one just described is being carried out at the present time. Gym classes consist merely of checking equipment and the taking of attendance at the beginning and at the end of each period. During the class period itself, students are left to their own devices. They may play basketball if they wish, or may "wait" out the period in the "weight room", as is usually the case. The time spent in the weight room is usually passed playing cards, studying, or engaging in the college "bull session."

**This negligence and deficiency in the physical education curriculum is not, however, the fault of the students themselves. It is rather the fault of the instructors who have failed to develop an interesting and useful physical education program.**

Gym classes now serve no other purpose than to drain three precious hours a week from the already overburdened schedule of freshmen and sophomores.

## April Fool . . .

Work is progressing on the April Fool edition of the **WEEKLY** and general policy has been established. This policy is not final and interpretation rests with the editorial staff.

All members of the student body may submit stories for this edition by presenting their article(s) to a member of the editorial staff. This body is composed of Dick Kennedy, Ron Moxey, Bob Nuss, Larry Woodward, and Karl Becker. There will be no specific assignments for the staff unless members are notified individually. All stories must approved for publication.

The **WEEKLY** is interested in receiving numerous contributions from the women students, since a new and interesting view of campus life would be presented. No names of contributors will be revealed, thereby avoiding possible retaliation by the administration, faculty, and student body. Any questions concerning the mechanics of the edition would be welcomed by the members of the editorial staff.

The April Fool edition will be distributed on Thursday, March 27, and the annual **WEEKLY** banquet will be held at the Willows that evening. Further banquet details will be released at a later date. All members of the staff should plan this function since the newly elected editors will assume their positions at that time.

# Male Side Analyzes Man-Woman Relation

**by Dick Kennedy**

No one can deny the profound words of a song which recently has been popular — "It's a woman's world; ask any man." The writer of these thought-provoking words probably did not realize just how true they were. Within the last ten or twenty years, American culture has witnessed a gradual, but forceful change in the relationship between the sexes. Twenty years ago, the male division of this classification was proudly the dominating and powerful member of any two-some—and he had been so almost from the beginning of the history of the world.

It was generally accepted among most societies that the man was the proverbial breadwinner and master of the family; the woman played the role of mother and (to quote a phrase from Stan Heim's column) man's biological supplement. Down through the centuries, the man was the history-maker, and his "supplement" remained in the background.

In the last two decades, however, we have seen an almost complete reversal of this tradition. More and more it has become the accepted idea for women to step into positions which have been left vacant by outgoing men. In the past, the end goal and desire of a woman was to marry, have children, serve her husband, raise youngsters, and, in general, keep the home fires burning. Now, with this predominant change, the woman no longer eagerly strives to carry on this function, but contrarily plans to enter into the career world.

We have women in all phases of life and business. They work as doctors, lawyers, chemists, police, and even taxi-drivers. It has become the thing to do for a woman to enter into college, learn a profession, and go into the world to earn her own savings. In other words, we might say that a woman is gradually dove-tailing her attributes into man's world of profession and trade. In this way, she is slowly becoming more independent and finds that, since she can earn her own living, man is less essential to her welfare.

Because of this, women are beginning to learn that they can dominate man. The clinging-vine is hard to find anymore and when one of that type does appear, she is shunned and often ostracized by both the members of her own sex *and* the male faction. Man realizes that the woman is not so dependent on him as she once was and if he wants to find a wife who will remain faithful, he must employ exceedingly ardent tactics to persuade her that her place is in the home. The woman accepts, but many times will want to continue her career. After all, those years and dollars in college are supposed to do more than simply achieve the common state of matrimony.

Not only is this true, but another accepted tradition has continued. While the woman enters into the world of business and while she assumes a man's status, she also demands that the same courtesies be extended to her. Her coat must be held, doors must be opened, and man generally must cater and obsequiously bow to her desires. As man's tradition of dominance discontinues, its mate, courtesy, continues. (We do not advocate that courtesy be abandoned, but that the other tradition return.) To reassert what was said in the first paragraph: "It's a woman's world."

George Bernard Shaw, Ireland's contribution to the field of drama and philosophy, concludes that there is a certain power which allows, or ,provides for woman's dominance over man. He calls it the Life Force. It is doubtful, however, that we can ascribe this dominance to any meta-physical term. The term itself is only a phrase we can use to describe or label what is happening, but it is a poor explanation for the deeper significance of woman's golden arm.

But the major thesis of this theme leans more to the side of woman's changing role in society. Let us determine what the function of woman is, and how that function will be altered, hindered, and terminated by her insistence on playing a more significant part.

In most cultures, a woman bears children and raises them while the man provides for the necessities of life (those necessities including the basic essentials of food, clothing, and shelter). Even more important, though, is her nurturing of the off-spring and giving them the affection which is basic to the psychological health of the individual. In a study of psychology, we find that it is extremely important that a child is guaranteed this love by his parents.

If a woman insists on utilizing her college education in a "practical" sense by entering into a career, then the child is left without love, unless that love come from a nurse. (Perhaps it would be better to have the woman work and the husband care for the children—that may solve the problem.) What, then, will be the character of the future generations of the world when they are exempted from this psychological need? We have no means for determining that, and perhaps our culture will institute a new philosophy to provide for such a practice.

Nevertheless, it makes us wonder if things are proceeding in the manner in which they should.

The women who read this will instantly rebel, saying that they have just as much talent, no less intelligence than man. Yes, this is quite true. In fact, women have a tendency to work to their utmost to develop these talents and often surpass men in application, although probably not in potential. They will also say "then why shouldn't we have the same status as men?"

The simple answer is this: women should be mothers, homemakers, housekeepers, cooks, etc. It would be impractical for a man to sit at home and cook, feed the baby, and dust the furniture, when a woman fits this status more effectively. We might suggest that a man could do the job as well, but emotionally, a woman is more capable of giving the children the attention and affection which they need. Neither do we say that a woman's education is a waste of time. This education would manifest itself in the teaching of the children in the home and would be far from wasted if the woman

# THE CAMPUS Whirlpool

**by Dick Kennedy**

Becker-in-chief asked Freddy the barber to take a little off the top. Poor Babe got more than he bargained for. **Trying to cover up his shining dome with a hat would not suffice, and Idabelle Diaz, running errands down town, offered to purchase a toupee for Old Gleam-Top.**

The rushing season often gives vent to embarrassing situations. On the night of Sig Ep's rush function, Rick Stephan ran into the house to report a minor accident to one of the visitor's cars which was parked outside. As he opened the door, he was greeted with a sterling welcome by one of the receptionists, who **introduced himself with the Sig Ep label attached as a suffix.** Rick gracefully shook his extended hand and said "How do'ya do. Rick Stephan, ATO." **The host turned white, then red, reports Rick.**

Freshman English classes have met a crisis. Rumor has it that the professors refuse to grade their own section's finals, because of the partiality that might be shown to the more attractive coeds. Now, it is believed, **the professors exchange papers among themselves to guard against the feminine appeal.**

During finals, Dean Richards demands a copy of each examination which is to be given. Certain professors find it difficult to meet this requirement because of the nature of the course itself. Dr. Shankweiler, head of the biology department, teaches such a course. **In response to the Dean's request, he submitted his copy of the exam—the leg of a cat, carefully wrapped.**

During the recent cold spell, Harry Baer neglected his health for the sake of courtship. As he walked about in the brisk (to say the least) air with his West hall femme, he forgot that his ears were exposed to the cold. Result: one frost-bitten ear lobe.

Chuck **"Cyrano"** Trexler caused quite a stir with his casual comments concerning the nature of the woman's college life. As you can see, **his article from last week has been bitterly objected to by at least 73 girls.**

# Retaliation: For Every Woman, There's A Man

**by Jan Horvath**

Even before the co-eds arrived on the Muhlenberg campus, they had become both the center of thought and conversation to many in the Muhlenberg family. As an added feature the paper printed a "Female File" consisting of interviews of the future Women of Muhlenberg. Well, now that the girls have enjoyed college for an entire semester, I write a sequel to show that for every woman there is some form of man. It was a weight lifter from York, Pa., who defended her unusual hobby by saying, "If anyone ever messes around with my boyfriend, I'll slug 'em."

I went to the dorm to interview the first on the list of co-eds, Ima Barbell.

Her room was no different from all the rest—bulletin board draped with party favors, stuffed animals on the bed, and the picture on the top of the bureau. But what a picture. The most impressive thing about it was the navy blue bow tie, on which rested a tiny egg-shaped head. The sunken cheeks were painted pink by the photographer's brush, giving the subject a sense of blushing innocence. Looking closer, I could see two beady eyes matching the color of the tie. And the sawed-off nose bore the heavy burden of multi-lensed horn-rimmed glasses. For distinction, the photographer had piled the long, greasy black hair atop the head in a high sweeping wave.

I asked Ima, "Who's that?" Her only reply was, "Him." From the glow in her eye I understood who she meant. I asked if she would like to tell me about him, not knowing that this was the occasion she had been waiting for. Her deep bellowing voice flowed on. "I felt quite alone here for the first few months. Every Saturday evening was the same. An almost empty dorm; empty except for me. But Girard, that's his name, came with the Christmas season. One frosty morning on my way to English class I saw this handsome, sensitive man stumble on a patch of ice." I glanced again at the picture, thinking my eyes may have deceived me. But then I remembered—love is blind. She continued, "I hurried to his aid, and, well, you take it from there. But he was so polite, he even walked me to my English class. Just think. A Muhlenberg man of my own."

I saw how ecstatically happy she had become, and decided to leave her in this mood. I bade my farewell and started toward the door when I heard her say, "Isn't he handsome?" I again glanced at the picture as I started out of the room and answered, "A real Muhlenberg DREAM!"

## 'Round Campus

**Friday, February 28**

**MASCAC wrestling meet will be held at Wilkes college.**

**Saturday, March 1**

**Muhlenberg-Hofstra basketball game will be played at Hofstra.**

MASCAC fencing matches will be held in Memorial hall.

**Monday, March 3**

**Der Deutsche Verein will meet at 7 p.m. in the Student center.**

The Sociological society will meet at 7:30 in Ad. 310.

**The Science club will meet in Sci. 105 at 7:30 p.m.**

**Wednesday, March 5**

Muhlenberg-Villanova basketball game will be played at Villanova.

**The Pre-med club will meet at 7:30 p.m. in Sci. 305.**

The Student body will convene for a meeting in the Science auditorium at 3:15.

# LETTERS TO THE EDITOR

## Coeds Reply . . .

To the Editor:

What is essential to the "educated" coed? Many men on the Muhlenberg campus are confused about this question. The distorted ideas expressed by Mr. Charles Trexler in the February 20, 1958, issue of the **WEEKLY** are one specific example of these popular misconceptions.

Mr. Trexler claimed in his article that "the coed has come to Muhlenberg . . . with one purpose set in mind, to snare a husband." This assumption is ridiculous. The chief goal of almost every coed here at Muhlenberg is to further her education. Proof of this is the fact that the majority of the women have worked hard to earn much of their college fees or have been awarded grants-in-aid. If this "husband-snatching" idea were primary in the coeds' lives, they would not let four years of college life interfere with the altar. It is more likely that a working girl would have "one purpose in mind—to snare a husband." Her opportunities for making new acquaintainces are usually limited to her environment causing her to become more desperate in her search for a mate. On the other hand, a college woman's opportunity just begins when she enters her chosen field. The idea that a coed has only four years to search for a husband, therefore, is absurd.

Another faulty idea of Mr. Trexler's concerns the objectives of the college men. He claims that the college male "may dabble in romance but his major interest lies in the curriculum, athletics, and campus organizations." In the Freshman class there are two boys to every girl and yet at a recent Freshman meeting the number of coeds outnumbered the number of boys. This displayed the lack of interest on the part of the male sect. Academically the coeds have proved themselves once again. Five girls and five boys made Dean's List. Percentage wise twice as many girls as boys achieved this honor.

Mr. Trexler claims that "the male habitually underestimates the capabilities of the female and that he is woefully unprepared for the contest awaiting him." We find this hard to believe as the male has certainly been given enough warnings concerning the girls so-called "premeditated campaigns of romance." It seems to us that Mr. Trexler is belittling the capabilities of his own sex when he says "the battle of the sexes is a one-sided rout with the male foredoomed to defeat." It is obvious that he lacks confidence in the mental strength of Muhlenberg men, or worse yet, all men in general.

We feel that the author cited only exceptional cases in his reference to the giving of fraternity pins. We do not agree that the fraternity pin has lost the symbolism it once possessed. However, in the exceptional cases where the pin does not symbolize sincerity, it is more the fault of the boy who gives it indiscriminately rather than the girl who receives it.

In conclusion, we feel that if the so-called "men of Muhlenberg" will stop feeling sorry for themselves and realize that the girls are faced with just as many, if not more, problems for adjustment, maybe coeducation will be given a fair chance at Muhlenberg.

(Signed by)

73 Coeds

P.S.: Additional comments:

Penny Foreman: "They shouldn't flatter themselves. We find a lot of other things interesting."

Honey Rosenberg: "I was quite surprised that the male population of Muhlenberg has such a low opinion of itself as to picture itself being prey for the so-called "weaker sex."

Linda Patnoi: "The article was another evidence of the contorted opinions held by many Muhlenberg boys. Another fallacy in the article was the statement 'being pinned has the same meaning as being engaged'."

Phylis D. Leyman: "Its the worst thing I ever read in the newspaper. It's degrading."

## Class Divided?

To the Editor:

At a recent meeting of the candidates for Freshman class office each candidate stated that his primary goal was to **unify** the class of '61.

It is my opinion that this lack of unity was brought about, partially, by the separation of men and women during the hazing period at the beginning of the term.

I realize that the administration had no way of knowing that this action would have such grave repercussions, but the fact remains that it did bring about a divided class of '61 and a consequent lack of class spirit.

The Student council has proposed separate Tribunals for future classes. This can only lead to the further separation of men and women on the Muhlenberg campus.

What does the Council hope to gain by having dual **standards** for men and women?

Yours for a unified Muhlenberg,

Harriet Rosenberg

## Praises Band . .

To the Editor:

Those of you that attended the Festival of bands, February 23, 1958 at Memorial hall, will agree that the music sounded very good.

If you have ever attended any of the Muhlenberg college band concerts, you will have recognized that the Muhlenberg college concert band had played, at one time or another, seven of the thirteen songs that were on the Festival of Bands program.

Congratulations are in order for Albertus L. Meyers and the concert band, because considering the size and experience of the band, Mr. Meyers and the concert band have played performances equal to the one that was presented at Memorial hall on February 23rd.

Muhlenberg college is very lucky, indeed, to have such a wonderful guy as Bert.

Not taking away any credit from the fine choir at Muhlenberg, but I feel that the Muhlenberg college concert band, under Mr. Meyer's direction will rise to greater heights than the choir if conditions permit.

Sincerely,

Richard Kaufman

## Dance Band Notice

**The College dance band, the Muhlenberg collegians, will hold a preliminary meeting on Monday, March 3, 4:15 p.m. in the band room of Memorial hall. Tryouts and possible rehearsal schedules for the organization will be held at this time.**

**Since this will be the final attempt to organize the Muhlenberg collegians this semester, all musicians are urged to attend this meeting and keep this organization a part of their musical experience and enjoyment at Muhlenberg college.**

**—Bill Stamm**

# From Here And There

**by Stan Heim**

In the past few years there has been an increasing amount of literature which has attempted to define the present generation. This criticism, in the main, has been rather derogatory, and such words as listless, irresponsible, apathetic, and beat have been used to generalize and catalogue us. This hue and cry first appeared in the more sophisticated and learned magazines. This sharp and barbed criticism is beginning to lose its edge and cut. Like many other things which were looked at aghast and held in troublesome contemplation this criticism is in danger of being assimilated into our pattern and system of life. A pattern which we live in but are usually unaware of.

Our elders have contrasted us with the flamboyant twenties and the idealogical thirties, and on the whole, we have come out on the short end of the comparison. They say we are increasingly becoming less responsible, and an apathetic attitude of "I don't care" prevails among us. They say that we don't care about the more intellectual pursuits, about politics, about world affairs, and in general, the world around us.

Society has been made aware of this defect, deficiency, or whatever you may choose to call it, but there have been few efforts in the way of analyzing the situation. In conversation the depression, the second world war, and the atomic age have been alluded to as somehow or another causing this mental attitude. The youth of the thirties, supposedly, felt that through certain idealogical abstractions world strife and poverty could be overcome and eliminated, and that the individual could effect this change. Today's youth, however, is said to be exactly opposite of the youth of the thirties. It is said that we feel there is nothing the individual can do to shape the world and the cosmos. So in lieu of this we turn our backs to the streams of the world and seek materialistic security.

In recent years our campus critics have been busy shouting apathy. One student called Muhlenberg "intellectually bankrupt." Another categorized the small minority who were interested in the intellectual pursuits and damned the majority. In recent weeks various letters to the editor, some nicely wrapped in pseudo-pedantic vocabulary, have pronounced a state of apathy. The student body and myself have been told that we are apathetic but beyond this announcement I have been unable to detect any ideas or informative reasons why we are apathetic much less means to ameloriate the situation. Why are we apathetic and irresponsible? In attempting to answer this question it would be the greatest of understatements to say that this question is rather difficult to answer, but that is the only excuse I can give for my own limped analysis and therefore will say it.

Modern history is a study of the development of strong central government and materialistic advance and improvement. It seems that regimentation and discipline have been corollaries to this development. As government grew

# Mules Trim Albright As Jeffries Stars; Royals Triumph, 83-74

Last Saturday evening Muhlenberg traveled to Reading, Pa., where, before some 2,000 spectators, they defeated a scrappy Albright college five by a score of 82-73. The victory enabled the Mules to go over the .500 mark for the first time in many weeks.

For Berg, senior Clint Jeffries played undoubtedly his best game of the season as he scored 31 points, including 15 of 20 from the charity line, and grabbed 22 of Berg's 65 rebounds as coach Crum's hoopsters registered their 10th triumph in 19 starts. Jeffries' total output marked the top single game effort of any Mule player this season. He was followed in scoring by Sekunda with 18 and Kessler with 17.

**Early Lead**

Muhlenberg got off to an early 7-2 lead only to lose it a short time later when Albright darted ahead, 10-9, on Stan Kamanski's field goal. From this point, the score see-sawed back and forth until Dick Kelly of Albright hit for six field goals to give the Lions a 39-36 halftime lead.

Shortly after the second half began, however, the Mules overtook the Red and White as Jeffries bucketed seven straight points to give the Cardinal and Grey a commanding 57-48 advantage and the lead for good. For Albright (now 8-13), junior Fred Dietzel was outstanding as he scored 22 points on 6 field goals and 10 of 11 free throws.

**Bow to Royals**

Two days later, the Bergmen traveled to Scranton, Pa., where they met Fiore Cesare's Scranton university five. The Royals, the surprise of the Middle Atlantic conference with a fine 7-2 log and hopeful of a NCAA small-college playoff bid, soundly defeated the Mules, 83-74.

Bob Meckwood, a 5' 10" sophomore, and Ed Kazakavich, a 6' 5" junior, teamed up to score a total of 44 points and hand the visitors their eleventh setback of the campaign. The former, in addition to scoring 26 points, was particularly outstanding as he broke up numerous Berg plays with his constant ball-hawking.

**Royals Rally**

After trailing briefly in the opening minutes of play, the Royals (now 16-7) jumped ahead on an eight-point surge sparked by Meckwood, and continued this pace for a 37-29 halftime lead.

With five minutes gone in the second half, the Mules moved to within six, 48-42, but 5' 11" Ray Caucci hit on a set and a drive to start the Royals on their way to a 22-point advantage.

Not to be outdone, Berg closed the gap to 9, 78-69, as Joe Berghold proceeded to notch 8 quick points. Nevertheless, the Purple and White had just a little too much as they scored five consecutive points to pull away and insure the victory.

Kazakavich, in scoring 18 points, hiked his seasonal total to 602, thus making him the highest scorer in Scranton university's history. For Berg, Dick Sekunda was high with 25 points, followed by Kessler with 11, and Berghold with 10.

# I-M Corner

**by Jack Coughlin**

In a recent contest on the hardwoods of Memorial hall, Alpha Tau Omega "A' team took the measure of the Mules by a score of 57-30. Bob Nuss was high man for the victorious ATO quintet with 18 points. Dave Krewson and Mike Kurtz both contributed 10 points in the winning cause. Wolf connected for 8 points for the Mules. The Schmeckals, led by the scoring of Roy Spangler went on to whip the Tri Staters 36-29. Roy dropped in 12 points for the winners and Eden was high man for the Tri-staters with 11 points.

Phi Epsilon Pi took a two point victory over Tau Kappa Epsilon, when their game finished up 28-26. With a close game most of the way Frank Claire led the scoring for the Pep Boys and proved the difference. High scorer for the game was Herb Siegle of Teke. Herb dropped in 10 points in the losing battle.

The Commuters came out on the high end of their game with the Vets. Final score read 42-33, with the Locals on top. Pat Wilson was the high man for the Commuters with 16 points. Pat dropped in seven two-pointers and hit for two more from the charity line. Don Wendling and Harry Beidleman teamed up for the bulk of the Vets scoring with 11 and 10 respectively.

Phi Kappa Tau took a win over the G Hall quintet by a score of 45-35. Ray Croft and John Holcroft teamed up to give the Liberty Streeters the scoring edge. With both men hitting for 15 points they shared the high scoring honors for the game. Olsen dropped in 12 for the Dorm quintet. Half time score was 24-15 in favor of Phi Kappa Tau.

Tom Schaeffer and Neil Hahn connected for 9 points apiece to aid in the Sigma Phi Epsilon victory over the Rinky Dinks. Sig Ep won the game 47-30. Hahn and Schaeffer both hit for one on the free throw line and four field goals.

# Mules Win Final Home Contest Beating Favored Wagner, 90-83

**by Ben Livingood**

Muhlenberg staged one of its best team efforts of the season and rolled to a blazing 90-83 upset victory over Wagner college last night in Memorial hall. It was the season's finale for the Mules on their home court, and gave them a home-game record of eight wins and three losses.

The game moved along at a burning pace from start to finish. The Mules' performance as a team, both offensively and defensively, was outstanding. Three men finished with double figures in the scoring column. Clint Jeffries kept his hopes for a 400-point season alive with 18 tallies. Jeff now needs 46 points for a seasonal total of 400—there are three games remaining. Dick Sekunda was second high man with 21 markers.

The man of the night, however, was Mel Kessler. The 6' 5" junior from Brooklyn staged probably the best performance of his collegiate basketball career, as he found the mark on 11 shots from the floor and three of four free tosses for 25 points. Fifteen of them came in the second half, when he hit on seven consecutive field goals.

The Seahawks had two men in double digits. Lonny West compiled 17, while 5' 9" sophomore Milfred Fierce scored 16.

The Mules took the victory on the charity line. Wagner held the edge in field goals, 33-32, but the hosts capitalized on 26 out of 39 free shots as compared to Wagner's 17 for 21. The Mules also held the edge in rebounding with 59 takedowns to 51 for the Seahawks.

Muhlenberg jumped to an early lead and never trailed throughout the first half, although the score was knotted twice at 8-8 and 10-10. The Bergmen held as high as an 11-point advantage at 25-14, but a jump shot by Bruce Witzel and five straight by 6' 6" sophomor Harold Junta moved the visitors within five, 26-21, with seven minutes remaining. The Mules couldn't move ahead by more than six from that point on, and held two-point edge (41-39) at intermission after Dick Simler threw in a desperation long jump shot at the buzzer.

The New York collegians took the lead for the first time at the outset of the second half, when a three-point play by Fierce made it 44-43. The lead, however, was only temporary as the Mules, behind the deadly accuracy of Kessler, went ahead to stay at 47-45. From there they ran off to another 11-point margin with five minutes left, 76-65. Kessler handled the brunt of the scoring in the first ten minutes of the period, then left it up to the combined efforts of his teammates for the remainder of the game.

The green-shirted Seahawks staged a late surge which brought them within five points of their hosts, 85-80, with a minute and a half to go, but, their fouling spelled their doom, as the Mules made good on five of seven last minute free throws.

# Fencers Host Middle Atlantic Duelers At Berg's Memorial Hall

**by Carl Shellenberger**

This Saturday, March 1, Muhlenberg plays host to the seventh annual Middle Atlantic States Collegiate Athletic Conference Fencing Championships. This year the colleges entered are Muhlenberg, Haverford, Johns Hopkins, Stevens Institute, and Lehigh. Muhlenberg's coach, Andrew H. Erskine heads the Bout committee, which is made up of representatives of all schools entered. The Honorary Tournament Director is George Lawson and the Faculty Advisor is Ray Whispell.

There will be team and individual competitions in each of the three weapons—Foil, Saber, and Epee. Each college is represented in each weapon by a team of two men. These men are not seeded and participate in a round robin elimination. The Muhlenberg team will consist of Linnet and Moyer in the foil, Abramson, Merz, and Michaels in the Saber, and Fuchs, Reber, Burgess, and Burns in the Epee divisions.

**Yale Trophy**

The team trophy is the coveted Yale Trophy which was donated by Yale university to the MASCAC. In each of the three weapons, division trophies will also be presented. Last year Muhlenberg's Epee team of Bill Wormley and Steve Fuchs copped the epee team trophy. Gold, Silver, and Bronze Medals will also be awarded to the individuals placing first, second and third respectively in each of the three weapons. The gold Epee medal was won last year by Bill Wormley.

Saturday's events will get under way at twelve o'clock with a luncheon meeting of coaches and judges. The fencing bouts begin at one o'clock in Memorial hall and continue until six with an hour's intermission at three-thirty At six o'clock the award presentation ceremony will take place.

**Berg Inexperienced**

Last year Lehigh came out on top with Johns Hopkins second and Temple third. Muhlenberg's team contains only three experienced fencers in Fuchs, Reber, and Michaels. The rest of the team are sophomores in their first year of varsity competition. The team's chances, therefore, look rather dim this year but should improve as experience is gained. The strongest weapon for Muhlenberg will be the Epee with senior Steve Fuchs defending the title.

In modern intercollegiate fencing, a match consists of twenty-seven bouts, nine with each of the three weapns. Each weapon is scored slightly differently, but in general it may be said that the object is to touch your opponent five times before he can touch you five times.

**Scoring Areas**

The valid target and the modes of attack vary from weapon to weapon. The foil has the smallest target. Good touches can only be scored on the trunk of the body. Touches on head, arms, and legs are not counted, nor are touches made with any part of the weapon but the point. Speed and strategy count for much in this weapon.

The saber is employed on a somewhat larger target, all touches above the groin lines being counted. Touches may be scored by direct hits with the point, or by cuts and slices with either the top or bottom cutting edge. This weapon is perhaps the favorite with American spectators, the action being more open and flashy. Strength and variety of attack are important in this weapon.

The entire body is the target for the epee. The epee is the off-spring of the dueling sword, having a needle sharp point. Electronic equipment is used to register the touches. Speed and delicacy of touch are needed by epee fencers.

# Berg Courtmen Meet Wildcats, Hofstra

by Bob Schumacher

Hofstra's Flying Dutchmen and Villanova's Wildcats provide the opposition for the Mules' next two games as the Cardinal and Gray take to the road. Hofstra is coached by Coach Bill van Breda Kolff, former mentor of Lafayette Leopards. Breda Kolff is in his third year at the helm as his Dutchmen compiled an 11-15 record last year. The holdovers from last year include the following seniors: Ray Cuneen, leading scorer and steady backcourt man;Bill Rathje, who at 6' 2" is a rugged man under the boards; Don Laux, who possesses a good set-shot and a pretty fair jumper; and Dan Geoly, the "take charge" guy on the team. Junior Art O'Reilly, a pretty good scorer with a nice set shot and a good driver; 6' 7" Henry Schwab (a good rebounder), and Paul Rupert are the other returning lettermen. The squad also contains four sophomores: Service veteran Sam Toperoff, who at 6'4" is one of the taller members on the squad; Stan Einbinder who has seen a lot of action; Jim McQuire, who has also had considerable experience; and Bill Peet, a good steady ball player.

Cuneen scored 280 points last year for an average of 12.2 points per contest, followed by Geoly with 226 and Schwab with 216. The Mules rolled over the Flying Dutchmen last year by a 92-64 score.

**Villanova Game**

The following Wednesday Coach Crum's Mules travel to the Main line to tackle Villanova. The Wildcats have lost several very close games including a one point loss to powerful West Virginia. The Villanovians are co-captained by Tom Brennan and Jack Kelly. Brennan at 6'7" was the leading rebounder on last year's squad that posted a 10-15 record. He has been helped tremendously under the boards by 6'8" Tom Scott, a transfer from North Carolina state. Also providing useful height are 6'6" George Raveling and 6'4" George Reider, who possesses a deadly shot. Junior Ken Harrison has provided the necessary scoring punch along with Joe Ryan, backcourt ace who is virtually unstopable when he is on. Also seeing a lot of action will be 6'3" senior Bill Brennan and another backcourt man George Emma.

The Wildcats are coached by Alex Severance who directed his team to a 71-67 decision over the Bergmen last year.

## Grapplers Win 7th; Trim Lebanon Valley

Coach Carl Frankett's Muhlenberg's grapplers won their seventh match in nine tries when they came through with an impressive win over the Lebanon Valley Dutchmen, 32-0. The match, held before 750 fans in Memorial hall last Saturday, found the Mules at their very best as they whitewashed their opponents.

The match also marked the return of 123-pounder Art Jaquette, who had been out of action since the Temple match when he suffered a shoulder injury. Jaquette opened the way to victory when he disposed of Barry Keinard by a 9-2 margin.

Pierce Knauss, 130-pounder, followed suit by decisioning John Lanese 7-0, and Gordie Warner also came through with a victory by virtue of a 5-0 decision over Bob Sensenig.

Jim Waller, unbeaten but twice tied, came through with the Mules first pin of the day when he stopped Kent Krouse in 4:28 with a Japanese keylock. This was the first of the Mules four pins.

Captain Don Simpson followed Waller's example and pinned his man in 2:54 with a cradle hold.

It was Simpson's eighth win against one loss. Dick King, wrestling in the 177 pound class picked up his sixth win when he decisioned Dave Miller 10-4. King has lost one and tied two.

Roger Keehn and Gerry Rehrig both pinned their men for their eighth win against one defeat.

## In the Sportlight . . .

### Senior Basketball Stars Provide Extra Spark

**BILL DISSINGER**

One of the major surprises of this year's basketball season was the great improvement of Bill Dissinger. Bill came into his own this year and has proceeded to become one of the mainstays in the Mule lineup.

Bill's home town is Willimantic, Conn., where he attended Windham high school. He participated for four years in basketball and baseball while in high school.

At Muhlenberg, Bill is an active member of the M-club, and other activities including the Psychology club and Intramural Sports. Bill has been on the basketball team for two years, but mostly in a reserve role. This year is the first he has started, and he has asserted himself well with his steady play, and deadly jump shot.

Dissinger thinks the team is improving steadily, and the severe losing streak can be attributed to lack of experienced ball players.

**DICK MacLAUGHLIN**

Playing his fourth year of basketball this season, Dick MacLaughlin, has become one of the Mules' starting five. Proving his worth with a steady floor game and a fine outside shot, Dick won himself this starting position.

Coming to Muhlenberg from Catasauqua high school where he played two years of football and four years of basketball, Mac has been a welcome sight for local Berg fans. At Berg he is a member of the Psycholoby club and the Newman club. Mac entered college in 1950, but then spent three years in the U. S. Marine Corps before returning to complete his education. After graduation this spring, he plans to teach history and do guidance counciling in high school.

Mac is married, and he and his wife are waiting anxiously for their first child.

# Wrestling Championships To Be Held At Wilkes

The Muhlenberg grapplers will be out to take the championship in the annual Middle Atlantic Conference tournament at Wilkes college on February 28 and March 1. Last year Wilkes college edged out the Mules by two points, 50-52, while Lafayette was third with 34 points. The Mules claimed three champs in "Guts" Guiterrez and Paul Billy, now graduated, and Don Simpson.

Teams entered in this year's tournament are: Muhlenberg, Albright, Bucknell, Dickinson, Delaware, Drexel, Elizabethtown, Gettysburg, Haverford, Hofstra, Johns Hopkins, Lafayette, Lebanon Valley, Lycoming, Moravian, PMC, Swarthmore, Temple, Ursinus, West Chester STC, and Wilkes.

Coach Carl Frankett is entering several men with near-perfect records: Captain Don Simpson, last year's 147-lb. champ, is 9-1 at 157, Jim Waller at 147, is the team's only undefeated wrestler with 8 wins and 2 draws; Roger Keehn, who placed third last year in the heavyweight division, has an 8-1 record at 177, and Gerry Rehrig is 9-1 at heavyweight. Other Mule entries include Dick King at 167, with 7 wins, 1 loss, and 2 draws; Pierce Knauss at 130 and Gordy Warner at 137, with 7-3 records, and Art Jaquette at 123, with a 2-2 record.

Awards will be made to the championship team, to the first three winners in each weight class, and to the outstanding wrestler of the tournament, to be picked by the officials and coaches.

The tournament will get under way on Friday at 6 p.m. in the Wilkes gym. Semi-finals are at 1 p.m. on Saturday, with the Consolations at 7 p.m. and the Finals at 8 p.m.

## Fencers Lose Fourth As Lehigh Triumphs

Lehigh university handed Muhlenberg its fourth straight fencing loss, 17-10, last Saturday afternoon in Grace hall, Bethlehem.

In Saber competition, Abramson, Michaels, and Merz each gained one point for the Mules. Fisher took top honors in Foils, defeating Woerherde and Karustis for a total of two points. Moyer and Linette ended with two scores between them. In the Epee class, Clause, Burgess, and Byrne chalked up one each to complete the team total of ten points.

Next week the Berg swordsmen will compete in the annual Middle Atlantics championship, which will be staged this year in Muhlenberg's memorial hall. The Mule fencers' record currently stands at 0-4.

# From Here And There

(Continued from Page Three)

larger and more paternalistic man has become more dependent and has been mad to swallow some of his individualism. Government has taken on more and more social responsibilities, and in doing so, has added the power to dictate and regulate the modes and patterns of everyday life.

This is not only true of government but is true of society in the whole as Mr. Reisman and Mr. White have pointed out in their books "The Lonely Crowd" and "The Organization Man." There too man has had to suppress his individualism in order to safeguard his security. We should remember here not to mistake individualism with being different. Too many people think of the Bohemian when individualism is mentioned.

The recent snow storm is an excellent example of how materialistically dependent we are. The dependency has resulted in surrendering direction to an organization. We have been amiably subdued and are satisfied to sit in our ranch type homes with a car in the garage and grow our aspidistra plants.

This continual dominance and supervision was expressed quite humorously in an article in a recent Life magazine entitled "Big Brother Parents." The author complains of parents directing and planning every phase of the child's life. Akela is watching you! The child is no longer allowed to stand in water puddles gazing at the world around him. He might catch cold. Nor is he allowed to devise his own games. These are planned and made for him. Mothers are increasingly protecting their siblings from the world of chance and discovery. She protects them from the bloody nose, cracked head, and occasional broken bone that comes with growing up and learning the pitfalls of life and society. Parents pamper their children with the materialistic benefices of the modern day and void any sense of personal responsibility in the child.

So we came to Muhlenberg. On our arrival we were told that we represent Muhlenberg college and this should be remembered in our contacts with society. We're handed sheet after sheet of regulations blueprinting our behavior. We should be responsible young men and women. Yet how can we be responsible when the college not only regulates our academic life but also our social life and what we're to wear and not to wear. How can we taken on responsibility when we're not given the opportunity to be responsible? Ironically it appears that as society becomes more materialistically mature, advanced childhood and emotional immaturity is prolonged.

An excellent example of this tendency is an incident that occurred when I was a freshman. Haps Benfer greeted the Frosh in the West hall auditorium and told us this is our home for a little while and we should act accordingly. I would be sitting in my room evenings and suddenly the door would open and there was Haps checking to see that things were on the up and up. This I resented, and at the next "pep rally" in the auditorium I asked Haps how he could justify his unannounced entries into our rooms under the conditions he had prescribed earlier. I was made the butt end of a joke and never actually received an answer. This is indicative of the whole of society. We aren't allowed to have responsibility and yet we're supposed to act responsible.

In such an atmosphere where is there a chance for integrity? People ask why we don't have an honor system or why won't it work? Integrity is needed for an honor system, and how is integrity possible without trust and belief in a person's ability to be responsible?

It seems like a hopeless, frustrating, no-escape dilemma. George Orwell in his book "1984" pointed this out magnificently with "Big Brother is watching you." T. S. Eliot and Aldous Huxley also contributed commentary on this seemingly no-exit development of society and government. And what did Huxley and Eliot do with their perception? They turned to religion.

In the last few years there has been a so-called return to religion. Church membership rolls have increased by the thousands. Was this a result of a spiritual surge and calling within the hearts of men? That doesn't seem to be the case. It was rather like taking Milltown on top of champagne. To put blind faith in religion in the hope all will be mysteriously worked out in the end is the defeat of knowledge and civilization. If there is an answer it must be worked out through the reason of man.

**All student campaign signs must removed within 48 hours after student election returns are announced or the student involved will be subject to a $5.00 fine.**

## The Chowline

Once again the Chowline can reveal a Slater system "extra." As you remember from last week's edition of the **WEEKLY** the Snack bar will offer a free coffee for every point scored over one thousand by Clint Jeffries, Muhlenberg's ace. Haps Benfer, and it is no longer a rumor, will supply the cream and sugar.

Well, this new revelation should be of interest to all students eating in the commons and to the lucky individuals partaking of food and drink in the Snack bar. It seems that Brother Eberhart is going to accept formal criticisms from the student body over the constant nutrition dilemna. All students are now invited to criticize the meals and snacks served in the commons and snack bar, respectively. This important innovation should allow for the release of all concealed frustrations and therefore allow student morale to improve. The **WEEKLY** congratulates Mr. Eberhart, recently voted "Herbert Spencer of the year" due to his application of the "survival of the fittest" doctrine in the commons, for his interest in student opinion.

By the way, stop in the Snack bar for a "Spring fever" break. I'll see you there.

# John West Speaks To Science Club

John West Jr., assistant engineer on a nuclear project at the Pennsylvania Power and Light corporation will lecture to the Science club on Monday, March 9, at 7:30 p.m., in room 105 of the Science building. The topic of the evening will concern the research being done on the generation of electricity by means of nuclear power. The club extends an open invitation to the student body.

Tomorrow, the club plans to take a field trip to Western Electric. Their tour of the plant will include the transistor area, dry reed switch area, and the miniature tube area. This will be followed by a talk given in quality control. All those interested in attending will meet in front of the Science building at 12:30 p.m.

# Man-Woman Role

(Continued from Page Two)

can produce with it, a posterity of learned people.

We must insist, however, that a woman must make her choice between one of these two alternatives. If she wishes to engage in a career, then she must sacrifice the benefits and joys in living a home life. If she wishes to engage in marriage, then she must consequently sacrifice the enjoyment of a career. It would be a diversion of her talents to attempt to tackle both, for in doing so, she would necessarily sacrifice the benefits of both, and also leave her children without her care. It would be impossible to do a satisfactory job with both at the same time.

# Students To Receive Honors Recognition

(Continued from Page One)

Frank H. Sivitz, Peter G. Skutcher, Barrie L. Weisman.

**Class of 1961:** Barbara J. Fretz, Robert E. Glaser, Donald B. Hoffman Jr., Arnold A. Hoberman, Ann Romantowski, Murray K. Seidel, Margaret A. Sos, Ramona M. Spatz, Margaret E. Todd, David R. Williams.

With the release of the Dean's List, a new tradition was begun at Muhlenberg. The six co-eds who have gained an average of 90 or better are the first women in the history of the school to receive this distinction.

# Night Classes

(Continued from Page One)

having been paid. If, upon completion of the course, there is a passing grade, the student will be reimbursed by the company offering this opportunity. An example of this is Western Electric, located in east Allentown.

Dr. French, in his views on education, feels that many people could come here in the evening for the sake of intellectual stimulation, and have refuge from a television set. Also, life is becoming more complex, and people must seek more knowledge; even those who have graduated with a bachelor's degree.

**Tickets for the Villanova basketball game in the Penn Palestra, Philadelphia, will be on sale at a special student price of $1.25 in the Athletic office from 10:00 to 11:30 a.m. and from 2:30 to 4:00 p.m. up to Tuesday, March 4.**

# . . . Student Council Report . . .

February 20, 1958

The regular meeting of the Muhlenberg college Student council was called to order at 7:06 p.m. by President Luis Torres. All members were present.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $1,563.49 |
| Social fund | 682,71 |
| Assembly fund | 1,285.27 |
| | $3,531.47 |

**COMMITTEE REPORTS:—**

**Assembly:**—Mr. Skweir announced that an assembly program would be held next Wednesday at 3:15 p.m. in the Science auditorium. It will feature Robert Fabian of Scotland Yard.

**Chapel:**—Mr. Ueberroth reported that since the Chapel was closed during the entire week, that all students would automatically receive two chapel credits for the week.

**Women's Council:**—Miss Kuntzleman reported concerning several discipline cases in West hall and with women students. A motion was made and seconded that those offenders whose recommended punishment was expulsion or suspension be notified to appear before council. Motion was unanimously defeated. Council then considered each case and recommendation individually. Cases No. 1 and No. 3 were, on motion, asked to appear before council. The recommendations of the Women's Dorm council concerning cases No. 4 through No. 8 were accepted as read.

**NEW BUSINESS:—**

On motion by Mr. Gurski and Mr. Smith, Student council adopted the following resolution:

**That all student campaign signs must be removed by 48 hours after student election returns are announced or the student involved will be subject to a $5.00 fine.**

On motion by Mr. Gurski and Mr. Leighton, the meeting was adjourned at 8:50 p.m.

Saturday, February 22, 1958

A special meeting of the Muhlenberg college Student council was called to order at 10:08 a.m. by President Luis Torres. Mr. Leighton, Mr. Vari, and Mr. Markoe were excused. The members of the Women's Dorm council were present as guests of the Student council.

In a special executive session, Student council recommended to the Administration of the College that one female student be expelled from the college and that another be suspended from the college for a period of two weeks.

The student council also recommended to the Interfraternity council that it look into the case of women sleeping in a fraternity house without going through the proper channels of authority.

The meeting was closed at 11:04 a.m.

Respectfully submitted,
RAY UEBERROTH
Recording Secretary

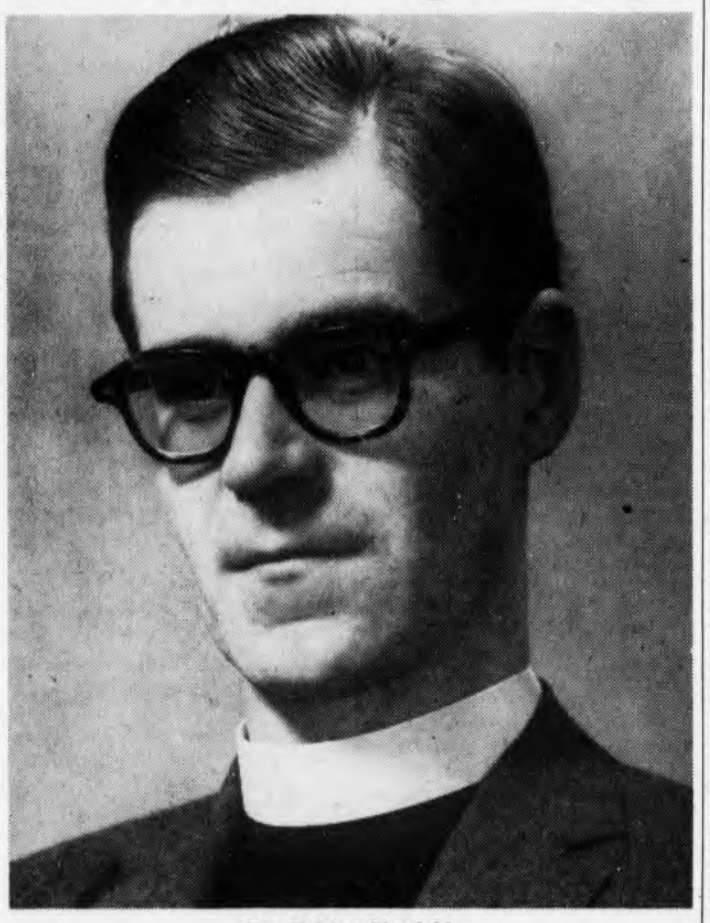
# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., March 6, 1958 A. C. P. Rating No. 18

## IF Invites Dr. Stendahl To Muhlenberg College



Dr. Krister Stendahl

"Let God Be God" will be the overall title of the lecture series by Dr. Krister Stendahl, which will be presented on the Muhlenberg campus by the Institute of Faith, from Monday, March 10 to Wednesday, March 12. The Institute of Faith, which is a committee of the Muhlenberg Christian association, annually presents an outstanding lecturer from a diversity of fields, whose lectures and seminars are concerned with contemporary topics and their relationships to Christianity.

Dr. Krister Stendahl, associate professor in New Testament at the Harvard Divinity School, was born in Stockholm, April 12, 1921. In 1939 he graduated from Gymnasium and completed the first part of his compulsory military training. In 1941 he received his pre-theological degree at Uppsala university in Sweden. He later received his B.D. and was ordained a priest of the Church of Sweden. During his years at Uppsala university, Dr. Stendahl was associated with the Student Christian movement.

**Discussion Leaders**

There will be three discussion leaders on campus during Dr. Stendahl's three-day lecture series. They are Dr. L. Dale Lund, chaplain at Upsala college and cousin to Dr. Rodney E. Ring, faculty adviser to the Institute of Faith; Rev. Gilbert E. Doan Jr., Lutheran campus pastor for the Philadelphia area; and Rev. Arthur L. Ruths, Lutheran campus pastor at Pennsylvania State university.

The program will begin with Dr. Stendahl's 11 a.m. chapel talk on Monday, March 10. His topic at this time will be "He Made Us." On Tuesday his topic will be "He Saved Us, and on Wednesday, "He Inspired Us.' Two chapel credits will be given to students attending chapel during these talks.

**Lutheran Discussion**

There will be a luncheon discussion on each of the three days, at noon in the college commons. On Monday and Tuesday afternoons at 4 p.m. there will be seminars in the Mueller Seminar room, held by Pastors Doan and Ruths, respectively. On Wednesday afternoon, the 4 p.m. seminar will be held in the MCA room by Pastor Lund.

(Continued on Page Six)

## Campus Fraternities Aquire New Pledges

On Thursday, February 27, fraternity pledging bids were distributed to the freshmen of the class of 1961. Proportionately, the acceptance of these fraternal invitations was much higher than that of last year. Out of the eligible 91 men those accepting, reached a total of 66. On the first day, 53 men made definite obligations, and in the following days, the remaining came to the decision of their choice. There were 71 Christian students eligible, and 21 Jewish men who had placed themselves on the eligibility list.

The Alpha Tau Omega fraternity pledged the followling men: Robert Butz, Lester Fetter, Richard Foley, Robert Glaser, Wilson Gum, Galen Kistler, Edgar Nace, Thomas Pry, George Reeves, and John Simpson.

**12 Lambda Chi's**

Twelve men chose Lambda Chi Alpha as their fraternity. Those men are: Philip Ehrig, Donald Evans, Gerry Hamilla, David Hoover, Jay Van Kempen, John Looes, William Nennsteil, Donald Olsen, Garry Sinning, Fred Schwenk, and William Stoppy.

Phi Epsilon Pi received eleven men who accepted bids. These men are: Neal Capelman, Myron Hyman, Irwin Rawin, Stanley Chaplain, Murray Seidel, Harold Shulman, Arnold Lipschutz, Barry Leighton, Arnold Hoberman, Philip Golove, Barry Cohen, Nathan Hirsch.

The Phi Kappa Tau fraternity accepted these men as their pledges: Ray Baun, Richard Hafer, Donald Hoffman, Henry Kimmel, Floyd Moyer, Ross Ramsey, Roger Roth, and Conrad Weiser.

**Sig Ep Pledges**

Nine men accepted bids to the Sigma Phi Epsilon fraternity. These men are: Clinton Barlow, Joseph Bander, Ronald Gougher, Ronald Hagemann, Errol Jacobi, Garry Nicholas, Ronald Ost, Mar-

(Continued on Page Six)

## Candidates For Student Council Total Nineteen

Election of the members of the 1958-59 Student council of Muhlenberg college will be open at 9 a.m. on Wednesday and close at 5 p.m. of the same day. Nominations and acceptances of all candidates must be in the Student council suggestion box by 4 p.m. on Friday, March 7.

At 4:15 p.m. on the same day there will be a meeting of all candidates in the Student council room for the drawing of lots to determine the various positions on the ballots. All campaign signs must be removed 48 hours after the elections, or a $5.00 fine will be incurred.

Nominations were opened at the student body meeting at 3:15 p.m. on Wednesday, February 19, in the Science auditorium. To date, 19 candidates have accepted their nominations: David K. Bausch, Allentown; Ronald N. Behrle, Allentown; Nino Carnevale, Westfield, N. J.; Burt Eisenubud, Linden, N. J.; Patricia Haberern, Allentown; John R. Holcroft, Philadelphia; Paul D. Horger, Taylor; Philip N. Jurus, Hazleton, Richard A. King, Allentown; Clair D. Miller, Allentown; Donald F. Nase, Souderton; Michael A. Sanders, Larchmont, N. Y.; Thomas A. Schaffer, Allentown; Susan Schell, Allentown; Walter H. Schumann; Philadelphia; Herbert Siegel, South Orange, N. J.; Edward R. Thieler, Philadelphia; Richard E. Truchses, Carlisle; and Spencer J. Tuchinsky, Allentown. With a total of 13 seats available on the Council, four of these are automatically filled by the president of each class, while nine candidates are elected directly.

Nominations for Council officers will close on Friday, March 14, at 6 p.m. The election of these officers will be held on Wednesday, March 19. The officers to be elected are president, vice-president, recording secretary, treasurer ,and corresponding secretary.

## Tests Offered By Draft Board

On Thursday, May 1, the Selective Service College Qualification test will be offered to college men, it was announced today by Lt. General Lewis B. Hershey, Director of Selective Service. The May 1 test will be the only test offered for the 1957-58 school year, the national director emphasized.

Scores made on the test are used by local draft boards as one guide in considering requests for deferment from military service to continue studies.

Application cards and instructional materials may be obtained from Selective Service boards after Monday, March 10. Men planning to take the test were urged by General Hershey to make early application at the nearest local board office for fuller information and necessary forms and materials.

**Guides for Deferments**

Either the score made on the test or class standing may be used by local boards as guides in considering applications for student deferments. Thousands of students have been deferred since the testing program was begun in 1951.

General Hershey urged every student to take the test if he believes the test score will aid the local draft board in determining his status. He pointed out that such information, like other information registrants are required to supply to local boards, is important.

## Dean Submits Final Resignation After Thirteen Months In Office

Muhlenberg college's first dean of women, Miss Heimtraut Dietrich, tendered her resignation to Dr. J. Conrad Seegers, president of the college, on Tuesday, March 4. The resignation was presented to, and accepted by, the board of trustees, at their meeting on Tuesday afternoon. The resignation came less than 13 months after Miss Dietrich assumed her position on February 11, 1957. It will become effective as of August 31, 1958, the end of the current college fiscal year. She will carry out her activities as dean of women until that date.

**Miss Heimtraut Dietrich, who recently resigned her post as Dean of Women at Muhlenberg college. Miss Dietrich held her position for only 13 months since February, 1957. Her resignation will not become effective until August of this year.**

Dr. George Balmer of Reading, president of the board, stated that Miss Dietrich's resignation was accepted without dscussion by the board, upon presentation by Dr. Seegers. Personal reasons was the explanation given by Miss Dietrich, to Dr. Seegers, for her resignation.

**No Immediate Plans**

Dean Dietrich stated that she has no immediate plans for the future. In a statement to the**Call-Chronicle** newspapers, she summarized her experiences at Muhlenberg by saying, "I have tried to establish women's education on a male campus and have tried to integrate them into the male campus. It's been a tremendous experience.

"I think the girls have made tremendous headway and that they are headed in the right direction. I certainly hope it will continue in that way."

(See Letter of resignation on page two.)

Miss Dietrich came to the campus as Muhlenberg's first dean of women, from a similar position at Wagner college in Staten Island. She is a native of Camden, N. J., attended Beaver college in Jenkintown, Pa., and received her master's degree from the University of Pennsylvania. From 1951-1953 she was a student dean at Syracuse university.

**Board Meeting**

At the meeting of the board of trustees a record $1,200,000 budget was adopted for the fiscal year, beginning on September 1. Bruce MacIntosh of Miami Beach was also elected to the board to fill the unexpired term of Atty. Reuben Butz. In addition to this, five administrators were reelected for another year, and Dr. Clifford Trexler of Allentown, was named to the executive committee to fill the vacancy left by the death of Atty, Butz.

A spokesman for the college stated that the budget includes a $50,000 increase for faculty and staff. Part of this will be in the way of pay raises, while the rest will go for a retirement program.

## *Mask & Dagger Society Produces Spring Comedy*

Dr. Andrew H. Erskine, director and faculty adviser to the Mask and Dagger society, has announced that the organization's spring production will be "My Three Angels," by Sam and Bella Spewack. The play is a three-act comedy, based on "La Cuisine des Anges," a French play by Albert Husson, which won the Tristan Bernard Prize when produced by Andre Certes in Paris in 1952.

Sam and Bella Spewack have, in 25 years as a writing team, produced a total of ten plays and ten films, among them the vastly popular "Boy Meets Girl" which had five companies playing at one time. For "Kiss Me Kate" they collaborated with Shakespeare and Cole Porter and received the Antoinette Perry and Page One awards.

**Play's Reviews**

The reviews of "My Three Angels" when it appeared on Broadway, starring Walter Slezak, Jerome Cowan, Darren McGaven, and Joan Chandler, were exceptionally good. Louis Kroneberger of **Time** magazine says of the play, "My Three Angels is one more comedy that tickles conventional morality with a straw and makes respectability turn out its pockets. But it is much less ironic or satiric than just gloriously improbable; it is a fairy tale in which people commit murder as though it were "Drop the Hankerchief."

Casting for the M & D production of the play will begin on Monday, March 17. The tentative dates for the play's production, barring technical and casting difficulties, is Thursday, Friday and Saturday, May 8-10. Anyone who is interested in trying out for parts in the play, is asked to notify Dr. Erskine of his intentions.

**There will be a meeting of the Sophomore class on Friday, March 7 at 3:15 in the Science auditorium.**

**Thomas Carpenter**

## Local Book Salesman Disclosed By Police

Fraudulent attempts have been made recently by men and women posing as representatives of the National Literary Association. They have been soliciting colleges and universities in the Pennsylvania, New Jersey, and New York areas. Form letters have been sent to those institutions that might be involved, by the company that is being jeopardized.

In practically all case, these people have been going under the assumed names of Jack Reynolds, B. J. Reynolds, Betsy Reynolds, Thelma Gill, and possibly some other names. They are endeavoring to sell groups of magazine subscriptions and collecting in full for them from the officers of the fraternities or sororities they call on. To help bolster their claims as representatives of this company, they carry fictitious credentials and receipts.

**Attempt at Muhlenberg**

Recently one of these individuals attempted to pawn his wares on the Muhlenberg campus. He assumed the name of Jack Reynolds and solicited the various fraternities. He is described as age 35, blue eyes, black hair, 5' 7", and weighs 190 pounds. The Alpha Tau Omega fraternity was victimized through his attempt to pass a forged check. The treasurer was notified and the fraternity was not held responsible. Possibly other fraternities and groups were subject to this man's attempts.

## CampusArtContest Sponsored By MCA

In an effort to increase the interest in art and appreciation of art on campus, the Muhlenberg Christian association will hold a religious art contest. The contest is open to any Muhlenberg student and any medium of artistic expression will be considered, as long as it is of a religious nature.

The projects will be displayed in the library along with other religious objects of art from off campus. Closing for all entries is May 11, 1958. The judges for the contest will be Mr. Melville F. Stark, art lecturer at Muhlenberg, Mr. Ludwig Lenel, head of the Muhlenberg department of music, and Dr. Preston Barba, retired head of the German department and noted authority on Pennsylvania German culture.

The contest is under the direction of a sub-committee of the MCA and is headed by John Dreisbach. Prizes will be awarded to the two best artistic presentations.

# LETTER OF RESIGNATION

March 4, 1958

Dear Dr. Seegers:

It is with a heavy heart that I find it necessary to submit my resignation as Dean of Women at Muhlenberg College to you.

I came to Muhlenberg just a year ago full of hopes and dreams for the educational program of women at this respected institution. I have tried sincerely to establish the women in a campus community that had not really wanted them. Because lines of authority and responsibility have not been clearly defined and understood, it seems impossible to carry out the tremendous task that has to be done.

I do believe that coeducation here is moving in the right direction and that the students, both men and women, are adjusting well to a new situation. It is my sincere hope that my leaving so quickly may not serve to shake the faith of many in this program of coeducation.

May I express my gratitude in having been permitted to play a part in establishing a great project and my thanks for the help which you have given.

Sincerely yours,

Heimtraut Dietrich

## *Parking Problem . . .*

**Once again the members of the freshmen class, both male and female, are faced with a serious situation.** The present dilemna is still in embryonic form, but is pregnant with possible large-scale student resentment and could ultimately lead to a permanent loss in student moral. **Our present difficulty has its origin in the 1958 edition of the Muhlenberg college catalogue.**

Appearing on page 32 of this bulletin is the following regulation:

'No freshman or sophomore resident students may have a car on the campus. A resident student is one who is living in the dormitory or rooming in a private home near the campus.

"All students driving cars to or on the campus must register them with the Dean of Men. The college reserves the right to restrict the use of cars." This regulation has received adverse criticism for various reasons. Although some comments seem immature, the **WEEKLY** will examine the more valid contributions.

**First of all, criticism from members of the present freshman class is understandable.** Having served as the "guinea pig" class for the transition of the College to a coeducational institution, the present reaction is warranted. Also the present automobile restriction has, in effect, placed many future sophomores on a form of social probation. A similar aspect of this type of probation was evident to the male members of the Freshmen class for the first half of the academic year. Although recent events have tended to alleviate this condition, memories of a semester of social starvation are still vivid. Members of the student body can understand why freshmen are not allowed to have automobiles, believing the traditional adjustment concept to be basically sound. **However, the fear of further encroachment of their personal lives by this "creeping' regulation is a potent force.**

**Secondly, the WEEKLY wishes to criticize the administrative staff of the College for the way in which the new regulation was announced.** Since the **WEEKLY** is available to publish all the news of the College, why was the new regulation not referred to the newspaper or officially declared. Announcing a new regulation in a college bulletin appears to be an awkward and backward way of establishing and declaring administration policy. The **WEEKLY** recommends to the staff that all future policy declarations receive proper announcement in the student newspaper.

**A third and major point of concern centers on the lack of student participation in the framing of this College regulation.** Why was Student council not consulted on this matter? As stated in the annual bulletin "the College reserves the right to restrict the use of cars." This cannot be contested. However, students would like to voice their opinions on these matters and the **WEEKLY** feels student representation should seriously be considered by the administrative staff. With such an arrangement in operation both sides of the issue could be reviewed intelligently.

Numerous colleges and universities have adopted similar and varying regulations. These institutions, many in the immediate and near vicinity, are faced with crucial physical problems. Indications forecast the possibilities of further restrictions. **We arrive than at the crucial question: Does Muhlenberg college face a physical problem which necessitates of cars for resident students? Is the regulation necessary, or is Muhlenberg merely following the trend in policy of neighboring institutions?**

The **WEEKLY** would like to recommend to the administration and faculty that the "parking problem" and resulting automobile regulation be reopened and reviewed. Muhlenberg need not follow the present trend nor does Muhlenberg have a parking or automobile problem which could not be remedied. In following issues, the **WEEKLY** will endeavor to present proposals to remedy any existing parking situation, and hopes these recommendations will not fall on deaf ears.

Cooperation from the administrative staff and members of the student body will be appreciated.

# Our Ethel Performs Operations At Muhlenberg

**by Ron Moxey**

If anyone ever called Muhlenberg college, they would hear a bright voice answer with a cheery hello. Ethel Lentz, in her fourth year as the telephone operator for the College can also be depended upon to have a smile for anyone who visits the information booth on the first floor of the Administration building.

Ethel, who lives at 521 N. Berks street, came to Muhlenberg in November of 1954 and ever since that time has been a vital asset to the secretarial staff of the College. Often called upon to locate students for outside callers, answer questions that visitors ask, and do miscellaneous typing jobs for the administration and students, Ethel has become practically indispensible to Muhlenberg.

**Ethel Lentz, Berg's telephone operator, mans her station at the switchboard in the Ad building's information booth. Ethel is a friendly and versatile asset to the secretariat of the college.**

**Leisure Time**

In addition to her duties at Muhlenberg, Ethel enjoys her time at home by watching movies on T.V. and by engaging in her favorite pastime, playing pinochle. She also enjoys swimming and other outdoor activities.

Commenting about her job, Ethel says that this is the job she has always wanted. She feels that this is the best job she has ever had and attributes this to the fact that she receives excellent cooperation from everyone connected with the College. She feels that this cooperation is what makes her job so enjoyable.

When asked to give any grievance she had about her job, Ethel could think of only one thing. This was the small window through which students and strangers must peep through to talk to her. She says that it wouldn't be so bad if it was only small, but it is also terribly low. Anyone conversing with Muhlenberg's pert telephone operator is immediately susceptible to a case of sagging sacroiliac.

**Favorite Sports**

Ethel's favorite sports are baseball and basketball. Proof of her fondness of basketball and her interest in the athletic teams of Muhlenberg is found in the fact that she has attended every home basketball game for the past two years.

Perhaps the most amusing occurrence that Ethel has experienced since she has been behind the switchboard is involved in her difficulty in sneezing quietly. When she sneezes she invariably receives a phone call from Mae Borger in Dr. Swain's office on the third floor who simply says "God bless you." Back on the first floor Charlie Stecker and Ethel often have sneezing contests, but Ethel concedes that the good Mr. Stecker consistently outdoes her.

**Summer Months**

Ethel prefers the spring and summer months to the winter. This summer she plans to visit her sister in Florida during her vacation. However, June is the saddest time of year for Ethel because with the close of school her visitors are diminished drastically. She always looks forward to September when the little information booth window will again be darkened by some friendly face.

As to coeduation Ethel is rather reluctant to voice a definite opinion. She says she has adjusted to it very easily and it is now something that it is well coordinated in her routine. She is happy—she has had the opportunity of meeting many of the women students.

Thus Ethel Lentz, acting as telephone operator, typist, and the girl with the information, is not only versatile in her service to the College, but is instrumental in the smooth coordination of the various branches of the administration.

# Skits Are Highlight of Freshman Mixer Dance

**Tom Reinsel and Joelyn Borelli kick up their heels at the Freshman Mixer dance, held Friday night in West hall. This couple had the distinction of winning the jitterbug contest.**

**by Barbara Fretz**

"Hi-ho, gangerango! This is your coed on the corner, replacing the man on the street. Of course I'm only talking to the fellows because we coeds are here only after men." And so began the skit which took first place at the "Freshman Mixer" dance held in the West hall gym last Friday evening.

Linda Patnoi, the "coed on the corner," read the script for the characterizations of well known faces on the Muhlenberg campus. As Linda sauntered out onto the floor uttering her words of welcome, she was attired in a huge crew-neck sweater, dirty sneakers, plaid skirt, and freshman dink. In her hand she clasped a mug collected from a houseparty weekend. Her face wore a look of complete ennui but her eyes swept the crowd to take in all the male faces. "This program is brought to you by WMRS," she continued.

Just at that moment, the coed's first victim approached, wearing his laboratory smock and red bowtie. Who else could this be but Dr. Sexless Shafer, played to perfection by Gail Rosenberg. Liz Telgheider then made her appearance as Professor Beck of the numbers racket. "You gotta' what?" shouted Perhaps Benfer, played by Karen Kamena. "Have gun, will travel" was the slogan of a striding cowgirl, Carolyn Seeburger.

Last to be interviewed was the well known Monthly editor, Beck Karler. He was on his way back from getting a hair count at the local barber. Idabelle Diaz in trench coat and battered hat played this part.

Signing off, Linda drawled, "Stay tuned next week for Life—and I don't mean the magazine on the Muhlenberg campus; or: Don't Stand Too Near the Blackboard, Teacher, You Might Get rubbed out."

Following the skit by the girls, East hall's men presented their contribution to the entertainment—a follies' can-can number. To the tune of "We Are the Big Strong, Hairy-Chested Men," they kicked their shapely legs in fancy steps. Except for a few problems with their "equipment," the temporary "femmes" did just fine, and the audience roared with laughter at their graceful exhibition.

The skits were judged by Mr. and Mrs. Benfer and Karl Becker. The girls were declared the winners and were given the opportunity to have the men photographed in various positions.

**Any men who are interested in joining the tennis team this spring, are urged to report to Dr. Shankweiler's secretary, Miss Kuntz, by next week at the latest.**

# Letters To The Editor

## *Oh Yeah!*

To the Editor:

This letter is in reference to the article concerning the relationship of man and woman in last week's issue of the **WEEKLY.** I address this to Mr. Kennedy personally.

Actually you have said very little. You have done only what you have set out to do—to give the stereotyped male opinion of what is happening. You stuck a little paragraph in about Shaw's Life Force to add some new information and to give the article an intellectual overtone, but by not explaining what you meant by this term, you added no new information—just a bit of irrelevance. But I'm not concerned with criticizing your writing. Actually it's just like a sociology text book—you take so many words to say nothing that is not already known. I agree very much with your introduction paragraphs one to four. This is all quite true.

Also, you have given a beautiful picture of the traditional family. This worked very well during its time. However, forces were at work which changed the world in many ways. Most important of these forces was technology, which took much of the challenge out of housekeeping as a full time job. You can no more go back to what you would like in marriage the institution than you can go back to a "laissez faire" economical system.

The change may not be entirely bad. Men have greatly bungled the affairs of the world. It is the belief of many sociologists that one of the hopes of the world is utilizing one of its greatest unused resources—women. Russia has done this by placing women in the professions (90% of Russian doctors are women). Women work in factories, and to no great disadvantage to their children since work coincides with school hours, and the babies are brought to factory nurseries, and fondled during rest periods. Their country has undeniably made amazing progress, and women have certainly played an important part of it.

Another point — do you mean that if a woman plans to have a career she should not plan to marry? You feel that a woman should not marry unless her career interests are subservient to her marriage interests. This is the typical case of a woman who does not marry until her educational needs are satisfied: she works during the early years of her marriage, but interrupts her career gladly to rear her children. When the youngest of them is in high school, she can go back to this career and have something to absorb her energy in a more fulfilling way than her housework could, and thus escape that trying "empty nest" phase of life. Besides this, she is giving of herself to the world in more ways than the important but indirect way of developing healthy, well-adjusted children.

(Signed)

Elizabeth Heim

## *Once Again*

To the Editor:

I extend my heartiest congratulations to the coeds for the spirit which they displayed in attacking my thesis with the letter printed in the past issue of the **WEEKLY.** In my estimation that issue should be preserved as being of historical value. This is the first time the **WEEKLY** has been graced with a letter bearing the opinions of West hall. What has caused the coeds to wait six months before submitting a letter to the editor is beyond my comprehension. Of course, the reason could well be that devotion to studies and campus activities, not to mention class meetings, which is supposed to characterize the Muhlenberg coed.

It is amusing to note that the Forensic council extended a challenge to the coeds last semester. The issue was to have concerned the natural supremacy of the male. At that time there was not even a stir on the part of the coeds to uphold their feminine vanity. Of course, we must remember that devotion to studies and campus activities, not to mention class meetings, which is supposed to characterize the Muhlenberg coed. Now that they have shown some fire, however, I should like to see Don Michaels extend his challenge once more. I'm sure I'd not be alone in observing both the proceedings and the outcome with great interest. Such an event could be of great benefit to Muhlenberg college.

It has been suggested to me by many people that the "Coeds' Reply" is an epitome of "bandwagon" psychology. For my part, it might be too presumptuous to assume that each one of the 73 coeds did not read both the article and the reply with great care. It might be too unfair to assume that each one of the 73 coeds did not make an honest and objective analysis of her own motives. It might be too malicious to assume that each one of the 73 coeds did not sign her name with the utmost integrity or that she did so under the vieled pressures of a follow-the-leader technique.

I am well aware that a few West hall fire-eaters have painted me as some sort of psychopathic anti-feminist monster. To this

(Continued on Page Three)

# From Here And There

by Stan Heim

Next week, from March 10-12 tthe Institute of Faith will present its first program of the year in which Dr. Stendahl of the Harvard Divinity school will be the main feature and three other religious illuminaries will serve as side attractions. Therefore, it is perhaps appropriate that this week's column be related to religion.

The problem of religion is a vital question in every student's mind. As his intellect is exposed to the diverse modes of thought that have appeared in history, he begins to doubt and ask himself the whys and wherefores. His skepticism quite often turns to cynicism. My discussion will dwell on this transition. What is turning the young college student away from religion? What does he find repulsive in religion?

Time has a tendency to pervert and divert an institution so that its basic element and purpose is hidden underneath the appurtenances that history has a catch to it. And quite often, these additions not only confuse the true meaning, but are ludricrous and repugnant to the reason. Such is the case with modern day religion. This is not a new indictment, but has been voiced quite admirably for centuries.

Just prior to the catastrophe and holocaust of the Reformation, Erasmus, the human embodiment of the Renaissance, wrote an essay attacking the scholastic theologians called the "Praise of Folly" in which he said, "These fine-spun trifles are numberless, with others even more subtle . . . which no one can perceive with his eyes unless like Lynceus, he can see in blackest darkness things that are not there." Modern religion has not been purged of such elements. It still has its "fine-spun trifles" of how many angels can sit on the head of a pin. We have confused social mores, folkways, and customs with religion. We have made them one in the same and have reacted violently when confronted with a heritage different from our own. Religion should be a guide and exemplar for the relations of man. But man has stilted religion by interweaving the creeds of secular society into the religious fabric.

We have come to Muhlenberg college. We have come here not merely to become technicians of facts, but have come here to train and educate our reason so that it can discern the superstitions and shams that arise in our life. As the young college student learns to use his reason, these trifles and perversions suddenly stand prominently before him. There is instanteous conflict, and confusion and frustration ensue. Finally cynicism takes its toil.

The human reason can never understand the mysteries of God, the Absolute, or whatever you may choose to call this entity, but the reason can remove the barriers that lie between. In the July 1957 issue of **Harper's** magazine, James B. Moore wrote an article entitled "Why Young Ministers Are Leaving the Church." In discussing what the people of the church can do to correct this malignance he said "They can stop confusing their church and its dogmas and programs with the living God."

A short time ago, a friend of mine received a folded Lenten offering card from him home town church. On the front was a beautiful picture of a cross with a red sunset in the background. Underneath was this caption "This have I done for thee; what wilt thou do for me?" and in the inside was a total of forty dime slots. It reminded me of the March of Dimes cards we received in grade school and after considering this offering card a few minutes, I couldn't help but think that the March of Dimes was a far more worthy campaign. This sort of thing is cheap and leaves me speechless with anger. I could only think of such things as "A dime a day keeps the devil away" or "Save your soul with a dime a day."

In closing, I'd like to ask a question and hurl a challenge. A few weeks ago, Alpha Kappa Alpha had a Lutheran minister from Reading as a speaker. After the program ended and the participants dispersed, the Reverend drove away in a sleek and luxurious Cadillac. Here in Allentown there is a congregation that is spending thousands of dollars to beautify their church with ecclesiastical art of the first rate. Now I ask how can Christians condone such lavish ostentation when there is the slightest bit of poverty, suffering, and starvation in the world? How can they reconcile these two situations with their creed? I challenge anyone to give a sane and justifiable explanation. I do hope that anyone who does attempt to reply to the challenge does not take recourse to the favorite scapegoat—"let's be realistic" for God and morality aren't realistic; they're only manifestations of humanity.

# Students Speak--Letters To The Editor

(Continued from Page Two)

end I have been the recipient of such delightful adjectives as "distorted," "contorted," "degrading," and, as I understand, numerous unprintables that reek with surliness. All of this is as amusing as it is fallacious. Strange that no gallant St. George has sallied forth to rescue the ladies fair and accost the horrid dragon!

Ireconcilably yours,
Chuck Trexler

## Campus Cleanup

To the Editor:

I think, since we are all so proud of our beautiful campus, especially in the spring, that some sustained effort should be made on our part to keep the plot of land between East and Martin Luther halls in a more presentable condition. The quadrangle, not to mention the outer areas, is presently a filthy hole, a large rubbish heap, the resting place of all sorts of junk tossed there out of the windows by careless students. The ground around West Hall, boys, though not spotless, is one hundred per cent cleaner.

I should like to make two suggestions to help remedy this situation in addition to appealing to our common sense of decency, if I am not too presumptuous in doing so. I think that the fraternities could do the school a great service by subjecting their pledges to a general campus clean-up campaign—with toothpicks and toothbrushes, if necessary. I realize, of course, that the fraternities are in no way to blame for this mess, but this way could accomplish something constructive for themselves and for the school. I should also like to suggest that freshmen, sent before the tribunal, instead of being forced to endure all sorts of nonsensical and ridiculous sentences, be given a section of ground to keep free of trash for a week, or some such similar plan.

(Signed) Robin R. Schlunk

## Let's Clarify

To the Editor:

Mr. Richard Kaufman's praise of the Muhlenberg college band was well expressed, and I might add that most students probably feel the same way about the fine improvement in the band since Mr. Meyers' coming to Berg.

However, I would like Mr. Kaufman to make a public explanation of the following sentence, which appeared as an unthoughtful, poorly worded conclusion to an otherwise fine letter:

"Not taking away any credit from the fine choir at Muhlenberg, but I feel that the Muhlberg college band, under Mr. Meyers' direction will rise to greater heights than the choir if conditions permit.'

(signed) Edward C. Meyer, Jr.

## Volume Control

To the Editor:

Although the juke-box in the Student center has been a point of contention among the students, nothing has been done concerning it. This letter is a plea for calm action among all concerned.

It would be foolish to debate the relative merits of Rock 'n Roll, "Igor", Stan Kenton and progressive jazz, or Perry Como and "pop tunes." However, it has long been apparent that some kind of compromise is imperative for the badly frayed nerves of all who frequent the Student center.

I, as an individual, do not intend to radically plead for the exclusion **of any particular type of music or entertainment;** what I do not like, I need not listen to. Liberty means, among other things, the right to prefer a particular way of life, music, included. Liberty **implies** good taste and judgment in the making of that choice. It is not for any one individual to deplore or condemn another's choice, **regardless** of personal taste. If some of us do not exhibit this choice, it is the fault of our society and our education, within as well as without the formal classroom, **not** the fault of our concept of liberty. Good taste cannot be legislated or regulated by rules, either anarchial or representational.

Is there another solution for this problem? Compromise, of course, is a possibility. Like all commonsense solutions, it is simple. To successfully co-exist within our society, we must have the ability to compromise, to "give and take."

I offer this suggestion in all sincerity: Can we have a fixed volume control on our juke box? If we can, we will finally have an end to some of the ludicrous spectacles which one can see daily in the Student center. (Spectacles in which one advocate of Rock 'n Roll stalks to the corner of the center, deposits a coin, picks his song and then turns up the volume full blast, thinking that, if he can't win his case with coherent words and arguments, he will win it with pure, unadulterated, hideously screaming noise! Only to be followed, of course, by the Kenton Purist, who immediately turns it down. Then follows the inevitable arguments, complete with recriminations, verbal abuse, and insults, which increase to the pitch where they out-scream screaming Elvis or Cocaphonous Kenton!)

Can we have rational thinking and a sensible solution, and each continue to enjoy the music he likes best? Yes. By the simple device of adjusting the volume control switch at a reasonable pitch **and leaving it there!** How about it, students? What do you say, Student council?

A long-suffering music lover
Fred Smith

## 'Round Campus

**Friday, March 7th**

**Spring Honors convocation will be held in the chapel at 11 a.m.**

The Class of 1960 will convene in the Science auditorium at 3:15.

**Saturday, March 8th**

**The Muhlenberg-Bucknell basketball game will be played at Bucknell.**

**Monday, March 10th**

Institute of Faith will present address "He Made Us" by Dr. Stendahl in the chapel at 11:00.

**The Pre-Theo club will meet at 7:30 p.m.**

**Tuesday, March 11th**

Speech "He Saved Us" will be given by Dr. Stendahl in the chapel at 11 a.m.

**Wednesday, March 12th**

**Student council elections will be held from 9 a.m. to 4 p.m.**

Dr. Stendahl will speak on "He Inspires IJs" in the chapel at 11 a.m.

# SPORTSCOPE

by Bob Nuss

According to Mr. Flamish and Mr. Kozlowski, there is a definite possibility that there will be an intramural track program initiated this spring. The plans are still indefinite but there is a definite thought in this direction. This sport would be added to the list of present intramural sports and points toward the intramural championship would be gained from this event. Teams would be asked to enter this competition and the event would take place on one day with all the teams participating. There would be no difficulty as to the problems of scheduling and time since only one day be required for the entire schedule. All the events of a regular track meet would be included in the competition with the exception of the hurdles, pole vault, javelin, and two-mile run. Not only would this add another sport to the intramural program but it would also be a definite spectator event as well. Furthermore, it might stimulate more interest toward intercollegiate track, a sport that has been neglected by the students long enough.

We feel that this could be a great addition to the sports scene here at Muhlenberg. Organizations entering teams would have to get their men in shape for this event. There would be both a team effort and also individual glory present in events of this nature. Furthermore, with this many events to participate in, the amount of men involved would be greater and more people would receive an opportunity to participate, one of the purposes of the intramural program. Therefore, as a student, think about this idea and see how it might benefit you as an individual and as a member of a group. It wouldn't be easy but it would be worthwhile.

* * *

Spring sports will soon begin their respective seasons. Already calls have been issued for candidates to report for various sports. Spring sports teams are composed of men who for the most part do not receive a scholarship for their participation. These men play the respective sports for the joy of it. Therefore, let's, as students, do our part also, and support them.

# I-M Corner

by Jack Coughlin

With the Intramural leagne drawing to a close the action has been picking up in the past week. Sigma Phi Epsilon downed G-hall by a score of 46-25. Ralph Harmson and Tom Schaeffer shared the scoring honors for Sig Ep with 12 points each. Granahan contributed 11 more with his five field goals and one foul. High man for the G-Hall quintet was Don Olsen with 7 points. Half-time score read 24-10 in favor of Sig Ep. Behind the scoring of Dick Wallitsch the Commuters rolled up another victory over the Catahamptons. Wallitsch picked up 14 points for the winners and Karo collected 9 for the losing Catahamptons. Half time score was 24-13.

The Mules went down in defeat to the Schmekials by a score of 46-27. Joel Moskowitz led the scoring for the Schmekials with 10 points. Roy Spangler and Paul Whitcraft followed up with 9 and 8 points respectively. High man for the Mules was Mike Bertolet with 9 points. The Vets won a low scoring contest over the Roonies by a score of 22-17. Harry Beidleman once again led the Vets to their victory with 9 points. John Peoples was the leader for the Roonies with 7 points.

**Lambda Chi Wins**

Mike Woolley and Bob Heiter teamed up to give Lambda Chi Alpha the edge over Phi Epsilon Pi. The final score was 29-23. Woolley picked up 9 points and Heiter contributed 7 more. High man for the Pep Boys was Gil Sopher with 7 points. The Commuters took advantage of the Warriors by a score of 55-14. Pat Wilson was the leading scorer for the game with 20 points. Dick Wallitsch and Dick Sterner helped out with the scoring chores when they connected for 11 and 15 points respectively. Hahn and Glocker gave the Warriors some hope as they led the scoring. Hahn dropped in 16 and Glocker hit for 15 in the losing cause.

In a runaway game the Bell Boys trimmed the Pep Boys "B" team by a score of 74-23. Serges Salivonchik was high man for the Bell Boys with his total of 24 points. Frank Czasar contributed 18 and Freddy March hit for 16 to round out the leading scorers for the Bell Boys. Dick Fine led the Pep Boys with his 12 points. In another steam-roller game the Phi Epsilon Pi quintet rolled over Alpha Tau Omega "B" 52-14. Arnie Markoe was high man for the Pep Boys with 10 points with the rest of the team sharing most of the scoring. Dave Auerback and Frank Claire contributed 9 points each. Hitting for 4 points, Tuck Carpenter was high man for the ATO "B" team.

**Two Thrillers**

The last two games of the week saw two real thrillers, one game was won by one point and the other went into overtime. The Tri Staters took the close one over

# Wild Cats Overcome Early Lead To Trounce Muhlenberg, 81-73

by Don Poppe

Last evening Muhlenberg traveled to the Penn Palestra in Philadelphia where they met a tall and experienced Villanova college five coached by Al Severance. After trailing throughout the latter part of the first half, the Mainliners bounced back to regain the lead at 40-39 in the opening minutes of the second half, and went on to win handily, 81-73.

Villanova scored first as senior Jack Kelly grabbed the tap in the early seconds of play and proceeded to score on a jump shot for a 2-0 wildcat lead. Berg rebounded quickly, and with 12 minutes and 58 seconds remaining in the half, pulled within three, 14-11. Two minutes later the Bergmen notted the score at 16-16 on Dick Sekunda's jump shot, and then went ahead as Bill Dissinger and Dick MacLaughlin scored for a 22-16 Mule advantage.

**Half-time Lead**

Muhlenberg continued to hold this lead, and with a little better than two minutes remaining in the half, boosted their lead to nine, 36-27. The half ended with coach Crum's five comfortably ahead, 37-33.

In the first half Villanova hit on 12 of 41 shots from the floor, as compared with Berg's 15 for 37. From the foul line the Wildcats converted on 9 of 12, while the Mules were able to connect on only 7 of 16. In addition, Villanova out-rebounded their opponents, 24-16.

**Wildcats Go Ahead**

Shortly after the second half began, the mainliners went ahead on sophomore George Raveling's layup and foul shot, 40-39. Seconds later, starters George Emma, Joe Ryan, and John Scott scored six straight points to give coach Severance's squad a 46-39 lead.

At this point senior Clint Jeffries, who saw limited action in the first half because of three personals, and sophomore Don Robins entered the game for the Mules. Sekunda then proceeded to notch six straight points to bring the Bergmen within four, and Joe Berghold's layup and foul whittled Villanova's advantage to one, 52-51.

**Tie Score**

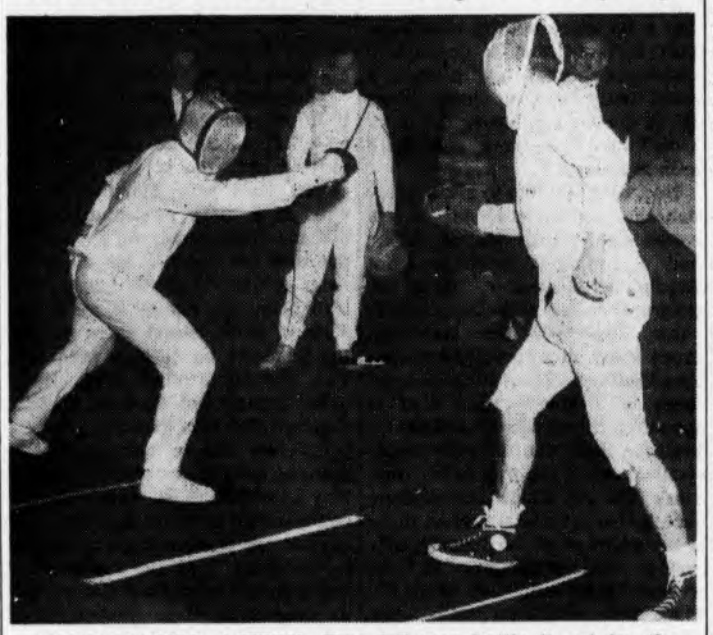
With about nine minutes remaining in the game, the lead changed hands several times until Don Robins' tap-in again tied the score at 55-55. Kenny Harrison's set broke the deadlock, and from here, with about six minutes remaining, the Wildcats were never headed.

Berg pulled to within two, 69-67, on Kessler's jumper, but Kelly and Emma bucketed two quick baskets for a commanding six point lead with about a minute and a half remaining. Villanova then began a freeze that forced the Mules to come out. In so doing, numerous fouls commited by the Bergmen were converted with amazing accuracy by the Philadelphians in the last few minutes.

**Eleventh Loss**

For the Cardinal and Gray this loss was their eleventh against 12 victories, and their eleventh setback in the Villanova series. For the Wildcats, now 12 and 9 on the season, this was their fifteenth victory in the series with Berg dating back to 1922. Last year the Mules were defeated in another squeaker, 71-67.

# Berg Fencers Finish Last As Stevens Institute Cops Trophy



**CHAMPIONSHIP ACTION—Two foil men battle it out for the coveted first place trophy in the recent Middle Atlantic Championship Fencing matches held in Memorial hall.**

by Carl Shellenberger

This past Saturday, March first, Stevens Institute pulled a minor upset in the seventh annual Middle Atlantic Conference fencing championships held at Muhlenberg's Memorial hall. Led by All-American foil star Nick Mestanas, Stevens accumulated forty-nine points to beat out Temple university by thirteen points for the title. Pre-tourney favorite Johns Hopkins placed third with thirty-five points. Defending champion Lehigh was fourth with thirty-two, followed by Haverford with thirty, and Muhlenberg with sixteen points.

Mestanas and teammate Bill Scheffer wound up in a tie with 10-1 marks for the individaul foil championship, but Mestanas won the playoff, 5-4. Bill Weiss of Johns Hopkins was third with a 7-4 mark. Muhlenberg's foil team of Linnett and Moyer picked up three points in this division.

**Epee Win**

Stevens also took the first two positions in the epee division. Actually, however, there was a four-way tie for the second spot. In the playoff, Steven's Ira Chapman won out with Lehigh's Dave Wismed taking third. Muhlenberg's Steve Fuchs and Johns Hopkins' John Benaglia were eliminated in this playoff. Fuchs, however, had the distinction of handing champion Pia one of his two losses. Berg's Reggie Byrne lost to Pia 5-3, Chapman 5-3 and Wismed 5-3 in this division.

Temple's Fred Scharfstein took individual honors in the saber with a 9-2 record. Second and third went to Ed Schauffler and Don Nesslack, both of Lehigh, Muhlenberg's Saber team of Merz and Michaels garnered five points in this division.

**Erskine Bout Chairman**

Dr. Andrew Erskine, Muhlenberg coach, was bout chairman. Among the distinguished officials were Olympic Saber Alternate James Otto of the University of Pennsylvania; Alan Mitofsky, All-American Epee, also from Penn, and Karlis Sturms, from Latvia.

Approximately two hundred spectators saw the competition delayed several times. These delays were due to failure of electrical equiment in the epee bouts and failure of some teams to properly inspect their weapons before use. In several matches blades were broken and could have resulted in fatal injury, if the bouts were not stopped immediately, due to the jagged edge remaining on the weapon.

Next year's championship will be held at Stevens Institute, in Hoboken, New Jersey. By this time Muhlenberg's predominately sophomore team will have gained another year of valuable experience and should make a better showing than they did this year.

Final team standings in each weapon:

| Foil | Points |
|---|---|
| Stevens | 20 |
| Temple | 13 |
| Johns Hopkins | 12 |
| Haverford | 11 |
| Lehigh | 7 |
| Muhlenberg | 3 |

| Epee | Points |
|---|---|
| Stevens | 16 |
| Johns Hopkins | 13 |
| Lehigh | 10 |
| Haverford | 9 |
| Temple | 9 |
| Muhlenberg | 8 |

| Saber | Points |
|---|---|
| Lehigh | 15 |
| Temple | 14 |
| Stevens | 13 |
| Johns Hopkins | 10 |
| Haverford | 10 |
| Muhlenberg | 5 |

## Baseball Candidates

**All students interested in playing varsity baseball will report to Memorial Hall at 4:30 on Friday, March 7.**

## Intramural All-Star Team

**First and second all-intramural basketball teams will be chosen this year. All votes must be in by Tuesday, March 11. Each team will select a 1st and 2nd all opponent team and final selections will be made from this. These selections should be handed to the WEEKLY sports editor, Bob Nuss, or Jack Coughlin at the ATO house.**

# Wrestlers Finish Third In M. A. Championships

by Bill Wightman

The Muhlenberg grapplers were successful in capturing third place at the MASCAC tournament at Wilkes college this past week-end. Wilkes, last year's winner, retained its championship with 74 points to West Chester's 46 and Muhlenberg's 31.

It was the superior wrestling of heavyweight Jerry Rehrig that gave the Mules third place. Rehrig became the heavyweight champ by decisioning Charles Bartolet of Moravian in the finals, 4-3. Bartolet had defeated Rehrig in the regular meet during the season. His win gave Muhlenberg ten points, thus providing the margin needed for third place. On the road to victory, Jerry decisioned the two heaviest men in the heavyweight division, Nielson of Ursinus and Barnard of Hofstra. Both had a definite weight advantage over Rehrig, but he took Nielson in hand, 2-0, and Barnard, 3-1. In winning the heavyweight title Rehrig showed his best form of the season, and his ability to control his opponents meant the difference.

**Simpson Dethroned**

One of the upsets of the tournament was when Don Simpson, at 147 and last year's champ, was pinned by Dick Pike of Lafayette in the Semi-Finals. Simpson came back to take third place by decisioning Joe Morgan of Wilkes 5-2 in the Final Consolations. Other Mule wrestlers to place were Pierce Knauss at 123 who took fourth on a pin and a decision. He lost to Mike Schultz of West Chester, 6-3, in the Final Consolation. Roger Keehn also gained a fourth place by losing to Jack Martin, PMC's 177-pounder, by a 6-2 score.

The Mule wrestlers had bad breaks throughout the tournament. One occurred when Dick King was pinned by Schuman of Hofstra in the Quarter-finals. The score had ben tied at the end of the regular match and Schuman trapped King in the first period of the overtime to end it. Previously undefeated Jim Waller also lost a close 5-4 decision to Bill of Bucknell in another overtime.

**Wilkes Dominates**

Wilkes seemed to dominate the tournament by taking three first places and two seconds. Bob Morgan at 123, Jim Ward at 137, and Dave Thomas at 157 all took titles while Marv Antinnes, 167 and Walt Glogowski at 177 were runners-up. But despite this fact the award for the outstanding wrestler went to Ken Campbell of West Chester who pinned Glogowski in 3:54 of the final match. Campbell gained 15 points in the two-day tournament.

The tournament itself was a very tough one and the Muhlenberg team can be justly proud of the achievements gained there.

# Basketball Team Wins Twelfth Contest As Hofstra Falls To The Mules, 69-66

The Muhlenberg cagers traveled to Hempstead, Long Island last Saturday night, where they nailed their twelfth win of the current campaign, 69-66, over Hofstra college. Two free throws by Dick MacLaughlin with ten seconds remaining to be played, gave the Mules the victory.

It was a tough win to get for the Mules, as twice during the second half, the Flying Dutchmen took advantage of some rather dubious foul calls against Muhlenberg to whittle the Mules' lead down from seven to one point. The Dutchmen converted on 36 of 45 free throws to Muhlenberg's 27 of 38. However, the Cardinal and Gray held the edge in field goals, 21-15.

**Leading Scorers**

The game's leading scorer was Hofstra's Phil Rathje with 29 tallies on seven goals and 15 of 18 charity tosses. Clint Jeffries paced the Mules, scoring 20 points before fouling out in the closing minutes of the game. Dick Sekunda and Mel Kessler also hit double figures for the Bergmen with 14 and 13 respectively. Ray Cunnean tallied 11 for the home forces.

The contest was close all the way. Hofstra took an early lead, but the Mules fought back to tie it at 14-14. From there on it was a tight scoring duel with the lead changing hands four times, before the Mules moved ahead by three, 36-33, at the half.

**Free Throws Help**

In the second half, Jeffries paced his teammates to a seven point spread, 48-41. It looked as if the Mules would have no more trouble in walking away with the win. However, the white-shirted hosts took advantage of a multitude of free throw opportunities to move within one point of the lead, 65-64. Don Robins sank two free throws to put the Mules out in

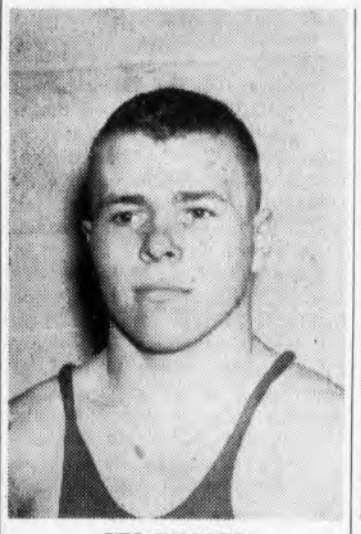
## Juniors Lead Matmen To Third Place Finish

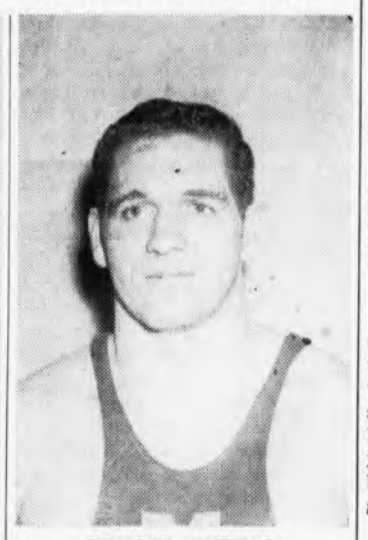


JIM WALLER

Jim Waller, who is from Somerville, N. J., has finished his second year of Intercollegiate wrestling. This year, wrestling at 147 lbs., he won 9 and tied 2 in dual meet competition.

In high school he participated in football and wrestling. A junior at Muhlenberg this year, Jim is a member of ATO fraternity, ICG, Phi Sigma Iota, MCA, and the Business and Economics club. He also participated in soccer for one year and has been a member of Tribunal for the last two years.

Jim is an Economics major and plans to attend graduate school after completing his four years at Berg. Last year he wrestled in the 137 lb. class, winning 5 and losing only one. Waller has one loss in dual meet competition in his collegiate wrestling career.



GERALD REHRIG

The Middle Atlantic heavyweight wrestling champion this year is Gerald Rehrig. A junior at Muhlenberg, he has just completed his second season of Intercollegiate wrestling, winning 10 and losing one.

From Bowmanstown, Pa., Jerry attended Palmerton high school where he participated in football and track. At Berg he is a letter winner in football, playing tackle and fullback, and also participates in track. He is also an active member of the M-club.

Although never wrestling before coming to Berg, he has proven himself as one to be contended with again next year. His only loss was to Bartolet of Moravian, but he gained sweet revenge in the Middle Atlantics by beating him in the championship match.

# Courtmen End Season With Bucknell Bisons

Muhlenberg's basketball season draws to a close this Saturday as the Mules journey to Lewisburg to encounter Bucknell in the season's finale for both squads. The Bisons are striving to equal last year's mark of 16-8 as they now boast a 14 and 8 record with two games to go.

Bucknell's starting array consists of four juniors and one sophomore. Heading the list is 6' 6" Hal Danzig, a 230-pounder from Rochester, N. Y. Danzig is averaging seventeen points a game and has hauled down close to 350 rebounds to lead his team in both departments. Co-Captain Ellis Harley, 6' 3" junior from Clearfield, Pa., who is averaging close to 14 points per contest, possesses a deadly one hander and is an equally good driver. Additional scoring punch is supplied by Jack Flanegan also averaging 14 points a game, hitting mainly on drive-in shots. Pairing up with Danzig under the backboard will be 6' 6" Bob Erickson, a native of Westfield, N. J. Erickson possesses a fine jump shot and is a fairly good rebounder. Rounding out the starting five is sophomore playmaker Tommy Thompson, an ac-

(Continued on Page Six)

# Spring Practice Begun For Football Players

by Bob Nuss

Spring practice for the 1958 edition of the football team opened on Monday afternoon, March 3 when 52 men checked out equipment. The footballers will undergo 17 days of practice. According to Ray Whispell, head football coach, the reason for spring practice is to "indoctrinate most of the lesser experienced people in regard to Muhlenberg's football system and basic fundamentals of the sport."

During the first few days of practice series of tests are being run to determine the needs of the squad in regard to speed, strength and agility. One of these tests is rope climbing which also serves to build up the muscles of the pectoral girdle and give football players the needed arm strength.

**Contact Work**

On Tuesday pads were given out to the players and they went out-of-doors for the first time. Backfield coach Flamish expected the men to have contact work by Thursday or Friday.

Coach Whispell feels that the esprit de corps is most important whether it be student spirit or the spirit of the football players. If the spirit of the players compares to the spirit exhibited during last year's spring practice Coach Whispell will be more than pleased. Hower he does feel that "the esprit de corps of the entire campus is important to any athletic team. This includes everyone on campus. This team is a Muhlenberg team and as such deserves the support of the students."

**Player Losses**

Several good experienced men have been lost to the team through various reasons. Academic difficulties, decisions to quit football

# Dr. Krister Stendahl To Speak At Institute Of Faith Program

(Continued from Page One)

At 7 p.m. on each of the three days, seminars will be held. All students and faculty members are cordially invited to attend these discussions. Invitations have also been extended to Cedar Crest and Moravian colleges and Lehigh university, as well as to the Allentown and Sacred Heart nurses

On Monday evening Pastor Doan will be in the West hall Commuter's lounge. Pastor Lund will be at the Sigma Phi Epsilon fraternity house, and Pastor Ruths at Alpha Tau Omega. On Tuesday evening, Pastor Lund will lead the discussion in the West Hall Commuter's lounge, Pastor Ruths will be at Phi Kappa Tau and Pastor Doan at Lambda Chi Alpha. On Wednesday evening Dr. Stendahl will be at the Alpha Tau Omega fraternity house.

**Monday's Discussion**

In the Monday discussion of "He made us," Dr. Stendahl will emphasize the words "He" and "us." This is to say that we did not make Him, or He is not a manifestation of the ideas of any religious culture. Dr. Stendahl feels that the Christian faith begins with God and not our belief in Him. Secondly, in his discussion, he will include what it means that God has created us, together with His whole creation. The implications of this can be carried into our everyday lives, our jobs, and avocations. He also wishes to discuss the place of literature, art, and culture within the life of a Christian, a matter of great concern on every good college campus. Dr. Stendahl will attempt to coordinate this falling world with those who talk of the complete beauty of it. This will lead him into his second address.

"He Saved Us," the second chapel message, will be a presentation of Jesus Christ as the Saviour. This will include the significance of Christ's death for us. The question of "From What did He save us" will be presented, along with emphasizing the problem of guilt, which so many pastors overlook.

**"He Inspires Us"**

Lastly, on Wednesday, Dr. Stendahl will lecture on "He Inspires Us." Christian life is more than forgiveness, it is a rich and inspired life. This inspiration, feels Dr. Stendahl, can be indicated by the parallel feature of the inspiration of an artist, who does not just sit around waiting for inspiration to come, but finds it comes in the midst of hard work. He would then like to picture two types of Christianity. The one that consists more of a fear of being wrong than of an attitude where you are anxious to do something creative.

A schedule for the 11:30 to 3:15 classes for March 10 through the 12 during the Institute of Faith is as follows: 11:30 classes will meet from 12:00 to 12:40; 1:15 classes will be held at 1:30 to 2:10; 2:15 classes are to meet from 2:20 to 3:10; and 3:15 classes, 3:20 to 4:10.

# Swarthmore To Hold Spring Folk Festival

Swarthmore college is holding its annual Spring Folk festival for 1958, from April 18 to 20. In the tradition of the festival, the program will include a square dance on Friday evening, folk tale exchange on Saturday morning, folk dancing and singing on Saturday afternoon, a square dance Saturday night called by Richard Kraus, and a concert by Odetta Sunday afternoon.

Muhlenberg students are cordially invited to attend the three-day celebration, but due to the limited facilities, advance registration and payment will be required, and reservations will be sent out on a first come, first serve basis. All money received after the quotas for each event have been filled, will be returned.

Meals will be available in the College Dining room for those who want them. If you wish to spend the night on campus, arrangements must be made in advance through the Folk Festival Housing committee.

# Pre-Meds Hear Heart Chairman

On Wednesday evening, March 5, Dr. Herbert Hyman, a specialist in internal medicine and Gastro Enterology, who arranged a program offered to the public by the Lehigh Valley Heart association a few weeks ago, in conjunction with Muhlenberg's pre-medical society, spoke on the physiology of stress. Dr. Hyman is chairman of education for the Lehigh Valley Heart association.

The annual Lehigh Valley pre-medical banquet will take place on March 14 at Lafayette college. The guest speaker for the evening will be Dean Vernon Lippard, of the Yale University School of Medicine. Tickets for this event may be purchased from Miss Kuntz in the Biology office before the aforementioned date.

# . . . Student Council Report . . .

February 27, 1958

The regular meeting of the Muhlenberg college Student council was called to order at 7:10 p.m. by President Luis Torres. Mr. Vari was absent.

**COMMITTEE REPORTS:—**

**IFC:**—Mr. Torres announced that the IFC had held its trial and has found the fraternity house involved in disciplinary accusations to be innocent of the charge. There was no Old Business.

**NEW BUSINESS:—**

Mr. Kistler presented the petition of the Class of 1961. It read as follows:—

"We the undersigned, would appreciate an explanation and if possible, a reconsideration of the Administration's new ruling concerning student cars on campus as stated in the new annual bulletin—'No freshman or sophomore resident student may have a car on campus.'"

The petition was signed by 99 Freshmen. On motion by Mr. Gurski and Mr. Spector, the Student council accepts the petition. On motion by Mr. Ueberroth and Mr. Leighton, the Student council recommends to the Administration that they look into the possibility of revising the statement and allowing sophomores to have cars.

The meeting was adjourned at 8:00 p.m. on motion by Mr. Piston and Mr. Spector.

Respectfully submitted,
RAY UEBERROTH, Recording Secretary

# Hofstra Bows

(Continued from Page Five)

front by three, 67-64, but seconds later Henry Schwab found the mark on a tap in to make, 67-66. It was then that MacLaughlin came through with his game-winning free throws.

In the preliminary game, the Hofstra freshmen sank 26 out 32 free throws to defeat the Muhlenberg yearlings, 78-73, despite 32 points for Al Filardi. The Little Mules outshot their hosts from the floor, 29-26, but hit on only 15 of 21 shots from the foul line.

# Spring Practice

(Continued from Page Five)

and other reasons to forego the sport have all taken their toll. All the positions on the team are wide open and at least 5 or 6 sophomores will be counted on to give sterling performances. There are more experienced men on this year's team but their amount of experience is less than that of their predecessors.

Coach Whispell intends to use the slot offense with variations as his offensive system. This will present a more wide open game of football to fans, and make for better spectator enjoyment.

Spring practice will be terminated with an intersquad game on March 22 at 2 p.m. At this time all Berg students will be given a preview of the 1958 football team.

# New Pledges

(Continued from Page One)

tin Renshaw, and Luther Rife.

The Tau Kappa Epsilon fraternity, with the largest pledge class, received the following men: Carl Alexy, Irving Chasen, Jan Feldman, Richard Horn, Richard Kirschenbaum, John Kramer, Sheldon Meltzer, Robert Miller, Elliot Puritz, Thomas Reinsel, Leon Silverman, Allan Swiecicki, and Wilford Weber.

Officially the rushing season has closed. Most fraternities, however will continue to invite those men who didn't get their averages, to certain fraternity functions.

# Mules Meet Bisons

(Continued from Page Five)

curate passer and a slick ball-handler.

Top reserves include senior John Strizzi, 5' 9" ballhawk from Farrell, Pa., who will see considerable action. Co-captain Skip Wieder, 6' 3" senior from Plainfield, N. J., and playmaker Bob Salankiewicz conclude the main subs.

The Bisons are coached by Ben Kribbs, who is in his fourth year at the helm. Last year the Orange and Blue upset Berg by a 74-68 margin. Riding on the crest of a five game winning streak, recent victims of the Bisons include Lafayette and Lehigh by scores of 67 to 57 and 72-60 respectively.

**TRACK NOTICE**

**All students interested in track, varisty and freshmen, will report to Memorial hall on March 17 at 3:30 p.m. for a short meeting. All freshmen are encouraged to attend this meeting.**

the Rinky Dinks by a score of 34-33. Bob Yost led the scoring for the victorious Tri Staters with 14 points. Bill Higgins dropped in 8 points that helped the Tri Staters on their way. Scoring honors for the Rinky Dinks were shared by Dick Holben and Jim Balliet with 19 and 8 points respectively. In the overtime game the Canucks edged out the Tau Kappa Epsilon quintet by a score of 44-42. The combination of Renshaw and Russo teamed up to spell defeat for TKE Renshaw collected 22 points and Russo added 15 more with seven field goals and one from the free throw line. Herb Siegle and Bob Cardonsky provided the scoring power in the losing cause of the Tekes. Herb collected 15 points and Bob dropped in 14.

**EDUCATION SOCIETY**

**There will be a meeting of the Education society, for the nomination of next year's officers, on Thursday, March 6, at 9 p.m. in the Student center.**

# The Chowline

Well gang, this time we have a new schedule of hours to announce. The Commons will be closed on Saturdays and Sundays until further hours are announced. The Snack bar will be open on Saturdays and Sundays from 8:30 a.m. to 5:30 p.m. As in the past few weeks, the Snack bar will remain open on Friday evening from 7:30 to 10:30 p.m. Under the capable hands of Willie Bloss and Clint Barlow, the Snack bar will be glad to have you aboard.

With these new weekend hours for the Snack bar, new treats and delights will be made available to the masses. Watch for the announcement of our new "weekend specials." We're sure you'll enjoy them.

After the Bucknell encounter we can finally determine how many free cups of coffee will be given away. As you all know, "Pops" Eberhart is going to match Clint Jeffries with a free coffee per point that Jeffries has over one thousand. Be sure and read the Chowline next week for the final count of free Javas. The date of distribution is to be announced after consultation with Haps Benfer.

See you around.

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 First Class Muhlenberg College, Allentown, Pa., March 13, 1958 A. C. P. Rating No. 19

## Noted Chess Master To Visit Muhlenberg

Muhlenberg's Chess club announced today that the well known United States Chess champion and international favorite, Samuel Reshevsky, will appear at Muhlenberg on Monday, March 17, at 7 p.m. in the College commons. Mr. Reshevsky will begin with a lecture concerning basic chess strategy employing the use of a special demonstration board being sent from Philadelphia especially for this occasion.

Samuel Reshevsky

This will be followed by a simultaneuos match in which Reshevsky will engage approximately 30 competitors from nearby colleges and chess clubs. Among the competitors are Lehigh, Moravian, Cedar Crest, Lafayette, Western Electric, Allentown Public Schools, and the Allentown Chess club.

**Early Life**

Mr. Reshevsky was born in Ozorkow, Poland, on November 26, 1911. At the age of five, he learned to play chess, while watching his father play. When he arrived in the United States, he astonished the chess world by defeating some of the most talented players in set matches and in simultaneous play.

In 1924, Reshevsky retired from the chess arena for school. He emerged in 1934 at Syracuse, New York, where he copped premier honors in a field which included all the top flight players of this country.

Margate, England, in 1935 was his first international success. There he won first prize, ahead of the invincible Capablanca. Reshevsky won the individual encounter, and earned the title of Grandmaster.

**First Championship**

Reshevsky added to his laurels by winning the first United States Championship tournament in 1936. Since then, he has repeated this biennial event, for a grand total of five victories.

In international tournaments, Reshevsky has been one of the leaders, finishing among the first there. In 1952 and 1953 he beat Najdorf in two matches for the World Championship of the West. His great ambition is to bring the

(Continued on Page Six)

## Placement Directory Offered To Students

To answer the needs of teachers, college students and professors, The Advancement and Placement Institute announces publication of their completely new and expanded 1958 World-Wide SUMMER PLACEMENT DIRECTORY. The Directory is prepared as an aid to those who wish new ideas and ways to earn while they vacation.

The new Directory gives descriptions of the type of work available, salary ranges, names and addresses of employers requesting summer employees. Included are governmental positions, steamship needs, dude ranches, travel tour agencies abroad, work campus, service projects, earning free trips to Europe, national parks, summer campus, theatres and resorts,

Copies may be ordered from the Institute at Box 99G, Greenpoint Station, Brooklyn 22, N. Y. for $2.00 a copy.

## Jazz Group Organized On Campus

At a meeting held on Monday March 3rd, it was decided to reorganize the College dance band, the Muhlenberg collegians, into a modern jazz octette. The group will be composed of eight musicians especially skilled in contemporary progressive jazz. Ron Porotsky, Charles Seivard, Fred Smith, Tony Verzino, Don Ort, Paul Reinhard, and Ed Snyder, compose this new group which is led by Bill Stamm.

The octette will have the sounds of two trumpets, three trombones, two flutes, tenor and baritone saxophones, slide trombone, mellophone, and bassoon with a solid piano, bass and drums rhythm section. By combining this assortment of instruments in different ways, there will be an endless variety of tonal colors and effects. All the selections will be special arrangements which will add a professional touch to the group.

**Original Band**

The original Muhlenberg collegians was founded in 1955 and two successful years performing at various functions. Among these performances were a dance at Memorial hall, a charity dance for the local cancer fund at the Frolics ballroom, and a jazz concert at West park. The 1956-57 organization received offers to play at Philadelphia's largest hotel, and Atlantic City's new Garden Pier desired the band to give an open air concert in the summer. The Collegians also made a 33⅓ long-playing high-fidelity album on their first public performance.

## Concert To Be Held In Memorial Chapel

This Sunday the fourth concert in the Muhlenberg college Concert series will be presented at 4 p.m. in the Chapel by the Muhlenberg college choir under the direction of Ludwig Lenel. This is the first time that the College choir is presenting a concert by itself in the Concert series. Last year it collaborated with the choir of Sarah Lawrence college in a presentation of a Haydn Mass. It is also the first time that a full length program will be offered by the new mixed choir which was inaugurated last fall with the advent of coeducation.

**Main Work**

The main work on the program will be Gabriel Fauré's Requiem Mass. Five movements from this famous work by one of the most outstanding recent composers of France will be presented. Conrad W. Weiser will be the bass soloist. Another highlight will be he performance of Psalm 98 by Heinrich Schuetz, the great German 17th century composer, which is scored for double chorus of eight parts. A brass quartet, consisting of two trumpets and two trombones and played by William J. Stamm, Ronald T. Porotsky, David J. Wartluft, and Conrad W. Weiser will assist the choir. Another composition by a young contemporary American composer, Louie White, will feature trumpet and percussion, playey by David T. Faber and William C. Bergey. George A. Weckman, Jr. will be the organist in the accompanied compositions.

## WEEKLY Elections

**Election of officers for the Muhlenberg WEEKLY will be held on Tuesday, March 18, at 11:00 a.m. in the WEEKLY office. All members of the staff are asked to attend.**

**Karl Becker**

## New Student Council Elected By Eighty-three Percent Vote

Seven hundred and twenty students votedin yesterday's Student council elections and selected nine new members to the college's governing body. Represented on the 1958-1959 Student council will be the women of Muhlenberg college. This occurrence will break the precedence of 110 years of all male domination. Results of the election on Wednesday afternoon was released at 5 p.m. by Carl Shellenberger, chairman of the elections committee. Those elected were: David Bausch, Nino Carnevale, Paul Horger, Clair Miller, Donald Nase, Sue Schell, Herbert Siegel, Richard Truchses, and Spencer Tuchinsky. This is in alphabetical order, and is not to be confused with the number of ballots polled for each candidate.

**Allentown Native**

**Dave Bausch** is a native of Allentown, and is a Business administration student. He is a pledge of the Tau Kappa Epsilon fraternity, a member of the choir and the Veteran's club. **Nino Carneval** takes residence in Westfield New Jersey, and is a premedical student. He is actively engaged in football, wrestling, and the Lambda Chi Alpha fraternity. **Paul Horger** is a pre-law student, and is from Taylor. Paul's many activities include the Alpha Tau Omega fraternity, Phi Alpha Theta, Dormitory council, Alpha Kappa Alpha, and the **M Book** staff.

**Clair Miller** of the Lambda Chi Alpha fraternity, is an Education major, and is a resident of Allentown. He is also on the football and baseball teams. **Donald Nase** of Souderton is pursuing the premedical course, and is also a brother of the Alpha Tau Omega fraternity, the **WEEKLY** staff, Mermaid Tavern society, and the Premedical club. **Sue Schell** is a graduate of Linden Hall Junior college, and is an Allentonian. She is an English major and plans to teach upon graduation.

**Pre-law Student**

**Herb Siegel,** a brother of the Tau Kappa Epsilon fraternity, is a resident of Maplewood, New Jersey. He is a pre-law student and participates in Intramural sports. **Richard Truchses** of Carlisle, is a brother of the Phi Kappa Tau fraternity. He is also the editor of the **M Book** and a member of Omicron Kappa Delta, the national leadership fraternity. **Spencer Tuchinsky,** a native of Allentown is a Business administration student, and is also a brother of the Phi Epsilon Pi fraternity and a participant of the Mask and Dagger club.

## Eliot's 'Murder In The Cathedral' Features McConnell And Sanders

Jim McConnell

Mike Sanders

Dramatically enacted in the live surroundings of the chapel, "Murder in the Cathedral" will be presented by the Muhlenberg Christian association on March 20, 21 and 22. Curtain time for each performance will be at 8 p.m.

Appearing as the Archbishop Becket in this play written by T. S. Eliot are Al Jeffreys and Mike Sanders. Jeffreys portrays the uncertain Becket in the early part of the play. He is an efficient chancellor of King Henry II, and also a personal friend to the reigning monarch. Because of his faithful serivce and the personal favor of the king, Becket is made the Archbishop of Canterbury. From his new post he emerges as a leader of Church doctrine, which, he asserts, is not subject to the crown. This new aggressive Becket is played by Mike Sanders. Through a complicated but neatly worked out character manipulation, Becket (played by Jeffreys) will be tempted by the Fourth Tempter (Sanders). The Fourth Tempter, which is actually Becket's inner self, will successfully convince the Archbishop of the beauty of martyrdom. After the temptation, Becket realizes that evn if he is killed by the king, he will still remain a strong, unsilenced voice of the Church.

**Fourh Tempter**

Here the Fourth Tempter (Sanders) emerges from within Becket and becomes the new and uninhibited champion of the Church, ready to refute King Henry's claim of superiority over the faith.

Four knights, portrayed by Bill Stoppey, Morris Lenet, John Dreisbach, and Penn Chabrow, take it upon themselves to carry out an erratic command of Henry to execute Becket. This sacriligeous assault in the sanctuary of the cathedral makes Becket a martyr in the eyes of the people.

Supplementing the lead actors are three more Tempters of Becket. These are Simon Gribbon, Al Adams, and Dick Fisher. Herb Miley portrays a Heraud.

The chorus consists of Judy Wilkins and Van Sayer, both of Cedar Crest college, and Connie Sahlin of the Allentown hospital. Six other girls will back the chorus. In charge of lighting in Jim Grimm.

Al Jeffreys, who is active in the Civic Little Theater, was invited to play the part of Becket because of his experience with the role. He portrayed the Archishop in the first of there Muhlenberg presentations of "Murder in the Cathedral."

**Mike Sanders**

Mike Sanders, a junior English

(Continued on Page Six)

## Don Poppe Elected To ATO Presidency

Officers for the acedamic year of 1958-1959 were elected on Tuesday evening, March 11, for the Alpha Tau Omega fraternity. Ten offices were voted upon, with a result of seven juniors and three sophomores being elected.

Donald Poppe, class of '59 became the president elect, following afterward was Albert Stott, vice-president elect. Don takes residence in Fullerton, and is a graduate of Whitehall high school. As a student there, he was vice-president of the Student council. Presently, Don is engaged in activities such as the **WEEKLY** sports staff, Phi Sigma Iota, and Mermaid Tavern society. He will graduate from Muhlenberg with an A.B. in Romance languages.

**Al Stott**

Al Stott is a native of Philadelphia, and was graduated from Central high school. He is now a resident of Warminster township. While there, track and student government were his major extra curricular activities. Football, Pretheological club, and Eta Sigma Phi consume much of his time on the Muhlenberg campus. Al will graduate in the class of '60 with an A.B. in English.

Charles Smith, class of '59 was elected treasurer; secretary for next year is Ronald Choquette, class of '59; Richard Hess, class of '59, retained his office of chapter historian; house manager for the coming year, is Robert McQuilken; and Richard Sloan, class of '59, will remain as chapter sentinel.

**Fraternity Councilmen**

Representing the fraternity with the positions of senior and junior Interfraternity council elects are James Waller, class of '59, and Thomas Carpenter, class of 60, respectively. Filling the position of rushing chairman, is Richard Anderson, class of '60.

The new officers will assume their respective offices during the week following the Easter holidays. Outgoing officers this year are: Earl Knies, president; Kark Becker, treasurer; and Robert Nuss, secretary; and Don Nase, vice-president.

## Philadelphia Banker To Address Group

The monthly meeting of the Muhlenberg Business and Economics club will be held on Thursday, March 13. The meeting will be held in the Science auditorium at 7:30 p.m., and Mr. Clay J. Anderson of the Philadelphia Federal Reserve Bank will be the principle speaker.

Mr. Anderson will speak on international finance and money and banking. His background in this field makes him a well qualified speaker on these subjects. After receiving his B.S. and M.A. in Economics at the University of Missouri, he went on to the University of Michigan where he received his Ph.D. in Economics in 1941.

He served as a professor of Economics and Finance and also as acting dean at the Missouri State college before starting his work with the Federal Reserve System in 1945. Before taking over his present position, he served as adviser to the newly established Central Bank of Burma. Presently, Mr. Anderson is a financial economist and vice president of the Federal Bank of Philadelphia. He also serves as a lecturer in finance at the University of Pennsylvania.

## Noted Authority Robert A. Smith To Speak On New Asian Policy

Mr. Robert Aura Smith, one of the foremost authorities on the Far East, will speak at the Science auditorium on Wednesday, March 19, under the auspices of the Student council. Mr. Smith's topic will be "A New Policy for Asia."

Robert Aura Smith

As an editorial writer for the **New York Times,** specializing in the Far East and national defense, Mr. Smith has a job that keeps him at one of the great nerve centers of foreign news in the United States. As an expert, he brings a rich experience in the field with long years of first-hand knowledge and on-the-spot reporting.

He has recently returned from his second comprehensive survey trip through the Far East since the war, where his object was to talk to the chiefs of state and other leaders to find out what Asians were thinking about in their policies and ours. His most recent concerns have been the election in the Philippines, the implementations of the Southeast Asia Treaty organization and of the Bagdad Pact and the various moves that have been made to check the spread of Communism. He has seen at first hand the American efforts to be of assistance and visited dozens of projects in the field, both military and civilian. His findings bring color and background to what he has to say.

**Penetrating Analysis**

From these discussions and his own quarter of a century of study of the Far East he is bringing to American audiences a fresh fund of material and an even more penetrating analysis.

Mr. Smith graduated from Ohio Wesleyan university where he won the Ohio Rhodes scholarship. He returned to the United States with his Oxford degrees and started in as a teacher, but after a short time he found that journalism was his niche.

After four years on the **Cincin-**

(Continued on Page Six)

# Editorial Views——

On Monday evening a special committee of the freshman class conducted a poll to determine student opinion on the parking issue. Comments and results of the poll indicate the latest automobile regulation to be of vital interest to the members of the freshman class.

Three hundred and thirty-three students were queried, of which one hundred twenty-four were male members of the freshman class. Seventy-eight of the reported freshmen indicated they would be likely to have a car next year if the regulation permitted, while the remaining forty-six individuals answered negatively. These statistics offer an indication of the growing concern over the automobile regulation.

The **WEEKLY** will now endeavor to offer solutions to the parking problem, which would, if followed, lead to the ultimate revision of the infamous automobile regulation.

First of all, the situation would show some indication of being remedied if the Memorial hall parking lot were avail-

able for overnight parking. This lot is chained at 5:30 p.m. to prevent overnight parking. It is this denial which ultimately leads to a major concern in our "parking problem"—poor public relations. This ill feeling toward the College could partially be alleviated if resident students would be allowed to park their automobiles overnight in the restricted area. Although used extensively by commuting students, the Memorial hall lot has an estimated normal parking capacity of one hundred sixty cars, which would more than allow for a considerable reduction in the present overnight parking congestion. This policy could be put into effect by the administration, thereby reducing, to some extent, the present lack of physical facilities.

Our second consideration can readily be visualized in the vacant lot on the corner of Twenty-third and Gordon streets. Owned by the College, the land has not been definitely committed for any specific future use. If this area, extending

from Twenty-third to Leh street, received the proper attention, an estimated one hundred twenty cars would have adequate parking facilities. This development would also decrease parking difficulties for residents in East and Martin Luther halls, as well as for the pledges and brothers of Lambda Chi Alpha, Sigma Phi Epsilon, and Tau Kappa Epsilon social fraternities. This project would cost the institution an estimated six to eight thousands dollars, but the perennial dilemna would be permanently erased. This figure seems trivial in comparison with the vast expenditures connected with the recent extensive renovations completed by the College.

The third possible solution to the parking question draws our attention to the area adjacent to the Alpha Tau Omega fraternity house on Chew street: Now lying fallow, this area could be developed at a minimum cost to the College. Although presently available for student parking, the land is in poor condition and is frequently turned into a sea of mud and stagnant water. Although fine stone has been added,

the present condition of the lot is unsuitable for student parking.

In a poll of area institutions conducted in May, 1957, by H. Eugene Pierce, Superintendent of Buildings and Grounds at Albright college, Muhlenberg is rated as only being able to offer twenty-five per cent of the student body with adequate parking facilities. If any or all of the above mentioned proposals could be accepted and put into operation by the administration, the physical parking facilities would be adequate for the present enrollment. If these proposals are not approved by the administration, could not a merit system be established to allow the future sophomores in high scholastic standing the privilege of having a car on campus? Or are there still further proposals to be considered?

Once again the **WEEKLY** would like to call upon the administration and faculty to reopen and review this automobile regulation. Will such a reaction be forthcoming?

# Student Opinion--Letters To The Editor

### *Unjustified Action*

To the Editor:

Perhaps as students, we have no right to question decisions and actions administered by people in authority at Muhlenberg, but unfair action taken against our West hall housemother cannot go unnoticed.

It is difficult to understand how the term "general inefficiency" can be used as a scapegoat for removing a person from the Muhlenberg family when this person has become endeared not only to the female members of the college, but also to a great many of the male members.

Possibly, we as students are not worthy of an explanation of this unwarranted action that has taken place. We are only here as students seeking an education and have no right to interfere with administrative duties and actions. *But*, we do have freedom of speech and in our humble opinions this action must be condemned. We can not sit back and allow action such as this to pass by; it cannot be condoned!

It seems incredible to believe that *Men* sitting in administrative offices know what goes on in a women's dormitory and how they actually live. How these men can give notice of "general inefficiency" to a hard working, conscientious, housemother with ninety girls under her jurisdiction is hard to understand. Most regular mothers who only have charge of a few children have a few rough spots here and there, and the going is not always smooth. How can one woman with ninety girls to watch over be expected to have things running smoothly twenty-four hours a day. There are bound to be discrepancies.

If it is the administration's feeling that she has been unable to keep close enough watch over ninety girls, why not have another housemother to help rather than condemn the present one for unjust reason?

Could it be that some other reason lies behind this action?

Did these men stop for one minute to realize that our housemother in addition to regular dormitory duties has to be on the lookout for carpenters, plumbers and construction men? These tasks plus her responsibility toward the girls which she does gladly and willingly leave her no leisure time, and yet because everything has not run smoothly in the first year of coeducation at Muhlenberg, West hall's housemother has been "generally inefficient."

Think it over! Will next year's housemother be extremely efficient in the second year of coeducation at Muhlenberg when construction will be completed and the program of coeducation more fully organized?

### *Class Meetings*

To the Editor:

Congratulations, students of Muhlenberg college. Last week, on March 5, 6, and 7, there were three meetings; one for freshmen, one for sophomores, and a third for the entire student body. At the general student body meeting, held on Wednesday, the 5th, there were, by a very close approximation, 41 students present. At the Freshman class meeting on Thursday, about 54 freshmen showed; and at the Sophomore class meeting, a healthy total of 15 appeared.

Perhaps the students were just too busy to voice their opinions in the affairs of *their* particular class, and *their* college. More than likely the only reason for so sickly an attendance was nothing more than pure, unadulterated indifference, seasoned with a passive attitude toward the matters at hand.

Just as a way of passing on important information, let me cite a few of the things that were discussed and acted upon at the meetings. The "entire" student body (that is the number present when the entire student body was supposed to have met) voted on issues concerning next year's tribunal, the amending of freshman regulations, and the clarification of hazing regulations. At the Freshman meeting the new officers tried to put their best foot forward and present a plan for social activities which would take place throughout the remainder of the semester. A class banner was also discussed and voted upon (by the minute number that was present). And in the Sophomore meeting a motion was passed to purchase a gold and black banner and to purchase a space in the Ciarla for a congratulatory message to the classes of '58 and '59 respectively.

Now maybe the students at Muhlenberg aren't of the opinion that these matters are important. And maybe you cannot visualize the importance of your attendance at these meetings. But when these measures that were passed go into effect, don't chirp and start knocking the new policies. Remember, you weren't there.

(Signed) Margaret Sos

### *From Here & What?*

To the Editor:

I find that it is much easier to tear down than to construct, but I cannot resist a few comments about the "From Here and There" column in the last issue of the **WEEKLY.**

Very often the practices of our churches today are open to wide interpretation. The views expressed on the Lenten Folder were very amusing; allow me to present mine.

The purpose of "dime-a-day" coin slots is to actually offer some material sacrifice during Lent. We do not pay God to keep the devil away, but rather we find that subtracting a dime today means giving up that pack of cigarettes until the next check from home arrives. The devil is right at home here. He might suggest that we buy those cigarettes or that coke anyway, and that we fill in those missed slots some other time. Such are the minor temptations of campus life. There is no rule that only a dime, may be given; however, I should prefer to see a dime-a-day sacrficed than a quarter per week! Although this practice is not sanctioned by apostolic precedent, I think a little understanding should be shown towards those pious who use this good work accompanied by prayer during Lent.

As for the second isolated example, the pastor in the Cadillac, I cannot adequatly answer because of lack of facts. I can only offer this suggestion. Dr. Staack once explained that "to love thy neighbor as thyself" implies a fifty-fifty relationship. Many Christians (and I use that term in a very restricted sense) practice the venerable custom of tithing. That means that the wealthier a man is, the more he is bound to give to the Church, and the more he is bound to use wisely for himself. Unless he can point out that the minister in the Cadillac has neglected to give fifty percent of his love to his neighbor, I suggest Mr. Heim remain silent.

By the same token, a wealthy "church-plant" will have more money for missions and charity, and money for home-use than the average congregation. Ostentation is a witness, a witness to the world that the worship of God demands the very best man has to offer. These offerings of man's best work are not necessary to salvation, but merely an expression of faith. Way back when another man suggested that we avoid ostentation, and give all extra money to the poor. That man was a traitor; we do not choose to follow his advice. Our Lord is truly present in our churches, and that is why we furnish them extravagantly.

In closing, allow me to say that I enjoyed the article. There is a great deal of truth in it. I hope and pray that someone better qualified will answer Mr. Heim's challenge, and that many Christians are awakened by it.

(Signed) David Walker

### *Muscle-Building*

To the Editor:

Having read last week's editorial with intense interest, we, the undersigned, feel obliged to express our humble and most hardy thanks to the Department of Physical Education for their patient and forebearing endeavor to instruct us in "participation in team sports, emphasizing simple skills and coordination . . . supervising competitive team and non-team sports . . . and in developing skills in sports which may be enjoyed after graduation." We should also like to express our sincerest gratitude for the practically, instructive, fascinating, and enlightening series of lectures in Personal Hygiene.

We have critically observed that college bulletins are often guilty of glittering generalities and gross exaggerations. We feel, however, that this department is due a great measure of credit for its extremely accurate and bold-faced course descriptions.

May succeeding classes be as well-rounded as we.

(Signed):
Luis Torres
Robin R. Schlunk
William S. Miller
"Chuck Atlas"

### *Sacrificial Rights*

To the Editor:

Co-education at Muhlenberg is here to stay. Despite much bitter opposition, this fact has now been accepted. But co-education could never have been established this well without the unceasing efforts of Miss Heimtraut Dietrich.

For this reason, the resignation of Miss Dietrich is very regretful. Though co-education is here, it is not yet fully a part of Muhlenberg. Who will see that co-education continues to progress? Whose responsibility is it?

Miss Dietrich is the "victim of circumstance." The task of Dean of Women is neither enviable nor easy; all blame is placed upon her for actions concerning women taken by other persons or groups. Miss Dietrich is not working for herself alone; she is working toward a better Muhlenberg. The loss of Miss Dietrich at this critical time in Muhlenberg's history would be completely injurious.

With the advent of co-education sacrifices must be made, not only by the student body, but also by the Administration and the Board of Trustees. Must one of these sacrifices be Miss Dietrich?

(Signed) Richard W. Horn

### *Religion Is. . . .*

To the Editor:

In reply to Mr. Heim's article in the last edition of the **WEEKLY,** I question Mr. Heim's conception of what religion is. He speaks of religion's "basic element and purpose" and states that this has been perverted and diverted and confused by additions. His next paragraph states that "Religion should be a guide and exemplar for the relations of man." If Mr. Heim would turn to his "Webster" he would find the following given as the definition of religion, and knowing then what "religion" is, he should be able to see what its basic element and purpose are.

Religion—The service and adoration of God or a god as expressed in forms of worship.

—from Webster's New Collegiate Dictionary.

According to its definition, religion's prime purpose is the worship of God (or a god). Please note that there is no mention made of religion's being a "guide and exemplar for the relations of man."

Religion deals' primarily with

# Publicity, Alumni Offices Control 'Public' Relations

**The combined alumni and publicity staffs busy themselves with the everyday matters which keep the campus in touch with the "outside world."**

**by Jan Horvath**

An important yet unapplauded part of the Berg family are the persons who work behind the closed doors of the first floor of the Administration building. On the second door of the northeast side of the building are printed the words: PUBLICITY, ALUMNI. And within are the busy personnel.

Mrs. Lotti Beist has been with the Alumni office for six years and is responsible for mailing the prescribed letters to the Alumni. Lotti, is the mother of two boys, one a Muhlenberg graduate and the other a senior in high school. Besides working in the office and keeping a home, Mrs. Geist finds time to paint and to raise a cat.

Also serving Berg for six years but in the Publicity office is Mrs. Richard Stauffer. Mrs. Stauffer has a daughter, who will be a freshman at Berg next fall, and a son still studying his three **r's** in grade school. When time allows, Mrs. Stauffer enjoys reading, bowling, and swimming, but she admits that "television is my favorite" pastime.

Holding the position of secretary to the Alumni secretary is Mrs. A. J. Jefferis. Mrs. Jefferis's son is a junior at high school and like his father —lead in the M.C.A. play—is interested in drama. Mrs. Jefferis enjoys passing her leisure time bowling or hunting.

Responsible for the keeping up to date the files of the alumni of Berg is Mrs. Harry Davis. Mrs. Davis has been with the Alumni office since August and, being a newly wed, occupies her time by managing a household.

Mrs. Joyce Shellenberger, with Berg since October, runs the Addressograph machine which addresses all mail sent from the college. She is the wife of a member of the junior class, and spends most of her time caring for her year and a half old child. Yet, Mrs. Shellenberger still finds time to read and, "of course, watch T.V."

# More Student Opinions--More Letters

(Continued from Page Two)

man's relationship to God. The primitive cave man had his religion, and yet there was no concern for his ethical relationship to his fellow man. Being a "guide and exemplar for the relations of man" is the purpose of social ethics or morality and not that of religion. Since therefore, God and man's relationship to Him is the basic element of religion, religion must have doctrines and dogmas—basic beliefs—about this God and man's relationship to Him. Are these the things Mr. Heim calls "fine-spun trifles"? True, the Jewish and Christian religions have a deep concern for man's relationship to man, but this relationship is only known because we know man's relationship to God. Man's relationship to man in religion arises only after man's relationship to God is established. The Covenant between Israel and Yahweh is made first, then, and as a result of this relationship, comes man's relationship to man. For Israel to live in the Covenant relationship with Yahweh, she must obey His commandments (the Decalogue), some of which deal with man's relationship to man. Then too, the Christian's "good works," including acts of love, arise from his personality being changed because of his faith in Christ—they are the fruits of this faith. I believe Mr. Heim is quite wrong when he tries to reduce religion to a system of ethics or to a code of morality apart from its relationship to God, from which relationship its doctrines and dogmas necessarily arise.

In reference to the "challenge" Mr. Heim "hurls" in his last paragraph, I would like to say that the Cadillac in which the "Reverend" drove away after the Alpha Kappa Alpha meeting several weeks ago was not his own. And even if it were, how does Mr. Heim know that the "Reverend" doesn't give financial aid to alleviate the "poverty, suffering, and starvation in the world?"

As for the Allentown "congregation that is spending thousands of dollars to beautify their church with ecclesiastical art of the first rate", I would challenge Mr. Heim's conception of the use of art in the Church. Ecclesiastical art is not primarily beautification, but is, above all, glorification—glorification of God. It is in a true sense worship—worship on the part of the artist who creates it and also on the part of the congregation which buys and installs it. Secondly, that which is depicted in the ecclesiastical art speaks to the believer and is actually like a silent language preaching to man or telling him about God and what he has done. Thirdly, ecclesiastical art frequently inspires man and moves his oft times otherwise unfeeling heart to worship. Fourth, I would say that man should give God the best he has—even in ecclesiastical art. Usually those who quibble about the use of beautiful things in church—God's House—have no qualms about lavishly spending money on themselves or their own beautification. As a passing comment I might suggest Mr. Heim's remembering that "man does not live by bread alone." Here again I ask Mr. Heim if he knows the amount of money this congregation gives to the poor. I am certain that any needy person going to the rector of this church would be cared for—and I might add—out of Christian love.

(Signed)
Frederick G. Pillmeier

### More on Marriage

To the Editor:

We feel that the letter addressed to Mr. Kennedy in last week's **WEEKLY** ought to be contested by those of us who agree that today's woman must choose between a career and a family.

The first point which Miss Heim tried to make was that Mr. Kennedy "said very little" and took "so many words to say nothing that is not already known." Now, if the material in that article were already known, we assume that it is also generally accepted. If this is so, then Miss Heim would have no need to contradict the article. "Saying very little" is a poor accusation to make, and a poor way to admit that the author has failed to agree with her ideas.

That technology took much of the drudgery out of housekeeping is a good point, and one which was not considered. It is agreed that the woman's job in the home has become much less tedious because of the so-called labor saving devices. However, this hardly enters the matter in question. In a psychology text is found a chart which shows that a greater amount of children are "emotionally disturbed" in a family where the mother has a part or full-time job. Therefore, it is trivial whether the housewife uses a washboard or an automatic Bendix—the important thing is her presence in the home.

"The world is utilizing one of its greatest unused resources" is almost comical. Miss Heim cited the example of the Russian experiment in which women are doctors and factory workers. During war time, the United States did precisely this, but war time is a period of crisis. The bringing of babies into the factory is a horrible thought. We cannot imagine any devoted mother exposing her children to the coldness of such a life. This is a step toward Aldous Huxley's conception of the "Brave New World" which seems so terrifying to humans. If the Russian state of affairs is a goal toward which we should strive or if Russia is to be our ideal, then America is failing. Let us hope there will be no advanced strides toward any such policies.

Speaking now of the "empty nest" to which Miss Heim referred, does not the husband feel it as well as the wife? Does he want to lose his wife, too, after he has just begun to miss his now grown children? No number of work-saving devices will ever prevent the working wife from spending time after working hours on housework—the time when her husband would feel the need for her companionship.

"She is giving of herself to the world more ways than the important, but indirect way of developing healthy, well-adjjusted children." This suggests a dichotomy of interests—working and raising children. When we divide our interest, we divide our efficiency in both interests. Whatever the woman feels she can give to the world cannot in our opinion, be greater than the gift of children, properly raised and trained to meet all situations. Hence it is necessary that we must insist on a selection: either one has a career or she raises children. A house divided against itself cannot stand.

Eight Coeds

### Chess, Everyone?

To the Editor,

I would like to bring to the special attention of the Muhlenberg Student body a momentous occasion to take place on March 17, 1958. Momentous because an outstanding expert in the field of intellectular recreation will make his first appearance on our campus. The expert is Samuel Reshevsky, well known in the chess circles as a United States champion and international favorite. It is only through the good fortune of the Muhlenberg Chess club's association with the American Chess foundation that it has met the expense of 200 for his appearance. As a matter of fact even if the club had sufficient funds, it would still be a problem to arrange an appointment with Reshevsky. Seemingly all the insurmountable obstacles have been removed, except one very important and obvious one. How will the student body support this function? Will it be another of those poorly attended lectures or assemblies we are all so familiar with??

To those of you who have never had the pleasure of witnessing the tense packed drama involved in a simultaneous exhibition this program should be especially appealing. To those of you who would like to participate and match your skill against a genius, we also extend our invitation. Lastly for the beginners or non-players who always wanted to start playing, here is your inspiration. Let's see if the student apathy trend can at least be foiled once.

Thank you,

Dennis Gurski

## 'Round Campus

**Friday, March 14th**

**There will be a meeting of Omicron Delta Kappa in the Student Council room at 4:00.**

Motion picture "The Little Fugitives" will be shown in the Science auditorium at 7 p.m.

**Sunday, March 16th**

**The Muhlenberg College choir will present a concert in the Chapel at 4 p.m.**

**Monday, March 17th**

Der Deutsche Verein will meet in the Student center at 7:00 p.m.

**The Chess club will hold a meeting in the Commons at 7:00 p.m. featuring the chess master Reshevsky.**

**Wednesday, March 18th**

Student Council officer elections will be held from 9 a.m. to 4 p.m.

**Robert Aura Smith will deliver a lecture "A New Policy for Asia" in the Science auditorium at 3:15.**

**Thursday, March 20th**

The Pre-med banquet will be held at Lafayette college at 6:30 p.m.

**The Muhlenberg Christian Association will meet in the Student Center lounge at 7 p.m.**

# Berg Plays Host To National Chess Ace

by Linda Patnoi

A consistent winner for 20 years, Samuel Reshevsky finally conceded the American Chess championship title to Bobby Fisher in a United States tournament. Mr. Reshevsky, soon to be the guest of the Muhlenberg Chess club, had previously won over the most skilled players in the world.

At the age of eight, he moved from his native Poland, to America. Even as a young boy, this chess player was an expert at giving simultaneous exhibitions against older and more experienced players.

Today Samuel Reshevsky works as an accountant in New York city and pursues chess-playing as an avocation. His latest project is a tour of college campuses to encourage competition.

**Lecture**

A short lecture with his moves explained by demonstration board, will be the first part of Mr. Reshevsky's program on Monday night. However, the major portion of the evening will be spent giving a simultaneous exhibiton of 30 boards. To do this, tables will be arranged in a square and this expert, from the center, will rotate from player to player.

The schools which have been invited to attend this event are Moravian, Cedar Crest, and Lafayette. Lehigh is also sending three representatives and three alternates. To this roster will be added interested players from Western Electric, Allentown Chess club, and Allentown high and Junior high schools.

This exhibition by Samuel Reshevsky, made possible by the sponsorship of the American Chess Foundation, will take place in the West end of the Commons on March 17, at 7 p.m.

# Mules End .500 Year; Lose 79-71

Bucknell university handed Muhlenberg its twelfth defeat of the season on Saturday night when they downed the Mules by a 79-71 score. It was the finale of the season for both teams. Muhlenberg wound up the season with a .500 average, with 12 wins and 12 defeats, while Bucknell chalked up its 16th victory in 24 games.

Clint Jeffries, Muhlenberg scoring ace ended the season with 399 points, one short of the coveted 400 point circle. Jeffries tallied more than 400 points in his sophomore year but failed to reach that plateau last year.

**Mules Take Lead**

Muhlenberg took the lead early in the game when Mel Kessler scored seven consecutive points to put the Mules ahead, 27-23. Berg never trailed in the first half as they led by 10 points with one and a half minutes to go and ended the half leading by six points, 41-35. The Bergmen continued their scoring pace early in the second quarter as they ran up a nine point lead, 53-44. Bucknell then proceeded to reel off nine straight points to tie the game at 53-all.

The lead see-sawed back and forth until Bucknell went ahead to stay at 59-58. The closest the Mules could come after that was 64-63 as Dissinger hit on a jump shot.

**High Scorers**

High scorer for the Mules was Mel Kessler with 22 points, while Dissinger followed with 11. Danzig with 24 and Flanagan with 20 points led the Bisons.

In the preliminary game, Muhlenberg won a shortened game, 43-34. Al Filardi with 15 points paced the baby Mules.

# Basketball--Year of Upsets, Letdowns

**Muhlenberg's 1957-58 edition of the Basketball Team poses for a final picture. The courtmen, who ended the season with a 12-12 record, are from left to right: Sarner, Lukens, Berghold, Dissinger, Hoffman, Sekunda, Robins, Loeffler, Kessler, MacLaughlin, Matell, and Coach Crum. Kneeling is Clint Jeffries, team chaptain.**

**by Don Poppe**

Muhlenberg's 1957-58 basketball campaign, in which the Bergmen won 12 of twenty-four decisions, is now history. It will be remembered by many as a year of upsets, surprises, and bitter disappointments. After a remarkable start the Mules slipped badly, and only a sudden resurgence near the end of the season saved them from a losing campaign.

On December 4, the Mules opened with a bang, defeating a hustling Lebanon Valley college five, 79-59, for their first victory. Three days later, they traveled to New Brunswick, N. J., where they defeated Rutgers, 68-59, with sophomore Dick Sekunda taking scoring honors with 18.

**Third Win**

On December 11, the Cardinal and Gray recorded their third straight triumph—a 96-67 assault over Moravian college. Both teams were on fairly even terms until early in the second half when Berg erupted for 60 points in their most impressive showing up to then. Five Mules hit in double figures with Jeffries high with 18 points.

Shortly thereafter, Berg met a visiting Delaware university squad whom they soundly trounced, 93-74, before an enthusiastic house-party weekend crowd. Mel Kessler led all scorers with 23, followed by Jeffries with 21, and Sekunda with 20, as Muhlenberg hit on 40 of 78 floor shots.

**Mules Defeat Lehigh**

Their fifth consecutive win came at the hands of Lehigh, 83-61. Once again it was Sekunda (with 24) and Jeffries (with 23) who led the assault as Berg ripped the Brown and White's zone defense to shreds with drives and jump shots.

On December 21 the Mules traveled to the Penn Palestra in Philadelphia to face Temple university. Here, in the second game of a double-header, Berg absorbed their first setback of the season, 72-54. The Owls of coach Harry Litwack got off to a fast start due to the ball-hawking of All-American Guy Rodgers and remarkable shooting of soph Bill Kennedy, and after 13 minutes of play, led 26-8. The Mules, led by Sekunda with 14, apparently were suffering from a bad case of the jitters and never were in contention as Temple snapped the Bergmen's 10 game victory skein begun in the 1956-57 season.

**G-burg loses**

Following the Christmas recess, Muhlenberg returned to Memorial hall where they beat a well-drilled Gettysburg team, 64-63. Jeffries and sophomore Don Robins were outstanding as they combined to score 28 points and grab 28 rebounds.

At this point the Mules went into a prolonged slump as they suffered seven successive defeats at the hands of LaSalle (67-61), Manhattan (81-66), Lafayette (75-58), Georgetown, Lehigh (66-64), LaSalle again (82-80), and Franklin and Marshall (70-64).

**Losing Streak Ended**

On February 6 the Bergmen recovered to trounce the Bullets of Gettysburg, 89-62, in the Hershey arena. Surprise starter Bill Dissinger and Jeffries bucketed 16 and 24 respectively as the Mules snapped their longest losing streak in several years.

Returning home, Muhlenberg met a very determined Colgate university team led by captain Phil Biselle. The Mules gained an early 15-14 advantage and were never headed as they defeated the Red Raiders, 80-72. Biselle led all scorers with 31, followed by Jeffries who, in scoring 24, raised

(Continued on Page Six)

# Berg Matmen Close Season With 9 Wins

The Mule wrestlers completed a successful season this year, winning nine out of eleven dual meets and placing third in the Middle Atlantic tournament. The grapplers got off to a fast start winning the first three meets by sizable margins. For their first encounter, the team traveled to Swarthmore and returned with a 20-10 win.

Against Temple the grapplers had a hey-day. Jaquette was injured in his bout and was forced to default. But the Bergmen captured all other bouts as they swept to a 31-5 win. Gordy Warner, Pierce Knauss, Roger Keehn and Gerry Rehrig all scored pins in the one-sided meet.

**Beat Moravian**

In their third outing, the Mules went to Bethlehem to test Moravian. Again they returned victorious, this time 24-6. Pierce Knauss, Don Simpson and Roger Keehn each got their second falls of the season. Gerry Rehrig lost his first and only bout to Bartolet by a 7-5 score.

The Mules first home meet spelled distaster as the graplers fell prey to Bucknell by a 19-10 count. Don Simpson lost his only bout of the year to Dempster by a 3-0 score and Dick King suffered his only defeat of the campaign. A draw by Jim Waller, a decision by Kehn and a fall by Rehrig gave Muhlenberg its 10 points.

**Succumb to Leopards**

Against Lafayette the matmen suffered their second and last defeat, 15-13. Waller and King each had draws while Simpson, Warner and Rehrig notched decisions. Keehn lost his only bout of the season to Don Cherry, 7-5.

The Mules returned to the victory road for good as they defeated Gettysburg, 17-8. Knauss, Warner, Simpson, Keehn and Rehrig all had decisions while King scored his second draw.

Haverford was sent home with a 23-5 spanking. Again the Mules were forced to forfeit the 123 lb. class and those were the only points netted by Haverford.

**Win Over Hens**

Delaware fell victim to the Bergmen, 25-5. The 130 lb. class was forfeited this time for Delaware's only points. Pierce Knauss, wrestling at 123 scored a fall, and Delaware forfeited the heavyweight bout while the other Mules again notched decisions.

Lebanon Valley proved no match as the team went wild with a 32-0 victory. In their last encounter the Mules traveled to Reading to meet Albright and returned victorious 26-8.

As a climax the team entered the Middle Atlantic tournament and emerged in third place. Rehrig took first place in the heavyweight division while Simpson gained a third place at 147.

# Fencers End Campaign With 0-4 Season Record

Muhlenberg's fencing team opened up the 1958 fencing season with Temple university. The Temple team handed the Berg swordsmen their first of four defeats, beating them twenty-two to five. Chuck Holder, one of Muhlenberg's co-captains, was the only local fencer to gain a double win.

After this match Holder left school. This left the support of the team up to returning letterman, Steve Fuchcs. Fuchs was the only man on the team with more than two years experience. He also had the distinction of being on the wining Epee team with Bill Wormley in the 1957 Middle Atlantic championships.

**Berg Loses Three**

With Holder gone and Fuchs the only man left with any experience to speak of, the team's prospects in future matches looked dim. Left with a predominately green, sophomore team, Coach Andy Erskine took his charges into the fray against Haverford, Johns Hopkins, and Lehigh. Muhlenberg lost all three of these matches with the respective scores being: Haverford 17, Muhlenberg 10, Johns Hopkins 23, Muhlenberg 4, and Lehigh 16, Muhlenberg 11. The Berg fencers almost pulled an upset in the Lehigh match.

Closing out the regular season with a record of no wins and four losses Muhlenberg entertained the Middle Atlantic States Collegiate Athletic Conference Fencing championships. The coveted Yale trophy was fought for by Muhlenberg, Johns Hopkins, Stevens Institute, and Lehigh.

Johns Hopkins was the pretourney favorite but it wasn't their day, as Stevens Institute on the strength of first places in both the foil and epee divisions accumulated forty-nine points to beat out second place Temple by thirteen. The Muhlenberg team could only collect sixteen points and finished last.

Muhlenberg loses only epee man Steve Fuchs though graduation. They will have five returning lettermen: Ron Moyer and Morris Linnett in the foil; Reggie Byrne in the epee; and George Merz and Don Michaels in the saber. These five men will have another year's experience in varsity competition, and at least next year's team will be an experienced one. By all calculations they should post a better record than they did this year.

# I-M Corner

**by Jack Coughlin**

Action in the past week saw the Bell Boys down the Alpha Tau Omega "A" team, 49-38. Serges Salivonchik led the way for the victorious Bell Boys with 17 points. Fred March and Frank Csaszar came though with 12 and 10 respectively to aid in the cause. Bob Nuss and Rick Sloan dropped in 17 and 11 respectively in the losing cause of the ATO's. The Tri-Staters took a close one over Sigma Phi Epsilon, 31-30. Yost hit for 10 and Higgins provided 8 more to give the Tri-Staters the edge. Tom Schaeffer took scoring honors for the game with 17 points for Sig Ep.

Roy Spangler led the Schmekels to a 52-32 victory over the Bell Boys with his 14 points. Hitting in the double figures for the Bell-Boys was Serges Salivonchik with 10 counters. G-Hall dropped the Alpha Tau Omega "A" team by a score of 49-37. Simmons and Olsen provided the scoring punch for the dorm quintet. Simmons connected for 14 and Olsen sank 13. Bob Nuss was high man for the Chew Street outfit with 9 points. Lambda Chi Alpha won over Phi Epsilon Pi in a low scoring game that finished up 29-23. Mike Woolley hit four field goals and made one more good from the charity line for a nine point total. Gil Sopher and Arnie Markoe hit for 7 points each to share the scoring honors of the Pep Boys.

John Holcroft was hitting from all angles when he led the Phi Kappa Tau "A" team to a 45-38 victory over the Phi Epsilon Pi "B" team. Holcroft sank 21 points and Ray Croft helped out with 10 more. Derechin led PEP's "B" team with 17 points. G Hall came though with another win as they downed the Rinky Dinks, 43-36. Olsen was the big man in the G Hall effort with 16 points. Hitting for the same number Dick Holben was high man for the Rinky Dinks. Alpha Tau Omega "B" team went down in defeat to Tau Kappa Epsilon, 38-12. Andy Brus-

(Continued on Page Six)

# Footballers Run Through Drills; Practice Highlighted By Spirit

**SIGNALS—Quarterback Ralph Borneman prepares to hand off to his halfback during a recent practice session. The Berg gridders have been practicing since March 3, and will end spring practice with an inter-squad game on the 22nd.**

Looking back on the first week of spring football practice, the Berg gridders seem to have a great deal of spirit! From the first day the Mules took the field there has been an apparent chatter and hustle.

Although most of the first week was devoted to getting the corps loosened up after the winter layoff by running signal drills and very light contact, the players went from one drill to the next as if the first game of the season was a week away.

**Freshmen Impressive**

Friday the team had its first taste of real contact. Some of the freshman linemen looked impressive, while many of the veterans hit well for the first day of contact. Many of the backs flashed mid-season speed as they ran through plays.

In the next two weeks, plenty of scrimmaging and heavy work will be seen as a way to sharpen up the plays and teamwork of the Mules in preparation for the 1958 season.

## WEEKLY Banquet

**The annual Muhlenberg WEEKLY banquet will be held on Thursday evening, March 27, at the Willows in East Texas. All members of the staff interested in attending the banquet should contact Ron Moxey, Jim Piston, or Karl Becker to pay the $1.25 charge.**

**Karl Becker**

# *Sports in Short*

**by Ben Livingood**

Muhlenberg's 1958 winter sports are a part of the past. They live now only in the record books and in memories—some good, some bad, but none disheartening.

**The brightest spot of the season just ended was the success of the wrestling team.** The grapplers compiled a 9-2 record during the regular season and finished third in the Middle Atlantic States Collegiate Athletic Conference (MASCAC) meet at Wilkes college. The outstanding performer for the Mule matmen was heavyweight **Gerry Rehrig,** who copped the Middle Atlantic's championship in his division. Rehrig was not alone as far as success is concerned. Congratulations go to **Jim Waller,** who entered the conference championship meet with a record of nine victories and two ties. **Art Jaquette, Gordie Warner, Don Simpson, Roger Keehn, Dick King,** and **Pierce Knauss** also deserve praise for their help in making the 1958 Muhlenberg wrestling season one of the finest in the school's history.

* * *

Unfortunately, winning seasons couldn't be had by all this year, as the basketball and fencing squads finished with even and losing records respectively.

The Mule cagers ended the 1957-59 season with a 12-12 log. It marked the first time in several years that a Muhlenberg basketball team failed to finish ahead in the win column. Had it not been for a mid-season slump, during which time the Bergmen dropped seven consecutive contests, the record may have been quite a bit better. However, the overall outlook on the past season is far from discouraging. With only two or three of this year's squad departing, there is a strong chance that the '57-'58 record will be bettered next year.

A note of particular praise deservingly goes to senior **Clint Jeffries,** who, in the past four years, proved himeslf **one of finest basketball players ever to wear the Cardinal and Gray. Jeff** compiled a total of 399 points for the past season—one point away from being the only Muhlenberg cager to tally 400 or more points in two seperate varsity seasons.

# Cagers End 57-58 Season Breaking Even At 12-12

(Continued from Page Four)

his three year varsity total to 1042 points.

**Leopards Victors**

A week later the Cardinal and Grey traveled to Easton, Pa., where they were again humiliated by the Leopards of Lafayette, 79-66. Plagued by their proverbial slow start, the Mules faced a sixteen-point half time deficit which they were unable to overcome. Jeffries notched 18 and Kessler 17 as Berg suffered its eighth setback of the year.

On Febraury 15, before some 2000 literally snowbound fans, Muhlenberg put on their most dazzling performance of the season as they hit on 32 of 64 shots from the floor to defeat NIT-bound St. Joseph's college, 96-84. Seniors Dick MacLaughlin and Clint Jeffries, and soph Dick Sekunda were outstanding as they combined to score a total of 62 points and create the biggest surprise of the season for Mule fans.

**Mules Win Tenth**

Following this encounter the Bergmen were defeated by Scranton university, 83-74, before bouncing back to top the Albright Lions, 82-73, as Jeffries came up with his best effort, scoring 31 and grabbing 22 rebounds. His seven straight points early in the second half, good for a 57-48 lead, insured the Mules their tenth victory of the season.

On Wednesday, February 26, the Cardinal and Gray met the highly regarded Seahawks of Wagner whom they upset, 90-83. Junior Mel Kessler led all scorers with 25 (15 in the second half), followed by Sekunda with 21.

Three days later the Bergmen squeaked past Hofstra on Dick MacLaughlin's two last minute free throws, 69-66. This victory was the last for Muhlenberg as they proceeded to close the campaign by losing to Villanova (81-73) and Bucknell (79-71). These two defeats gave the Mules a mediocre seasonal record of 12-12, and an overall 58-42 four year record under coach Crum.

# I-M CORNER

(Continued from Page Five)

ko collected 12 and Bob Cardonsky added 10 more for the Tekes. Seth Brown came through with an earth-shattering 4 points for ATO "B."

Mike Wooley and Jack Young dropped in 10 points each for Lambda Chi in their 48-34 victory over PKT "B." Dungan and Clauser picked up the same 10 points each for the Liberty Street "B" team. Sigma Phi Epsilon came out on top in their 53-30 game with the Phi Epsilon Pi "B" team. Neil Hahn led the scoring for the Sig Eps with his 12 points. Borden contributed 12 for the PEP "B" team. The Mules downed the Rinky Dinks by a score of 36-29. John Groon led the way for the victorious Mules with 14 points. Dick Holben hit for three buckets to be the high man for the Rinky Dinks.

The ten top scorers taken on total points:

| Name | Total Points |
|---|---|
| John Holcroft | 98 |
| Bob Nuss | 88 |
| Dick Holben | 86 |
| Serges Salivonchik | 83 |
| Leroy Spangler | 75 |
| Pat Wilson | 74 |
| Frank Csaszar | 72 |
| Fred March | 68 |
| Dick Sterner | 67 |
| Harry Beidleman | 63 |

**It has been found that a part of the mechanism necessary for the chimes to ring, is badly damaged and requires expensive repairs. If it is found that the benefits of the chimes warrant the expenditure, repairs will be undertaken in spring of 1958. Student Council**

# Alumni Club Has Dinner

The Allentown Alumni club of Muhlenberg college was host to 10 Allentown high school seniors at its fourth annual dinner held in the College commons March 1. Donald B. Hoffman Jr. and Janis Horvath, both of the class of '61, cited numerous advantages in attending Muhlenberg in an informal discussion following the dinner. Frank Reisner, president of the alumni, arranged for a student tour of the campus and for talks with the various department heads.

Harry A. Benfer, director of admissions, Charles W. Moses, director of development, and Dr. J. Conrad Seegers were introduced.

Chairman of the dinner was John Ammerell, vice-president of the alumni, assisted by co-chairmen Lloyd N. Zimmerman and William Kulik.

# Cinema Series Shows "The Little Fugitive"

Muhlenberg college will feature the showing of "The Little Fugitive" on Friday, March 14 at 7 and 9 p.m. in the Science auditorium.

Little Richie Andrusco plays the lead role of Joey in which he portrays a delightful seven year old boy who runs off to enticing, mysterious Coney Island for a day filled with adventurous capers. His escapades provide seventy-five minutes of youthful, laughable entertainment.

The movie was judged a rare achievement among non-studio productions and took second place in the Golden Reel awards of 1956.

# . . . Student Council Report . . .

March 6, 1958

The regular meeting of the Muhlenberg college Student council was called to order at 8:46 p.m. by President Luis Torres. Mr. Vari was absent.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $3,500.74 |
| Social fund | 2,160.21 |
| Assembly fund | 2,061.52 |

**COMMITTEE REPORTS:—**

Elections:—Mr. Shellenberger reminded council of the Student council elections next Wednesday from 9 a.m. to 4 p.m.

Social:—Mr. Skweir announced that the annual Student council banquet will be held the evening of the Graduation ball, June 6, in the Lehigh Valley club.

**OLD BUSINESS:—**

On motion by Mr. Shellenberger and Mr. Gurski, Student council adopted the following additional regulations for women students:

1. All women violators of the Women's Dorimtory regulations will be tried by the Women's council.
2. The offender has the right to appeal her case before Student council.
3. All other violations outside of the Women's Dormitory regulations will be handled by the Student council.
4. The Student council at all times reserves the right to review any case and question any offender.
5. The Women's council will make a weekly report to the Student council, and its minutes shall be available upon request, at all times, to the Student council.

These regulations will be presented to the Administration for approval.

On motion by Mr. Ueberroth and Mr. Leighton, the Student council will direct a letter to Mr. McCauley concerning the condition of the second floor of the Student center.

**NEW BUSINESS:—**

On a motion by Mr. Leighton and Mr. Spector, the Student council approved the following list of allocations to student activities:

| Organization: | Request: | Allocation: |
|---|---|---|
| Pre-Theological club | $ 15.00 | $ 15.00 |
| Business & Economics club | 100.00 | 60.00 |
| Forensic council | 100.00 | 100.00 |
| College choir | 789.00 | 789.00 |
| Jazz society | 300.00 | 300.00 |
| Der Deutsche Verein | 29.00 | 20.00 |
| Chess club | 15.00 | 15.00 |
| | | $1,299.00 |

On motion by Mr. Leighton and Mr. Shellenberger, Student council will give $350.00 from the Assembly fund and $300.00 from the Student Body fund to underwrite the Jazz society's concert on April 12.

Respectfully submitted,
RAY UEBERROTH, Recording Secretary

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., March 20, 1958 | A. C. P. Rating | No. 20

## Truchses And Nase Cop Election For Two Highest Council Positions

Fifty-seven per cent of the Muhlenberg college student body turned out yesterday for the Student council officer elections to select Richard Truchses to the presidency and Donald Nase to the vice-presidency. The other candidates who were elected to office were David Bausch, recording secretary; Nino Carnevale, coresponding secretary; and Spencer Tuchinsky, treasurer.

These five officers of the college's governing body were elected last week to the Student council along with four other students. The other recently elected council members include Sue Schell, Clair Miller, Herbert Siegel and Paul Horger. The new council and its recently elected officers will assume their new positions on Wednesday afternoon, April 9 when the annual installation ceremony will be held.

**Richard Truchses**

Richard Truchses, newly elected president, is a native of Carlisle, and is majoring in history. Dick is the editor of the **M Book,** a brother of the Phi Kappa Tau social fraternity, a member of Omicron Kappa Delta, the National honorary leadership fraternity, Alpha Kappa Alpha, the national honorary philosophy fraternity, Phi Alpha Theta, the national honorary history fraternity, and the Mermaid Tavern society.

Donald Nase, vice-president elect, is a resident of nearby Souderton, and is a Pre-medical student. Don is past Worthy Chaplain of the Alpha Tau Omega social fraternity. He is engaged in the activities of the Pre-medical club, Drawer of the Mermaid Tavern society, **WEEKLY** staff, executive council of the class of '59, and has been on the Freshman tribunal for the past three years.

**David Bausch**

David Bausch, a veteran takes residence in Allentown, and is a Business administration student. He is a pledge of the Tau Kappa Epsilon social fraternity, a member of the choir and Veteran's club. Nino Carnevale, is a resident of Westfield, New Jersey, and is a Pre-medical student. He participates in football, wrestling and is a brother of the Lambda Chi Alpha social fraternity. Spencer Tuchinsky, a native of Allentown, is a Business administration student, and is a brother of the Phi Epsilon Pi social fraternity. Spence is also vice-president of the Mask and Dagger club, senior section editor of the **Ciarla,** Business and Economics club, Jazz society, and Hillel club.

**Dick Truchses**

**Don Nase**

## Hennacy, Anarchist, Lashes Out Against War Infested World

An associate editor of **The Catholic Worker,** Mr. Ammon Hennacy, will address the student body tonight, at 7 p.m. in the Student center. The topic of discussion will be "A Catholic Anarchist Looks at a War-mad World." Mr. Hennacy has been brought to the Muhlenberg campus through the auspices of the Muhlenberg Christian association.

Mr. Hennacy is a pacifist, a Roman Catholic, and has been engaged wih his colleagues in protesting to the madness of the nuclear arms race and everything that has to do with it. This includes his refusal to pay income taxes because eighty per cent of the money goes to prepare for past wars of arm for the next.

Among his many crusades, he is deeply entrenched in the Catholic Worker movement. The movement was founded by Peter Maurin, and is similar to the Worker Priests' movement in France. One of the leaders of this group is Dorothy Day, famous journalist and former Communist. Their chief social responsibility is to expose tyranny and cruelty, and to run hostels and farms for the broken or destitute, regardless of creed. The pacifism of which they advocate is somewhat that of Ghandi. The Roman Catholic church accepts them, for they are in full accord with the doctrine of the Church.

## Topics of Phi Sigma Tau Discussions Announced For The Spring Semester

It has already been mentioned that Alpha Kappa Alpha has merged with Phi Sigma Tau, another philosophy organization. It is felt necessary that the Articles of Merger, as prepared by Dr. Russell Stine, Field secretary of AKA, and Dr. Bert Thomas, president of PST should be generally known.

The articles are as follows: The merger shall form a single organization called Phi Sigma Tau, National Honor society in philosophy. The merged organization shall have as its date of founding the date when AKA was founded. In any ordering or naming of chapters, seniority shall be retained by the present chapters of AKA in the order of their establishment. All chapters of both organizations shall be regarded as charter members of the merged organization. This was brought about in recognition of the fact that the energies and resources of the combined group can bring greater benefit to all concerned.

**Program Unchanged**

In name, AKA no longer exists; but, the program has not changed. As part of the attempt to better the intellectual climate here at Muhlenberg, Phi Sigma Tau will bring forth competent speakers and as much discussion as is possible in a general investigation of the principles that regulate the universe and underlie knowledge, reality ,and human nature and conduct.

During this academic year, they are dealing in The Approach to Truth. Last semester, discussions were held concerning the Approach of the Ancients, at the time of Christ, and during the Medieval, Reformation, Renaissance, and Enlightenment periods. There has been only one meeting this semester, during which the Aesthetic Approach to Truth was discussed.

The next meetings is to be held tonight, in the Student center, at 7 p.m. Dr. Edward Stevens is scheduled to speak on the Poetic Approach. The program for the rest of the semester includes talks on the Modern Jewish and Christion Approaches to the Truth. All meetings are open to the public.

## Naval Aviation Team To Appear At College

On Friday, March 21, a Naval Aviation Information team will be in the Student center. Members of the team will be available from 10 a.m. to 4 p.m. to answer questions about the Naval Aviation Cadet and Aviation Officer Candidate program. They will also make arrangements for the aptitude and physical tests given at the Naval Air station, Willow Grove.

Graduates form the flight programs will complete 18 months of intensive flying and academic training. And as officers in the Navy's Air arm, they will serve in squadrons of the Atlantic or Pacific fleets. They will be earning up to $530 a month in addition to numerous benefits. Anyone having questions about Naval aviation is encouraged to take advantage of the opportunity for discussion with the Naval aviators who will comprise the team.

## WEEKLY Banquet

**The annual Muhlenberg WEEKLY banquet will be held on Thursday evening, March 27, at the Willows in East Texas. All members of the staff interested in attending the banquet should contact Ron Moxey, Jim Piston, or Karl Becker to pay the $1.25 charge.**

**Transportation will be available at the Student center that evening for those staff members without cars.**

**All members of the staff are urged to attend.**

**Karl Becker**

## Kennedy, Woodward And Frantz Elected To Top WEEKLY Offices

Dick Kennedy, Larry Woodward and Roger Frantz were elected to the three top posts on the Muhlenberg **WEEKLY,** at an all-staff meeting held on Tuesday morning, March 18. Karl Becker, retiring editor-in-chief of the newspaper, presented these nominations to the staff, who accepted and approved his selections. These three men will assume office on April 7 and will continue in their capacities as editor-in -chief, managing editor, and business manager, respectively, throughout the 1958-59 school term.

**Larry Woodward, Dick Kennedy and Roger Frantz have been elected to the three top positions on the Muhlenberg WEEKLY, those of managing editor, editor-in-chief and business manager. These men will assume the offices on April 7, following the annual WEEKLY banquet and the Easter vacation.**

**Dick Kennedy**

Replacing Karl Becker as editor-in-chief of the **WEEKLY** will be Dick Kennedy, an English major from Pottsville. Dick has been a member of the **WEEKLY** staff since his freshman year when he assumed the position of feature editor. Dick held that position for the past two years. In addition to his work with the newspaper, Kennedy is a member of Phi Kappa Tau social fraternity, Pi Delta Epsilon, the national honorary journalism fraternity, and the Mask and Dagger society.

**Larry Woodward**

Larry Woodward will replace Ron Moxey as managing editor. Larry is an English major and hails from Broomall. He has been a member of the **WEEKLY** staff since his freshman year. In the Spring of 1957 he assumed the position of city editor and has held this office until the present time. In addition to his editorial position with the newspaper, Larry is also a member of Pi Delta Epsilon, the natoional honorary journalism fraternity, and a member of the Mask and Dagger society.

**Roger Frantz**

Roger Frantz, who will assume the position of business manager, and replace Jim Piston in that capacity, is a resident of Westfield, N. J. He is a psychology major here at Muhlenberg. Roger has been associated with the **WEEKLY** since his freshman year. The position of advertising mangaer was awarded to him in his sophomore year and since then he has moved up to assistant business manager of the newspaper. His other extra-curricular activities include Alpha Tau Omega social fraternity. Psychology club, and the Business and Economics club.

The other editorial positions which were designated at this meeting include Rick Stephan, city

(Continued on Page Six)

## *World University Service To Begin Campus Drive*

Dr. J. Conrad Seegers has been named honorary chairman of the World University Service drive to be held at Muhlenberg, beginning on Monday, April 14. Announcement of the drive was made this week by Henry Williams, student chairman for the drive, and president of the Muhlenberg Christian association.

**President J. Conrad Seegers**

World University Service is an international student relief agency, which was established 20 years ago to meet urgent material needs among university students throughout the world. Last year, American college and university students contributed over a million dollars to the organization. The funds went to provide scholarships for Hungarian students in American colleges and universities, two student health centers in India, a Tuberculosis sanatorium in Japan, and a student center for the same disease in Indonesia. They also provided for cooperative living projects to help meet housing shortages which are acute in many university centers in Asia. The minimum goal for the local campus drive will be $500 from students and faculty.

**Answers Many Needs**

The regular program of the World University Service answers many long-term needs. Where textbooks are rare and expensive, they provide printing equipment. When illness and disease riddle a university, they build preventive health clinics and student medical centers. If Student enrollment outstrips housing accommodations, they stimulate cooperative student housing.

Among the sponsoring organizations of the World University Service are B'nai B'rith Hillel foundations, the National Newman club federation, the United States National Student association, and the United Student Christian council. The drive at Muhlenberg will be under the direction of MCA, with the support of Student council and other campus organizations.

**Publicity**

Herb Gishlick will be in charge of general publicity for the drive, with John Driesbach handling signs and posters, and Richard Stephan taking care of **WEEKLY** publicity. Names of the Student solicitors will be announced in the near future.

Mr. Paul S. Denise, Regional secretary of the World University Service will speak at the chapel service on Monday, April 14, launching the drive.

## Proposals For Elections Rules Given At Dorm Council Meeting

On Friday, March 14, the Women's Dormitory council of West hall met with Miss Heimtraut Dietrich to draw up a set of proposals governing the elections of next year's Dormitory council. The elections will take place on March 24, 1958, between 12 and 4 p.m.

The proposals were presented to the resident women students on Sunday evening to be discussed and approved. The proposals consisted of six sections and a motion was made to discuss and then vote upon each section singly. The motion carried and the proposals were accepted.

The following proposals were presented:

I. The new Council shall consist of:
   - 4 Executive Officers,
   - 5 Floor representatives,
   - 2 Commuting students, and
   - 1 Freshman

II. All dormitory residents and commuters shall elect these persons by secret ballot.

III. The four Officers shall be elected as follows:

a. A nominating committee consisting of six women residents, two women from each floor, shall be appointed by the Women's council (The Women's Dorm council appointed the following women students for the nominating committee; first floor, Carol Coolidge and Ann Romantowski; second floor, Keren Kamena and Carol Hodgson; third floor, Sandra Peifly and Ann Schonberg.)

b. Using sound judgement and unbiased opinion, the committee shall nominate eight qualified women—none of which may be on probation either academic or social.

c. Only eight women shall be nominated by the committee but the ballot may hold 12 places to allow for nominations from the floor.

d. The nominating committee should meet Monday, March 17, and present a slate to the women students Wednesday, March 19, so that the final slate of nominees can be posted Thursday, March 20.

e. The election shall be held March 24, in the following manner by secret ballot:

(1) Each woman votes for **four** of the candidates and the resident woman who receives the highest number of votes shall be president, the woman who receives the second highest number of votes shall be vice-president, the woman who receives the third highest number of votes shall be the secretary, and the woman who receives the fourth highest number shall be treasurer.

(Continued on Page Six)

# Editorial Views——

## The Voters Choice . . . ?

Muhlenberg's present system of election is based on the preferential ballot. This system may often be effective when three or four men are running for one position, but when we have about twenty candidates, it proves to lack any real effectiveness. An example of this is the method by which the students elected Student council members last week.

On the ballot appeared eighteen names, and the voter was to place in the adjacent square his choice, by number of preference. Therefore, each candidate has a number, running anywhere from 1 to 18. When these ballots are counted, the candidate with the largest number of first-place votes is automatically elected and all of his ballots are cast aside. The rest of the votes are counted in a similar manner.

Second-place votes from the ballots of the candidates receiving the lowest number of first-place votes are tabulated and tacked on to those in higher brackets. In other words, the man with the lowest number of firsts is out of the race, but his seconds go to their respective candidates. **Second place votes are taken only from the ballots of the losing candidates.** Hence, many times, the council is elected by a vote of the minority.

In this case, the second-place votes of the first winner do not even count. And so with the second-place votes of each succeeding winner, until nine men are elected. We know, for example, that Mr. Tuchinsky was elected on the first ballot. All of his ballots were then obsolete. Supposing, then, that everyone who voted a first for Mr. Tuchinsky also voted a second for another single candidate—we will suggest the name of Mr. Eisenbud. These second-place votes did Mr. Eisenbud not one iota of good since they were cast away.

It appears that these votes are completely non-beneficial—and they are. It also appears that the system we have been using is not completely feasible, since the voters' second choice was not elected.

Our method of election is extremely complex and requires a careful scrutinization before we can fully understand it. It has, however, this one great drawback which should definitely be examined and cautiously rectified so that it assumes a more just and fair way of electing candidates.

## Granted . . . !

Whitman college in Walla Walla, Washington, has discontinued financial aid or guaranteed grants to students who have cars on campus. According to the college officials, 'if a student cannot pay his bills in full he cannot expect Whitman to give him enough financial aid to permit him the luxury of a car."

This stand taken by the administration at Whitman college should be taken into serious consideration here at Muhlenberg. At the present there are many students on campus who possess automobiles and are still receiving financial aid from the college in the form of grants-in-aid. It does not seem that this is fair to those students who are barely making ends meet and cannot afford a car, but who are not receiving a grant-in-aid. In effect, their tuition is paying for the education of the former students, who are permitted the luxury of a car, plus their grant.

Mistakes are also made in our grant-in-aid system through the distribution of jobs and the amount of aid received for them. There is no coorelation between the two. One case may be cited in which two students have worked, during the past year, on the same campus project, in return for a grant-in-aid. The first student (who incidentally does own a car) received $142 per semester for his work, while the other student (who does not own a car) is presently receiving only $50 per semester for the same job. Where does the justice lie in this action? Grants-in-aid are supposed to be given on the basis of financial need, but it is obvious, in this case, that the first student is in better financial condition than the second, and yet he is receiving $92 more per semester.

It seems that a standard should be set for grants-in-aid and that applications for them should be more carefully scrutinized before the grant is presented. With the rising costs of college tuition, room and board, more and more students are going to be in need of financial aid from the college. In the future, the administration should be careful in their selection of students for a grant-in-aid and be sure that he is actually in need of financial help. There are too many grants being given to undeserving students, which could be put to better use.

# Reshevsky Defeats Thirty Challengers

Chatfield and Reshevsky match wits.

by Barbara Fretz

On Monday evening in the College commons, Samuel Reshevsky defeated thirty of the Lehigh valley's top chess players in thirty-nine fast-paced rounds of simultaneous play. Darting quickly from board to board, Reshevsky, a chess Grandmaster since 1935, eliminated all of his challengers within ninety minutes.

The first player to resign did so after only twelve minutes of play. Players began dropping rapidly from the match, some of them totally bewildered at what had happened before they were aware of their undoing. The speed with which Reshevsky made his moves was a constant wonder not only to the players, but also to the crowd gathered around the tables.

**General Discussion**

The last five rounds found only a few contenders still in the match —among them Muhlenberg's Mr. Chatfield, advisor of Berg's chess club. Second last to be defeated was a promising young player from Allentown's Central Catholic high school, Paul Welsh.

Following the actual play, Mr. Reshevsky began a period of general discussion by analyzing what he considered to be one of his best games. As he described his own moves and those of his opponent, the audience plied him with questions. He revealed to them the many possible variations in moves which would have changed radically the course of the game.

**Variations in Moves**

Someone asked Reshevsky if he actually thought of all these variations and their results before he made a move.

His reply was a decisive "Yes. There may be as many as twenty moves and an equal number of variations possible. Each must be considered."

The next question to be directed to the chess master concerned opening moves. "There are no new openings." Reshevsky said, There are only new wrinkles on the old ones. We call them innovations."

**Competition With Russia**

If what Reshevsky said means nothing to you because the intricacies of chess seem beyond comprehension, here is a topic which is sure to attract your attention—competition for chess supremacy between the United States and Russia.

Not only are our satellites in danger, but also our chess players as well. Let Samuel Reshevsky explain.

"In Russia, chess is very popular—seventy million people play it. (Compared to ten million in the United States.) The Russian government sponsors chess. In other words, a good chess player does nothing but play chess. Before each important match he is sent to the Crimea for rest and practice."

Whether the United States stands a chance in the defeat of Russia in chess is a doubtful question

**Practice Makes the Master**

"I believe strongly," said Reshevsky, "that America will exceed Russia in chess strength. We will develop this strength from the experience of being soundly beaten by the Russian team so many times. At present, of the thirty Grandmasters of chess in the world, most of them are in Russia." (Mr. Reshevsky is, incidentally, the only Grandmaster in the United States.)

Reshevsky was formerly a practicing accountant, but gave up his profession in the interest of chess. He believes that more good chess players should be encouraged to devote all of their time chess playing so that they will be able to develop the many skills which are the sign of a chess master. In this way, we in America will be able to capture the honors in the world of chess.

# A Coté des Femmes

by Jan Horvath

It seems to me that more and more members of the Berg family are growing tired of the rivalry between the male students and the coeds on the campus. I am overjoyed to write that being inaugurated onto the feaure pages of the **WEEKLY** is this coed column. Its purpose is to reveal the happenings on the feminine scene as reviewed by a member of the element.

Taking a giant step in the direction of definite unity of the campus is Sue Schell, elected to next year's Student council. While holding this unique position on the council Sue will try to voice, clearly, the opinions and desires of the girls. It will be a difficult job, but the incoming Student council seems willing to cooperate with Sue as she will cooperate with them.

**Football Competition**

Mr. Whispell, football coach, is availing all his possible assets to the furthering of coeducation. This Saturday he is sponsoring a football game on the Muhlenberg field. The two teams, the cardinals and the grays, will consist of members of the college team and will be backed by the coeds and the male students respectively. Plans are underway for a victory dance on a school night following the game. The victory not being so much the triumph of the winning team but rather a furthering of school spirit and coeducation. Irm Engelhart is heading the campaign of the girls and already signs have been posted for the cardinal team. Does this not show the willingness of the girls to cooperate and their desire to be an equal fraction of the school?

Guiding the girls in the election of their new governing council is Dr. Seegers. The election is suggested to be held in the coming week and definite areas are to be set for the jurisdiction of the new council. Thanks and congratulations are due the present council for setting a high standard which the following councils should make as their goal. One of the goals will be to develop a constitution for the women's council.

Thanks again to the **WEEKLY** for this column and to all those who have become sympathetic to our cause and have helped to further rather than hinder coeducation.

# From Here And There

by Stan Heim

Last year as the upperclassmen and alumni watched the renovation and preparation of West hall for the first class of women in Muhlenberg history, they silently sighed with misgiving as they recalled the rather boisterous and tumultous year spent there with Haps Benfer. No longer would West hall see an occasional door knocked off its hinges, a wall bashed in, a sink broken off, cherry limbs resounding through the halls, or an occasional waste basket of water dropped from the third floor into the tranquil sedateness of feminine softness and propriety. . . . . .

The first semester of this year appeared to bear out this metamorphosis, but suddenly like oily rags locked in the dark seclusion of a corner they lashed out in protest and discontent, and proved themselves, much to the chagrin of our Lutheran clergy, human beings and not novices in a convent. I would like to congratulate those "naughty" girls who dared to be human, and also those who wrote letters to the editor.

**Vacillating Authority**

Last week four girls wrote a letter to the editor protesting what they considered the unfair dismissal of their house mother, and her use as scapegoat by the administration. These girls have raised two serious questions and problems. One, which has always been nebulous and mystery shroud at Muhlenberg, and the other which is prevalent throughout the country.

Dean Dietrich pointed out the first problem quite explicitly in her explanation of resignation to the **WEEKLY.** She cited the vacillation and misunderstanding of authority. In one instance she appeared to have authority and backing, and then in another incident this support would suddenly evaporate. The question is who has the power to wield authority and to enforce it impartially and judiciously? Who might be sticking their nose into matters where it doesn't belong and they don't belong?

**Student Responsibility Hindered**

The second problem is prevalent throughout the United States. Dr. Stendahl, last week's Institute of Faith speaker, commented on his amazement, on first arriving in this country, at the policeman-like, regulatory duties which the colleges assume in this country. The dormitories and the Deans and the regulation of a student's social life. This is, of course, more true for girls than for men. Our colleges refuse to allow girls to assume personal responsibility for their own beings, and persist in protecting them from the vicissitudes of life and from learning to be adults.

A man can be indiscriminate and still maintain a respectable reputation and social acceptance. However, the same is not true for the female. If a girl hasn't learned where her bargaining power in life lies by the time she's eighteen, she's either been secluded in the isolation box of a psychologist or else she just doesn't give a hoot. A girl of college age should be aware of this fact, and it should be up to her to either preserve this bargaining power or dissipate it and destroy it. Each has its consequences.

**Women's Effect on Men**

When speaking of the male's achievements in life women love to remind them that the male owes a great deal to the women behind them. This may have some validity, but the opposite may also be true. A woman can often hinder and be deleterious to the ambitions and potentialities of a man. Both of these have been varified in history and may be seen in our own surroundings. The administration building is no more immune from this than any other segment of life.

## 'Round Campus

**Thursday, March 20**

**The Pre-Med banquet will be held at Lafayette college at 6:30.** There will be a meeting of the Muhlenberg Christian association in the Student center lounge at 7 p.m. Mr. Amnon Hennacy will be the guest speaker.

**Friday, March 21**

**MCA play "Murder in the Cathedral" will be presented in the Chapel at 8:30.**

**Saturday, March 22**

"Murder in the Cathedral" will be presented in the Chapel at 8:30.

**Monday, March 24**

**Phi Alpha Theta will meet at 7:45 in the Commuters' lounge at West hall.**

**Thursday, March 27**

The annual **WEEKLY** banquet will be held at the Willows at 6 p.m.

# Distinctive Council Honor Awaits First Berg Coed

by Ron Moxey

Last week, setting another precedent in the rapid regeneration of Muhlenberg college, was the election of Sue Schell to the Muhlenberg Student council for the '58-'59 school year. By being elected to this office, Sue will be the first girl to serve on the student governing body in the 110 years of the College's existence.

Sue Schell

Sue is a native of Allentown living at 1712 Highland street. She enrolled at Berg as a junior following her graduation from Linden Hall Junior college, Lititz, Pa. While at Linden Hall, she received the citizenship award and graduated Cum Laude. At Muhlenberg she is an English major and intends to teach upon graduation in June 1959.

**Other Talents**

Campus politics are not totally new to Sue since she was a member of student council when an undergraduate at Linden Hall. However, politics is not the only extra-curicular activity that Sue has indulged in. She has also proven herself adept in the fields of singing and dramatic acting. Possessing a rich contralto voice, she received in high school the sophomore music award and as a senior she was awarded the Gold Key for Dramatics. She was also soloist in the state and district choruses during her senior year at Allentown high school.

Commenting upon her newly acquired position and the coming year Sue feels that now that a woman is on council that the coed will have a voice in student government for years to come.

Sue is engaged to Kenneth Posch, a graduate of Muhlenberg with the class of 1956. Ken holds an assistantship in Bacteriology at Lehigh university.

# Eighth Bowl Tournament Announced

The Eastern Intercollegiate Bowling Conference, in a letter to the **WEEKLY** Sports department, this week announced the 8th Annual Eastern Intercollegiate Individual Match Game championship. The tourney will be held in the Bolmore Recreation, 110 University Place in New York city on the weekends of April 26-27 and May 3-4.

The letter to the **WEEKLY** from Mr. Robert F. Ernest, EIBC statistician, stated, "last year the tournament attracted about 150 students from thirty-three colleges. This year we are out to see that at least one or two good bowlers from each college in this half of the country compete in the tournament. Therefore, we would appreciate your aid in securing entries from the best bowlers in your school."

**Entry Blanks**

Information concerning time and place is included on the entry blank which was enclosed with the letter. Additional entry blanks, the letter stated, have been sent to the director of athletics. Any one interested in entering the tourney should contact either Bob Nuss, Ben Livingood, or the athletic office. Muhlenberg college was represented at the tournament last year.

The qualifying round will be held at the Bolmore Recreation on Saturday, April 26; Sunday, April 27; and Saturday, May 3. The semi-final round will be staged on Saturday, May 3, with the final round scheduled for Sunday, May 4.

The tourney is open to any male undergraduate of a four year accredited college. All entrants must be in good scholastic standing, as determined by their school's standards . The entry fee, which includes all bowling charges ,is $6.00 per man. Entries must be postmarked no later than April 20.

**Tournament Awards**

Tournament prizes include:

First—The 22 inch V. Loria & Sons Collegiate trophy which remains at the school of the champion for one year. A school must win three years in succession for permanent possession. Plus 1st place statuette for winning bowler.

Second—2nd place statuette.

Third—3rd place statuette.

Special—A special trophy will be awarded to bowler with high single game of tourney.

Finalist and Semi-finalists—All finalists and semi-finalists will receive trophies.

# Bushkill Art Academy Offers Drama Course

This summer a special training course will be held by the Bushkill Academy of Performing Arts in Bushkill, Pa. The course will commence on June 30 and end on Labor day. This will include nine full weeks of instruction in all branches of the performing arts.

All students will have an opportunity of taking part in the summer stocks plays presented in the 500 east Bushkill playhouse, and weekly T.V. and radio programs.

There are all recreational facilities, including swimming, tennis, golf, and horseback riding. For illustrated brochure and full particulars, write to The Administrator, Bushkill Acadamy of Performing arts, Bushkill, Pa.

# Jazz Society Meeting

**There will be a meeting of the Jazz society on Monday, March 24 at 7:30 p.m. in the Student center. Plans will be made for the coming jazz concert. All members are urged to attend.**

# Arnold

*by Bill Johnson*

SPRING HAS SPRANG.... AND I AM NOW READY TO TRY THE LINE I HAVE BEEN PERFECTING ALL WINTER!
I'VE A DATE TONIGHT. I'LL MANEUVER HER INTO A KISSABLE MOOD WITH MY NEW UNBEATABLE TECHNIQUE!
HYA HONEY! (HERE GOES.) YOU'VE NO DOUBT HEARD OF BIRDS AND BEES!
HI. LET'S NECK.
YOU'VE SEEN A FULL MOON... FELT THE STIRRINGS OF ROMANCE ... DREAMED OF LOVE..
LET'S NECK, ARNIE.
... BABY, IT'S SPRING — IT'S THE BEWITCHIN SEASON
LET'S NECK
SO O.K.
SOMEHOW I DON'T GET THE FEELING THAT I DESERVE MUCH CREDIT FOR ALL THAT!
Bill Johnson '58

# Letters To The Editor

To the Editor:

In answer to Mr. Meyers' request that I clarify my statement concerning the relative importance of the Muhlenberg college band and the choir, first let me say that no slur was intended in the case of the latter. Rather, it was an attempt to give credit to an organization that has made tremendous strides under the leadership of Albertus Meyers.

Prior to Mr. Meyers arrival at Muhlenberg, from Allentown high school, the band was practically nonexistent and played a very small role in campus life. Two years of Bert's leadership has brought new life and resurgence of interest on the part of the campus.

The re-institution of physical education classes for band members can do nothing but harm to the excellent beginning that has been made.

The administration was on the right track when they offered no physical education classes for band members in an effort to build up incentive. Now, when their program is bearing fruit, they have seen fit to reverse their stand which will probably lead the band back down the road to decline.

Hoping for better understanding from the administration.

Signed,
Bob Perlstein
Dick Kaufman

To the Editor:

The Muhlenberg Concert Series which has attracted the enthusiastic support of many lovers of choral and instrumental music over the years, once more proved the merit of its discriminating and varied fare. This past Sunday's concert was to my mind, one of the finest I have heard at Muhlenberg. The filled chapel testified to the loyal support of the Muhlenberg community.

Ludwig Lenel once again commended the respect of this auditor by the scope of his musical selection and the keen insight he brought to bear upon the several numbers. Obviously the director's vast experience in his field and his skillful direction of the Choir contributed greatly to the success of this concert. However, a conductor without a choir of merit would indeed be lost. The "mixed" choir certainly performed with consummate devotion to the music they rendered.

Faure's **Requiem** was superbly rendered. The choir masterfully conveyed the pathos and dignity of its subject. Too, the ringing message of joy and hope show forth in the **Sanctus** and In **Paradisium.** Both director and choir successfully resisted the temptation to render a sentimental rendition of this distinguished work. Fortunately, chasteness has not vanished from "sacred" music!

Muhlenberg can well be proud of its choir and their distinguished director. One could only hope that this program be a harbinger of choir concerts to come.

Edward O. Smith, Jr., '57

---

To the Editor:

On the evening of March 16, 1958 at 10:30 p.m., the women of West hall held a meeting conducted by Jayne Kuntzleman, president of Women's council. The council made proposals relating to the coming elections of the new Women's council which were approved as read. However, there was some discussion in reference to who is qualified to be nominated for office. The controversy was concerned with section III-B which reads as follows:

"Using sound judgment and unbiased opinion, the committee shall nominate 8 qualified women—none of which may be on probation either academic or social."

Sufficient reasons were given by Miss Kuntzleman why those on academic probation should be excluded from the nominations for the new council. We feel, however, that those reasons stated by Miss Kuntzleman, the council, and the floor as to the exclusion of those women on social probation were inadequate.

"As part of their punishment" was one reason stated by Miss Kuntzleman as to why those women on social probation were excluded from the nominations. The punishments for those women on social probation were officially given on February 22, 1958. At that time there was no indication, upon the reading of the judicial judgment, that further penalties be inflicted. If these women are satisfying the requirements of the punishment as stated by the Women's council, then why

(Continued on Page Six)

# Resorts Now Hiring College Students

In the spring when a young man's fancy turns to love, a college student's mind turns to the thought of a job for the summer.

For some students, a summer job is required if he or she is to have adequate finances for the coming year. For others, a summer job serves as something to do for the summer months. Whether you fall into either of these categories, now is the time to be thinking about a job for next summer.

A small percentage of college students will stay home and take whatever jobs are available there, while a greater margin will go all over the 48 states to America's resorts and summer wonderlands to work during the summer months in hotels, restaurantss, at beaches, canneries, and many other summer jobs that are open to college students. For most of these resorts, little or no experience is required, and students, failing to realize this, do not try to work at summer resorts while they are on vacation from colleges and universities.

At summer resorts, students meet many new and fascinating friends and opportunities. At resorts, students can save as much as $1,000 with little effort. Recreation is always available at these resorts and there is always plenty of free time. At these resorts a student may work as a waiter, waitress, cashier, busboy, grillman, short order cook, caretakers, supervising children's play groups, lifesaving, secretaries, teaching swimming and many other jobs that most all students fall into very easily.

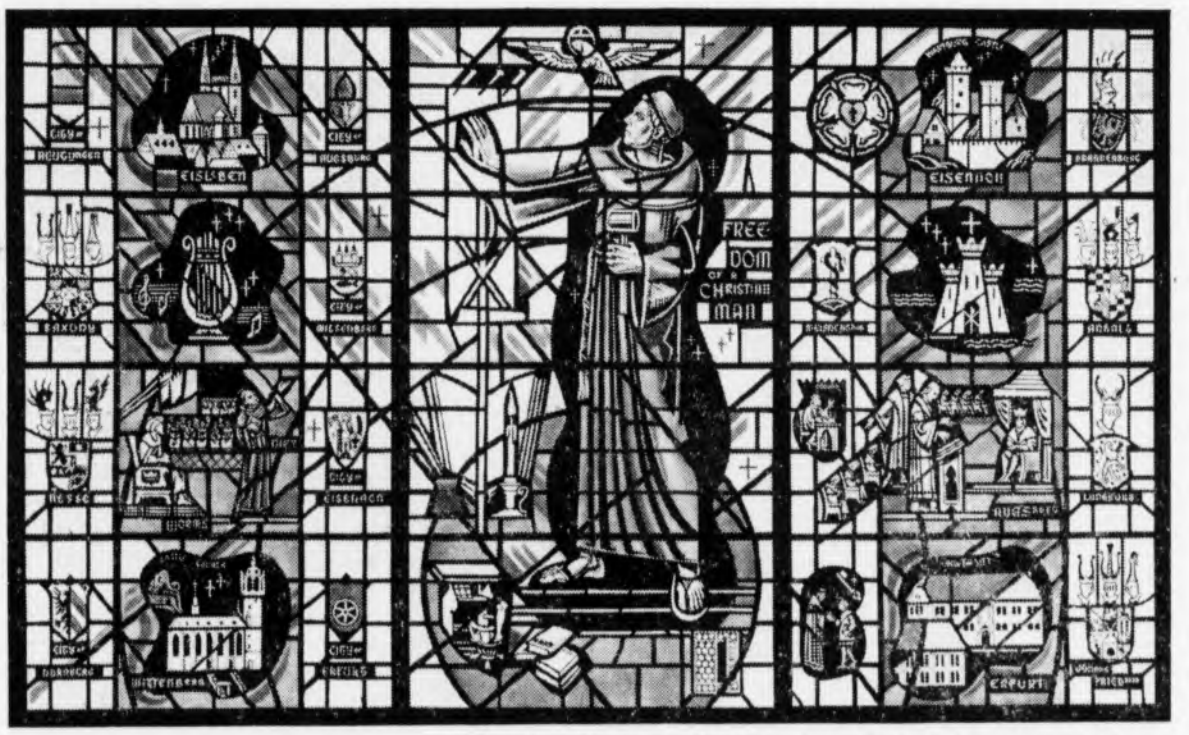
Most resorts are glad to get college students for the summer months because they are more adequate, more versatile, neater, better workers, and generally better all around than the average person applying for jobs at these resorts.

The boy-girl ratio at these resorts usually runs about even although it may vary slightly from resort to resort.

At most resorts, students receive a salary and tips and the tips enable the student to make good money often exceeding $100 weekly. Most people will tip a college student more than they would an ordinary waiter, waitress, or other employee working for tips so a student has a definite advantage here.

Some of the resorts that are now hiring college students for next summer are Lake Placid, N. Y., Atlantic City, N. J., Miami Beach, Fla., Nantucket, R. I., Cape Cod, Mass., many summer resorts in the mountains of North Carolina and Virginia, Fontana Village in North Carolina, Myrtle Beach, S.C., Ocean City, Bd., Catskill Mountains of New York and many others.

A student information center is located in Chapel Hill, North Carolina and for $1 service fee to cover cost of materials and application form, a student may receive complete information and on the exact time to apply to the specific resorts offered by the information center. Anyone desiring this information should send the service fee immediately with information about yourself so the jobs suited to you can be referred in information. The address is Student Jobs, 110 Mangum, Chapel Hill, N. C.



*Reformation Window, in beautiful colors on stained glass, as seen in the new Lutheran Brotherhood Home Office building. It forms the west wall of our Martin Luther library which contains works on Martin Luther and the church.*

## What is the relationship between Lutheran Brotherhood and the Lutheran Church?

At a Lutheran Church convention, 40 years ago, in St. Paul, a prominent layman stood up to persuade the group that Lutherans should work together to help each other in time of trouble.

To make his point, he used a simple illustration: "Suppose two brothers made an agreement," he said. "Each promised that if the other died, he would provide for the widow and her children. That would be, in effect, an insurance contract."

A few days later the organization now called Lutheran Brotherhood was incorporated by church leaders. Its purposes were "to aid the Lutheran Church; to foster justice, charity and benevolence; to provide education . . . to encourage industry, savings, thrift . . . to furnish relief and protection to its members, their dependents and beneficiaries, through the payment of benefits in case of death or disability."

While its primary purpose is to give protection to members of the Lutheran Church, the Lutheran Brotherhood also helps build churches by loaning money . . . helps train church leaders by providing scholarships . . . helps churches grow by giving money and supplies.

The Lutheran Brotherhood serves members of all Lutheran Churches with "Living Benefits."

**Free Upon Request.** Beautiful full-color reproduction of the Reformation Window above. Complete with historical legend. Large size (18″x 24″). Heavy stock, suitable for framing. Mailed in tube. No obligation, of course. Send your name and address today.

*Living benefits for Lutherans through life insurance*

# Pastor Jack Speaks In West Hall Chapel

Reverend Robert Jack, parish pastor at Vatnsnes, Iceland, will be the guest of Muhlenberg college from Monday, March 24 to Friday, March 28. Presently, he is engaged in a preaching mission for the Air Corps. Pastor Jack, considered one of the most powerful preachers in Iceland, will be brought to the United States under the auspices of the State Department and the National Lutheran council.

Pastor Robert Jack

During his five day stay at Muhlenberg, Pastor Jack will avail himself to speak in various classes. Along with appearing before the Muhlenberg Christian association and other campus organizations who will solicit him, he will preach in chapel on Thursday and Friday at the regular services. Off campus, the pastor will be engaged in a number of sermons at St. John's Lutheran church in Allentown.

**Native of Scotland**

Reverend Jack is a native of Scotland. He graduated from the University of Glascow and was a student at the Theological seminary of the University of Iceland for five years. His ordination took place in the Lutheran Church of Iceland in 1944. The ordination distinguished him as the first foreigner to be ordained by this church over a period of five hundred years.

He assumed his first pastorate on the Arctic Island of Grimsey. Following this, he spent two and a half years in Manitoba, Canada as pastor to the Icelandic settlers. Another feature of his career was the establishment of chaplaincy services for United States troops in Iceland. Coupled with his preaching mission, Pastor Jack is currently serving as the Protestant representative for chaplaincy services at the U.S. Air Force Base at Kaffavik and radar outposts.

His book, "Arctic Living", was first published in 1956. He holds an excellent command of the English language and frequently lectures on such topics as "The Road," "Spirit of Things," and "The Way, The Truth," and "The Life." In his sermons and discussions, the pastor brings out an explicit relationship between the arts and theology. Intellectual in his own right, Pastor Jack also pursues sports and social activities.

**YMCA Service**

In a game called "foot balls," an Icelandic adaptation of English soccer, the pastor serves as an able referee. And during World War II, he served with the British YMCA and the American Red Cross. His services were directed mainly to the military personnel in Iceland.

Reverend Jack will be in the United States on an invitation from the State Department. His purpose will be to conduct a preaching mission at Andrews Air Base in Washington, D. C. By request of the National Lutheran Council he will make an intensive study of parish life, evangelism, and youth work in the U. S.

**Students interested in interviewing for a summer counseling job will have an opportunity to meet with Mr. Durdan, director of Conrad Weiser camp, on Tuesday afternoon, March 25 from 2-4 p.m.**

**If interested, please sign the forms in the office of the Dean of Men.**

# New Fraternity Seeking Intellectual Stimulation

**by Phil Feigenbaum**

A new Honor society, Nu Epsilon Lambda, is to be formed here at Muhlenberg. The objects of the society shall be:

1. To serve as a forum for the exchange of ideas among students and faculty members interested in literature.
2. To promote greater interest in research and advanced study in this field.
3. To provide opportunities for the publication of papers of merit.
4. To encourage a professional spirit and friendship among those who have displayed ability in this field.
5. To stimulate interest in literature among the general collegiate public.

Beyond this ,and, indeed, standing as purpose above the formation of this organization, is recognition of the lack of intellectual endeavor at this college.

In comparing institutions of higher learning in this respect, one does no more in realizing Muhlenberg's position above the many lesser ones, than in placing her below the best of them.

What should be accomplised, at best, is the realization of exactly what is here—then ,the immediate thought of what can be done to improve it.

No one will more than passingly note or long remember what is said here; but, all realize that the guiding principle before any attempt at teaching or learning should be direct, personal involvement in an intellectual atmosphere.

This, it is hoped, is what Nu Epsilon Lambda will help to further.

Membership is open to any individual who clearly demonstrates an active interest in the works and purposes of the Society. Reception into membership shall be consummated without formal pledge or secret-order training.

There is to be a meeting of all those interested in such an organization in the offices of the English Department at 4:30 p.m., Tuesday, March 25.

**MUSIC ROOM NOTICE**

**The Music room in the Library is now open again to students. Open hours are on Monday, Wednesday, and Thursday evenings from 7:30 to 9:30 p.m.**

## Fashion Show Held In West Hall Chapel

Junior Colony shop of Allentown presented a showing of spring and summer creations on Saturday, March 15 in the West hall chapel. The women of neighboring Moravian college and parents of the co-eds, as well as some Muhlenberg men, were guests for the afternoon.

The chemise was featured, along with sportswear and dance dresses. Orange was the predominant color. A new in bathing suits, the deep scooped back, was also introduced.

Each model made three appearances in a different costume. Women of Muhlenberg did the modeling.

An informal social in the basement lounge followed the show. Punch and cookies were served.

Modeling the Junior Colony clothes were Joelyn Borelli, Jane Creveling, Sonya Diamonti, Doris Gack, Dolores Gemenden, Carol Hodgson, Barbara Lindsay, Joanne Ormond, Linda Patnoi, Marlene Rachmiel, Marilyn Schier, Anne Schonberg, Marge Sos, Taimi Toffer, and Chickie Zimmerman.

## Freshman Vocational Guidance

**If you are undecided about your vocational goal, you may want to take the Strong Vocatioal Interest test that will be given on Wednesday afternoon, April 9, at 3:15 p.m. in rooms 200 and 201 Administration building.**

**Any freshmen who want to take advantage of this opportunity may register with Miss Lentz, the telephone operator, any time up to March 28.**

**This is part of the counseling services provided by the college and there will be no fee.**

# Montavani To Appear On College Campus

**Montavani, who will appear with his orchestra of 45 at the Muhlenberg college Memorial hall on Monday evening, March 31. His orchestra has been one of the most popular in the country during the past three years.**

Montavani, and his world famous orchestra of 45, will appear at the Muhlenberg college Memorial hall on Monday evening, March 31 at 8:30 p.m. Sponsored by the Junior Aides at the Allentown hospital, Montavani will present a concert consisting of his celebrated "new music."

This is the first appearance of Montavani in the Allentown area, but his music has had all America spellbound during recent years. The United States had already known him through his fabulous recordings resounding daily through all walks of life; in homes and schools, factories and restaurants, wherever music-loving people congregate. In the fall of 1955, when the American public had their first opportunity to hear the great recording star and his orchestra in person, they flocked in every city, making sellout the rule rather than the exception.

A cascading melodious line supported with a novel concept of orchestral arrangement is the key to the unprecedented popularity of Montavani and the "New Music" that is now the byword with record fans.

**Venetian Born**

The Venetian born Londoner, coming from a musical family and a background of rigorous training in the classics as violinist and conductor, experimented in instrumentation with his own orchestra from the age of 21 in fashionable London hotels, in the theater as musical director for Noel Coward, and for motion pictures. His newest recording, "Montavani Film Encores," embracing memorable songs from motion pictures arranged in his inimitable style, is a runaway best-seller.

Now he returns to America for his third tour by overwhelming popular demand—a concert figure who has something for everyone—be it the 300 year old "Green Sleeves," a serenade by Tscheikowsky, a waltz by Strauss or the strains of "Charmaine" which has come to be Montavani's theme song.

Tickets for the concert in Memorial hall may be obtained in Allentown at Kramer's Music house, Speedy's Record shop, or the Allentown Hospital Alcove.

The prices of the tickets are from $1 to $5. The $1 tickets are located in the bleachers.

# Army Requires Science Majors

Applications are being sought from qualified scientists and engineers for employment at the Redstone Arsenal and Army Ballistic Missile Agency at Huntsville, Alabama, the U.S. Civil Service Commission has announced. Redstone is the control center of all activities in the Army's guided missile and rocket weapons fields. Employment in these positions provides opportunity to serve with top scientists, engineers, and military technicians in vital and challenging work essential to the national defense.

There is an immediate and urgent need for chemists, engineers, electronic scientists, mathematicians, metallurgists, and physicists for filling positions with salaries ranging from $4,480 to $12,900 a year. Information about the requirements to be met is given in civil service announcement No. 5-35-1(58) which may be obtained from many post offices throughout the country or from the U. S. Civil Service Commission, Washington 25, D. C.

Applications for these positions will be accepted until further notice and must be filed with the Board of U. S. Civil Service.

# Spring Practice To Be Ended With Intersquad Competition

by Bob Schumacher

Muhlenberg college's spring football practice draws to a close after a grueling and spirited sixteen days with an intra-squad game this Saturday. The team will be divided into two squads, the Cardinal and the Gray, and will commence at 1:30. Letters have been sent to the parents of each player and the game is open to all students. In an effort to further school spirit, head coach Whispell has asked that the coeds and fraternity houses back the Cardinal team and that the Gray team receive support from the men's dormitory. An added attraction will be the presentation of awards to the outstanding lineman and back selected by the coaches following the game.

Warming up for the Cardinal and Gray intersquad game this Saturday, Muhlenberg's gridders run through some line play in preparation for this spirit-promoting contest.

**Cardinal Team**

The Cardinal will be directed by assistant coaches Jim Kozlowski and Austin Short and senior Art Wright. The coed and fraternity backed squad includes the following twenty-four men: **Ends:** Jack Young, Joe Moskowitz, Fred Schwenk, Joe Billger, and John Groon; **Tackles:** Clair Miller, Bob Heiter, Art Hahn, and Al Stott; **Guards:** George Solomon, and Glenn Johns; **Centers:** Ed Callahan, Ed Davis, and Bill Meyer; **Quarterback:** Ralph Borneman, and Bob Rosenheim; **Left halfback:** Herb Owens, Dick Anderson, and Bill Durham; **Fullback:** LeRoy Spangler, and Joe Duvo; **Right Halfback:** Paul Clymer, Claude Wilson, and Bob Glassmyer.

**Gray Squad**

The Gray team will be managed by assistant coach Bill Flamish and seniors Paul Whitcraft and Bill Carty. Supported by the men's dormitory this team boasts the following twenty-two players: **Ends** Mike Kurtz, Ben Schoellkopf, Vince Rosso, Phil Ehrig, and Paul Barnett; **Tackles:** Cyrus Ohnmacht, Craig Moyer, and Arnie Hoberman; **Guards:** Don Novak, Wil

# Berg Baseball Team Prepares For Opener

Thirty-two varsity aspirants are presently working out in preparation for Muhlenberg's 1958 baseball campaign. This year a great deal will depend on the performances of several inexperienced sophomores and juniors who must compensate for lost manpower due to graduation and a small nucleus of senior hopefuls.

Thus far, coach Jim Koslowski has been unable to conduct practice outside due to the unpredictable weather. Because of this, he is of the opinion that the players will have to play themselves into condition for the opening game with Lafayette. The Leopards, although hit heavily by graduation, will have a decided edge as they will enter this contest with seven games under their belts as a result of a tour through the south during the Easter recess.

**Optimism**

Nevertheless, skipper Koslowski is rather optimistic due to the return of several outstanding veterans and a host of promising sophomores. Heading the list of returning lettermen is outfielder Claude "Pat" Wilson who, in 14 games as a sophomore, batted .353 in 51 trips to the plate. Among his eighteen safeties were three doubles and three triples—both team highs.

Other returning lettermen include pitchers Charles Takacs, a senior, and Fred McNaughton;

# I-M CORNER

by Jack Coughlin

Action in the I-M League last week saw Lambda Chi Alpha make up a halftime deficit of 26-20 against the Commuters and win by a 50-48 score. High man for the winners was Mike Woolley and Pat Wilson picked up 20 for the losers.

The Vets downed the Phi Epsilon Pi quintet by a score of 51-40. Charlie Handwerk led the scoring for the Vets with 19 points and Don Wendling contributed 11 more. Gil Sopher was high for PEP Boys with 17 points. G-Hall nipped PEP Boys "B" team in a close one that wound up 37-36. Tom Wargo led the way for the dorm quintet with 10 points. Butz and Olsen contributed 8 each for the victors. Borden was high for the losers with 10 points.

**ATO "B" Wins**

Wilson Gum collected 16 points in the Alpha Tau Omega "B" team victory over the Warriors. Hahn picked up the same number for the losing five in the game that finished up 48-41. TKE came out on top, 51-40 in their contest with the Commuters. Bob Cardonsky hit for 14 points to help out the Tekes and Johnson dropped in 18 to be the high scorer for the game. The Bell Boys took measure of the Mules, 42-39. Frank Csaszar took scoring honors with his 22 points and Mike Bertolet was high for the losing Mules with 11.

Rick Sloan led the Alpha Tau Omega "A" team in their victory over Phi Epsilon Pi "B" team, 43-24. Rick picked up 14 and was assisted by Bob Nuss with 13. Finkle led the Fulton Street "B" team with 9 points. Tau Kappa Epsilon came out on the winning end of a 43-38 ball game with the Warriors. Herb Siegle led the victorious Tekes with 10 points and Hahn led the losing quintet with 15. Herb and Peoples picked up 13 and 12 points respectively to aid the Roonies in their 46-23 conquest of the ATO "B" team. Wilson Gum contributed 12 for the losers.

**Overtime Tilt**

At the end of the regular game the Tri Staters and the Bell Boys were tied with 37 points each. The game went into overtime and the Tri-Staters out-scored the Bell Boys to win 43-41. Higgins and Yost were high for the victors with 18 and 15 respectively. Thomas picked up 17 for the losing cause of the Bell Boys. The Schmekials defeated Phi Kappa Tau "A" by a score of 47-37. Joel Moskowitz did his share in the victory when he picked up 14 points. Ken Harris picked up 13 more for the winners. Ray Croft of PKT was high scorer for the game with 20.

The undefeated Lambda Chi quintet went on to roll up another victory at the expense of the Vets. Jack Young led the socring for LXA with 17 points and Charlie Handwerk dropped in 23 for the Vets. Final score read 54-50.

**Pep Boys Victorious**

Ed Smith and Dave Auerback connected for 13 points each in the Phi Epsilon Pi "A" team victory over the PKT "B" team. Frank Claire added another 12 for the victors in the 49-26 ball game. Haines was high for the losers with 11 points. Ray Croft and John Holcroft teamed up to give the Phi Kappa Tau "A" team a 46-38 victory over the Tri Staters. Ray picked up 12 and John dropped in 14. Higgins contributed 7 for the Tri-Staters. In the final game of the week the Schmekials downed the G-Hall quintet, 37-28. Roy Spangler led the scoring with his 17 points.

# Basilio's Size Questioned By Boxing Experts

Carmen Basilio is the lightest and smallest man to hold the world middleweight championship. Weighing only 153½ pounds and standing only five feet, seven and a half inches in fighting shoes, he won the 160-pound title from Sugar Ray Robinson in a king-sized brawl at Yankee Stadium last September 23. Now, the current issue of Sport Magazine asks: "Can Basilio compete successfully among the brawny men of the 160-pound class? That is, can he do so without being badly hurt?"

Not content with the obvious answer that Basilio beat just about the best middleweight of recent time when he took the decision from Robinson after 15 rounds, Sport, in the person of writer Barney Nagler, asked a few of the experts what they thought.

**Physical Fitness**

On the grounds that Basilio's manager and co-manager may be slightly prejudiced, we will just barely note here that they feel Basilio is safe from excess harm because of his excellent condition and the intense desire to win.

Sport then asked Charley Goldman, the venerable fight trainer who handled world champions named Lou Ambers, Joey Archibald, Marty Servo and Rocky Marciano.

**Strong Fighter**

To the question, is Basilio running the risk of getting hurt fighting middleweights now that he is the middleweight champ?", Goldman answered, "I don't think he does. He's an exceptionally strong fellow. He's like Mickey Walker."

Goldman went on to say, "A lot of people don't give Basilio credit for defending himself, but he closes up pretty good. He's been in with clever fellows and he didn't get hit too often."

Jimmy Braddock agrees with Goldman and adds: "Basilio also has a punch. He whittles them guys down to size where they don't think about hitting him. They think about protecting themselves. That's why Robinson ran so much when they fought."

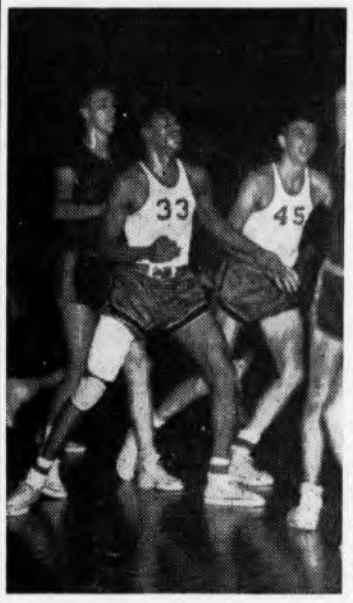
As for sportswriter Barney Nagler's opinion: "Carmen thinks clearly in combat. His prime asset is a punch, but there is more in his arsenal. Development of his style was a study in survival of the fittest; he put his small stature to work by learning how to take a few jabs before setting up his opponent for the left hook. He demonstrated this against Robinson. He was a weaver who punched out of a rolling motion."

# SPORTSCOPE

by Bob Nuss

The 1957-58 basketball season is now history but before entirely forgetting its ups and downs, its upsets and disappointments, I think it fitting to make special mention of the most outstanding player on that squad—perhaps the most outstanding player in the history of the school—Clint Jeffries. For three years now, "Jeff" has been a mainstay on the varsity squad and has provided us with many of our long-remembered thrills. Although statistics never tell the whole story, they are perhaps the only way we can make comparisons of outstanding accomplishments in the field of sports.

Clint played in 75 games in his varsity career, missing only one game due to illness. In his first game of varsity competition, against Kutztown State teachers college, he scored four points, and in the last game of his career he scored 19 points against Bucknell. During this past season "Jeff" scored 399 points, one short of becoming the only player in Berg history to score 400 points in two or more seasons. His field goal average was 42.5% as compared to 44.6% in the '56-'57 season and 39% in the '55-'56 season. During the '57-'58 season he averaged 16.6 points per game in 24 contests as compared to 14.8 points in his junior year and 16.1 his sophomore year. In his senior year he was high scorer and second in rebounds to Mel Kessler who had 281. **Jeff was also high scorer in his sophomore year when he scored 403 points for his only season over the 400 point mark.**



**High Games**

High scoring marks in Clint's career were again Albright during his senior year and St. Joseph's during his junior year when he scored 31 points. He also scored 29 points against St. Joe's in his senior year.

**Jeffries career total of points scored was 1187. This places him fourth among all-time Muhlenberg scoring greats.** The only men exceeding his point total are Harry Donovan who scored 1521 points between 1945 and 49; Bobby Gall who garnered 1277 points during the 1953-57 seasons; and Denny Roth who scored 1248 points during the same period of time. One thing to be noted however, is the fact that all these totals were amassed during a period of four years of varsity competition. Jeffries scored his 1187 points during three years of competition. At this rate of scoring, he could have replaced Donovan as all-time scoring great, had he played four years of varsity ball.

Here now are the statistics. Accept them for what they are worth. However, keep in mind that they were made by Clint Jeffries, one of Berg's all-time basketball greats.

# . . . Student Council Report . . .

March 13, 1958

The regular meeting of the Muhlenberg college Student council was called to order at 7:07 p.m. by President Luis Torres.

**TREASURER'S REPORT:—**

| | |
|---|---|
| Student Body fund | $2,201.74 |
| Social fund | 2,160.21 |
| Assembly fund | 1,711.52 |
| | $6,073.47 |

**COMMITTEE REPORTS:**

**Chapel:**—Mr. Ueberroth presented the report of the Chapel committee. By action of the Student council, two students had eight slips revoked each, and one student had five slips revoked.

**Assembly**:—Mr. Skweir reminded council of the assembly program next Wednesday in the Science auditorium at 3:15 p.m.

**Elections:**—Mr. Shellenberger announced that Council officer elections would be held next Wednesday from 9 a.m. to 4 p.m.

A discipline case was then presented to council. The man was fined $5.00 and given a reprimand.

**OLD BUSINESS:—**

On motion by Mr. Ueberroth and Mr. Shellenberger, the Student council accepted the following list of students as members of the 1958-59 Freshman Tribunal:

| | |
|---|---|
| Mr. Philip Eichler, chr. | Mr. Richard Kirschenbaum |
| Mr. Richard Kennedy | Mr. Barry Leighton |
| Mr. Michael Beinner | Mr. Terrence O'Brien |
| Mr. James Waller | Mr. Philip Ehrig |
| Mr. Herbert Schwartz | Miss Meredith Bottum |
| Mr. Robert J. Miller | Miss Carolyn Hottinger |
| Mr. John Mondschein | Miss Ettorina Fantozzi |

These students were recommended to the council by the members of the Executive Committee.

**NEW BUSINESS:—**

On motion by Mr. Skweir and Mr. Shellenberger, the Women's Dorm Council will be required to submit a constitution, complete with method of election, to the Student council.

On moton by Mr. Leighton and Mr. Skweir, $25.00 will be allocated to the Cardinal Key society.

On motion by Mr. Leighton and Mr. Spector, the following budget for the Spring Semester was adopted:

| | |
|---|---|
| Balance of accounts 2-27-58 | $11,563.49 |
| Transfer from college | 1,937.25 |
| Anticipated income | 25.00 |
| Total Assets | $3,525.74 |
| Anticipated Expenses: | |
| Maintenance of Student center | $ 125.00 |
| Miscellaneeous | 75.00 |
| Administration expenses | 100.00 |
| Total expenses | $ 300.00 |
| Organization Allocation | 1,299.00 |
| Total expenditures | $1,599.00 |
| Balance June, 1958 (anticipated) | $1,926.74 |

Mr. Skweir moved and Mr. Markoe seconded a motion that the Student council recommend to the Administration that Muhlenberg women be allowed in fraternity houses Saturday afternoon and evenings from 1 p.m. until midnight and Sundays from 1 p.m. until 6 p.m. Motion carried.

Mr. Ueberroth moved and Mr. Leighton seconded a motion to allow Muhlenberg women in the lounge areas of Martin Luther Hall between the hours of 2 p.m. and 5 p.m. on Saturdays and Sundays. Motion carried. This will be referred to the Administration for approval.

Mr. Leighton moved and Mr. Piston seconded a motion that the Student council ask the Women's Dorm council why male students are not allowed in the downstairs lounge of West hall. Motion carried.

On motion by Mr. Piston and Mr. Markoe, the meeting was adjourned at 8:49 p.m.

Respectfully submitted,
RAY UEBERROTH, Recording Secretary

## WEEKLY Officers

(Continued from Page One)

editor; Chuck Trexler, feature editor; and Ben Livingood, sports editor. All three of these men will be moving up from their positions as associate editors and will assume office on April 7. These men's positions will be officially announced at the **WEEKLY** banquet.

The annual **WEEKLY** banquet will be held at the Willows on Thursday evening, March 27. At this time the new editorial staff will officially assume their positions. The guest speaker for the evening will be Adm. Charles Moses, head of the development office at Muhlenberg, Adm. Moses' talk will be on "Development Plan For Muhlenberg." All members of the **WEEKLY** staff are invited to attend this banquet. The cost will be $1.25 per person, payable in advance to either Karl Becker, Ron Moxey and Jim Piston.

## The Chowline

Once again the members of the Snack bar staff find it necessary to ask the students for cooperation.

First of all, the commuting students are once more disregarding our pleas for consideration. Again the situation has degenerated to the point where plates, glasses, silverware, and cups and saucers are not being returned to the first floor. Under such circumstances a number of people are inconvenienced due to the lack of judgement of a few forgetful students. This trend must not be allowed to continue If cooperation is not forthcoming, restrictions will, by necessity, be imposed on the students eating in the Commuter's room.

Secondly, the editors and staff members of the Muhlenberg **WEEKLY** must also attempt to renew a fading cooperation. Recently a sharp increase has been detected in the numbers of used utensils coming to rest in the **WEEKLY** office. We ask that these utensils be returned, lest restrictions be imposed on the newspaper.

And finally, when you're finished with your coffee cups and coke glasses, please return them to the counter. Your cooperation will be greatly appreciated. This request applies to members of the faculty as well as to the student body.

We hope these requests will be acknowledged and that future ones be kept to a minimum. Suggestions from the student body are welcomed.

**Adv.**

# Council Proposes Election Methods

(Continued from Page One)

IV. The floor representatives shall be elected by the members of their representative floor section in the Fall, no later than the end of the second week of classes.

V. The representatives of the commuting women students shall be elected by the commuting women students no later than the second week of classes.

VI. Provision shall be made for a freshman representative in the following manner:

a. Women's council will nominate a qualified group of freshmen women.

b. This slate shall be presented to the freshmen women, and they shall elect one representative.

c. This election shall take place before the end of October of 1958.

At the meeting on Sunday, the women students voted on a school ring for women. The ring voted upon was a rectangular-shaped onyx engraved with the college seal and set in a plain gold setting. Initials and the year of graduation can be engraved on the inside of this ring. Jayne Kuntzleman, president of the Dorm council, told the women that the commuters had voted unanimously on the same ring earlier.

## Library Notice

**The Library will be open during Easter vacation from 8 a.m. to 5 p.m. Monday, March 31; Tuesday, April 1; and Wednesday, April 2.**

# Berg Baseball Team Prepares For Opener

(Continued from Page Five)

senior, and Bill Higgins, a junior, who will be counted upon heavily. Takacs, a slender righthander, completed seven of nine games last season while compiling a 4-4 log. He gave up a total of 28 runs in 68⅔ innings for a respectable 3.60 earned-run average. Higgins, also a rightie, worked in six games, winning two and losing one. He gave up 18 runs in 26⅔ innings for a poor 6.00 earned-run average.

**Squad Hopefuls**

As for the rest of the squad limited experience is found at every position. Junior Bob Schumacher, a slender lefty who batted .286 in a reserve role, is the lone holdover at first. At second junior Chick Smith is bidding for scrappy Bill Keeny's old spot, while newcomer Bob Nuss, a senior, and footballer Joel Moskowitz (.285) lead a group of hopefuls at short. Veterans Sandy Dreskin (.269), John Holcroft (.160), and Jim MacMillan (.077) are once again the leading candidates at third.

In the outfield, veterans Ray Croft (.156) and Mike Wooley will be on hand in addition to Wilson. Behind the plate, juniors Clair Miller and Bob Hieter head a host of brawny backstops. Neither of these footballers saw much action last year due to the presence of four-year letterman Dick Leber, now of the Philadelphia Phillies organization. The latter, in addition to being a fine receiver, batted .267 and drove in 8 runs while belting three four-baggers.

In brief, it appears that the Bergmen will have to rely on pitching and defense as there seems to be few long-ball hitters on hand. Coach Koslowski, now in his second year at the helm, feels that the pitching corps will be strengthened with the addition of soph footballer Jim Nonnemacher and transfer Dick King, but he feels that the loss of standouts Keeny (.293), Leber, and Frank Micek will definitely be felt offensively. A great deal of the Mules' success or failure, he believes, will depend on how much outdoor practice the Cardinal and Gray will get in before the season begins.

## Intersquad Game

(Continued from Page Five)

**Centers:** Marty Renshaw, Joe Casale, and Frank Sivitz; **Quarterback:** Tom Wargo, and Jim Nonnemaker; **Left Halfback:** Jim Hoffert and Bob Butz; **Fullback:** Ed Yost, and Gerry Rehrig; **Right Halfback:** Ed Kalmbach, and Merle Wolfe.

The game will be played under the new rules which will be put into effect next season. Special interest will be given to the points after touchdown leaving the team the option of running or passing for two points, or kicking the ball through the uprights as was customary in previous years.

After going through the preliminary drills for the first few days, the Bergmen have had several scrimmages building up to Saturday's contest. Coach Wispell stated, "the men are looking forward with anticipation to the game and feel that the way they play in this game will determine their status for next year." He

## Letter To The Editor

(Continued from Page Three)

deprive them of equal opportunity to participate in student government? Since those women's activities are further curtailed, how may the women be expected to regain their original status? How many added inflictions will be placed on those women during their remaining college years?

Another reason brought to the floor was that a woman on social probation would be degrading to the council. If she would demote the council at present, would she not do likewise seven months from now when allowed to run for council? If the women are qualified to finish their college career at Muhlenberg, should they not be allowed to participate in activities, as long as these do not interfere with their original punishment?

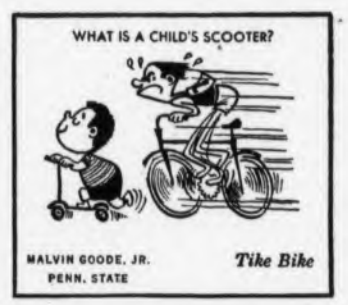
It was also stated those on social probation were not respected by some of the coeds. Granted, social probation is not a position to be respected, but, the fact that similar offenses have occurred previously concerning the women of the dormitory which have been disregarded by the proper authority brings to mind the question of who should be respected. Why should those women on social probation be any less respected than those women who have committed similar transgressions—or any less respected than the authority who has failed to notice the other offenses?

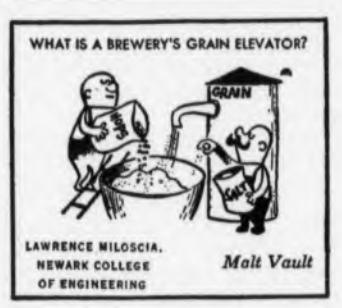
Therefore, we contend that a woman on social probation should be eligible for nomination to hold office on the Women's council. Whether this woman is qualified to hold an office should be left up to the discretion of the individual voter.

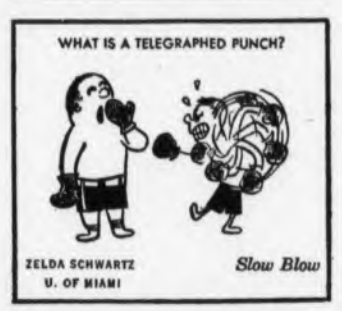
(Signed) 36 Coeds

# Sticklers!

**THE REALLY GREAT MEN** of history are forgotten men. Who *did* throw the overalls in Mrs. Murphy's chowder? Is Kilroy still here? Does anyone remember Dear John's last name? No, friends, they're all (Sob!) forgotten. So right now, let's pay homage to the greatest of them all—the man who keeps the cigarette machine filled with Luckies! Let's honor the guy who supplies the one cigarette that's packed end to end with fine, light, good-tasting tobacco, toasted to taste even better. Let's salute (Fanfare!) the *Vender Tender!* Touching, isn't it?







**Stuck for dough? START STICKLING! MAKE $25**

We'll pay $25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

**LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!**

## Fashion Show Held By West Hall Debs

The House of Dogpatch, fashion center of the fashionable collegiate, featured its newest line of spring and summer creations (or distortions, take your pick) at a fashion show in the elegant, richly furnished West hall chapel on Saturday.

Present in the audience and watching the gala promenade of improvised models were such notables as Mamie Brownie Yocum and Miss Nightmare Herma Datewreck. They looked ravaging in their imported grass chapeaux.

Among some of the Dogpatch originals that were featured were the newest (not to be confused with nudest) swimsuits, sack (burlap) dresses, imported Bermuda shorts from Jamaica, and a gay variety of loud tapered slacks.

The show went off without any difficulty. Well, to be honest, there were some difficulties.

Jane Raveling, one of the models, tripped on a loose horse's —tail and fell on her—face. But she managed to pull herself together. Mr. Squirt, owner of the fashion house, wouldn't let her model after that though, because as she was getting up (gracefully) she dug her sharp heel into the beautiful yellow lace of her gown and R-R-Rip!

Chickie Chicklett modelled some striped bermudas, but they didn't go over too well because of the small size (get that go over bit?).

Linda Fatboy looked just so in a chemise suit, but she sure had one jolly time of it when her heel got stuck in a loose floorboard. For those of you who have wondered about the tan shoe in the center of the stage; she couldn't get it out.

Doris Quack wore a beautiful yellow Daisy Mae outfit. Mr. Quirk, I mean Squirt, regretted the choice of color afterwards because it matched her face too well.

Kilts and swimsuits were "the items" for Barbara Vamp Linberg and Anne von Schonbrew. And Marilyn Moonbeam looked moonstruck in a chemise which was a cross between a faded onion-shell yellow and a clay-dirt orange color.

Aside from all these minute problems, a good time was had by all, especially the men in the audience. After the showings, there was a social in the basement lounge. Mr. Squirt treated all his guests and models to his own concoction of spiked Kick-a-poo Joy Juice. Everyone there remarked that the work "wash sure woit it. The party wash schwell."

**An outstanding model from Smoky Ed's Fashion center in Reading, models one of the latest creations from the Junior Miss department.**

## Lost and Found

LOST—Dean of Women, inexpensive—of sentimental value. Contact board of trustees.

LOST—in the vicinity of 114 Plum St., Reading—a jeweled mustard seed charm. Contact Dr. Kinter.

LOST—Pair of prescription eyeglasses—desperate. Contact Ralph Graber—please phone, do not write.

## Baseball Team Begins Practice

Muhlenberger's baseball team is rapidly rounding into shape for its first game of the season. Practice was held out-of-doors and all of the members of the team were issued snow shoes. That is, all except Bob Shoe-maker, whose feet are so big he didn't need snow shoes.

Ace pitching returnee, Charlie Tack-axs was well pleased with his pitching form. Little did he realize that the batters couldn't tell the difference between snow balls and baseballs and as a result swung at anything they saw.

"Lids" Smith, heavy-hitting second baseman also showed midseason form as he skillfully avoided snow drifts while pursuing ground balls. On one occasion however, he ran into an exceptionally large snow drift and was lost for the next half-hour.

Noticeable by his absence was Coach Jim Koz. Koz was busy in his little office selecting the starting team. Coach Koz had had a very ingenius method. He put all the players names in a hat and then selected nine names for the starting unit.

## Student Center Boasts Variety Of Characters

On the Muhlenberg campus, the Student center is the most popular and most interesting spot in the school. Interesting from the point of the personalities that frequent the campus hangout.

Some of the most famous of this select group are Glenn Davis and Betsy Ziegenfuss. Of course this couple often go unnoticed among the crowd because of the thick cloud of smoke that usually surrounds them. Then there is Linda Patnoi whose ever-famous skirts (which incidentally are painted on) are the conversation piece of the center. Ed Perkins and his famos rendition of the cha-cha, to the music "Tequila," offers amusement to the assemblage.

Two of the most depressed, frustrated, and "twitched" personalities in the Student center are Larry "It Builds" Woodward and Rick Stephan. These two characters can be seen daily in the center, crying in their coffee and wishing that it were beer. Balding Becker (Muhlenberg's answer to Steve Wilson) can usually be seen in one of the obscure corners of the snack bar, counting his few remaining hairs.

The administration and faculty should not be overlooked, however, for their appearance in the Student center adds an intellectual flavor to the crowd. Dr. Kinter is usually found burning incense at one of the tables while Dr. Brandes (at an adjoining table) can usually be seen performing an experiment to discover the composition of coffee and its effects on the tse-tse fly. If Dr. Brandes' apparatus gets in the way of Dr. Kinter's incense pot, an argument is sure to follow.

"Stud" Kennedy and his harem are usually present in the center, along with the butchers from the biology labs in their white frocks, Seth Brown, Carl Shellenberger, Don Nase and Dan Nesi. These heroes of the medical world are now in the process of dissecting a flounder on the snack bar. Harry Eberhart has complained of the smell, but the boys have promised to sell it to him cheap after they are finished.

## Mass Purge Sees Five Men Ousted From Top Offices

by Warren Peace

A gigantic purge has been enacted in the Muhlenberg college administration this week. Four of the department heads and the college chaplain were officially ousted from their positions by President J. Conrad Seegars and were tried for conspiracy against the state by the college's kangaroo court.

The jury, which consisted of Comrad William Cantor, Comrad Hagan Staack (head of the Muhlenberg secret police), Comrad John Booma, Comrad John Reeds and Comrad Harry Robb (head of the Muhlenberg college Miscle development program), deliberated their verdict for two minutes. They reach a unanimous decision of GUILTY. With this, Comrad Seegars sentenced the group to 99 years of hard labor in the Student Center snack bar, under the whip of that cruel tyrant Comrad Simon Legree Eberhart.

The men who were exiled to the Student center were Luther J. Dekk, former head of the department of Mathematics, Tired Dave Bremer, former college chaplain, James Edgar Swine, past head of the department of history; Prince Harold Stinger, former head of the department of English; John Shankweeler, past head of the Biology department and J. Anuthony (the crow) Corbiere, former head of the romance language department.

**Those men banished to the Student center in the mass campus purge are (from left to right) Luther J. Dekk, Tired Dave Bremer, John Shankweeler, Prince Harold Stinger, and J. Anuthony (the crow) Corbiere. These men are presently serving a 99 year term.**

**The men pictured above represent the initiating force behind the mass Muhlenberg college purge. They are (from left to right) Field Marshall Von Richards, Dr. Hagen "Yo Yo Goebels" Staack and Chief Dunsettin "Beria" Wood.**

The charges brought against the five men were as follows: Luther J. Dekk—posing as a house mother in West hall; Tired Dave Bremer—selling chapel slips at Hamp Webb's; James Edgar Swine—for absconding with the funds from the campus vice ring; Prince Harold Stinger—stealing Erskine Caldwell and Mickey Spillane novels out of the Library; John Shankweeler—running an abortion racket in the biology labs: J. Anuthony (the crow) Corbiere — smuggling wetbacks across the border, and for assassination of Mr. Stinson.

These men are undergoing a thorough brainwashing by that infamous man of slop, Harry "Garbage man" Eberhart. His cohorts in this experiment are "Lucrezia Borgia" Eberhart and her four debutantes in gastric poisoning. The process which they will undertake is an intricate one, and will take many months. By the end of this time, they will be proficient in floor mopping 21 and 22, slop slinging 46 and 47, and at the same time will be able to take over the duties of those two stars, Sam "the Greek" and the Weasel.

The central characters which are affecting this purge are Field Marshall von Richards and his plant killer, Dr. Hagen "Yo Yo Goebels" Staack and Chief Dunsettin "Beria" Wood. Richards will be remembered for his purge of fraternity men and lovers of malt in the transference of the Third Reich in that fatal year of 1954 to the Muhlenberg campus. Staack was appointed to his position through his participations in heretical movements and college insurrections. Wood is rated among the notables for his astute perceptions into the politics of the nation.His assistant is alumnus Edward O. Smith, known in underworld circles as "Ox," who is noted for his vicious and unscrupulous methods of politics.

## Newest Addition To Campus

## Maiser Wins Pinball Title

In the midst of a stroke of St. Vitus' dance, Theodore Maiser of the Muhlenberg psychology department scored for ten million points on his fifth ball to win the national pinball championship.

In a hotly contested contest at Bud Kivert's Home for Juvenile Delinquents, Fred Frey and Ken Harris made the highest score in the doubles competition when Dick Reimet choked on his Winston filter tip and tilted, causing his partner Ken Stewart to swallow all four pieces of ice from his large coke.

Close behind Maiser in individual score was Ralph Harmson, a member of the visiting team from the Campus junk shop. Also in the running were Mike Bertolet and Len Woodel, regular competitors in Kivert's Saturday afternoon rat-race.

The doubles team of Frank Claire and Ed Smith was disqualified for taking too many trips to the counter, ostensibly for nickels, but actually to engage in conversation with several coeds.

Stewart and Reimet are favored to take the endurance contest to be held next week, but they might not compete, preferring to defend their undisputed television watching crown.

# Editorial Views——

## A Farewell . . .

April Fool issue is well received in many areas while in other sectors it is feared and an object of concern. The edition serves as a vehicle for the transmission of good-natured fun and subtle constructive criticism. For the outgoing editor-in-chief the April Fool issue is the time and place to reminisce.

Although this year has been a trying one, it has been a privilege and pleasure to serve as editor. I am proud to be able to say that the **WEEKLY** never came out against the coeds or coeducation. I think it should also be made clear to members of the administration, faculty and student body that all editorials involving coeducation concerned certain policies and not certain personalities. Editorials concerning the Dean of Women were always on policies. I consider Miss Dietrich to be a woman of high ideals and values, and have considered her as a close personal friend throughout the year. She was first, however, Dean of Women.

This year the **WEEKLY** has spoken out for the maintenance of a strong student government as well as for the preservation of our excellent fraternity system. Other major areas of concern have included the parking problem, honor system, and a continuing free college press. I am sure that Dick Kennedy and Larry Woodward, as well as student editors in the future, will continue to meet similar situations as they arise.

I would like to express my thanks to Dr. Seegers, Dr. Richards, the personnel deans, Mr. MacGregor, and Haps Benfer for their support and faith in me and in the **WEEKLY**. Friendships I have made on the administration and faculty I shall cherish forever.

Special recognition should go to members of the editorial staff, especially Dick Kennedy, Ron Moxey, Bob Nuss, and Larry Woodward. These men have been instrumental in putting the **WEEKLY** to press. Owen Faut deserves special mention for his significant role on the staff, having served as photography editor for the past two years.

I also would like to thank Ethel Lentz and Idabelle Diaz for the valuable assistance they have given me throughout the year in assuming numerous typing responsibilities.

May I extend my congratulations to Dick Kennedy on his election as editor for the coming year. May his editorship be as rewarding as mine.

Karl Becker

# HAVE A SWIG, HONEY . . . YOUR COMPLEXION LOOKS FLUSHED

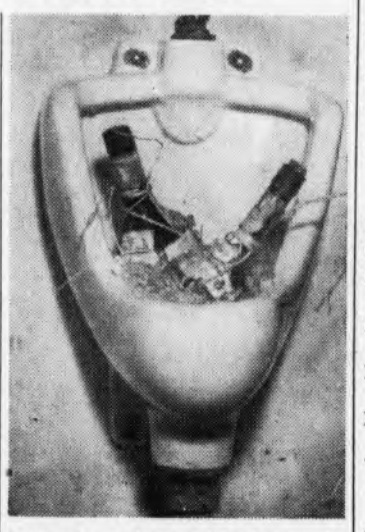
Contrary to last year's *WEEKLY* April fool prediction, the coeds have found an alternative use for the supposedly extraneous fixtures in West hall. Here, we have a before and after shot of the possible

uses for the plumbing devises which the girls discovered upon arriving at Muhlenberg.

The staff tended to underestimate the power of the female mind and predicted that botanical gardens would fill the receptacles. But the imaginative and dexterous femmes managed to find a more purposeful and practical utilization for the urinals.

The caption over this picture last year read "Water the Flowers, Little Girl," but we will change it this year to something more appropriate and in accordance with the original invention of the girls. Perhaps something like "Flower the Water, Little Damsel" or "Water the Damsel, Little Flower" would be more in keeping with the idea. If the botanical masterpiece on the right is anything close to African violets, it is rather well disguised.

Nevertheless, we are glad to see that the coeds are adjusting to col-



lege life, and we wish them a *he* and a hi and a ho ho ho. (But don't flick that handle or you'll wash your ice away.) (And dilute your booze!)

# We of The WEEKLY Cordially Invite You To Reade Ye Olde Letters To Ed.

*Editor's note: Few years have been more prosperous ones for the "Letters to the Editor" department than this past one. Some of these letters were so interesting that we thought they deserved to be reprinted in this issue.*

**Garbage Detail**

Oct. 10, 1957

Dear Sir:

For the past two years I have looked forward to coming into the student center to pick up my copy of the **WEEKLY,** but no more. After I look at this copy to see if you printed my letter, I quit. Why, I'm almost ashamed to say I'm a Muhlenberg man since you published that awful story by Mr. Knies. The way he mocked Haps, Miss Dietrich, the co-eds, the faculty, the administration, the ground-crew and everybody, it was terrible. You had no right printing that piece of garbage. After reading it, I can come to only one conclusion—Mr. Knies should be locked up in the movies permanently.

(signed) George Edwards, the staff, and the guys

**Avoiding the Issue**

October 17, 1957

Dear Sir:

Last week a letter appeared in the **WEEKLY** criticizing my feature story of the Oct. 3rd issue. In reading that letter, I found one of two things to be evident—either Mr. George can't read, or doesn't want to. And besides, I didn't criticize the grounds-crew.

I'm going to avoid the issue by not criticizing Mr. George's criticisms, but rather start one of my own. If the **WEEKLY** wants to have good issues, they have to print my garbage—as long as I sign it and they print it on the FEATURE page.

In closing, I'd like to say there are probably many valid criticisms to my stories, but I'll never admit it.

(signed) Oily Knees

**Personal to Baldy**

Dec. 12, 1957

Dear Editor(?)

This letter is in reply to your editorial of December 5, 1957. I don't want to get personal, but look Mr. Becker, your attack on Student council was vicious and unmerited, and it was dirty pool, too. You've got some right to talk, Mr. Becker, the way the **WEEKLY** throws around money for class rings. We on Student Council have been working hard, and I think we all deserve keys, Mr. Becker. I don't want to be personal, but just because you're losing weight, there's no reason to have a narrow point of view.

Yours for a greater Muhlenberg, and more keys.

(signed) Loose Torries, class of '58

**Oh Yeah?**

February 27, 1958

Dear Editor:

What is essential to the educated co-ed? The distorted ideas expressed by that distorted Woodchuck Trecksler are distorted. We co-eds have proved ourselves intellectually, civically and physically, and we don't need boys. Who cares about these old fraternity pins? If boys wouldn't give them out indiscriminately, we wouldn't get any. So there. If you so-called men of Muhlenberg would quit feeling sorry for yourselves everybody would be a lot better off.

(signed) 730 Coeds

**Yeah!**

March 6, 1958

Dear Editor:

I knew I could do it! I finally got those girls to write a letter to the editor. It's amusing to note that the Forensic council couldn't get them to speak up, but I did.

So you think I'm a dragon, huh? Well, I am. And let me tell you something co-eds, there ain't no Saint George. That's pretty amusing, isn't it?

(signed) Wood chuck "the dragon" Trecksler

**Individual vs Juke-Box**

March 6, 1958

Dear Editor:

First of all, I'd like to tell everybody that I'm an individual. I, as an individual, do not intend to plead for anything. All I've got to say is that they should regulate the sound on the juke box in the Student center, so I don't have to listen to those masmen play rock-and-roll.

A long-suffering individual,

(signed) Unfed Smith

**Why Not?**

March 20, 1958

Dear Editor:

On the evening of March 16, 1958 at 10:30 p.m., the women of West hall held a meeting conducted by Miss Jayne Mansman, president of the Women's council, Muhlenberg college, Allentown, Pa. The council argued about who was eligible for the council, and they decided that no girl on social probation could run. Now this is ridiculous. Do you realize what this can do to a girl's life? Not only will she be a marked woman while here on campus, but for the rest of her life as well. She's liable to turn to drink, and dope and everything.

And besides, a girl on probation will know better what not to do, and she will be able to get other girls on pro, too, so she's not the only one. And Probation won't be so bad, because if we get enough girls on pro on there, they'll abolish it.

Therefore, we contend that a woman on social probation should be eligible for nomination to hold office on the Women's council. Whether she is qualified or not makes no difference.

(signed) The girls on social Probation

*Editor's note—This letter is not an April Fool story, but we felt that its quality deserved a place in this issue.*

To the Editor,

I would like to bring the **WEEKLY's** attention to the article on page four of the March 20 issue. This article referred to the coming concert under the sponsorship of the Junior Aides of Allentown Hosiptal and which is to be held at Muhlenberg's Memorial hall on March 31, 1958.

The name of the famous "Venetian born Londoner" is **M-a-n-t-o-v-a-n-i** not Montavani as the **WEEKLY** spelled it. This man is one of the best known figures in the world of music today, and largely to his fame is due the "popularizing" of a great deal of the classical and semi-classical music of our age.

The least we can do for him **in a college newspaper** is to spell his name correctly, especially since it has been appearing on our campus bulletin boards steadily for the past two weeks. The **WEEKLY** however is due credit for its consistency, since it mispelled the name correctly all through the article.

(signed) Luis Torres

I am writing this letter in reference to the present location of the Muhlenberg English department office on the third floor of Davidson's dungeon. Every day it is becoming increasingly difficult to undertake the weary task of climbing the three flights of steps. The only consolation that I derive from this daily routine is that I frequently am surrounded by a mystical atmosphere on these late afternoon excursions.

I think that the English department, the student body and anyone who comes in contact with the English department would greatly benefit by moving the English office to the Power plant where the improved facilities of this building may be fully utilized.

I hope that the administrative forces governing the college, whatever they may be, will enable this occurrence to become a reality. The cramped facilities in the present English office can not be tolerated. Also there are no radiators in the dungeon of Davidson.

Yours for better and wetter English Profs,

(Signed) William of Kinterberry

# B-Ball Game; Faculty-Mulls

(Continued from Page Eight)

the floor. Billy of Kinterbury has gotten down out of the basket where he was thrown on a hook shot very beautifully by Pits Berghold. Clunk Jefires picks up Kinterbury and looks toward the broadcasting booth. He's going to throw Billy of Kinterbury into the broadcasting booth, here he comes KERASH—CRUNCH—BAM ---------- Due to technical difficulties at the origin of this broadcast, we are unable to bring you the remainder of the broadcast of the Mullenberger Mulls - Mullenberger faculty game at Memorable hole on the Mullenberger college campus. This is WSOB, your home of sports in the Leaky Valley.

# Smyth Smyles . . . And Crowns Brown

**"My dear, stand still, my dear. We'll look for the watch later. "Mr. Smyth, you clumsy oaf, you've messed my hair. Hell with the watch, where's a mirror?"**

**by Les Overhead**

It was time to pause in the Sentimental journey to crown the queen. Charles "lids" Smyth, president of the junior class, and winner of the Mister Magoo award of 1957, walked toward the microphone. When someone called to him, he turned, broke into a broad grin, and fell off the front of the stage.

Bird Eisenbutt came to the rescue and began to organize the contest. He soon had the juniors walking their dates around the center of the floor, while the faculty judges played eenie-meenie-minee moe. After playing this game into the finals, they found that there weren't no moe — except Muhlenberg's finest, Gale Hade.

Lids Smyth had recovered by this time, and worked his way back to the mike. There was a slight delay as Gale tried to remember who she came with, so he could escort her to the stage. Finally she found a loose male and dragged him to the winner's circle.

Lids began his carefully rehearsed speech—"Uh — Uh — Uh, What was I going to say, Bird?" "It's *Bert*, Harry — I mean Lids," he growled, "here's the gift." Lids glanced at the beautiful two-carat gold-plated Mickey Mouse watch, pulled up his pants, straightened his tie, dropped the watch, and went to the men's room. Gale picked it up, dodged a flying mainspring, and proudly declared "Ah'll nevah let it out of mah sight." Bird declared an intermission to look for the crown.

As president Smyth returned, the delegation from the Vets club announced its approval by throwing a live hand grenade on the stage. Gale thought that was sweet. Then, as the orchestra played the soft, romantic strains of "I'll be Down to Get ya in a Wheelbarrow, Honey," Lids took the crown from Eisenbutt, looked at the audience, smiled broadly, and crowned Less Brown. Brown retreated as Lids tried to kiss him, shouting "That's not in the contract!" Charlie went to the men's room again and attempted to drown himself in the urinal, but was saved by the quick-thinking Eisenbutt. Lids then drowned Bird.

Smyth returned to the stage again looking completely flushed. He snatched the crown from Less Brown, stepped up on a stool, and crowned Miss Hade Queene of the Junior Prom. Then everyone began dancing except Gale, who had lost her watch.

# Pillar of Flame Idolizes Funk

For 109 years, Funky Mary of Library fame has remained the solo female member of the faculty at Muhlenberg. Rolling in her pride (and in the stacks) she held this distinction without danger of being edged out by any contender. Funky Mary, however has met her match! When the coeds came, so did Amazon Stifford, thus cutting Funky's prestige in half with her intellectual weight. Intellectual weight, though, is not Amazon's only possession in the line of poundage. She carries a great deal of weight in the history department, particularly with one Mr. Partridge who was immediately crushed by her wide assets.

From the moment Stifford made the scene on campus, she diligently bowled over her meek cohort by drowning him in barrels of coffee and fogging his glasses with nicotine tars. Then Mr. Partridge fogged her, too, with carefully placed smoke rings from his mixture of Toynbee and Shlesinger shredded volume tobacco fumes. As the effervescent towsome sat there fogging each other, in walked James "Piggy" Swine with Funky Mary at his heels, tears in her eyes, and a card catalogue under her left arm.

Piggy, pleased at the departmental unity, sat down with Funky Mary still weeping and they both joined the fogging party.

"Now, Funky, just what seems to be your problem?" inquired Swine.

"Sob . . . weep . . . I done use to be the only woman on the faculty, but now these people are taking over my game, and not only that, but they almost forgot me in the April fool issue of the Meekly."

"Well," proclaimed Swineherd, "that's just tough darts, Funky! This here Stifford is a gal in my department and that means she's part angel. So if you don't like it, you can stay away."

Mr. Partridge, peering up over the edge of the table (where he disappeared when he saw the Swine), choked on his pipe and passed out as Amazon Stifford let fly with an extra heavy smoke screen. Funky Mary leaped to her feet, produced a miniature book mark in the shape of a dagger, shouted "Et tu, Brute!" and plunged her weapon through the heart

(Continued in Column One)

# Perkitz, Dodi Star In Film

Out of the classic epics of Hollywood has come a new peak in motion picture entertainment. Starring the European sensation Dodi Goodnitz, and our own American answer to Sabu, Coolness Perkitz.

The movie has a marvelously constructed plot which concerns the love affair of Madame Fifi and Rocky "cycles" Whatsname (played by Perkitz). Rocky, who is a small-time hood from Perkiomen, has fallen in love with Fifi, a big-time hood from Hunger. They plan to elope to Bayonne, and so escape government apprehension. But their plans are thwarted by the police who persue them to Santa Catalina. The couple immediately try to hide, but are betrayed by Raborath Uberonath who has been after Rocky for forging chapel slips.

The movie ends in a thrilling scene where Rocky and Fifi are both tracked down by Detective Heimtrabt and sentenced to two years at hard labor. Perkitz, unaccustomed to this, goes mad and shoots himself, Fifi, Heimstrabt, the producer, director, and a cast of thousands.

Perkitz, commenting on the film, said to a Broadway columnist, "it's a real loser, don't miss it."

# "Tee" Singer Shafts Spring Squad Start

Muhlenberger U. had just announced the appointment of a new gulfing coach to replace Stump Wishful who has been unable to find a club with a short enough shaft. The new coach is Ned "Sharkey" Singer. Instrumental in securing "Sharkey" was Dave Singer, "Sharkey's" own boy.

In an interview with the Weakly, Ned had only one thing to say. "The way it looks now, my boy will be Number 1 man for Muhlenberger this year. Yes sir, that's my boy."

Ned "Sharkey" Singer had a great deal of experience and is well qualified for the job. His most sterling asset is the fact that he knows where Lehigh Valley country club is located. Stump never could find this place and as a result the Mules always failed to show for their matches. Furthermore, "Sharkey" has had years of experience on the miniature golf circuit and for the last two years has been pitch and putt campion at Dorney Park.

In a final statement for the **Weakly,** "Sharkey" had only one thing to say: "I think my boy is going to have a great year."

Muhlenberg's golf team had its first practice last Monday under the direction of their new coach, Ned "Sharkey" Singer. The ranks of returning veterans were somewhat depleted though. "Sweetwater" Croquette hearing that he was not selected as Number 1 man on the team (see other article if you can find it) immediately quit the squad. He gave his reasons as the need for more "booking" time and also more time to keep an eye on his fraternity pin. Sid Hemburg, also counted on to be a big asset was not available. The Phi Ep flash, who earlier in the semester had been raring to go forward against the foe, now decided it was costing too much dough, and so he quit. This left only Jack Piper and Dave Singer as returning veterans. Both men were optimistic, though as now they could have all the glory to themselves.

The first day of practice was marred by a slight accident as Dave Singer hit himself in the foot while demonstrating a tee shot. Ned "Sharkey" Singer immediately administered first aid and gave out with a brief statement: "Practice will be cancelled until "my boy" is ready to go again."

of Stifford's cigarette case, crushing not only twelve butts, but also three fingers (since Amazon made a feeble attempt to guard her treasure.)

Swine lifted his eyes for the first time since the Russian revolution and cried "Down with the Library," whereupon the Dean, Macadam Macaulay, and thirteen groundkeepers wielded torches and burned Funky Mary's beloved temple in one of the most lurid sacrifices the campus has ever seen. As an encore, Funky Mary was tarred and feathered amongst a crowd of jeering history majors, led by head cheerleader John LaFaver who had returned to have tea with Vic, John, Bill, Andy, Hagen, and Horrible Henry.

# ALICE E. NEUMAN

**by Barbara Lindseed**

Among the most capable of the ladies at Berg is the ever-popular and gregarious Alice E. Neuman. Alice came to Berg as a sophomore and immediately began her campaign as temperance director. Under the guidance of several of her close friends, Alice set up her office on the third floor of West hall.

With amazingly little support from the West hall tribe, the "what-me-worry" kid did wonders for her cause. In the tradition of the Alcoholic Beverage control and the Women's Temperance league, Alice skillfully drew up plans for a renovation of the alcoholic amorality of the rest of the coeds.

After examining the poor condition in the Dorm, Alice decided that her committee should procure several items in order to further her plans. These included carefully designed porcelain badges with the caption "I am a temperant coed . . . what me worry?" Another item among the temperance equipment was a reproduction of a tiny coil box in which secret messages and code diagrams were cleverly concealed. (Since the movement was met with such opposition, it was essential that work be done on the underground slant).

After an entire semester of secret work, the minority group decided to hold a clincher meeting to analyze the progress they had made. The clicque met in one of the girls' private rooms on the third floor of West hall. At the height of a controversy, Mrs. Green burst into the room, discovered the nature of their purpose, and quickly apprehended the girls in a tremendous raid. The

**"What? Me Worry?"**

temperance advocates were brought before the Kouncil and told to cease their activities, thus ending one of the most influential sub-groups of the College.

Despite the fact that Alice Neuman's movement was disbanded, she has put all her power into a one-woman crusade to end drinking. Without a doubt, we can say that the influence of this crusade will still be felt throughout all campus activities.

Although we laud the "what-me-worry" girl in her major activity, it must not be forgotten that she has also taken part in several other campus organizations. She lends her talents to the Snack Bar Lounge society, the Library "Stack" committee, and the East hall Dorm council. Her favorite pastime is dabbling in economics. She is an entrepreneur in her own right, and has greatly furthered the cause of S & H Green stamps. Concerning the controversy of whether women on social pro should serve on Dorm council, Alice simply stated "What? Me Worry?"

# Marconi Chones Spreads News

The latest communication system for the halls of West hall was announced today in a personal interview to the **WEEKLY** by Mrs. Broun. The short time house mother stated that the intercom was becoming outdated and besides, Hascel Sneers "suggested" that another means be installed at the lowest price possible.

Mrs. Broun pondered the suggestion for a minute or two as Beebe Lew Chones rushed into her apartment with the latest scandal between Maddy Egghead and Boobie Shear who were discovered nipping at the cooking sherry in the kitchen. Beebe Lew Chones also announced that Panty Foremen had tried to escape the dorm in her Bermudas once again, but that she had been apprehended by several fellows from Lehigh who safely escorted her without further adieu.

Mrs. Broun smiled, a brainstorm popped into her mind, and she dropped in another nickel for the next gem from Chones. Beebe began to spout more info and Brouny informed Hascel that the communication problem was over.

Hascel was delighted and invited Brouny to join her in the communal bowling match with a few of the "girls" to be held in the Catskills. (Rip Winkle and his dwarf four were the main opposition for the match.)

Brouny refused since she had to organize a petition committee to pass the newly found **Beebe Lew Chones communication system.** It was passed without any trouble and the Dorm immediately put their grapevine to work. Mrs. Broun proudly declared that this was the finest innovation since the invention of the wireless.

# *Tears Ruin Minutes Of Wimen's Kouncil*

The 68th meeting of the Wommen's Dorm Kouncil was called to disorder by Payne Kuntzleman at around—uh!—three—uh!—four in the morning. "We'd better start the meeting quickly," Payne sobbed, "before a quorum arrives!"

Saintly Sarah blessed the Kounsel with a potent passage from **Peyton Place.** Of course, not one was able to understand it.

Hypochondriac Jolly Borelli, exhausted from dancing and drinking, was absent as usual. The treasurer's report stating that we owe the Ivy League Belt Company $300.00 for the purchase of chastity belts, was read by an impartial bystander — Wyatt Earp. Payne Kuntzelman broke down in tears. After handing her a tissue, Betty "Man" Lebo continued on her eight fold path.

In ran secret informer Bobbie Sher with her latest up to the minute confidential report, labeled "B.S.". Leafing to page 184½, she read, "Betty Lou Bones and Beck Carler have now been utilizing two precious minutes of telephone time! Betty "Man" Lebo screamed "Send out the floor representatives to stop that call," as she broke down in tears. After handing her a tissue, Payne Kuntzleman continued **her** meeting.

**New Business:** Payne Kuntzleman appointed three committees to investigate the disappearance of six former committees. Dropping her champaigne on the floor, Wyatt Earp threw confetti and congratulated Payne for completely dominating the meeting.

It was decided to indoctrinate an honor system, its motto being "You got the honor, we got the system." Payne Kuntzleman broke down in tears.

At this point, Worm-gard gave her weakly ten minute discourse about her undying devotion to the Coeds, her 24 hour vigil on the third floor, and her ceaseless sacrifices for the Women's Kouncil. As Bored-man lingered at the door, she excused herself to go study(?)

**Old Business:** It was decided that the quiet, canonical hours had become too effective when the Dorm had been mistaken for a convent . . . Sister Kuntzleman broke down in tears.

After Payne released Betty "Man" Lebo's puppet strings, the latter gave her report on late permissions. "It has been disclosed that many girls have not been using their pink slips. One girl had been caught sneaking out wearing a white one" . . . "This is not to be," sobbed Payne Kuntzleman as Wyatt Earp embraced her.

Norma Butterball, a perfect example of what a Kouncil woman should be, lapsed into a dissertation on reforms. "Before I say anything, I'd like to say that what I'm going to say is what I want to say, when I say something about what I want to say . . ." Payne Kuntzleman broke down in tears. This time she was revived by a martini.

Sour Rosenberg, who had been watching the performance from the balcony, next presented a gift to the Women's Dorm Kouncil—**Robert's Rules of Order.** In hysterics, Payne threw the book at her. Sour thought this was sweet.

"I have to study!" Payne cried, as she darted towards the door. "But before I leave, pinch Bottom so she can read the minutes.

The minutes being disapproved as mumbled, the meeting was adjourned.

Disrespectfully submitted,
Merri Bottom, Sex'y

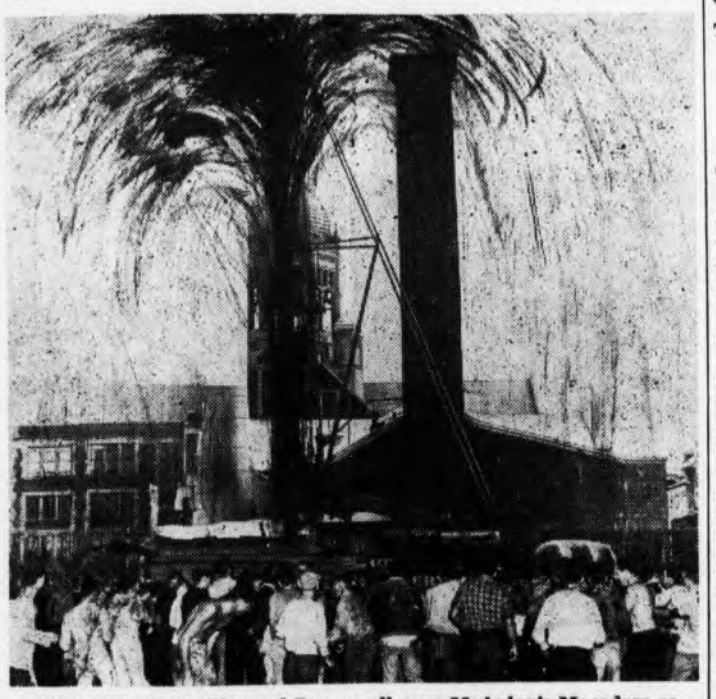
# Distillery Discovered In Power Plant On McAuley's Macadam



**SPLASH!—Rum, Gin, and Rye go all over McAuley's Macadam as thousands of students gather round to get drenched in the residue. Below, William of Kinterberry shows the after effects of the radiatorized gin in the Administration building.**

The Muhlenberg college power house, long the core of mystery as to its purpose on McAuley's macadam, was revealed yesterday by the state alcoholic commission to be the illegal site of a distillery. Operating in the plant since September of 1954, frequent eruptions from the stack on top of the plant have been noticed. The residue that has remained has been thought to be soot but it is now known that it was the excess hops and barley that was used in the brewing of various kinds of liquor.

Investigation was called in upon finding gin fiz spurting from the radiator in room 213 of the

Administration building during a Stengarian Shakespeare lecture. Prince Hal, not objecting to this unusual phenomena left Hamlet dueling with Laertes and proceeded to make use of some of the overflow. After a ten minute recess and approximately one quart of radiatored gin, Prince Hall finished the lecture by saying that Hamlet and Laertes got married and lived happily ever after.

**Kinterberry Soused**

During Chaucer class, William of Kinterberry, smelling the sweet fragrance of Muhlenberged rye oozing out of the radiator, could only utter the words, "mystical, very mystical." He proceeded to desert the class at a critical point in the Miller's Tale. Kinterberry dismissed the class and was found three hours later using the radiator for a back rest.

When questioned by J. Caesar Cigars, the tea-totaling worthy master of the College, Macadam McAuley could not give the reason why the liquor had seeped into the College's radiators. He told Cigars he was sorry that he had "wrecked our scheme." J. Caesar Cigars, when questioned by the weakened **WEAKLY** as to the outcome of this occurrence, said, "I will make every effort to get a charter from Harrisburg legalizing distilling on the macadam. It's a shame to wreck four years of good work. I definitely feel that such a plan will be for the uptightness of the school."

**McAuley Speaks**

Macadam McAuley, who recently had the football field, track, and West hall mall macadamized was reluctant to give any definite statement. He did say that he was an avid advocator of good working conditions. He continued by saying that since September 1954 he had no complaints from the ground keepers or the concrete crew. McAuley also announced plans for other solidifying projects on campus. He hopes to macadamize the Memorial hall basketball court and the new hockey field across chew street. He said that this will relieve the campus of his old nemesis and enemy —mud.

Until the final decision by the alcoholic commission is handed down students are asked to refrain from hitting the radiators on campus. Dr. Cigars said that the

# . . . Stupid Council Report . . .

April 1 minus 12

The irregular getogether of the Muhlenberg college stupid council was called into chaos by president Terrible Torres at 7:00 a.m. Mr. Very and Mr. Square were absent.

**TREASURER'S REPORT:**

| | |
|---|---|
| Student Body fund | $ .96 |
| Embezzler's Fund | .13 |
| Social fund | 8,475.96 |
| Total | $ .96 |

**COMMITTEE REPORTS:**

**Chapel**—Mr. Ubendoffercofferwoffer stated that 950 chapel slips had been revoked during the past week and made a motion that the entire student body appear before council. Mr. Very arrived and objected. Discussion followed. Mr. Smellenberger suggested that a committee be appointed to talk to tired Dave about the situation. Mr. Very objected. Discussion followed. Vote was taken in favor of the entire student body appearing before council. The vote was 11 to one.

**Student Center**—Mr. Spectator announced that someone had been caught putting a firecracker in the juke box. Mr. Very objected. Motion was made and seconded that the student found guilty be given a special citation. Vote was 11 to one in favor.

**OLD BUSINESS:—**

Mr. Lateton brought up the discussion on freshmen regulations. He made the suggestion that in order to eliminate all disputes concerning freshmen that the freshman class be annihilated. It was moved and seconded that Muhlenberg college would only have three classes starting with sophomores. Mr. Very objected. Vote was taken in favor of the motion. Vote was 11 to one.

Mr. Square arrived late giving his reason as being he was fishing his car out of a sewer.

**NEW BUSINESS:—**

Mr. Lateton moved that requirements for the Deans' list be lowered to a 2.0 or 75 average. Mr. Lateton was appointed as a committee of one to investigate the situation.

Mr. Valve moved that Dr. J. Caesar Cigars be impeached. Mr. Gorski contested this saying that Cigars was in back of the Chess club. Mr. Valve suggested that the Chess club be disbanded. Mr. Gorski hit Mr. Valve. Valve countered with a beautiful left and right to the jaw. Mr. Gorski went down. Terrible Torres sat on Mr. Valve and Mr. Ubendoffercofferwoffer continued the meeting.

Mr. Very asked to be excused but Mr. Ubendoffercofferwoffer refused his request. Mr. Very objected.

Terrible Torres got off Mr. Valve and threw water on Mr. Gorski. Mr. Gorski got up fighting. Council threw him out. Mr. Very objected. Mr. Valve apologized for his disturbance. Council gave him a citation.

Mr. Square announced that the assembly program for the following week would feature movies on the Swayne-Shankweiler wrestling match of last week. Commentary will be by Fraud Dreary. Mr. Very objected.

Terrible Torres asked council treasurer for funds to give council members cars instead of desk sets. Mr. Spectator said make it two cars. Mr. Very objected. Terrible Torres said something to Mr. Very in Spanish. Mr. Lateton was asked to translate. Mr. Lateton said he wouldn't repeat it. Terrible Torres asked for a vote. Mr. Very asked what they were voting on. Torres ignored Very. Very objected.

Terrible Torres asked for motion to eliminate Mr. Very. By vote of 10 to one it was decided to shoot Mr. Very. Mr. Very objected. Mr. Very was shot. Objection overruled.

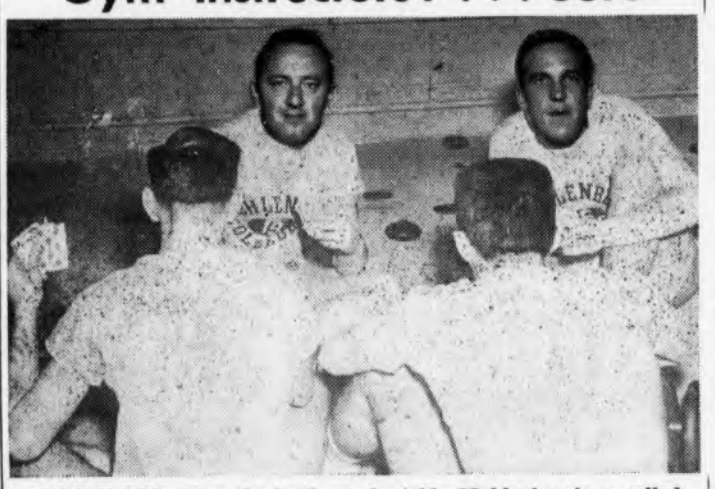
There was no more business.

Mr. Lateton made motion for meeting to be adjourned. Mr. Smellenberger seconded. The entire council looked at the dead Mr. Very for objection. There was none.

The getogether was adjourned at 6:59 a.m.

Disrespectfully admitted
Blah Ubendoffercofferwoffer
Discordant Sickretary.

## Gym Instructors? . . . Sure



**GYM CLASS—Now the truth can be told—Muhlenberg's so called gym classes have become more successful in degrading and destroying what little resemblance of physical education Muhlenberg ever had. Shown above are "Diamond Jim" Kozlowski. Bill "Deck Stacker" Flamitz, and two unidentified typical Muhlenberg gym students.**

# Terrible Torres Expelled, Embezzled Gavel Fund

Terrible Torres, president of the Muhlenberg college stupid council, yesterday was found to be guilty of embezzling funds from the student body funds in order to buy three additional gavels. Caesar Cigars in a statement to the **WEAKLY**, said that Terrible Torres would be expelled from school immediately and not even given the chance to take his Tequila plant along with him.

Early this morning, the anguished president of the stupid body was seen leaving the Administration building. People who were witnessing his departure said he looked very small. He had also been charged with illegal entry into the U. S. in September of 1954.

When asked about his immediate plans, Terrible could only say in a very dejected tone of voice, "At least they could have let me take my tank of Tequila along." Terrible's roommate, Dennis Gorski, did not even get up from his game of chess with chessmaster Sammy and was heard muttering under his breath, "Serves him right. He would never let me play his record player anyway. Good ridance." Chess master Sammy did not even look up.

**Goodbye Serenade**

As Terrible walked away from the Ad building, and headed toward Chew street, faint strands of the "Little Blue Man" could be heard. As he trudged down Chew street toward the bus terminal the entire stupid body got together and gave him a farewell serenade singing such all-time favorites as "Down Mexico Way," "Bye Bye Blues" and "South of the Border."

Frank Very was made council president pro tem on account of his excellent attendance at council meetings. Mr. Very's comments on the subject were very extensive. He immediately said "I object," when he heard the news about his being made president. However, he reluctantly took office in a very humble manner and said the first thing he would try to do would be collect all fines that had accumulated through the year by stupid council members.

(Continued from Column Two)

faculty and staff should be the only ones permitted to endulge giving as his reason the fact that they are on the most part dry anyway.

## "The Little Blue Man"

**Terrible "Little Blue Man" Torres leaves the Administration following his chastisement by J. Caesar Cigars. Torres was expelled following charges of embezzlement and illegal entry into the country in 1954.**

# POOR SPORTS

by Jim Bag

Word has just reached this column that **"Reds" Beton** will be hired as assistant Basketball coach to assist **J. Bernard Crumb** in his personal campaign to destroy basketball here at Muhlenberg U. **Beton** as you remember, was an outstanding basketball star in his freshman year, averaging 6 fouls per game and tripping over his feet at least twice per game. The Athletic department feels that along with **Crumb, Beton** can supply enough ridiculous advice and make more useless substitutions than any other person available. Between the two of them, Muhlenberg U. should not win a game next year . . . **Caldwell "Foils" Erskin,** spears coach at Muhlenberger has given us the latest scoop that with several experienced men returning next year for the spearing team, he expects to do no better than this season; in fact he believes he will lose all the matches. With such handicaps as **Wee Geordie Mertz** and **Morris Linnut** to serve as a nucleus for his beatable team, he feels that Burger U. should not even come close to a victory. The only bright spot on the scene is the realization that if the fencers do not win a match next year, the sport will be dropped by the "U". **"Foils" Erskin** is not pessimistic but already he has retired his spears to his 2nd floor Ad building broom closet where he is putting them to use by stabbing and japping English students . . . **Coach Barrel Frankfurter, wrestling** coach here at Muhlenberger, has just given us the inside tip on why the matmen did not win the Middle Atlantic championship held at Wilke's. It seems that **Balloon head Waller** put beer in the water bottle and everybody got smashed . . . **Coach Stump Wishful,** football slavedriver at Muhlenberg U. has told us, off the record of course, of some of his changes for next season's football team. Since **Herb Owns** is always getting ahead of the interference because of his speed, **Stump** has come up with an amazing solution. **Owns** will be switched to guard and **Kim Novak** will become the halfback. This way the backs will never get ahead of their interference. Makes sense, doesn't it? Another thing he revealed was the fact that he has found an exact double for **Jimmie Somefaker.** Now **Stump** can rush the double in on defense for **Somefaker** and **Somefaker** will never have to get his pants dirty. Furthermore, this will make for better Muhlenberg play since all of Burger's players will be able to tackle other team's men instead of providing protection for **Somefaker . . . Miss Jean Heck** has relayed word to this scribe that coed instruction in Houseparty games will begin shortly. Guest lectures will include such authorities as **Walt, (I-Knew-a-Queen) Shoeman)** of Lamba cry athletic club; **Ed (the staff and guys) Georges** of the house of trophies; and **Ron (I got Me one) Croquette** of Alpha Tau O-Make Me social organization. All coeds are urged to take advantage of this instruction since no one knows when she will make the starting team of one of the big six Houseparty conference squads . . . **Jim Koz** wishes to announce there will be a baseball team at Muhlenberger, but not this year . . . **Bill "The Wedge" Flannel** (a wedge is the simplest tool known to man) wishes to announce that there will be no track team this year or for several years in the future. This is no new precedent since there has not been a track team for the past several years.

# The Stump; Tyranny At Muhlenberg

France had its Napoleon, Germany its Hitler, Russia had its Stalin, and Italy its Mussolini. However, Muhlenberg college takes a back seat to no one when it comes to tyrannous despots. A visit to the campus gridiron at any time during football practice will justify the existence of such a person.

Muhlenberg's despot is referred to in the muffled gripe sessions in the locker room as "The Stump." In real life, if he has such, he hides behind the name of "Ray Wishful." His name is spoken in the locker room circles with a tone of fear—fear of liquidation from the Muhlenberg environs.

**Natural Camouflage**

Like most of his kind, The **Stump is ever on his guard** against any plans for the usurpation of his reign. His stump-like body enables him to station himself at any given point on the

**Stump Wishful**

campus looking like nothing more than another chopped tree.

A careful observation of The Stump's individual peculiarities tends all the more to correlate him to other notorious dictators. Stalin called his subjects "comrades"—Stump named his "Gents." Hitler will be remembered for his "Achtung" and "Sieg Heil," while Stump coined such famous phrases as "never fail to make a yard" and "that's the way the ball bounces."

**Brutal Inhumanity"**

Stump's utter disconcern for the welfare of humanity is shown in his typical statement when one of his football players is injured during one of his relentlessly brutal practice sessions—"Move the ball to the other side of the field."

If and when The Stump discovers that someone is planning

(Continued in Column Five)

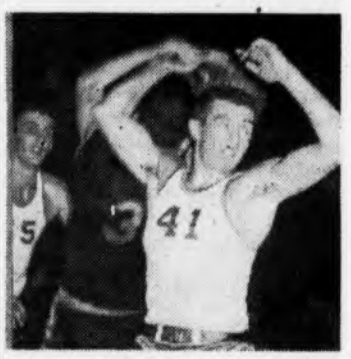
# Mulls vs. Faculty Game Ends In Brawl; Kinterbury Stars

Good evening, ladies and gentlemen, this is Ernie Stegmaier speaking to you from Memorable hole on the Mullenberger college campus in Ollentown, where tonight WSOB will bring you the first annual meeting between the Mullenberger Mulls vs. the Mullenberger faculty.

Here are the starting lineups for tonight's contest. For the Mullenberger Mulls coached by Crummy Birnes. At forwards will be Mel "Hawk" Kisser and Joey "Pits" Berghold; at center will be Hoof Secondary; and at guards will be Clunk Jefires and Dick "Gyrene" Macklin.

For the Mullenberger faculty coached by Stump Whispers: At forwards will be Gishbish Bloomer and "Prince Hal" Stingy, that's s-t-i-n-g-y; at center will be Billy of Kinterbury; and at guards will be Pandy Eeelskin and set shot artist Ralpho Krowbar. Your officials are Egad Swain and Dunce Timber.

I see now that Egad Swain the referee, is just about to toss the ball into the air for the game-opening tap. Billy of Kinterbury and Hoof Secondary shake hands at center court. Both boys high in the air now, tap taken by Gishbish Bloomer, moving from left to right brings the ball very quickly now into forward court for the faculty, spectacles on forehead. Bloomer passes into the right corner to Krowbar who is tied up and passes it into the keyhole to Kinterbury going in for a layup, up and in. And on the play Clunk Jefires is charged with a personal foul as he kicked Kinterbury into the wall under the faculty basket.



**"Pits" Berghold**

Billy of Kinterbury standing at the Mullenberger foul line, he'll have one shot. Bounces the ball to the hardwoods several times, it bounces up and hits him on the chin, knocking him to the hardwoods. Ready to shoot now the ball is up and in. Billy of Kinterbury gives the Mullenberger faculty a three-point edge, 3-0.

Jefires now moving from right to left bringing the ball into forward court now for the Mulls, has the ball knocked out of his hands by "Prince Hal" Stingy, that's s-t-i-n-g-y, ball picked up by Stingy, who passes down court to set shot artist Krowbar who throws the ball into the stands. Mulls in possession now in back court.

Macklin brings the ball into forward court for the Mulls, he passes into the keyhole to Kisser, and he's tied up by Gishbish Bloomer. There'll be a jump ball at the Mull foul circle. Both boys high in the air, tap taken by-y-y-y no one, it rolls out of bounds. However, it was touched by Pits Berghold so the faculty

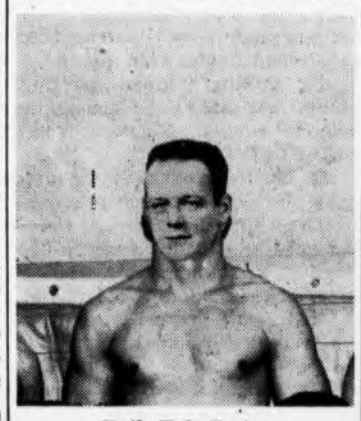
## Tub Faster And Chilly Atomizer Pace Teams



**Bath Tub Faster**

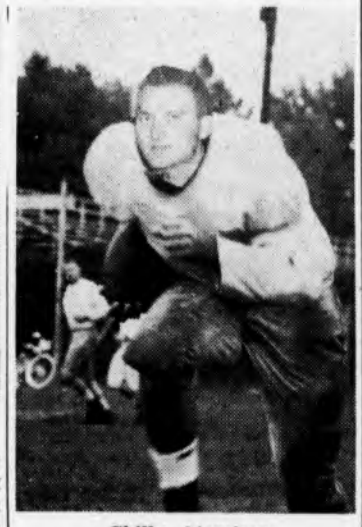
One of the bright spots on the theoretical Muhlenberg swimming team this year could have been our busy-body personality (with a body like his, anybody would be busy), Bath Tub Faster. His best events have been the dead man's float and the cannon-ball of which he could have been Middle Atlantic Champion for five years.

Tub came to Berg with the intention of being a library major and completing his education in 1½ years, but due to the fact that the stacks are only open on Tuesdays and Fridays, he has been forced to attend his alma mater for five years. When asked about Muhlenberg, Bath replied, "It'll be tough to leave the old school."

Other sports that he has competed in are cross country, where he gains lost ground rolling down Cedar Crest Hill, and wrestling, in which he has been 123 lb. Middle Atlantic champion for two years He is known for his speed and agility.

He has worked during the summers at many and varied occupations. Last summer he worked at Slenderella posing for the before ads. He has been a float at Far Rockaway Beach, and can also be seen locally in WGW's presentation of "Moby Dick."

He is good in the swimming pool for fast starts, but finds that he becomes beached at the shallow end of the pool. When asked to comment on his success, he said, "I contribute my immense success to being immense."



**Chilly Atomizer**

One of the factors that has caused the success of the Muhlenberg football team has been the outstanding play of the left-wayback Chilly Atomizer, who transferred to Berg in his sophomore year from Beaver College.

Since coming to Berg, he has set the record for fumbles recovered 68 in 1956). When asked to comment on this outstanding record, Chilly said, "When I see a loose ball, I grab it." He is also one of the leading ball carriers in the Lehigh Valley, following closely behind Joe Bike. He attributes his broken field running and elusiveness to his fear of being tackled.

As for other sports, namely baseball, his mentor Luddie Lunnel says he is "way out in left field." Some of his extra curricular activities include singing and poetry. He is the lead soprano in the Muhlenberg Choir and his verse can be seen in the Men's Room in the Student center. As for his favorites in Pro sports, he is an ardent Athletic supporter.

During the summer this strapping 98 pounder spends his time on the beaches of Atlantic City. He works for the Charles Atlas Co., where his job is to throw sand in the peoples faces who have just completed a course with his employer.

(Continued from Column Three)

to undermine his system of rule, he lures them to his dimly-lit quarters in excommunication from the Muhlenberg campus on some unfounded and ridiculous charge as selling complimentary tickets to an athletic contest. This practice

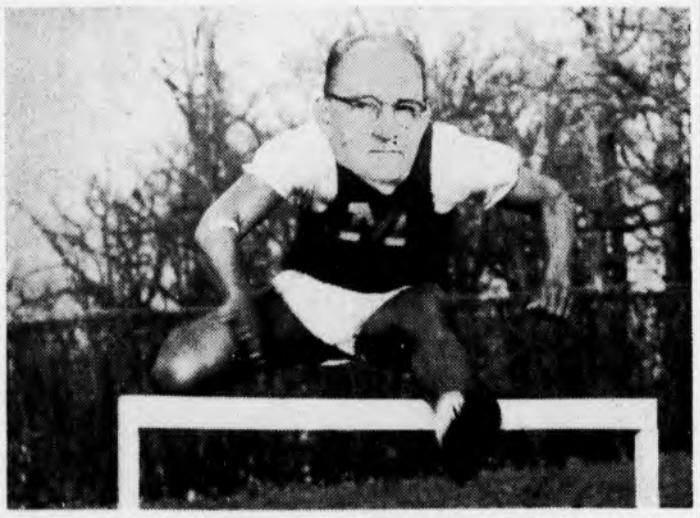
# Students Win As Usual? Faculty Track Men Fade



**WITH THE GREATEST OF EASE—D. Erwind Rights, faculty track immortal, sails over a hurdle with greatest of form enroute to his blazing loss in the faculty-student meet.**

**by Bud Weiser**

Muhlenberg's annual faculty-administration versus student track meet was held Tuesday with the students gaining a close 61-59 win despite Hops Fencers three first places. The faculty hopes were greatly diminished when their stellar javelin thrower, Spots Richards was carried from the field with Ace Adams' javelin in his back.

The students were off to an early lead as Fill "Flash" Eichler trimmed D. Erwind Rights in the race of the century. Rights once again completely demolished the first five hurdles before he hit his stride. Nonetheless, Flash's speed was too much for the faculty's ace hurdler. Bill of Kinterberry helped the faculty's cause as he won the 100 yard dash amidst a blaze of incense. Ed "the insignificant lump" Perkins breezed through to victory for the students in the 440 yard dash, but was disqualified because he was wearing sunglasses. First place therefore went to Macadam McAuley who was running for the first time on his new macadam track.

**Shot Put Results**

At this point of the meet the results of the shot put were announced. Robot Schlunk took first place with a heave of 1 foot. Stem "Monkus Coolex Pipiens" Heim was second with a slightly shorter heave. In the mile event, Stump Wishfull was edged out by Reber Marshall in the closest contest of the afternoon. Stump was heard muttering after the race, "If that hoople Macadam McAuley had not had the track macadamized, I would have won easily."

The 880 yard run was the event which almost spelled doom for the students. The starter for this race was J. Edgar Swing. Golden Throat Leighton, the favorite in this race, remained in his starting position after Swing fired the starter's gun. The race was almost over before it was finally realized that Swing had put a .45 caliber shell in Leighton. Swing was seized by the East hall dormitory council.

Thus the 880 was won by Hops Fencer who had therefore copped the first of his three first places. After this race Hops rounded the track and then ran the low hurdles beating his crippled teammate D. Erwind Right who only demolished three of the low hurdles. Rights, however, was not as effective as the faculty had hoped because he was still recovering from his injury in the high hurdles. Hops Fencer, triumphant in the low hurdles then ran around the track twice and entered the 220 yard dash which he also won defeating Terrible Torres who was competing in this meet just hours before he was to be thrown out of college.

The two mile, the feature race of the day was the subject of a rhubarb concerning the winner although both were faculty men. Badman Badis and Brisky Booma ran so slow that it was dark when they finished, and nobody waited around for the finish.

**Brothers Balliet Win**

The students virtually won the meet taking all the field events, led by the Balliet brothers who swept the pole vault. Despite strong opposition from Bill of Kinterberry, Glenn "Ziggy" Davis was able to win the broad jump. Ace Adams nipped Fraud Dreary in the javelin after he was finally able to get his javelin out of the back of Spots Richards. The discus was won by Owl Arsht who was able to throw the bull further than Dunny Wood. Imp McConnel beat Dr. Bobby Schaeffer in the high jump despite the fact that both of them soared over the six foot mark.

Following the meet Harry Goodheart announced there would be punch for everyone. Mrs. Caesar Cigars announced over the public address system that she had bought the punch and she hoped that everyone like her drapes in the student center snack bar.

# Femme Fatales Frolic; Trauts Declared Winners

**by Eileen Dover**

After weeks of grueling competition four teams emerged as finalists in the coed basketball tournament. These teams are as follows: **The West Hall Wazoos,** coached by Hooks Stafford; **the Trauts,** coached by Heim Traut; **the Cottonpickers,** under the tutelage of Jean Heck, and the **Fifty Niners Plus Ten,** coached by Mary Funk.

In the semifinal game for the consolation prize the West Hall Wazoos squared off against the **Fifty Niners Plus Ten.** The Wazoos, led by their fighting captain **Jane Groveling,** had a season's record of 7 wins and 0 losses. The **Fifty-Niners Plus Ten led** by **Pansy Patnoi** entered the tournament with a 6 and 1 record. In order to distinguish between the two teams, the Wazoos were designated as skins and the Fifty-Niners Plus Ten as shirts.

The opening minutes of the game were uneventful until **Jelly Borelli** thrilled the crowd with a spectacular lay-up. With this as an incentive, both teams opened up. Points were flying from every direction. No one player monopolized the scoring. **Sandy Hammer** of the Wazoos put on a spectacular display of dribbling. Half time score read 6-2 in flavor of the Wazoos.

The second half was played on an entirely different scale as the **Fifty-Niners Plus Ten** attempted to make up the gap. Late in the third quarter, **Saintly Sarah,** who possessed one of the best set shots in the game, began pumping them up from the outside. This had the effect of drawing the defense outside and allowing the offensive Fifty-Niners to slip in for easy lay-up shots. With two seconds left in the game, the score read 10-10. Suddenly from out--of-nowhere streaked shifty **Liz Telrider,** who stole the ball and scored a tremendous set shot to win the game.

The fans, mostly Mulenberger Males, cheered madly as the two teams in contention for the championship dribbled onto the floor. The Trauts, captained by **Stilts Goatfoot,** alias Ziegenfuss, brought their own cheerleaders who chanted loudly, "There's no Traut like a Heimtraut". The Cottonpickers led by **Wa Wa Jones,** were favored in this game because of the presence of **Baldy Becker** who used his bald spot for a mirror and blinded members of the opposing team. Standouts on the Traut team were center **Carol Seamonster,** forward **Pain Kuntzleman,** who had a lot of moxey, and guard **Frigid Frere,** who was used in tight pinches to freeze the game. Offsetting this array of talent were the following Cottonpickers: **Wa Wa Jones,** noted for her speed and agility in the backcourt, **Ida Ball Diaz,** noted for her terrific dunk shots, and **Normie UpDias** who was always breaking up passes.

The game got under way. **Bale Hate got** lost while looking for a mirror and the Cottonpickers were playing with one less player than the Trauts. The cottonpickers were unable to score during the first period and the Trauts pulled away to a 9-0 lead behind the

(Continued in Column Six, Page Seven)

# B-Ball Game; Faculty-Mulls

(Continued from Column Six, Page Six)

is awarded possession in back court.

Bloomer, spectacles on forehead, brings the ball into forward court and passes into the left corner to Stingy for a one-hander, it's good. "Prince Hal" Stingy very beautifully gives the faculty a five-point edge, 5-0.

Seventeen minutes, five seconds remaining in the first half, first half being brought to you through the courtesy of Merchants National Cesspool Tanks. Jefires into the keyhole for the Mulls, tripped up by Bloomer and the ball is picked out of the air by Mel Kisser, a jump shot by Kisser—not good, follow-up by Jefires—not good, follow up by Secondary—not good, then it's Kinterbury with the takedown for the faculty, passes it out to Krowbar for a set shot, but Krowbar throws the ball into the stands.

Mulls in possession now in forward court with Macklin passing into the key to Kisser, a jump shot, blocked by Kinterbury, ball picked up by Stingy. Stingy moving from left to right brings the ball into forward court for the faculty, goes to pass to Krowbar but thinks better of it, passes into the key to Kinterbury for a lay-up that's up and in, and on the play he is fouled by the Mulls' Clunk Jefires. Jefires upset on the call. Now Crummy Birnes is up off the bench, he has something he wants to say to Egad Swain. Berghold picks up Kinterbury in the keyhole for a hook shoot, and Kinterbury is up and in, but Dunce Timber calls no basket, and charges Pits Berghold with a personal foul odor.

Stump Whispers gets up off the faculty bench and throws his blue

(Continued in Column Three, Page 8)

# Femme Fatales

(Continued from Column Four Page 7)

shooting of **Wormgard Angleshot.** The second quarter was marred by a bloody brawl as **Pain Kuntzleman** displayed her fight and moxey by tripping **Bale Hate,** who was now in the game with her make-up intact. Halftime score read 32-10 in favor of the Trauts.

After the brief intermission, both teams rushed onto the floor feeling bright-eyed and ready for action. **The Trauts,** confident in their lead began to play possession ball, with **Frigid Frere** putting on the big freeze. Early in the fourth quarter, both teams began to hit from underneath. The score mounted rapidly and when the final buzzer sounded the score read Trauts 69, Cottonpickers 38.

The most valuable player of the game was **Pinking Shear** who gave all of the fans a big thrill. As the presentations were being made, the crowd began to chant, "there's no Traut like a Heimtraut, There's no traut--------.

# STUMP IS TYRANT

(Continued from Column Three, Page 6)

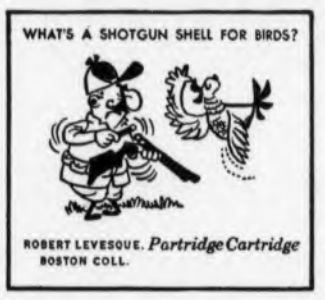
has caused tremendous fear to be aroused among members of the team when The Stump coyly tells a member of the squad to "come down and see me sometime."

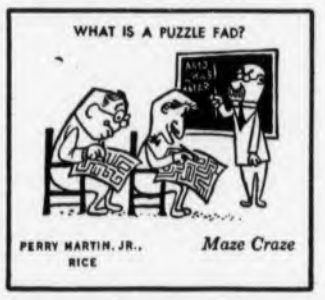
**Pay to Play Policy**

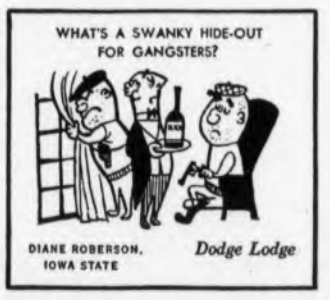
His dictatorial power stops at nothing. He has reached the point where he has begun forcing his players to purchase such things as sweat suits at phenomenally high prices, the profits of which he pockets for his own personal use —not the betterment of his athletic party as he claims.

A "burn all campus stumps" drive has been started and is slowly gaining momentum.

Sticklers!







**BOO-BOOS** are a clown's best friend. The clown in question has a penchant for shining his shoes with molasses, arguing with elephants and diving into wet sponges. But he makes no mistake when it comes to choosing a cigarette. He picks the one that tastes best. He puts his money on the only one that's all fine, light, good-tasting tobacco, toasted to taste even better. He selects (The suspense is unbearable.) Lucky Strike! All of which makes him a *Brainy Zany!* Quit clowning yourself—get Luckies right now!

**STUDENTS! MAKE $25**

Do you like to shirk work? Here's some *easy* money —start Stickling! We'll pay $25 for every Stickler we print—and for hundreds more that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y.

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

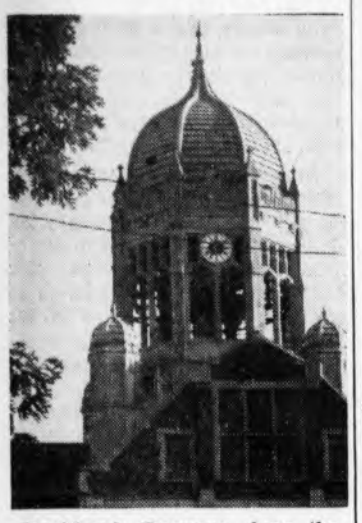
# "Chimes" Over The Macadam



**Davidson's Dungeon, long the haven for industrious students now has a new addition to its gleaming dome—it now has chimes.**

Dennis Gorski, wearing a dark brown tailor made suit, recently announced that the chimes in the batfry of Davidson's dungeon would be repaired and would play a wide selection of songs between classes and at meal time.

The song played before the 8:00 class will include "Oh, What A Beautiful Morning." Before the 9:00 class will be heard "I'm All Shook Up" which will be followed by "Wake up Little Susie". Before the 10:00 class will be heard the popular old ballad, "How Could You Believe Me When I Told You I Loved You When You Knew I'd Been A Liar All My Life." The Chime, by special request from Tired Dave who does not wish to be awakened during his morning nap, will remain silent during the chapel period. Following the chapel period the chimes will ring out with "We Will Have These Moments To Remember."

At lunch time the chimes will ring out with the old and familiar strains of "Who Put The Overalls In Harry Goodheart's Stew? Between the 1:15 and 2:15 classes the new hit "Indigestion Blues" will be heard. This will be followed at 3:15 by Mr. Kinter singing "Honeycomb."

## *The Chew Line*

This is the last article by the author as he must, by, necessity, retire with the publication of this issue. He has been run out of town. However, before his fast departure from campus and college, the following chowline message was composed and set to print:

"It is my opinion that Mr. Harriet Eberhard is without a doubt one off the finest men (?) that it is my pleasure to associate with during the past two and one half days while I was recovering from an overdose of Snack bar coffee and sinkers and I personally feel that Mr. Evanhart should foster a campaign to eliminate the campus of all unworthy individuals by putting in new and fresh coffee in the arms in the Snack bar—the shock would kill the drinker . . . (The following fourteen pages were censored as being too realistic by old slimy Sam Slater, leader of the germ squad for dietary reforms in the U.S. Department of Labor.)

Pax

This has been the last warped production.

## Magazine Releases Next Year Trends

**Chestnut Cigars will be the fad on campus next year, according to TRENDS AND FASHIONS. Chestnut Cigars will undermine all students and lead them into bad habits, of smoking. Even girls are expected to become influenced by this phenomena. So when coming to the crossroads of decision, be sure to cross the bridge leading on the right path. The path leading down the wrong road may bowl you over.**

# B-Ball Game; Faculty-Mulls

(Continued from Col. Five, Page Seven)

baseball cap on the floor in a rage shouting, "I'm not out to win a popularity contest."

There is a small ruckus to the right of our vantage point now as Pandy Eeelskin and "Prince Hal" Stingy draw swords and begin to duel. Pandy stabs the prince, who screams 'et tu Eeelskin," and falls to the hardwood.

Gishbish Bloomer, spectacles on forehead, stands in the right corner taking notes mumbling, "this is quite significant."

It's a major free-for-all now, with the fans all running out on

(Continued in Col. five, Page Two)

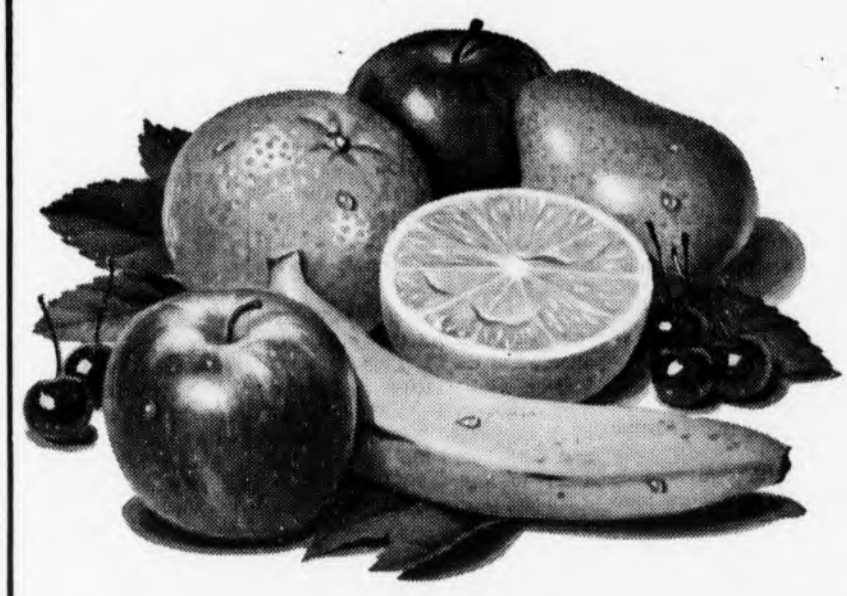
## Steckweather Search Still In Progress

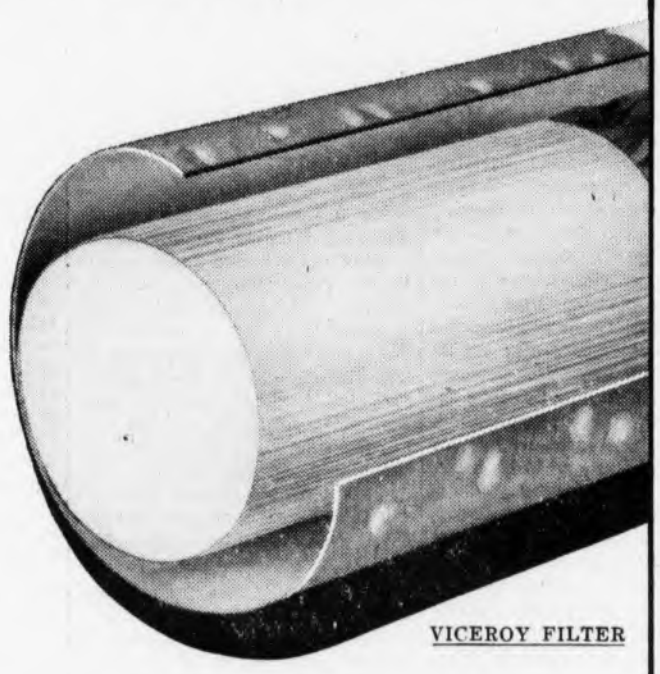
**Anyone having any information leading to the whereabouts of Charlie Steckweather should immediately contact the Muhlenberg bureau of police. Steckweather is wanted for embezzlement of the Muhlenberg contingency fund. His description is as follows: medium build, average complexion, last seen in suit, wearing a rug on his head.**

**Lenard Hotinger**
**Chief of Muhlenberg Police**

# Why Don't Things Work Out?

What does this fruit have to do with this cigarette filter?





THE VICEROY FILTER IS MADE FROM A PURE, NATURAL MATERIAL FOUND IN ALL FRUIT

–and it gives you Maximum Filtration for the Smoothest Smoke!

• From the same soft, pure material found in the rich pulp of nature's healthful fruits, modern filter scientists have created the greatest cigarette filter ever designed . . . the Viceroy filter. For the Viceroy filter gives you the *maximum filtration* for the smoothest smoke of *any* cigarette. More taste, too . . . the pure, natural taste of rich, mellow tobaccos. Yes, Viceroy gives you *more* of what you change to a filter for!

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | First Class | Muhlenberg College, Allentown, Pa., April 10, 1958 | A. C. P. Rating | No. 22

## Dorm Council In West Hall Elects Officers

Sara Jane Ruloff was elected president of the Women's Council for the 1958-59 school year on March 24. Marge Sos will hold the office of vice-president for the new term. Supplementing these two officers are Jan Horvath, secretary, and Pat Missimer, treasurer.

The four women were elected from a slate of twelve potential candidates by secret ballot. Each voter checked off four names, and the candidate receiving the highest number of votes became president, and so on down the line until the offices were filled.

Sara Jane Ruloff lives in Temple, and plans to major in education at 'Berg. She has been a member of the Dormitory council and is a member of the cheerleading staff.

Marge Sos comes from Northampton. She is a Chemistry major and a Dean's List student. Her activities include the **WEEKLY** and The Neuman Club.

Jan Horvath is a resident of Allentown and a natural science major. She writes her own column in the **WEEKLY**, A cote des Femmes; she played the part of Bianca in "Othello", and she now has the leading role of Maria Louise in "My Three Angels," a play which will be presented on campus in May. Jan is also a member of the Neuman Club.

Pat Missimer makes her home in Lafayette Hill. She is a natural science major and is active in the choir.

Investing of the new officers took place Wednesday evening in the West hall chapel. Miss Deitrich presided at the candlelight ceremony. The gavel, a symbol of the office of president, was handed to the new president by Jane Kuntzleman, retiring president. Miss Kuntzleman made a brief speech, after which the ceremony was brought to a close.

This is the second all-women's council to operate at Muhlenberg college. They plan to continue under the same format of last year's council.

## Honorary Journalism Fraternity Holds Initiation For Four Men

**Marv Hyett is congratulated by Ron Moxey, president of Pi Delta Epsilon, upon his initiation. Looking on are Bob Donatelli, Rick Stephan and Jim Sorger. The initiation took place in the chapel lounge on Wednesday, April 9.**

Pi Delta Epsilon, the national honorary journalism fraternity, initiated five men into the organization yesterday afternoon in the chapel lounge. Those men who were initiated in the traditional candlelight ceremony and ritual were Bob Donatelli, Marv Hyett, Jim Sorger and Rick Stephan. All of these men have made outstanding contributions to the field of journalism during their years at Muhlenberg.

Bob Donatelli, a sophomore from Allentown, has been a member of the staff of radio station **WMUH** since his freshman year. Since that time he has been made program director. Bob is a pre-medical student.

**Marv Hyett**

A pre-medical student, Marv Hyett hails from Atlantic City, N. J. At Muhlenberg Marv has been active on the **Arcade** staff, the **Ciarla** staff and the feature staff of the **WEEKLY** since his freshman year. In addition to these activities, he also maintains membership in the Chess club and on the staff of **WMUH.**

Another pre-medical student, Jim Sorger, has been a member of the **Ciarla** staff since his freshman year and was recently made section editor. In addition to his work with the **Ciarla,** Jim is also a member of the **WEEKLY** staff and a brother at Phi Epsilon Pi social fraternity.

Rick Stephan has been a member of both the features and the city staffs of the **WEEKLY**. This year he was made city editor of the newspaper and will maintain that position throughout the coming year. In addition to his editorship with the **WEEKLY,** Rick is also a brother at Alpha Tau Omega social fraternity and a member of the Mermaid Tavern society.

Pi Delta Epsilon was instituted at Muhlenberg in 1951. It is the oldest collegiate journalism fraternity in the country and maintains chapters in many leading colleges and universities. Its purpose is to foster a fraternal spirit among members of campus publications who have attained outstanding achievement in this field, and to act as a unifying force among the various publications. Ron Moxey is president of the Muhlenberg chapter and Dr. Harold Stenger is faculty advisor.

## Campus Suffers Through Death Of Faculty Man

Muhlenberg College was recently saddened by the death of athletic director George E. Lawson. His death on Thursday, March 27, was the culmination of a long illness, and came at the age of 51.

Lawson attended high school at Norristown High, where he demonstrated his athletic competence by excelling in basketball, baseball, and track. He continued to star in these three sports while attending Muhlenberg, and, upon graduation from 'Berg in 1928, accepted the post of director of athletics at Whitehall High School. He served in this capacity untill 1931, while also coaching football, baseball, and basketball there.

**Administrator at Haddonfield**

He left Whitehall to assume a similar position at Haddonfield High School in New Jersey. He held this post for 16 years, and won considerable attention and prestige as an administrator.

In 1947 he was named to the position of assitsant athletic director at Muhlenberg, and in 1952 became full athletic director and assistant professor in charge of physical education and inter-collegiate athletics.

During his tenure of office, he frequently served on committees and held offices on such athletic organizations as the NCAA, ICAA and Middle Atlantic States groups. He was ideally suited to his position, and his friends were legion.

He is survived by a daughter, Joanne, thirteen.

Ray Whispell, head coach at Muhlenberg, will assume, officially, the position of director of Athletics. Whispell has been a member of the faculty for two years.

Whispell has been assistant director of athletics for the past year, during the period of Lawson's illness. Dr. Seegers announced that he is quite confident of Whispell's capabilities.

Whispell is an Allentown native, and was assistant coach of football at Lehigh university, before coming to Muhlenberg.

## Inter-Fraternity Council To Hold Annual Dance

Muhlenberg college's Inter-fraternity council will hold its annual spring ball at the Brookside Country club in Macungie, on Friday evening of April 11. This will be the last all-campus dance of the current academic year. Under the direction of the IFC, the dance will begin at 9 p.m. and end at 1 a.m.

**Buddy Williams**

The music of the Buddy Williams' orchestra will be featured at this social function. This orchestra was recently selected by "Billboard" magazine as one of the year's most promising new bands. Williams progressed from arranging for such name bands as Glenn Miller, Les Brown, Count Basie, and others, to managing his own organization.

**"Golden Echo Music"**

Buddy Williams developed and features his renown "Golden Echo music." The "Golden Echo" sound is the product of a unique brass section, which includes three double bell euphoniums. This lends a tone of a rich new sound in musical color and fullness unattainable by using trombones. Also included on Friday evening's billing is the "Savannah Stompers', a jazz group made up of musicians from within the Williams orchestra, who will play during intermissions.

Part of the evening's program will be the awarding of sports trophies. This will be for Intramural sports excellence and awards for outstanding scholastic achievement during the past academic year.

**Week-end Events**

To complement the soical events of the week-end, the Jazz society will present Maynard Fergusen and Birdland Dream band. Fergusen and the group will appear in the Science auditorium at 1 p.m. on Saturday afternoon. Admission to this jazz concert is free to all Muhlenberg students and their dates. At this time, the IFC will hold its annual Spring sing, in which the various social fraternities will compete in song.

Tickets for the dance are available through Walter Schuman, president of the IFC, or any other member of that organization. Admission to the dance will be $3.50.

All fraternity men will be assessed through their own treasury departments. This will greatly facilitate IFC in the financing of their social event this year. All fraternities are urged to have their share of this obligation in on time.

## Divinity Degree Given To Buhl

The Reverend Albert H. Buhl, a 1929 graduate of Muhlenberg college, is one of the seven men who will be awarded an honorary degree by Wittenberg college, of Springfield, Ohio, at its 113th commencement program on June 9.

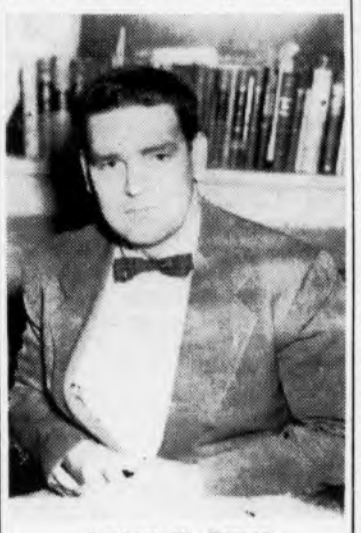
Wittenberg president, Clarence C. Stoughton said that the Rev. Mr. Buhl will receive an honorary doctor of divinity degree. Pastor Buhl is now serving as superintendent of home missions and church extension for the Synod of Ohio, of the United Lutheran Church in America. He lives in Columbus, Ohio. In his present post he supervises 35 mission congregations and the establishment of new congregations.

Pastor Buhl has served previous pastorates in Bellmore, L.I., Akron, Ohio, and Denver, Colorado.

Rev. Buhl left his pastorate in Colorado to assume his position as superintendent. He felt that his services in this field would be of greater benefit and service to all concerned.

## Fellowship Awarded To Fraser For Economics Seminar Study

Mr. Herbert W. Fraser, professor of economics, has been awarded a fellowship to the Ford Foundation Faculty Research Seminar in Economics. The seminar is to be held at different universities throughout the country during the year. It is restricted to professors having no higher than an M.A. degree in colleges where the conditions are not large enough to facilitate extended research.



**Herbert W. Fraser**

Mr. Fraser will attend the seminar to be held from July 17 to August 30, 1958, at Johns Hopkins university in Baltimore, Maryland. The restricted number of ten professors will meet under the leadership of Professor Fritz Machlup, a foremost economic theorist who is associated with Johns Hopkins university.

The scheduled plan of the seminar is to meet for two in three weeks and then to separate in order to make research studies. After a period of time the seminar will be resumed again at which the material collected in research will continue since the grant stipulates that professors be relieved of some of their teaching duties in order to devote a considerable amount of time and work to this important research. During 1959 additional seminars will be held to follow up the research made by its members.

Mr. Fraser, a graduate of Swarthmore college and Princeton university, joined the Business department at Muhlenberg college in 1956. At the present time, he is doing research in the area of theory of the growth of the firm and structure of industry. His dissertation topic is entitled "Theory of Growth and Control Evolution in the Corporate Firm." It is the first part of a larger projected work in connection with the structure and growth of the economy. This grant by the Ford foundation to Mr. Fraser will greatly facilitate his interests and research in this field of vast and extremely important economics.

## Summer Jobs Offered To College Students

Despite the fewer job opportunities predicted for college students and graduates this summer, there will be more openings for camp counselors in 49 nonsectarian and Protestant camps affiliated with the Federation of Protestant Welfare Agencies, New York City.

Because of the severe personnel shortage that has jeopardized many camping programs for deprived youngsters, the federation has launched a more intensive drive to recruit applicants as far west as Missouri and Illinois for summer work in New York, New Jersey, New Hampshire, Pennsylvania and Connecticut.

The minimum age for the jobs is 19, and college students or graduates are needed who have skills such as swimming, boating, riding, hiking, crafts, dramatics, nature lore and other hobbies that can be taught to boys and girls and teenagers.

Salaries range from $150 to $500 for the approximately nine-weeks season which opens late in June, and board and lodging are provided.

There are openings for married couples as well as individuals if both husband and wife can qualify

(Continued on Page Six)

## National Service Fraternity To Petition At Muhlenberg

Alpha Phi Omega, national service fraternity, will petition Student council this evening to allow their official existence at Muhlenberg. Penn Chabrow, class of '60, is heading the committee for the acceptance of Alpha Phi Omega. Those members on his committee are: two members of the **WEEKLY** editorial staff, members of the organization at Lafayette college and Lehigh university, and H. M. Faucett, of the Allentown Scouting council.

The fraternity is an affiliate of the National Council of the Boy Scouts of America. The group is an organization for Scouts who are attending college and wish to extend their services, where they are needed, to Boy Scout troops in the college community. It is also intended to bring together all those who are and were members of the Boy Scouts, in a common bond of fellowship.

**Over 250 Chapters**

Nationally, the fraternity has more than 250 chapters, and an enrollment of more than 50,000 men in their brotherhood. The national initiation fee of Alpha Phi Omega is $12.00. Funds derived from these fees are used in the national budget to pay the expenses of the undergraduate membership of each member in the fraternity. To become a member, each candidate must have previous training in scouting, desire to render service to others, and satisfactory scholastic standing.

Other activities of Alpha Phi Omega are wide and diversified, and include such projects as: conducting the Ugly Man contest and giving proceeds to a charitable agency, aiding foreign universities, assisting in church conferences, cooperating with the YMCA and the YWCA, and painting school signs for the college.

Alpha Phi Omega has been recognized on many campuses as an organization on which the administration can place much confidence. The fraternity accepts the cooperation of college and university officials and Scout leaders in carrying out their service program. Many of them serve actively as advisors in the chapters. Those men on the Muhlenberg campus who are interested in the fraternity should contact Penn Chabrow in Martin Luther hall.

## World University Service

**The World University Service drive will be conducted the week of April 14. To learn more about WUS, the students are encouraged to hear Mr. Paul Denis, Regional Secretary of World University Service in chapel.**

## Officer Election Held By Social Fraternity

Dick Truchses, Priit Rebane, and Ron Dungan were elected to lead the Phi Kappa Tau social fraternity for the next year. The new president, vice president, and treasurer were installed Tuesday night along with eight other newly elected officers.

Truchses is Student council president and is active in several campus organizations and honorary fraternities. Rebane is a Pretheological student from Philadelphia, active in choir, Der Deutsche Verein, and the Sociological society. Besides being vice president of Phi Tau, he will serve as scholarship chairman. Dungan, a business major from Feasterville, has been active in both college and intramural athletics, and has been assistant treasurer of the fraternity for the past year.

**Pledgemaster**

Pledgemaster-elect Ken Stewart is from Norwich, N.Y. He is a physics major, and participates in intramural athletics. The steward will be Bob Schumacher of Plumsteadville, Pa., an English major.

Corresponding secretary will be Charles Seivard, a pre-theological student from Pottstown, active in band, Alpha Kappa Alpha, and

(Continued on Page Six)

# Editorial Views——

## Our Position . . .

With this issue, the new editors of the **WEEKLY** assume positions realizing the burden of responsibility which we must face. Putting out a newspaper week after week becomes almost a matter of habit, yet we are still aware of our responsibility to the student body and the College as a whole. It has been customary to remark about "editorial policy" with this first printing under the new administration.

The **WEEKLY,** being a newspaper, is concerned primarily with reporting the news—both campus events and off-campus events which warrant interest to the readers. This will be one of our major functions as journalists.

But when we speak of editorial policy, we channel our thoughts to the "Editorial Views" column. In this corner of the paper, the editors present their own **subjective** opinions on any condition or event which may be relevant and/or timely. It must be understood that this column will not become a mirror for the majority or the minority of student opinion, nor will it cater to the wishes of any organization now on campus.

When the student body wish to present their views, they may submit signed letters to the editor. Due to the recent upsurge in the submission of letters, they have often prevented us from printing material of more concern. The editors will reserve the right to exclude any letters if they exceed the bounds of the designated column or if they are not reasonably mature, worthwhile, and based on fact.

If we are to quote an all-encompassing editorial policy—one which will be flexible, inclusive, and beneficial to the College—we will subscribe to the phrase beneath the banner on the front page "Toward A Greater Muhlenberg." By nature of its widespread distribution, the **WEEKLY** is perhaps the most influential student force at College. The new editorial staff will do its utmost to uphold the standards of "Toward A Greater Muhlenberg."

## Worthwhile Cause . . .

Last semester a petition was presented to the Student council for the formation of a Muhlenberg chapter of Alpha Phi Omega, a national service fraternity. The petition was quickly rejected by Council on the basis of its being an "ambiguous" organization which would conflict with the activities of the Cardinal Key society. This of course is not true and it seems as though the fraternity was judged from the wrong standpoint.

Alpha Phi Omega is an organization composed of ex-Boy Scouts who wish to continue their affiliation with the Boy Scout movement throughout their college career. **Their purpose is primarily concerned with aiding the Boy Scout troops in the community** with their fund raising drives, camping trips, banquets and other scouting projects.. In addition to this work, however, they also engage in campus service projects other than ushering, which is the primary function of the Cardinal Key society.

Alpha Phi Omega was founded at Lafayette college and maintains chapters in many of our surrounding colleges and universities including Lehigh, Lafayette, Ursinus, Drexel, University of Pennsylvania, Penn State, East Stroudsburg STC, Gettysburg, Millersville STC, and Albright. In all of these institutions, Alpha Phi Omega is a respected name and is depended upon by both the administration and the student body for many on and off campus service projects. It might also be noted that many of these institutions have service societies similar to our own Cardinal Key society in addition to an APO chapter.

The **WEEKLY** staff feels that the Student council should act favorably upon the second petition which Alpha Phi Omega will present to them this evening. It is our belief that an organization of this type on the Muhlenberg campus would be a real asset and that it would serve a purpose beyond that of a campus service group.

# Psychology Department Experiments With Rats

**Some of the students in the experimental psychology course make friends with their newly-acquired rats. The rats find that Dick MacLaughlin's back makes a good stamping ground.**

**by Dave Reinhard**

Of the various divisions of the psychological disciplines, probably the most misunderstood and least discussed is that of experimental. Most of us, when thinking of psychology, do it in terms of clinical or counseling. Yet one may very well question if these respective fields would be where they are today if it were not for the experimental psychologists.

Anyone who has taken an introductory course in psychology knows that the first laboratory was started at Leipzig in 1879 by Wilhelm Wundt. They have also learned of the influences of such men as Pavlov and his classical conditioning, Skinner and his operant conditioning, and, possibly, Bekhterev and Watson.

### Various Handicaps

What most of us fail to appreciate are the various handicaps under which the experimentalist works, and the notable contributions which he makes to the understanding of human behavior. His influence in recent years has been felt in the clinic, the penal system, and in industry. Perhaps the most frustrating part of being an experimentalist is the fact that the results of his work may go for years before they become recognized or applicable.

One can get a general idea of the work of the experimentalist by spending a day or so in Muhlenberg's own little psychological laboratory in the basement of the Administration building. In here you will see small interviewing booths, equipment which looks strange and out of place, and other equipment which just looks strange. Among the equipment are: an oscilloscope, an amplifier, a dynamometer which is a device used to measure grip strength, an Oscillator, and other such electronic equipment. Of course, we can not forget one of the prize subjects of the experimentalist—the white rat. The whiite rat takes on importance for work where society will not allow the use of human subjects.

### Behavior Is Caused

Basic to the understanding of the work of the psychologist is the premise that all behavior is caused. The psychologist attempts to determine the relationships between responses of the organism and the events which prompt those responses. With this understanding it would be well to examine some of the problems and work that the experimentalist tackles.

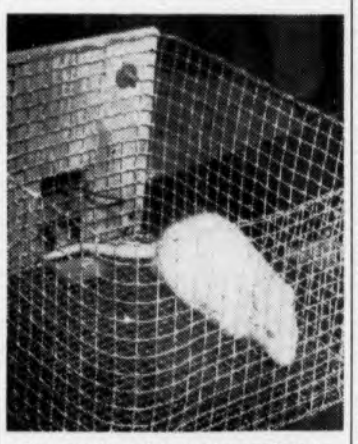
**Conditioning** as an experimental procedure and as a mine of behavioral data has become thoroughly established as a part of American psychology. In spite of the different points of view which prevail as to its particular place in psychology, there can be no doubt of the status of conditioning when evaluated by the number of psychologists whose research interests center around it. Through work in this area we have gathered a great deal of data important to the learning process.

### Motivation and Frustration

**Motivation** is another construct investigated in the laboratory. The importance of this can readily be seen by the twentieth century's large scale advertising scheme. Largely, through the efforts of the expeerimentalist, industry is selling more goods; even to people who did not want them to begin with.

**Frustration,** which becomes for the experimentalist an elaboration of the study of motivation, since it is concerned with behavior resulting from failure to satisfy a motive, is another important area of investigation. Probably no other area has so much intrinsic interest for as many psychologists as does this area. For several reasons the work has special significance to psychologists and layman alike:

(1) An experimental analysis of the conditions producing abnormal behavior may shed some light on the causal mechanisms producing this deviant behavior;
(2) It has helped substantiate and eliminate some of the theories which up to this time have been either accepted or rejected on purely a theoretical basis;
(3) Some of the work has been concerned with group responses and has provoked rather extensive theories to account for a wide range of group behavior, such as wars, lynchings, fascism.



**The white rat is indispensible to the work of the research psychologist. Through various experiments, such as the classic maze, the effects of conditioning and frustration can be studied.**

Other problems experimentally studied are conflict, its causation and resultant behavior, transfer of training, the ability to apply past knowledge to the solution of a new problem, thinking, working, and many more.

It seems a shame that such an important facet of psychology goes unnoticed and grossly misunderstood. The results of work in this field have had a tremendous effect upon all phases of human behavior and have led to a better understanding of why we humans act the way we do.

# A Coté des Femmes

**by Jan Horvath**

Since the constitution and the jurisdiction of the Women's council is still in a tentative stage ,the newly invested officers are set for a year teeming with work. One of the goals of the new Council will be to install into the constitution an Honor Code and a form of judiciary council to see that the code is maintained. The Honor Code, it is hoped, will make less liberal the rules for the campus resulting from a violation of the Code. The legislative body of the Council will have the responsibility to formulate the rules to be followed in the next year's election of the Council members. These elections will be held in the fall and provisions have been made to accommodate one freshman member.

Witnessing the response at the discussion on pros and cons of a sorority, it seems that many coeds questioned the danger of a sorority at such an early stage of coeducation. Much work has yet to be done in organizing a unified body of coeds and some feel that the advent of sororities on campus will obstruct the thinly paved path of unity. Most likely steps toward the formaton of a sorority will not be taken till next spring.

There is a new pastime in which many of the Berg coeds are finding a growing interest. This new hobby entails little concentration, at least after one has become proficient and helps build up the biceps. The hobby is knitting, and especially knitting socks for you-know-who.

The coeds will serve as hostesses for the Merritt Lumber company's open-house which will be held May 1, 2, and 3. Their main job will be to greet the people and hand out flowers.

# Continental Style Replaces Old Ivy League Fashions

**Experts predict a shift in men's styles with the turn of the next decade. College men will panic at the thought of re-investing in a new wardrobe.**

The Ivy Look is on the way out.

This is what Frederic A. Birmingham, Fashion Director of **Playboy,** the nation's foremost authority on men's fashions, says in the April issue of the magazine. Birmingham recently switched to **Playboy** after serving for 16 years as editor of **Esquire.**

Writing on things-to-come in the smart men's fashion field, Birmingham warns that "there are gentle seismographic rumblings indicating the first cracking in the IVY stratum." Taking its place will be the elegant, slim Continental style.

### Gradual Charge

This, Birmingham says, will not happen overnight. Men's fashions don't really move: they ooze along imperceptibly like a glacier covering a few yards every year." But a current at what he calls "a kind of super-Ivy," featuring exeremely narrow shoulders and trousers so snug and tapered "that the lads have a literally self-contained look," will result in a reaction against Ivy fashions.

What will the "new look" in men's fashions be? Says Birmingham: "The shoulders will be natural, without the definite attempt to squeeze, a la extreme Ivy (which too often results in a pear-shaped appearance), and there may even be a bit of padding in them, although never as much as the old swagger type carried. The suit will strive for a casualness, with a touch of the tailored look, which will probably cut a few inches off the long jacket which hangs low—in stern denial of any desire to suggest following a body line.

### Lapel Broadened

The new suit will not be quite so deliberately unconscious of styling; the ultra-Ivy lapel will broaden a bit, and the top button of your jacket, you may have expected to find right under your chin in about one more year, will relax and slide down a bit lower on your chest. The shorter jacket will, of course, give your trousers a longer, leaner look. European clothiers favor tapered trousers; these will undoubtedly stay with us. The more dashing versions will probably go in for fancy pockets or even Edwardian cuffs on the sleeves. The least you can expect is something of a nip-in at the waist."

How permanent will this Continental style be? Says Birmingham: "Fashion creates its own obsolescence; today's fine-feathered friend may well turn out to be tomorrow's dodo."

# Letter To The Editor

To The Editor:

May I take this opportunity to thank publicly the men and women who, under Mr. McConnell's excellent direction, helped make Eliot's *Murder* a success? For the third time at Muhlenberg the vitality of this stiff, archaic poem caught its cast and played itself through chorus, monks, tempters, knights and hero-victim. Especially praise-worthy was the work of the men of the light crew and of the composer; light and song re-created in their own ways the pattern of the struggle.

The old problem of acoustics came nearer solution. The simpler problem of visibility can be solved by using a platform stage in and before the choir.

The professional skill of Mr. Jeffries of Civic Little theatre, of Dr. Ruys and the other women of Cedar Crest, and the cooperation of Mask and Dagger again have placed the MCA drama committee in their debt. This we gratefully acknowledge.

Sincerely,
W. Kinter

# Campus Concert To Be Given By Birdland Dream Jazz Band

**Here is the famous trumpet player, Maynard Fergusen with his twelve-piece Birdland Dream Band. The musicians are to give a jazz concert at the College.**

Maynard Fergusen and his orchestra will play a concert this Saturday afternoon at 1:00 in the Science auditorium. Admission is free to Muhlenberg men and their dates.

Maynard is not a newcomer to the band business. When only fifteen years old, he formed his first big band and toured his native Canada for three years. In 1948, he came to the United States and played with Boyd Raeburn, Jimmy Dorsey, and Charlie Barnett. In 1950, he joined Stan Kenton's concert orchestra as featured trumpet.

In 1954, Maynard settled in Hollywood and signed with Paramount Pictures where he has been featured in such movies as "Anything Goes." He returned to leading an orchestra in 1956 when he formed the Birdland Dream band, composed of twelve of the brightest stars of jazz. The reaction of the public and of the critics was overwhelming.

As John Tynan of **Downbeat** said, "The most talked about trumpet player in America is well on his way to becoming the most talked about orchestra leader in America . . ."

The "outstanding" trumpeteer made a triumphant return to Hollywood, playing ballrooms, jazz concerts, and college proms. This fast rising orchestra is now touring the country and can be heard in the most popular clubs and ballrooms.

# Mennen Firm Seeks Student Entries To Publicity Contest

Here is the opportunity college students have been waiting for! Here is the opportunity to improve those English composition grades! Here is the opportunity to bone up on classical mythology! But most impotrant, here is the opportunity to cash in—to make money. Who would pass up such an invitation?

The hand of fortune in the personage of Mennen company in collaboration with **Playboy** magazine is knocking on the doors of three hundred colleges thoughout the United States with a generous offer for any undergraduate enrolled for the Spring 1958 semester. Here is their pitch: all you have to do is choose a myth or historical incident and weave it into the fabric of the Mennen publicity scheme which appears in **Playboy** magazine.

Who wants to bother?? you say. Well, look at this—first three prizes for the best ads are $500, $250, and $100. Not only that, but the best entry from each campus wins a year's subscription to **Playboy.**

Emphasis is on all the originality and humor that can be squeezed into a few paragraphs amounting to two hundred words or less. Entries must be postmarked no later than May 5, 1958. (Entry blanks may be secured at any store that carries Mennen products. Additional information is found thereon.)

So throw aside those volumes of Toynbee, rush down to the nearest drug store, get your entry blank, and put imagination and creativity to work. Mennen wants the talent. If you have what they are looking for, you can line your pocket with five hundred crisp bills.

# *Wm. Bloss - Ethel Lentz Wedding Plans Announced*

With the northwind spent, with the snow vanished, and with winter past; then "blossom by blossom the spring begins." The season traditionally lauded as the patron of romance has already scored a triumph on Muhlenberg campus and a young man's fancy has, far from lightly, been turned to thoughts of love.

Ethel Lentz, Berg's friendly telephone operator and a versatile asset to the secretarial staff of the college, has accepted the ring of William Bloss, presently a member of the sophomore class at Berg. Ethel was graduated from Allentown High school and the Allentown Business college. This is her fourth year as a member of the Berg family. The prospective groom is a graduate of Hazelton High school. Will served in the Army for two years on Formosa and is aspiring to enter the ministry.

The wedding will take place on Saturday, April 19, at 2 p.m. in the Egner Memorial chapel. Dr Hagen Staack will perform the ceremony, and the couple invites all to attend.

**Ethel Lentz**

# Department Heads Provide Career Planning For Frosh

Wednesday, April 16 has been designated as **Career Day.** Its purpose is to enable freshmen to meet with the heads of the various departments to discuss majors and their relationship to vocational goals.

Freshmen are invited to visit one or more of the department heads during the following times to discuss their choices of majors. Classes will be held as scheduled but freshmen will receive excuses from the department heads visited for absences.

| Department | Head | Time | Room |
|---|---|---|---|
| Biology & Natural Science | Dr. Shankweiler | 10 a.m. | Sc 308 |
| Chemistry | Dr. Brandes | 10 a.m. | Chemistry Office |
| Classics | Dr. Stevens | 11:30 a.m. | English Office |
| Economics & Business Administration | Dean Richards | 10 a.m. | Ad 300 |
| Education | Dr. French | 3:30 p.m. | Ad 300 |
| English | Dr. Stenger | 10 a.m. | Ad 209 |
| German & Comparative Literature | Dr. Meyer | 11:30 a.m. | Ad 209 |
| History & Political Science | Dr. Swain | 9 a.m. | Ad 309 |
| Mathematics | Dr. Koehler | 2:30 p.m. | Sc 207 |
| Physics—Pre-Engineering & Pre-Forestry | Dr. Boyer | 1:30 p.m. | Sc 105 |
| Psychology | Dr. Brackin | 1:30 p.m. | Ad 1 |
| Religion & Philosophy | Dr. Staack | 3:30 p.m. | Ad 200 |
| Romance Languages | Dr. Corbiere | 11:30 p.m. | Ad Conference Room |
| Sociology | Dr. Greth | 11:30 p.m. | Ad 211 |
| Social Science | Dr. Johnson | 11:30 p.m. | Ad 305 |

# From Here And There

**by Stan Heim**

In the last few years, the Dean of Men's office has been plagued by a growing and vexing problem which has not been remedied, nor has there appeared a solution that would ameliorate the situation to the satisfaction of all concerned. The problem I'm referring to is the parking situation. The relocation of the Freshman to the East side of the campus has added to the perplexity of the problem, and in an attempt to ease the congestion and the hostility of the neighbors, it has been suggested that the Freshmen be denied the use of automobiles. This, however, would not solve the problem for it has been a thorn in the side for years.

The denial of cars to certain classes is the only solution for some campuses because there just isn't enough available parking space, but this is not the case at Muhlenberg. The parking problem appears to be an insolvable dilemma for those people in responsible positions. But this is completely absurd. We're living in a state of contradiction.

The paving of the lot at 23rd and Gordon streets has been mentioned as a solution, but this would cost thousands of dollars, and is unnecessary because there is a large, already paved lot aside of Memorial hall. Whenever, this lot is mentioned, we are reminded that it is reserved for athletic events, and there is no guarantee that student cars would be removed for these occasions.

It is this logic that fouls up my own logic. It raises a more serious and essential question in my mind that is beyond the parking problem. It lies in the philosophy in back of that magnificent basketball court (no one would have the temerity to call it a gymnasium) called Memorial hall with its leaky roof and cracked walls.

Supposedly to pay for that open expanse of floor and football deficit, the field house has to be filled for every basketball game, and to fill it requires a winning team, and to have a winning team requires recruiting and scholarships. Now, if you sift and make your own way through all the blarney, Muhlenberg's primary purpose is to educate you and me. Muhlenberg has a service to offer, and we're paying for it. Muhlenberg exists to serve the student. It appears that somewhere along the line, a distortion and perversion has taken place.

In the last few years there have been numerous incidents which reflect the negation of the student to ulterior purposes. For a Christian college and a board of trustees dominated by the clergy, it seems slightly incredulous. One can only smirk and shake his head.

Certainly Memorial hall wasn't built for the physical education of the student; nor have we hired instructors for this reason. We've hired coaches, and even here, we've fumbled the ball, for to listen to various athletes, certain particular coaches are of questionable worth and merit.

Our Chapel setup, the resignation of Dean Dietrich, and the dismissal of Mrs. Brown for negligence (the root cause of this would be an excellent case study for the psychology department) have given us a belly full and it's created a hyperacidity which wants to regurgitate the whole mess and be rid of its foulness.

# 'Round Campus

**Thursday, April 10**

**Muhlenberg-Lafayette baseball game will be played at Lafayette at 3:30 p.m.**

**Friday, April 11**

The annual Inter-Fraternity council dance will be held at the Brokside Country club at 9 p.m.

**Saturday, April 12**

**Berg-Lehigh baseball game will be played at home at 2 p.m.**

Maynard Fergusen and his orchestra will give a concert in the Science auditorium at 1:00.

**Sunday, April 13**

**The Lutheran Student association will meet in the Chapel lounge at 7:00 p.m.**

**Tuesday, April 15**

**The Pre-Theo club will meet at 7:30 p.m. in the West hall auditorium.**

Berg-Moravian golf match will be played away.

**Wednesday, April 16**

**Muhlenberg - Lebanon Valley baseball game will be played at Lebanon Valey at 3:30 p.m.**

A new idea in smoking...

Salem refreshes your taste

Created by R. J. Reynolds Tobacco Company

• menthol fresh
• rich tobacco taste
• most modern filter

Refreshing! Yes, the smoke of a Salem is as refreshing to your taste as a dew-sparkled Spring morning is to you! Now get the rich tobacco taste you love, with a new surprise softness and easy comfort. Through Salem's pure-white modern filter flows the freshest taste in cigarettes. You take a puff . . . it's Springtime!

*Smoke refreshed... Smoke Salem*

# Co-eds Hoping For Intercollege Sports

by Barbara Fretz

The sharp crack of a baseball connecting with a bat, and the soft plop-plopping of tennis balls are sounds that are unmistakably the sounds of spring. In several weeks the balmy hours will turn to hot, dry days and Muhlenberg's first year of coeducation will be history.

Women and men will agree that much has been accomplished in this past year, however, there is still one area in which there remains work to be done, and that is the women's extracurricular athletic program.

The women's physical education program has been excellent this year. No time was wasted in women's classes as it was evidently wasted in men's classes. Each coed is required to take part in, and thus learn, at least three or four sports. In addition, participation in one intramural activity outside of class is necessary. As a result, many women found interest in one or several sports. Something should be done before this interest fades.

**Tennis Possible**

In the case of tennis, for example, there is a possibility of having a fairly competent team within the next two or three years. Until now, any move toward organizing any intercollegiate team for women would have been premature. There are not enough women in one class to form a sizable enough squad. Even if a team could have been formed, it would have been far outclassed.

The coeds now have a nucleus of experienced athletes who would be only too willing to help Berg add at least one intercollegiate sport to the roster. Their physical education instructor is also very willing to help. The question is, what can be done now while there is still a lack of materials?

**Procedure**

Several months ago the **WEEKLY** printed a procedure that is to be followed in initiating any new sport. This should be studied carefully by those interested women who could then go ahead by first estimating the cost of a given sport. An insurance plan would have to be examined also. These and other findings would then be submitted to the authorities in the Athletic department for approval. Prospective competing teams would then be notified of Muhlenberg's intentions of sponsoring the sport. Equipment would have to be selected and ordered and practice hours decided as soon as the sport would be approved.

This would all take time, but, if plans were made this semester or next, an intercollegiate team could begin organized practice, with the elimination of much confusion, next year. Players in the incoming freshman class would be more interested in the sport than this year's students were because the team would be an efficiently organized group. The following year interest would again be greater; therefore, the competition would be greater and the team stronger.

**One At A Time**

When one sport has become a solid part of Berg's athletic program, then, and only then, other sports could be added in the same manner.

Tennis, of course, is just an example, and the procedure outlined is only theoretical. The women themselves would have to choose the sport on which to concentrate and, in cooperation with their physical education instructor, would have to decide when and how to begin planning.

# I-M CORNER

In the final game for the championship of the Intramural League Sigma Phi Epsilon was pitted against Lambda Chi Alpha. The Lambda Chi quintet jumped to a fast lead and at half time they were on the high end of a 23-15 ball game. In the second half Sig Ep came to life and at the end of the regular time the game was all tied up. In the overtime period Sig Ep continued their outstanding play and won the game for the coveted championship by a score of 46-41. Leading the scoring for the winners was Frank Vari. Frank hit for 21 points to give Sig Ep plenty of scoring power. Tom Schaeffer aided in the cause with his 11 tallies. High man for the game was Mike Woolley of Lambda Chi with 22 points.

# Mentor Looks To Successful Track Season

Muhlenberg's track coach Bill Flamish has good reason to be optimistic toward the 1958 track season. It may prove to be one of the cinder squad's best in the past few years.

The reason for his optimism is the most enthusiastic and largest group of track candidates to turn out in recent years. There are aspirants vying for places on the Mule cinder squad, and it appears certain that the old worry of inadequate depth that has hurt the Mules during the last six or seven years will not be a problem this year. Flamish is assured of adequate representation in all events except the distances—the mile and two-mile runs. Pierce Knauss, the junior from Bethlehem, who was the Mules' mainstay in these events last year, has decided to forego track this spring to devote more time to his studies and Flamish will be hard put to replace him.

**Two Lettermen**

Only two of the present crop of thinclad hopefuls are letterwinners—Chuck Wieder and Bob Sabol. Wieder, a junior from Allentown, is a pole vaulter. Last year he copped first place in his specialty in all but one of the Mules' meets, and twice came within ½-inch of breaking the school pole vault record of 12' ½" set by Riley in 1944. He finished third in the Middle Atlantics.

Sabol, a junior from Plainfield, N. J., represented the Mules in the 440 and 880, picking up a season's total of 28 points.

**Added Strength**

In the dashes, Flamish is counting on footballers John Haberern, a Junior from Egypt, Pa.; Herb Owens, a sophomore from Audubon, N. J.; and Bob Rosenheim, a sophomore from New York City.

Herb Loeffler, a sophomore from Huntington, N. Y., should help out in the high jump, and Roger Keehn, who has already earned letters in football, wrestling, and baseball, figures to give the Mules a lift in the hurdles.

**The Complete Roster:**

| | |
|---|---|
| Budge, Samuel | Sr. |
| Carty, John | So. |
| Dahle, Joseph | So. |
| Dudak, Stanley | So. |
| Haberern, John | Jr. |
| Johns, Glen | So. |
| Jurus, Philip | Jr. |
| Kalmbach, Ewald | So. |
| Lewis, Richard | So. |
| Loeffler, Herbert | So. |
| Marschall, Frank | So. |
| Mealing, Kenneth | Jr. |
| O'Connor, Thomas | Jr. |
| Orr, James | So. |
| Owens, Herbert | So. |
| Rehrig, Gerald | Jr. |
| Rosenheim, Robert | So. |
| *Sabol, Robert | Jr. |
| Schoellkopf, Ben | So. |
| Stutman, Fred | Sr. |
| Sussex, Ronald | Jr. |
| Voorhees, Robert | So. |

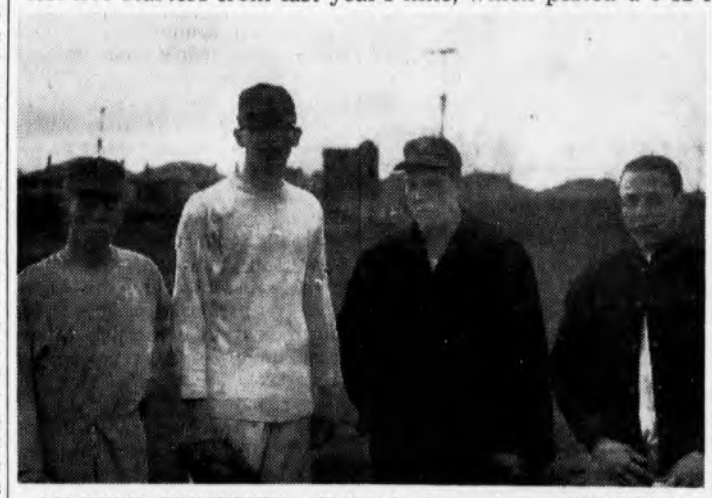
# Kozlowski Faces Problems As Baseballers Prepare For Opener

Muhlenberg baseball coach Jim Kozlowski has been confronted with several problems as he put his squad through its paces in preparation for the Mules' opener at Lafayette today. Although the Berg mentor numbers nine lettermen on his 32-man roster, he has lost five starters from last year's nine, which posted a 6-12 record.



**DIAMOND PROSPECTS — Pictured above along with baseball coach Jim Kozlowski are three candidates vying for starting berths in the Berg infield. They are from left: Chick Smith, Bob Schumacher, the coach, and Sandy Dreskin.**

The hardest gap to fill will be the one left by catcher Dick Leber, now a member of the Phillies' organization, and a Mule standout behind the plate for the past four years. Three sophomores and two juniors are fighting it out for the backstop assignment, with Dave Hoover, a sophomore from Norristown, Pa., looking good in early-season workouts.

**Rebuilding Job**

Kozlowski will have to rebuild his entire infield, with the exception of third-baseman Sandy Dreskin. In the outfield, he must find a replacement for Frank Micek, the club's top RBI man last season.

The affable Mule coach is also on the lookout for a little batting punch to fortify the weak Mule attack. Last season the Bergmen were able to muster a team batting average of only .236, as Pat Wilson and Dave Jones were the only regulars to hit over .300.

**Strong Pitching**

On the side, the Mules' pitching headed by lettermen Charlie Takacs and Bill Higgins, should be adequate.

Takacs, a 6-2, 165-lb. senior from Easton, Pa., won four of the Mules' six triumphs a year ago. En route to a 4-4 season, the tricky junk-ball artist allowed 71 hits in 68⅔ innings, and posted on earned-run average of 3.67.

Higgins, a junior from Cambridge, N. Y., picked up the Mules' other two victories, losing only once. The right-handed fast-baller gave up hits in 26⅔ innings, and an earned run mark of 6.00.

Jim Nonnemaker, sophomore righthander from Sellersville, Pa., showed promise during his freshman year, and figures to provide added strength to the pitching staff.

**Lettermen**

The Mules count four letterwinners in the infield. In addition to Dreskin, a senior from Newark, N. J., they are: John Holcroft, a junior from Philadelphia, who saw action at first and third last year; Jim MacMillan, a junior from Yardley, Pa., who filled in at short and third; and Joel Moskowitz a junior from Newark, who won his letter at shortstop. However, a wide-open battle for all of the infield berths is in prospect, as this quartet of Mule veterans compiled a composite batting average of only .202, led by Dreskin's .269.

Pat Wilson, Ray Croft and Mike Woolley are outfielders who have earned their 'M's and are back for more action this spring.

**Leading Batsman**

Wilson, a junior from Allentown, was the team's leading hitter last year with a fancy .353 average, good enough to rate him among the nations top collegiate batters in the NCAA listings. The hustling centerfielder was 18 for 51, drove in six runs and scored five. Six of his hits went for extra bases.

Leftfielder Croft, a senior from Southampton, Pa., and rightfielder Woolley, a junior from Elberon, N. J., were both plagued by light hitting, and may be hard-pressed to hold their positions.

In all the Mules will play 16 games, six at home and ten on the road, featuring a home-and-home series with Lafayette, and single contests with Delaware, Gettysburg and Rutgers.

# Girls Stage Badminton, Basketball Tournaments

by Betty Lou Jones

The mid-winter and spring girls' sports program is now underway. Miss Jean Hecht, physical education director, recently announced the rules for the badminton tournament. Names were set up on the badminton holder at random. A player challenges the player directly above her. If the player should win, she then changes positions with her opponent. These scores will then be recorded and kept in the physical education office. Girls must arrange beforehand for the use of equipment and court, however, they may play at any time. Two of three matches will determine the winner. Player in number 1 position at the end of the tournament shall be the winner. One match per week has to be played, otherwise you shall drop one position if you fail to play. The girls are permitted to play as many matches per week as they desire.

**Participant**

Those participating are Barbara Sher, Nedra Hughes, Paula Stone, Karen Kamima, Diana Curry, Irmgard Englehard, Barbara Wahl, Lorraine Ward, Jean Keiser, Gail Rosenberg, Marjie Williams, Marilyn Schier, June Renninger, Judy Renshaw, Barbara Reichenbach, Doris Gack, Dolores Novak, Carol Hodson, Judy Barhash, Pat Shalter, Ilga Ziedonis, Eleanor Jacobs and Carol Lehr.

**I-M Basketball Tourney**

The intra-mural basketball tournament has been played between the commuters and the dormitory students. The results are as follows: Commuters 21-19; Dormitory 21-13; and Commuters 21-11. Games were played every afternoon and special games were played on Monday and Thursday afternoons from 4:00 to 5:00 in the West hall gym.

Those participating for the Commuters were Pat Forshner, Cecile Stump, Janice Horvath, Kristina Toffer, Pat Kocher, Diana White, Alice Budner, Helene Stravino, Carol Lipton, Marjie Sos, Carol Hottinger, Ann Fraley, Paula Stone, Taimi Toffer, and June Renninger.

**Dorm Team**

On the dorm team were Judy Petree, Alice Mathison, Phyllis Lehman, Ramona Spatz, Nedra Hughes, Phyllis Keith, Meredith Bottom, Phyllis Lehman, Norma Bressler, Sandra Peifly, Karen Kamina, Marilyn Schier, Penny Forman, Barbara Kerrman, Grace Baer, Pat Missimer, Lyn Frere, Gail Haid, Lois Reimer, Louise Niebaum, and Marie Merkel.

With the coming of spring many new activities have been arranged. Among those are incuded a tennis tournament and the organization of a softball team. As for golf, it is still a question as to whether the proper facilities will be available, but preparation is being made at the present time. However, the red bermudas of the Muhlenberg co-eds will be a familiar sight on the athletic fields this spring.

**I-M SOFTBALL**

**All teams must turn in I-M Soft Ball rosters by Tuesday, April 15. Rosters may be turned in at the Physical Education office to any of the coaches.**

# Grid Coach Is New Director Of Athletics

Ray Whispell, who has been head football coach at Muhlenberg college since 1956, has been named director of athletics by Muhlenberg president Dr. J. Conrad Seegers. Whispell replaces the late George Lawson, and will continue as the Mules' football mentor. He will operate his dual capacity during the coming year in what is regarded as a kind of tryout period to determine whether the many responsibilities of the two positions can be adequately handled by one man. Dr. Seegers echoed the confidence that the college feels in Whispell when he said, upon announcing the appointment, "Ray is the man for the job. He has been carrying on the duties and has been doing

Ray Whispell

them well." Whispell had been assistant director of athletics for the past year, during the period of Lawson's illness.

**Allentown Native**

The newly-appointed athletic head is a native of Allentown, and was a star back at Allentown high in 1940-41. He enrolled at Temple university in 1942-43, leaving there to enter the service. He was discharged in 1946, and entered St. Bonaventure university the same year. He graduated from the New York school in 1950 with a B.S. degree after starting there in football serving as assistant football coach to Hugh Devore, former coach of the Philadelphia Eagles.

He coached at Northumberland High (Pa.) and Sellersville-Perkasie High (Pa.), now known as Pennridge High school, with notable success, and in 1955 went to Lehigh university as an assistant coach.

# Berg Golfers Have Chances For Good Year

Ned Senger, the new Muhlenberg golf coach, has been putting ten linksmen through their paces in preparation for the Mules' home opener against Albright.

The Mules' chances for a successful season are bright, since four of the candidates are lettermen.

Co-captains Sid Gamburg and Dave Senger, and Jack Pfeiffer and Ron Choquette are all seassoned campaigners returning from last year's squad.

Choquette, a junior from Little Silver, N. J., rated as the Mules' top golfer last spring, winning six of eight decisions in regular-season competition, and placing tenth in the Middle Atlantic championships, only ten strokes off the winning pace.

**Tested Performers**

Senger, a senior from Allentown, and Gamburg, a senior from Hatboro, Pa., also posted winning seasons in 1957. Senger won five and lost two, and Gamburg notched four wins against two defeats.

Pfeiffer, a junior from Corry, Pa., who had an in-and-out season last year, figures to be much steadier with a year's experience behind him.

In addition to his quartet of letterwinners, Coach Senger can call on a pair of experienced golfers in Ira Seidman and Phil Levan. Seidman, a senior from New York City, and Levan, a junior from Allentown, both have campaigned previously for Berg.

**New Candidates**

Untested performers vying for a position on the Mule team are: Russ Bleiler, a sophomore from Allentown; Don Fisher, a junior from Allentown; Dennis Gurski, a senior from Allentown; and Don Thomas, a sophomore from Northampton, Pa.

The Mules are scheduled for eight matches, four at home and four away. They will compete in the Middle Atlantics at Juniata on May 10.

# Flamish Announces First I-M Track Meet

A new entry to the Muhlenberg intramural sports program will be the Intramural track meet on Tuesday, April 22, at four o'clock. Time trials will be held all next week—April 14 to 18 between four and six o'clock each day. Team entries must be turned in no later than tomorrow (Friday) afternoon to coach Bill Flamish.

It should be noted that an individual does not have to be a member of a team to participate. Any male student, unless he is a track letter winner or member of the 1958 varsity track team, is eligible. All memebrs of a fraternity team must be directly affiliated with that fraternity. All spiked shoes and starting blocks are disallowed.

**Scoring**

The scoring shall be tabulated as follows:

First place—Six points
Second place—Four points
Third place—Three points
Fourth place—Two points
Fifth place—One point

(Continued on Page Six)

# *In the Sportlight . . .*

## Senior, Junior, Head Mule Mound Staff

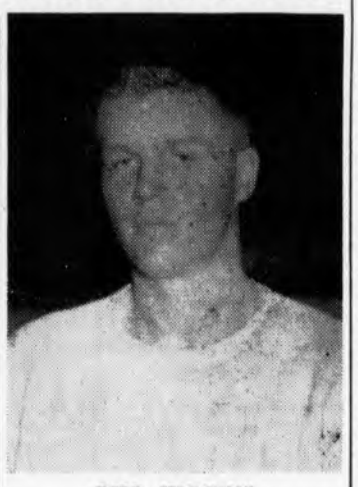
CHARLIE TAKACS

Veteran moundsman Charlie Takacs is one of the main reasons why Coach Jim Kozlowski is optimistically looking forward to this year's campaign. Last season "Tak" came up with a record of four wins and four losses, and a fine earned-run average of 3.60. His pitching was one of the bright spots of the 1957 campaign.

Charlie is a graduate of Wilson Boro High school where he earned four letters in baseball and basketball. In his senior year he made the all-star team of the Lehigh-Northampton baseball league.

Charlie's activities at school include the Business and Economics club, the M-club, and the Commuters club. After graduation he plans to go into business with his father.

Takacs believes this year's team should better the 1957 record, but it lacks the hitting needed to produce an excellent season.



BILL HIGGINS

Bill Higgins, returnee to the Muhlenberg mound staff is another reason why the baseball outlook for this year is bright. Last year Bill turned in some fine performances in posting a respectable 2-2 record.

While attending Cambridge High school in Cambridge, N. Y., Bill gained seven letters in baseball, basketball, and track. He was an All-league selection in Washington county in recognition of his basketball exploits.

Here at Muhlenberg "Higs," a junior, is an affiliate of Lambda Chi Alpha social fraternity. He is also a member of the Education society and the M-club. Bill is a romance language major and plans to teach after graduation.

Asked how he thought this year's team will do. Bill ventured to say only that we'll win more than last year.

# MASCAC Plans Tennis Tourney

Thirty-two members of the Middle Alantic States Collegiate Athletic conference will take part in the Conference's first formal tennis championship competition this Spring.

The competing schools will be divided into two groups, a Northern Division and a Southern Division. In order to qualify for consideration for the championship, an institution must schedule at least eight matches with six different conference members. To be eligible for a division championship, a school must have played at least six matches, no less than four of them with teams in its own division.

**Championship Playoffs**

The conference champion will be determined by a playoff between the two divisional winners at the conclusion of the regular season. In the event of a tie for the divisional leadership, a playoff will be held, unless the two deadlocked teams played during the regular season, in which case the winner of the regularly-scheduled match will be awarded the division championship.

The above arrangements will determine the team championship of the conference. In order to establish the conference singles and doubles champions, the MASCAC annual tournament will be held at Haverford, May 8-10.

The members of the two divisions are as folllows:

**Northern Division**

Albright, Bucknell, Dickinson, *Elizabethtown *Gettysburg, Hofstra, Lafayette, Lebanon Valley, Lehigh, Lycoming, Moravian, Rutgers, Scranton, Stevens, Wagner, Wilkes.

**Southern Division**

Delaware, Drexel, F & M, Haverford, Johns Hopkins, LaSalle, PMC, St. Joseph's, Swarthmore, Temple, Ursinus, Washington College, West Chester, Western Maryland.

* These two schools are to be considered in both Divisions for scheduling purposes during the 1958 season only. Thereafter they are in the Northern Division.

# Baseball Team To Face Powerful Lehigh Nine

**by Don Poppe**

On Saturday afternoon, April 12, Muhlenberg will travel to Lehigh university to meet coach Tony Packer's nine. The Engineers, bolstered by nine returning lettermen, have already defeated Swarthmore, 11-6, Fairleigh-Dickinson, and Hofstra, 3-0, and have lost to Wagner, 2-1.

This year's squad could very possibly be one of the best at Lehigh in several years. The Brown and White are strong at every position with the exception of second and short where the loss of Bob Harrington and heavy-hitting Bob Naylor will be greatly felt. Leading a group of hopefuls for these two positions are Ed Butera of Morristown, N.J., and John Serfass of Bethlehem.

**The Infield**

At first, letterman Bob Christie appears to have nailed down a starting berth, while at third, either veteran Ron Dominach or sophomore Dick Herring will be at the hot corner. Behind the plate and rounding out the infield, letterman Dick Hoogstraten of Clifton, N.J., is the probable starter.

On the mound lettermen Doug Koch and George Rebhan are the most impressive hurlers to date, although sophomore Craig Anderson of Washington, D. C., may prove to be the top pitcher.

**Veteran Outfielders**

In the outfield coach Packer, now in his sixth year as coach, has lettermen Bob Hirsh, Fred Homsher, Walt Smith, and Ed Williams on hand for duty in addition to Steve Halperin, a promising sophomore.

In their opener, Lehigh exploded for five runs in the second and three in the third to take a lead which they never surrendered. Sophomore Halperin led the offense with three hits as veteran Koch picked up his first victory, giving up six hits, striking out 10, and yielding two runs in six innings. They were aided by the erratic offerings of Swarthmore pitchers who gave up 12 walks in the first three innings.

**Hofstra Game**

Against Hofstra, the Engineers, now in their 72nd consecutive season of intercollegiate baseball competition put their five hits to good use as they defeated the unbeaten Flying Dutchmen, 3-0. Rangy righthander Rekhan, a 6' 3" junior, held Hofstra to six hits, fanning eight, and walking four as the Brown and White registered its first shutout in several seasons.

In the first, second baseman Ed Butera singled home Bob Hirsh to break the deadlock. Four innings later two insurance runs were added as Dick Herring's forced in one and Dick Hoogstraten's bunt scored Halperin.

# Leopards Host Mule Netmen In First Match

The Muhlenberg Tennis team will travel to Easton, Pa. to encounter Lafayette college for its first match of the 1958 season on Friday, April 18.

The Leopards boast four returning lettermen from a squad that last year compiled an 8-4 record. Leading the returnees will be Captain Bob Schmitz who will be playing in the number one singles spot as he did last year. Other returning lettermen will be Bob Katona, and Jim Murphy and Skip Feller, who comprised a very good doubles combination last year. Feller is expected to take over one of the singles spots as he was a consistent winner in both singles and doubles last year.

**Returning Strength**

Three other men who are returning from last year's squad are expected to strengthen the team. They are Bob Dilworth, Tim O'Donnell, and Dave Williams. Despite this added strength, however a big loss has been felt by the graduation of Captain Harvey

# . . . Student Council Report . . .

March 27, 1958

The last regular meeting of the 1957-58 Muhlenberg college Student council was called to order at 7:05 p.m. by President Luis Torres. Mr. Leighton was absent.

There was no **TREASURER'S REPORT.**

**COMMITTEE REPORTS:**

**Elections:**—Mr. Shellenberger stated that he was preparing an explanatory form of the Australian ballot system which is used in class and Council elections. This is being done in answer to the many requests made by various members of the Student Body.

**Chapel:**—In giving the final report of the Chapel Committee, Mr. Ueberroth stated that a record number of eighty (80) Chapel slips had been revoked during his administration. He explained that the majority of the revocations resulted in action against a comparatively small number of students, since some students had as high as eight revoked.

The President announced the results of the election of officers of the Women's Dorm council to be:

President—Miss Sarah Jane Ruloff
Vice-President—Miss Margaret Sos
Secretary—Miss Jan Horvath
Treasurer—Miss Patricia Missimer.

**OLD BUSINESS:—**

On motion by Mr. Skweir and Mr. Spector, an additional $43.00 from the Assembly fund was given to the Jazz society for the Jazz concert on Saturday, April 12, 1958.

On motion by Mr. Shellenberger and Mr. Skweir, the proposed "Honor Society for Literature" was denied recognition by the Student council at this time. A recommendation will be made to the Society concerning its constitution.

On motion by Mr. Skweir and Mr. Gurski, the Student council recommended to the Women's Dorm council that it take immediate action upon the proposal to open fraternity houses, East hall, and Martin Luther hall to visitation by Muhlenberg coeds during specified hours.

**NEW BUSINESS:—**

Mr. Ueberroth moved and Mr. Carpenter seconded a motion to contribute $25.00 from the Student Body fund to the George A. Lawson Memorial fund. Motion carried.

The meeting was closed at 7:52 p.m. on motion by Mr. Shellenberger and Mr. Piston.

Respectfully submitted,
RAY UEBERROTH, Recording Secretary

## MCA Art Contest

**All entries for the MCA art contest must be handed in to John Dreisbach, chairman, or to Mr. Kinter, advisor, in the English office by April 20. No limit is placed on the number of entries that each artist may submit. Prizes of books will be awarded for 1st and 2nd place entries.**

## The Chowline

The latest member of the Snack bar is now Ethel Lentz who has affiliated with Bill Bloss in the culinary arts. The crew wishes to congratulate the newest couple in the Muhlenberg family.

Harry has announced that a representative will be on campus to interview applicants for summer help in the mountains and at camps for this coming season. The man is a member of the Slater system, now in thriving surroundings. In fact, they are offering as much as $400 for the summer. He will hold his interviews in the College commons on Friday, April 11 from 11 a.m. to 2 p.m.

Now that the Easter season is over, it has been rumored that the Snack bar will feature Easter eggs at cost value. (of course these eggs are from Easter three years ago, since we didn't have any this year.)

Seriously, however, the Snack bar is worth patronizing. Where else can you get a large coke, a coffee cake, and social life all for the price of two thin dimes?

**Adv.**

# Leopards Host Mule Netmen

(Continued from Page Five)

Milow, Bob Rios, and Walt Oeschel.

During the Easter Vacation the team made a self-financed trip through North Carolina and Virginia where they had five matches. With these five matches and the playing of three more with Franklin and Marshall, Bucknell, and St. Josephs, Lafayette will have a lot of experience and should prove to be a team to watch.

# Summer Jobs

(Continued from Page One)

as counselors. Previous camp experience is preferred although not required, and many openings have no requirements as to race or religion.

Interested applicants are urged to write the Federation at 251 Fourth Avenue, New York 10, N.Y., or telephone SPring 7-4800.

# I-M Track Meet

(Continued from Page Five)

The winning team shall receive a permanent trophy with the total points accumulated by each team counting toward the Intramural All Sports trophy. The first three finishers in each event shall receive awards except in the mile relay, where each member of the winning relay team will receive awards.

**Events**

The following ten events have been scheduled:

| | |
|---|---|
| 100 yard dash | Mile relay (four men run 440 yds.) |
| 220 yard dash | Broad jump |
| 440 yard dash | High jump |
| 880 yard run | Discus |
| Mile run | Shotput |

**CIARLA ELECTIONS**

**On Thursday, April 17, at 11 o'clock the CIARLA staff will hold its election of officers for the 1959 staff, in the CIARLA office in the Student center. All staff members are asked to attend.**

**FINAL MUHLENBERG VARSITY BASKETBALL STATISTICS**

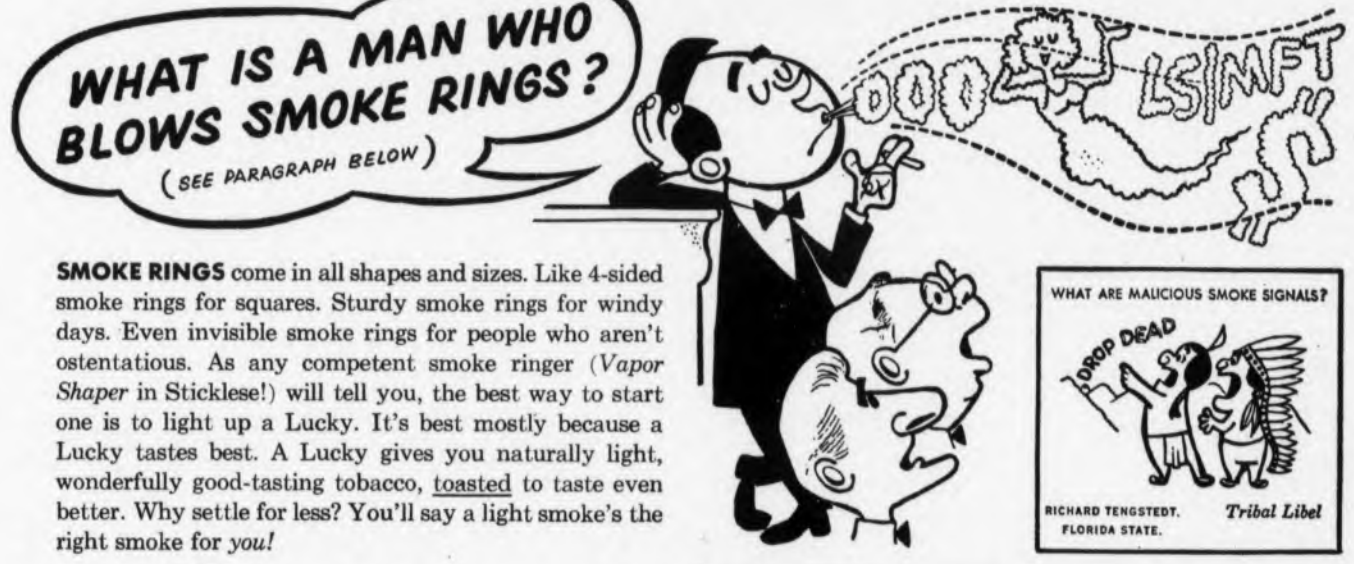
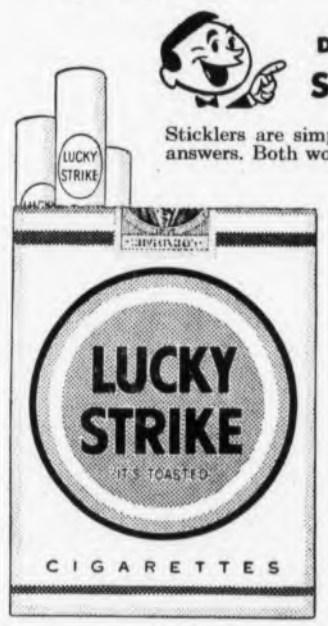
Sticklers!

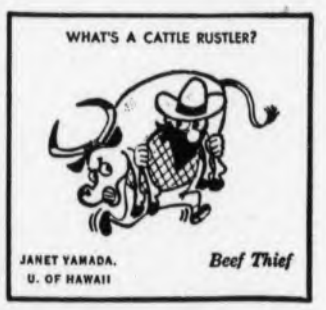


**SMOKE RINGS** come in all shapes and sizes. Like 4-sided smoke rings for squares. Sturdy smoke rings for windy days. Even invisible smoke rings for people who aren't ostentatious. As any competent smoke ringer (*Vapor Shaper* in Sticklese!) will tell you, the best way to start one is to light up a Lucky. It's best mostly because a Lucky tastes best. A Lucky gives you naturally light, wonderfully good-tasting tobacco, toasted to taste even better. Why settle for less? You'll say a light smoke's the right smoke for *you!*



DON'T JUST STAND THERE . . .
**STICKLE! MAKE $25**

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out $25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.



**LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!**

## National Leadership Fraternity Holds Tapping For Five Men

**Karl Becker, president of Omicron Delta Kappa, congratulates Jim Piston on his initiation into the honorary leadership fraternity while Dr. William Wilbur (left), faculty adviser to the group, looks on. To the right of Dr. Wilbur are two of the other recently initiated men, Paul Horger and Dick Kennedy.**

Five men were tapped into Omicron Delta Kappa, national honorary leadership fraternity, in a regular chapel ceremony, Tuesday, April 15. Those men who were recognized were Donald Herman, Paul Horger, Richard Kennedy, Roy Madsen, and James Piston.

Don Herman, a resident of Allentown, is a senior, and is majoring in Economics and Business administration. Herman has been a class officer, participated in varsity football for the last three years, and is a member of the M club. He is presently the treasurer of the class of 1958.

Taylor, Pa., also has a representative resident as a new member of ODK. Paul Horger, a history major, is a member of the class of 1959. He is also active in Phi Alpha Theta, Alpha Tau Omega, **M** Book staff, Dormitory council, and the Commons committee.

**WEEKLY Editor**

The editor-in-chief of the **WEEKLY**, Dick Kennedy, was also tapped on Tuesday morning. Kennedy is the recently elected president of Pi Delta Epsilon, is a brother in Phi Kappa Tau, a member of the Mermaid Tavern society, and is a participant of the Mask and Dagger club. He is a member of the class of 1959.

Roy Madsen, a veteran, is a resident of Allentown, and is a senior in the Economics and Business administration curriculum. He is the president of the Business and Economics club, and also a member of the M club. Madsen plans to graduate with the class of 1958.

**James Piston**

James Piston, a senior of Lansdale, was the fifth member of the group to be recognized. Piston is a major in the Economics and Business administration department. He has actively contributed to the Student council this year and is vice-president of his class. Piston is the past business manager of the **WEEKLY**, president pro-tem of the Freshman class, secretary of Lambda Chi Alpha, a member of Pi Delta Epsilon, and a member of the Jazz society.

The fraternity plans, as its project for this year, to run an evaluating poll in various areas of the college. Seniors will participate in the formulating of the necessary statistics. Examples of the different areas to be questioned are: religious, social and athletic.

## Heyl To Be Speaker At Historians' Dinner

Phi Alpha Theta, national history fraternity, will hold its annual banquet at Shankweiler's on Saturday, April 18. The event, open to all Muhlenberg members of the organization, will begin at 6:30 p.m., and will be highlighted by a speech from Mr. John Heyl. A prominent Allentown architect, Mr. Heyl, will make the history of the Lehigh valley his topic, and he will outline the development of various sections of the area.

Moderator of the Muhlenberg chapter of Phi Alpha Theta is Dr. John Reed of the History department. The fraternity requires that its potential members amass at least twelve credit hours in history, and that they complete these courses with an average of 85. In conjunction with this, an overall average of 80 is necessary.

Students majoring in fields other than history are also welcomed into the fraternity. They must have shown an interest in advanced history and must have the necessary marks along with the required history credits.

## Nu Epsilon Lambda Holds First Meeting

Nu Epsilon Lambda, the newly formed honor society in literature, will hold its first meeting on Wednesday, April 23, at 3:30 p.m. in the offices of the English department. Dr. Stevens will speak and lead discussion on "Second Guessing in Poetic Criticism."

The society will not function with teacher to student lectures, as is common with such groups. It proposes to serve as a forum for the exchange of ideas among students and faculty interested in literature; to promote greater interest in research and advanced study in this field; and to direct and stimulate those of superior ability.

**All Welcome**

Realizing that the guiding principle before any attempt at teaching or learning should be direct, personal involvement in intellectual atmosphere, the society was founded in an attempt to help overcome this lack at Muhlenberg.

All who are interested are invited, as membership is open to any individual who clearly demonstrates an active interest in the works and purposes of the society.

Those who desire added information should contact Phil Feigenbaum.

## Pi Delt Elects New Officers For Next Year

At a meeting of the Muhlenberg chapter of Pi Delta Epsilon, the national honorary journalism fraternity, on Wednesday afternoon, April 9, the officers for the 1958-59 term were elected. The new officers are as follows: Dick Kennedy, president; Larry Woodward, vice-president; Ben Livingood, secretary: and Jim Sorger, treasurer.

Dick Kennedy, an English major from Pottsville, is a junior at Muhlenberg. In addition to Pi Delta Epsilon, he also maintains membership in Phi Kappa Tau social fraternity and has recently been elected to the office of editor-in-chief of the Muhlenberg **WEEKLY**. Larry Woodward is also an English major and makes his home in Broomall. Larry was recently elected to the office of managing editor of the **WEEKLY** along with Kennedy.

Another English major, Ben Livingood, makes his home in Reading. Ben holds the position of sports editor of the **WEEKLY** and also maintains membership in Lambda Chi Alpha social fraternity. Jim Sorger is a pre-medical student and hails from Newark. At Muhlenberg he is section editor of the **Clarla** and has served as a member of the **WEEKLY** staff. Jim is also a brother at Phi Epsilon Pi social fraternity.

## Dr. Harry M. Orlinsky To Speak In Chapel

Dr. Harry M. Orlinsky, Professor of Bible at Hebrew Union college, New York city, will address students and faculty at an extended chapel period on Tuesday, April 22, in the Science auditorium. Dr. Orlinski was the sole Jewish member of the committee of twenty-two scholars which produced the Revised Standard Version of the Old Testament. He will speak on the subject "The Revised Standard Version." Student attending his lecture will receive two chapel credits.

**Dr. Harry M. Orlinsky**

This is the annual lecture sponsored by B'nai B'rith lodge of Allentown. This Judaica Lecture series was started last year for the purpose of bringing an outstanding Jewish scholar to give a lecture at Muhlenberg each year. The lecturer last year was Dr. Immanuel Ben-Dor, visiting professor of Biblical Achaeology at Harvard.

**Editor-in-Chief**

Dr. Orlinsky is one of the world's outstanding Bible scholars. He is Editor-in-Chief of the New Translation of the Hebrew Bible, for the Jewish Publication Society of America. He is the first Jewish scholar ever invited to take part in an authorized Christian translation of the Bible into English.

## Twelfth Annual Exhibition Held By Lehigh Valley Science Fair

by Rick Stephan

Twelve years ago the Lehigh Valley Science fair struggled into existence with a total of twelve entries. Under the sponsorship of the Science teachers of the Lehigh valley, the Engineers Club of the Lehigh valley, and the **Call-Chronicle**, it has experienced a growth that is unmatched by any other fair of its type in the world. Eight hundred entries have been selected out of a total of 8,087, from junior and senior high schools in the area for this year's fair.

**Three contestants in the annual Lehigh Valley Science fair complete the final preparations on their display depicting transistor radio principals. They are (from left to right) Norann Bishwaty, Samuel Gerhart and Charlotte Wakefield, all students at Lehighton high school.**

Participating students began bringing their projects into Memorial hall on Sunday, April 13, and spent the following two days in preparing them for exhibition. On Tuesday, April 15, judging of the projects was conducted by the Engineers Club of the Lehigh valley. Fifty-one scientists in the area contributed their time in the judging of these projects. Among this group was Dr. Harry L. Raub, Muhlenberg college physics professor.

**Gordon Fister**

Fair director for this year is Gordon Fister of the **Call-Chronicle**. He has held this position for many preceding years. Months of preparation are spent on his part in making the fair a success. Fister is a resident of Allentown, and was past Alumni secretary of Muhlenberg. The fair finds its origin in the desire of the science teachers of the Lehigh valley to have an appropriate display of the scientific skills of their students.

Advantages of entering the science fair are unusually high. Seven college scholarships are being offered to the winning participants at Cedar Crest college, Lafayette college, Lehigh university, and Muhlenberg college. Other organizations who are awarding scholarships and gifts include: the Blue Cross Hospital Service plan, the Lehigh County Medical society, the Sertoma club of Allentown, the **Call-Chronicle** newspapers, the Engineers Club of the Lehigh valley, the United States Navy, the Grollier society, and the General Electric company.

**Available Scholarships**

Scholarships are available to seniors who are exhibitors in the 1958 fair, and who, in one or more years of competition in the Lehigh Valley Science fair have earned eight or more points. Those people who have qualified in this manner may apply for scholarships. The value of the awards exceeds a total of $16,000. Taimi Toffer and Kristina Toffer are national champions who are now attending Muhlenberg college.

The opening date of the fair has been scheduled for Wednesday, April 16, and will continue until Friday, April 18. An awards pro-

(Continued on Page Six)

## *Kiwanis Club To Support Mask & Dagger Comedy*

Kiwanis club service funds in the Allentown area will be supplemented by ticket sales as the local Kiwanians serve as sponsors for the Mask and Dagger's coming production of **My Three Angels**. Casting is completed and regular rehearsals are in progress for the play which will be presented on May 7 to 10.

According to Dr. Andrew Erskine, Mask and Dagger adviser, lines for the various parts are evenly divided and no roles have been designated as leads, with the possible exception of the romantic lead, Marie Louise, played by Janis Horvath. Other parts have been cast as follows, in order of their appearance; Father, Bob Kehrli; Mother, Karen Kamena; Madame Parole, Nedia Dunlap; three convicts, Bob Sabol, Simon Gribben, and Spencer Tuchinsky; Uncle Henry, Jim McConnell; and Paul, Penn Chabrow.

**Broadway Success**

The play, a comedy by Sam Bella Spewack, concerns three convicts, two murderers, and an embezzler, who save from financial ruin the family they have befriended. It was produced originally by Jose Ferre. The Philadelphia **Inquirer** called it "A completely captivating comedy." The movie version was one of Humphrey Bogart's last performances.

The play will have one more performance than the usual Mask and Dagger production, because the Kiwanis club of Allentown will sell tickets to benefit its service foundation. Under direction of Don Walter, fund raising chairman, Kiwanians will earn money to be used in development of local youth activities. The extra performance will be held in order that there be enough room for the Muhlenberg student body and the large crowd which is expected.

**Experienced Cast**

Kehrli and Miss Horvath both had supporting roles in the last M and D production, Shakespeare's **Othello.** Kehrli, a junior, played Brabantio, and Miss Horvath portrayed Bianca, her first Mask and Dagger role. Nadia Dunlap took part in the recent MCA production of **Murder in the Cathedral.** Sabol, a junior, and Gribben, a freshman, appeared in **Othello,** Sabol as Cassio, and Gribben as Roderigo. McConnell, president of M and D, will play his last role after four years of acting and directing for the Muhlenberg stage.

## 'Berg Coeds Initiate Candlelight Service For Women's Council

A candlelight ceremony was the scene of the first installation of the Women's council officers. The ceremony took place in the West hall chapel, on Wednesday evening, April 9.

The first officer to relinquish her position was Joelyn Borelli, treasurer of the out-going Council. Miss Borelli lit a white candle signifying honesty for the new treasurer, Patricia Missimer. Also, the treasurer's records were handed to Miss Missimer, as Miss Dietrich proceeded to read to her the duties she would perform for the time she would be in office. Meredith Bottum, last year's secretary, then lit the blue candle of faithfulness for the new secretary, Jan Horvath.

**Vice-Presidency**

Marge Sos was then designated as the new vice-president and social chairman, while the out-going officer, Betty Ann Lebo, lit a yellow candle signifying happiness. The last position to be filled, was that of president. Jane Kuntzleman, retiring president, indoctrinated the new president Sara Jane Ruloff, with a few words of praise and gratiude.

"It has been a great honor and privilege for me to have been the first president of the Muhlenberg college Women's council. I have appreciated the cooperation, the help, the willingness and the fine spirit of all who have helped me. Especially would I like to thank my fellow officers and council members for their support and Miss Dietrich for her guidance.

## Freshmen Baseball Team

**All Freshmen interested in joining the Freshman Baseball team should report to the varsity locker room at 4 p.m. on Monday.**

## Opera Group To Entertain

An assembly program, featuring the Lancaster Opera workshop, under the direction of Frederick Robinson, will take place on Wednesday, afternoon at 3:15 in the Science auditorium.

Organized in 1952, the opera workshop is adapting English dialogue to the famous operas in other languages. They have experienced success throughout Pennsylvania. Among the triumphs of this amateur group, are such classics as LaBoheme, Madame Butterfly, The Marriage of Figaro, and Carmen. The Lancaster group has appeared at the famous Academy of Music Foyer in Philadelphia, as well as in Reading, York, Harrisburg, and Scranton.

Frederick Robinson, familiar to Muhlenberg students for his occasional teaching of voice on the campus, was responsible for the founding of this English singing opera workshop. He is well known for his lectures and recitals on the subject "Opera for Main Street".

## Campus Eyesore . . .

When students returned from the summer recess last semester, they were greeted by a newly renovated Student center Snack bar. This improvement hardly met with any disapproval. Last year's conditions in the Snack bar were poor enough to almost repel both students and faculty. Now, however, a great deal of time is spent there by all collegians.

Other projects which reached completion last year were tennis courts, a new medical center, a dormitory, and several other developmental advancements. The College has, no doubt, spent a sizable amount of money in achieving these ends.

Our contention is that in this vast improvement campaign, one area in dire need of renovation has felt the pangs of negligence. One floor above the beautifully decorated Snack bar lies the most abominable eyesore on campus. The halls on the second floor of the Student center are tattered with rips and holes at every turn. The offices and meeting rooms need refinishing in almost every respect—walls need plastering, floors need painting.

Aside from the hallway, the rooms which suffer are the **Ciarla** office, the M & D room, the **WEEKLY** office, and both Commuters' rooms. The oratory, the MCA room, and the Student council room are in fairly decent shape.

If the College feels that it can finance the renovation of the Snack bar, (which is an area mainly divorced from any specific college activity), by the same token it would take relatively few funds to improve the second floor of the Student center, where several organizations contribute their services for the good of the College.

It would be unreasonable to ask for improvements which would approach a work of interior decorating excellence, but new paint and flooring could suffice. Perhaps we will be greeted by another surprise at the end of this coming summer! When prospective students are shown about the campus, it wont be nearly as distasteful to say "And here is where we have our extra-curricular activities . . ."

## Do Your Part . . .

During the past few years college tuition and room and board costs have been steadily increasing, until now they are at an all time peak. This rise in college expenses has affected Muhlenberg as well as other colleges and universities throughout the country, the most recent being a $100 increase in tuition beginning next fall. This added expense has been looked upon with grumbling and discontent by a great majority of the Muhlenberg student body. What most students do not realize or fail to consider, is that Muhlenberg college invests $450 per year on each student; a total of $1800 for four years of study. In other words, if we, the student body, were to pay the entire cost of our college education, it would cost us $1800 more than we are presently paying.

The money that is used for this purpose is obtained from private grants, the Lutheran Ministerium of Pennsylvania, and a few other isolated sources. The larger percentage of the funds, however, is received from the college alumni.

In order for Muhlenberg and other privately owned colleges and universities to keep pace with the increased facilities and faculty salaries of the larger state institutions, a tutition increase must be burdened upon the students themselves, since the source of additional revenue is restricted to sources outside of the state.

This situation also places a responsibility on Muhlenberg students after graduation. The college alumni are one of the largest sources of additional revenue and their private grants enable Muhlenberg to keep college costs at a minimum. It is our duty to aid the college in its educational program when we become alumni ourselves. In this way, Muhlenberg will be able to continue to educate young men and women, as we ourselves were educated, at a nominal cost.

# Development Office Is Vital To Berg's Future

**Admiral Charles Moses is in charge of the development program of Muhlenberg college. The support of alumni in attaining financial contributions is essential to the survival of the small liberal arts institution.**

**by Barbara Fretz**

At the recent banquet held by the **WEEKLY** staff, Admiral Charles Moses, Muhlenberg's assistant to the president in charge of development, spoke on Berg's development plan and what it means to students and alumni of the college.

In beginning, Admiral Moses pointed out the newness of the word development in the program of an institution. This is evident when one stops to realize that the development section of the American College Public Relations association is only six years old.

Funds are needed in a college for the cost of annual operations and for the recruitment of more of the kind of students that the college wants. Muhlenberg's development plan, organized last fall, is divided into several committees —Parents committee, Committee on Wills and Insurance, Committee on Foundations and Gifts, and a Church Relations committee.

Another important part of the development plan makes provisions for Muhlenberg counselors and Muhlenberg associates. The counselors are alumni lawyers and lawyers from the community, who, when they have the opportunity, will suggest to clients that Muhlenberg be remembered in wills.

Muhlenberg associates will make up an important public relations team for Berg. Their job will be to bring about harmony between the school and its community and to promote the program of the college.

Admiral Moses emphasized the importance of development plans to a college because the small institution of today is in danger of "becoming extinct." ' This is true for two major reasons—first, the competition from tax-supported, state institutions is becoming alarming, and second, the support of alumni is dwindling. It is the duty of the development officer to see that adequate funds are secured so that the school is able to continue operations.

Funds are obtained in several important ways. There is the direct gift of money, the method used by most alumni. An insurance policy can be taken out in which the college is named as beneficiary. Still other methods are the charitable trust and the annuity.

But, as Admiral Moses made clear, with all of these methods in operation, the average person still does not realize the acute need for support. An active alumni is necessary if the College is to be active and thriving. It costs the school $1800 for the education of each student—$1800 more than the student pays for his education. The endowment income is $80,000 while the budget for the coming year is $1,200,000. The difference is great, and this difference is the problem of the development department.

Admiral Moses concluded his talk by urging students to remember that it will be their task after graduaton to contribute to the support of Muhlenberg and to influence others to do the same. In this way, the small college will be able to survive.

# A Coté des Femmes

**by Jan Horvath**

Spring is certainly livening up the campus with budding trees and pure white tennis outfits splattered all around the grounds. With the advent of Spring many begin to think of and make plans for the next fall semester. The girls will choose their next year's roommates and rooms by a drawing to be held on Friday. In the choice of rooms will be included the second and third floors of the northern end of the dorm which were open for inspection this afternoon.

In trend with the renovations taking place on campus was the investing of the newly elected officers of the Women's council. The outgoing officers bowed from their places of honor last week in a service held in the West hall chapel. The service was presided over by Miss Dietrich in hopes that it will become a tradition at the College. As the outgoing officers congratulated their successors, they lit a candle which symbolized the office. The treasurer received the ledger from her predecessor and the secretary became guardian of the minutes.

Much has yet to be done in the way of thanking the first Womens' council of Muhlenberg college. They have led the coeds through a difficult first year with much success. Due to their hard work, many important laws have already been codified and put into action. In keeping with the stand taken by the Student council to prevent the school from becoming a "suitcase college", they have sponsored dances and other weekend activities. But their accomplishments did not stop here, for they have set up traditions that will be enjoyed by future coeds of Muhlenberg. **Thanks** from all the coeds to the first Women's council under the advice of Dean Dietrich for guiding us so carefully over the rough road during the establishment of coeducation on the campus.

# SEGREGATION ISSUE AFFECTS FRATERNITIES

**by Chuck Trexler**

The ruling of the Supreme court, which in 1953 forbade racial segregation in the public schools, had much the effect of a bombshell throughout the nation. In many sections of the country we witnessed a reawakening of social unrest that had lain dormant for many years. In other regions we saw agitators tilting at windmills and managing to stir up unnecessary strife. In the course of five years the issue has broadened considerably so as to include the entire gamut of racial, religious, and ethnic relations along with that historically American problem of conflicting governmental authority.

The American people have been forced to align themselves into the opposing campus of controversy. On one side there is the extreme left which demands complete and compulsory integration. On the other side we find the extreme right which desires complete and compulsory segregation. But, as in all problems, the issue with most people is not so clearly defined and we observe more moderate shades of opinion in the varying degrees of conservatives and liberals. Of course we always have a considerable number of non-committals and know-nothings who maintain the ill-defined "middle - of - the - road" attitude which is behavior reminiscent of the proverbial ostrich.

**Students Affected**

To many of us, a race riot in Detroit, a lynching in Mississippi, a knifing in Chicago, or the tragedy of Little Rock are remote situations. But there are many aspects of this social upheaval which directly concern the college student. One of the most pressing of these involves the restrictions imposed by the social clubs on college campuses. Many persons are now questioning the right of fraternities and sororities to bar aspirants on grounds of religion

According to the **U.S. News and World Report** action has been taken by several schools to compel the conformity of campus societies, Amherst, Wayne, Chicago, Wisconsin, Vermont, and Connecticut have set deadlines for the removal of restrictive clauses from the constitutions of these organizations. Dartmouth, Columbia and Colorado require fraternities and sororities to end discriminatory practices of all kinds. The University of New York has even gone so far as to prohibit all fraternities and sororities with national affiliations and to exercise strict supervision over the local groups that still exist.

The position of the administration of these colleges is essentially that since fraternities and sororities are valuable additions to a student's education these groups should be required to meet certain "moral and living" standards laid down by the college. Charges are being made that these social groups are undemocratic in nature and cause students "psychological hardship" when they are rejected for membership. To many people, especially the more liberal advocates of integration, this slap at the "citadels of social snobbery" seems well and good. Why should we break down the barriers of prejudice in our public schools and permit discrimination to reign in the higher institutions? To answer this question we must consider the meaning of the word **prejudice** and its alleged "partner in crime" **discrimination.** We must also survey the other issues which are naturally involved in this problem.

**Meaning of Discrimination**

Discrimination refers to the "detection of a difference." It first appears in man when as an infant he realizes his identity as separate from his environment. To the individual, "self" is the most important part of the universe; it is man's point of reference to the world about him. It is through the "natural tendency" of discrimination that man arrives at his likes and dislikes. Man naturally considers himself a member of the group which is composed of individuals similar to himself. Sometimes natural discrimination becomes distorted when a group exalts itself by degrading others. This involves prejudice or "predetermined opinion."

Discrimination, then, is the determining factor of friendship and, as such, is the essence of fraternities. The student must employ discrimination in order to select the fraternity compatible with his interests, to select those with whom he will be in close association for several years. The fraternity men themselves are obligated to discriminate in extending the **privilege** of brotherhood. We must admit that prejudice, at times, brings about unjust decisions, but can we seriously contend that social harmony can be achieved by external imposition? Must friendships be dictated by policies of coercion?

**Personal Liberty**

The "right of association" is sacred to mankind. We, as citizens of a democracy, are obliged to support this principle by which men are free to choose their friends, associates, and social affiliations. This right is the foundation of fraternities and its disruption could only mean the collapse of the highest ideals of these organizations. Unfortunately, freedom of association has not been granted legitimacy by either the forces of integration or of segregation. Certainly the members of a fraternity house should have the sole voice as to who shall or shall not unite with them in the bonds of brotherhood. If the sincere beliefs and wishes of a chapter do not coincide with the stipulations of the national constitution, that chapter has a right to request a repeal of the restrictions at the fraternity's national convention. If this cannot be done, the chapter can always withdraw from the national organization. It is no more right for the national fraternity to dictate membership qualifications to a particular house than it is for a college to do so.

**Protection From Inferiority?**

We observe that psychology and sociology have made enormous strides in the twentieth century. Concern has been aroused over the effects of neurosis and frustration on society. Some persons are advocating that there should exist a "natural right not to feel inferior." Whatever basis there may be for this somewhat ill-defined ideal, there still exist the fundamental rights of individual liberty which often suffer when society makes a mad dash toward progress and reform. To deny these liberties, even if they permit the exercise of prejudice, would be to repudiate the basic tenets of democracy and uphold their totalitarian antitheses.

# Seminar Held For Lutheran Students

On March 30 through April 2, Lutheran students from twenty-five states and five foreign countries convened at Washington, D.C. for the ninth annual Washington Seminar for Lutheran students. Muhlenberg college was represented by Ray Ueberroth and Henry Williams.

There were 154 students in attendance representing theological seminaries, colleges, deaconess training schools, and non-Lutheran institutions. Seven Lutheran church bodies were represented. Foreign guests were from Ethiopia, Germany, China, India, and Sweden.

**Seminar Program**

While in Washington, the students had an opportunity to observe the federal government operations, to discuss current issues, to clarify the responsibilities of Christian citizenship in a democracy and to appreciate the role of Christians in public life.

Sessions were held at the Pentagon, where addresses were given on the United States Armed forces.

(Continued on Page Six)

# *Historical Drama Filmed By Shakespearean Actor*

Sir Laurence Olivier again stages a crucial battle in the history of England in his screen treatment of William Shakespeare's "Richard III," the Vistavision dramatic spectacle in color by Technicolor which is now showing at the 19th Street theatre.

His first was the mighty Battle of Agincourt in his "Henry V," and its brilliance had much to do with that picture's winning of several "Oscar" awards. Now it's the Battle of Bosworth Field, which is the climax of "Richard III." It took place near Leicester in England in 1485 and is important in history because it marked the end of the House of York as the rulers of England and the opening of the long and brilliant reign of the Tudor kings.

**Character Study**

The hunchback King Richard III, offers a penetrating study of an over-ambitious and twisted mind. And it was Shakespeare's portrayal of this character which inspired Sir Laurence to do it in spectacular scale for his first venture with Vistavision. In it he plays the role of Richard.

To put this story on film as he thought it should be, Sir Laurence assembled one of the greatest name casts in pictures. Besides himself, the cast boasts the two great Shakespearean players Sir John Gielgud and Sir Ralph Richardson, with Sir Cedric Hardwicke, Alec Clunes, Stanley Baker, Claire Bloom, and many others of equal stature supporting them. The entire cast, including the knights, archers, and foot soldiers who enact the Battle of Bosworth, runs into the hundreds.

**Battle Scene Authentic**

The battle scene itself was shot in Spain for two very important reasons. The first had to do with sunlight, for which Spain is notably famous, and the second with horses. It was discovered that securing enough horses for this battle in highly-motorized England would be a problem, but not so in Spain where the descendants of the European "great horse," developed to carry a knight in full panoply into battle, are still widely used commercially and are in ample supply.

The order for battle for the motion picture scene was taken directly from old records of this historic encounter which are still extant. It was primarily a battle of motion with several great surges and withdrawals before the army raised by the outraged nobles of England was able to pin Richard, a redoubtable fighter himself, into a corner. In that corner he was slain and with his removal from the scene, one of the darkest clouds in English history passed.

**Richard of Gloucester, England's infamous hunchback king, is the protagonist of Shakespeare's dramatic history.**

**Famous Role**

In essaying the role of Richard, Sir Laurence follows three other great portrayals of the king which lifted their delineators to the top rank of Shakespearean players. These were David Garrick, Edwin Booth, and John Barrymore, all of whom considered this characterization the prize in the Shakespearean packet, even outrunning the great "Hamlet."

Besides carrying the title role, Sir Laurence is listed as the producer and director of the spectacle and it is presented by him in assocation with the late Alexander Korda. Its present showing in the motion pictures of America is being sponsored by Lopert Films.

## Business And Economics Club

**There will be a meeting of the Business and Economics club on Thursday evening, at 7:30 p.m. in room 105 of the Science building. Mr. Ladd of the DuPont company will speak on market research.**

## Freshman Class Meeting

**On Monday, April 21, the Freshman class will hold a meeting to accept nominations for sophomore class officers. The meeting place will be the Science auditorium, at 3:15 p.m.**

# "Birdland" Musicians Sweep IFC Audience

**by Warren Jones**

In Hoc Signo Vinces, Maynard!

And conquer he did—Maynard Ferguson and orchestra, that is—during a three-hour jazz interlude in the Science hall (which may never be the same) last Saturday afternoon.

A rapt, enthusiastic student audience heard the versatile MF and his 12-man progressive aggregation run through three sets of arrangements, each of which presented several outstanding studies in jazz imagery, many of them blithely original. From beginning to end, the concert was a fascinating adventure. Mr. Ferguson and group literally constructed a musical Arc de Triomphe and left it standing long after the last silver note had ended.

A trifle late, but nonetheless welcome, the Ferguson crew arrived fresh from a current engagement at Birdland, noted New York City jazz haven and often referred to as Mosque of the Most Celebrated. The soul-satisfying rendition of "Bernie's Tune"—the afternoon's' initial broadside—was immediately captivating. From that point on, students and intruders alike were accorded an unforgettable musical momento.

It was hard to decide which piece was more enjoyable. It can be said, however, that Maynard's prolific trumpet-playing was endlessly great. And his other soloists—each musician was a virtuoso in his own right—were nothing short of tremendous, too. Let it also be said—lest character students be offended — that Maynard's magnetic, boyish personality and his obvious, smiling approbation of his work, was especially easy to take.

The first hour-long segment, after which the band took a breather in the Student center while Maynard did some WMUH station breaks, was perhaps the best. The novel and breathtaking "Gruer Whelan" with Carmen Leggio on tenor sax was like a trip around Gotham in an E-sharp rocket.

And when Jimmy Ford's alto sax slid effortlessly into "And We Listened," well, we just listened.

## *'Round Campus*

**Thursday, April 17th**

**There will be a meeting of the DeMolay club in Mr. Benfer's office in Martin Luther hall at 8 p.m.**

**Friday, April 18**

Muhlenberg-Lafayette Tennis match will be held at Lafayette.

**The Muhlenberg Christian association will sponsor a dance in the West hall gym at 8 p.m.**

Phi Alpha Theta will hold a banquet at 8 p.m. at Shankweiler's restaurant.

**Saturday, April 19**

**Muhlenberg-Delaware baseball game will be played away at 2 p.m.**

Berg-Lafayette track meet will be held at Lafayette.

**Monday, April 21**

**There will be a meeting of the Freshman class in the Science auditorium at 3:30 p.m.**

Muhlenberg-Gettysburg baseball game will be played at Gettysburg.

**Der Deutsch Verein will meet in the Student center at 7 p.m.**

**Wednesday, April 23**

The Lancaster Opera workshop will present a musical program in the Science auditorium at 3:15 p.m.

**Thursday, April 24**

**Berg-Lehigh tennis meet will be held at home at 3:30.**

Muhlenberg-Lehigh golf match will be played at the Lehigh Country club.

# A Letter To The Editor

To the Editor:

During my four years at Muhlenberg I have made extensive use of the fine library facilities which it has to offer. However, I feel that several points of suggestion or criticism **have** to be made in order that the library can continue to serve its real function to the student body during the period of transition which Muhlenberg is undergoing. I have several suggestions which I hope will be considered by the entire college body—both faculty and students.

1. The library is excessively noisy especially during the hours between 10-1:30. In my opinion this is a very serious hindrance to any concentrated study or reading. Furthermore, there is much congestion during these hours and the library becomes so overcrowded during these hours that the noise can not really be helped.

What would be a remedy for problem No. 1? Well, there are excellent facilities for quiet studying or reading in the stacks at the desks provided for on each floor. There must be at least 15-20 of these desks. In addition there is an art lounge which could accommodate several students. Therefore, some means should be used to make available these desks especially during the rush hours of the day. This would also alleviate some of the problems of the excess noise and the crowded conditions.

Also some enforcement should be used. Unfortunately policing of the library should not be necessary in a college. But when the library becomes a social place for bull-sessions, library dates, and general turmoil, then there is occurring a very sad situation. So to repeat. If the library would take a definite stand to eliminate the troublemakers or the socializers, then these students will have to go elsewhere. THE LIBRARY SHOULD BE KEPT QUIET. IT IS A PLACE FOR GENERAL STUDYING AND READING; IT SHOULD NOT BE TRANSFORMED INTO A SUB-STUDENT CENTER!

2. The second problem is that which concerns the methods of taking out books. Many students have term papers—research papers which require much reference material. Often they need more time than the two days alloted for open stacks. So I suggest that those students who have such papers should be granted permission from their respestive professors to be able to enter the stacks at any time. Also many an evening the librarian on duty is worn out from the many requests by term-paper writers. This should be remedied.

To conclude I will sum up the major points.

A. The extreme noise and congestion of the library **must be eliminated at once.**

B. The stacks should be opened more for the following reasons:
   1. for use of desks for quiet studying and reading.
   2. for more browsing and as an aid for research-papermen.
   3. as an aid to the library staff.

C. Students having a certain average should be granted the privilege of the open stacks.

D. Students should be granted permission for the use of open stacks for specific assignments or papers.

I realize that the serious library problem can not be solved in as simple a fashion as I or anyone else would propose. But a general revision of the library rules are in order; I hope that some of these suggestions will be considered by the entire Muhlenberg college family of students and faculty.

For a better Muhlenberg!

# Sports in Short

by Ben Livingood

Wondering about the trench across the football field at the 50-yard line? Well it seems someone decided the gridiron looked a little dry at different times during the year, particularly in the late summer and early fall months. A pipe line is being laid underground which will connect two water outlets—one on either side of the playing field. During the dry season, the field will be wet down by a moving sprinkling apparatus similar to the one used on the new girls' athletic field on Chew street.

After the trench has been filled in, the entire field will undergo a complete overhaul. The field will be aerated, which is done by a machine that punches small holes in the turf. The field will then be covered by layers of sand, peat moss and top soil, leveled off, and completely reseeded. The object of the whole operation is to restore the playing field to the condition it was in years ago when it was considered one of the best in this part of the country.

The football field is not the only thing to be revamped. During the summer, work will be done on the track. The possibility of putting a clay binder on the cinders is being considered. The backstop on the varsity baseball diamond has been given badly needed repairs, and additional work will be done on the fence behind home plate. Two backstops will soon be erected on the girl's athletic field for use for both boys' and girls' intra-mural baseball.

* * *

Ray Whispell, Muhlenberg's newly appointed Athletic Director, was the subject of a sizeable feature article which appeared in the Philadelphia Evening Bulletin on Thursday, April 10. The story was written by Frank Yeutter of the Bulletin sports staff. He was on campus with Mr. Whispell for a day previous to the appearance of the story. Whispell expressed his gratitude to both Yeutter and Herb Good, Bulletin sports editor, not only for that particular story, but for all the many things they have done for him during his career in sports.

This was not the first time that Muhlenberg has been spotlighted on the Bulletin sports page. In past years Yeutter has done feature stories on the Mule football team, all of which were of considerable length.

* * *

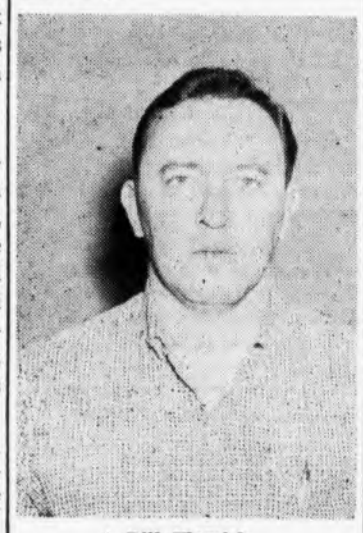
Now that football coach Whispell has assumed additional duties in the position of Director of Athletics, there is probably some question as to whether there will be any change in the school's athletic policy. When asked about this, Whispell stated "the athletic committee under Dr. Shankweiler, and Dr. Seegers sets the athletic policy, I try to administer it." The athletic committee is composed of three members of the board of trustees of the college, three alumni, three faculty members and three administrators. Whispell said he can try to help set the policy, but he cannot do it without the board's approval.

# Flamish Serves To Boost Berg Athletic Staff

by Don Novek

When Bill Flamish came to Muhlenberg two years ago he brought a wealth of athletic background with him. It is apparent that this background has made him an asset to the Muhlenberg coaching corps.

After establishing himself as a good footballer and trackman at Allentown High school, Bill went on to attend North Carolina university. While at North Carolina he played alongside Charlie "Choo-Choo" Justice, and together they went on to play in two Sugar Bowl games. He also used his speed to good advantage by participating in track at the southern university.



Bill Flamish

**From Coaching to Business**

Upon graduation in 1949 with a B.S. degree, Bill remained at his Alma Mater for one year as freshman football coach. He came north the following year to take over the reigns as head freshman coach at Colby college in Maine. After a successful tenure at Colby Bill chose to enter the business world, and took a position at Bethlehem Steel.

Fortunately for Muhlenberg the likeable track mentor chose to re-

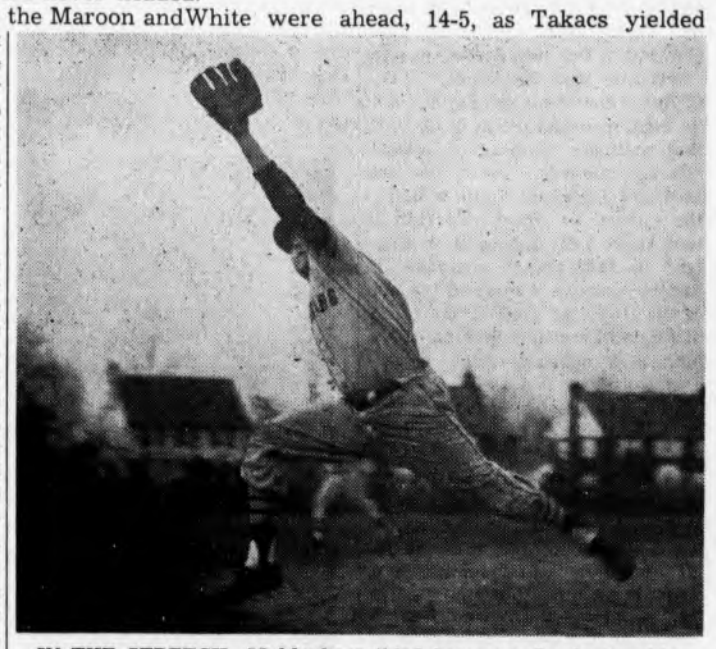
(Continued on Page Six)

# Mule Nine Bows To Leopards; Battles Engineers To 7-7 Tie

by Don Poppe

Muhlenberg opened its 1958 baseball season last Thursday by losing to Lafayette college, 17-7. In the very first inning the Leopards of coach Charles Gelbert scored four runs off of starter Charlie Takacs and were never headed.

After three innings of play the Maroon andWhite were ahead, 14-5, as Takacs yielded seven runs on six hits and six walks in the first two frames. He was relieved in the third by junior Bill Higgins, a righthander, who gave up seven in that inning, and three more, before sophomore Jim Nonnemaker appeared to pitch shut out ball in the eighth and ninth.



IN THE STRETCH—Muhlenberg third baseman, Sandy Dreskin, tries desperately to stop a line drive from leaving the infield during the Mules' game with Lehigh on Monday. The contest ended in a 7-7 deadlock when it was called at the end of nine innings because of darkness.

**Sixth Win**

Lafayette, in winning their sixth game against two setbacks, collected twelve hits, one less than the Mules, but were aided by twelve walks and six Berg errors. Second baseman Bob Kessler climaxed the Leopard's scoring in the fifth inning when he hit his first home run of the campaign as Gene Parsons, a slender rightie, picked up his second victory against no defeats. A sophomore from Heltertown, Pa., he worked eight full, striking out five and walking two.

Following this defeat the Mules met a visiting Lehigh university nine whom they tied, 7-7, on Monday, April 14. Seemingly out of the ball game in the early innings, coach Jim Koslowski's nine worked into contention with two in the seventh. Pat Wilson walked and scored the first of these on successive singles by Bob Schumacher and Dave Hoover, and Joel Moskowitz's pinch single to right scoring Schumacher accounted for the other, and made it a 7-5 ball game.

**Tie in Ninth**

In the bottom of the ninth, the Mules scored twice to tie before darkness halted the action. Ray Croft opened with a single, Dave Hoover fanned, and John Holcroft singled. Bob Nuss then struck out for the second out, but Bill Higgins doubled down the line in left, Croft scoring.

Chick Smith, who had two hits in the opener and played well in the field, then sent a roller to third which was bobbled by third-sacker Dick Herring. Holcroft scored to tie the game at 7-7 and Smith reached first safely on the miscue. Wilson then drew a pass, loading the bases, but Schumacher fanned on a 3-2 pitch from reliever Bill Bevan.

**Best Frame**

Lehigh's big inning was a three-run fifth. Homsher walked with two away and Halperin was hit by a pitch. Bob Hirsh then singled to right as Homsher scored on Chick Smith's wild relay. Herring climaxed the frame with a single to left which scored Halperin and Hirsh as Ray Croft bobbled the ball.

Lehigh, coached by Tony Packer, is now 3-2-1 while Muhlenberg is 0-1-1. This game will be replayed later in the season if possible.

# Returning Men Form Nucleus Of Court Squad

Muhlenberg tennis coach Dr. John Shankweiler has three lettermen on hand from last year's squad to serve as a nucleus for his team this spring. The trio of experienced racket-wielders are Harry Berg, a senior from Teaneck, N. J.; Bob Leighton, a senior from Riverdale, N. Y.; and Gil Sopher, a junior from Philadelphia.

Last year's squad posted a 3-6 mark, and Sopher, playing in the number six spot, compiled the best record of the three returnees with four wins and five defeats.

**Newcomers**

Six newcomers are battling the veterans for positions on the team. They are: Ron Behrle, a junior from Allentown; Roger Christine, a sophomore from Allentown; Frank Csaszar, a junior from Belleville, N. J.; Brent Follweiler, a sophomore from Allentown; Horace Schirrmacher, a junior from Yardley, Pa.; and Ken Stewart, a sophomore from Norwich, N. Y.

The Mules will open their season on Friday, April 18, when they travel to Easton to take on Lafayette.

**TENNIS SCHEDULE**

# Baseballers To Face Blue Hens, Bullets

The University of Delaware and Gettysburg college will provide the next two tests for the Muhlenberg baseball squad, and both seem to represent better than average competition for the Mules. Both games will be played at the opposing schools. The Delaware contest is set for Saturday, and Gettysburg on Monday.

The outlook for 1958 season at Delaware is good. The Blue Hens have seven returning lettermen including captain Gene Watson at first base. It will be Watson's third straight season as first sacker, during which time he has established himself as a college baseball player of the highest caliber. As a junior Watson ranked third among the Delaware batters with a 1957 season average of .337 hitting safely 28 times in 20 games to tie the lead in hits. His 11 extra base hits included one homer, four triples and six doubles. He also led the team in runs scored with 22. In runs batted in he tied the team lead with 19, and he was second in solen bases with five.

**Flying Start**

Delaware got off to a flying start in the Eastern NCAA race, winning six of its first seven ball games. Pitching has turned out to be one of the strong points in the attack despite early season doubts. Leading the mound staff is senior Jerry Bacher, who pitched 22 innings in three games for an earned run average of 1.33.

Offensively, the Hens exploded with 62 runs on 64 hits in seven games, while limiting opponents to 24 runs and 41 hits. The overall team average was .283, compared to opponents' .238.

The Delaware nine has also shown excellence in fielding, committing only five errors in its first seven outings as against 22 for the opponents. The Blue Hens allowed only five earned runs.

**Gettysburg Hopes**

Gettysburg's coach Bob Hulton, successor to Hen Bream, is placing his hopes for a successful season on six pitchers and three returning long ball hitters.

Pitching seems to be the definite strong point of the Bullet squad. The moundsmen are led by Bucky Walters, son of the ex-Cincinnati, great of the same name. Walters, who turned in a 2-2 record last year, has a better-than-average curve and fast ball. He places his confidence in poise and pin-point control. Another returnee to the mound staff is lefty Owen Roizman. He was 3-1 last year, with 18 strikeouts in 22 innings.

Possibly one of the best pitchers this year will be sophomore Jack McCracken. He has speed, a good curve, and has been tagged as a good hitter. Other fine prospects are southpaws Dick Hawkins and Tommy Knox, and veteran Ed Brooks.

**Heavy Hitters**

The big batters among the returning regulars are Larry Liedel and football star Frank Capitani. Third baseman Liedel brings a .329 average and 20 RBI's from a great sophomore season. Capitani, power-hitting center fielder, last year slammed two homers and drove in 14 runs.

The Bullet coach has a few holes to fill at second, shortstop, right field, and catcher, but the overall picture looks pretty good as far as a succesful season is concerned.

# Golfers Take Two Matches

The Muhlenberg Golf team got off to a fine start with victories over Albright and Moravian in its first two outings.

The Mule Linksmen disposed of Albright, 13-5, last Thursday, and edged Moravian, 9½ - 8½ on Monday.

Russ Bleiler and Jack Pfeiffer have been the two most outstanding performers thus far. Bleiler scored 3-0 shutouts in both matches over Bob Goodman of Albright and Bob Volko of Moravian. Pfeiffer defeated the Lions' Jim Smallwood, 2½ - ½, and Moravian's Ducky Potter, 3-0. The only other undefeated Mule is Sid Gamberg, who battled Albright's Jerry Burns to a 1½ - 1½ tie, and defeated the Greyhounds' Ken Skrable, 3-0.

# Linksmen Host Weaker Lehigh In Third Match

This coming Thursday, April twenty-fourth the Muhlenberg golf team plays host to Lehigh on the Lehigh Valley Country club course.

The Lehigh team doesn't appear to be as strong as they were last year. During the 1957 season they compiled a record of ten wins and three losses. The Brown and White squad also finished second in the Middle Atlantic States Collegiate Golf association, which was won by Bucknell. So far this year Lehigh has played the University of Pennsylvania, Temple, and Penn State. Their 1958 record now stands at one win and two losses.

**Returning Lettermen**

Lehigh is captained by returning letterman John W. Ramsey. Ramsey, who is a senior, finished last year with a record of seven wins, five losses ,and one tie. One of his wins came over Schafer of Muhlenberg by a score of 3-0.

Lehigh's other returning letterman is Don M. Weaver, Jr. Last year Weaver won nine, lost three, and tied one; beating Muhlenberg's Davidson 2½ - ½.

Last year the Berg linksmen lost to Lehigh 11½ - 3½. Things look a little more even for this coming match with the edge going to Muhlenberg. Coach Senger's squad has already notched wins over their first opponents, Albright and Moravian.

The Lehigh squad is coached by William B. Leckonby, who is also the head football coach.

# Berg Thinclads Open Season On Sour Note; Defeated By Albright In One-Sided Contest

by Bill Wightman

The Mule track team met bitter defeat at the hands of Albright college in their first outing last Saturday on Muhlenberg field. It was the second meet for the Lions who are now 1-1. Albright jumped to an early lead as they took first and second places in both the mile run and the 440 yd. dash. O'Connor gained a third in the mile while Sabol took third in the 440 for Muhlenberg. In the 100 yd. dash John Haberern knotched second place, only three-tenths of a second off the winning pace, while the Lions took first and third.

END OF THE LINE—Albright college's Dick Kelly is about to break the tape at the finish of the 100-yard dash in Saturday's meet on Muhlenberg field. Close behind Kelly are the Mules' John Haberern, Albright's Mike Verona, and Muhlenberg's Ralph Borneman, who finished second, third, and fourth respectively.

**High Jump**

In the high jump Smith and Breneman of Albright tied for first, while Herb Loeffler came in third. The 120 high hurdles again found the Lions with a first and second place with Joe Dahle gaining third. The shot put was also won by Albright. The Lions took third in this event as well as first, with Jerry Rehrig knotching second place.

In the 880-yard run it was Albright's Mack who broke the tape, but Dick Lewis and Bob Sabol finished close behind for second and third places for the Mules. In the 220-yard dash, John Haberern again placed second, while Albright held down the other two places. The Mules' Chuck Wieder and Albright's Brad Breneman tied for first honors in the pole vault, with Dan Williams of Muhlenberg finishing third.

**No Entries**

When Muhlenberg had no entries in the two mile run, Albright gained an easy nine points. Another nine was earned in the broad jump, which the Lions also swept. The Mules could only gain a third in the low hurdles and a second in the javelin. In the discus, Ben Schoellkopf and Glen Johns nailed down the first two places for the Bergmen.

The big men for Albright were Breneman and Smith. Breneman won two first places, one second, and one third. Smith had two firsts and two seconds. Other Lions with double victories were Thrasher, Mack, Kelly, and Diehm. The top man for the Mules was Ben Schoellkopf who earned a total of eight ponts. John Haberern registered six points.

**SUMMARIES:**

**Mile Run**—1. Thrasher (A), 2. Green (A), 3. O'Conner (M); 5:17.7.

**440-yard dash**—1. Mack (A), 2. Allwein (A), 3. Sabol (M); 55.8.

# . . . Student Council Report . . .

April 10, 1958

The first regular meeting of the 1958-59 Muhlenberg college Student council was called to order at 7:30 p.m. by President Richard Truchses. All members were present except Mr. Markoe.

**TREASURER'S REPORT:**

| | |
|---|---|
| Student Body fund | $1,951.97 |
| Social fund | 1,562.21 |
| Assembly fund | 1,419.77 |
| | $4,933.95 |

President Truchses then announced the following chairmen of Student council committees:

Constitutions and Elections—Mr. Nase
Budget and Finance—Mr. Tuchinsky
Assembly and Social—Mr. Siegel
Publicity—Mr. Bausch
Student Union—Mr. Carnevale
Intramurals—Mr. Miller
Chapel—Miss Schell
Commons and Dorm Council—Mr. Horger

**NEW BUSINESS:**

Mr. Chabrow presented the petition for the Alpha Phi Omega national service fraternity. The merits of the fraternity were presented by Dr. Kelly, APO advisor at Lafayette, Mr. Al Grieb, Pres. Alpha Cuater, Mr. H. M. Fauucett, Lehigh council scout executive, Mr. Gerald Paist and Mr. Wm. Marsh.

Further discussion will be held at the next stated Council meeting April 17, 1958.

On motion by Mr. Siegel and Mr. Carnevale, funds in the amount of $230 were transferred from the Social fund for the Commuters club dance.

On motion by Mr. Siegel and Mr. Nase, funds in the amount of $200 were transferred from the Assembly fund for the Lancaster opera workshop.

On motion by Carnevale and Mr. Nase the fine imposed on Mr. Bausch, for failure to remove a campaign sign, was revoked because of the snow storm.

The meeting was adjourned at 7:50 p.m. on motion by Mr. Carnevale and Tuchinsky.

Respectfully submitted,
DAVID K. BAUSCH, Recording Secretary

# Science Fair

(Continued from Page One)

gram will take place on the opening day with Dr. Conrad Seegers presiding. The Honorable Donald V. Hock, mayor of Allentown, will deliver the Science fair keynote: "Aladdin Had A Lamp." In conjunction with this program, science movies will be shown in full color in the Science auditorium, at 12:30 p.m. and 1:30 p.m. The films are entitled "The Strange Case of the Cosmic Ray," and "Our Mr. Sun."

# Lutheran Seminar

(Continued from Page Two)

Meetings at the State Department concerned the current international situation with emphasis on the mutual security program and Africa. The visiting students also heard from news correspondents, congressmen, and church leaders.

The Washington Seminar, held annually in the spring, is sponsored by the Division of Public Relations of the National Lutheran council and the Department of Public Relations of the Lutheran church—Missouri synod.

# The Chowline

One of the most heartening experiences this past week was to see the Muhlenberg baseball squad pull through in a tense and dramatic ninth inning against Lehigh on Monday afternoon. Even more heartening, however, was the full stand of cheering students and baseball fans. Speaking with a few of the players, I discovered that it added a great deal to the team's winning spirit and they really felt good about it.

After the game is over, be sure to drop into the Student center Snack bar and have a glass of milk and a piece of pie. While sitting around the tables, you can go over the entire afternoon of play and recount the game.

Speaking of spring sports, we've seen a lot of coeds romping on the tennis courts in the afternoon. What could be more relaxing, after a hard day on the court, than to grab a stool at the counter in the Snack bar and quench your thirst with one of those famous large Cokes for only a dime?

And now that the weather is warming up again, ice cream is in season. Theres nothing like a double-decker ice-cream cone to wipe that perspired brow and to sit down and relax while you chat with your friends about who has more ice cream in his cone. (Of course these discussions often lead to mass brawls, several of which Harry has had to break up with his trusty companion, "Rusty Eberhard.") **Adv.**

# Coach Flamish

(Continued from Page Four)

turn to his first love, coaching. In 1956 he joined the Mules' coaching staff, and has been doing a commendable job since.

**Three-Fold Job**

Besides serving in the capacity of backfield coach for the varsity football team, and head coach of the track team, Bill is a physical education instructor in the College's athletic department.

With the track season just beginnning, the outlook for a good team is better than it has been for years. An increased interest in track is evident with more men going out for the squad this season. This is one of the reasons coach Flamish is so optimistic about the current schedule. A good group of freshmen are also working out with the varsity cinder squad, giving hint to a brighter future for Muhlenberg track under coach Bill Flamish.

# Dr. Harry Orlinsky

(Continued from Page One)

Dr. Orlinsky is co-translator of a five-volume English edition of Rashi's famed Commentary of the Pentateuch. His latest book, **Ancient Israel,** a study of the society that produced the Bible, published by Cornell University press, has been hailed by scholars as the best short history of Israel available.

Dr. Orlinsky is a graduate of the University of Toronto. He received his Ph.D. from Dropsie College in 1935. While studying at Dropsie, he was a Fellow at the University of Pennsylvania from 1931 to 1935. From 1935-36, he was a Fellow at the American School of Oriental Research in Jerusalem and at the Hebrew university.

# West Hall Holds Dance To Aid WUS Campaign

A record dance in the West hall gymnasium on Friday evening, April 18, will conclude this year's fund drive for World University service, conducted on the Muhlenberg campus by the Muhlenberg Christian association and honorary chairman Dr. J. Conrad Seegers.

The drive, which has been in progress since Monday, is for the purpose of providing mutual help and technical assistance for students throughout the world. The student body had an opportunity to hear the purpose of the WUS drive from its regional secretary, Paul Denis. Speaking in chapel on Monday, April 14, Denis pointed out that WUS aids students in an organized oversea program throughout the year and is activated to meet a sudden crisis such as was presented by the recent Hungarian students' revolt.

**MCA Campaign**

The campaign for donations throughout Muhlenberg was carried out by committees of solicitors in the various dormitories and fraternities under the supervision of MCA president Henry Williams.

"Around the World for WUS", depicting the universal drive, is the theme for the dance climaxing the drive Friday evening. Dress is informal and admission is free for the dance, which will be held from 8 to 11:30 p.m.

Decorations for he gym are under the direction of coeds Ann Romatowski, Madeline Egner, Betsy Kenely, Phyllis Liptak, and Doris Gack, aided by Ken Mifler, Priit Rebane, John Carty, Bob Kehrli, and Dave Krewson.

## Ciarla Picture Schedule

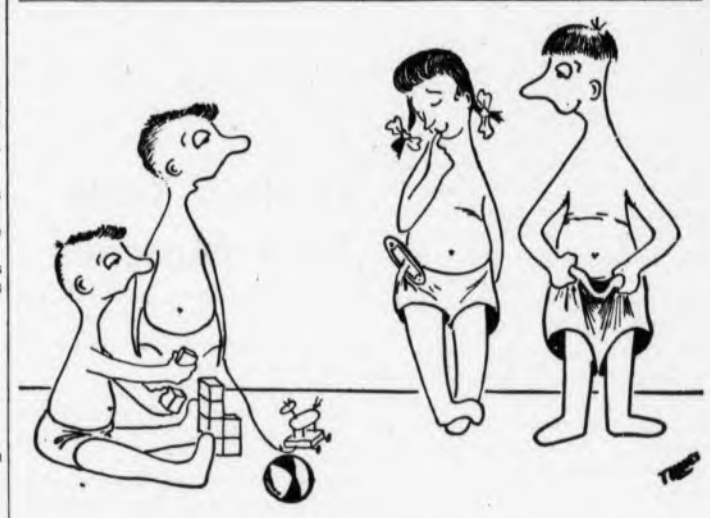
# William Kinter Talks To Lutheran Students

On Sunday evening, April 13 a meeting of the Lutheran Student association was held in the Student center. Dr. Kinter, of the Muhlenberg college English department, spoke on some aspects of Orthodox Lutheran practices as followed by the Holy Redeemer church in Reading, including a summation of several points of Pastor Emmer's theological positions.

As a business meeting following Dr. Kinter's talk, the program for the rest of the semester was outlined and new officers were elected for the ensuing year. The new officers as follows: Dick Truchses, president; Dave Capron, vice-president; Norma Zettlemoyer, of the Allentown nurses home, secretary; and Christina Toffer, treasurer.



"I see Thurlow finally hung his pin."

Sticklers!

**BON VOYAGE** presents? You might give a substantial checking account in the Left Bank of Paris. A deck of cards for playing London Bridge. Or walking shoes in which to Rome Italy. Better yet, give Luckies—and make your present a *Partin' Carton!* A Lucky, after all, is the best-tasting cigarette anywhere. In Paris you hear, "Un Luckee? C'est merveilleux!" (That's French!) Roughly translated, it means: it's all fine, light, good-tasting tobacco, toasted to taste even better. (That's advertising!) Just light up a Lucky and see for yourself! (Now, that's smart!)

Stuck for dough?
START STICKLING! MAKE $25

We'll pay $25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

## Omicron Delta Kappa Conducts Evaluation

Omicron Delta Kappa, national honorary leadership fraternity, will administer a college evaluation poll to all interested members of the senior class. Thursday, April 24, has been established as the distribution date, with all seniors to be contacted by members of the fraternity.

Designed for the graduating seniors, the questionnaire will attempt to discover the strengths and weaknesses of the institution. Among the numerous areas to be included on the questionnaire will be the insitution's contribution in the development of the student's religious, intellectual, social, physical and vocational interests—areas which the college attempts to develop.

**Deadline Date**

Seniors answering the questionnaire will be required to sign their names to insure the accuracy of the results. Deadline date is Thursday, May 8, when the members of the circle will again canvas the senior class. Completed polls will be the confidential property of Omicron Delta Kappa and will not be consulted until next fall, after all members of the senior class have graduated. The findings of the poll will provide a basis for future recommendations to the administration by the honorary fraternity.

**Results Confidential**

Results of the poll—the strengths and weaknesses of the college—will be confidential.

Men assisting in administering the poll are: Karl Becker, Owen Faut, Dennis Gurski, Donald Herman, Paul Horger, Dick Kennedy, Earl Knies, Roy Madsen, Arnold Markoe, Herbert Meily, Robert Nuss, James Piston, Charles Smith, Richard Tepper, Luis Torres, Richard Truchses and Henry Williams.

Previously, Omicron Delta Kap-

## Dietrich To Replace Dean At Wittenberg

Miss Heimtraut Dietirch, dean of women at Muhlenberg college has been appointed associate dean of students at Wittenberg college, according to the announcement made by Dean John K. Stauffer, of Wittenberg, on Friday, April 18. Miss Dietrich's duties will begin on September 1, of the coming academic year.

She will succeed Miss Hulda Sallee, Wittenberg's dean of women since 1950, who is resigning to devote full time to teaching in Wittenberg's department of education.

**Held Position Since 1957**

Muhlenberg's present dean of women has held this position since February, 1957. She previously had served for four years as dean of women at Wagner college, Staten Island, New York, and was a student dean at Syracuse university from 1951 to 1953. From 1949 to 1951 she was an instructor in German at Thiel college.

Miss Dietrich was graduated from Pennsylvania's Beaver college in 1943. She received her master of arts degree from the university of Pennsylvania in 1949 and has taken additional graduate work at Columbia university and Syracuse university.

Word has not yet been released as to who will replace Miss Dietrich. There may be a statement concerning this before the semester is terminated.

## APO Passed With Favor By Council

Student council, on Thursday evening, April 17, approved the petition for the acceptance of Alpha Phi Omega,, national service fraternity. Having been tabled for a week, pending review, the petition was passed unanimously.

The petition stated specifically that there would be no conflict with any similar organization in the field of service. This would mean that it would not infringe on the precedence of Cardinal Key society or the M club. Council also desires that APO also submit projects of service.

Further progress will be made with the group upon having national acceptance by the administrative authorities of the fraternity. There is the possibility that the organization will not gain a foothold until the coming academic year. At that time, it is assumed that Alpha chapter will assist in the formative stages of the fraternity. The chapter mentioned is located at Lafayette college.

Since there has been formal acceptance of the organization at Muhlenberg, it is expected that some activities will ensue in the remaining weeks of the semester. Under the direction of Penn Chabrow, there will be a planned meeting in the future of all those interested. At this time officers of the organization will be nominated.

It is felt by those who have organized the fraternity on campus, that those who are interested will attend the meeting and show a definite desire to join the fraternity. After pledging has been completed, those who remain will be the nucleus of a stronger fraternity.

## Proposals On Parking Situation Directed At Reducing Problem

A survey on the parking situation has been recently made known by a committee of the board of trustees of Muhlenberg college. After complaints from neighbors of the college, the Allentown Police, and upper-classmen had greatly increased, it was felt that definite action needed to be taken. The proposed solution of the trustee's committee is as follows:

**Proposed sight for the construction of a parking lot is located to the north of the Sigma Phi Epsilon fratrenity. It is estimated that the proposed lot will alleviate a portion of the parking problem.**

(1) Extended diagonal parking on the west side of 23rd street across from the Sigma Phi Epsilon fraternity home, increasing parking facilties from 45 to 75 cars.

(2) A new lot to be constructed at 23rd and Gordon streets which would hold approximately 130 cars.

(3) Reconditioning of the lot next to Alpha Tau Omega fraternity.

(4) A $30 yearly fee for reserved and numbered parking lots.

(5) All commuters are required to park in the Memorial hall lot.

(6) A student police force under the auspices of the Student council would be organized to police and fine violators for illegal parking.

**Acceptable by Students**

According to the survey made by the trustee's committee, this proposed plan was acceptable to the majority of the students. The committee feels that the parking facilities would pay for themselves and in future years would make a profit for the college.

The parking problem of Muhlenberg college has been a serious problem for the past few years but took a quick upsurge when all male resident students were moved to the east side of the campus at the beginning of the 1957-58 fall semester. To lighten the burden, all resident freshmen were prohibited from having cars on campus. During the snowstorms of winter and early spring, 23rd and Gordon streets were partially blocked by stalled cars or those that couldn't be parked any further into the snow. Now that spring has arrived the cars are once again lined up along the streets neighboring our campus.

The committee, after studying this situation, feels that definite improvements should be made. They ask that all students with any questions concerning the above mentioned solutions, approach the committee.

## Term Paper Contest Sponsored By Pi Delt Won By Richard Kern

In a recent freshman term paper contest sponsored by Pi Delta Epsilon, the national honorary collegiate journalism fraternity, Richard Kern received first place for his paper entitled "The Controversy About Abraham Lincoln's Religion." Kern will receive a $15 first place prize for his paper.

The second place award was given to Michael J. Beaky for his composition, "The Fourth Dimension." Third place honors went to "The Gun That Won the Revolution," by Robert J. Dreher. These two men will relieve prizes of $10 and $5 respectively.

There were three other papers submitted in the contest which were given honorable mention. They were: "Head Hunting Through the Ages," by Michael Katz; "A Nation Faces Its Problems: The Birth of Israel," by Myron Hymann; and "Basque Resistance to Assimilation," by Carol Hodgson.

The judges for the contest consisted of six men. They were Dr. Harold Stenger, Dr. J. Gysbert Bouma, and Mr. John Bulette, all members of the Muhlenberg English department, and Ronald Moxey, Dick Kennedy and Larry Woodward, all members of Pi Delta Epsilon.

## Paint Project Begins In Martin Luther Hall

Painting of the rooms and corridors of Martin Luther hall has begun. The newest addition to East hall will have undergone a complete change by the Fall of 1958. As of now, one-half of the first floor rooms are completed. The warmer weather, however, has made it necessary for the workers to discontinue painting and to begin work outside.

A wide range of colors is being used; among these are blue, different shades of green, beige, and brown. The average cost of painting one room is approximately $28. This estimate does not include the cost of labor. Finances for the operation are from the available operating funds in the Buildings and Grounds Department.

## President Announces Promotions Of Feeman, Voyatzis And Battis

Three faculty members at Muhlenberg have received promotions, according to a recent announcement by Dr. J. Conrad Seegers, college president.

Robert A. Battis, Hellertown, of the economics department, will be promoted to the rank of associate professor from assistant professor. The promotion will take effect immediately upon receipt of his Doctor of Philosophy degree from New York university, probably in the next few months.

George F. Feeman, Allentown,

**George F. Feeman**

of the mathematics department, and John G. Voyatzis, Bethlehem, of the economics department, have been promoted to the rank of assistant professor from instructor. These promotions will become effective September 1.

**Economics Professor**

A native New Englander, Battis received his bachelor of science in business administration degree from Rutgers university and his master of arts from New York university. Before joining the Muhlenberg faculty in 1956 he served as an instructor at Lehigh university and Lafayette college. In 1953, he was co-author with Dr. Morrison Handsaker of Lafayette of **Seasonal Farm Labor in Pennsylvania,** a study prepared by Lafayette for the Pennsylvania State Department of Labor and Industry.

He is a member of the American Economic association, Economic History association, and the Amer-

**John G. Voyatzis**

ican Association of University professors.

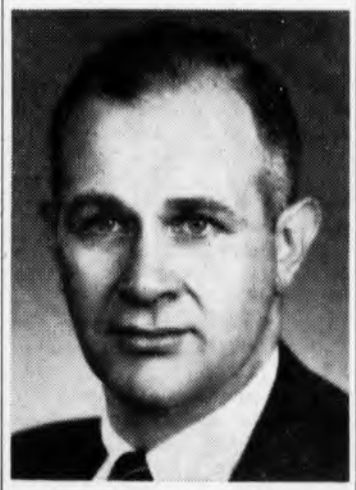
**Doctoral Student**

The recipient of a Danforth Teacher Study grant, Feeman is now on a year's leave of absence for graduate study at Lehigh university. He is working on his disertation for a Doctor of Philosophy degree.

Feeman, a native of Lebanon, was graduated from Muhlenberg in 1951 and returned to the campus to teach in 1954. He received his Masters degree from Lehigh in 1953 after serving as a graduate assistant there for three years. He is a member of the American Mathematical society and the Mathematical Association of America. He recently became an associate member of Sigma Xi, an honorary mathematical fraternity.

**Voyatzis**

Voyatzis, who was born in Olympia, Greece, received his law degree from the University of



**Robert A. Battis**

Athens, Greece, in 1951. He earned his masters degree in economics four years later at the University of Miami, Florida.

A member of the Bar Association of Athens, he is the former vice-president of the Symposium club of the University of Miami. Before joining the Muhlenberg staff in 1956, he served as a legal

(Continued on Page Six)

## Jim Sorger Elected Head Of Ciarla Staff

Recent Ciarla elections were disclosed on Monday, April 21. This is the staff that will edit and print the year book for the class of June 1959. They have already completed the previous Ciarla edition, which was not finished when they accepted their offices.

The staff for this year is as follows: James Sorger, editor-in-chief; Roger Frantz, business manager; Burt Eisenbud and Philip Eichler, associate editors; Donald Borden and Michael Derechin, sports editors; Richard Goldman and Steven Fisher, activities editors; Marvin Hyett and David Paskin, fraterniy editors; Robert Pearlstein, senior section editor; Irwin Ravin and Nathan Hersch, circulation editors; Muray Siedel, photography editor; Janet Booth, typing editor; Ettorina Fantozzi and Margaret Todd, copy editors and Claire Gehrig, art editor.

## Author Defends Controversial Statements About Today's American College Students

"The great majority of students are unabashedly self-centered," this is a statement, or one of many thought-provoking statements from Dr. Philip Jacob's book **Changing Values in College.** Dr. Jacob will appear at Muhlenberg on May 8 to defend his outspoken statements against the college student of today.

**Dr. Philip Jacob**

Dr. Jacob was born in Istanbul, Turkey, but received his degrees in this country. He received his B.A. from Yale university in 1935, his M.A. from the University of Pennsylvania, and his Ph.D. from Princeton university. He is primarily interested in public opinion, and research in the social sciences.

**Written Other Books**

Dr. Jacob has written other books concerning international relations and propaganda. The book **Changing Values in College** was written in 1957 as a report for the Edward W. Hazen foundation. It is a sociological study of today's college student.

In past years Dr. Jacob has been affiliated with the American Friends service, serving first as secretary, and later as a member of the board of trustees.

Dr. Jacob's topic of discussion for the assembly program will be "Changing Values in College." In the evening of the same day, he will speak to faculty members from Lafayette college, Lehigh university, Moravian college, Cedar Crest college, and Muhlenberg college, on the "Impact of College Teaching."

## Alpha Phi Omega

**There will be a meeting of Alpha Phi Omega, the recently organized national service fraternity, on Monday evening April 28, at 7 p.m. in room 201 of the Administration building. All interested men are urged to attend. There will be an election of officers at this time.**

# Editorial Views——

## Greek Tragedy . . .

It appears that the present fraternity system which now exists at Muhlenberg is on a declining trend—or will be—unless an awareness of the conditions are brought to light. We stand to defend, not offend our fraternities.

For years, there has been an antagonistic attitude from one fraternity to the next. The members of one particular group find it conventional to ridicule and undermine the practices and ideals of another. Often, we associate ourselves not with Muhlenberg, but with our fraternity. Such being the case, Greek affiliations take precedence over college affiliations.

It is this attitude which could possibly lead to the abolition of fraternity life. And now that coeducation has taken its place on campus, there are fewer reasons for the existence of fraternities—the school provides social functions, dances, and so forth, which previously meant bread and butter for brotherhoods.

The IFC dance was a surprising success. It was well-attended and those who partook had nothing but good to say for the affair. But, like all other Muhlenberg dances, each fraternity chose its own section of the ballroom and confined its interests to that area. This is a contradiction of the "Inter-Fraternity" motif which should have existed.

The scale of pros and cons for fraternities still leans heavily on the positive side, even though more cons are apparently piling up.

The real danger lies in the heterogeneity of the six Muhlenberg chapters, and more particularly in the antagonism they hold for each other. Similar to Spain's policy over her colonies—"divide and rule"—is our situation. It is important that fraternities, in order to preserve their privileges, work together for the good of the College and the common interests embodied in their ideals.

## It Still Exists . . .

During the past year, apathy among the students at Muhlenberg has been a constant source of criticism by columnists and editors of the Muhlenberg **WEEKLY.** Yet, the problem still exists and remains one of the biggest problems being faced by the organizations and clubs on campus. Responsibility and authority is placed in the hands of a small number of students, while the vast majority of the student body remain non-participants in the various campus organizations.

This condition is evidenced by the Muhlenberg track team. Although its members have done a good job so far this year, the lack of student support is a great hindrance. The team is pitted against colleges where track is a major sport and whose lineup far exceeds our own. It is impossible for Muhlenberg's track team to compete successfully against such opposition.

Sports is not the only field which feels the effect of student apathy. The Forensic council and the Intercollegiate Council on Government have practically become non-existant due to the lack of support. Other organizations such as the Mask and Dagger society, the Muhlenberg Christian association and the Band are badly in need of additional recruits.

If the extra-curricular activities on the Muhlenberg campus are to continue, they need the support of the student body, especially among the members of the freshman and sophomore classes. These students represent the future of Muhlenberg during the next two years. It is their job to participate in these activities now, so that they may become the responsible leaders of the organizations during their junior and senior years.

Another realm of college life which is effected by student apathy is the social scene. Weekends at Muhlenberg are dead! The Women's council has attempted to alleviate this situation by sponsoring weekend dances and social functions, but they met with little success. Muhlenberg is essentially a "suitcase" college and will remain so until the administration begins to accept more applications from out-of-state areas. This would not only serve to spread the name of Muhlenberg, but would probably help to improve the weekend social scene.

# Art Courses Give Curriculum Variety

**Along with coeducation, last fall saw the introduction of art courses to Muhlenberg. At present courses in applied art and art appreciation are available to interested students.**

**by Barbara Fretz**

This past fall a new series of courses was added to Muhlenberg's curriculum, courses in the field of art. These classes, meeting in the West hall art rooms, are being conducted by Mr. Melville Stark, a new face on the Muhlenberg campus but a well-known man in the field of art.

Born in Honesdale in northeastern Pennsylvania, Stark attended Penn State university and was graduated from East Stroudsburg State Teachers college. Following his graduation, he did post-graduate work at the University of Pennsylvania and Syracuse university.

Melville Stark has studied under Cullen Yates, Anthony Theime, and Walter Emerson Baum, who was a very familiar figure on the local art scene. Opportunity to study

**Melville Stark instructs Berg students in West hall art classes.**

the fine art collections of Europe was presented to Stark when he spent some time in France and England.

### Heavy Schedule

At present, Stark's life is a busy one. He is director of the Allentown Art museum and is instructor of art at the Baum Art School, Cedar Crest college, and now Muhlenberg college. In addition, he presently is preparing for an exhibit of his work which will be held in the Carnegie library of the Perkiomen prep school in Pennsburg, beginning May 4, 1958. Collections of Stark's work can be found on permanent display at the Allentown, Reading, and Scranton Art museums, at the New York Knickerbocker society, at the American Water Color club, and at the Philadelphia Sketch club and Philadelphia Art alliance. His paintings have also been shown at the State of Maine exhibition and at both the National and Pennsylvania Academies of Art.

Melville Stark makes his home in Zionsville, Pennsylvania. He is the father of two children, a boy and a girl, who take up any spare time he can find in his busy schedule.

### Available Courses

The art courses offered at Muhlenberg are art appreciation and applied art. The art appreciation course is a study of the history of art and technique of artists. The applied art course includes studio work in drawing and painting. The visitor to West hall's art rooms will see the results of the work of the seventeen students who are now studying with Melville Stark. Both of the courses are open to anyone at Muhlenberg who is interested in learning of the world of fine art.

# West Hall Renovates

With the renovation of the north wing completed, West hall is now capable of housing 150 female students. In the past year, only the south and center sections of the dormitory were available as sleeping quarters.

As the first floor was previously used for club and commuters' rooms, the only newly completed areas of West hall are the upper two floors. Here both the hallways and rooms have been repainted. New furniture, built-in-beds, and modernized bathrooms also add to the transformation from forty years ago.

# 'Round Campus

Muhlenberg-LaSalle golf meet will be held away.

The Business and Economics club will leave for the Fairless Steel works at 10 a.m.

# THE CAMPUS Whirlpool

**by Marv Hyett**

In addition to his magnificent performance on the golf green, "Humpty" Pfeiffer has recently produced a magnificent performance on the asphalt strip. Eighty miles per hour, in a thirty-five mile zone, netted Sir Humpty a notice via John Law. Besides being in hock up to his sweat socks, Humpty Hogan is being summoned to give account for his crime. **Undaunted, Sir Humpty said, "All I had with me was a Blue Cross card. Darn cop wouldn't take it."**

The word's around that two girls were trapped in an off-duty room in West hall. It seems that the girls were wondering around, after having gone AWOL, and became locked in a vacant room. After many anxious, fear-ridden moments, they frantically ran to the door. It opened and they walked out. **These are coeds?**

"Reds" Grossman finally came up with a half decent idea. After three years at Berg, during which time he supported such brain storms as a plan to cover the entire campus with asphalt, he offers a suggestion—a finals schedule which would be published a week before the tests. Although realizing that **this would be unfair, since the students could plan, and might even pass,** I think the idea deserves support.

Lambda Chi is out to capture the International Universal golf tourney. Led by Nino "the chipper" Carnevale, the boys have been breaking all existing records at the links. Accompanied by Jim MacMillan and his traveling sound effects, the team is the one to beat.

Congratulations to Teke for winning the Scholarship trophy. The cup was presented to the house by the dean.

Tom Pollock has been complaining about bugs, all kinds. The exterminator, unmoved by Haps, only succeeded in killing Pollock's roommate. Only the bugs (and Tom) are left.

Mike Bertolet, general rabblerouser and do-gooder, has been trying Camels these past weeks. Finally, in disgust, Mike has gone back to women. **Wearing short shorts and looking like an ad for lollypops, the "Kid" has been seen snowing the campus with pure sex-appeal.** Look out! Here it comes again.

Daring Ray Baun won a two-dollar bet by walking from his room in East hall to the mail box, rather scantily-clad in his natural Bermuda shorts. **These Bermudas did not resemble those specified by the fashion critics, but looked more like underwear.** Toward a nakeder Muhlenberg!

# Diverse Treatises Win In Pi Delt Competition

**by Chuck Trexler**

On the evening of Thursday, April 17, six unsung heroes of Pi Delta Epsilon, honorary journalism fraternity, convened to judge 18 contesting freshman term papers. After five hours of deliberation, the judges selected the three winning papers from among the entrees.

Capturing first place and its reward of $15.00 was Richard Kern's "The Controversy About Abraham Lincoln's Religion." Mr. Kern states that although Lincoln is traditionally regarded as a Christian president, much doubt exists concerning his actual religious beliefs. In the course of the paper, the author presents the evidence on both sides, giving due regard to the difficulty a biographer faces in attempting to analyze such inner feelings of his subject as religion. A solution is difficult to reach, because of the conflicting testimony of Lincoln's acquaintances and biographers.

Much of the argumentation attesting to Lincoln's Christian faith stems from his actions and words during the last five years of his life, during his sojourn in the White House. There appears considerable weight, however, in the proposition that during most of his life he was a skeptic, in the sense of not binding himself to any particular faith. Mr. Kern reaches the conclusion that although Lincoln may have been a skeptic in his early life, " . . . his acts as President do prove that he fulfilled two of the basic tenets of Christianity, submission to God's will, and service to humanity!"

### Invisible World

A thesis on "The Fourth Dimension" by Michael Beaky won the $10.00 second place award. Mr. Beaky explores the possibilties of an additional dimension besides the familiar trio of length, breadth, and depth. The question is raised whether ". . . we and the universe in which we live are only the visible three-dimensioned sections of some unknown four-dimension-quantity.' In this fourth dimension it is thought that sense of time is non existant, that past and future are one instant, the present. An interestinug point is brought to light when the author discusses the soul as a possible phenomenon of the invisible world of the higher dimensions.

### History-Making Weapon

Receiving the $5.00 prize for third place was Robert Dreher's "The Gun that Won the Revolution." This paper is a study of the role played by the Kentucky, or Pennsylvania German, long rifle in the American Revolution. Mr. Dreher traces the engagements of the War for Independence from the early days of Bunker hill to the Virginia campaign in 1781, emphasizing the importance of this famous frontier weapon. The "best widow-and-orphan-maker in the world" could "drive a nail or

(Continued on Page Six)

# Sociological Society Plans New York Trip

Observation of social work in a large community will be the purpose of the Sociological society's field trip to New York tomorrow, Friday, April 25. Club members will tour several of the city's social agencies.

Twelve members of the society and Mr. Robert Parke, faculty adviser will visit the Youth house in the Bronx, the Brooklyn House of Detention room for men, and the social service department of Bellevue hospital, with the guidance of Mr. Cleveland Lasseter, a social worker for the Lutheran Social Services of Metropopitan New York.

According to Parke, the major interest of the trip is in the Bellevue visit, not only because there are several pre-medical students making the trip, but also because it best illustrates conditions of social work in a large institution from all phases of New York.

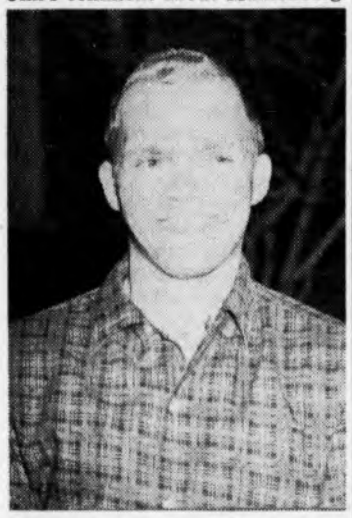
The Sociological society, originated in 1950, seeks to provide opportunities for the informal discussion of sociological problems among students interested in sociology.

## *Jim Piston . . .* IN THE NEWS

An economics major from Lansdale, Pennsylvania, Jim Piston is well-known on campus for his connections with student publications. He is past business manager of the **WEEKLY**, present business manager of the **Ciarla**, and Chairman of the Publications board. A social brother at Lambda Chi Alpha, he is also a past member of the Student council, vice president of the senior class; and a brother of Omicron Delta Kappa, honorary leadership fraternity, and Pi Delta Epsilon, honorary journalism fraternity.

Jim's after-graduation plans are rather indefinite at this point. Whether his immediate future will be in the business world or in the armed services will depend upon job opportunities, made less abundant to graduating seniors because of our current recession.

"College has been an invaluable experience . . . at any school" was Jim's comment about Muhlenberg.



As a member of the Class of '58, and, therefore, of the old "regime" of an all men's college, his comment about coeducation was that it has had "a very influential effect upon some. The girls will be integrated over a period of years." He seemed to feel that it is hard to evaluate the new program in one year "of what I have seen."

In addition to his being a "sports-in-general" enthusiast, he is particularly interested in the "development and progress of the human race," which, according to his comments about transition at Muhlenberg, must mean development and progress—over a period of years.

## Lutherans Organize Art & Music Society

During the recent Assembly of the Lutheran World federation in Minneapolis, several American Lutheran church musicians met to explore the possibilities of organizing American Lutheran musicians into a society which would further mutual interests and concerns. A widespread interest became apparent and the idea was encouraged by European church leaders. In November of 1957, a representative group of interested persons convened at the University of Chicago. It was agreed that a need has arisen for an association of Lutherans interested in worship and the arts, broad enough to include liturgies and church music.

As a result of these efforts, the Lutheran Society for Worship, Music, and the Arts came into existence. The purpose of this organization will be the study and promotion of Christian worship and its related arts in the Lutheran church.

The work of the organization will be carried on by means of commissions dealing with specific areas of worship, such as, architecture and acoustics, parish music, etc. At present the intersynodical society is working on plans for the first annual conference which will be held June 18-21 at the University of Minnesota at Minneapolis. Membership is open to all interested persons, annual dues being $3.00 for individuals, $2.00 for students.

## From Here And There

**by Stan Heim**

There are two sore spots on the Muhlenberg campus which have become increasingly evident the past few years. These malignancies are internal and with thoughtful doctoring they could be gradually healed. I'm refering to the relations of the social fraternities with each other and the debility of campus clubs and organizations which are threatened with further weaknesses by the influx of upstarts of some newer organizations.

Both of these problems have a conditioning effect upon each other. Since space will not allow, however, I shall confine this week's column to the former and next week's to the latter.

**Decline of Fraternity Life**

We have seen the gradual decline and dimunition of fraternity life and power on this campus. Muhlenberg should have no difficulty supporting six fraternties, but nevertheless it does.

It is apparent that the administration is not in favor of a strong fraternity system. In the past, they have taken advantage of every opportunity to restrict any sovereignty which the system might have. Instead of acting as a united group for the mutual benefit of each member, the fraternities are continually bickering. Whenever one fraternity has an opportunity to shaft another, it does so with relish and heaps salt upon the wound.

**Affectionate Endearments**

Particular houses on campus have been tagged with such affectionate endearments as, "The Little House with the Big Heart" and "The Little House with the Big Pockets" and the "Big House with the Big Mortgage." Now, if these affectations were used jokingly instead of euphemistically, they would be humorous, but they aren't. They are used maliciously and with scorn.

An excellent example of this cooperation has just appeared before IFC. A fraternity has been accused of having girls in the house after a deadline, and supposedly the informers are members of another fraternity. In answer to this, I can only say—when are the fraternity men going to use that lump on the top of their shoulders for something more than pouring beer down their gullets and kissing girls?

I think it is completely abhorrent and ridiculous that the administration, with their regulations, should have anything to say about the conduct of fraternity affairs. This is a denial of the college student's ability to act with responsibility, and because of this denial, fraternities have often acted accordingly. I think we should set complete academic control and very begrudgingly compulsory Chapel attendance, but regulations of social life—no!

## *Au Côté des Femmes*

**by Jan Horvath**

One professor has evaluated the coeducational hazards to education. The greatest hazards to this professor are tripping over a purse strap as he walks down the aisles or stepping on the hem of the coed's flared skirt as he trails her down the steps.

Edwina Heil was a little surprised when she telephoned West hall the other evening. Getting the connection she asked for her party. After waiting only a few seconds, Edwina heard a male voice answer, "Hello." Her only reply was an astonished, "What are YOU doing THERE?"

Along with the summer clothes that are now now being worn about campus, the girls are sporting bermuda shorts. As a result of the new ruling passed by the Women's council on Tuesday evening, bermudas may be worn on campus till five o'clock, Monday through Saturday. But these bermudas are not to be worn in the Administration, Science, or Library buildings. There is good reason for this, as was proven through the trial and error method at one of the larger universities. At that school bermudas were worn to classes until the administration found them too "distracting" in the classroom.

This ruling was made as a convenience to the girls during the warmer spring weather. This fact plus the fact that such a ruling is unthought of at most coed schools should impress upon the girls the necessity of using this privilege discreetly.

This Friday in the Commons the freshman class will hold a variety show and dance. The entertainment will begin at eight o'clock and the dance will follow at about nine. The theme will be a western saloon and the decorations will follow this theme. The program will consist of separate skits from West hall, East hall, and the commuters. The class is hoping for a large turn-out and expects to see all the coeds attending. (Upperclassman will be allowed to sneak in.)

If you answered "No" to all questions, you obviously smoke Camels – a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to *enjoy* smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco gives you the best smoke. Try Camels and you'll agree!

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

**Have a real cigarette – have a Camel**

# Sports in Short

by Ben Livingood

Congratulations to coach Bill Flamish and all those members of the track team who helped organize and run off Muhlenberg's first intramural track meet. The meet was a great success. Seven teams entered, and each group showed a great deal of enthusiasm. The event was well organized and moved along very smoothly. The idea of awarding medals served as a good incentive. The enthusiasm of all the participants and onlookers was overwhelming. Coach Flamish can be more than satisfied at the results of all his labors. The response definitely merits the repetition of the event in years to come.

* * *

Enthusiasm is not only true of intramural sports this spring, for the spirit is high in all of Muhlenberg's spring sports teams. The golf team is off to a very fine start, disposing of its first two rivals, Albright and Moravian, with exhibitions of outstanding links play. Jack Pfeiffer, Russ Bleiler, and Sid Gamberg have turned in two good performances, but the other members of the team cannot be overlooked. The results of the first two matches give hint of a most successful campaign for the Mule golfers.

The baseball team doesn't boast the best of records, however, it is improving with every game. Before criticizing the diamondmen too loudly, one must consider they have met some of the toughest competition they must face this year in the first few games of the season. Considering the teams they have faced, the record is more than satisfactory. Coach Jim Kozlowski stated his pitching is beginning to come around, and, with the exception of the Gettysburg game, the hitting has been fine. There is also room for improvement in defensive play. "We have allowed too many unearned runs," Kozlowski stated. If the improvement continues to progress, a winning season is conceivable, Kozlowski feels.

As far as track is concerned, the picture is far from dim. The turnout this year was one of the best in years. Although the team may not finish with a winning record, the abundance of underclassmen gathering experience shows promise for future years. The performances of such individuals as Jerry Rehrig, Ben Schoellkopf, and Chuck Weider have been commendable. Best wishes go to Pierce Knauss, Ron Sussex, Dick Lewis, and Bob Sabol when they compete in the Penn relays in Philadelphia this weekend.

* * *

In case there is any question concerning the interference call against catcher Dave Hoover in the baseball game at Gettysburg on Monday, Coach Kozlowski has admitted that the call was justifiable. He said the umpire didn't know what to call it at first, but as it turned out, the call he finally made was the right one. Such a call could not be protested regardless of how wrong it was because the umpires were not assigned by the ECAC (Eastern Collegiate Athletic conference). Each team secures its own umpires, therefore, any protest would prove fruitless. It may be felt that the umpire responsible for the game-deciding call was not of the highest calibre. However, it was discovered later that he is a former American league official. He should know his business.

# Baseball Team Hosts Moravian In Sixth Game

by Carl Shellenberger

Muhlenberg's baseball team will play host to Moravian on Saturday. This year the Greyhounds will field just a mediocre team. The same can be said for Muhlenberg, so this game will prove to be a closely played contest. If the Mules' pitching holds up, the Berg nine should come out on top.

Following this contest with Moravian, the Muhlenberg team journeys to New Brunswick, New Jersey to take on Rutgers. Muhlenberg's baseball series with Rutgers began back in 1922. At present Rutgers holds a two game winning streak over the Mules. This will be the first time the two teams have met since 1929.

**Weaker Squad**

The Rutgers team this year will be one of the weakest they have had in quite awhile. This weakness is due to the lack of three things: pitching depth, power at the plate, and experience. Only one senior, third baseman Bill Whitacre, has been playing regularly. Only one .300 hitter returns to the squad from last year. He is shortstop Hank Goin who barely made the magic figure with a .304 mark.

Coach George Case's pitching staff lacks depth and experience. His best prospect is lefthander Paul Tootleman who last year fanned forty-seven batters in thirty-nine innings. Still he only managed to win one game while dropping four. Rutger's number two pitcher by this time is probably, Bill Wolff, who is untried in varsity competition, but looked good as a freshman last year.

**Starting Juniors**

Catcher Bob Hoffer, outfielders Bill Hopwood and Norbert Smith, and second baseman Bruce Webster are juniors who must do better than in 1957, if Rutgers is to win. Hoffer is fine defensively, but fell below expectations with a .262 batting average last spring. Last year Hopwood and Webster were reserves who now are tabbed for regular duty, while Smith was a regular he hit an anemic .146.

# Yost's 25 Paces IFT Victory In First Intramural Track Meet

Muhlenberg's first intramural track meet was held Tuesday, with seven teams represented in the events. The meet itself was well received by those who saw it and keen competition marked the activities. When the final tally was taken the "social fraternity" IFT was declared the victor with 48 points. Holding down second place was ATO with 40, while LXA took third with 29. Other teams entered were SPE and the Schmeckels with 15, PKT, 7, and PEP, 5. IFT, a newcomer to intra-mural competition, took the lead in the first event and remained there for the duration of the meet.

**Yost Triumphs**

Ed Yost won the 100 yd. dash for IFT with a time of 10.7. He was followed by teammate Jim Hoffert and Bob Nuss of ATO. The 440 yd. dash was won by George Reeves, representing ATO. Tom Wargo of SPE placed second while Jack Young of LXA came in third. Yost gained his second of three first places as he won the discus, with Len Woodell of the Schmeckels and Carl Shellenberger of ATO taking second and third respectively.

Phi Tau's Ron Dungan took the 880 yd. run with a time of 2:21. Following Dungan across the finish line were Bob Butz of ATO and IFT's Bill Higgins. It was Jim Hoffert of IFT who broke the tape in the 220, with ATO's Bob Nuss and Jack Young of LXA close behind. Yost gained his third victory for IFT when he tied Don Robbins of LXA in the high jump. Bob Katreider of SPE placed third behind the winning jump of 5' 3".

**Shot Put To Woodel**

The Schmeckel's Len Woodel captured the shot put with a heave of 42' 2". Ed Yost placed second while Asher Krafchick took third. The mile run was won by ATO's Wilson Gum. Bob Glassmeyer of IFT was second and LXA's Paul Clymer took third. LXA received six points when Jim Piston captured first place in the broad jump. IFT's Yost took another second in this event while Dick King of SPE placed third. The final event of the afternoon was the half mile relay. ATO won this event with the Schmeckels taking second and LXA third. IFT looked as though they would win this event also as they took an early lead but when the third man fell, ATO pulled ahead. The ATO team consisted of Will Gum, Bob Nuss, Dave Krewson and George Reeves.

The outstanding performer of the meet was IFT's Ed Yost who scored 25 points with three first and two seconds. His teammate Jim Hoffert and the Schmeckels Len Woodel were second with ten each while ATO's Bob Nuss had nine. IFT, which represented the third floor of Martin Luther hall, thoroughly dominated the meet and are to be commended for their efforts.

**SUMMARIES**

**100 yd. dash**—1. Yost (IFT), 2. Hoffert (IFT), 3. Nuss (ATO), 4. Heard (IFT), 5. Gougher (SPE). Time: 10.7.

**440 yd. dash**—1. Reeves (ATO), 2. Wargo (SPE), 3. Young (LXA), 4. Gougher (SPE). Time: 58.0.

**Discus**—1. Yost (IFT), 2. Woodel (Schmeckels), 3. Shellenberger (ATO), 4. Belschwender (LXA), 5. Carpenter (ATO). Distance: 122' ½".

**880 yd. run**—1. Dungan (PKT), 2. Butz (ATO), 3. Higgins (IFT), 4. Heard (IFT), 5. Peoples (Schmeckels). Time: 2-21.

**220 yd. dash**—1. Hoffert (IFT), 2. Nuss (ATO), 3. Young (LXA), 4. Reeves (ATO), 5. Gougher (SPE). Time: 24.2.

**High jump**—1. Yost (IFT), Robbins (LXA), tie, 3. Kaltreider (SPE), 4. Chapli (PEP), 5. Schumacher (PKT) Height: 5' 3".

**Shotput**—1. Woodel (Schmeckels), 2. Yost (IFT), 3. Krafchick (PEP), 4. Young (LXA), 5. Schellenberger (ATO). Distance: 42' 2".

**Mile run**—1. Gum (ATO), 2. Glassmeyer (IFT) 3. Clymer (LXA), 4. Robbins (LXA), 5. Waller (ATO). Time: 6:16.

**Broad jump**—1. Piston (LXA), 2. Yost (IFT), 3. King (SPE), 4. Nuss (ATO), 5. Krewson (ATO). Distance: 18'.

**Half mile relay**—1. (ATO), 2. Schmeckels, 3. LXA, 4. IFT, 5. SPE. Time: 2:17.

# In the Sportlight . . .

## Dreskin, Pfeiffer Aid Baseball, Golf Teams

SANDY DRESKIN

Starting off at third base on the baseball team this year has been Sandy Dreskin, a senoir from South Orange, New Jersey.

While attending Weequahic high school in South Orange, Sandy also participated in football where he played guard. On the baseball team he was a catcher and has successfully switched to the "hot corner," while attending Muhlenberg. He has also played second base.

**Physics Major**

Sandy is a physics major and after receiving his B.S. degree this June, he plans to work as a physicist. Some of his activities at Berg include soccer, the Science club and Tau Kappa Epsilon social fraternity.

Sandy feels, "the team has good prospects this year because the team has more material on it than it has had in the four years that I have been here."

One of the deciding factors in the two victories for the Muhlenberg golf team has been Jack Pfeiffer, a junior from Corry, Pa. As the third man on the team, he has racked up 5½ points out of a possible 6, and has had a 79 score on both occasions.

JACK PFEIFFER

Jack attended high school at Corry and played two other sports in addition to golf. He played halfback on the football team, played on the basketball team and has also played American Legion baseball.

**Businessman**

Jack is a business major and after graduation he hopes to follow the field of business management. His activities at school include intramural sports and the Varsity "M" club.

In high school, he came in second in the district championship in golf and was fifth in the state tournament. Last year he was Club champion at his local golf course, Corry C.C., and in previous years he had been junior club champ. At a Pittsburgh golf course he holds the 9-hole record of 29, a six-under-par score.

When asked about the team's prospects, he said, "The team should do very good this year because everyone is hitting the ball well, and because of the new coach who knows a great deal about the game and has been very helpful to the team."

## Dorm Council

**Students who wish to serve on next year's Dorm council should apply in the office of the Dean of Men.**

# Dutchmen Defeated; Blue Hens Victorious

by Mel Kessler

The Muhlenberg baseball squad gained its first victory of the young season by defeating Lebanon Valley college, 9-6, in an abbreviated six-inning game played Wednesday, April 16th at Annville. However, the following Saturday the story was completely different as powerful Delaware dealt the Mule diamondmen a thumping 7-1 defeat.

In the Lebanon Valley contest, the Mules' offensive power was supplied by outfielders Mike Wooley and Ray Croft, who accounted for six hits and seven runs batted in, between them.

**Higgins Gets Win**

Bill Higgins went four innings for the Bergmen and was credited with the win, although giving up six runs in the sloppily played game. Tony Caporale replaced Higgins after the latter had been pulled for a pinch-hitter in Muhlenberg's four-run fourth inning. Caporale blanked the Flying Dutchmen the rest of the way, preserving Berg's first victory of the year.

Three days following their triumph over the Annville collegians, the Mules were handed their second setback of the campaign. Competing against a powerful Delaware university team which had won 10 straight contests against such teams as Duke and North Carolina, after an initial loss to Wake Forest, the Mules bowed 7-1.

**Takacs Goes Distance**

Charlie Takacs pitched the full game for Muhlenberg thus becoming the first pitcher to do so against the hard-hitting Blue Hens this season. Takacs held Delaware to three unearned runs during the first seven innings. However, the lean right-hander weakened in the eighth, giving up four runs on five hits.

The Mules mustered their only run of the game as Bob Pearsons singled with the bases loaded in the ninth inning to drive in Dave Hoover. The game ended a moment later as Ray Croft was thrown out at the plate attempting to score from second base on Pearson's hit.

**Bacher Undefeated**

For Delaware, Jerry Bacher picked up his fifth consecutive win of the season thereby remaining undefeated. The hard-throwing southpaw struck out 10 men and didn't issue a single base on balls.

Dave Hoover and Sandy Dreskin sparked afield for the Mules. Hoover also gained two hits.

## Leopard Tennis Team Shuts Out Mules, 9-0

Muhlenberg's tennis team was blanked by Lafayette, 9-0 in its opening match of the season last Friday at Easton.

Coach Bill Keubler's netmen, led by Dave Williams, Tim O'Donnel and Captain Bob Schmitz scored their second shut-out of the year, previously blanking St. Joseph's at Philadelphia. Williams and O'Donnell each picked up his fourth straight victory and Schmitz won his third straight for the Leopards.

**Clean Sweep**

Lafayette's Schmitz defeated the Mules' number one man, Bob Leighton in straight sets, 6-0, 6-0. This set the stage for the remaining matches. Steve Feller proceeded to club Harry Berg, 7-5, 6-4. The closest match of the day was beween Berg's Frank Csaszar and Tim O'Donnel. Csaszar won the first set, 6-3, but then O'Donnel came surging back to defeat him 6-3, 8-6. Jim Murphy of Lafayette defeated Roger Christine, 6-2, 6-2; Dave Williams beat Ken Stewart in straight sets, 6-2, 6-4; and in the final singles contest, Bob Katona finished off Gil Sopher, 6-4, 6-4.

**Doubles Competition**

In the doubles competition it remained the same story, for Muhlenberg's number one combi-

# Disputed Interference Call Gives Gettysburg Win Over Berg, 7-4

Last Monday Muhlenberg travelled to Gettysburg, Pa., where a disputed interference call against Berg's catcher Dave Hoover, enabled the Bullets to break a deadlock and go on to win, 7-4.

Coach Jim Koslowski's nine had led throughout after jumping into the lead, 4-1, with three runs in the fifth. Pat Wilson beat out an infield hit to open this frame, and moved to second as Hoover was nicked by a pitch. Ray Croft then walked, filling the bases, and Mike Woolley followed with a single to right, scoring Wilson and Hoover. Jim Nonnemaker, the next batter, struck out then Croft scored from second on two wild offerings from Gettysburg's starter, "Bucky" Walters.

**Disastrous Inning**

In the bottom of the eighth, footballer Frank Capitani, who had four for five and three stolen bases to his credit for the day, opened with a triple to center. Left-fielder Leroy Bream then attempted a squeeze-bunt, but the home-plate umpire ruled that Hoover had tipped Bream's bat. The Mules claimed in vain that Hoover had touched the bat after the ball rolled foul, but the decision was not changed. As a result, Bream was awarded first, and Capitani was called in from third.

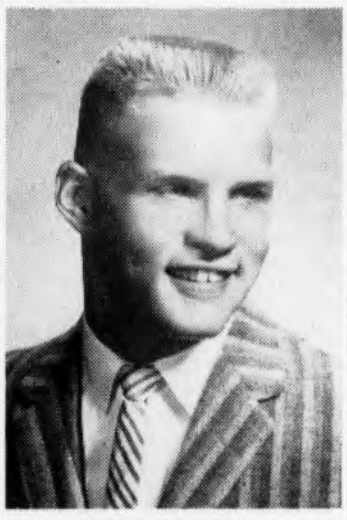
When play was resumed, third-baseman Harry Liedel walked and catcher Jack Maloney reached first, loading the bases, on a fielder's choice. Shortstop Jerry Long climaxed the rally with a safety that scored Bream and Liedel, and which clinched the victory for the Bullets.

**Seven Straight**

"Bucky" Walters, son of the former Cincinnati Redleg great, went the distance for the victors who have now won seven in a row after a setback in their opener. In winning his second against no defeats, Walters yielded four runs, two of which were unearned, on five hits, striking out six and walking five.

For the Mules, junior Bill Higgins absorbed the loss, his first, against one victory. He gave up four earned runs on 10 hits, striking out nine and walking seven.

# Outstanding Northampton Athlete Will Attend Berg



Charles Kuntzleman

Muhlenberg's freshman class next fall will include one of the most outstanding athletes in the area. He is Charles Kuntzleman, star halfback at Northampton high school. Kuntzleman climaxed a four-year stint with the Koncrete Kids last season by scoring 16 touchdowns to lead his club to its 15th Lehigh Valley league football championship. His brilliant ball-carrying won him a spot on the Lehigh Valley league all-star team.

The versatile youngster also rates as a top track and wrestling performer. In track his specialties are the 100 yd. dash, the 220 and the 440. In his sophomore year he captured first place in the 220 in the Lehigh Valley league championships. In last year's league championships, he copped firsts in the 220 and 440, and also won the Lehigh Valley district title in the latter event. Last winter Kuntzleman campaigned in the heavyweight division as a wrestler, and copped a fine season by going all the way to the finals in the Lehigh Valley district championships before being stopped by Bethlehem's Bill Werst.

**Good Student**

The Northampton Whiz Kid knows his way around in the classroom, too, sporting a B average in college prep work, and ranking in

(Continued on Page Six)

# Freshman Team Looks Forward To Good Year

Response for a freshman baseball team has been good. There are currently 14 men trying out for positions on the frosh squad which will play a possible four or five-game schedule.

Lack of depth in the pitching department seems to be the only weakness, according to coach Joe Federico. The infield is strong and the hitting has shown great promise. The outstanding pitcher thus far in practice is Don Nicol.

In the infield, Federico is depending on Tom Wargo at shortstop, Ray Diamond at third, Ken Davis at second, Jim Pierson John Simpson and Ron Druckenmiller at first, and Preston Moritz, who is capable of filling just about any infield spot.

**Catchers and Fielders**

The candidates for catcher are Glenn Balliet and Marty Renshaw. Bob Butz, Art Naugle, Vince Rosso, and John Groom are battling for starting berths in the outfield. Another outfield prospective, Robert Petersen, suffered serious injury and may be lost for the entire season.

Coach Federico stated he will switch men at different positions, giving everyone a chance to play.

The only definitely scheduled game is with Lehigh on May 13 on the Muhlenberg diamond. The freshmen will also play two games with Lafayette, but the dates for those contests have not as yet been determined. In addition, they will play a team formed by the M-club, and several practice games with the varsity.

Why the man who hires you will ask if you own life insurance:

When you apply for a job, one of the questions usually asked is, "Do you own life insurance?"

A well-known personnel director explains it this way. "We always ask whether a man has life insurance, and we ask how much he owns. Why? Because the answer gives us a pretty good idea whether the fellow is well-organized, is handling his financial affairs wisely, and planning for both his own and his family's future.

"If we find a man with a wife and two small children and a thousand dollars of insurance, we wonder why he's taking such long chances."

This shows one reason why so many young men today are making Lutheran Brotherhood life insurance a basic part of their financial planning. Lutheran Brotherhood—with low-cost plans such as the Brotherhood Provider—makes it easy to avoid the risk of putting a severe burden on your parents, family or dependents. The low cost also makes it easy to start building your insurance program right now while still in college. This means you can have full protection throughout the years of heaviest family responsibilities, and then at retirement *get back every premium dollar, plus a substantial gain on your investment.*

Talk to your Lutheran Brotherhood representative about the advantages of beginning your insurance program early, when the rates are lowest—or write for details on Lutheran Brotherhood policies.

**Free Upon Request.** Beautiful full-color reproduction of the Reformation Window at right. Complete with historical legend. Large size (18" x 24"). Heavy stock, suitable for framing. Mailed in tube. No obligation, of course. Send your name and address today.

# . . . Student Council Report . . .

April 17, 1958

The regular meeting of the 1958-59 Muhlenberg college Student council was called to order at 7:00 p.m. by President Richard Truchses. All members were present.

**TREASURER'S REPORT:**

| | |
|---|---|
| Student Body fund | $1,926.97 |
| Social fund | 1,332.21 |
| Assembly fund | 1,219.77 |
| | $4,478.95 |

On motion by Mr. Smith and Mr. Carpenter, normal business was suspended to hear the the appeal of Mr. Holcroft's fine.

On motion by Mr. Markoe and Mr. Tuchinsky, Mr. Holcroft's fine was revoked.

Return to normal business.

**COMMITTEE REPORTS:**

**Elections:** Mr. Nase announced that nominations for class officers will close on Thursday, May 1, 1958 at 5 p.m. Elections for the officers will be held from 9 a.m. to 4 p.m., Wednesday, May 7, 1958 in the Student Union building. Acceptance of nominee must be placed in the suggestion box before 5 p.m., May 1, 1958.

**Student Union:** Mr. Carnevale was appointed by Pres. Truchses to see if some changes could be made in the rules pertaining to the use of stocks in the library and deportment of students using the library.

**Chapel:** Miss Schell reported that there were ten Chapel slips revoked during the previous week. Students are expected to conform to the conduct prescribed in the "M" book.

**Resolution by Mr. Miller**

BE IT RESOLVED: That this Student council go on record as unanimously reiterating the policy of the previous Student council's Chapel committee chairman and that the present Chairman of the Chapel committee be given the full backing of this Student council and that she be given full authority in the conduct of Chapel affairs.

**Budget and Finance:** Mr. Tuchinsky, reported that Mr. Stuttman was in need of an additional $10.00 for the Jazz concert deficit. The additional $10.00 is to be taken from the Assembly fund.

**Special Committee report:** Mr. Smith, Mr. Nase and Mr. Truchses formed a committee to study the position of Alpha Phi Omega. Mr. Smith reported that there were seven points in question. After some discussion with Mr. Chabrow and Mr. Grieb the points in question were clarified. It was the opinion of the committee that the Alpha Phi Omega fraternity would be an asset to the Muhlenberg campus.

Motion by Mr. Horger and Mr. Smith to approve Alpha Phi Omega on Muhlenberg campus. Unanimous vote.

Miss Schell was informed that the new Council will be open to receive a request on Women's Dorm visitation.

**Correspondence:** Mr. Carnevale was instructed by Pres. Truchses to write a letter to Nu Epsilon Lambda informing them that they have not received approval from Student council and they are not permitted to meet on campus.

**OLD BUSINESS**—None

**NEW BUSINESS:** Student council banquet will be held at the Lehigh Valley club on June 6, 1958. All members of Council are invited to attend. All interested members contact Mr. Skweir.

The Freshmen class petition for additional parking space was reviewed and discussed. On motion by Smith and Carnevale, Mr. Truchses was appointed as spokesman for the Council. Mr. Truchses will meet with President Conrad Seegers on Monday, April 21.

The meeting was closed at 8:35 p.m. on motion by Mr. Nase and Mr. Carpenter.

Respectfully submitted,
DAVID K. BAUSCH, Recording Secretary

## Tennis Match

(Continued from Page Five)

nation of Berg and Leighton were dumped by Schmitz and Murphy in straight sets, 6-2, 6-2. Katona and O'Donnel defeated the Mules' Csaszar and Christine, 6-3, 7-5. In the final match of the day Bob Dilworth and Williams of Lafayette defeated Ron Behrle and Brent Follweiler, 6-1, 6-1.

On Thursday, Dr. Shankweiler's courtmen, who are now 0-1, meet Lehigh at home. Lafayette is now 3-1 on the season.

## Graduation Invitations

**Seniors who wish to order graduation invitations, are urged to contact Roger Keehn as soon as possible, in room 105, Martin Luther hall. The deadline for orders is April 25.**

## The Chowline

Last week, the Snack bar was faced with a major catastrophe. With all the talk about "refreshing" cokes and so forth, the seltzer machine decided to sit down on the job. For almost a week, the beverage line was limited to coffee, iced tea, milk, and a few other liquids (some recently invented by Simon Legree Eberhard).

The most significant result of this disaster was the shift from coke to tea. Now, students are taking the thirty day mildness test—tea for thirty days. The question remains—Will they go back to coke? It appears that Coca Cola is facing a national crisis. . . . when Muhlenberg switches to tea, everybody switches to tea!

According to the latest calculation, there are only twenty one more days of school in the semester. This means that the Snack bar crew will burn themselves out during the moments of trial and error experienced at the time of final examinations. Term papers are also coming due and that means extra hours of service while students pore over their final proofs.

So, if you have been studying and the tension starts to take its toll, take a break. Drop into the Snack bar and refresh yourself, release those tensions, and refuel for the next gruel, with a delightful iced tea (or coke—the machine is now in operation.)

**Adv.**

## Freshmen Sponsor Variety Show Mixer

A social mixer, sponsored by the freshman class, will be held on Friday at 8 p.m. in the college Commons. The program will begin with a variety show, followed by a record dance.

Friday's dance will be the second such function sponsored by the freshman class this year. The variety show, however, is a new feature. It will be presented by co-eds and male students, and will include two skits, a fashion show by the men, and a few musical selections. The entire event will center around a Western theme. The decorations committee is working to convert the dining hall into an old saloon. Refreshments are being taken care of by a third committee.

General chairman of the event is Doug MacGeorge. Working with him is Jan Horvath, chairman of the program committee. Decorations and refreshments are being handled by two committees. The expenses are being taken care of by an allotment from the freshman class treasury.

The only thing not in conjunction with the Western atmosphere will be the attire of the freshman students. The coeds in attendance will be expected to dress as they usually do for dinner.

## ODK Project

(Continued from Page One)

pa has sponsored a faculty evaluation, which was administered to the entire student body during the 1953-54 academic year. Students were not required to sign the questionnaire and the forms were returned to the instructor being evaluated.

## Hillel Hears Local Rabbi

Last Sunday evening, April 20, the area Hillel met in the Student Center Lounge. Approximately 35 members were present to hear Rabbi William Greenberg of Temple Beth-El speak on mixed marriages. The Rabbi began with marriage itself, a state instituted by the Holy One Himself for the mutual comfort of a man and his wife and for the procreation of the race. Since its origin is divine there can be no taint of sin associated with the sexual act in itself, though of course it can be and often is misused. Therefore matrimony is no mere social contract. Divorce is however permissable, and Judaism has laws especially for the protection of the discarded wife.

It is difficult enough, said Rabbi Greenberg, for two people to live together. Serious differences in economic or educatoonal backgrounds invite conflict. Worst of all, religious differences can prepare the way for chaos, and especially among the children.

and economic consultant in Athens and as a research analyst for the Bureau of Business and Economic Research of the University of Miami. He was also affiliated with the Bethlehem Steel company.

He holds a diploma of Honor from the Greek government for research work on population as well as a Meritorious Medal for bravery in action while serving with the Greek Army. He also has made numerous scientific contributions to Greek magazines and newspapers.

## Charles Kuntzleman

(Continued from Page Five)

the top third of his class. He has been the president of his class for the past three years, and is a member of the editorial staff of the school yearbook, with the sports section his responsibility. He recently won first prize in Northampton's annual speaking contest. History is Kuntzleman's favorite classroom pursuit.

When he comes to Berg next fall, he will join his sister, Jayne as a member of the Muhlenberg student body. Like her brother, Jayne plays a prominent part in school affairs, having just completed a term as president of the women's council.

Charles and Jayne are the children of Rev. and Mrs. Walter Kuntzleman of Bath.

## Frosh Term Papers

(Continued from Page Two)

snuff a candle at a hundred paces and could group its shots in a seven-inch circle at 250 yards." As to the muskets used by our British cousins, " . . . it took a platoon voley at ten paces to kill a steer."

**Precedent?**

In view of the attitude with which most students view freshman English, Pi Delt's contest comes as a much-needed incentive. Although the thought of education through bribery may seem repulsive, the spirit of competition could, in the future, take much of the drudgery out of compiling a research paper.

**All students interested in studying the Russian language are urged to contact Dr. Brunner in the German department.**

## Albright And Wilkes Test Mule Courtmen

Muhlenberg's tennis squad swings into action this week against Albright and Wilkes, playing April 30 away and May 1, at Muhlenberg respectively. Albright, possessors of a sparkling 12-3 record last year and perenially a power in Middle Atlantic tennis, has already managed two wins in three outings this year. The Lions have defeated West Chester and Lycoming, dropping one match to Bucknell's Bisons.

Albright will have added strength this year in the person of Carl Litonsky, a letter-winner in his freshman year but ineligible last season. Litonsky, as number one man, is followed in the seedings by returning letterman Jack Reinhart. A newcomer, freshman Glenn Ruoss will play third singles. Co-captains Charles Sample and Ernie Firestone are both seniors and returning lettermen, and are ranked fourth and fifth respectively. Rounding out the squad in sixth position is Norm Bennett, a sophomore and a letterman.

**Wilkes Match**

Berg will play host to Wilkes, which is in its first full season of tennis competition, this Saturday. Wilkes is captained and coached by sophomore Ira Himmel of Passaic, N. J., who is also first man on the team. Their only match thus far this season resulted in a shut-out at the hands of Lycoming, which was in turn, a victim of Albright. Coach Himmel will make his selections from a group including seniors Bill Savitsky, Jim Henninghen, and Bill Duffy, juniors Jack Thomas, and George Ginader; and freshmen Bill Woll and Paul Bleiler.

## Borden Chosen IFC President For New Year

As a representative from Phi Epsilon Pi, social fraternity Don Borden was selected as Interfraternity council president on April 28. Assisting him are Peter MacWilliams, vice-president, Dave Farber, secretary, and Charles Seivard as treasurer.

One of Don's primary objectives in his new office is to improve fraternity relations with the faculty, coeds, and among the fraternities. He is also endeavoring to give IFC a more prominent position on the Muhlenberg campus.

**Donald Borden**

**Other Council Offices**

As the offices on the Council revolve from year to year, the role of vice-president was given to Sigma Phi Epsilon. Secretary and treasurer are represented by Tau Kappa Epsilon and Phi Kappa Tau respectively.

A member of the Junior class, Don Borden is also president of Phi Epsilon Pi. His other activities include Pre-Med club, Phi Sigma Tau, and sports editorship of the **Ciarla.**

Borden desires the support of all fraternity men in giving the IFC a more important and dynamic position on campus. This can be accomplished only through the unified effort of all fraternity men.

## Commuters Dance Open To All Students

The Ginger Sharkazy band will provide the music for "Melody in May," an informal dance sponsored by the Commuters club, to be held tomorrow night, Friday, May 2, from 9 to 12 p.m. at the Frolics Ballroom. The newly elected officers of the club have announced that all students of Muhlenberg, Cedar Crest, and the Allentown nurses' training schools have been invited.

Stags and drags will be admitted free of charge to dance to the music of Sharkazy, who has a regular local radio program and who plays at night clubs in the Lehigh valley.

**New Officers**

In recent elections, Dave Smith was reelected president of the club, and new officers were chosen as follows: vice president, Steve Seyer; treasurer, Pat Forschner; corresponding secretary, Alice Budner; recording secretary, Ann Fraley. Norm Wangman, social chairman, who is in charge of arrangements for the dance, has announced plans for a picnic in June, after exams.

## Fritsch Addresses Church

The Rev. Dr. Robert R. Fritsch, professor emeritus of English Bible at Muhlenberg, and a member of the class of 1900, will speak this Sunday at the Zion Evangelical United Brethren church. Donald B. Hoffman, Jr., Muhlenberg freshman, will render trumpet solos at the special service for Rally day.

Artz S. Lick, D.D., minister, has announced that the special service

(Continued on Page Six)

## *Truchses And Gallagher Honored At PP&L Dinner*

**William Gallagher and Richard Truchses meet with executives of the Pennsylvania Power and Light company, chairman of the board of directors Charles E. Oakes, and to the far right, vice-president for the Lehigh division H. M. Sheldon.**

Richard Truchses and William Gallagher, both recipients of Pennsylvania Power and Light company scholarships, were guests of the P.P.&L. on April 21 at its annual shareholders' meeting. Truchses, along with D. Edgar Hibsman of Lehigh university, spoke briefly on secondary education and thanked the stockholders on behalf of the 36 students holding company scholarships, 23 of whom were guests at the meeting.

This was the first attempt by the P.P.&L. to asemble all the students presently holding scholarships from the company. Each student was introduced to the stockholders by Charles E. Oakes, chairman of the board of the P.P.&L.

**All Fields Represented**

In introducing the students, Oakes noted that much has been written recently of the need for scientific technicians to launch the space age. "If we are to sustain our way of life," he added. "there can be no disregard of the need for highly-trained people in commerce, finance, medicine, religion, teaching, and all broad areas of the arts and sciences. The study of history, languages, literature, philosophy, and technical subjects must be advanced with equal zeal."

P.P.&L. was one of the first companies to undertake a program to aid independent colleges. There are two programs, one an agricultural fellowship at Penn State, and another under which the recipient may study in any field at any college or university in the P.P.&L. service area. Under the present arrangement, both the student and the college which he attends receive equal grants annually.

**Twenty-four Participants**

There are at present 12 agricultural fellows in the Penn State program, one of whom attended the stockholders' meeting. This is the first year that there are students in every class studying under the broader program. Each year six students from the P.P.&L. service area are selected to receive the four-year grants. There are now 24 students participating in this program. An outstanding feature of the plan is that this aid has not been restricted to technical fields, but encompasses all areas of higher education.

Truchses and Gallagher are both juniors at Muhlenberg. Gallagher, a physics major from Allentown, is station manager of WMUH, and a member of the Science club. Truchses is president of Student council and of Phi Kappa Tau social fraternity, and is active in band, choir, Lutheran Student association, Cardinal Key society, and several other campus organizations. He is a pre-theological student from Carlisle.

## Philip Jacob Defends Book

**by Glenn Davis**

Doctor Philip Jacob's controversial book "Changing Values in College," discusses the philosophy of the American college student and his relationship with society. The basic theme is that the college student of today takes an indifferent attitude toward everything.

The norms, or behavior patterns, of the college student are centered around this middle path. The student doesn't seem to care about the problems of the world, his family, or the religious group of which he is a member. It is true that the student has certain religious beliefs, but seems to take the path of indifference and does not apply religious principles to his living. The student seems to be more concerned about the prestige and social benefits that he will reap from his college education.

**Same Outlook On Life**

It does not seem to matter if the student is studying the social sciences or the natural sciences, he still has this same outlook on life. Doctor Jacob expresses the idea that social science courses are meant to sharpen the student's outlook on life related to his actions in society.

The central pattern of the study is to observe the student's behavior and the change of his values during his education. This includes the change caused by the curriculum, and the effect of the instructors upon the student.

One of the many conclusions that Doctor Jacob makes is that, "American college students today tend to think alike, feel alike, and believe alike. The majority seem to be turned out of a common mold, so far as outlook on life and standards of conduct are concerned."

**Appear on May 8**

Doctor Jacob will appear on the Muhlenberg campus on May 8, at 4 p.m. It is hoped that many students will attend this assembly program, and defend themselves as college students.

Dr. Dierolf, Dr. Lohr and Dr. Smart did the work in procuring the speaker for this assembly. Their aim is to draw some of Muhlenberg's better students into college teaching. Dr. Smart is the president of the chapter of American College Professors association on this campus.

## Philosophy Fraternity Elects Walker Prexy

Phi Sigma Tau, national philosophy fraternity, held its annual elections last Thursday, April 24. Elected as officers for next year were: David Walker, president; Stanley Schabert, vice-president; Harold Baer, secretary; and Edward Meyer, treasurer.

Following this year's policy, the fraternity plans to consider one major question: "Is there more truth in art than in science?" The topic is suggested by Alexander's **Aesthetic Idealism.**

The first semester program, "The Metaphysical Grounds of Science", will consider the contributions of representative thinkers from the Pre-Socratics to the modern scientists who have become "firmly grounded on the principle of uncertainty."

The program for the second semester, "Towards a Defiintion of Beauty", will be a general study of aesthetics including classical and contemporary art forms from music, literature, and the plastic arts. Purposing to question modern unintelligibility, the program will be open to all.

## Contest Nears End

An Art Contest sponsored by the Muhlenberg Christian association will be held for the amateur artist who is a student at Muhlenberg college. Although the theme of the contest is some phase of religion, almost any style can be used since all forms of art can be considered religious. Also any medium can be used.

So far, works of art have been

(Continued on Page Six)

## Robin Schlunk Named Receiver Of Scholarship

Robin R. Schlunk, a senior at Muhlenberg college, has been notified this past week that he is the recipient of the Taft Memorial Fund fellowship to the graduate school of the University of Cincinnati in Cincinnati, Ohio. This scholarship is given to students in liberal arts colleges in an effort to aid and encourage men and women to enter into the teaching profession and it amounts to $1,000. At the University of Cincinnati, Robin plans to continue his studies by majoring in Latin and possibly minoring in Greek.

**Robin Schlunk**

A native of Philadelphia, Robin has majored in Latin here at Muhlenberg for the past four years and will graduate in June with a Bachelor of Arts degree. He has consistantly achieved dean's list honors besides belonging to several honorary fraternities and several campus organizations.

**Many Activities**

He is president of Eta Sigma Phi, Muhlenberg's chapter of the national honorary classical language fraternity; he is vice-president of Phi Sigma Tau, the campus philosophy fraternity; and he is at present a member of Phi Sigma Iota, our chapter of the national Romance language honor society.

(Continued on Page Six)

## Dr. W. H. Brackin Calls Meeting For College Teaching Aspirants

Following a discussion at the faculty meeting on March 6, on the Committee of College teaching, Dr. Walter H. Brackin, chairman, has asked that all students interested in teaching in the psychology field meet with him on May 13 in the Conference room of the Administration building at 3 p.m.

This committee, which was formed to encourage prospective college teachers in their respective subjects consists of Dr. Swain, History; Dr. French, Education; Dr. Stenger, English; and Dr. Wilbur, History. These professors will act as a clearing house for information on scholarships, and any other information that a college teacher might need. To do this, mimeographed statements will be sent to all members of the faculty indicating the sources of information and materials available, and regular meetings with these interested parties in order to further teaching as a career.

**Teaching Experience**

The various departments provide opportunities for actual teaching experience under a member of the faculty, which will serve as subject material covering more than one class session. This program, which encompasses all classes, including the seniors, is in close touch with the Danforth Graduate Scholarship, and Woodrow Wilson Scholarship committees, and is endeavoring to reactivate a committee on the Rhodes scholarship, since none is functioning in that capacity at present.

Dr. Brackin has expressed the hope that all students interested in teaching as a profession will take advantage of the opportunities opened by the formation of this advisory group, and that the scholarships available to this faculty organization will find the maximum number of applicants from the student body.

## Teke Officers Elected For Coming Semester

Officers of the Zeta Eta chapter of the Tau Kappa Epsilon social fraternity were elected recently and began their terms at a meeting of the brotherhood on April 22. Don Rothfeld, junior pre-med, will lead the fraternity as prytanis for the coming year.

Serving with Rothfeld will be Alan Kaplan, epiprytanis; Irving Berkowitz, grammateus; Thomas McCabe, crysophylos; Gene Kern, histor; Peter Schwartz, hypopheres; Richard Weller, hegemon; and Jay Salustro, pylortes.

Rothfeld is a resident of Hillside, New Jersey. He is a member of Hillel and of the Jazz club, and has achieved scholastic honors for every semester at Muhlenberg. Kaplan is a junior pre-law student from Paterson, N. J., and a mainstay of the Teke bowling team. Berkowitz makes his home in Philadelphia. He is a junior. pre-med, active in band, pre-med club, and the Chess club. McCabe, another pre-med from Philadelphia, is a sophomore. His college activities include the Pre-Medical club and the Forensic council.

Kern, a junior from Hillside, N. J., is a natural science major who has achieved scholastic honors and who participates actively in intramural athletics. Schwartz is new editor-in-chief of **Arcade** and a former member of the football team. He is a junior from South River, N. J.

(Continued on Page Six)

## College Offers Fall Courses To Allentown Nursing Students

Strengthened and expanded academic training for Allentown Hospital School of Nursing students will be inaugurated next September with the cooperation of Muhlenberg college.

The new program, announced Sunday by Dr. J. Conrad Seegers, Muhlenberg president, and W. J. Roberts, president of the Hospital association, calls for first-year nursing students to take all of their academic work in normal classes at Muhlenberg.

Student nurses, Dr. Seegers said, will have all the privileges of Muhlenberg students, will be recognized as members of the student body, and will receive full college credit for the college-level courses that will be required. They will, however, reside at the nursing school and receive all of their clinical instruction at the hospital.

**Augmented Courses**

Muhlenberg will augment its courses and add at least four faculty members to provide adequate instruction in accordance with its highly accredited standards. The courses will be open to all students and classes will be co-educational and integrated.

The expanded program will be offered students of the School of Nursing, Mr. Roberts explained, without any increase in the current three-year comprehensive fee of $325. The Nursing School fee, he said, will include tuition at both Muhlenberg and the hospital, board and room, uniforms, books and activity fees. The hospital will pay Muhlenberg for its services and the use of its facilities.

**Regular Berg Schedule**

About 70 high school graduates, all of whom have passed standardized tests, will be members of this fall's entering class at the Hospital School of nursing and all of them will take their first-year program at Muhlenberg. Their schedules, including holidays, and vacation periods, will conform completely with the regular Muhlenberg schedule.

Their academic schedule, comprising 28 hours of college credit for the year, will include three hours per week of English composition, three hours of psychology, four hours of human anatomy and physiology, and four hours of general chemistry. English composition will be a new requirement for the student nurses and the courses in all the other fields will be strengthened.

**Cooperative Institutions**

Muhlenberg, Mr. Roberts pointed out, long has enjoyed the highest academic rating and has gained a wide reputation for its science courses, particularly in the pre-medical field. Many members of the hospital's professional staff have taken their pre-medical courses at Muhlenberg.

They hailed the program, too, as "dramatic evidence" of what can be accomplished by making maximum cooperative use of the resources and experience of two community institutions.

**Normal Dress for Nurses**

Dr. Seegers said that Muhlenberg recognizes the pressing need for thoroughly trained nurses, and is "happy that it can blend its own experience in a rounded education with the experience and needs of the Hospital and its School of Nursing. We are more than happy to welcome these carefully selected girls to our campus and to our student body."

The student nurses will wear normal street dress when they attend classes at Muhlenberg. They

# Editorial Views——

## Open House . . . ?

It may seem trite to re-use last semester's term "double standards," but nevertheless, there are still several areas where the condition remains. In some cases it is necessary, in others, it undoubtedly goes to extremes.

The "extreme" which has played a predominant role in recent campus discussions is **the question of Muhlenberg women being allowed in fraternity houses.** This privilege has been extended only for houseparty weekends, in which case the presence of a chaperone eliminates the problems that could arise.

"Double standards" come into the picture when we find that women not attending Muhlenberg **are** allowed in the houses on weekdays until 10 p.m., weekends until 12 p.m., and Sundays until 10:30 p.m. Why does this inequality exist?

When certain members of the Women's council conclude that girls should not be allowed in fraternity houses unless chaperoned by a housemother or other official, **we presume that the danger** (in their eyes) **lies in the threat to the coed's reputation.**

This is certainly conceivable. When parents send their daughters to Muhlenberg, they want to be assured that responsibility will be taken by the College to protect them on this account. Any deviation from this policy would reflect heavily on the college community, and undermine the faith that parents have. By the same token, however, the actions of non-Muhlenberg girls make an equally important reflection on the college, although it may be in another sphere of the community. Why, therefore, is this precaution not taken on non-Muhlenberg girls?

**If non-Muhlenberg women can be trusted to retain the reputation of the school, then why cannot Muhlenberg coeds be trusted?**

One of the problems the College has encountered in the orientation of coeducation is that of breaking down barriers between men and women so there is a minimum of friction. **By making fraternities "off-limits" to coeds, we are, by no means, encouraging this orientation, and, in a sense, we are defeating our purpose.**

If we may say that college is a training ground for men and women to fit into society and assume certain responsibilities therein, a control such as the fraternity regulation deflates this entire statement. We have no chance to learn and practice responsibility, because the restrictions are placed on us before situations ever come into our hands.

## Provocative Problem . . .

Throughout the country a pressing and urgent problem is facing the institutions of higher learning. A steadily increasing number of high school students are annually applying for admission to the college of their choice, but the college facilities and faculty enrollment have not kept pace with this unprecedented surge of applicants. The result is that many very capable high school students are being rejected in favor of the more mentally gifted ones.

Evidence of this fact was brought to light at a recent conference of educators which was held in Philadelphia for the purpose of studying facilities to handle the record number of applicants for colleges. The conference was attended by the administrative heads of every college and university in the southeastern section of the state and many from other sections. The results showed that **approximately one-third of the qualified college applicants this year will be rejected, due to the lack of college facilities and accommodations.** This is a very distressing thought in lieu of the present emphasis which is being placed on education.

This places the college students of today in a very unique and enviable position. We who are able to reap the benefits of a college education, may not be able to give our own children the same opportunity if the college facilities are not expanded in order to keep pace with the increasing population.

College applicants who are presently being accepted and who will be accepted in the future, are those who have had high school courses in mathematics and science and English, as well as the humanities. Those who are satisfied with "skipping through" high school on the easier courses which require little or no outside preparation or homework, will be rejected at most colleges and universities.

It is therefore our obligation to see that our children enroll in the proper courses during their high school training and attain a high enough academic average in these courses so that they may have the same opportunities which we ourselves had. **In the future, college acceptance will not be as easily attained as it has been in the past.**

## We Goofed . . .

Last week's issue of the newspaper contained a lead story "Proposals On Parking Situation Directed at Reducing Problems." Throughout the article, statements were made saying that the Board of Trustees of the College were responsible for the investigating committee and the proposals which resulted from this committee. We are obligated to stand corrected on this mistaken printing.

First, to the Board of Trustees, the article was not written in an attempt to place public pressure on that body. On the contrary, it was misinterpreted by the reporter who wrote the story, and the "facts" were misconstrued in the transfer of information.

Secondly, giving credit where it is due, it was not the Board of Trustees who collected the information on the parking situation, but a group of diligent workers organized by Ken Booth, Jeff Kistler, and members of the freshman class.

The editorial staff therefore makes a retraction of the misprinting in last week's **WEEKLY,** and we **hope that we can encourage rather than discourage further progress on this pressing problem.**

# Variety Show Held In 'Palace Saloon'

**"Two-Gun" Cocheese (Idabelle Diaz) tangles with villainous Bluffalittle Bill (Deanie Waldeland) in a climactic scene from "Heimy's Hideaway," West hall's version of the American horse opera.**

**by Barbara Fretz**

It was back to the days of the Gold Rush for the Class of '61 on Friday evening. Tinkling gay nineties music of an old dance hall piano greeted the visitor to the colorful "Palace Saloon" (known to those of little imagination as the College commons.) Although the swinging doors opened early, the crowd didn't begin to mosey in until about eight-thirty—just in time to pull up a stool and watch the floor show.

To begin the entertainment, Marge Sos, the Palace's hostess for the evening, called on five of the "boys" to welcome the people. (Too bad that the letters spelling "Hello" got scrambled.) A vocal solo by Doris Gack, "The Serenade of the Bells," created an atmosphere of the old western mission town. Bill Bergey chose his vocal selection from the music of the south as he sang "Old Man River."

**Nickleodeon Melodrama**

The old west came to life in all its hilarious glory as several stars of the flickering motion picture of the nickleodeon era recreated one of their best productions, "Heimy's

**Bill Bergey sings "Old Man River" at the Frosh gathering in the "Palace Saloon."**

Hideaway," a melodrama in two acts.

Act one opened with Cocheese, Son of Potcheese, seated on a stool, eyeing the dance hall queen, Lily Insincere—Linda Patnoi. Cocheese, portrayed by Idabelle Diaz, untangled his spurs from the legs of the stool and casually sauntered over to Lily for a dance. Lily was uninterested, to say the least. Soon the villain, clothed in black, entered the scene. This was Bluffalittle Bill, played by Deanie Waldeland. Clutching the horrid mortgage in his calloused hands, Bluffalittle proceeded to lead Cocheese, who was holding luscious Lily hostage, on a wild chase across the prairie. Caught at last, Cocheese, wounded, breathed his last in the arms of Lily, who had changed her mind about him in the meantime.

The movie was, of course, silent. Ann Shonberg acted as stage girl, holding up signs to indicate what was being said by the actors.

**Fashion Parade**

The newest things in the world of women's fashions were revealed as the next part of the entertainment. First to parade in a stunning new ensemble was "Dorrie" McGeorge, who wore a kilt, bright blue gams, dirty sneaks, and a striped blazer. She was carrying a tennis racket to show her audience how well her outfit fit the active life of today's coed.

Dormitory wear for the modern college women was modeled by "Jackie"" Roy. The latest outfit seems to be two towels sewn together at the shoulders, plus gaily flowered slippers, a matching pink bathrobe, and lovely blue shower cap.

**Chemise Styles**

A chemise fashioned of Striped bedspread was shown by Ron "Legs" Druckenmiller. The dress was accented by a large bow in the back. With it "Legs" wore a purple coat, black patent handbag, and adorable tan desert boots. Another chemise was featured by "Nancy" Nennstiel, this one made of authentic burlap, a very economic fabric—the dress sells for $2.54. Her costume was completed by a straw handbag from the House of Horror.

Last of the models was pretty "Mary" O'Brien who wore the perfect sporting outfit. Her green slacks were contrasted by a brightly striped red jersey with attached hood (and attached fraternity pin—The manufacturer has found that this added extra causes his jersey to sell well in the college crowd.)

**Lily Insincere (Linda Patnoi), a dance hall queen, is the heroine of the coeds' melodramatic production.**

**Monologue Characterization**

To round out the program, Karen Kamena entertained the audience with her characterization of a very frightened and slightly slow-witted child attempting to deliver a monologue entitled "The Horse".

The variety show over, the stage became a dance floor and the patrons of the "Palace" spent the remainder of the evening dancing to recorded music and listening to the freshman combo organized by Doug McGeorge.

# The Big Decision

"Rich man, poor man, beggar man, thief, doctor, lawyer, merchant, chief." Remember that game you used to play? Now it's no longer a childish game. It's the real thing! Called upon to choose a major, many a freshman has had to do some rather strenuous thinking. For the student who has little or no idea what he wants to do after college, the matter of choosing a major can be something of a crisis. It brings him face-to-face with some big decisions about his life and what he is going to do with it.

There is no simple formula by which to discover the profession or occupation one ought to enter. Certain psychological tests can help a person explore his vocation interests and aptitudes, but choosing a life work involves questions that cannot be answered by vocational tests alone. The words of Saul on the way to Damascus, "Lord, what wilt Thou have me to do?" should challenge the thinking of students today as never before.

In an age of almost frightening technological and scientific advancement, with confusion and unrest in so much of the world, we are confronted with a need for a stewardship of talents such as has never before faced any generation. The person who really wants to make his life count for something worthwhile, will, in addition to a consideration of his interests and abilities, give some serious thought to the more urgent needs of mankind. Not only will he ask himself the question, "What can I do best?" but also, "What is the best thing I can do?"

All of us are ultimately responsible to God for how we use everything that he has given us. If God's claim is valid, it is valid over the whole of life. This means that our talents as well as our possessions are held in sacred trust, and we are accountable to God for how we use them.

Once we understand and accept the fact that God has a valid claim upon us and that he calls us to serve him in everything that we do, we are not apt to fall into the common error of regarding vocational decision as something quite unrelated to faith and religious commitment. Laymen, as well as clergymen, are called by God to lives of dedicated service. The spirit and motives which guide us in making the really big decisions of our life indicate the response we make to God's call.

# Social Science Courses Fail To Affect Students

**by Chuck Trexler**

At the turn of the century a new point of view came into vogue which has had a far-reaching effect on American education. Relatively few schools at that time offered courses in economics, political science, and sociology. The study of history was dominated by the classic tradition as championed by George Bancroft and his colleagues. Under the leadership of such insurrectionist historians as Beard, Robinson, and Becker, with the assistance of the philosophy of John Dewey, the traditional concept of history was displaced in a revolution of the social sciences.

In his newly-published book **Changing Values in College,** Dr. Philip Jacob examines the progress of this educational theory at mid-century. Dr. Jacob, through the Edward W. Hazen foundation, presents the results of an extensive survey of college courses in the social sciences. The purpose of the survey was to determine whether or not general education in the social sciences had achieved any significant changes in the beliefs and values of students. Courses were carefully observed and substantial data were compiled on courses and curricula.

From the observations made by the author it would seem that present attempts to alter, mature, or develop the values of students are of slight value. Dr. Jacob concludes with a critical diagnosis of the shortcomings of present college instruction in the social sciences and proposes further analyses and constructive efforts.

During recent years much has been heard about the alleged

# THE CAMPUS *Whirlpool*

by Marv Hyett

Shades of the pajama parade! Arrayed in a motley assortment of bathrobes, bermudas, BVD's and pajamas, the pledges of Phi Ep merrily wended their way down Fourteenth street. This valiant enterprise was a retaliatory judgment, imposed solely for the purpose of revenge. The previous night, these selfsame pledges were known to have dragged one of the brothers (we won't mention Gaby's name) to Cedar Crest in a driving rain, and there deserted him, sans money or coat, Tch, tch.

That imposingly prolific social organization, IFT, which just last week swept the Intramural track meet, is expanding at an alarming rate. Holding the position of Most High Alpha is Bob Lukens. Least High Alpha is Whitey Higgins, and Jim Eden and Jack "the Hump" Pfeiffer hold honored positions as Most and Least High Betas. This constitutes the terrible four who organized it. The membership includes stars in every field and status who reside in the new dorm.

It finally looks as though Berg has a big tennis star. Woody Woodel, king of the court, has been busy belaboring the tennis squares with his powerful forehands, backhands, and no hands. Aside from his sports activities, Woody and his roommate, Moose Caporale are knitting and crocheting. These boys, the backbone of art at Berg, invite all to a free (?) exhibition of artistry, featuring the five of clubs and his 51 supporters.

Dick "Jetstream" Reimet and Ken "Downdraft" Stewart won three 'Strata-Flyer" airplanes (glider type) playing skiball at Dorney park. Happily hugging their prizes, they returned home. Fate, in the form of Breck Dierolf and Dom DeBellis made use of the mighty aircraft by flying them in the street at 11 p.m. Saturday night. A cop car drove up, just as the boys were trying to retrieve one of the planes from a tree. To the puzzled looks, Breck replied "You won't believe this, officer, but we got our toy airplane stuck up in a tree." The cop, with a look of despair simply exclaimed "Oh, no!" and drove away.

The crew for organic chem lab are really on the rack now. This is the end-of-the-month clearance sale, and broken equipment is going like hot cakes. Trying to complete a four-week preparation of sulfaninominoalimide, the boys are breaking everything from grimmin flasks to framus condensers. Kiss that contingency fee good-bye . . . payday's coming.

# A Letter To The Editor

To the Editor:

Recently I had a chapel slip revoked by the head of the Student council Chapel committee, Sue Schell. I do not question Miss Schell's right to revoke a chapel slip if she feels that someone has been out of order in chapel, however, I do question the "Gestapo-like" method used by this young lady.

I had no idea that my slip was revoked until I found it in my mailbox in the school post office along with a form letter stating that on April 23 I had shown "general disrespect for the worship service" and insinuating that I had shown a lack of respect for God and for my fellow students. Supposedly, I was talking "loud and incessantly" during the chapel period.

Upon trying to recall the events in chapel on April 23, I found that I was unable to do so. I cannot distinguish one chapel period from another a week after they take place. It is possible that according to Miss Schell's definition of the term, I am "out of order" during every chapel period. I would like to be able to remember what I did in chapel on April 23 that Miss Schell considered as being out of order. That is the only way in which a repetition of my actions can be prevented.

For this reason, I would like to ask Miss Schell that in the future, if such an occasion again arises, either she or another member of the Chapel committee be kind enough to inform me personally, and immediately after the chapel service, that I have been out of order. The charges against me are serious and before I can decide whether or not to defend myself against them, I must first be able to establish my guilt or innocence in my own mind.

(signed): Herbert B. Oberson

apathy of college students, not only at Muhlenberg, but in many other institutions across the country. **Changing Values in College** provides a undeniable basis for the warnings of the "prophets of gloom and doom." At the same time, it provides constructive criticism and a program for action which for the most part are lacking in the run-o-the-mill attacks on campus complacency.

# Pre-Registration Is Student Requirement

All students planning to continue at Muhlenberg college for the fall semester of 1958 are required to pre-register during the period beginning Monday, May 5, and ending Friday, May 9.

Pre-registration commences at 9 a.m. and closes at 4 p.m. each day of the pre-registration period. Students report to their adviser for the information sheet, course schedule, and the pre-registration form.

After the student has completed pre-registration, any modification of his schedule must be completed prior to **Monday, September 8, 1958.**

The Office of the Registrar will be open during the summer months from 9 a.m. to 4 p.m., Monday through Friday, to process all schedule modifications. A late fee of $10.00 will be charged for the completion of pre-registration after 4 p.m. Friday, May 9.

# From Here And There

by Stan Heim

Last week I discussed social fraternities in a sporatic sort of way and promised to reserve this week's space for consideration of campus clubs and organizations. I had stated that space necessitated the separation of the two, but in actuality they have a great deal in common and mutually effect each other.

We all have heard the multitude of complaints about the lethargic and apathetic way campus organizations are run and attended. But the most disquieting observation is the deterioration of once-thriving and robust organizations. I shall attempt to analyze the causes of this decay and torpidity. It is my belief that direct reference is the only way to make people conscious of an unfavorable state of affairs. Society has a tendency to deny the existence of a featuring sore in its tissue until it poisons the whole organism and remedy is then impossible

First of all, I should like to cite the multiplicity of organizations whose purpose is basically the same. Within the past few weeks we have seen the announcement of two new organizations on campus. There are already too many organizations in existence to serve the interest of those people who are interested in extra-curricular activities. The advent of new groups will only add to the distress of those already in existence.

We have a number of groups on campus whose purpose is cultural, intellectual, and philosophical stimulation. I do not believe that there are enough students on this campus so inclined to successfully support the existing groups of this nature. We have to face that fact that the average Muhlenberg student is not interested in culture or philosophy. The reason for this does not lie in the students themselves but in the admissions policy of our college. The result is that those who are interested spread their activity to a number of organizations and do a half-hearted job in each. Also quite often the membership requirements of these organizations are lax and join not because of interest, but to have a tag on the back of their name in yearbook an on applications.

The effect of social fraternities on campus organizations is indeed great. Because of the unified interest they are capable of arousing, their participation can be most helpful and stimualting, but unfortunately that is not the case at Muhlenberg. The fraternities, for the most part, have had a deleterious and corrupting influence upon campus organizations. They have not entered these groups with a spirit of participation, but rather as a means for the aggrandizement of their particular fraternities.

# Mule Nine To Play Three Return Games

Muhlenberg's next diamond opponents will be Moravian college on May 3, Lafayette college on May 6, and Lehigh university on May 8. Thus far this year the Bergmen have lost to Moravian and Lafayette and have tied Lehigh, 7-7, in the openers of their home-and-away series.

Coach Harvey Gillespie's Greyhounds are in the midst of one of their poorer seasons due to the loss of two pitchers and four regulars from the 1957 squad which posted a 17-4 log. Lost through graduation was right hander Rollie Passaro of Allentown, now of the St. Louis Cardinals organization, who had a 6-1 record and a sparkling 1.54 earned-run average. Others lost were first baseman Skip Fegley, third baseman, Ron Gift, centerfielder Joe Heard, and pitcher Jim and outfielder Jack Van Natta, now of the Pittsburgh Pirates. organization. The latter, as a freshman last year, batted in 35 runs, walloped four homeruns, hit .386, and was named Moravian's most valuable player. Jim, a stylish righthander, posted an over-all 14-4 log during his two years on the varsity.

**Mound Staff**

A great deal of the pitching duties have fallen on sophomore Dick Chergey (4-0 last year), and freshmen Elmer Bigley of Easton, Mike Lansenderfer of Coplay, and Hunter Matthews. Junior Tony Matz of Reading, a letterman in the outfield, has also seen mound duty.

In the infield, shortstop Dick Schwartz of Northampton and catcher George Hollendersky of Bethlehem are the only returning regulars. Schwartz, a slick fielder who batted .350 last season, is a senior and team captain. Hollendersky, a junior, batted .357 and knocked in 19 runs as a sophomore.

At first, either Bill Hershey or Charlie Bartolet, both sophomores, will get the nod, while Charley Gilbert, a freshman from Allentown, has nailed down second with his fancy fielding and lusty hitting. Rounding out the infield will be Bob Muth, a non-letterman, who will be at third.

**Brighter Pictures**

In the outfield the picture is brighter due to the presence of Matz (.356 last year), Sy Hirsh (.289 last year), and freshman Jim Frank who give the Greyhounds better than average defense and a potent offense.

Lafayette, facing one of its most attractive schedules in years, is on its way to record another fine season. After absorbing two defeats in the Dixie classic, the Leopards have rebounded and collected eleven consecutive victories before losing to Villanova, 5-4, in a recent contest.

Lehigh, coached by Tony Packer, got off to a fine start, but has been ineffective due to minor injuries to several key players. A highlight of the current campaign has been the mound performances of sophomore Craig Anderson of Washington, D.C. Hampered by an injury early in the season, he has recovered and has been very effective in recent outings.

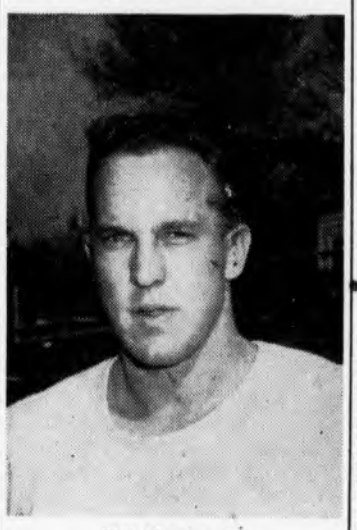
# Young Coach Directs Mule Baseballers

Jim Kozlowski, youthful-looking coach of the baseball team, has only been at Muhlenberg for two years, but already he has become a fixture here in campus athletics.

Kozlowski began his athletic career at nearby Sellersville-Perkasie high school where he excelled in baseball and basketball. Then at Bucknell university Jim gained laurels as a student as well as an athlete. While playing football at his Alma Mater he found time to be elected to the Omicron Delta Kappa National leadership



Jim Kozlowski

fraternity, and the Phi Alpha Theta honorary history fraternity. Jim was also a member of the Lambda Chi Alpha social fraternity, and an active participant in intramural sports. Kozlowski, an English and History major, closed out in his busy undergraduate days when he graduated with a B.S. degree in Education.

**Line Coach**

Soon after graduation at the end of 1956, Jim came to Berg to serve in the capacity of line coach for the gridders. The spring semester came and he was appointed head coach of our baseball forces. The blond mentor has done an excellent job in his dual capacity. He is also an instructor of Physical education, and co-ordinator of the fine intramural program.

So far this season Coach Kozlowski has found the pitching disappointing, while the hitting has been just short of spectacular.

# Berg Continues Losing Streak; Defeated By Wilkes, Moravian

Muhlenberg's difficulty in breaking into the win column continued last week, as the Mule diamondmen dropped two contests to Wilkes and Moravian. Their current record stands at 1-5-1, afer a 9-3 setback at the hands of Wilkes last Thursday, and a thumping 9-4 defeat from Moravian on Saturday. Both games were played on Muhlenberg field.

The Wilkes-Barre collegians exploded for a seven-run third inning, thereby breaking up what had been a close 2-1 ball game. The Mules scored a run in the first and two in the third behind Mike Wooley's two hits and two RBI's.

Tony Caporale started for Berg, but lasted only two and two-thirds innings, giving up eight runs, seven of them earned. Bill Higgins pitched the remainder of the game and allowed Wilkes to score only one more run.

The Mule infielders seemed to be plagued by the wet and bumpy turf as they failed to handle several infield smashes in the early innings.

Catcher Dave Hoover's single late in the game kept his consecutive hitting streak alive. He has come through with at least one hit every game this season. Reserve oufielder Bob Pearsons once again came off the bench to deliver a pinch-hit single.

**Moravian Game**

Muhlenberg took the field against Moravian last Saturday with one objective, that of beating the neighboring collegians, But, Bill Hershey, stocky little pitcher, had other ideas. He proceeded to mystify the Bergmen, giving up only four hits and striking out ten batters. While the Mule bats remained silent, Moravian banged out 12 hits against Muhlenberg pitching.

Starter Charlie Takacs yielded 11 hits and all of Moravian's nine runs during his seven-inning stint. Bill Higgins again came on to finish up nicely, but the damage had already been done.

**Initial Scoring**

Going into the third inning, Takacs had things under control, but then the bubble burst. After a walk and two singles loaded the bases, Charlie Gilbert singled home two runs. Hollendersky then followed with a single that drove across the Hounds third marker.

In the fourth, after getting the first two batters, Takacs gave up singles to Gannon and Hershey. Then Schwartz beat out an infield roller and the bases were jammed. A moment later, three runs came across when a grounder by Matz took a tricky hop and got past shortstop Jim Nonnemaker and rolled into left field.

George Hallendersky shot a booming drive over the head of left fielder Ray Croft in the fifth to account for Moravian's seventh run. The Greyhounds finished out their scoring in the seventh with two runs on two hits, a walk, and a sacrifice fly.

SWING AND A MISS—Muhlenberg's Bob Nuss, acting in a pinch-hitting role, takes a swinging strike in the action with Wilkes last Thursday afternoon at Muhlenberg field.

## Blue Hens Provide Test For Thinclads

The Muhlenberg college track team will take on the University of Delaware at 3:30 p.m., May 6, at home. The Mules, highly unsuccessful in their first two starts against Albright and Lafayette are anticipating a better showing against Delaware.

Pre-season reports show Coach D. Kenneth Steers, track coach at Delaware since 1943, is not looking forward to this season with a great deal of optimism. Most of the members of the fine 1957 team that compiled a 5-1 record are gone, and while the 1958 edition is very strong in some departments, it is very weak in others. The main problem that faces the Hen's track team is an acute lack of depth.

**Record Holders**

Two steady performers back to head the Hens are Captain Cliff Browning, who holds the university's pole vault record of 13' ½" and Bill Walston, who set a new broad jump record last year of 22' 3½". As a note of encouragement, most of the members of the squad are underclassmen, including several promising sophomores from last year's freshman team which compiled a record of two wins and two losses.

After this meet Muhlenberg engages Lebanon Valley, F & M, Ursinus and Bucknell.

## Muhlenberg Golfers Dealt First Setback By Lehigh Linksmen

The Lehigh Golf team defeated the Muhlenberg linksters, 11-7, last Thursday.

Captain Dave Senger was the only Berg player to win his match. Three holes down at the end of the first nine Senger played sub-par golf on the back nine to beat Lehigh's Illife two to one and ended up as medalist for the afternoon with a score of seventy-six.

Muhlenberg's Ron Choquette had to fight back hard against Lehigh's captain Ramsey to pull out all even at the end of eighteen with one and a half points going to each player. Playing in the number three spot Jack Pfeiffer couldn't seem to get started and didn't play his usual good game. He found himself at the low end of a two to one score with Lehigh's Cummings. Moving up to the number four spot in this match for Berg was Russ Bleiler too had an unusually bad afternoon on the links but managed to tie Weaver, his opponent.

Sid Gamburg, who was dropped to the number five spot after losing to Bleiler earlier in the week, couldn't find the winning combination but managed to salvage one point for Berg as he was defeated by Lehigh's Hartung two to one. Dennis Gurski who played in the sixth position for Muhlenberg found himself up against an unusually good golfer in this sixth position in the person of Lehigh's Ginsberg. Ginsberg shot a seventy-eight and defeated Gurski three to nothing.

# Sport Surveys Yanks' Problem

Yankee manager Casey Stengel is 69. George Weiss, the Yankees' general manager, is 64. What will happen when these two geniuses step down from their leadership of baseball's winningest team? Who will succeed them?

The current issue of Sport admits that Dan Topping and Del Webb, the owners of the New York Yankees, are the only two men who can answer the question, but the magazine takes a stab at speculation as to who the successors will be.

**MacPhail Has Edge**

Sport predicts that Lee MacPhail, director of Yankee player personnel, will be the man to replace Weiss. His closest competitor is Emil J. (Buzzy) Bevasi, general manager of the Los Angeles Dodgers. But because Weiss will probably throw his weight behind his young executive, Sport feels MacPhail has the edge.

Other possibilities named by Sport for the position are: Parke Caroll, who once ran the Newark and Kansas City farm teams for the Yankees and now is vice-president and business manager of the Athletics; Roy Hamey, who grew up in the Yankee organization; Frank Lane, former White Sox and Cardinal manager and now the front-office director for the Indians; Dan Topping, himself.

**Lopez Prime Candidate**

As for Stengel's successsor, Sport says that if Casey has a word about designating his replacement, and no doubt he will, Al Lopez, the present White Sox and former Indian manager, will be a prime candidate if he is able to free himself of contractual obligations.

Whoever the choices are, Sport says, "the men who follow this pair will be on the spot, but they won't have it too hard. Casey may have been the wisest of all managers, and Weiss surely has been the most successful of front office bosses, but because of them, their succesors will have it easy."

# Engineer Team Blanks Mule Courtmen, 9-0

The Muhlenberg tennis team played its first match on the newly constructed tennis courts last Thursday, and dropped its second match of the season to Lehigh university, 9-0. It was the third victory against two losses for the co-defenders of the Middle Atlantic team championship, sharing it with Haverford college.

Led by captain, Bill Scarlett, a senior from Abington, who in high school was the Pennsylvania Interscholastic Athletic association singles champion, the Brown and White blanked the Mules in six singles matches and three doubles matches.

**Singles Competition**

In the first of the singles matches Scarlett defeated Muhlenberg's first man, Bob Leighton 6-1, 6-1. In the second match Lowell Latshaw, who while in high school, captured more than 30 junior men's championships in Eastern amateur play and is ranked first among junior players in this Middle Atlantic area by the U. S. Lawn Tennis assn., defeated Harry Berg 6-0, 6-1. In the rest of the matches Jack Wright defeated Frank Csaszar, 6-2, 6-4; Tom Earl defeated Roger Christine, 6-2, 6-0; Ed Sullivan defeated Ken Stewart, 6-0, 6-2; and Roger Weiss defeated Gil Sopher, 6-1, 6-1.

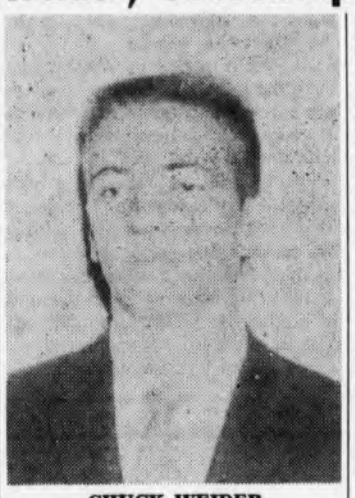
**Doubles**

In the doubles matches Scarlett and Latshaw combined to defeat Leighton and Berg 6-2, 6-0; Earl and Sullivan defeated Csaszar and Christine, 7-5, 6-0; and Wright and Weiss defeated Ron Behrle and Brent Follweiler, 6-0, 6-1.

Lehigh's remaining schedule consists of six matches in addition to the Middle Atlantics held this year at Haverford.

# *In the Sportlight . . .*

## Weider, Schoellkopf Aid Track Team

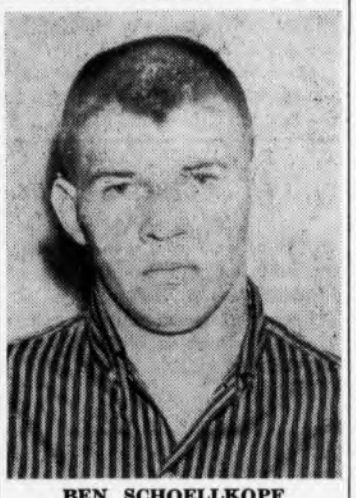


CHUCK WEIDER

Helping to build up the track team again this year is Chuck Weider, a pole vauter from Allentown. A junior psych major, Chuck lives off campus with his wife. Chuck graduated from Allentown high school where he participated in track and was a member of the Varsity "A" club. He placed first in the pole vault for two years and represented District 11 in the state finals.

Here at Berg Chuck is president of the Psych club and a member of the "M" club in addition to track. In varsity competition he has twice come within ½" of tying the school record for the pole vaut of 12' ½". Last year Chuck had only one loss, that coming against Delaware, and placed third in the Middle Atlantics.

Upon graduation Chuck plans to go to graduate school for a masters degree in psychology. He hopes to go into guidance work.



BEN SCHOELLKOPF

Ben Schoellkopf, a sophomore from Perkasie, entered in the weight division, is another reason why the track outlook is brighter this year than in the past. Ben attended Pennridge high school where he participated in football, basketball, and track. He was president of the Varsity club there as well as a member of the National Honor society. Ben plays football for Berg and this year won a letter in that sport. He is a brother a Lambda Chi Alpha social fraternity and a member of the "M" club.

Last year as a freshman, Ben participated in several meets and took some first places which did not count because of NCAA rules. In varsity competittion this year he scored eight points against Albright. When asked about this year's squad Ben stated "the interest is building up and this may be the year for the first win in a long time."

# *Sports in Short*

by Ben Livingood

In the past week, this writer has twice been approached by persons, both with the same complaint, who are not in any way connected with Muhlenberg colege. The complaint they had concerned the newly constructed campus tennis courts and the regulations of play on them.

Both these people enjoy an occasional game of tennis, and came to the **Muhlenberg tennis courts** to play. When they arrived, they were met by an attendant who informed them that unless they had a Muhlenberg identification card they couldn't use the courts. Subsequently, they were **turned away and forbidden use of the courts.** They both felt this was **poor relations** on the part of the College. They argued that they support Muhlenberg college from time to time in the form of contributions to various drives, etc., sponsored by the College. Then when they, as **contributors**, come to Muhlenberg to request the favor of being permitted to use the tennis courts, they are flatly denied that favor. **This creates ill feelings.** They have good reason to feel badly, especially when they see the courts are not being used by Muhlenberg students. Both persons agreed that **priority must be given to Muhlenberg personnel,** but felt they would be doing no harm if they played when the courts were not being used by college students, faculty, or staff members. Perhaps they are right. Perhaps this is what could be called poor public relations on the part of Muhlenberg college.

However, there are **two sides** to every story. What is the college's outlook upon the question of tennis court regulations? In the printed set of regulations published by the school earlier this year, **rule number one reads:** "Use of the courts is restricted to Muhlenberg college students, faculty, and staff. Members of these groups may inivte guests to play with them, but no guest may use the courts unless he is playing with a member or members of these groups." In other words, if a Muhlenberg student invites someone to play on the courts, he **must be playing** with that guest in order for the guest to be granted admittance to the courts. Why is this done?

The supervision of the tennis courts regulations comes under the authority of **Superintendent of Buildings and Grounds McAuley.** Mr. McAuley stated if the College permitted the courts to be open to the public, it woudn't take long for the word to spread, and the courts would soon be jammed with outsiders. Another point to be considered before allowing outsiders to use the courts is that if someone is injured on the courts, **the College can be held liable.** This

## Nurses Attend Berg

(Continued from Page One)

will participate in all Muhlenberg extra-curricular activities, including sports, cultural and social programs. They will have full library privileges and may attend chapel services either at the Nursing school or in the Muhlenberg chapel.

The cooperative program—one of the first of its kind in Pennsylvania—has been approved by the boards of trustees of both Muhlenberg and the Hospital. Detailed plans for the new academic relationship were developed by a committee which included President Seegers, Dean of Faculty Henry M. M. Richards, Dr. John V. Shankweiler, head of the Biology department; Dr. George H. Brandes, head of the chemistry department, all of Muhlenberg; Orlando M. Bowen, hospital superintendent; Miss Murial Dunlap, director of nurses; and Miss Adele Miller, assistant director, nursing education.

## Contest Nears End

(Continued from Page One)

handed in by John Dreisbach, student chairman of the contest, Darryl Ponicson, Charles Hanna, John Haberern, Ed Kline and Phil Jurys. Entries can be handed into Mr. Kinter until May 8.

Prizes will be awarded in the form of books, and after the judging, the paintings and designs will be offered for sale. Judges for the contest are Professer Preston Barba and Mr. Stark.

## Teke Elections

(Continued from Page One)

Weller is a sophomore psychology major from Boyertown, former Teke histor, member of the executive council of the class of '60, and member of the choir. Salustro, a psychology major from Neptune, N. J., is a member of the Psychology club and has been active in the formation of Alpha Phi Omega service fraternity.

## The Chowline

Unfortunately, the Snack bar has suffered through the absence of two of its most rabid devotees. Gone to the Poconos to prepare for the summer season are Ann Eberhard, and her faithful cocker spaniel, Rusty. We miss Ann from behind the counter dishing out the food, and Rusty from the other side begging.

It looks like the baseball team is having a rough go of it. Some have said that the infield needs a little bit of tightening up, but we'll wager that if more of the student body supported them at at their games, they wouldn't find things so difficult.

One of the dishes that the Snack bar has been featuring for some time now is their delicious beef barbecue. It only costs a quarter, and for a noon meal or just a snack, you can't beat it. Slices of beef wallowing in tasty barbecue sauce is just the thing for the real epicurean.

While you are enjoying that barbecue, wash it down with a coke for only a dime more. And if you like, Myrt, Betty, Florence, Alice, or Uncle Willie will throw a shot of flavoring in it—vanilla, chocolate, cherry, lime, lemon—they're all good.

See you at the Snack bar!

**Adv.**

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | Muhlenberg College, Allentown, Pa., May 8, 1958 | No. 26

## Smith, Dudak And Van Kempen Selected As Class Presidents

Charles Smith, Stan Dudak, and Jay Van Kempen were elected Wednesday by 64 per cent of the voters eligible, to lead the classes of '59, '60, and '61 respectively. The freshmen led the voting with 72 per cent, electing Tom Reinsel, Barbara Fretz, and Floyd Moyer to office along with Van Kempen.

Sixty per cent of the sophomores voted, selecting Gordon Warner, Albert Stott, and David Auerbach for the offices other than the presidency. Juniors were low with 57 per cent voting. John Holcroft, Peter Schwartz, and Edward Thieler will fill the senior class offices.

**Smith Selected**

Smith, who was reelected to his class presidency, will be aided by vice president John Holcroft, a history major from Philadelphia; secretary Peter Schwartz, an arts student from South River, N. J.; and treasurer Ed Thieler, pre-med from Philadelphia who ran unopposed. Smith is from Cheltenham, a business major, and is treasurer of Alpha Tau Omega social fraternity, president of the Cardinal key society, a member of the **WEEKLY** staff, baseball and cross country teams, and the Mermaid Tavern society.

Junior class president Dudak is a pre-theological student from North Bergen, N. J. His fellow officers are: Gordon Warner, a B.S.B.A. student from Warminster, Pa., secretary; and Dave Auerbach, an arts student from Chester, Pa., who ran unopposed for treasurer. Dudak is active in Tau Kappa Epsilon social fraternity, Cardinal Key, Choir, track, and class executive committee and was president of his class as a freshman.

Van Kempen, the sophomore president, will serve along with Tom Reinsel, a pre-medical student from Reading, who will continue as vice president; Barbara Fretz, reelected secretary and a history major from Telford, Pa.; and Floyd Moyer, pre-law student from Fogelsville who will serve as treasurer.

## Chemistry Students Take Trip To F. & M.

Eleven chemistry majors, accompanied by Dr. G. N. Russell Smart of the Chemistry Dept., attended a meeting of the Intercollegiate Student chemists at Franklin & Marshall college on Saturday, May 3. This organization is comprised of chemistry students from sixteen colleges, of which Muhlenberg, Lafayette, and Lehigh represent the Lehigh Valley. Muhlenberg had the largest representation of students.

One of the highlights of the meeting was the presentation of scientific papers by students from the various schools. Owen D. Faut, a Muhlenberg senior, presented a paper titled "The Installation and Operation of a Memory-Type Infrared Spectrophotometer". Students from Franklin & Marshall, University of Delaware, and Temple also presented papers, with representatives of the last two schools presenting the winning papers.

Following this, a business meeting was held at which it was decided to hold the 1959 meeting of the ISC at Temple university. A luncheon was also held, followed by a talk by Dr. Martin S. Frant, dealing with the topic of corrosion.

After the speech, the Franklin and Marshall planetarium staff presented a demonstration for the students on the topic of meteors.

Also representing Muhlenberg at the meeting were Richard Stahr, David Beck, Dennis Cimino, Taimi Toffer, Ray Schultz, Martin Manger, Francis Frey, Larry Roveda, and Van Doran Douglas.

## Discussion On Education To Be Held At Muhlenberg

What is the role of education in the promotion and preservation of the individual? Answers to this question will be given by a panel of experts Monday evening (May 12) at Muhlenberg college. The program, scheduled at 8 o'clock in the science auditorium, is open to the public.

Panel members will be Dr. William E. Arnold, dean of the school of education at the University of Pennsylvania; Dr. Allen H. Wetter, superintendent of the Philadelphia public schools; Dr. G. N. Russell Smart, professor of chemistry at Muhlenberg; and Dr. J. Conrad Seegers, Muhlenberg president who will serve as general chairman.

The panel program is the culmination of a year-long discussion of "The Individual Versus Authority" in Muhlenberg's "History of Ideas" course. This course, now in its second year, is an experiment in interdepartmental cooperation. The selected group of 12 students includes four history and four science majors, two economics majors, an English and a German major.

**Class Discussion**

Discussion started last fall with problems faced by early man and reached out during the ensuing months to dilemmas posed by present-day Communism. During this time, a spokesman said, it became "increasingly obvious that the schools play an important role both in the promotion and the preservation of the individual."

Monday's unique discussion, presented on stage in the college auditorium, will show the class in action. The group of Philadelphia and Muhlenberg educators will substitute for regular participating faculty members. Following the panel discusison, the meeting will be open for audience participation.

Students and faculty from Cedar Crest, Moravian and Lafayette colleges and Lehigh university have been invited to attend as well as the general public.

The "History of Ideas" course is conducted for three hours on Wednesday evenings. In addition, small groups meet each week with individual professors in their homes.

**Faculty Members**

Muhlenberg faculty members participating in the weekly discussions are Dr. James E. Swain, head of the history and political science department; Dr. Henry M. M. Richards, head of the economics department; Dr. Harold L. Stenger, head of the English department; Dr. Hagen Staack, head of the religion department; and William L. Kintner, assistant professor of English. Guest faculty members also are invited from time to time.

The course is open to students by invitation only. There are no tests and no papers required, but the large amount of reading and the tutorial sessions demand a great amount of the students' time. Three semester hours credit is given, with an automatic "A" grade.

## Mask & Dagger Society Stages Spring Production; 'My Three Angels' By Noted Broadway Playwrights

**My Three Angels,** a comedy which has found success on Broadway and on the screen, will be presented by the Mask and Dagger society on the evenings of Wednesday, May 7, to and including Saturday, May 10, in the Science auditorium at Muhlenberg. The local Kiwanis club will serve as sponsors in an effort to raise funds for its service foundation.

There will be one more performance than the usual Mask and Dagger production, in anticipation of an increased attendance due to the Kiwanians' sales. Under the direction of Don Walter, fund raising chairman, the Kiwanis Club of Allentown hopes to raise money for the development of local youth activities.

Father (Bob Kehrli) protests as Alfred (Spence Tuchinsky) carries Jan Horvath up the stairs in M & D's production of "My Three Angels." Simon Gribben looks on as Bob Sabol tries to appease the adamant merchant.

The play, a comedy by Sam and Bella Spewak, concerns three convicts; two murderers, and an embezzler, who save from financial ruin the family they have befriended. It was produced by Jose Ferrer, and, in the words of the Philadelphia **Inquirer,** is "a completely captivating comedy." The movie version was one of Humphrey Bogart's last performances.

Jan Horvath, as Marie Louise, is cast in the romantic lead. The cast boasts several other experienced players, among whom are: Bob Kehrli, as Father, who, along with Miss Horvath, had a supporting role in the last M&D production, Shakespeare's **Othello;** Madame Parole is played by Nadia Dunlap, who recently took part in the MCA production of **Murder in the Cathedral;** Bob Sabol and Simon Gribben, who along with Spencer Tuchinsky play the parts of the three convicts, also appeared in **Othello;** and Jim McConnell as Uncle Henry. McConnell, who is the president of M and D, will make this his last role after four years of acting and directing for the Muhlenberg stage. The part of Mother is to be played by Karen Kamena, and that of Paul by Penn Chabrow.

The play is evenly divided as to amount of lines and importance of parts, according to Dr. Andrew Erskine, club advisor. No male parts have been designated as leads. Casting was completed in the middle of April and rehearsals have been in progress since that time.

## Club Witnesses Steel Processes At Morrisville

A small group of the members of the Business and Economics club of Muhlenberg college made their semester's field trip on May 1 to the Fairless works of the United States Steel company at Morrisville, Pennsylvania. Accompanied by Mr. John Voyatzis, assistant professor of economics, the group was given a guided tour through the 3,939 acre plant. They witnessed the production of steel from the raw material to the finished product.

The tour began at the ore docks on the Delaware river where the ore, imported from South America, was unloaded. The group next viewed the two batteries of 174 ovens which fed coke to the blast furnaces. The three blast furnaces had the feminine names of "Hazel," "Nancy," and "Patricia" and their combined values were approximately one hundred million dollars.

**Production Process**

After seeing the blast furnaces, the group followed the production process to the open hearth furnaces where the molten iron was "cooked" to particular specifications designated by the customer. The furnaces were tapped and the molten metal poured into ingot molds. The ingots were transported to the stripper where its cover was removed. The solidified steel was placed into huge ovens called soaking pits where the metal was kept uniformly heated.

In the next step, the ingot of metal was transferred to two large steel rollers which squeezed and flattened it into a sheet two thousands of an inch thick. Then the sheets were rolled and later cooled in the pressurized cold reduction mill. After the metal was completely cooled, it was processed and electrolytically given a coating of tin. From here the finished product was cut and stored until shipped to the customer.

**Meeting With Executives**

After the tour of the production end of the plant, the group met with the executive heads of the accounting and metallurgy departments. Questions were asked of these men concerning the position of United States Steel in relation to the rest of the industry and the economy as a whole.

## Lambda Chi Alpha Fraternity Reprimanded By Dean Of Men For IFC Rule Violation

by Rick Stephan

Lambda Chi Alpha, national social fraternity, has been officially reprimanded by the Dean of Men for having women in the fraternity house after the twelve midnight curfew. This is effective as of May 3, 1958. The fraternity is not being placed in any probationary category whatsoever.

On the evening of Friday, April 18, there were eight couples socializing at the Lambda Chi fraternity house. It was suggested that a chaperone be asked to attend the gathering, and make certain that everything was in order. The chaperone arrived at 11 p.m. and left at approximately 12 midnight. The fraternity president made certain that no women remained after 1 a.m. In doing this, he felt that he was lenient in reference to the March 9 rules of 1956.

**Penalty for Action**

The Dean of Men requested that the president of Lambda Chi come to his office on April 21. He was told that someone had reported the incident of Friday evening, and that fraternity would be penalized in some fashion for such action. At this time a revised constitution was given to the president of the fraternity, which defined where there had been an infraction of the rules. The constitution was revised in April 1958.

A letter was sent on Friday, April 25, stating that the "Lambda Chi Alpha fraternity is being placed on social probation from the date of this letter through the rest of the semester." Also, "That Lambda Chi Alpha fraternity shall continue on social probation from the end of the application of the above penalty throughout the fall semester of the academic year 1958-59, but that this portion of the penalty shall be suspended providing that the Lambda Chi Alpha fraternity and its members display at all times the good behavior expected of Muhlenberg college men and of its fraternities."

The penalty was imposed according to the by-laws which state in article IX, section VII: Women (except parents of brothers or pledges and fraternity employees) are not permitted in fraternity houses after 10 p.m. Exceptions to this rule may occur when: 1. A regularly planned and chaperoned social event is scheduled. 2. Two or more couples wish to use the fraternity house on Friday or Saturday evening. At such times, women will be permitted to remain until 12 midnight.

This incident was not mentioned at the IFC meeting of Monday, April 21. After the reprimand was publicly known, the Dean of Men was approached by several people desiring that the penalty be less severe. Acting upon this advice, a meeting of the fraternity presidents and Dean Dierolf was called for on Thursday evening, May 1. The fraternity presidents suggested that Lambda Chi be placed on suspended social probation.

The president of Lambda Chi was later given the alternatives of being placed upon suspended social probation, or not holding any social functions this semester, and being completely free of "a dark cloud" next semester. The chapter voted on the alternatives and chose the latter. Upon this decision, a second letter was issued rescinding the first. This

(Continued on Page Four)

## Der Deutsche Verein Elects Club Officers

Muhlenberg's oldest departmental organization, Der Deutsche Verein, elected new officers at a meeting on April 7. John D. Wragge is the newly elected president, and David J. Wartluft is the new vice president. Other new officers of the Verein are: recording secretary, Helmut Germer; corresponding secretary, Priit Rebane; treasurer, Arnold Stefens. Following the elections was a program featuring Admiral Moses and his slides of Germany.

The Verein initiated thirteen students into membership at a meeting last Monday. The initiates are: Irmgard Engelhard, Joanne Ormond, Claire Gehrig, Sandra Peifly, Alice Matheisen, Carol Lehr, Ewald Kalmbach, Frank S. Walinski, Ralph Stoesser, John Haberern, Floyd Moyer, Donald Hoffman Jr., and Carl W. Alexy.

## Cheerleaders Meet To Stress Fall Plans

A pre-organizational meeting for students interested in cheerleading is scheduled to be held in the Science auditorium on Wednesday, May 14 at 3:30. Announcement of this was made by Jac Kramer, captain of the cheerleading squad. Any student, regardless of class, is asked to attend if he or she is interested in the organization. Kramer also extends an invitation to anyone who may have criticisms or new ideas for next year's cheerleading program.

"So many students have complained to me about the ineffectiveness of the cheerleaders and the poor quality of the cheers. This is YOUR chance to come see me about it, tell me your ideas, and together we will see what can be worked out for a bigger and better program for next year."

The primary purpose of this meeting is to acquaint the students with the necessities of an effective cheerleading organization. The policies of the organization, and the importance it plays in bringing the student body to actively support the various athletic groups on campus will be outlined. Cheerleading tryouts will not be held on Wednesday. This will take place sometime in the Fall of 1958.

This year's cheerleaders appeared at all home football and basketball games. Though there was no transportation provided for away games, the squad cheered at several away football games, including those at Lafayette in Easton and Franklin and Marshall in Lancaster. Cheerleaders do not appear at baseball or track contests.

## Raw Deal . . .

In a recent action regarding an infraction of fraternity rules, Lambda Chi Alpha barely escaped being placed on official social probation. The series of events which led to the final decision were so confused and entangled that it has taken a great deal of time to finally iron out the situation. The agenda of action will be seen in the front page story on this affair.

When we have weeded out all the discrepancies and begun to interpret the nature of the judicial and executive action, it appears that it bears mainly on the case of Inter-fraternity council vs. Dean of Men, with Lambda Chi caught in the middle, and not Inter-fraternity council vs. Lambda Chi as it should have been.

Original action on this case was taken by the Dean of Men himself without any reference to IFC. It was done in the form of a letter to the fraternity which stated that they were to be placed on social probation for the remainder of this semester and suspended probation for next semester.

When the IFC president received a copy of this letter, he immediately referred it to the Dean of Men to question why the Council had not been consulted in the affair. Don Borden had a right to do so. Article X of the IFC constitution reads as follows: "The Inter-fraternity council shall have authority over all cases involving infractions by fraternities, their brothers, or pledges of the provisions of this constitution and by-laws . . . It shall be empowered to fine or otherwise to punish violators of the Constitution and By-Laws."

In other words, levying of this punishment should have been done under the jurisdiction of IFC, not the Dean of Men. A meeting was called. Presidents of the six fraternities met to discuss the problem, and a suggestion was finally made that Lambda Chi be placed on suspended probation this semester and be given no punishment next semester. The Dean of Men said that he would take this into consideration.

When the Lambda Chi president received the final letter, he found that the fraternity would not be put on official social probation, but that a verbal agreement would be made that no social activities be scheduled for this spring. By doing this, Lambda Chi escaped the undesirable connotations involved in the term "social probation."

What we object to was the lack of reference to IFC by the Dean of Men under the assumption that the Council would not have the responsibility and power to impose the required restrictions. In the past, it was claimed, IFC has been a weak organ and most of the initiative had to be taken, not by that body, but by the administrative offiical.

If, in the future, IFC hopes to achieve the importance and responsibility which it originally planned, such cases as this must be handled by them directly and not through nebulous action from the Dean's office. Of course it will involve complete cooperation by the Dean and the students who report offenses. Let's not forget that "The Inter-fraternity council shall serve as the supreme executive organ of the fraternities at Muhlenberg college."

# Life of Talleyrand Projected By Swain

**Dr. James E. Swain, head of the History department, is planning to visit various European archives during a sabbatical leave next spring. The research will be used to compile a biography of Talleyrand, French statesman of the Revolutionary and Napoleonic periods.**

Dr. James E. Swain, head of Muhlenberg's Department of History and Political Science, recently announced tentative plans for spending the greater part of next year's spring semester on sabbatical leave in Europe. During this time he will gather information from the national archives in Austria and in Spain which he will use to compile his forthcoming biography of Talleyrand.

Dr. Swain has made two previous trips to Europe for this purpose. On these trips he studied information from the archives of the Vatican, France, Great Britain, Belgium, and Vienna. It was while working on a doctorate in Anglo-French relations that Dr. Spain first became interested in Talleyrand, who played a recurring part in the affairs of Europe, beginning in France's years of revolution and continuing through the time of Napoleon in the nineteenth century.

In his forthcoming trip, Dr. Swain would also like to find time to travel and study in the Scandinavian countries.

The mountains around Stroudsburg are lovely this time of year. Ask Dan Nesi. The pledges from ATO lured Dan out into the night with the promise of female companionship. Surprised and quickly overpowered, Mr. Nesi was speedily borne away to the green hills of Stroudsburg. **At 3:00 in the morning Dan was not laughing very much,** but a phone call brought speedy Dick Hess to the rescue. All in all though, Dan was lucky. **Previously, plans called for a trip to the Jersey shore.** He would really have chuckled that up.

Roger Keehn is the pitching champion of that amazing Schmeckials team. Getting powerful support from Kenny Harris **(struck out twice in the last game)** who almost killed Jack Peoples when his bat slipped from his hands during a terrifically powerful fan. Managerial credit (blame also) goes to Reds Grossman. **This is the team to watch, if you're looking for a laugh.**

Karl Becker pulled a beautiful stunt in his Marriage and the Family class last Tuesday. When the whistles and sirens went off announcing the air raid drill, Becker jumped up and shouted "to the Basement!" Dr. Greth whose class it was, led the group down to the basement. Strange as it may seem, they were the only ones there. Alarmist Becker had succeeded in stampeding the class. **The Civil Defense is sending Karl an arm band and a Captain Midnight Secret Flasher Signal ring for his fine work.**

# Au Coté des Femmes

**by Jan Horvath**

On Sunday, May 18, the coeds will hold a spring sing. The sing will be a combined effort of the dorm students and commuters. The four groups, three from the dorm and one from the commuters, will sing three songs developed around their own specific theme. Following the sing will be a ring ceremony, in which all upperclass women will participate. To conclude the program, a committee of judges, chosen from the faculty, will select the winning group and present a prize. The sing will commence at 3 p.m. and parents, faculty, and alumni are invited. An informal tea will then be held in the downstairs lounge of West hall. Any male student wishing to attend the sing and ring ceremony is cordially invited but is to remember that this is a formal affair and he should dress appropriately. A successful sing would be a sign of co-operation among the coeds and not apathy which is so prevalent on campus.

Ellie Jacobs has returned this week with an old shaped carrying case under her arm. Since then, strains of sweet (?) music have flowed from West hall, for the case contained a violin. Practice, Ellie, practice!

When Jerry Neyenesch sent Sara Jane Ruloff and Barbara Fretz downtown on an errand, he didn't realize the trouble he had caused. Jerry told the girls to take his car and that they would find the keys in the glove compartment. After searching the entire car for the keys, the girls saw a strange man approaching the car. The man opened the door and informed them that they were in his car. The girls laughed, unalarmed, and ran off.

# Mule Nine To Meet Diplomats, Explorers In Next Encounters

by Don Poppe

On Saturday, May 10, Muhlenberg will meet a visiting Franklin and Marshall nine coached by Roy W. Phillips, now in his fourth year at the helm of the Diplomats. This year's squad is made up of 27 aspirants, nine of whom are returning lettermen from last season's team which posted a poor 2-13 log. However, the picture is brighter this year.

According to Phillips, a Dip graduate whose best record at the Lancaster school was a 6-7 slate in 1955, they are bound to improve on last year's record and a great deal will depend on the success of the mound corps. Their hitting is a strong point and their fielding is adequate. Last year's team averaged .271 at the plate and .986 in the field.

**Top Returnees**

Heading the list of returnees is captain Larry Achenbach who hit .354 and battled in 6 runs last season. Also back are first baseman Fred Hesse (.364) and outfielder Bob Harnish (.340). The latter led the Dips in runs scored with eleven.

In their first outing Franklin and Marshall bested Lebanon Valley, 4-0, on a four-hitter by sophomore Pete Kandel, who struck out nine and walked one in the abbreviated seven inning contest. All of their scoring was done in the first two frames, as Harnish had a perfect day at the plate with three singles in three trips.

**Other Games**

In later encounters the Dips tied Dickinson, 3-3, in a game called at the end of ten, and lost to Gettysburg, 10-1, and Albright, 10-3. In the latter contest, the Lions of Albright scored early and were never headed as Woody Stanley, Harry Bunyan, and Bob Montgomery were shelled hard. Don Ruoss of the Diplomats hammered his first round-tripper of the campaign in the fourth for the losers.

LaSalle, whom the Bergmen will meet in Philadelphia on May 12, have also had their troubles. Coached by former basketball coach Jim Pollard, the Explorers have suffered from the jitters in the field in recent games. Second base has been and still is a problem, and only some potent stickwork on occasions has saved them from a disastrous season.

**Eleven Lettermen**

Bolstered by eleven returning lettermen, LaSalle (10-6 last year) is led by senior Ed Czeriakowski, a sturdy backstop who hit .391 last season and led the club in runs batted in. He has continued his lusty hitting this year as his two triples and single in a lop-sided 9-1 Explorer triumph over Swarthmore will testify.

In the infield, senior letterman Jerry Sheehan will be at first, Vince Valecci at second, Bob Egizio of Allentown at short, and Jack "Beans" Reardon at third. Last year's second sacker, Tom Madden, has moved to the mound

(Continued on Page Four)

## Rutgers Baseballers Trounce Muhlenberg

Muhlenberg's hopes for a winning baseball season sank deeper last week as the Mule nine suffered its sixth loss in eight starts at the hands of Rutgers, 11-4, at New Brunswick. For coach George Case's Scarlet nine, it was the fifth win against six setbacks. Ray Cornayzo went the distance for the victors, thus evening his record at 2-2.

**Mule Scoring**

The Mules scored one run in the second, one in the fourth, and two in the eighth on a double by Ray Croft, the only Muhlenberg extra base hit. In notching his second win of the season, Cornayzo allowed only five hits along the route.

Dave Hoover was credited with one RBI in the second inning when his sacrifice fly sent Mike Wooley home from third. Muhlenberg's fourth inning tally came when Jim Nonnemaker singled, advanced to second, and scored on Pat Wilson's hit.

## Trackmen Lose In Two Outings

The Muhlenberg track team has shown steady progress in their last two outings. Against Juniata on Wednesday, April 30, they lost by a 90-36 count. Herb Owens, John Haberern, Chuck Weider, and Ben Schielkopf, each took first places in their events.

The thinclads met Delaware Tuesday, May 6, on Muhlenberg field and made their best showing to date. When the final tally was taken, the score read Delaware—86,. Muhlenberg—40.

**Three Mule Firsts**

The Bergmen were able to grasp only there firsts as Herb Owens took the 100 yd dash, Jerry Rehrig won the shot put, and Glenn Johns placed first in the discus. Delaware was successful in taking the other 11 firsts but Berg gained its points when several men placed second in their events.

The entire meet was played in a drizzling rain but despite this fact good times were recorded in most of the running events. This was the fourth loss against no wins for the team but the outlook is becoming much brighter with each meet.

## Juniata Hosts 7th MASCAC Golf Tourney

by Dick Hess

The Middle Atlantic States Collegiate Athletic conference will stage its seventh annual Conference Golf championships Saturday, May 10, at the American Legion country club near Mount Union, Pa. The host team will be Juniata college.

The play is a 36 hole medal for four man teams. Awards will be presented to the winning team and individual medals will be presented to the lowest five scorers.

**Thirty-two Competitors**

In the seven years that this tournament has been active, 32 different colleges have competed. 23 of them are members of the MASCAC, and the remaining nine are non-members.

Teams will be composed of four men, but alternates may compete for medalists honors. Last year's

(Continued on Page Four)

## Berg Tennis Team Victorious; Defeats Wilkes For First Win

Muhlenberg's tennis squad broke into the win column for the first time this season with an 8-1 victory over Wilkes college last Thursday, after absorbing its third consecutive loss of the year at the hands of Albright in Reading the day before. A third match slated for Saturday against Temple was called off because of rain. The record is now 1-3.

The 6-3 loss to Albright marked the first time the Mule netmen managed to score a point, having been shut-out 9-0 by Lafayette and Lehigh in the opening two contests of the season. The Mules garnered their three tallies in one singles and two double matches. Gil Sopher defeated the Lions' Norm Bennett, 8-6, 7-5, in singles competition. In the doubles events Bob Leighton and Harry Berg turned back Charles Semple and Al Kutner, 6-1, 8-6; while Frank Csaszar and Roger Christine drubbed Zehner and Ted Gabriel, 6-1, 6-0.

In scoring its one-sided victory over Wilkes, the Mules swept all eight points by winning the first two sets of every match. The visitors' only winner was Paul Bleiler. who defeated Muhlenberg's Brent Follweiler.

# . . . Student Council Report . . .

May 1, 1958

The regular meeting of the 1958-59 Muhlenberg college Student council was called to order at 7 p.m. by President Richard Truchses. All members were present except Mr. Carpenter.

**COMMITTEE REPORTS:**

**Chapel:**—Miss Schell reported that there were 2 Chapel slips revoked during the previous week.

**Special Committee report:**—Mr. Carnevale submitted an eight point committee report on the parking situation around the Muhlenberg campus. All eight recommendations were discussed, with the exception of two minor points the report was well received.

**NEW BUSINESS:**

On motion by Mr. Siegel and Mr. Bausch it was recommended that a change in assembly hour be made to Thursday morning at 11 a.m. and that Chapel credit be given for attendance.

Mr. Horger requested that a responsible senior be appointed as chairman of the Big Brother committee. Election will be held at the next Council meeting.

Mr. Smith requested that funds be made available for the cleaning and storage of the cheerleader uniforms. Motion by Smith and Carnevale.

Mr. Carnevale recommended that traffic regulations be enforced on and around the Muhlenberg campus.

The meeting was adjourned at 7:45 p.m. on motion by Carnevale and Mr. Miller.

Respectfully submitted,
DAVID K. BAUSCH, Recording Secretary

# Muhlenberg Nine

(Continued from Page Three)

where he has toiled along with returnee Bill Mullen (5-2 last year) a junior, and sophomores Joe Laurinaitis and Ed O'Mara, former LaSalle High ace.

**Outfielders**

In the outfield, the Explorers will have returnees Don Zelinski in left, Tom Shemely in right, and sophomore Connie Newman, also a pitcher, in center. Mike Schlacter is a reserve flychaser with experience.

Against Penn in their opener, O'Mara and Newman were victims of that poor defense (five errors) as the Quakers eaked out an 8-6 decision. For LaSalle, O'Mara, Sheehan, Serlacter, and Zelinski each had two hits.

Following this contest, the Explorers lost to Temple, 7-0, beat Swarthmore, 9-1, behind some flawless fielding and strong hitting, and lost to Rutgers of South Jersey, 7-5. Lafayette humbled the Explorers, 7-0, and West Chester STC followed with an 11-5 conquest in which coach Pollard's nine committed a total of eight errors, six in the infield.

# Lambda Chi Alpha

# Mule Golf Match

(Continued from Page Three)

medalist champion was John Dunn from the Bucknell university, and the runner-up was Les Norbury of Lehigh who lost to Dunn in a sudden death play-off. The 1957 team champion was Bucknell, repeating from their up-set win in 1956. Lehigh university was the 1955 champion, and host team Juniata won in 1954.

**Bucknell and Lehigh Favored**

Nearly every member of the conference is expected to participate this year, and competition will be extremely keen. Directors of the tournament are expecting the best competition among schools since the tournaments founding in 1950. Pre-match favorites seem to indicate either Bucknell or Lehigh to repeat their excellent showing of last year. Albright, Moravian and Muhlenberg loom as dark horse threats. Lafayette placed fourth last year and is again expected to provide excellent competition for any team.

Juniata holds the low team total, with a 616 in 1954. Low 36 hole medal is held by Frank Arasser of Juniata, 1954.

The course is comparatively easy in good weather, and is reported to be of medium length.

**All students interested in voicing opinions about parking regulations are invited to attend Student council meeting tonight, May 8, at 7 p.m.**

# The Chowline

Even though we have a losing baseball squad, Ray Croft, centerfielder, has done an outstanding job by boosting his average to .385 this year.

After two years on the varsity team, Ray has really made a showing by this tremendous improvement.

Congratulations are in order for all the new class officers, Chic Smith, returning to office, Stan Dudak, returning to office, and Jay Van Kempen in his first administration. The Snack bar crew hopes that these men can carry their functions to the best of their ability.

Well, it looks like they're finally repairing the second floor of the Student center.

Don't forget to attend the Mask and Dagger production of "My Three Angels."

Before the play, drop over to the Snack bar and sop up a cup of coffee or a coke. It should hold you playgoers until intermission when Slater refreshments will be served.

Now that the rainy season has come upon us, be sure to patronize the Snack bar. It makes a good stopping off place while going from East hall to West hall. While you're there, warm your insides with a cup of hot chocolate.

# PHI KAPPA TAU BEGINS CONSTRUCTION OF NEW HOUSE

## Problems Beset Fraternity Efforts In Acquiring New Living Quarters

Announcement of the coming construction of a new home for the Phi Kappa Tau fraternity marks the end of a long period of hoping and waiting by the resident and graduate brothers. Phi Taus will take with them many memories of their 36 years in the house at 2224 Liberty st.

The Alpha Sigma club, approved by the college in September of 1914, rented a house near the center of the city shortly after its founding. After becoming the seventh chapter of the Phi Kappa Tau national social fraternity in 1918, the chapter bought a residence at 1119 Linden street in 1920. This was sold in 1922, when the present house was bought and remodeled.

Limitations imposed by the size of the house and by the fact that it was a converted residence led to early consideration of new quarters for the fraternity. The Rev. Elmer Truchses, '26, recalls talk of acquiring a new house even in his days as an active brother. The brothers worked hard on the financial campaign, and at the Founders' Day banquet, March 18, 1938, the mortgage on the Liberty St. house was burned.

During the Second World war, the college rented all fraternity houses for housing students and naval personnel studying at Muhlenberg. Immediately following the war, the Phi Taus actively considered buying a larger residence and converting it into a fraternity house. This idea, pursued actively from 1946 to 1949, ran into insurmountable difficulties in the form of zoning laws which would not permit the fraternity to move into areas where suitable houses could be found.

The campaign for a new house began in 1953, and some funds were solicited at this time. A full campaign was begun with the printing of a brochure in 1954. Robert Albee of Allentown was named chairman for the drive and all alumni brothers were contacted.

The College has supported the Phi Tau house campaign and will lease the site to the fraternity. The area south of Chew Street has been divided into several lots; and, according to Howard M. MacGregor, the college considers it "highly desirable" that any fraternity planning a new house build in that area. This would lead to more close geographical and perhaps social relation between the Greek-letter social organizations of the campus.

## Completion of Building Set For Fall; Site To Be Located On Chew St. Lot

Construction will begin within the next two weeks, on the new Phi Kappa Tau fraternity house which will be built to the southwest of the lot adjoining the present Alpha Tau Omega fraternity at 23rd and Chew sts., across from the college campus. Dick Truchses, president of Eta chapter of Phi Kappa Tau at Muhlenberg, has announced that the new house will cost an estimated $85,000 for construction.

**First Since 1924**

The new Phi Tau house will be the first fraternity house to be built at Muhlenberg since 1924 when the ATO house was constructed. The house will be fashioned after the new split-level design and will provide accommodations for 28 men. The tentative completion date has been set for November 1, 1958, with final touches to be finished by November 15.

Robert Frey, architect for the structure, has included a large living room and a dining room which will seat approximately 50 people. The house will also have a large recreation and chapter room beneath the dormitory floor. Outside terraces will adjoin the house and will overlook Muhlenberg lake on the southeast side.

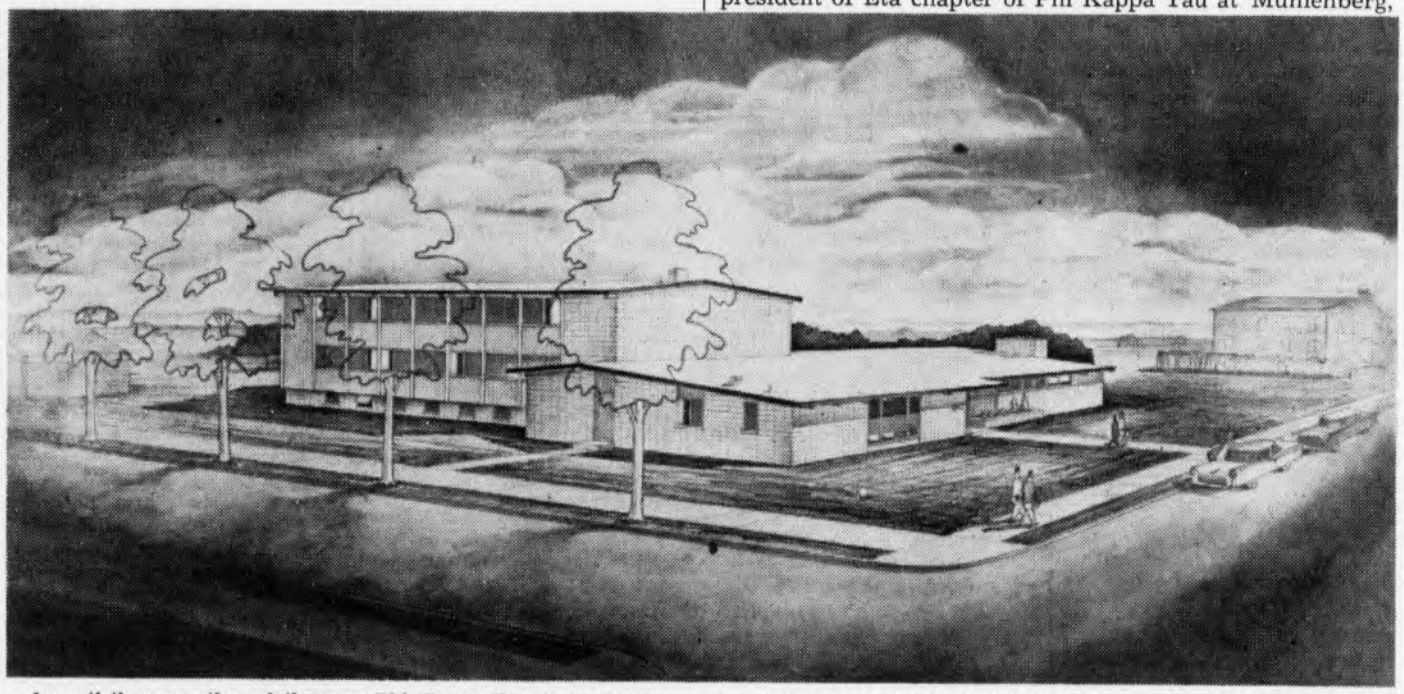
**Contractors**

The Thomas A. Armbruster company has been given the construction contract for the new building. Funds for the construction have been accumulated over a number of years under the leadership of Robert Albee, chairman of the drive, and a member of the executive group of the Home association of the Eta chapter of Phi Kappa Tau. The house is being financed mostly through the donations of alumni, and the cash and real assets of the Home association.

**Building Program**

The building program of Phi Kappa Tau has been in progress for a number of years, but due to financial difficulties, the fraternity has been unable to begin construction until the present time. The original plans for the house were of a Colonial design, but since then, they have been changed to a modern motif, a trend which has met with favor by a number of chapter houses throughout the country. The new Phi Tau house will double its present living capacity, which is now about 14.

The Eta chapter of Phi Kappa Tau has a present brotherhood of approximately 32 men. It is now located at 2224 Liberty St.



**An artist's conception of the new Phi Kappa Tau fraternity house depicts the new split-level style in which the house is to be built. This is the first fraternity house to be built on the Muhlenberg campus since 1924; it will be built to accommodate approximately 28 men. Construction will begin within the next two weeks and it will probably be completed by November 15. Its location will be on the southernmost extreme of the lot adjoining the present Alpha Tau Omega house.**

## Cedar Crest College Dramatists Present Annual Spring Play

Cedar Crest college's Buskin society will present its annual Greek play, the **Bacchae** of Euripides, this week in the outdoor theater. There will be two performances, the first at 6:30 p.m. Friday, May 16, and the second at 2:30 p.m. on Saturday, May 17.

The play was written by Euripides during his self-imposed exile in Macedonia, to explain his reason for this action. It is his last work, written while he was in his seventies. It is a difficult and rarely produced drama.

At the time of the writing of the play, Pericles was imposing dictatorship upon the once-democratic city-state of Athens. The theme of the play is anti-dictatorial, and this point is stressed

## *Council Makes Proposals On Car, Parking Problem*

by Larry Woodward

In an effort to solve the urgent parking problem on the Muhlenberg campus, a committee of the Student council, under the direction of Nino Carnevale, will present a list of suggestions to the board of directors on May 27. After a careful study of the situation, the committee has found that these are the most feasible solutions to the problem.

There have been a great many complaints from the residents of the area surrounding the campus pertaining to student parking on their premises. The Allentown police department has proposed that parking meters be placed around the campus in order to alleviate the problem. Muhlenberg college has also proposed that freshman and sophomore students be prohibited from having cars on campus next year. These suggestions made by the committee of the Student council are primarily directed at eliminating these two proposals and at the same time solve the existing problem.

**Fifteen Dollar Fee**

The suggestions to be made are as follows: 1. That all resident students who have a car on campus, be charged a yearly fee of $15, or $7.50 per semester.

2. Men in Phi Kappa Tau, Phi Epsilon Pi, and those living off campus will not be required to pay the above parking fee. All men who reside in the dormitories, Alpha Tau Omega, Lambda Chi Alpha, Tau Kappa Epsilon and Sigma Phi Epsilon, and who have cars, will be required to pay the fee. Curb areas surrounding the fraternity houses will be reserved for use by its members.

3. All men and women must register their automobiles.

4. All resident female students with cars shall be required to pay the parking fee for reserved parking behind West hall.

5. All commuters and the men in Phi Kappa Tau, Phi Epsilon Pi, and those living off campus, must use the Memorial hall parking facilities when coming to the College.

6. The stated rules will be enforced by Student council and offenders are liable to council.

## Alumni Set Plans For Big Reunion

Muhlenberg's alumni will hold their annual reunion weekend on Friday and Saturday, June 6 and 7. At a meeting held on January 4 in the Administration building, the Reunion committee chairman and the class officers met to discuss the schedule for the weekend. Bruce Romig '46, Alumni secretary, outlined the events that are to take place.

The program will begin with a golf tournament at 11:30 a.m. on Friday at the Lehigh Country club. Ray Whispell and the varsity golf team will take care of signing up and organizing the alumni who wish to participate. The Russ Clark Golf trophy will be given to the top man in the tournament. Other prizes will be issued to participants who will compete under the Hallowoy Handicap system.

Registration for the weekend will take place at noon on the Muhlenberg campus. This is required of all alumni.

On Friday evening, major class reunion dinners will be held at various hotels in the area. Each class, whose numerals end in three or eight, is responsible for the programing of its own affair. A highlight for the off-year men will be a stag party held in the Jade Room of the Hotel Traylor. Parade outfits are usually worn in this function, and awards are distributed to alumni with the largest families, and alumni who have travelled the greatest distance to attend.

Muhlenberg's alumnae will also participate in the weekend's activities. There are approximately 365 women that have attended night school or summer school to obtain teaching degrees. These

## Business Club Holds Election Of Officers For Coming Fall Term

On Wednesday, May 7, the Business and Economics club of Muhlenberg college held a meeting for the election of officers for the 1958-59 school term. Elected to office in the organization were: Burt Eisenbud, president; Spence Tuchinsky, vice-president; Dave Bausch, treasurer; and Jim Waller, secretary.

All four of these men are business majors. Eisenbud resides in Allentown, and is a member of Phi Epsilon Pi social fraternity, the **Ciarla** staff and the Honor court. Tuchinsky is also a native of Allentown. His extra curricular activities include Phi Epsilon Pi fraternity, the Mask and Dagger society and membership on the Student council. Dave

## Cecil B. Rhodes Scholarships Offered To Eligible American College Students

Cecil Rhodes, British colonial, Imperial statesman, and practical financier, provided in his will for the maintenance at the University of Oxford of two hundred scholars for terms of two to three years. The value of each scholarship is now $1680. In his will Mr. Rhodes mentions the objects he had in view in founding the scholarships for Americans: "I . . desire to encourage and foster an appreciation of the advantages which I implicitly believe will result from the union of the English-speaking people throughout the world, and to encourage in the students from the United States of North America who will benefit from the American scholarships to be established for . . . instilling into their minds the advantage to the colonies as well as to the United Kingdom of the retention of the unity of the empire . . . at the university of Oxford under this my will an attachment to the country from which they have sprung, but without, I hope, withdrawing them or their sympathies from the land of their adoption or birth." He further defines the principles on which he wished his scholars to be selected by beginning: "My desire being that the students who shall be elected to the scholarships shall not be merely bookworms . ."

**Qualifications of Candidates**

A candidate to be eligible must (a) be a male citizen of the United States, with at least five years' domicile, and unmarried; (b) by the 1st of October of the year in which he applies have passed his eighteenth and not have passed his twenty-fourth birthday, a candidate who would otherwise be over the age limit but who has had at least 90 days of active service in the Armed Forces of the U.S.A. since June 27, 1950, may deduct the period of his service from his actual age if by so doing he will qualify under the regulations; (c) by the time of application have at least Junior standing at some recognized degree-granting university or college in the United

## Dr. Millard E. Gladfelter To Be Speaker At Muhlenberg Graduation Ceremonies

Dr. Millard E. Gladfelter, provost and vice-president of Temple university, will deliver the principal address at Muhlenberg college commencement ceremonies Monday, June 9.

The exercises, marking the 110th academic year, will be held at 10 a.m. in the grove adjoining Egner Memorial chapel. The traditional academic procession of faculty and seniors along campus walks will precede the outdoor program.

A class of 160 seniors will receive bachelor of arts degrees, bachelor of science degrees, and bachelor of science in business administration. The degrees will be conferred by Dr. J. Conrad Seegers, Muhlenberg president, with the candidates presented by Dean of Faculty Henry M. M. Richards.

**Five Honorary Degrees**

Five honorary degrees will be conferred at the commencement ceremonies. Prizes and awards to seniors and a number of undergraduates also will be presented by Dean Richards.

Dr. Gladfelter, the commencement speaker, was awarded an honorary doctor of laws degree by Muhlenberg in 1947. He also holds a number of honorary doctorates from other Pennsylvania colleges.

**Native Pennsylvanian**

A native Pennsylvanian, Dr. Gladfelter was graduated from Gettysburg college. He received his master's degree at the University of Wisconsin and earned his doctor of philosophy degree at the University of Pennsylvania.

In 1930, Dr. Gladfelter became director of the Temple University high school and the next year was named university registrar. In 1941 he assumed his present position as vice-president and in 1946 took on additional responsibilities of provost.

His professional activities include service as vice-president of the Middle States Association of

# Editorial Views——

## A Proposal . . .

For years, Muhlenberg has been striving toward the institution of a good and workable honor system on campus. According to Dean Richards, we presently **do** have one, but ideally, it is not what we could call "complete" by any exaggeration of the term. "If the technique is used, the physical arrangements of the examination must include the following:

(a) Seating must be in alternate rows only.

(b) All books and papers must be placed in the front of the room.

(c) No communication of any kind may be permitted between students taking the examination.

The students must also sign a pledge that he will "report to the Dean of Faculty any violation or suspicion of violation that comes to" his attention. For many, it is this final clause that prevents students from subscribing to the system. No one wants to "squeal" on his friends because he feels it is none of his business—as long as he himself is honest. Unfortunately, there is nothing we can do to change the attitudes of men and women who have already become a part of the Muhlenberg college system.

There is, however, a way that a complete honor system (one that will work in every facet of college life, including social and academic procedures, and one that requires the honesty of the individual, and an accompanying Honor court to handle the deviant cases might be introduced). Theoretically, we are too solidly imbedded in Muhlenberg custom to change ourselves.

But what if a complete honor system were to be inaugurated with a class of incoming freshmen, along with the stipulation that they fully realize the sincerity of the policy? Real honor system tests could be given only to that class, and each following class, in the event that it should work.

Of course this would be a gradual, a very gradual, growth of an honor system, extending over a period of four years, but if the theory sounds feasible, it might be worth an attempt. The project would take a great deal of planning and the **WEEKLY** will stand behind any reasonable idea that would eventually evoke a good honor system.

## Big Brothers . . .

Burt Eisenbud has recently been selected as the head of the Committee for the Big Brother program next year. As we recall, this innovation was made last year and every freshman was assigned a big brother. The initiative was to be taken by the big brother by writing to his little brother over the summer.

Of course the purpose of the program is to help the freshmen get acquainted with the College and its members, and the idea is a good one since new collegians need answers to their many questions as well as a friend who can help them on different school subjects.

Last year's big brother program was only a partial success. Many of the freshmen who met their big brothers undoubtedly found the answers to many of their problems. However, more upperclassmen did not bother to take the pains to write or even meet the men whose names they received over the summer. Now this isn't really as difficult as it seems.

If the program is to be successful this year, men will have to realize the small amount of effort they must exert. There will be approximately three hundred freshmen entering Muhlenberg in the fall and six hundred upperclassmen to act as big brothers. But actually, each upperclassman has two or three little brothers, so we can see that the balance is unequal.

This means that as many men who are interested should sign up with Ethel at the information window, and when they do, that they should realize what the small duty entails. The incoming freshmen appreciate what we upperclassmen can do for them, and we should be equally as willing to orientate them into Muhlenberg college.

# Radioactive Fallout Has Destructive Effects On Life

**The dangers of the Atomic age are not limited to the initial heat blast of a nuclear explosion, but include the more insidious threat of atmospheric contamination by radioactive particles.**

**by Jack Magan**

What is radioactive fallout- Where does it originate, and what does it do? With the advent of nuclear and thermonuclear reactions controlled by man, the fallout problem raised its ugly head. It was found that products of such reactions caused harmful effects in man, animals, and plants.

Further investigation of radiation showed that there has always been some amount of background radiation present in our environment, and that the man-made nuclear fission and fusion processes merely added to already existing sources.

**Radium Causes Disease**

With the expansion of the radium dial industries in the twenties, it was found that this radioactive element caused a variety of symptoms known as "radiation disease" to appear in those workers who were exposed to it for long periods. Modern biologists have also noted genetic mutations caused by radiation exposure.

Safeguards have been provided in the radium industry, and the disease is now rare in these circumstances. If man-made radioactivity is to increase, however, further safety measures must be provided wherever necessary.

**The Nature of the Beast**

The cause of these injuries is the emission of various types of particles and energy by unstable atoms. There are five types of radiation of interest in the study of fallout. Alpha radiation, or helium nucleii, contains two neutrons and two protons, and travels only about two to five centimeters in air. Beta particles, which are high energy electrons and positrons, travel about 300 centimeters or ten feet. Gamma rays are electromagnetic, that is, they are of the same type as X-rays. Fission fragments are portions of former nucleii which have been separated in the fission, or splitting process. Neutrons, the fifth type, are the building blocks of the atomic nucleus, along with protons.

Atoms are composed of electrons in orbit or energy level, about a nucleus composed of protrons and neutrons. In general, atoms are unstable if there is a significant difference between the numbers of protons and of neutrons in the nucleus, as in the case of uranium or mass 235. This nucleus contains 143 neutrons and 92 protons. It is thus naturally unstable and seeks to even up the distribution by emitting neutrons and converting neutrons to protons by beta emission.

**Nuclear Fission**

Fission can be accomplished by bombarding atoms with neutrons, resulting in the splitting up of the nucleus into various forms of other elements, usually unstable and radioactive. The bonding energy of the nucleus is released, and can be utilized for destruction or work.

The fusion process involves the joining of low mass heavy hydrogen (deuterium) atoms to form heavier elements such as helium and tritium. Tritium is the only direct radioactive product of this process, and it is only mildly radioactive. However, the intense heat required to start the reaction is generally produced by a fission process, which gives diverse complex radioactive products.

**The Explosion of a Bomb**

The energy given off from the fusion process for one pound of deuterium is approximately equal to that from the explosion of 26,000 tons of TNT. When these processes occur in a bomb explosion the temperature and pressures produced by the energy are in the order of millions of degrees and millions of pounds per square foot. These conditions cause vaporization of the bomb casing and radioactive material, followed by rapid ascent of the fireball, and expansion which cools the vaporized radioactive products and causes them to condense about dust particles or any solid material at hand. The fire ball may rise as fast as 250 miles an hour, reaching a height of four miles in the first minute and 6.3 miles in ten minutes.

For a blast occurring at about 3,000 feet above the ground, or high enough so that the fireball does not touch the ground, approximately half of the energy is utilized in the shock wave. One third becomes thermal radiation, i.e. is dissipated as heat, and fifteen per cent is turned to nuclear radiation. This is, then, an important problem.

**Fallout Distribution**

The radiation contamination is most localized for blasts closest to the earth's surface, since the ground is broken up and lifted with the fireball, giving the fission products large particles on which to condense. Large particles fall faster, and thus spend less time in the air, and are not blown as far from ground zero as the smaller particles. Higher blasts tend to rise higher and form smaller particles, scattering fission pro-

(Continued on Page Six)

# M & D Stages Success With 'My Three Angels'

**by Dick Kennedy**

Each evening, the M & D production of **My Three Angels** saw more improvement and the final show Saturday night was (for the college theater) a success. As the performance progressed, the cast overstepped their initial stiffness and eventually loosened up for the finale. This made the play thoroughly enjoyable.

The turnabout plot of three convicts doing good by doing evil automatically provoked the humor of the play, but not without the touch of the players adding to it. The convicts, Gribben, Sabol and Tuchinsky did an adequate job in their parts with few exceptions. Tuchinsky, an old hand in the theater, was well-poised and made a good appearance, both verbally and in stage direction, which is naturally expected from a man of his experience on the stage.

Bob Sabol, in his second performance on the Muhlenberg stage, also did a stellar job. By improving his stage diction and expression since last time, he boosted his potential greatly and turned in a good show. In a way, his subtle humor and stoic pathos in the face of a crisis made his portrayal of Jules a fine one indeed. Bob's major drawback, however, seems to be in his reservedness—his refusal to explode and go all out before the audience. He lacks what critics call the "ham." But with more experience on stage, this ham characteristic appears and the actor begins to feel the parts he plays with more ease.

On the other end of the ladder is Simon Gribben, who did a much better job than many expected. Simon is a natural when it comes to acting. However, what Sabol lacks, Gribben overplays. There is a point where the degree of ham no longer has its punch, and in various parts of this play, Simon went too far. Not that he wasn't amusing in his role as a comedian, but the audience realized that they were watching a play. The situation and the character should make the comedy as realistic as possible by being balanced out, and Simon made his part just unrealistic enough to lose the involvement of his audience. On the whole, though, they enjoyed his antics, even though they couldn't live the play.

Jim McConnell, singing his Muhlenberg swan song, never fell below expectancy. Probably the best actor Muhlenberg has seen in years, McConnell has proven that he can play any part well, be it tragedy, comedy, or straight. Through his four years in college, he has shown his ability in **Othello, The Man Who Came to Dinner, The Caine Mutiny, Pygmalion,** and others. He has been the nonpareil in acting for the Muhlenberg audience.

It was said by one person that Jan Horvath looked "put-on" or false when she was on the stage, but this is not so. For having the part of a straight lady in a "hilarious" comedy, she was excellent. The reason she looked false on the stage was that those same actions indicate her sincerity in real life.

The supporting cast, Bob Kehrli, Nadia Dunlap, Penn Chabrow, and Karen Kamena did well in their parts. Kehrli and Dunlap were particularly well-cast and they played their roles to the hilt. Karen Kamena and Penn Chabrow show promise for future performances if they, too, break out of their stiffness.

On the whole, we might say that M & D has done it again by producing an enjoyable and amusing play.

# Muhlenberg Alumni Announce Sale Of Official College Chairs

The Alumni office has announced the sale of a Muhlenberg college chair, pictured below. Now

Muhlenberg alumni and undergraduates will be able to have in their homes and offices a lasting reminder of their alma mater.

This official college chair was suggested by George W. Heiser '18 alumni representative to the Board of Trustees. It is constructed of northern yellow ash and is both sturdy and comfortable. Finished in glossy black, with the college seal permanently screened in gold on the back, the chair is designed to blend well with any room. For professional men, the chair is ideal in waiting rooms or conference rooms.

Alumni may order the chair, priced at twenty-seven dollars, by mail. Present Muhlenberg students may purchase the chair through the Alumni office where it is now on display. All proceeds from the sale of the Muhlenberg college chair will go to the alumni fund. The college chair is a product of S. Bent and Brothers, Inc. of Gardner, Massachusetts, who have made these chairs for more than one hundred colleges and universities.

# 'Sing And Ring' Ceremonies Planned By Women's Council

A new tradition will be inaugurated at Muhlenberg college this Sunday when the women students hold their Sing and Ring ceremonies on the mall. Preparations for the affair have been under way for the last two weeks. All the women on campus will be participating in this spring event in the hopes of firmly establishing it as an annual program which will assume greater proportions each year.

Four groups, three of which are resident students, and the other commuting students, will perform. Their performances will be judged by members of the faculty, and the winners will receive a gold loving cup, specially engraved for the occasion. Upperclasswomen will receive their class rings following the Sing, and a tea and open house in West hall will follow.

Parents, the administration, the faculty, and the male students have received invitations. In case of rain, the activities will be moved into the West hall chapel.

**ATTENION SENIORS!**

**Contingency deposit refunds for graduating seniors will be mailed to your homes around the end of June.**

**Treasurer's Office**

*In the News . . .*

# DICK TRUCHSES

**by Ed Meyer**

Dick Truchses, the newly elected Student Council president, is a pre-theological student majoring in history and political science. He plans to attend Gettysburg seminary, near his home in Carlisle, after graduation from Muhlenberg.

In addition to his time-consuming position as student body leader, Dick is the newly-elected president of Phi Kappa Tau, the president of the Lutheran Student association, and the Editor of the "M" Book. He is a member of the choir, band, IFC, Cardinal Key society, and Mermaid Tavern society. In addition, he serves on the Institute of Faith committee. Recognition of his achievements at Muhlenberg is evidenced by his brotherhood in four national honorary fraternities: Omicron

Delta Kappa (leadership), Phi Alpha Theta (History), Phi Sigma Tau (philosophy), and Pi Delta Epsilon (journalism). In addition, he is academically in the top part of his class—a Dean's list student.

After graduation from seminary, Dick would like to spend some time (not a career) in the Navy Chaplain Corps, tentatively followed by work with the Lutheran World federation or the World Council of Churches.

Dick has great faith in **"Potential Ability"** of the average Muhlenberg student which is rarely realized, for reasons which he does not know. Year by year, he feels that the student body is becoming better equipped, academically and socially—"the level of the student performance is going up." He would make a fine publicity man for the college: Dick has great faith in Muhlenberg as a college and feels that it ranks with the best small schools in the country, "even though it doesn't have a name."

**Students interested in Fulbright awards for 1959-1960 should see me before the end of the present semester in Room 311, Administration Building. Dr. John Reed**

# Jurus Wins First Place In MCA Art Competition

Phil Jurus, a junior pre-theological student and history major from Hazelton, received first place in the Muhlenberg Christian association art contest. Second and third places were won by Alma Perlis and John Haberern. John Dreisbach and Edward Hanna received honorable mention.

Jurus' work, entitled "Fides Super Scientiam" (Faith over Science), was done in the medium of pastels. In the lower left of the drawing is a cross, dark and solid, which creates a shadow that extends up and across the picture toward an atom drawn at the top on the right. The cross represents faith, the atom, science. The shadow shows that the influence of faith reaches across all of life even to science. The bright colors surrounding the atom becomes darker as the eye moves to the lower left, where, around the cross, the colors are dismal. This is to show that, in today's world, more emphasis tends to be put on science than on religion.

Second place, "Lunch for Tuesdays" by Alma Perlis is a still life of great realism and rich color. Third place was captured by John Haberern's ceramic portrayal of Chaucer's "Troilus and Criseyde." The vase has three designs representing the three characters, Troilus, Criseyde, and Pandaras. The world of Criseyde is in the feminine color of pink, surrounded by a black halo to show the bad in her and an off-shade blue area to show her truth and her falseness at the same time. The world of Troilus is a pure blue to show his faithfulness, tinged slightly with some of the false blue of Crysaeida, the woman he loves. His life is a double one, divided by war, shown by the black-green shade of camouflage. This shade for war forms the background of the whole vase, for all three lives were affected by war. The third world, the world of Pandaras, is shown in red and black, the colors of the devil. Pandaras adds the comedy to the story as he makes a mockery of love by trying to bring Troilus and Crysaeida together for the fun of it.

The contest, sponsored by M.C.A., was under the direction of student chairman, John Dreisbach, and was judged by Dr. Barba and Mr. Stark.

## 'Round Campus

**Saturday, May 17**

**Muhlenberg-Albright baseball game will be played at Albright.**

Track meet with Franklin and Marshall will be held away at 2 p.m.

**Muhlenberg - Lebanon Valley tennis match will be held at home at 2 p.m.**

**Monday, May 19**

Muhlenberg-Moravian baseball game will be played at Moravian at 4 p.m.

**Wednesday, May 21**

Muhlenberg-Ursinus track meet will be held at home at 3:30 p.m.

**Muhlenberg-Bucknell baseball game will be played away at 3:30.**

Muhlenberg - Bucknell tennis match will be played at Bucknell.

**Thursday, May 22**

**All sports banquet will be held in the Commons at 6:30 p.m.**

# Elementary School Students Honor Hero 'General Pete'

In honor of the 30th anniversary of the Muhlenberg Elementary school in Allentown, the cooperative efforts of a fifth grade class composed a poem concerning the historical figure from whom their school, as well as our college, derives its name. The incident from the life of "General Pete" herein commemorated should have at least a vague familiarity to Berg students since each fall witnesses its enactment in Frosh recitations of the traditional "Freshman Challenge.'

There is a man in history of whom we're very proud
For the courage in his lesson when he said these words aloud:
"There's a time for all things," said he, "A time to preach
and to fight"—
Then he glared at his congregation and raised his fist with
might;
"And now is the time to fight," was the echo in the church
that day,
As under the cloak of reverence a soldier's uniform was on
display.
To fight for the cause of freedom, and protect the rights of all,
The men in that congregation joined the spirit of the minister's call!
They waged a mighty battle against the British Crown
Until the fields were quiet and the enemy was cut down.
Victory was ours, independence is the prize
Thanks to a congregation and to a minister's surprise.
Now, many years later, the words still ring true—
"The time to fight" for knowledge has come to be our clue
From the minister of old, to a building which bears his name—
John Peter Gabriel, Muhlenberg, our spirit is still the same!

# LETTERS TO THE EDITOR

## *In Case of Emergency*

To the Editor:

I wish to congratulate all members for the wonderful cooperation shown here during the Air Raid alert of May 6. I must say that if an actual attack should have taken place, Muhlenberg would have had the distinction of having one of the largest casualty lists in the vicinity.

First of all there is no organized plan of procedure for an air raid on this campus. I personally checked with the dean's office on Monday, May 5, to find out what was going to be done in regards to the test. The answer I received was exactly nothing. The dean's secretary, though, did show an interest and took it upon herself, with Dean Richards' approval, to contact department heads and ask them to evacuate their rooms to the basement of first floor or their respective buildings.

An immediate check of the area after the alert was sounded showed the following: The Library was evacuated to the basement, congratulations; four or five classes with the Science building took part, this is good, but I know there were more people in the building than those who took part; the Administration building showed exactly one group of students in the basement hallway, what happened to the rest? The Student center showed nobody doing anything. I did not get a chance to check the dorms, but I imagine the situation was not much better there.

This shows real concern of the staff of our college over the safety of you and me, almost! May I suggest that the staff immediately do something about this situation. A possible solution is a student civil defense organization consisting of any students who belong to their home Civil Defense unit. As much as we hate to realize the possibility of attack upon our country, it can happen and as of now it could happen most any day without much warning.

**Wake up Muhlenberg and get on the ball or else someday you may be laying to rest a great number of Muhlenberg personnel.**

(signed); Samuel C. Budge

## *Word of Gratitude*

To the Editor:

May I take this opportunity to express my confidence that Dean Dietrich will do a commendable job at Wittenberg. The difficulties in initiating co-education at Muhlenberg were very great; Miss Dietrich, it seems to me, has earned the gratitude of the college as its first Dean of Women. And I think that this is all that need be said on the matter.

Sincerely,
William Kinter.

## *Have Facts: Will Travel*

To The Editor:

During the past week, we have been privileged to have on our campus two discussions on the "anti-intellectualism" in education. At both of these, the question has been raised as to the possibility of lack of required thought as the cause of this "rebellion", and forced education for those who do not wish it.

The forced education was explained Monday night by Dr. Whetter, the superintendent of Philadelphia public schools, as a means of curbing juvenile delinquency by not allowing those distinterested in education to leave the lower schools unless they have apprenticeships or jobs. This is a very valid and acceptable answer to this question. However, Dr. Whetter stated that certain courses like language courses are not taught in the elementary schools because of a lack of time due to the teaching of the "necessary" courses. But why is there such repetition in the courses given?

An example of this is the history courses which we have to go through during our pre-College and college schooling. In elementary school we are given a brief outline of American History, in junior high school we get more American history courses but with a little more detail. In senior high school we get another course with more detail and an even more detailed course in college. All these are required courses. But why can't they be condensed into two courses — say one at the pre-college level and one at the college level to allow more time for other work? In college we only get strictly detailed courses in a variety of subjects, the minute details of which we are forced to regurgitate in order to get good marks and please our "instructors."

Since Dr. Whetter or Dr. Jacob can not very readily answer the charges, I should like to know the opinion of the faculty on the following questions:

1. Why are most of our college courses regurgitation courses?
2. Why are the facts we are forced to cram and learn for exams not applied to problems which would force us to not only know the facts, but also force us to use thought in the application of them to certain problems which might confront us after college?

Penn Chabrow

## Teaching Positions

**College graduates who have not taken courses in education or who have not met in full the state requirements for teachers certification may establish their eligibility to accept teaching positions next September in New York or New Jersey by taking summer courses in state teachers colleges in those states, according to announcements received by the Muhlenberg college education department.**

# Dutchmen Lash Injury Riddled Mule Thinclads

The Berg thinclads dropped their fifth meet of the season yesterday, this time at the hands of Lebanon Valley, 84-42. The Mules were up for this one and were hoping for the first win since 1951, but bad breaks in the form of injuries plagued the team.

It looked as though victory were possible when Pierce Knauss and Dick Lewis took second and third in the mile. Lewis held the lead until the last lap while Knauss remained fourth. The Dutchmen's Salem then made his move into first. Knauss started to move up in the backstretch and passed two of the three men in front but it was not enough to catch Salem.

**Dutchmen Sweep Hurdles**

The Dutchmen swept both the high and low hurdles, the 100 yd. dash and the broad jump. The 440 yd, dash held plenty of excitement as five men were bunched together including Berg's Ron Sussex and Bob Sabol. At the far turn Sussex was spiked in the heel and lost his shoe but still finished the race fourth as Sabol took third. Two of Muhlenberg's high jumpers were also injured. Herb Loeffler was hurt as he cleared the bar at 5' and Bob Lukens pulled a muscle in the 100 but was still able to gain a tie for second in the jump.

The Mules had only four first places as Pierce Knauss put on a magnificent show of endurance in the two mile run. Knauss was in second place till the last lap where he began to pour it on and overtook Glaser who finished second.

# *Sports in Short*

**by Ben Livingood**

Muhlenberg's football coach and recently appointed new director of athletics, **Ray Whispell,** returned to Muhlenberg last week after a six-day visit to **Notre Dame** at South Bend, Indiana. Coach Whispell was the guest of the Notre Dame **football coaching staff** during his visit. **His purpose was to observe the Irish in spring practice drills.**

He left A-B-E airport on the morning of April 28 and arrived in time to take in practice on the afternoon of the same day. He stayed on campus with the coaching staff comprised of **Terry Brennan, Bill Walsh, Bernie Crimmins, Bernie Witucki, Hank Stamn, Jack Zilly, and former Philadelphia Eagle mentor Hugh Devore.**

Each morning Whispell **watched films of various spring scrimmages.** In the afternon he **attended practice. The Irish eleven practiced each afternoon from four to six,** then had a meeting before going to their special training dinner.

On Saturday afternoon the Mule coach accompanied some of the staff to **Indiana university,** where he observed the scouting of an Indiana scrimmage.

Notre Dame was in its third week of practice. The gridders ended their spring drills last Saturday afternoon when they played the traditional **Old Timer's game.** This annual contest is played between the current Irish squad and graduates who return to match their skill and age against the younger and less experienced undergrads.

In summarizing his impression of the football situation at Notre Dame, Whispell stated he was greatly **"impressed with the team spirit and the general esprit de corps on the whole campus."**

* * *

For quite some time recently, the Muhlenberg Athletic department has been attempting to book a fourth home football game for next season. As the schedule now stands, the Mule gridders will play an **eight-game schedule, only three of which will be home contests.** The problem was seemingly solved a few weeks ago, when the **University of Delaware** consented to play at Muhlenberg for the opening game of the 1958 season. However, after all arrangements had been made, **Delaware backed out of the deal.** Their reason? They said they decided that such a game**"would not be in the best interests of the University."** It is unfortunate this had to happen. The Muhlenberg footballers would have probably loved to have a shot at such competition. **Maybe the Blue Hens were a little worried as to what the Bergmen could throw up against them.**

# Bergmen Outhit LaSalle, 20-19; Halt Seven Game Losing Streak

Muhlenberg snapped a seven-game losing streak with a 20-19 win in 10 innings over LaSalle college in Philadelphia on Tuesday. Jim Nonnemaker's triple with one on in the tenth provided the margin of victory. In winning their second game of the season, the Mules outhit the Explorers, 16-13.

Previous to their second win, the Bergmen had lost eight games, the last of which was a 3-2 defeat at the hands of Lehigh university last week. The Mules came close to stopping Lehigh in Bethlehem, but were nipped in the effort as a disputed play put them on the short end. The game, a tight pitchers duel between Doug Koch of Lehigh and Jim Nonnemaker, was vigorously protested by Mule coach Jim Koslowski after a rhubarb resulting from an apparent tying run scored by Muhlenberg was nullified.

**Didn't See The Ball**

The Engineers held a 3-1 lead in the top of the ninth, when Nonnemaker led off with a home run to center. Then pinch-hitter Bob Schumacher tripled and Clair Miller was out on strikes. With Sandy Dreskin at bat and the squeeze on, the Lehigh catcher called for a pitchout and apparently caught Schumacher, but in the collission he dropped the ball. The runner scored on the play, but the umpire didn't see the loose ball and called him out. Dreskin then grounded out to end the game.

Against LaSalle, the Mules rebounded from a 14-5 deficit to defeat the Explorers in a game marred by hazardous winds and errors. Down 15-8 going into the eighth inning, the Mules scored nine runs before having a man retired. LaSalle came back with four runs in its half of the ninth to even the count.

With one out in the tenth, Pat Wilson walked, Ray Croft struck out, and then Nonnemaker delivered his timely blow to drive Wilson around the bases. Nonnemaker was credited with the win after having come on in the late innings in relief of Tony Caporale. Bill Higgins started the game but was lifted in the seventh.

# New Tennis Court Regulations Announced By Administration

Muhlenberg's Superintendent of buildings and grounds, Mr. John R. MacAuley, recently released formal regulations for the Muhlenberg tennis courts during the summer months. The rules will become effective beginning June 10.

The rules are as follows:

**Tennis Court Rules**

The following regulations will be in effect for the summer period, beginning June 10th.

1. Courts will be available for play during those hours when the attendant is on duty.
2. Courts will be available to registered summer school students, faculty, and staff members without charge.
3. Courts will be available to the public at a fee of 50c per hour per person.
4. The regular fee of 50c per hour per person will be required for guests of summer school students, faculty or staff members.
5. Children of faculty and staff members, or other members of their families, will be subject to the regular hourly fee.
6. In the event of a waiting line, there will be a one-hour limit on play.
7. At any period when all courts are busy, summer school students, faculty and staff members will have priority over all other prospective players.
8. A non-transferrable registration card will be issued to each registered summer school student. This card must be presented for admission to courts. The attendant will require identification for admission.
9. The rules requiring proper attire will apply as during regular school term.
10. Tentative daily schedule:
    Monday thru Friday—10 a.m. to dusk
    Saturday—12 noon to dusk
    Sunday—2 p.m. to dusk

**This schedule is subject to adjustment as demand may warrant.**

# Senger Paces Links Squad To 4th Place In MA Tournament

Dave Senger, senior captain of the Muhlenberg golf team, tied for sixth place honors with a 161 to pace his teammates to a fourth place in the ninth annual Middle Atlantic golf championship Saturday on the American Legion country club course at Mount Union, Pa.

Jack Pfeiffer, (167), Russ Bleiler (171), and Ron Choquette (182) were the other three Mules representatives. The team total was 681.

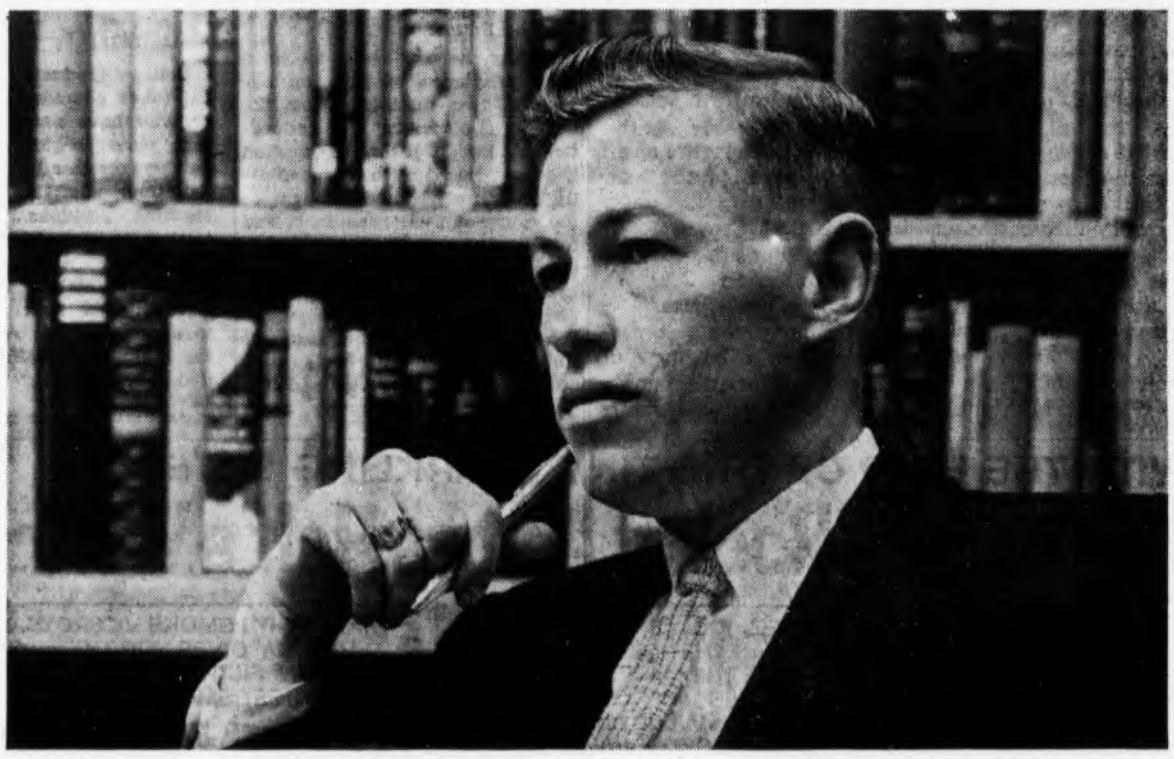
**Lehigh Wins**

The championship match was won by Lehigh university, its third win in Middle Atlantic tourney play. Stewart Iliffe, matching Senger's score with a 161, was low man for the victors. Lehigh's total was 668.

Hofstra college finished second with a 670 and Lafayette third at 672 in the eighteen-team tournament.

Medalist for the day was Johns Hopkins' Bob Lentz, who shot a 158 — the highest score to win the honor in the history of the championship. Four other linksmen finished in a tie for second medalist with 160s, but it was Alan Goore of Lafayette who took the prize in a sudden death playoff.

Muhlenberg has two matches remaining with Villanova and Scranton.



"What will it cost me to wait and buy insurance later?"

Young people getting ready to take on new responsibilities often wonder if they can afford to postpone buying life insurance.

No one can say what the delay might cost if you died, but here's an example of what happens to premiums as you get older . . . based on our most popular policy, the Brotherhood Provider for $10,000:

| Age | Premium Annual | Premium Monthly | For each dollar paid in you get back at 65* | Monthly income at age 65* (Male) |
|---|---|---|---|---|
| 20 | $156.90 | $14.10 | $1.74 | $77.20 |
| 25 | 180.20 | 16.20 | 1.56 | 70.90 |
| 30 | 209.30 | 18.80 | 1.40 | 64.60 |
| 35 | 245.80 | 22.10 | 1.24 | 57.40 |

Note that during the ten years from age 25 to age 35, the annual premium increases by $65.60, or 36%. And the amount you get back for each dollar invested decreases by 32¢, or 20%.

Now, the Brotherhood Provider is an outstanding value, no matter when it is purchased. And the net cost is even lower than the premiums suggest, because of Lutheran Brotherhood's substantial dividends.

But these figures do emphasize the advantages of buying insurance as early as possible. Why not start your own insurance program now, before your premiums go up? Give interest a chance to work for you. See your Lutheran Brotherhood representative, or write the home office.

**Based on current dividend schedule*

# Diamond Sluggers Test Bats Against Bucknell and Albright

by Don Poppe

A very disappointing Bucknell university team will be Muhlenberg's next opponent on Saturday, May 17. The Bergmen, who will travel to Lewisburg to meet the Bisons (6-10 last year), will face a squad loaded with numerous returnees.

Heading the list of lettermen is 5' 9", 160 lb. captain Jack Brothers, a .271 hitter last year, who has seen action at short and in center this season. He is a classy fielder, and posseses good speed. Also back is senior Larry Dempster, 5' 10", 170 lb. slugger who has alternated between first and third. Other lettermen include juniors Dick Burnett, an infielder who batted .233 last year, and Ron Staley (.250), a third baseman, and outfielders Dick Pitko (.245), Bob Sale, and Stu Wrigley (.226).

**The Infield**

In the infield, Dempster will undoubtedly get the nod because of his fine stick work over promising sophomore Roger Mackey at first. At second, Dale Pederson appears to be the top prospect, while either Brothers or sophomore Tony Conssentino will be at short. Staley, a converted second sacker, will be at third. Behind the plate, coach Ron Oberlin has been alternating junior Larry Shapiro, and sophomores Frank Regan and Larry Mathias to good advantage.

On the mound, where the Bisons have been hurting due to the graduation of their ace, Bob Beck (5-6), senior righthander Fred MacDonald is the only returnee. However, needed depth has come from sophomores, Tony Haley and Tom Thompson, junior Frank Moore, and senior Bill Walasek.

**Outfield Hurting**

In the outfield, Bucknell has definitely felt the loss of gardeners Bob Burns (.354) and Chuck Snath. Pitko, Sale, and Burnett have left something to be desired with the stick, and coach Oberlin, now in his first year at the helm, has been forced to make several changes in the outfield from time to time in an attempt to improve the offense.

Against Penn State in their opener, the Bisons were nipped by last year's Eastern NCAA champs, 7-4, as MacDonald absorbed his first setback. In succeeding encounters, Bucknell lost to Lafayette and Bill Evanko, 12-0, Dickinson, 7-4, Penn State again, 12-0, and Lehigh, 7-1. Their first victory was an 8-2 triumph over Franklin and Marshall as Thomp-

(Continued on Page Six)

# Dips Pull Late Inning Rally; Defeat Mules In Tenth, 6-4

HURRY UP JOB—Muhlenberg third baseman, Chick Smith, hustles to snare an infield grounder in Saturday's game with Franklin and Marshall college.

by Mel Kessler

The Diplomats of Franklin and Marshall staged a thrilling late inning rally, scoring two runs in each of the ninth and tenth innings to defeat Muhlenberg, 6-4, in a game played on the Muhlenberg field last Saturday.

For the Mules, Charlie Takacs pitched eight strong innings scattering six hits and giving up only two runs. However, F & M got to him in the ninth and pushed across two tallies which knotted the score at 4-4. Bill Higgins replaced Takacs in the tenth inning for the Mules and was touched for two unearned runs. Higgins' record now stands at one win and three defeats.

**Early Lead**

The Mules took a 2-0 lead in the first inning by virtue of Mike Wooley's double with the bases loaded. They added another run in the fourth as Joe Moskowitz drove in Ray Croft from third with a sacrifice fly. Wooley, who went four for five on the day, ac-

(Continued on Page Six)

# Hawks Retain Middle Atlantic Championship

The efforts of LaSalle's Ira Davis were not enough as St. Joseph's college of Philadelphia retained their Middle Atlantic track championship at West Chester last week end. Davis registered four first places and set one meet record while three other records fell in the two day tournament. The LaSalle speedster won the 100 in 9.4, the 220 in 20.5, the broad jump with a leap of 22' 10" and set the new record for the 440 with a time of 46.9, shaving two seconds off the old time of 48.9.

Muhlenberg was unable to place in any of the events and was held scoreless. St. Joe's was able to gain only three firsts but netted several seconds and thirds to give them a total of 56 points. LaSalle was second with 47 and Lafayette placed third with 39. Other schools to score were Lehigh 12, West Chester 11, Albright 9½, Haverford 7, Delaware, Gettysburg, and Swarthmore 6, and Juniata and Dickinson 2. Bucknell, Lebanon Valley, PMC, Temple, and Ursinus were held scoreless along with Muhlenberg.

Other new records were set by Lafayette's Gil Brinkerhof whose 6' 1" topped the old record of 5' 9", in the high jump, John Brand of St. Joe's with a heave of 210' 8", in the javelin and Cliff Browning of Delaware whose 13' 6½" beat his old record by four inches in the pole vault.

# Track Team To Close Season; Netmen Face Dutchmen, Bisons

Muhlenberg's track season draws to a close as the cindermen journey to Lancaster on Saturday to meet the Diplomats of Franklin and Marshall and then play host to the Ursinus Bears the following week.

The Dips will attempt to even their season's log in their final meet of the year. They have compiled a record of two wins against three losses. Coach Bill Iannicelli's thinclads lost most of their front line men through graduation, but still appear to be strong in field events although weak in the sprints.

**Senior Captains**

The Dips are co-captained by seniors Dick Wright and Ed Kraft. Wright participates in the broad jump and pole vault while Kraft puts the shot and throws the javelin. F & M's two wins have come at the expense of Ursinus and Lebanon Valley by scores of 77-49, and 61-57 respectively.

The Ursinus bears, one of the weaker foes on Berg's schedule, feature a fair running team, but are weak in the field events. The Ursinus thinclads are coached by Joe Giorzynski. They have a number of returning lettermen, having lost only five men through graduation. The Bears, featuring a squad dominated by freshman and sophomores, are captained by Ken Buggelin, who has been injured most of the season. Freshman Al Walton has proved to be a pretty potent scorer in the field events, averaging a heave of about 130 feet in the discus and also in throwing the javelin.

Muhlenberg has two remaining tennis matches on its 1958 schedule. On Saturday the Mules squad plays host to Lebanon Valley and closes its season at Lewisburg when it meets Bucknell on Wednesday, May 21.

Lebanon Valley in its first year in intercollegiate tennis competition has a record of one win and two losses, having beaten Elizabethtown, 7-2 while losing to Albright, 7-2, and Dickinson, 6-3.

The strength of the squad rests on three men, Howie Good, Ron Bell, and Bob Muffer while the rest of the squad is made up of Bob Hovif, Bob Senseniz, and Sam McLinn.

The team is playing its first year with all of its matches on the road.

**Experienced Coach**

The Orange and Blue of Bucknell are coached by Hank Peters, returning for his 13th straight season, and the squad has, for the past six years, compiled a winning record. They will be led by captain and senior, Charles Siede, who comes from Kearney, N. J., and two returning lettermen, Allan Reubel and Bob Poindexter from New York city and Rutherford, N. J.

**Sophomores Bolster**

Three sophomores, Bob Goecker, Smoke Rise, N.J.; Henry Livas, Hampton, Va.; and Bill Sweet are bolstering the squad along with junior Dick Hampton and three other sophomores: Hank Pulizzi, Denny Sweetman and Frank Wiegand.

# Council Reviews Parking Problem

(Continued from Page One)

**Grant-in-Aids Attendants**

7. Two grant-in-aid students will serve as attendants to keep order in the parking lot. Each student shall receive $50 per semester for services rendered.

8. All resident parking must be on the west side of 23rd st., east side of 26th st., or in the parking lot at 23rd and Gordon.

9. That a card entry gate be placed at the new lot at 23rd and Gordon sts.

Many of the details of these proposals have not been worked out yet. It has been suggested that outside sources be hired in order to maintain the parking regulations and that the profit from the card entry gate at 23rd and Gordon be used for this purpose. Any additional revenue obtained from this source will be used by the Scholarship fund or the Student Body fund and for the upkeep of the parking lots.

The proposals which the committee intends to present will necessarily cost the students a fee which they are not now paying. However, it has been proven that the individual student would pay a great deal more per year if the Allentown Police department installed parking meters around the campus. Also, under this plan, sophomores would be able to have cars next year.

# Diamondmen Lose To F & M Squad

(Continued from Page Five)

counted for the Mules' final run as he scored Pat Wilson with a sharp single to center in the sixth, after Wilson had singled and stolen second.

Only the Mules poor inner defense kept them from snaring their second victory of the season, which they seemed to have in their grasp throughout the game. Time after time, balls hit to the left side of the infield seemingly eluded the desperate attempts of the Mule players.

# Cedar Crest Drama

(Continued from Page One)

by the players. The dictator in question is the god Dionysus, who takes complete control of the wills of his Thebian subjects.

The cast is composed of an optometrist from Allentown, two Allentown high school students, the husband of a Cedar Crest student, and members of the Cedar Crest Buskin society.

Admission is free, and in case of inclement weather, the performances will be held in Alumnae hall. Anyone unable to attend the two performances is cordially invited to the dress rehearsal at 6:30 p.m. on Thursday, May 15.

# Graduation Speaker

(Continued from Page One)

Colleges and Secondary Schools; vice-chairman of the Commission on Higher Institutions of the Middle States association, member of the Pennsylvania State Council on Educaton and the Governor's Commission on Education for the state of Pennsylvania.

Dr. Gladfelter is a member of the executive board of the United Lutheran church; a board member of the Pennsylvania Bible society, the advisory committee of the Philadelphia Council of Churches and of the board of incorporators of the Presbyterian Ministers' fund. He also is a member and former vice-president of the Philadelphia Council of Boy Scouts and a member and past-president of the Philadelphia Kiwanis.

His special interests concern the history of Pennsylvania, especially the culture, folklore and history of the Pennsylvania Dutch.

# Scholarships

(Continued from Page One)

States of America.

In his will, Cecil Rhodes specified the basis of selection in which the type of scholar he desired would be chosen. The qualities which the Committees of Selection will have regard to include: (1) literary and scholastic ability and attainments; (2) qualities of manhood, truthfulness, courage, devotion to duty, sympathy, kindliness, unselfishness, and fellowship; (3) exhibition of moral force of character, and of instincts to lead and to take an interest in his fellows: (4) physical vigor, as shown by fondness for and success in sports. The most important requirement of a Rhodes Scholarship is the possession of some definite quality of distinction, whether in intellect or character, and it is upon this that the selection committees will insist.

# Business Club

(Continued from Page One)

Bausch makes his home in Allentown and is a member of Tau Kappa Epsilon fraternity and the Commuter's club. Jim Waller, from Somerville, N. J., is a brother of Alpha Tau Omega social fraternity and a member of Phi Sigma Iota, the honorary romance language fraternity.

At this meeting, plans were also formulated for the coming academic year. Included in the tentative schedule are a list of speakers and several field trips. The organization is also considering a revamping of the present membership requirements.

# The Chowline

Well, looks like Phi Tau is finally gonna build! After whoknows how many years of promising, the Little House with the Big Heart is now going to join forces with the Big House with the Big Mortgage.

Final schedules are out this week, and everyone is starting to sweat. That Spring fever along with the worry of tests make a good combination, especially for us cavaliers here in the Snack bar. We're sweating out our final inventory which Rusty Eberhard threw completely out of kilter. What if Harry finds out!

After one of those exciting intra-mural softball games, why not drop into the Snack bar for a tasty pizza pie — Slater style. It's really great to round out the tension of the game.

Now that spring is here, we've also stocked up on several more ice cream flavors. Raspberry, pineapple, and all kinds are on the list now, so come on in after those late afternoon classes and relax in polar style.

Don't forget those Sunday meals, either. For only a buck you can have a full-course dinner, served by Wee Willy Bloss, Flint Bardot, and Fill Air.

Incidentally, Bermudas are permitted, men and women.

See you in the Snack bar.

Adv.

# Mules To Encounter Bucknell And Albright

(Continued from Page Five)

son scattered 10 hits and Staley went 5 for 6 for their most impressive showing of the current campaign. In their next game, however, the Bisons lost a heartbreaker to Pitt, 8-7, as Consentino's wild throw on a doubleplay proved to be the difference.

**Albright**

Albright, whom the Mules will meet on May 21, has 7 lettermen, including four pitchers, on hand, plus several promising freshmen. Coached by John Potslan, the Lions (9-11 last year) will have either senior Ed Shurilla or Charlie Kachel at first, freshman Mike Matto at second, Bob Shoup, a fine hitter, at short, and freshman Mike Weinhold at third. The receiving will be handled by either Bob Myers or Jim Doremus.

Bolstered by letter winners Fred Dietzel, Verne Engle, Dick Greene, and Kachel, the Red and White possess a formidable mound corps. However, their biggest problem has been in the outfield due to the graduation of their entire trio of flychasers including standout Terry Reber. Heading a host of pickets are Frank Sudock, frosh Ken Sensenig, Tony Pawlewicz, and Jack Shaner.

Thus far Albright has defeated Franklin and Marshall, 10-3, Dickinson, 7-0, and Juniata, and has lost to Ursinus, 7-5, Lebanon Valley, 8-4, Penn Military, 6-1, Wilkes, 6-2, and Elizabethtown.

**All final exam conflicts are to be registered at the nformation window (telephone operator) on the first floor of the Ad building.**

**George Frounfelker**

# Alumni Plan Reunion

(Continued from Page One)

women graduates will have a dinner in the Commons on Friday evening. Miss Jean Hecht and Dr. and Mrs. Horn will be guests for the evening. Dr. Horn is a member of the class of 1900, and returned to Muhlenberg as a professor of Greek and literature in 1904. He also held the position of Dean prior to his resignation in 1952. Slides will be shown by Mrs. Bailey of the Publicity department to climax the evening.

Registration will continue on Saturday morning followed by the association's annual meeting in the Science auditorium. Harry I. Oxenreider '28, president of the alumni will preside at the meeting. Reports will be submitted by the Executive committee and the Athletic committee. Alumni policy, such as the alumni fund and the constitution of the organization, will be discussed.

The Alumni parade will follow at 11 a.m. in which the various classes will compete for the parade trophy on the basis of originality in costume and the largest number in costume. More prizes will be distributed at the All-Alumni luncheon in Memorial hall. These will be the Achievement awards rendered to alumni outstanding in service to the college in the immediate past year, and for outstanding attainment in one's chosen profession.

Climaxing the weekend will be an informal party-dance to be held in the Jade room of the Hotel Traylor. Paul Henry's orchestra will provide the music for the evening. The party-dance, begun primarily for the purpose of providing entertainment for the women and dates of the alumni has now become a traditional part of the reunion program.

Bruce Romig announced that the undergraduate students who would be on campus at the time, are invited to attend the luncheon and the dance on Saturday, provided that the necessary fees have been paid.

# . . . Student Council Report . . .

May 8, 1958

The regular meeting of the 1958-59 Muhlenberg college Student council was called to order at 7:03 p.m. by President Richard Truchses. All members were present.

**COMMITTEE REPORTS:**

**Chapel:**—Miss Schell reported that there were 4 Chapel slips revoked during the previous week.

**Special Committee report**—Mr. Carnevale reported that the funds received, over the cost and maintenance of recommended parking lot, could be used for scholarships.

On motion by Mr. Bausch and Mr. Horger, it was recommended that the College Library be open from 6-10 p.m. Sunday evening.

The meeting was adjourned at 8:50 p.m. on motion by Mr. Carnevale and Mr. Horger.

Respectfully submitted,
DAVID K. BAUSCH
Recording Secretary

# Fallout Damage

(Continued from Page Two)

ducts farther by keeping them aloft and subject to horizontal winds for longer times. For a large yield surface burst, about eighty-five per cent of debris falls to earth within twenty-four hours. From a barge shot, in a lagoon, sixty-five to seventy-five per cent lands in twenty-four hours.

The distribution of fallout depends on particle size, wind distribution (which varies according to altitude), and rate of fall of the particle, which depends on size, shape, and density. The larger particles fall almost immediately and are classified as close-in fallout. Particles which go farther up are of two types. The particles which reach only the troposphere, that belt of air where our weather originates, are buffeted about for a short time, then fall to earth. Those which reach the stratosphere find more even currents and sometimes stay aloft for several years before getting back to the turbulent troposphere by means of vertical mixing between the layers.

**Secondary Radioactivity**

Neutrons from bomb processes also react with nitrogen to form radioactive carbon fourteen and other unstable products which remain in the air. Fission fragments have lives ranging from one millionth of a second to several years. They remain in the atmosphere for long periods.

In the future, nuclear power plant discharge and waste removal must be considered as atmospheric sources of radioactivity. Just as the air currents of the world are being studied to determine the transportation of fallout, so must the oceans be investigated to find depositories for the radioactive production wastes.

Sticklers!

WHAT HAPPENS WHEN A BANK OFFICIAL IS DEPRIVED OF HIS LUCKIES? (SEE PARAGRAPH AT RIGHT)

BANK ROBBERS often try to get rich through no vault of their own. So often, in fact, that bank officials rarely get rattled by ordinary hold-ups. But sometimes the gangsters go too far. Sometimes (Curses!) they lift the officials' Luckies! That dastardly act is bound to cause real *Banker Rancor!* Why? Simple. Every Lucky (You can bank on this!) tastes like a million bucks. Every Lucky is made of fine tobacco . . . naturally light, good-tasting tobacco, toasted to taste even better. But don't accept our account—check it yourself. Get Luckies right now!

TIME'S RUNNING OUT! Better get your Sticklers in fast! (You haven't lived if you haven't Stickled!) Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y.

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

# MUHLENBERG WEEKLY

"TOWARD A GREATER MUHLENBERG"

Vol. 78 | Muhlenberg College, Allentown, Pa., May 22, 1958 | No. 28

## Housemothers Appointed For Coming School Year

Two women have been appointed by Muhlenberg to serve in the capacity of housemothers beginning with the Fall semester of 1958. It was reported from the office of the president of the college that Mrs. Marianne Heinemann and Mrs. Bess Eshelman will be the new West hall moderators. Both women are highly qualified for the work they will be doing since each of them has had previous experience as a housemother. They are widows and have grown families.

Mrs. Marianne Heineman previously served as a housemother of the Deutsches house on the Smith college campus. She had mantained this post for the past sixteen years. Presently Mrs. Heinemann makes her home in Lancaster, Pa.

Mrs. Bess Eshelman assumes her post at Muhlenberg college after having spent two years at University of Washington in Seattle. She is a registered nurse and her late husband was a physician. Before taking her post in Seattle, Mrs. Eshelman resided in Hazleton, Pa.

Housing arrangements for these two women have been made. One of them will have the apartment of the previous housemother, Mrs. Mamie Brown, and the other will have the facilities of the apartment of the past Dean of Women. This housing measure had been decided upon prior to the resignation of the dean.

Because of the greater number of women students who will be enrolled at Muhlenberg in the next semester, two housemothers were hired instead of one. Eventually, as the number of women students increases, the college proposes to hire a third woman. Presently, however, the administration is concerning itself with obtaining adequate dormitory facilities to accommodate a larger number of girls. A recommendation was made to the Ministerium by the president of the Board of Trustees to make provisions for at least sixty more girls.

Dr. J. Conrad Seegers also re-

(Continued on Page Six)

## Class Banner Chosen At Recent Meeting

Selection of a class banner and preliminary planning for the Soph-Frosh hop occupied the Freshman class at its third and final meeting for the current academic year. The banner selected displays, as its theme, the beginning of coeducation at Muhlenberg.

Jay Van Kempen, class president, opened the meeting and offered two designs for a class banner for the choice of the class. The design selected is that submitted by William Durham. It is done in the class colors, green and white. The background is white, and it bears a green seal in its center, on which are silhouetted a male and a female head. Beneath the heads is the legend "First class of Coeducation."

**Parking Problem**

An inquiry was made about the progress on the parking problem. Van Kempen told the meeting that all work on the subject was being handled by a Student council committee under the direction of Nino Carnevale, and that all suggestions should be forwarded to this committee.

October 10 was set as the date for the Soph-Frosh hop, and it was announced that a committee would be formed before the end of the semester to run the affair. Van Kempen said that he would contact John Holcroft, president protem of next year's freshmen, so that there would be more Soph-Frosh social unity.

Frosh unity was hindered last year with the separation by dormitory space. This will be rectified in time for next year's class.

## Law School Case Won By Student

Jon F. LaFaver has won his first practice court case during a recent mock court competition at New York University School of Law. He and the other members of his student firm have earned the privilege of entering the quarter finals to be held next fall.

Under the mock court program each firm is required to submit an appellate brief and then argue its case before a court composed of practicing attorneys. The case which LaFaver and his partners argued involved the constitutionality of a released time program from public schools.

LaFaver is attending law school on the three-year Root-Tilden scholarship, the most valuable offered by any law school in the United States. Each year twenty of these scholarships, with stipends of $7,200, are awarded throughout the nation to young men who have demonstrated academic excellence in their college work and a potential for public service.

LaFaver graduated from Muhlenberg college, in 1957 with honors. While at Muhlenberg college, he participated in student government, student publications and Phi Kappa Tau fraternity, being elected to Who's Who in American Universities and Colleges and Phi Alpha Theta and other student honoraries. Mr. LaFaver attended New Cumberland High school, New Cumberland, Pa., where he was a member of the National Honor society and president of his class.

LaFaver was a member of Student council, and served as president of the Phi Kappa Tau social fraternity. He was a proctor in West hall, the freshman dormitory, in his sophomore year. As a member of the first class, he had a part in the founding of the History of Ideas course. A dean's list student, he was editor of the M-book, station manager of WMUH in his sophomore year, a staff member of the **WEEKLY**.

## Spring Sing & Ring Ceremony Established By Campus Coeds

This past Sunday, a tradition was set by the women of Muhlenberg college. A song contest and ring ceremony for the upperclassmen was held on the mall at 3 p.m. The ceremony began with a welcome by the Women's council president, Sara Jane Ruloff, to all the parents and friends of the coeds on behalf of the women.

**Spectators observe the first spring sing and ring ceremony to be held by the coeds of Muhlenberg. The second floor of West hall were the winners of the song trophy.**

The first group of women on the program was the commuters. Their song leader, Janice Merritt, led them in a medley of southern songs: **Get On Board, Little Children,** narrated by Jan Horvath, **Them Bones gonna Rise Again** and **Sleepy Time Down South.**

**First Floor**

The first floor continued the program with three songs of the Civil War; **Steal Away, Song of the Two Brothers, and Battle Hymn of the Republic.** The first floor song leaders were Pat Shalter and Diane Stewart. Next on the program was the second floor led by Doris Gack and Karen Kamena. Their songs, **Give Me Your Tired, Your Poor; Lonesome Valley** and **This is My Country,** coincided with their theme, America's Heritage. The last group on the program was the women of the third floor led by Marlene Rachmiel and Ann Schonberg. Their theme, A Decision of Faith was carried through by **When the Saints Come Marching In, I Walk in the Garden Alone** and **I believe.**

**Processional Sung by Coeds**

Following the song contest, the processional, **God Preserve Our Own Dear Muhlenberg** was sung by the coeds, as the judges, Miss Joanne Stafford, Mr. Ralph Graber and the Reverend Jesse Renninger decided who was to be the winner of the song contest. The judges decided the winner to be the second floor. Their song leaders accepted the silver loving cup which will be handed among the various floors in the future years. The judges based their decision on (a) originality of theme—20 points, (b) organization — 40 points, (c) presentation of songs—40 points.

Following the song contest ten upperclass women, Jayne Kuntzleman, Pat Haberern, Marie Merkel, Sue Schell, Joyce Harmony, Eleanor Jacobs, Jean Kiser, Betty Ann Lebo, Anne Schonberg and Taimi Toffer received their class rings from Miss Heimtraut Dietrich. The program was then concluded with the singing of the Alma Mater. Afterwards there was an open house and reception at at West hall.

As an added attraction for the freshmen, the upperclass women gave a picnic supper on the lawn of West hall on Friday evening.

## Sig Ep Purchases Phi Kappa Tau Residence As Temporary Home, Pending House Plans

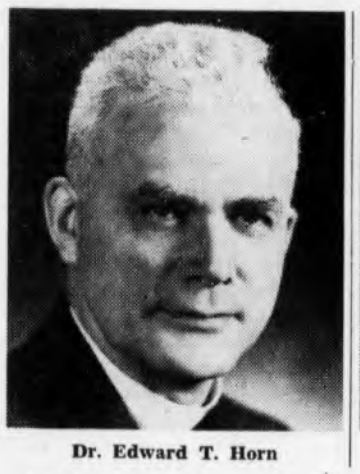
This June, the lease for the Sigma Phi Epsilon fraternity house will terminate. The Alumni board of Control has therefore made arrangements with the alumni corporation of Phi Kappa Tau fraternity, for the purchase of their chapter house at 2224 Liberty street.

The purchase of the Phi Tau house by Sigma Phi Epsilon, is only a temporary solution to the fraternity's problem. The fraternity will occupy that property as temporary housing pending the development and completion of a building plan for a new fraternity house, which is presently under way.

The fraternity house of Sigma Phi Epsilon, located at 325 N. 23rd St., belongs to Muhlenberg college. Due to the recent integration of co-education, there has arisen a problem in classroom space and other college purposes. Therefore it was necessary for the fraternity to relinquish its present quarters, in order to make room for the College's large expansion and improvement program.

No definite plans have as yet been made in regards to the proposed location of the new Sigma Phi Epsilon house.

## Muhlenberg Graduation Will Be Scene Of Degree Conferring On Five Men For Many Outstanding Services To Fellow Man

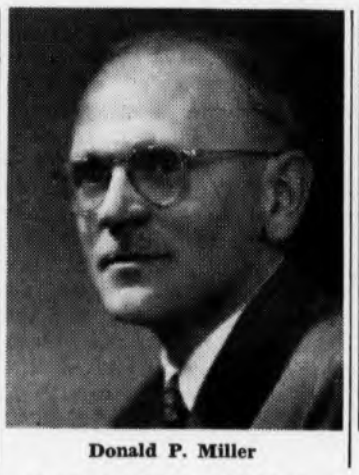


**Dr. Edward T. Horn**

Muhlenberg college will confer five honorary degrees at commencement exercises, Monday, June 9. Four of the recipients are Muhlenberg alumni.

A doctor of letters degree will be conferred upon Dr. Edward T. Horn, III, pastor of Trinity Lutheran church in Germantown. Dr. Horn, born in Philadelphia, is the son of the Rev. Dr. William M. Horn, a 1900 Muhlenberg alumnus and honorary degree recipient in 1926, and the nephew of Dr. Robert C. Horn, emeritus professor of Greek and former Muhlenberg dean. He received his bachelor of arts degree from Cornell university, and was graduated from the Lutheran Theological seminary at Philadelphia in 1934.

He is now the chairman of the ULCA Consulting Committee on Worship.



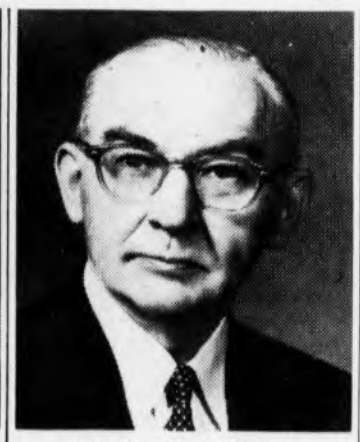
**Donald P. Miller**

Donald P. Miller, a Muhlenberg alumnus and trustee and executive vice-president of the Call-Chronicle newspapers in Allentown, will be the recipient of a doctor of science degree.

A native Allentonian, Mr. Miller was graduated from Muhlenberg in 1928 and named to the college board of trustees in 1952. He did graduate study in English at Oxford university in 1929 and two years later received his master's degree at the Harvard Graduate School.

He has been associated with the Call-Chronicle newspapers for 24 years, serving as secretary since 1942; a member of the board of directors since 1948, and executive vice-president since 1949.

Mr. Miller was the recipient of a Muhlenberg Alumni Merit award in 1955.



**Dr. Morris L. Shafer**

The degree of doctor of laws will be conferred upon Dr. Morris L. Shafer, dean of Dickinson School law. Dr. Shafer, born in Weatherly, was graduated from Muhlenberg in 1925. He received his master of arts degree from Lafayette; his doctorate in economics from New York university; and his bachelor of laws degree from the University of Pennsylvania.

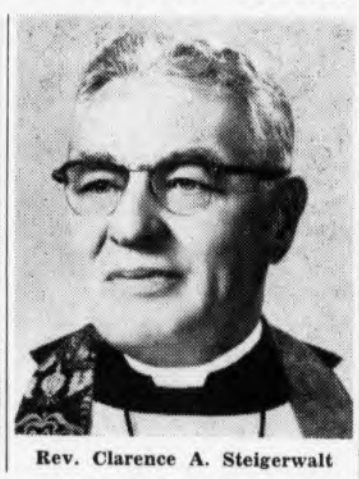
A member of an Allentown law firm, he practiced law in Lehigh county from 1947 to 1956, when he when he became dean of Dickinson School of law. He is a member of the American, Lehigh county, and Pennsylvania Bar associations. He is a trustee of the Pennsylvania Welfare forum and a member, ex-officio, of the American Law institute.

**Rev. Walter R. Harrison**

Two other clergymen will receive the degree of doctor of divinity. One of which is the Rev. Walter R. Harrison, superintendent-pastor of the Lutheran Home for Orphans and Aged at Germantown.

A native of Philadelphia, Rev. Mr. Harrison was graduated from Muhlenberg college in 1935. He received his bachelor of divinity degree from the Lutheran Theological seminary at Philadelphia and his master of arts degree in sociology from the University of Pennsylvania.

He is a former instructor at the Philadelphia Motherhouse of Deaconnesses and a former president and treasurer of the Lutheran Welfare council of Pennsylvania. For the past ten years he also has been active in community social service.



**Rev. Clarence A. Steigerwalt**

The other clergyman is the Rev. Clarence A. Steigerwalt, Pastor of Friedensburg Lutheran parish. A resident of Pennsylvania's Schuylkill county, Rev. Mr. Steigerwalt was graduated from Muhlenberg in 1924 and the Lutheran Theological seminary at Philadelphia in 1927.

During his 25 years' ministry, he has served as secretary and president of the Pottsville conference and as secretary of the Ministerium's Board of presidents. He has served as a delegate to numerous ULCA conventions and on numerous church committees.

In 1937 he was appointed by the Governor of Pennsylvania to the board of directors of the Fountain Springs hospital at Ashland and in 1940 by the county courts a trustee of the Schuylkill County Mental institution.

## Berg Women's Group Sponsor's May Picnic

Muhlenberg College's Faculty Women's club will hold its third annual faculty picnic on Sunday, May 25. Picnic activities are scheduled to begin at 3 p.m. at the YWCA cabin on South Mountain near Summit Lawn.

The picnic is open to all members of the faculty and their families. Competitive games, under the direction of Mrs. John Bulette, will be held throughout the afternoon. Various prizes will be awarded to the winners.

The Faculty Women's club is composed of the female faculty members and the wives of the male faculty members. Their annual picnic is one of the various events which they sponsor throughout the year.

**Students interested in Fulbright awards for 1959-1960 should see me before the end of the present semester in Room 311, Administration Building.**

**Dr. John Reed**

# Editorial Views——

## *Wanted—Summer Jobs . . .*

Now that the spring semester is quickly drawing to a close and the summer season is approaching, there will be thousands of college students, all over the country, looking for jobs. Most of these students depend on their summer earnings as a source of revenue for their fall tuition fees. However, this year, as in past years, jobs for the summer will be scarce, and those that a college student can acquire, will be low paid.

**The nation's business and industrial firms are not willing to accept undergraduates in summer positions** when the student's need for money is greatest, but are the first ones to interview them for jobs after graduation. This is not fair.

**Most companies place primary emphasis on large profits, with the least amount of employment.** Rather than hiring extra help during the summer months, companies burden their regular employees with the work of those on vacation. Therefore, the college students are left to accept meager, low paying jobs during their vacation period.

**The American college student represents the future of our nation's business and industry, and as such should be aided by these firms while they are in college.** Most students are good workers, and if given the opportunity could prove to be an asset to any firm's summer employment roster.

**Large industrialists, businessmen and government officials are constantly crying for more college-trained personnel, but are unwilling to give them the opportunity to earn their college tuition. They are so consumed by their selfish desires for large profits and minimum expenses, that they fail to see where the future of their business lies.**

Another area which deserves attention is that of government and industrial grants to American colleges and universities. In view of the constantly rising costs of a college education today, they are grossly inadequate. Many of the larger corporations donate millions of dollars every year to institutions of higher learning, but most of the smaller firms, who also reap the benefits of college trained men and women, give little or nothing to higher education. A large percentage of the American public feel that government grants to colleges would lead to socialism, and thus jeopardize our democratic form of government. However, in our modern world, with so much emphasis being placed on scientific advances and technology, and its accompanying emphasis on higher education, **government aid to colleges and universities has become a necessity if we are to maintain our present international status.**

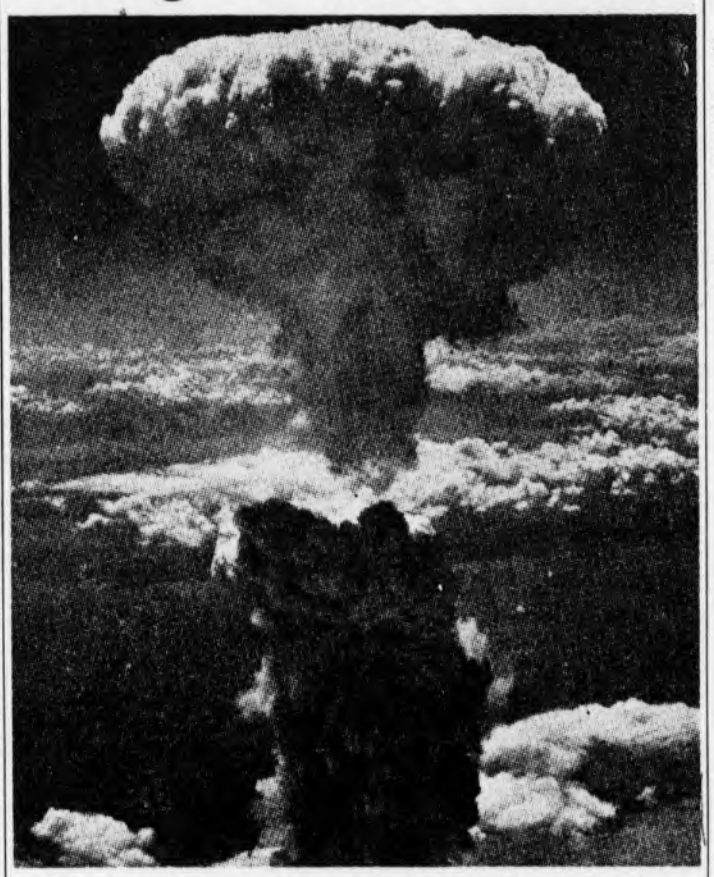
# Radioactive Fallout Discussed Relating To Human Element



**From this awesome mushroom cloud, radioactive particles are carried by wind currents until they finally "fall-out" sometimes great distances from the site of the explosion.**

**by Jack Magan**

What is harmful about radiation, and why worry about it? Radiation has definite detrimental effects on humans. The inheritance system is the most sensitive to radiation of all the biological systems. Radiation incident on the gonads causes mutations in the genes or trait-copying material. These mutations are changes which are perpetuated in the offspring of the affected individual.

A certain amount of mutation has always been in progress, produced partially by the normal background radiation in man's environment. Increase of mutation, however, is harmful, since man's civilized ways have decreased the effects of natural selection, or extinction of detrimentally mutated organisms. It has been found that a dose of thirty to eighty roentgens (an energy unit equaled to ninety-three ergs. An average dental x-ray gives five roentgens dose to the jaw area, five thousandths roentgens of leakage to the gonads.) will double the natural rate of mutation in man.

**Small Man-Made Danger**

As an indication of the present situation in dosage to man, the following estimates have been prepared by the committee on genetic effects of atomic radiation of the National Academy of Science, National Research council, for a report published in 1956. The average gonad dose for a man in the United States over a thirty year period is: background radiation, 4.3 roentgens; flouroscopy and x-rays, 3 roentgens; and radiation from military tests, if continued at the 1956 rate, .02 to .50 roentgens. The committee states that a reasonable dose limit for a thirty year period would be a total of 10 roentgens from all causes. This limit is an estimate of the maximum amount which can be taken in without overly increasing mutations in the line.

There are also immediate and pathological effects, commonly called radiation diseases. More extreme doses are required to produce these effects, but it is known that besides the radiation disease itself, shortening of life and increased possibility of contraction of cancer and leukemia result from continued exposure.

**Lives Shortened**

It has been proved by a survey, in the report mentioned above, that the average life of a radiologist is five years shorter than that of a physician not exposed to radiation. The life of physicans sporadically exposed to radiation falls somewhere in between.

Radiation disease is characterized by a decrease in white blood corpuscles, changes in blood clotting, a tendency to bleed, and a decrease in the formation of antibodies for the prevention of disease. Failure of the cells lining the intestine to reproduce themselves results in the fact that this lining becomes a mass of connective tissue with very few epithelial cells.

**Radiation Symptoms**

The skin is effected as if by a heavy sunburn, its pigment changes, hair falls out, and ulceration occurs. These effects are all temporary unless the dosage is extremely large.

Bones are weakened by repeated destruction and repair. Bones are especially vulnerable to strontium of mass 90, a fission product which is radioactive enough to do harm, yet lasts for a long time. Chemically similar to calcium, the strontium 90 replaces the calcium in the bones and resides there, causing tumors and other radiation effects.

**Further Effects**

Radiation also causes a depression of activity of the thyroid, cataracts of the lens of the eye, and possibly sterility in the male. Large dosages can permanently

(Continued on Page Six)

# Demerit Code Approved For Men's Dorm Council

*Editor's Note: The following demerit system of the Dorm Council was passed last week at the Student council meeting. It will go into effect in Fall, 1958.*

The Demerit system for the men's dormitories is to be enforced by the Dormitory council, having been approved by the administration of the College, by Student council, and by the Dormitory council.

Violation of dormitory rules come under three categories.

The first category consists of major offenses. Violation of these rules will result in four or five demerits, depending upon the severity of the violation, a fine, plus payment for any damages through the violation.

Violation of dormitory rules comes under three categories.

(1) Tampering with the electric light system and wiring, with the telephones, or with fire extinguishers, and fire alarms.
(2) Having possession of or use of firearms.
(3) Major damage to halls, rooms, and furniture.
(4) Having possession of or use of alcoholic beverages.
(5) Having women in the dormitory at times other than those hours designated by the M-book.
(6) Having possession of or use of fire crackers.

The second category consists of less serious infractions. Violations of the second category rules will result in two points, and a fine.

(1) Having and using cooking utensils, hearth fires, heating, or refrigerating devices. All pressing devices must be used only in designated areas.
(2) Snow balling and ball playing in the quadrangle and surrounding areas.
(3) Excessive disturbance in the dormitory and lack of cooperation during "study hours".
(4) Abusive use of television sets, radios and phonograph.
(5) Disturbing study conditions in the study rooms at any time.
(6) Removing public area facilities, without permission, from their designated areas.
(7) Gambling in the dormitories.

The third category consists of minor infractions. Violations of the third category will result in one demerit point, plus a reprimand for the first offense. The second and subsequent violations will result in an additional point, plus a fine. Violations of the third category consists of:

(1) Littering the quadrangle, hallways, public areas, and areas surrounding the dorms; and untidy rooms.
(2) The use of thumb tacks, nails, and tape on the walls.

The accumulation of five points within one academic year may result in the immediate recommendation for suspension or expulsion from the dormitory. The accumulation of ten points within the student's years at Muhlenberg may result in the recommendation for suspension or expulsion from school. The Dormitory council reserves the right to use its judgment in all cases; and can make exceptions for unusual and necessary cases.

# ARCADE EFFORTS CRITICIZED; WORK PROVES ENCOURAGING

**by W. Kinter**

The dishonesty involved in judging the work of friends can be partly overcome if you tell them to go out to lunch, and then settle down (among the paintings of the MCA exhibit) with the **Arcade**. Exhibit and magazine: both are fumbling, perhaps ill-directed, and certainly timid. Neither is frivolous. What is to be said to a college that trains its sons and daughters well in techniques, and is indifferent to their powers of creation?

The power is clearly present in Heim's "America the Beautiful." Here is an angry parable in which Conformity is judged and condemned, the prisoner all the time unaware of his guilt. Yet the work is thin. Why not make use of the master images like the cavern of echo or the initiatrix-guardian of the cave? See Jung. Nevertheless the artist's hand is steady, and the human ambiguity is clear. Another illustration of the pattern of descent-in-order-to-ascend is Schlunk's "Hour of Judgement." The seductress Sarah sings Samuel towards spiritual death; in his holy "No" is her, and her prodigal son's redemption. But I wish these two artists would not give the impression that they have read little.

**Kings and Realms**

"The Realm of the Dead" opens well enough, but gets nowhere. I suggest that the author stretch out on a grave (i. e. measure it) sometime, and that she read about kings if she is going to write about realms. Charles Williams' novels would show her how to make a haunting. A similar lassitude afflicts Nickischer's "Sketch." Johnny's child-world of fantasy is skillfully evoked, but the author seems to get bored with it .... There is nothing halting in Holst's violent joke — a good beginning in expressionist art. And Epting is also on the way up, probably.

Wonder-Wandering (Ken Nordine's phrase) is to be found in "Eternity" and in "The Pipes of Pan." Both guestors (Weller and Hyett) hear, and answer, the Vox animae mundi, but their verses need much polishing. They should read more Virgil and Auden. Let me dismiss A. D.'s world of the marvelous interpenetrated by the miraculous by saying that I am incompetent to judge "Still Waters." It took fifty minutes in English II just to begin to get into it.

(Continued on Page Six)

# *Au Côté des Femmes*

by Jan Horvath

Congratulations are due for all the women who participated in the sing and ring ceremony last Sunday. The final product of weeks of organization and practice was more than just an enjoyable afternoon. It was the very first attempt of all coeds to work harmoniously to establish on the campus a tradition, which has been long standing on many campuses, large and small. The women did a commendable job, and the reception by the pleasantly large audience assured them of success. The silver loving cup, awarded to the second floor winners, will be placed on the mantle in the West hall lounge. Each year the cup will be appropriately engraved to designate the winning group, and each day the cup will be a tribute to all the participants throughout the years.

But work does not cease with the establishment of one tradition on campus. The inaugurating of sororities must be studied, and definite work must be done to promote women's intercollegiate sports. Our big-little sister program needs development and perhaps a big-little sister picnic can be planned for next year. All this will take time and the cooperation of all the coeds on the campus.

The past year, however, has seen much success, though at times it seemed as if we were fighting the war for woman suffrage. Remember the fun at the Christmas party and the decorating of the doors, the choosing of the school blazer and class ring. This was an important year for the College as well as for the coeds. Still, each successive year should bring more and more cooperation from all sides and all may learn that compromise is, at times, a virtue.

# CIARLA STAFF PROVIDES M'BERG WITH ANNUAL PICTORIAL HISTORY

by Barbara Fretz

The termination of classes, spring finals, and this last edition of the **WEEKLY** all mark the end of another year at Muhlenberg. The task of recording the events of the past year, which was a special one in many ways, belong to the editors and staff of the 1958 **Ciarla.**

Under the direction of Bob Spivak, editor in chief, and Jim Piston and Jim Sorger, business manager and managing editor, the staff has been at work compiling the book since September. At present—excluding only spring sports and the material on graduation—the book is ready for print. The finished publication should be received by the seniors some time in late August.

**New Ideas and Methods**

The 1958 Ciarla staff has developed new ideas and methods designed to make the book interesting to its readers. Two new sections, in addition to those on activities, sports, faculty and administration, and classes, have been added to the book so that the coverage of campus life can be more complete. The first of these two sections, entitled "Special Events", will include two-page spreads highlighting seasons or events like Homecoming, Christmas at Berg, the Senior Ball, M & D plays, Institute of Faith week, IFC weekend, and Graduation weekend.

Another new section in the 1958 Ciarla wil be called "Around Campus" and will be divided into smaller sections depicting the many sides of campus life; for example, "life in the dormitories", "before, between, and after classes", and "ways of studying." Still another innovation will be the use of color—color in the form of two page duotones.

**Photographic Work**

The photography for the 1958 Ciarla has been directed by Burt Eisenbud with the help of Murray Seidel. These men, in addition to arranging for and helping the professional photographers, took many of the candid shots to be used in the "Around Campus and "Special Events" sections.

The Ciarla has not, until this time, been entered in any judging of college publications. Participation in such a judging is one of the hopes of this year's staff. Spivak feels that the criticism of experts would greatly benefit those who have compiled the present edition and those who will be writing the yearbooks to come.

**Muhlenberg college's 1958 yearbook will be made possible through the efforts of Sheldon Morris, Ettorina Fantozi, Bob Spivak (Editor), Burt Eisenbud, and Peggy Todd.**

**Student Attitude**

Muhlenberg students, Spivak feels, do not have the right attitude concerning Ciarla.

"There has been very little interest on the part of students," he explains, "and I feel that this is with good cause. In the last four years there has not been a good yearbook printed at Muhlenberg. Because of this, there is naturally nothing but ill feeling towards the yearbook and those working on it. Consequently, we get little cooperation from students with the result that all the work of putting out such a publication falls on a few people."

Spivak feels that it is very important that a good yearbook be published this year so that student interest can be revitalized.

**Feminine Interest**

Says Spivak, 'The 1957 Ciarla will change the present attitude." He goes on to state that "One of the main reasons is because of a

(Continued on Page Six)

# College To Confer Five Honorary Degrees At Commencement Ceremonies, This June

Five honorary degrees will be conferred by the College at commencement exercises Monday, June 9. Four of the recipients are Muhlenberg alumni.

The ceremonies, preceded by the traditional academic procession of faculty and seniors. led by Luther Deck, Marshal, will be held at 10 a.m. in the grove adjoining Egner Memorial chapel.

A Doctor of letters degree will be conferred upon Dr. Edward T. Horn, III, pastor of Trinity Lutheran church in Germantown. Dr. Horn will deliver the sermon at baccalaureate exercises, Sunday June 8 at 3:30 p.m. in the Chapel.

Donald P. Miller, a Muhlenberg alumnus and trustee and executive vice-president of the **Call-Chronicle** newspapers in Allentown, will be the recipient of a doctor of science degree.

The degree of doctor of laws will be conferred upon Dr. Morris L. Shafer, dean of Dickinson School of Law. Two clergymen also will receive the degree of doctor of divinity. They are the Rev. Walter R. Harrison, superintendent-pastor of the Lutheran Home for Orphans and Aged at Germantown, and the Rev. Clarence A. Steigerwalt, pastor of Friedensburg Lutheran parish.

In addition, 160 seniors will receive their Baccalaureate degrees. Sixty-nine men will be awarded the bachelor of arts degree; 50, the bachelor of science degree; and 41, the bachelor of science in business administration.

**BIG BROTHER PROGRAM**

**All those who would like to be big brothers for incoming freshman next year are reminded to turn in their names to Ethel at the information booth in the Ad building.**

# Work 'Torn Apart!' Cheer Up, Literary Critics Face It Too

*The article is one of the regular Reader's Digest series, "The Most Unforgettable Character I've Met."*

Most students are forced to undergo the ordeal of reading their work aloud in class, only to have it "torn apart" by tiger-bright fellow students and a caustic professor. Well, if you're one of these unfortunates, cheer up—you're in good company!

Such literary notables as T. S. Eliot, Walter Lippmann, John Dos Passos, Gilbert Seldes and Brooks Atkinson were once flailed by the whiplash comments of probably the greatest exponent of the stinging critique—Professor Charles Townsend Copeland of Harvard.

Memories of "Copey," who hated to be called "professor," are recounted in the May **Reader's Digest** by J. Donald Adams editor of "Speaking of Books," a column in the New York Times Book Review section.

Many a fledgling writer, Adams recalls, left a critical conference with Copey carrying murderous resentment in his heart. But there was also the "seething resolution to write just 20 pages which would show the beggar he was wrong."

As one writer put it, Copey used "the same hardness, absoluteness, lack of sympathy which the writer must later encounter, and which no friends or relatives will ever give him in judgment."

Copeland's imperious manner even cowed such writers as the late Heywood Broun, who called on his old professor unexpectedly one day after he had achieved fame as a columnist. "Go away, Heywood, I can't see you now," Copeland snapped; "come back at seven."

And Broun showed up at seven sharp, even though he had to delay his return to New York.

Only once was Copey "topped." Becoming impatient with a girl who walked in late to his Radcliffe classroom, Copeland asked icily, "And how will you have your tea, Miss Blank?" His victim replied sweetly, "With one lump, and no lemon please, Mr. Copeland."

But if his caustic wit was well-known, his generosity was equally famous. Many of his students remember him gratefully for his generous loans, his effective job recommendations and his encouragement of talent.

One indication of the esteem in which he was held lies in the fact that he was the only college teacher in the United States ever to have his own alumni association. Every spring for more than 30 years his former students gathered at the Harvard Club of New York on his birthday to do him honor.

Says Adams: "He probably influenced more lives in their budding period than any other American teacher if his time."

# From Here And There

by Chuck Trexler

Recently a Muhlenberg student remarked about the curriculum in somewhat the following manner. "Shakespeare? That's the most worthless course I ever heard of. Why he didn't even write decent English. Now take economics. There's a subject you can use everyday." Very probably this student was not alone in his sentiments and the same general theme is reiterated day after day across campus by indignant students laboring under the yoke of "impractical" portions of the curriculum.

Basically the logic of these students is sound. Shakespeare, and in fact most of the courses offered at Muhlenberg, could easily be proved "impractical". The twentieth century is an age of specialization, an age of highly-competitive effort, not only on the level of the individual, but in the community of nations as well. The student feels he has neither the time nor the inclination to busy himself with the philosophical nonsense of a "liberal arts education."

**Purpose of Education**

When asked why he is in college, the student will immediately reply, "To prepare for my future occupation." And is this not the purpose of education? This was the purpose inculcated by our high school commencement speakers. This was the purpose of our parents in sending us to college. To find a "place in the sun" amid the "dog eat dog" opportunities of our capitalist system is the purpose of education. Thus have spoken our parents, our public school teachers, our politicians, and our businessmen.

Opposed to this practical explanation of education is a concept fundamental to Western civilization. In the days of the ancient Greeks, Plato argued that education was intellectual discipline which enabled man to realize his highest faculties. From this Platonic explanation has come the idea of a "liberal" education. According to this classical school of thought, the purpose of education is to teach men how to think, to transmit the cultural and spiritual heritage of the ages, and to inspire men with virtue.

**The Modern World**

The practical man will retort that this bit of idealism was all very well for the Greek philosophers and medieval scholasticists, but the modern world has no use for the time-consuming schemes of questionable value and cannot afford to train "walking encyclopedias." Our nation is in the midst of a titanic struggle for its very existence. To advance a system of education based on the concept of "learning for the love of learning" would be foolhardy and probably suicidal.

These arguments must be given due consideration, but they place the cart before the horse. Are we to cease teaching men how to think in order to maintain freedom of thought? Are men to be denied appreciation of their cultural and spiritual heritage in order to combat a power which seeks to destroy that heritage? Are we to cease the inculcation of moral virtue in order to resist a philosophy for whom "might makes right?"

Granted specialization is necessary, but only after students are diligently trained in the liberal arts. This training is the goal of Muhlenberg college. Specialization is the job of the graduate schools.

**Intrinsic Values**

In order to preserve and defend a way of life, a culture, in civilization, we must realize its intrinsic values. If the specialized studies are to attain predominance over the basic fields of study, if the liberal arts curriculum is to become extinct, if all sense of value is to be negated, then we invite intellectual chaos and sophisticated barbarism. In the words of Sir Winston Churchill, "We shall sink into the abyss of a new dark age made more sinister and protracted by the likes of perverted science."

**ART EXHIBITORS**

**Students who had entries in the MCA art contest are requested to remove their work as soon as possible.**

# 'Unsung Hero' Dr. Shankweiler Serves Berg In Host of Ways

by Ben Livingood

At the mention of the name of Dr. John V. Shankweiler, anyone who knows anything at all about Muhlenberg college will immediately think of the College's Pre-Med department. Dr. Shankweiler is undoubtedly Muhlenberg's "Mr. Pre-Med." However, few of those who know him realize the vast contributions he has made to Muhlenberg college over a period of almost 40 years.

There is seemingly no end to the long list of duties this elderly gentleman of the science building has performed for his Alma Mater. Since his graduation from Muhlenberg in 1921, when he got his first teaching job as an instructor in the science department, he has served as practically everything from educator and administrator to athletic coach. As one member of the administration put it, he has been a "dean behind the dean."

**Host of Jobs**

During his term of service at Muhlenberg, Dr. Shankweiler has maintained the postitions of professor, department head, tennis coach, photographer, and member and chairman of the Athletic committee. After interviewing him, one wonders if there is anything at Muhlenberg with which he hasn't been connected or influential.

Dr. Shankweiler took over as tennis coach in 1934. Previous to that time, there had been no formal position of tennis coach at the school. At first he did everything connected with tennis. He arranged the schedule, maintained the courts, and coached the team — without pay.

He didn't coach during the time the Navy V-12 units were at Muhlenberg between 1944 and '45. In 1946 he was again requested to assume the helm of the tennis squad. He took over once more under the conditions that the College would pay him for his services and

Dr. John V. Shankweiler

make arrangements for the team to use the Oakmont tennis courts, freeing him of the responsibility of court maintenance. The terms were agreed upon and Dr. Shankweiler was paid the same as all the other part-time coaches. He has been serving in that capacity ever since.

Dr. Shankweiler recalls that the most outstanding team he ever coached was in 1942. That was the only Muhlenberg tennis team which went undefeated. In 1942 he took his racquet-wielders down south to play Washington & Lee, Henry & Henry, and Johnson City Teacher's college in Tennessee.

**Shankweiler the Photographer**

The story behind Dr. Shankweiler's photographic duties is an interesting one. He began filming Muhlenberg football games in 1937 and has done so to the present. He took charge of photographing students for activity card pictures in about 1932, as closely as he can remember. Between 1941 and '42 he made eight reels of color film of the College which are shown to various alumni, church, and high school groups in connection with the promotion and publicity of Muhlenberg college. That film was replaced just recently by the motion picture, "The Voyage of Discovery."

Dr. Shankweiler received his Bachelor of Science degree from Muhlenberg in 1921. He went on to receive his Master's at Cornell in 1927, and his Ph. D. from the same school in 1931. He is originally from a little town called Huff's Church in Berks county. He moved to Allentown in 1921.

**Coaching Philosopher**

As far as his coaching is concerned, the likeable mentor stated there are two things he asks of his boys each year: 1. That they play the best they know how, and 2. that they be good sports — win or lose. This is unquestionably a wise and reasonable philosophy.

Muhlenberg's debt to Dr. John V. Shankweiler is a great one. It is this type of unsung hero who makes a college program what it is. One thing is certain — those who have known him will never forget him.

# Golf Team Captures Final Two Matches

by Carl Shellenberger

The Muhlenberg Golf Teaem ended its 1958 season with two wins. One over a strong Villanova team and the other over the University of Scranton. Captain Dave Senger last Thursday shot the best round of his three year career at the Lehigh Valley Country club to take three points from Villanova's top player, Joe Lewis. Senger matched the par seventy to take medalist honors for the day.

Ron Choquette and Sid Gamberg were the only other winners in this match. Choquette beat Aguilino 2½ to ½, and Gamburg beat Reggie Zurinsks 2½ to ½. Russ Bleiler and Dennis Gurski picked up important points as they both lost their matches by a margin of two to one. Villanova's Kruse beat Jack Pfeiffer three to nothing. Muhlenberg won this match ten to eight. Previously Villanova had been defeated only by the University of Pennsylvania and Penn State.

**Scranton Victimized**

This past Tuesday at the Fox Mill Country club Muhlenberg took the toll of Scranton 12½ to 5½. Jack Pfeiffer was low man

# Netmen Drop Last Home Encounter To Dutchmen

**RETURN DELIVERY—Muhlenberg's number one man on the tennis squad backhands the ball over the net during his match with Lebanon Valley's Howard Good. Leighton, however, lost the match.**

The Muhlenberg tennis team played its last home match on its newly constructed courts in the 1958 season last Saturday and lost its fifth contest in seven, bowing to Lebanon Valley college, 6-3.

In the first match of the day, Howard Good, Lebanon Valley's ace, defeated Bob Leighton in three sets, 6-2, 2-6, and 6-3. Harry Berg losing also in three sets, was defeated by the Flying Dutchman's second man Ron Bell, 6-2, 3-6, and 6-3. Frank Csaszar became the first winner of the day for the Mules when, playing brilliantly, he defeated Robert Musser 6-3, 6-0. Gil Sopher was then defeated by Sam McLinn 6-4, 6-1. Ken Stewart was the only other Muhlenberg singles winner, defeating Ron Hovis, 6-2, 6-4, and in the last singles match Brent Follweiler was defeated by Lebanon Valley's Bob Senseniz, 6-2, 6-3.

**Doubles Competition**

In doubles competition, Lebanon Valley's first two singles winners combined to defeat Bob Leighton and Hary Berg, 6-4, 6-1. In the second match, Bob Musser and Sam McLinn doubled to defeat. Frank Csaszar and Ken Stewart. In the last match Roger Christine and Gil Sopher allied to defeat Ron Hovis and Bob Senseniz in a closely contested and exciting match, 6-8, 6-2, and 7-5.

Lebanon Valley in defeating the Mules ended its first intercollegiate tennis season with a two and three record. They have also triumphed over Elizabethtown while losing to Albright, Dickinson, and Gettysburg.

# Trackmen End Year, Face Bisons Saturday

The Muhlenberg thin clads travel to Lewisburg Saturday to meet an excellent Bucknell track team. The Bisons, coached by Sylvester (Bus) Blum, defeated the Mules last year by the score of 81 to 43. The Bisons were undefeated in four dual meets and one triangular last year, and again have a powerful well balanced attack.

Juniors and Seniors form the nucleus of the powerful, well-rounded team, and have the top seven scorers of last year's team back again.

Coach Blum's chief concern this year is depth in the 440, pole vault, and discus. The Bisons have an abundant amount of talent in the sprints and the distance events.

Lost from last year's winning team are Co-captains Art Saunders and Al Lararbee. Weight men Bill Benton and Chet Smith, and distance runner Pete Schuerholz will also be missing due to graduation.

**Returning Letermen**

Ten lettermen, including co-captains Ollie Clowe, Mamaroneck, N. Y., and Chet Wagner, Oakmont, have been among the standouts for Bus Blum, who is embarking on his 11th year at the helm. Over the past three springs his teams have won 14 of 15 dual

(Continued on Page Six)

# Mule Nine Whips Explorer Team; Bows To Lions

After defeating La Salle in a fantastic 20-19 game earlier in the week, the Mules made it two in a row by upending St. Joseph's 5-4 in a 10 inning battle which was decided by Joe Moskowitz's line single to right field which scored Pat Wilson from third base with the tie-breaking run. However, Saturday saw Berg's modest winning streak come to an end as they lost to Albright 6-3 in a game played on the Reading campus.

Against St. Joseph's Charlie Tackacs went the route to gain his first victory of the season. In the process the Muhlenberg right-hander struck out seven, walked three, and scattered seven hits.

The Mules scored 2 runs in each of the first and third innings which St. Joseph's promptly matched. The score stood at 4-4 as the Mules came to bat in the bottom of the tenth inning. Pat Wilson beat out a roller behind second and shortstop John Holcroft got his fifth of the day - a beautifully placed bunt which eluded the Hawk's pitcher Bobby Murphy. This set the stage for Moskowitz who took the first pitch, which got away from the St. Joseph's catcher and enabled Wilson to go to third and Holcroft to second. The smooth working first baseman promptly lined Murphy's next pitch into right field to break up the ball game.

In contrast to many recent games the Mule infield as a unit played fine ball. Holcroft and Sandy Dreskin worked faultlessly around second base in addition to combining for seven hits. Jim Nonnemaker and Moskowitz also turned in brilliant two way performances for the Mules.

On Saturday the Mules travelled to Reading where they dropped a 6-3 decision to Albright.

Fred Dietzel, Albright's fine all-around athlete, struck out 14 men as he pitched the distance for the Lions. Albright jumped to a quick

(Continued on Page Six)

# All-Sports Banquet To Feature Awards, Address By Trexler

Dr. Clifford Trexler, a member of the Muhlenberg Athletic committee and Board of trustees, will be the main speaker at the annual All Sports dinner to be held tonight, Thursday, May 22 at 6:45 p.m. in the College commons.

The event is sponsored each year near the close of the spring semester under the co-sponsorship of the Student council and the Athletic department. Dean Harry "Haps" Benfer will act as master of ceremonies for the occasion.

**Outstanding Senior Trophy**

It is at this time each year that the **WEEKLY** awards a trophy to the most outstanding senior athlete of the year. This year, in addition to the trophy awarded to the outstanding senior, it has been proposed that another trophy be presented to the most outstanding junior athlete of the year.

# Diamonders End Year; Play Host To Scranton

Muhlenberg will close its 1958 diamond campaign on Saturday, May 24, when they meet a visiting Scranton university nine. The Mules. (4-10-1), who are about to complete one of their poorer seasons, will be out to climax their 16 game slate with a closing victory.

Scranton, in their most recent outing, lost to Moravian (8-5 on the year) as Greyhound Dick Chergey won his third game in a week in a come-from-behind 9-4 triumph in Bethlehem on May 17. The 6' 2" sophomore right-hander came on in relief in the fifth and scattered five hits the rest of the way for his fourth win against two setbacks. For the Royals, Aten (1-1) was the loser, going seven innings, yielding 8 runs on 11 hits.

**Scranton Lineup**

In the infield, Scranton will have Alumni at first, Sohns at second, Cesare at short, and Oprendik at third. Basketballer Ray Caucci, 5' 11" letterman, will handle the receiving. In the outfield, Bob Meckwood, a 5' 10" soph speedster, will be in left, heavy-hitting Shopple in center, and Ed Keen in right.

This contest will mark the final appearance of Berg seniors Charles Takacs, Tony Caporale, Sandy Dreskin, and Ray Croft. Takacs (2-4), a slender right-hander, has proved very effective on occasions and has been the workhorse of the Mule staff for two years. Caporale, also a right-hander, has seen limited action in a relief role. Dreskin, captain of this year's squad, has had his ups and downs at third, while Croft, an outfielder, has come into his own this year with his timely hitting and steady fielding.

**Effective May 25th, 1958, study hours will be strictly enforced twenty-four hours a day in East hall and Martin Luther hall except for the following periods, when they shall be relaxed but not terminated:**

**7:00 a.m. to 9:00 a.m.**
**11:00 a.m. to 1:00 p.m.**
**5:00 p.m. to 7:00 p.m.**

**The Dormitory Council**

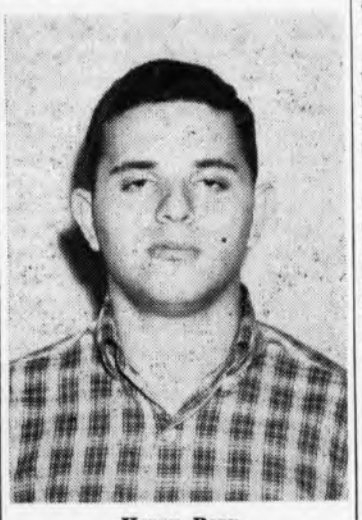
# *In the Sportlight . . .*

## Leighton And Berg Pace Tennis Squad

**BOB LEIGHTON**

Bob Leighton, captain of this year's tennis team, has led an active career here at Muhlenberg. After graduating from Stuyvesant high school in New York city, where he was a member of the swimming and tennis squads, Bob came to Muhlenberg and began to take part in a long line of activities. These activities include being president of the Freshman tribunal, treasurer of Student council, and a member of the Pre-Law and M clubs. A brother at Phi Epsilon Pi social fraternity, Bob has earned six letters while participating in tennis, soccer, and wrestling.

Bob believes this year's netmen could have had a winning season if the team would have been in better shape, and come through at the crucial points.



**Harry Berg**

For three years, Muhlenberg tennis followers have seen Harry Berg play winning tennis. This season the Teaneck high graduate is again turning out some fine performances. Besides three years on the courts, Harry has been active in other fields. He is a member of the Phi Epsilon Pi social fraternity, the M club, and the Business and Economics club. Harry has also served as editor of the **Ciarla** sports section and treasurer of the Muhlenberg Jazz society.

Harry is a Business administration major and plans on going into business with a candy manufacturer after graduation. The number two man on the tennis ladder was certainly no disappointment to anyone who followed the Muhlenberg tennis squad this season.

# Trackmen Fail To Score Win

**by Bill Wightman**

Although the Muhlenberg thinclads have failed to win a meet this year, they have shown marked improvement as the season progressed, and with the talent in the present freshman class much can be expected next year. During the past week the team absorbed two more losses at the hands of Franklin and Marshall and Ursinus.

Traveling to F. and M. last Saturday the Mules lost by a score of 89-37. Muhlenberg was able to earn only four first places as Bob Rosenheim won both the 100 yd. and the 220 yd. dashes, Ralph Borneman took the broad jump and Chuck Weider won the pole vault. In winning the pole vault Weider again came within ½" of tying the school record.

**Rosenheim High**

Rosenheim with his ten points was high scorer for the Mules while Borneman was second with nine on the win in the broad jump, a second in the high jump and a third in the 220. Leading the Diplomats to victory was the

(Continued on Page Six)

# *Sports in Short*

**by Ben Livingood**

The 1957-58 athletic campaign at Muhlenberg left a great deal to be desired in many ways. It was **a year of limited success and innumerable failures.** However, there are certain things to be considered before any one team or coach is strongly criticized. The main thing to be considered is the **attitude of the student body** toward the accomplishments of various teams throughout the seasons of the year. For the most part, **the general attitude of the student body was poor.** There is little question as to what teams were the **most successful** as far as wins and losses are concerned this year. They were the **wrestling** and **golf** teams. Both finished their seasons with **outstanding records,** of which the College can be proud. The **football** and **basketball** teams finished with **.500 records.** However, considering some of the problems which each of these two teams faced during their regular seasons, **their records certainly do not deserve to be criticized.** At least one consoling fact about the football and basketball squads is the **future promise** both demonstrated. It was a year of **adjustment and rebuilding** for both squads. That also should be considered before any criticism is made.

All other teams failed to register winning or even seasons. **But, was this entirely the fault of the players or coaches?** How much support did these **so-called** lesser sports receive from the students? The **poor backing** was evidenced by the handfuls of spectators at the various events. It seems that about the only time these teams were discussed or thought about was when they were being **mocked and laughed at by students who find it far more pleasurable to criticize rather than to encourage.** It has reached the point where anyone considering going out for these "lesser" sports hesitates to consider whether trying for an **'M'** is worth the mocks he must put up with in order to get it. If success in inter-collegiate athletic competition was measured in the number of **part time backers,** Muhlenberg would be credited with **overwhelming success.** A team needs backing at **all times,** and particularly when the going gets tough. Muhlenberg teams did not receive this sort of support during the 1957-58 campaign.

In more ways than one, those connected with **Muhlenberg sports** are anticipating **far greater success** in the coming year. Whether or not the support of the student body will be continually strong **(win, lose, or draw)** remains to be seen.

# *Two Runs In Ninth Give Mules Win Over Hounds*

A two-run rally in the ninth inning broke a 2-2 deadlock and gave Muhlenberg a 4-2 win over Moravian college Monday afternoon in Bethlehem. A single by Joe Moskowitz with the bases loaded and one out drove in the two winning runs. Charlie Takacs went the distance for the win, his second against four defeats. The victory was the fourth for the Mule diamondmen. They have lost nine and tied one. Moravian now has an 8-5 record.

Moravian grabbed an early lead with single tallies in the second and fourth frames. The Greyhounds scored in the second when Jim Frank walked, stole second, and advanced to third on Dick Schwartz's fly to center. He was driven home on a single by Tony Matz.

**Hounds Score Again**

The Hounds made it 2-0 in the fourth. Bill Hershey reached first safely on an error by Jim Nonnemaker, advanced to second on George Hollendersky's bunt single, and moved to third when Takacs threw wild to second in an attempted pick-off. He scored on Charlie Gilbert's grounder to first.

The Mules tied it in the fifth with a walk to Takacs and singles by Pat Wilson, John Holcroft, and Moskowitz.

The Bergmen used practically the same procedure to secure their winning margin in the top half of the ninth. Dave Hoover was hit by pitcher Dick Chergey. Singles by Wilson and Holcroft filled the bases before Moskowitz delivered his game-winning hit.

In clinching their fourth win of the season, the Mules outhit their hosts, 9-4. Chergey pitched the whole game for the Bethlehem collegians, absorbing his third loss against four wins.

# Flamish, Kozlowski To Attend Coach Conference At ESSTC

Even football coaches go to school.

For four days next month, Muhlenberg football coaches Bill Flamish and Jim Kozlowski will attend a football coaching school at East Stroudsburg State Teachers college. The dates of the school are June 16, 17, 18, and 19.

**Brennan To Attend**

During that four-day period, the two Mule coaches will attend a series of coaching conferences and clinics. They will be addressed and instructed by a number of big-time mentors including Terry Brennen of Notre Dame.

Following their schooling, both men will spend the remainder of the summer as assistant directors of the Scotty Woods day camp in Alburtis, just outside of Allentown.

Flamish and Kozlowski will return to Muhlenberg to reassume their coaching duties when football practice begins on September 2.

A new idea in smoking...
**Salem refreshes your taste**

Created by R. J. Reynolds Tobacco Company

• menthol fresh
• rich tobacco taste
• most modern filter

Refreshing! Yes, the smoke of a Salem is as refreshing to your taste as a dew-sparkled Spring morning is to you! Now get the rich tobacco taste you love, with a new surprise softness and easy comfort. Through Salem's pure-white modern filter flows the freshest taste in cigarettes. You take a puff . . . it's Springtime!

*Smoke refreshed . . . Smoke Salem* •

# Trackmen Lose To Ursinus Team

(Continued from Page Five)

versatile Bingham. He registered victories in the high hurdles and the high jump, took second in the low hurdles and third in the pole vault.

Against Ursinus yesterday the Mules made by far their best showing of the year losing 74-52, which was the season's high. Pierce Knauss got the ball rolling as he placed second in the mile. Knauss held the lead for the first lap after which Morgan took over and eventually won by a margin of 40 yds. In the 440 Ron Sussex and Ralph Borneman took early leads but in the backstretch Ursinus' Crosley came up like a ball of fire and won as Sussex and Borneman took 2-3. Herb Owens got off to a fast start in the 100 but Fox almost caught him in a virtual photo finish. Bob Rosenheim took third to give the Mules an extra point. Asher Krafchick and Dick Kalmbach finished 2-1 in the shotput to add eight more to the Berg score.

The high hurdles found Herb Loeffler leading till the third from last hurdle where he had a bad jump and two Bears went on to finish ahead of him. Dick Lewis and John Carty placed second and third respectively in the 880 behind the Bears' Morgan. In the 220 Fox gained revenge for his loss as he took first followed by teammate Crosley. John Haberern placed third. Chuck Weider came through with its usual win in the pole vault as Peterson took second. The Bear's Constantine gained a third place on a vault of only seven feet since there were just three men in the event. Herb Loeffler gained a tie with Gould in the high jump and Pierce Knauss grabbed another second in the two mile run. Genter gained the lead from Knauss after the first lap and extended the gap gfom there on.

Dickerson won the javelin for Ursinus but the Mules netted second and third behind the efforts of Krafchick and Ben Schoelkopf. The low hurdles was the only event the Mules failed to place in as Dickerson gained his second victory of the day. It was the Bears' Walton who won the discus but Schoellkopf and Glenn Johns finished second and third. In the final event of the day Ron Sussex won the broad jump and thus gained five points, making him the top Mule scorer of the afternoon.

# Golfers Win

(Continued from Page Four)

for Muhlenberg for the afternoon with a 77. However Scranton's Foley took medalist honors with a 74 as he beat Muhlenberg's Dave Senger, 2-1. Pfeiffer, Choquette, and Gurski each blanked their opponents, 3-0, while Ira Seidman halved his match 1½ to 1½.

Coach Senger's team ended their season with a five won two lost record. They lost only to Lehigh, winner of the Middle Atlanttics, and Lafayette. The indiivdual records are as follows: Senger; 3-3-1—Choquette; 3-3-1—Pfeiffer; 4-3-0—Bleiler; 4-2-1—Gamberg; 3-1-1 — Gurski; 3-2-0 and Seidman; 2-2-0.

Senger, Gamberg, Gurski, and Seidman are lost to the team through graduation. However Pfeiffer, Choquette, and Bleiler make up a good nucleus around which to build next year's team.

# Arcade Criticized

(Continued from Page Two)

Pleading cowardice again, I refuse to judge the poetry of Schwartz. Instead, I offer some recommendations. Read "Psalm 23" in the presence of Burt Eisenbud's "Study 1" (MCA exhibit). "The Golden Goodness" should be heard with Weckman's composition for piano, "Hortus Conclusus": both sing of what lies beyond the Walled Garden. "Winter" should be placed beside Silver's fine little song, "Love Dies First," and the two then put in the company of Haberern's ceramic "Troilus and Criseyde." This done, light and song appear to disappear to be reaffirmed, and we are prepared to see William's "Sunset" (MCA exhibit).

A good issue of the Arcade, I guess. But I wish these young athletes were given a rougher work-out.

# Netmen Lose

(Continued from Page Four)

and triangular meets.

In addition to broad jumper Clowe and sprinter Wagner, Bill Wooster, Rochester, N. Y., and Bob Wright, Floral Park, N. Y., figure as prolific point producers for the Bisons. An outstanding hurdler and high jumper, Wright was the pace setter last spring as a sophomore and continued his winning ways again this spring. Wooster, a basketball star, is an outstanding broad and high jumper.

Another veteran pair, 6' 1", 210 lb. shotput ace Lew Hart, and John Mueller, a pole vault, high jump, high hurdles expert will add greatly to the strength of the team.

The meet will be held in Memorial Stadium beginning at 2 p.m.

# Housemothers Appointed

(Continued from Page One)

ported that a new Dean of Women has not yet been appointed. Considerations of women to step into the vacated position will be handled at the next meeting of the Board of Trustees which is scheduled to take place on May 27. Past action on this problem has not been taken because the Board has not met since the announced resignation of the Dean of Women. Dr. Seegers does anticipate that a decision will be reached at this meeting.

# The Chowline

**Harry Eberhard has recently decreed that beginning this weekend the Commons will be opened during finals. You may feed from 9 a.m. until 12 noon, and from 4:30 until 5:30 p.m.**

Just think, within only a week and a half, students will be making their mass exodus from Muhlenberg to the shore, the Poconos, and summer camps. Be sure to save that extra money you make so that you can pay off the extended raise in tuition next year.

And for seniors who are graduating, we would like to wish the best of luck in all your future endeavors. We know you'll never forget your four years at Muhlenberg college, and we hope that they have provided a rewarding experience for you. Of course if you ever get a chance to return to Berg for a day, drop into the Snack bar, and we'll pour you one of those reminiscent cups of coffee which frequently relieved those driving nerves and pounding brains during test time.

So for all, the gang from behind the counter in the Student center Snack bar wishes everyone an enjoyable summer.

See you in the Snack bar!

**Adv.**

# Senior Banquet Set For June 7

As the last social event for the class of '58, the annual senior banquet wil be held on Saturday, **June 7 at 6:30 p.m.** in the Allentown Masonic temple. A steak dinner will be served at a cost of $2 per person. Wives and dates of the members of the senior class are also invited to attend.

This will be a class social gathering and will include a reading of the class history and will. The dinner is part of the senior weekend which will begin with the Senior ball on Friday evening continuing with the banquet on Saturday evening which will be followed by the Baccalaureate service on Sunday afternoon and the graduation excercises on Monday.

Tickets for the Senior banquet may be obtained from Charlie Schmerker, Carl Oplinger, Harry Berg, Ernie Helfrich or Bud Fix.

# Muhlenberg Nine Whips Explorers

(Continued from Page Four)

lead and was never headed tallying 4 in the first, 1 in the second, and 1 in the eighth. The Mules chipped away for single runs in the seventh, eighth, and ninth innings and were close to pulling the game out in the ninth when Croft and Schumacher walked. Croft scored a moment later on second baseman Dreskin's solid single. Chick Smith's bid for his fourth hit of the game was denied as the Lion rightfielder made a spectacular diving grab of Chick's looper, thus ending the Mule rally.

Nonnemaker went all the way for the Mules, giving up seven hits.

# Yearbook Staff

(Continued from Page Three)

new interest and effort on the part of the girls. They have helped a great deal to build this needed good book and thus, we hope, to raise the standing of the publication. With a good book we will get better participation and more interest from the students next year."

A good yearbook is an asset to any campus community, but a good publication requires the help of many people. In urging students to devote time to the Ciarla, Spivak remarks:

"For the people who like to write, take pictures or do general planning, this work can give valuable experience. But above all, the student who helps will be giving the yearbook its proper emphasis on campus."

# Fallout Effects

(Continued from Page Two)

sterilize males and females. Loss of coordination results from effects in the central nervous system, and malformation of embryos is caused by exposure during the gestation period.

The question of fallout is not one of whether or not we will have radiation effects on the people of the world, but a question of how much more radiation we can stand without experiencing the extinction of man. The report mentioned in this article gives much information approaching an answer, but the known facts are far outweighed by the unanswered questions. At this point, we can be reasonably sure that our radiation dosage is not significantly above the natural level, but only skillful management of our nuclear processes will keep it so.

# . . . Student Council Report . . .

May 15, 1958

The regular meeting of the 1958-59 Muhlenberg college Student council was called to order at 7:05 p.m. by President Richard Truchses. All members were present except Mr. Nase, and Mr. Miller.

**TREASURER'S REPORT:**

| | |
|---|---|
| Student Body fund | $1,584.56 |
| Social fund | 1,332.21 |
| Assembly fund | 984.77 |
| | $3,901.54 |

**COMMITTEE REPORTS:**

Mr. Carnevale reported that the cost of policing the proposed parking lots by the Musselman's Detective service would cost $50.00 a month for an eight months period.

**Dorimtory:**—Mr. Horger reported that an additional fine will be imposed upon those students not paying their present fines.

Mr. Horger reported on the National Student association conference held at Temple university. Pres. Truchses requested a further study on the merits of the NSA program and the benefits Muhlenberg would recieve.

**NEW BUSINESS:**

The Constitution of the Women of Muhlenberg college was reviewed and changes made. Miss Sos explained some of the points in question. The constitution will now be presented to the women students for approval.

On motion by Mr. Smith and Bausch, that the tennis courts be open daily until dusk, and that the tennis courts be open, free of charge, during the summer months to those students holding activity cards from the previous school year, as well as enrolled summer students.

On motion by Mr. Dudak and Mr. Horger, Student council will express its thanks and appreciation to Mr. McCauley for the repairs made on the second floor of the Student center.

The new dormitory demerit system was reviewed and amended. On motion by Mr. Horger and Mrs. Carnevale the Demerit code was approved.

Mr. Eisenbud was elected to head next year's Big Brother program.

The following named men have been elected by Student council to be members of next year's Honor court.

| | |
|---|---|
| R. Behrle | D. Auerbach |
| D. Rothfeld | S. Dudak |
| I. Swann | G. Weckman |
| D. Walker | R. Weller |
| P. Horger | R. Bartholomew |

On motion by Mr. Carnevale and Mr. Tuchinsky the meeting was adjourned at 9:47 p.m.

Respectfully submitted,

DAVID K. BAUSCH, Recording Secretary

# Sticklers!

WHAT'S THE FOREMAN IN A CATCHUP FACTORY?
SHARON VACHON, U. OF DETROIT — *Sauce Boss*

WHAT IS PEANUT BUTTER?
ROBERT ALTIERI, U. OF PITTSBURGH — *Spreadable Edible*

WHAT'S A BANK'S ARMORED CAR?
JENNIFER BELT, RADCLIFFE — *Buck Truck*

**LAST CALL FOR STICKLERS!** If you haven't Stickled by now, *you may never get the chance again!* Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y.

WHAT'S A SENIOR WHO DOESN'T GET LUCKIES FOR A GRADUATION PRESENT?
( SEE PARAGRAPH BELOW )
LUCKY STRIKE
"IT'S TOASTED"
CIGARETTES

**GRADUATION PRESENTS?** You *may* get a (Groan!) 6-cylinder European sports car or a (Yawn!) 6-month European vacation. These silly baubles just prove that parents don't understand the college generation. What every senior really wants (C'mon now, admit it!) is a generous supply of Luckies! Luckies, as everyone knows, are the best-tasting cigarettes on earth. They're packed with rich, good-tasting tobacco, toasted to taste even better. So the senior who doesn't receive 'em is bound to be a *Sad Grad!* Why let parents spoil commencement—it only happens (Sob!) once. Tell 'em to gift-wrap those Luckies right now!

WHAT IS AN INEPT SKIER?
HELEN ZAYNOR, U. OF AKRON — *Slope Dope*

WHAT'S A GROUP OF 190-LB. GIRLS?
CAROL BRADSHAW, COLORADO STATE — *Heavy Bevy*

WHAT IS AN OSTRACIZED BEE?
BARBARA PELLOW, DE PAUW — *Lone Drone*

WHAT ARE A ROBOT'S RELATIVES?
DON GUTHRIE, U. OF WICHITA — *Tin Kin*
